72-3-212. Informal probate — clerk to make findings. In an informal proceeding for original probate of a will, the clerk shall determine whether:

(1) the application is complete;

(2) the applicant has made oath or affirmation that the statements contained in the application are true to the best of the applicant's knowledge and belief;

(3) the applicant appears from the application to be an interested person as defined in 72-1-103;

(4) on the basis of the statements in the application, venue is proper;

(5) an original, duly executed, and apparently unrevoked will is in the clerk's possession;

(6) any notice required by 72-3-106 has been given and that the application is not within 72-3-213(5); and

(7) it appears from the application that the time limit for original probate has not expired.

History: En. 91A-3-303 by Sec. 1, Ch. 365, L. 1974; amd. Sec. 2, Ch. 516, L. 1975; R.C.M. 1947, 91A-3-303(1); amd. Sec. 73, Ch. 494, L. 1993.

72-3-213. Rules for grant or denial of informal probate. (1) A will that appears to have the required signatures and that contains an attestation clause showing that requirements of execution under 72-2-522 or 72-2-526 have been met must be probated without further proof. In other cases the clerk may assume execution if the will appears to be properly executed or may accept a sworn statement or affidavit of any person having knowledge of the circumstances of execution, whether or not the person was a witness to the will.

(2) The application must be denied if it indicates that a personal representative has been appointed in another county of this state or, except as provided in subsection (3), if it appears that this or another will of the decedent has been the subject of a previous probate order.

(3) Informal probate of a will that has been previously probated elsewhere may be granted at any time upon written application by any interested person, together with deposit of an authenticated copy of the will and of the statement probating it from the office or court where it was first probated.

(4) A will from a place that does not provide for probate of a will after death and that is not eligible for probate under 72-3-212 may be probated in this state upon receipt by the clerk of a duly authenticated copy of the will and a duly authenticated certificate of its legal custodian that the copy filed is a true copy and that the will has become operative under the law of the other place.

(5) Application for informal probate that relates to one or more of a known series of testamentary instruments (other than a will and one or more codicils to the will), the latest of which does not expressly revoke the earlier, must be declined.

History: (1) thru (4)En. 91A-3-303 by Sec. 1, Ch. 365, L. 1974; amd. Sec. 2, Ch. 516, L. 1975; Sec. 91A-3-303, R.C.M. 1947; (5)En. 91A-3-304 by Sec. 1, Ch. 365, L. 1974; Sec. 91A-3-304, R.C.M. 1947; R.C.M. 1947, 91A-3-303(2) thru (5), 91A-3-304; amd. Sec. 10, Ch. 582, L. 1989; amd. Sec. 74, Ch. 494, L. 1993.

72-3-214. Power of clerk to deny informal probate — effect of denial. (1) If the clerk is not satisfied that a will is entitled to be probated in informal proceedings because of failure to meet the requirements of 72-3-212 and 72-3-213 or any other reason, he may decline the application.

(2) A declination of informal probate is not an adjudication and does not preclude formal probate proceedings.

History: En. 91A-3-305 by Sec. 1, Ch. 365, L. 1974; R.C.M. 1947, 91A-3-305.

72-3-215. Clerk to issue statement of informal probate — effect — procedural defect not to void probate. (1) Upon receipt of an application requesting informal probate of a will, the clerk, upon making the findings required by 72-3-212 and 72-3-213, shall issue a written statement of informal probate if at least 120 hours have elapsed since the decedent's death.

(2) Informal probate is conclusive as to all persons until superseded by an order in a formal testacy proceeding.

(3) No defect in the application or procedure relating thereto which leads to informal probate of a will renders the probate void.

History: En. 91A-3-302 by Sec. 1, Ch. 365, L. 1974; R.C.M. 1947, 91A-3-302.

72-3-216 through 72-3-220 reserved.

72-3-221. Informal appointment — notice requirements. (1) The moving party must give notice as described by 72-1-301 of his intention to seek an appointment informally:

(a) to any person demanding it pursuant to 72-3-106; and

(b) to any person having a prior or equal right to appointment not waived in writing and filed with the court.

(2) No other notice of an informal appointment proceeding is required.

History: En. 91A-3-310 by Sec. 1, Ch. 365, L. 1974; R.C.M. 1947, 91A-3-310.

72-3-222. Informal appointment — clerk to make findings. In informal appointment proceedings, the clerk shall determine whether:

(1) the application for informal appointment of a personal representative is complete;

(2) the applicant has made oath or affirmation that the statements contained in the application are true to the best of the applicant's knowledge and belief;

(3) the applicant appears from the application to be an interested person as defined in 72-1-103;

(4) on the basis of the statements in the application, venue is proper;

(5) any will to which the requested appointment relates has been formally or informally probated, but this requirement does not apply to the appointment of a special administrator;

(6) any notice required by 72-3-106 has been given;

(7) from the statements in the application, the person whose appointment is sought has priority entitling the person to the appointment.

History: En. 91A-3-308 by Sec. 1, Ch. 365, L. 1974; R.C.M. 1947, 91A-3-308(1); amd. Sec. 75, Ch. 494, L. 1993.

72-3-223. Rules for denial of informal appointment. (1) Unless 72-3-523 controls, the application must be denied if it indicates:

(a) that a personal representative who has not filed a written statement of resignation as provided in 72-3-525 has been appointed in this or another county of this state;

(b) that (unless the applicant is the domiciliary personal representative or his nominee) the decedent was not domiciled in this state and that a personal representative whose appointment has not been terminated has been appointed by a court in the state of domicile; or

(c) that other requirements of 72-3-222 have not been met.

(2) If an application for informal appointment indicates the existence of a possible unrevoked testamentary instrument which may relate to property subject to the laws of this state and which is not filed for probate in this court, the clerk shall decline the application.

History: En. 91A-3-308, 91A-3-311 by Sec. 1, Ch. 365, L. 1974; R.C.M. 1947, 91A-3-308(2), 91A-3-311.

72-3-224. Informal appointment — power of clerk to deny — effect of denial. (1) If the clerk is not satisfied that a requested informal appointment of a personal representative should be made because of failure to meet the requirements of 72-3-222, 72-3-223, and 72-3-225 or for any other reason, he may decline the application.

(2) A declination of informal appointment is not an adjudication and does not preclude appointment in formal proceedings.

History: En. 91A-3-309 by Sec. 1, Ch. 365, L. 1974; R.C.M. 1947, 91A-3-309.

72-3-225. Duty of clerk to make appointment — effect. (1) Upon receipt of an application for informal appointment of a personal representative other than a special administrator as provided in 72-3-701, if at least 120 hours have elapsed since the decedent's death, the clerk, after making the findings required by 72-3-222 and 72-3-223, shall appoint the applicant subject to qualification and acceptance, provided that if the decedent was a nonresident, the clerk shall delay the order of appointment until 30 days have elapsed since death unless the personal representative appointed at the decedent's domicile is the applicant or unless the decedent's will directs that his estate be subject to the laws of this state.

(2) The status of personal representative and the powers and duties pertaining to the office are fully established by informal appointment. An appointment and the office of personal representative created thereby is subject to termination as provided in 72-3-521 through 72-3-526 but is not subject to retroactive vacation.

History: En. 91A-3-307 by Sec. 1, Ch. 365, L. 1974; R.C.M. 1947, 91A-3-307.

Part 3
Formal Testacy and Appointment Proceedings

72-3-301. Petition for formal testacy or appointment — contents — last will. (1) Petitions for formal probate of a will or for adjudication of intestacy with or without request for appointment of a personal representative must be directed to the court, request a judicial order after notice and hearing, and contain further statements as indicated in this section. A petition for formal probate of a will:

(a) requests an order as to the testacy of the decedent in relation to a particular instrument which may or may not have been informally probated and determining the heirs;

(b) contains the statements required for informal applications as stated in the five subsections under 72-3-202, the statements required by subsections (b) and (c) of 72-3-203(1); and

(c) states whether the original of the last will of the decedent is in the possession of the court or accompanies the petition. If the original will is neither in the possession of the court nor accompanies the petition and no authenticated copy of a will probated in another jurisdiction accompanies the petition, the petition also must state the contents of the will and indicate that it is lost, destroyed, or otherwise unavailable.

(2) A petition for adjudication of intestacy and appointment of an administrator in intestacy must request a judicial finding and order that the decedent left no will and determining the heirs, contain the statements required by 72-3-202 and 72-3-204, and indicate whether supervised administration is sought. A petition may request an order determining

intestacy and heirs without requesting the appointment of an administrator, in which case the statements required by 72-3-204(2) may be omitted.

History: En. 91A-3-402 by Sec. 1, Ch. 365, L. 1974; R.C.M. 1947, 91A-3-402.

72-3-302. Formal testacy proceedings — nature — how and when commenced. (1) A formal testacy proceeding is litigation to determine whether a decedent left a valid will.

(2) A formal testacy proceeding may be commenced by an interested person filing a petition:

(a) as described in 72-3-301(1) in which he requests that the court, after notice and hearing, enter an order probating a will;

(b) to set aside an informal probate of a will or to prevent informal probate of a will which is the subject of a pending application; or

(c) for an order that the decedent died intestate.

(3) A petition may seek formal probate of a will without regard to whether the same or a conflicting will has been informally probated.

(4) A formal testacy proceeding may but need not involve a request for appointment of a personal representative.

History: En. 91A-3-401 by Sec. 1, Ch. 365, L. 1974; R.C.M. 1947, 91A-3-401(part).

72-3-303. Formal proceeding supersedes all informal applications. During the pendency of a formal testacy proceeding, the clerk shall not act upon any application for informal probate of any will of the decedent or any application for informal appointment of a personal representative of the decedent.

History: En. 91A-3-401 by Sec. 1, Ch. 365, L. 1974; R.C.M. 1947, 91A-3-401(part).

72-3-304. Effect of formal proceeding on power of informally appointed personal representative. Unless a petition in a formal testacy proceeding also requests confirmation of the previous informal appointment, a previously appointed personal representative, after receipt of notice of the commencement of a formal probate proceeding, must refrain from exercising his power to make any further distribution of the estate during the pendency of the formal proceeding. A petitioner who seeks the appointment of a different personal representative in a formal proceeding also may request an order restraining the acting personal representative from exercising any of the powers of his office and requesting the appointment of a special administrator. In the absence of a request or if the request is denied, the commencement of a formal proceeding has no effect on the powers and duties of a previously appointed personal representative other than those relating to distribution.

History: En. 91A-3-401 by Sec. 1, Ch. 365, L. 1974; R.C.M. 1947, 91A-3-401(part).

72-3-305. Notice of hearing on petition for formal testacy proceeding. (1) Upon commencement of a formal testacy proceeding, the court or clerk shall fix a time and place of hearing.

(2) Notice shall be given in the manner prescribed by 72-1-301 by the petitioner to the persons herein enumerated and to any additional person who has filed a demand for notice under 72-3-106 of this code. Notice shall be given to the following persons:

(a) the surviving spouse, children, and other heirs of the decedent;

(b) the devisees and executors named in any will that is being or has been probated or offered for informal or formal probate in the county or that is known by the petitioner to have been probated or offered for informal or formal probate elsewhere; and

(c) any personal representative of the decedent whose appointment has not been terminated.

(3) In addition, the petitioner shall give notice by publication to all unknown persons and to all known persons whose addresses are unknown who have any interest in the matters being litigated.

(4) Notice may be given to other persons.

History: En. 91A-3-403 by Sec. 1, Ch. 365, L. 1974; amd. Sec. 3, Ch. 516, L. 1975; R.C.M. 1947, 91A-3-403(1).

72-3-306. Notice and procedure when fact of death in doubt. (1) If it appears by the petition or otherwise that the fact of the death of the alleged decedent may be in doubt or on the written demand of any interested person, a copy of the notice of the hearing on said petition shall be sent by registered or certified mail to the alleged decedent at his last known address. The court shall direct the petitioner to report the results of or make and report back concerning a reasonably diligent search for the alleged decedent in any manner that may seem advisable, including any or all of the following methods:

(a) by inserting in one or more suitable periodicals a notice requesting information from any person having knowledge of the whereabouts of the alleged decedent;

(b) by notifying law enforcement officials and public welfare agencies in appropriate locations of the disappearance of the alleged decedent;

(c) by engaging the services of an investigator.

(2) The costs of any search so directed shall be paid by the petitioner if there is no administration or by the estate of the decedent in case there is administration.

History: En. 91A-3-403 by Sec. 1, Ch. 365, L. 1974; amd. Sec. 3, Ch. 516, L. 1975; R.C.M. 1947, 91A-3-403(2).

72-3-307. Hearings and proof in uncontested cases. If a petition in a testacy proceeding is unopposed, the court may order probate or intestacy on the strength of the pleadings if satisfied that the conditions of 72-3-313 and 72-3-316 have been met or conduct a hearing in open court and require proof of the matters necessary to support the order sought. If evidence concerning execution of the will is necessary, the affidavit or testimony of one of any attesting witnesses to the instrument is sufficient. If the affidavit or testimony of an attesting witness is not available, execution of the will may be proved by other evidence or affidavit.

History: En. 91A-3-405 by Sec. 1, Ch. 365, L. 1974; R.C.M. 1947, 91A-3-405.

72-3-308. Written objections to probate. Any party to a formal proceeding who opposes the probate of a will for any reason shall state in his pleadings his objections to probate of the will.

History: En. 91A-3-404 by Sec. 1, Ch. 365, L. 1974; R.C.M. 1947, 91A-3-404.

72-3-309. Testimony of attesting witnesses in contested cases — presumptions for self-proved will. (1) If evidence concerning execution of an attested will which is not self-proved is necessary in contested cases, the testimony of at least one of the attesting witnesses, if within the state and competent and able to testify, is required. Due execution of an attested or unattested will may be proved by other evidence.

(2) If the will is self-proved, compliance with signature requirements for execution is conclusively presumed and other requirements of execution are presumed, subject to rebuttal, without the testimony of any witness, upon filing the will and the acknowledgment and affidavits annexed or attached thereto, unless there is proof of fraud or forgery affecting the acknowledgment or affidavit.

History: En. 91A-3-406 by Sec. 1, Ch. 365, L. 1974; R.C.M. 1947, 91A-3-406; amd. Sec. 2, Ch. 6, L. 1979.

72-3-310. Burdens in contested cases. In contested cases, petitioners who seek to establish intestacy have the burden of establishing prima facie proof of death, venue, and heirship. Proponents of a will have the burden of establishing prima facie proof of due execution in all cases and, if they are also petitioners, prima facie proof of death and venue. Contestants of a will have the burden of establishing lack of testamentary intent or capacity, undue influence, fraud, duress, mistake, or revocation. Parties have the ultimate burden of persuasion as to matters with respect to which they have the initial burden of proof.

History: En. 91A-3-407 by Sec. 1, Ch. 365, L. 1974; R.C.M. 1947, 91A-3-407(part).

72-3-311. Priority of determinations in contested cases. If a will is opposed by the petition for probate of a later will revoking the former, it shall be determined first whether the later will is entitled to probate, and if a will is opposed by a petition for a declaration of intestacy, it shall be determined first whether the will is entitled to probate.

History: En. 91A-3-407 by Sec. 1, Ch. 365, L. 1974; R.C.M. 1947, 91A-3-407(part).

72-3-312. Effect of final order in another state. A final order of a court of another state determining testacy, the validity or construction of a will, made in a proceeding involving notice to and an opportunity for contest by all interested persons must be accepted as determinative by the courts of this state if it includes or is based upon a finding that the decedent was domiciled at his death in the state where the order was made.

History: En. 91A-3-408 by Sec. 1, Ch. 365, L. 1974; R.C.M. 1947, 91A-3-408.

72-3-313. Order for formal probate. (1) After the time required for any notice has expired, upon proof of notice, and after any hearing that may be necessary, if the court finds that the testator is dead, venue is proper, and that the proceeding was commenced within the limitation prescribed by 72-3-122, it shall determine the decedent's domicile at death, his heirs, and his state of testacy. Any will found to be valid and unrevoked shall be formally probated.

(2) Termination of any previous informal appointment of a personal representative, which may be appropriate in view of the relief requested and findings, is governed by 72-3-523.

(3) The petition shall be dismissed or appropriate amendment allowed if the court is not satisfied that the alleged decedent is dead.

History: En. 91A-3-409 by Sec. 1, Ch. 365, L. 1974; R.C.M. 1947, 91A-3-409(part).

72-3-314. Probate of more than one instrument — order. (1) If two or more instruments are offered for probate before a final order is entered in a formal testacy proceeding, more than one instrument may be probated if neither expressly revokes the other or contains provisions which work a total revocation by implication.

(2) If more than one instrument is probated, the order shall indicate what provisions control in respect to the nomination of an executor, if any. The order may but need not indicate how any provisions of a particular instrument are affected by the other instrument. After a final order in a testacy proceeding has been entered, no petition for probate of any other instrument of the decedent may be entertained, except incident to a petition to vacate or modify a previous probate order and subject to the time limits of 72-3-317.

History: En. 91A-3-410 by Sec. 1, Ch. 365, L. 1974; R.C.M. 1947, 91A-3-410.

72-3-315. Order of partial intestacy. If it becomes evident in the course of a formal testacy proceeding that, though one or more instruments are entitled to be probated, the decedent's estate is or may be partially intestate, the court shall enter an order to that effect.

History: En. 91A-3-411 by Sec. 1, Ch. 365, L. 1974; R.C.M. 1947, 91A-3-411.

72-3-316. Will from place where probate unprovided for. A will from a place which does not provide for probate of a will after death may be proved for probate in this state by a duly authenticated certificate of its legal custodian that the copy introduced is a true copy and that the will has become effective under the law of the other place.

History: En. 91A-3-409 by Sec. 1, Ch. 365, L. 1974; R.C.M. 1947, 91A-3-409(part).

72-3-317. Effect of formal testacy order — modification or vacation — fact of death — remedies of alleged decedent. Subject to appeal and subject to vacation as provided in 72-3-318 and this section, a formal testacy order under 72-3-313 through 72-3-316, including an order that the decedent left no valid will and determining heirs, is final as to all persons with respect to all issues concerning the decedent's estate that the court considered or might have considered incident to its rendition relevant to the question of whether the decedent left a valid will and to the determination of heirs, except that:

(1) the court shall entertain a petition for modification or vacation of its order and probate of another will of the decedent if it is shown that the proponents of the later-offered will:

(a) were unaware of its existence at the time of the earlier proceeding; or

(b) were unaware of the earlier proceeding and were given no notice of the proceeding, except by publication;

(2) if intestacy of all or part of the estate has been ordered, the determination of heirs of the decedent may be reconsidered if it is shown that one or more persons were omitted from the determination and it is also shown that the persons:

(a) were unaware of their relationship to the decedent;

(b) were unaware of the decedent's death; or

(c) were given no notice of any proceeding concerning the decedent's estate, except by publication;

(3) a petition for vacation under either subsection (1) or (2) above must be filed prior to the earlier of the following time limits:

(a) if a personal representative has been appointed for the estate, the time of entry of any order approving final distribution of the estate or, if the estate is closed by statement, 6 months after the filing of the closing statement;

(b) whether or not a personal representative has been appointed for the estate of the decedent, the time prescribed by 72-3-122 when it is no longer possible to initiate an original proceeding to probate a will of the decedent;

(c) 12 months after the entry of the order sought to be vacated;

(4) the order originally rendered in the testacy proceeding may be modified or vacated, if appropriate under the circumstances, by the order of probate of the later-offered will or the order redetermining heirs;

(5) the finding of the fact of death is conclusive as to the alleged decedent only if notice of the hearing on the petition in the formal testacy proceeding was sent by registered or certified mail addressed to the alleged decedent at the last known address and the court finds that a search under 72-3-306 was made. If the alleged decedent is not dead, even if notice was sent and search was made, the alleged decedent may recover estate assets in the hands of the personal representative. In addition to any remedies available to the alleged decedent by reason of any fraud or intentional wrongdoing, the alleged decedent may recover any estate or its proceeds from distributees that is in their hands or the value of distributions received by them, to the extent that any recovery from distributees is equitable in view of all of the circumstances.

History: En. 91A-3-412 by Sec. 1, Ch. 365, L. 1974; R.C.M. 1947, 91A-3-412; amd. Sec. 26, Ch. 592, L. 1995.

72-3-318. Modification or vacation for other cause. For good cause shown, an order in a formal testacy proceeding may be modified or vacated within the time allowed for appeal.

History: En. 91A-3-413 by Sec. 1, Ch. 365, L. 1974; R.C.M. 1947, 91A-3-413.

72-3-319. Formal appointment proceedings. (1) A formal proceeding for adjudication regarding the priority or qualification of one who is an applicant for appointment as personal representative or of one who previously has been appointed personal representative in informal proceedings, if an issue concerning the testacy of the decedent is or may be involved, is governed by 72-3-301 as well as by this section. In other cases, the petition shall contain or adopt the statements required by 72-3-202 and describe the question relating to priority or qualification of the personal representative which is to be resolved. If the proceeding precedes any appointment of a personal representative, it shall stay any pending informal appointment proceedings as well as any commenced thereafter. If the proceeding is commenced after appointment, the previously appointed personal representative, after receipt of notice thereof, shall refrain from exercising any power of administration except as necessary to preserve the estate or unless the court orders otherwise.

(2) After notice to interested persons, including all persons interested in the administration of the estate as successors under the applicable assumption concerning testacy, any previously appointed personal representative, and any person having or claiming priority for appointment as personal representative, the court shall determine who is entitled to appointment under 72-3-501 through 72-3-508, make a proper appointment, and if appropriate, terminate any prior appointment found to have been improper as provided in cases of removal under 72-3-526.

History: En. 91A-3-414 by Sec. 1, Ch. 365, L. 1974; R.C.M. 1947, 91A-3-414.

Part 4
Supervised Administration

72-3-401. Supervised administration — nature and purpose. Supervised administration is a single in rem proceeding to secure complete administration and settlement of a decedent's estate under the continuing authority of the court, which extends until entry of an order approving distribution of the estate and discharging the personal representative or other order terminating the proceeding.

History: En. 91A-3-501 by Sec. 1, Ch. 365, L. 1974; R.C.M. 1947, 91A-3-501(part).

72-3-402. Petition and order. (1) A petition for supervised administration may be filed by any interested person or by a personal representative at any time or the prayer for supervised administration may be joined with a petition in a testacy or appointment proceeding. If the testacy of the decedent and the priority and qualification of any personal representative have not been adjudicated previously, the petition for supervised administration shall include the matters required of a petition in a formal testacy proceeding and the notice requirements and procedures applicable to a formal testacy proceeding apply. If not previously adjudicated, the court shall adjudicate the testacy of the decedent and questions relating to the priority and qualifications of the personal representative in any case involving a request for supervised administration, even though the request for supervised administration may be denied.

(2) After notice to interested persons, the court shall order supervised administration of a decedent's estate:

(a) if the decedent's will directs supervised administration, unless the court finds that circumstances bearing on the need for supervised administration have changed since the execution of the will and that there is no necessity for supervised administration;

(b) only upon a finding that it is necessary for protection of persons interested in the estate if the decedent's will directs unsupervised administration; or

(c) in other cases if the court finds that supervised administration is necessary under the circumstances.

History: En. 91A-3-502 by Sec. 1, Ch. 365, L. 1974; R.C.M. 1947, 91A-3-502.

72-3-403. Effect on other proceedings and previously appointed personal representative. (1) The pendency of a proceeding for supervised administration of a decedent's estate stays action on any informal application then pending or thereafter filed.

(2) If a will has been previously probated in informal proceedings, the effect of the filing of a petition for supervised administration is as provided for formal testacy proceedings by 72-3-303 and 72-3-304.

(3) After he has received notice of the filing of a petition for supervised administration, a personal representative who has been appointed previously shall not exercise his power to distribute any estate. The filing of the petition does not affect his other powers and duties unless the court restricts the exercise of any of them pending full hearing on the petition.

History: En. 91A-3-503 by Sec. 1, Ch. 365, L. 1974; R.C.M. 1947, 91A-3-503.

72-3-404. Powers and duties of personal representative. (1) A supervised personal representative is responsible to the court, as well as to the interested parties, and is subject to directions concerning the estate made by the court on its own motion or on the motion of any interested party.

(2) Except as otherwise provided in this part or as otherwise ordered by the court, a supervised personal representative has the same duties and powers as a personal representative who is not supervised.

(3) Unless restricted by the court, a supervised personal representative has, without interim orders approving exercise of a power, all powers of personal representatives under this code, but he shall not exercise his power to make any distribution of the estate without prior order of the court. Any other restriction on the power of a personal representative which may be ordered by the court must be endorsed on his letters of appointment and unless so endorsed is ineffective as to persons dealing in good faith with the personal representative.

History: En. 91A-3-501, 91A-3-504 by Sec. 1, Ch. 365, L. 1974; R.C.M. 1947, 91A-3-501(part), 91A-3-504.

72-3-405. Interim orders. Interim orders approving or directing partial distributions or granting other relief may be issued by the court at any time during the pendency of a supervised administration on the application of the personal representative or any interested person.

History: En. 91A-3-505 by Sec. 1, Ch. 365, L. 1974; R.C.M. 1947, 91A-3-505(part).

72-3-406. Closing orders. Unless otherwise ordered by the court, supervised administration is terminated by order in accordance with time restrictions, notices, and contents of orders prescribed for proceedings under 72-3-1001 and 72-3-1002.

History: En. 91A-3-505 by Sec. 1, Ch. 365, L. 1974; R.C.M. 1947, 91A-3-505(part).

(2) the surviving spouse of the decedent who is a devisee of the decedent;

72-3-503. Objection to appointment. (1) An objection to an appointment can be made only in formal proceedings.

(2) In case of objection the priorities stated in 72-3-502 apply, except that:

(a) if the estate appears to be more than adequate to meet exemptions and costs of administration but inadequate to discharge anticipated unsecured claims, the court, on petition of creditors, may appoint any qualified person;

(b) in case of objection to appointment of a person other than one whose priority is determined by will by an heir or devisee appearing to have a substantial interest in the estate, the court may appoint a person who is acceptable to heirs and devisees whose interests in the estate appear to be worth in total more than half of the probable distributable value or, in default of this accord, any suitable person.

History: En. 91A-3-203 by Sec. 1, Ch. 365, L. 1974; amd. Sec. 1, Ch. 223, L. 1977; R.C.M. 1947, 91A-3-203(2).

72-3-504. Renunciation — nomination of other — two or more persons sharing priority. (1) A person entitled to letters under (2) through (6) of 72-3-502 may nominate a qualified person to act as personal representative.

(2) Any person entitled to letters may renounce his right to nominate or to an appointment by appropriate writing filed with the court.

(3) When two or more persons share a priority, those of them who do not renounce must concur in nominating another to act for them or in applying for appointment. If they are unable

to concur in nominating another to act for them or in applying for appointment, the court may appoint any qualified person.

History: En. 91A-3-203 by Sec. 1, Ch. 365, L. 1974; amd. Sec. 1, Ch. 223, L. 1977; R.C.M. 1947, 91A-3-203(3).

72-3-505. Rights of conservators relating to appointment. Conservators of the estates of protected persons or, if there is no conservator, any guardian except a guardian ad litem of a minor or incapacitated person may exercise the same right to nominate, to object to another's appointment, or to participate in determining the preference of a majority in interest of the heirs and devisees that the protected person or ward would have if qualified for appointment.

History: En. 91A-3-203 by Sec. 1, Ch. 365, L. 1974; amd. Sec. 1, Ch. 223, L. 1977; R.C.M. 1947, 91A-3-203(4).

72-3-506. Priority of domiciliary personal representative. A personal representative appointed by a court of the decedent's domicile has priority over all other persons, except where the decedent's will nominates different persons to be personal representative in this state and in the state of domicile. The domiciliary personal representative may nominate another, who shall have the same priority as the domiciliary personal representative.

History: En. 91A-3-203 by Sec. 1, Ch. 365, L. 1974; amd. Sec. 1, Ch. 223, L. 1977; R.C.M. 1947, 91A-3-203(7).

72-3-507. Appointment of one not having priority. Appointment of one who does not have priority, including priority resulting from renunciation or nomination determined pursuant to 72-3-504, may be made only in formal proceedings. Before appointing one without priority, the court must determine that those having priority, although given notice of the proceedings, have failed to request appointment or to nominate another for appointment and that administration is necessary.

History: En. 91A-3-203 by Sec. 1, Ch. 365, L. 1974; amd. Sec. 1, Ch. 223, L. 1977; R.C.M. 1947, 91A-3-203(5).

72-3-508. Application of priority provisions to appointment of successor. Sections 72-3-501 through 72-3-507 govern priority for appointment of a successor personal representative but do not apply to the selection of a special administrator.

History: En. 91A-3-203 by Sec. 1, Ch. 365, L. 1974; amd. Sec. 1, Ch. 223, L. 1977; R.C.M. 1947, 91A-3-203(8).

Notice of any proceeding shall be delivered to the personal representative or mailed to him by ordinary first-class mail at his address as listed in the application or petition for appointment or as thereafter reported to the court and to his address as then known to the petitioner.

72-3-513. Bond — when required. (1) No bond is required of a personal representative appointed in informal proceedings, except:

(a) upon the appointment of a special administrator;

(b) when an executor or other personal representative is appointed to administer an estate under a will containing an express requirement of bond; or

(c) when bond is required under 72-3-514.

(2) Bond may be required by court order at the time of appointment of a personal representative appointed in any formal proceeding, except that bond is not required of a personal representative appointed in formal proceedings if the will relieves the personal representative of bond unless bond has been requested by an interested party and the court is satisfied that it is desirable. Bond required by any will may be dispensed with in formal proceedings upon determination by the court that it is not necessary.

(3) No bond is required of any personal representative who, pursuant to statute, has deposited cash or collateral with an agency of this state to secure performance of his duties.

72-3-514. Demand for bond by interested person. (1) Any person apparently having an interest in the estate worth in excess of $1,000 or any creditor having a claim in excess of $1,000 may make a written demand that a personal representative give bond. The demand must be filed with the clerk and a copy mailed to the personal representative, if appointment and qualification have occurred. Thereupon, bond is required, but the requirement ceases if the person demanding bond ceases to be interested in the estate or if bond is excused as provided in 72-3-513 or 72-3-515.

(2) After he has received notice and until the filing of the bond or cessation of the requirement of bond, the personal representative shall refrain from exercising any powers of his office except as necessary to preserve the estate.

(3) Failure of the personal representative to meet a requirement of bond by giving suitable bond within 30 days after receipt of notice is cause for his removal and appointment of a successor personal representative.

72-3-515. Bond amount — security — reduction. (1) If bond is required and the provisions of the will or order do not specify the amount, unless stated in his application or petition, the person qualifying shall file a statement under oath with the clerk indicating his best estimate of the value of the personal estate of the decedent and of the income expected from the personal and real estate during the next year, and he shall execute and file a bond with the clerk or give other suitable security in an amount not less than the estimate.

(2) The clerk shall determine that the bond is duly executed by a corporate surety or one or more individual sureties whose performance is secured by pledge of personal property, mortgage on real property, or other adequate security.

(3) The clerk may permit the amount of the bond to be reduced by the value of assets of the estate deposited with a domestic financial institution in a manner that prevents their unauthorized disposition. On petition of the personal representative or another interested person, the court may excuse a requirement of bond, increase or reduce the amount of the bond, release sureties, or permit the substitution of another bond with the same or different sureties.

(a) Bonds shall name the state as obligee for the benefit of the persons interested in the estate and shall be conditioned upon the faithful discharge by the fiduciary of all duties according to law.

(b) Unless otherwise provided by the terms of the approved bond, sureties are jointly and severally liable with the personal representative and with each other. The address of sureties shall be stated in the bond.

(c) By executing an approved bond of a personal representative, the surety consents to the jurisdiction of the probate court which issued letters to the primary obligor in any proceedings pertaining to the fiduciary duties of the personal representative and naming the surety as a party. Notice of any proceeding shall be delivered to the surety or mailed to him by registered or certified mail at his address as listed with the court where the bond is filed and to his address as then known to the petitioner.

(d) On petition of a successor personal representative, any other personal representative of the same decedent, or any interested person, a proceeding in the court may be initiated against a surety for breach of the obligation of the bond of the personal representative.

(e) The bond of the personal representative is not void after the first recovery but may be proceeded against from time to time until the whole penalty is exhausted.

(2) No action or proceeding may be commenced against the surety on any matter as to which an action or proceeding against the primary obligor is barred by adjudication or limitation.

72-3-521. Termination of appointment — general effect. Termination of appointment of a personal representative occurs as indicated in 72-3-522 through 72-3-526, inclusive. Termination ends the right and power pertaining to the office of personal representative as conferred by this code or any will, except that a personal representative, at any time prior to distribution or until restrained or enjoined by court order, may perform acts necessary to protect the estate and may deliver the assets to a successor representative. Termination does not discharge a personal representative from liability for transactions or omissions occurring before termination or relieve him of the duty to preserve assets subject to his control, to account therefor, and to deliver the assets. Termination does not affect the jurisdiction of the court over the personal representative but terminates his authority to represent the estate in any pending or future proceeding.

History: En. 91A-3-608 by Sec. 1, Ch. 365, L. 1974; R.C.M. 1947, 91A-3-608.

72-3-522. Termination of appointment — death or disability. (1) The death of a personal representative or the appointment of a conservator for the estate of a personal representative terminates his appointment.

(2) Until appointment and qualification of a successor or special representative to replace the deceased or protected representative, the representative of the estate of the deceased or protected personal representative, if any, has the duty to protect the estate possessed and being administered by his decedent or ward at the time his appointment terminates, has the power to perform acts necessary for protection, and shall account for and deliver the estate assets to a successor or special personal representative upon his appointment and qualification.

History: En. 91A-3-609 by Sec. 1, Ch. 365, L. 1974; R.C.M. 1947, 91A-3-609.

72-3-523. Termination of appointment — change of testacy status. Except as otherwise ordered in formal proceedings, the probate of a will subsequent to the appointment of a personal representative in intestacy or under a will which is superseded by formal probate of another will or the vacation of an informal probate of a will subsequent to the appointment of the personal representative thereunder does not terminate the appointment of the personal representative although his powers may be reduced as provided in 72-3-304. Termination occurs upon appointment in informal or formal appointment proceedings of a person entitled to appointment under the later assumption concerning testacy. If no request for new appointment is made within 30 days after expiration of time for appeal from the order in formal testacy proceedings or from the informal probate changing the assumption concerning testacy, the previously appointed personal representative upon request may be appointed personal representative under the subsequently probated will or as in intestacy, as the case may be.

History: En. 91A-3-612 by Sec. 1, Ch. 365, L. 1974; R.C.M. 1947, 91A-3-612.

72-3-524. Termination of appointment — closing of estate. (1) An appointment of a personal representative terminates, as provided in 72-3-1004, 1 year after the filing of a closing statement.

(2) An order closing an estate as provided in 72-3-1001, 72-3-1002, or 72-3-1003 terminates an appointment of a personal representative.

History: En. 91A-3-610 by Sec. 1, Ch. 365, L. 1974; R.C.M. 1947, 91A-3-610(1), (2).

72-3-525. Termination of appointment — voluntary. A personal representative may resign his position by filing a written statement of resignation with the clerk after he has given at least 15 days' written notice to the persons known to be interested in the estate. If no one applies or petitions for appointment of a successor representative within the time indicated in the notice, the filed statement of resignation is ineffective as a termination of appointment and in any event is effective only upon the appointment and qualification of a successor representative and delivery of the assets to him.

History: En. 91A-3-610 by Sec. 1, Ch. 365, L. 1974; R.C.M. 1947, 91A-3-610(3).

72-3-526. Termination of appointment — removal for cause. (1) A person interested in the estate may petition for removal of a personal representative for cause at any time. Upon filing of the petition, the court shall fix a time and place for hearing. Notice shall be given by the petitioner to the personal representative and to other persons as the court may order. Except as otherwise ordered as provided in 72-3-617, after receipt of notice of removal proceedings, the personal representative shall not act except to account, to correct maladministration, or preserve the estate. If removal is ordered, the court also shall direct by order the disposition of the assets remaining in the name of or under the control of the personal representative being removed.

(2) Cause for removal exists:

(a) when removal would be in the best interests of the estate; or

(b) if it is shown that a personal representative or the person seeking his appointment intentionally misrepresented material facts in the proceedings leading to his appointment or that the personal representative has disregarded an order of the court, has become incapable of discharging the duties of his office, or has mismanaged the estate or failed to perform any duty pertaining to the office.

(3) Unless the decedent's will directs otherwise, a personal representative appointed at the decedent's domicile, incident to securing appointment of himself or his nominee as ancillary personal representative, may obtain removal of another who was appointed personal representative in this state to administer local assets.

History: En. 91A-3-611 by Sec. 1, Ch. 365, L. 1974; R.C.M. 1947, 91A-3-611.

72-3-527. Successor personal representative. (1) Parts 2 and 3 of this chapter govern proceedings for appointment of a personal representative to succeed one whose appointment has been terminated.

(2) After appointment and qualification, a successor personal representative may be substituted in all actions and proceedings to which the former personal representative was a party, and no notice, process, or claim which was given or served upon the former personal representative need be given to or served upon the successor in order to preserve any position or right the person giving the notice or filing the claim may thereby have obtained or preserved with reference to the former personal representative.

(3) Except as otherwise ordered by the court, the successor personal representative has the powers and duties in respect to the continued administration which the former personal representative would have had if his appointment had not been terminated.

History: En. 91A-3-613 by Sec. 1, Ch. 365, L. 1974; R.C.M. 1947, 91A-3-613.

Part 6
Personal Representative Powers, Duties, and Compensation

72-3-601. Time of accrual of duties and powers — power of executor prior to appointment — ratification. (1) The duties and powers of a personal representative commence upon his appointment. The powers of a personal representative relate back in time to give acts by the person appointed which are beneficial to the estate occurring prior to appointment the same effect as those occurring thereafter.

(2) Prior to appointment, a person named executor in a will may carry out written instructions of the decedent relating to his body, funeral, and burial arrangements.

(3) A personal representative may ratify and accept acts on behalf of the estate done by others where the acts would have been proper for a personal representative.

History: En. 91A-3-701 by Sec. 1, Ch. 365, L. 1974; R.C.M. 1947, 91A-3-701.

72-3-602. Priority among different letters. A person to whom general letters are issued first has exclusive authority under the letters until his appointment is terminated or modified. If, through error, general letters are afterwards issued to another, the first appointed representative may recover any property of the estate in the hands of the representative subsequently appointed, but the acts of the latter done in good faith before notice of the first letters are not void for want of validity of appointment.

History: En. 91A-3-702 by Sec. 1, Ch. 365, L. 1974; R.C.M. 1947, 91A-3-702.

72-3-603. Notice of appointment to heirs and devisees. (1) Not later than 30 days after his appointment, every personal representative, except any special administrator, shall give information of his appointment to the heirs and devisees, including, if there has been no formal testacy proceeding and if the personal representative was appointed on the assumption that the decedent died intestate, the devisees in any will mentioned in the application for appointment of a personal representative. The information shall be delivered or sent by ordinary mail to each of the heirs and devisees whose address is reasonably available to the personal representative. The duty does not extend to require information to persons who have been adjudicated in a prior formal testacy proceeding to have no interest in the estate.

(2) (a) The information must:

(i) include the name and address of the personal representative;

(ii) indicate that it is being sent to persons who have or may have some interest in the estate being administered;

(iii) indicate whether bond has been filed; and

(iv) describe the court where papers relating to the estate are on file.

(b) The information must state that the estate is being administered by the personal representative under the uniform probate code without supervision by the court but that recipients are entitled to information regarding the administration from the personal representative and may petition the court in any matter relating to the estate, including distribution of assets and expenses of administration.

(3) The personal representative's failure to give this information is a breach of his duty to the persons concerned but does not affect the validity of his appointment, his powers, or other duties.

(4) A personal representative may inform other persons of his appointment by delivery or ordinary first-class mail.

History: En. 91A-3-705 by Sec. 1, Ch. 365, L. 1974; R.C.M. 1947, 91A-3-705; amd. Sec. 11, Ch. 582, L. 1989.

72-3-604. Standing to sue. Except as to proceedings which do not survive the death of the decedent, a personal representative of a decedent domiciled in this state at his death has the same standing to sue and be sued in the courts of this state and the courts of any other jurisdiction as his decedent had immediately prior to death.

History: En. 91A-3-703 by Sec. 1, Ch. 365, L. 1974; R.C.M. 1947, 91A-3-703(3).

72-3-605. Personal representative to proceed without court order — power to invoke jurisdiction. A personal representative shall proceed expeditiously with the settlement and distribution of a decedent's estate and, except as otherwise specified under this code or ordered in regard to a supervised personal representative, do so without adjudication, order, or direction of the court, but he may invoke the jurisdiction of the court, in proceedings authorized by this code, to resolve questions concerning the estate or its administration.

History: En. 91A-3-704 by Sec. 1, Ch. 365, L. 1974; R.C.M. 1947, 91A-3-704.

72-3-606. Possession and protection of estate. (1) Except as otherwise provided by a decedent's will and subject to the provisions of chapter 12, part 7, every personal representative has a right to and shall take possession or control of the decedent's property, except that any real property or tangible personal property may be left with or surrendered to the person presumptively entitled thereto unless or until, in the judgment of the personal representative, possession of the property by him will be necessary for purposes of administration. The request by a personal representative for delivery of any property possessed by an heir or devisee is conclusive evidence, in any action against the heir or devisee for possession thereof, that the possession of the property by the personal representative is necessary for purposes of administration.

(2) The personal representative shall pay taxes on and take all steps reasonably necessary for the management, protection, and preservation of the estate in his possession. He may maintain an action to recover possession of property or to determine the title thereto.

(1) If the estate must file a United States estate tax return, within the time required for the filing of the United States estate tax return plus any extensions granted by the internal revenue service, a personal representative, who is not a special administrator or a successor to another representative who has previously discharged this duty, shall prepare and file or mail an inventory. The inventory must include a listing of all property that:

(a) the decedent owned, had an interest in or control over, individually, in common, or jointly, or otherwise had at the time of the decedent's death;

(b) the decedent had possessory or dispository rights over at the time of death or had disposed of for less than its fair market value within 3 years of the decedent's death; or

(c) was affected by the decedent's death for the purpose of estate taxes.

(2) The inventory must include a statement of the full and true value of the decedent's interest in every item listed in the inventory. In this connection, the personal representative shall appoint one or more qualified and disinterested persons to assist the personal representative in ascertaining the fair market value as of the date of the decedent's death of all assets included in the estate. Different persons may be employed to appraise different kinds of assets included in the estate. The names and addresses of any appraiser must be indicated on the inventory with the item or items appraised.

(3) The personal representative shall send a copy of the inventory to interested persons who request it, or the personal representative may file the original of the inventory with the court. In any event, a copy of the inventory and statement of value must be mailed to the department of revenue.

72-3-609. Supplementary inventory — copy to department of revenue. If any property not included in the original inventory comes to the knowledge of a personal representative or if the personal representative learns that the value or description indicated in the original inventory for any item is erroneous or misleading, he shall make a supplementary inventory or appraisement showing the market value as of the date of the decedent's death of the new item or the revised market value or descriptions and the appraisers or other data relied upon, if any, and file it with the court if the original inventory was filed or furnish copies thereof or information thereof to persons interested in the new information and in any case shall mail a copy of it to the department of revenue.

72-3-610. General duties — fiduciary. A personal representative is a fiduciary who shall observe the standards of care applicable to trustees under the laws of the state of Montana. A personal representative is under a duty to settle and distribute the estate of the decedent in accordance with the terms of any probated and effective will and this code and as expeditiously and efficiently as is consistent with the best interests of the estate. He shall use the authority conferred upon him by this code, the terms of the will, if any, and any order in proceedings to which he is party for the best interests of successors to the estate.

72-3-611. No surcharge for authorized acts generally — limitation. (1) A personal representative shall not be surcharged for acts of administration or distribution if the conduct in question was authorized at the time. Subject to other obligations of administration and of this code, an informally probated will is authority to administer and distribute the estate according to its terms. Subject to the provisions of this code, an order of appointment of a personal representative, whether issued in informal or formal proceedings, is authority to distribute apparently intestate assets to the heirs of the decedent if, at the time of distribution, the personal representative is not aware of a pending testacy proceeding, a proceeding to vacate an order entered in an earlier testacy proceeding, a formal proceeding questioning his appointment or fitness to continue, or a supervised administration proceeding.

(2) Nothing in this section affects the duty of the personal representative to administer and distribute the estate in accordance with the rights of claimants, the surviving spouse, any minor and dependent children, and any pretermitted child of the decedent as described elsewhere in this code.

History: En. 91A-3-703 by Sec. 1, Ch. 365, L. 1974; R.C.M. 1947, 91A-3-703(2).

72-3-612. No individual liability — exceptions — certain claims to be brought against personal representative. (1) Unless otherwise provided in the contract, a personal representative is not individually liable on a contract properly entered into in his fiduciary capacity in the course of administration of the estate unless he fails to reveal his representative capacity and identify the estate in the contract.

(2) A personal representative is individually liable for obligations arising from ownership or control of the estate or for torts committed in the course of administration of the estate only if he is personally at fault.

(3) Claims based on contracts entered into by a personal representative in his fiduciary capacity, on obligations arising from ownership or control of the estate, or on torts committed in the course of estate administration may be asserted against the estate by proceeding against the personal representative in his fiduciary capacity, whether or not the personal representative is individually liable therefor.

(4) Issues of liability as between the estate and the personal representative individually may be determined in a proceeding for accounting, surcharge, or indemnification or other appropriate proceeding.

History: En. 91A-3-808 by Sec. 1, Ch. 365, L. 1974; R.C.M. 1947, 91A-3-808.

72-3-613. Transactions authorized for personal representative. Except as restricted by this code or otherwise provided by the will or by an order in a formal proceeding and subject to the priorities stated in 72-3-901, a personal representative, acting reasonably for the benefit of the interested persons, may properly:

(1) retain assets owned by the decedent pending distribution or liquidation, including those in which the representative is personally interested or which are otherwise improper for trust investment;

(2) receive assets from fiduciaries or other sources;

(3) perform, compromise, or refuse performance of the decedent's contracts that continue as obligations of the estate, as the personal representative may determine under the circumstances. In performing enforceable contracts by the decedent to convey or lease land, the personal representative, among other possible courses of action, may:

(a) execute and deliver a deed of conveyance for cash payment of all sums remaining due or the purchaser's note for the sum remaining due secured by a mortgage or deed of trust on the land; or

(b) deliver a deed in escrow with directions that the proceeds, when paid in accordance with the escrow agreement, be paid to the successors of the decedent, as designated in the escrow agreement;

(4) satisfy written charitable pledges of the decedent irrespective of whether the pledges constituted binding obligations of the decedent or were properly presented as claims, if in the judgment of the personal representative the decedent would have wanted the pledges completed under the circumstances;

(5) if funds are not needed to meet debts and expenses currently payable and are not immediately distributable, deposit or invest liquid assets of the estate, including money received from the sale of other assets, in federally insured interest-bearing accounts, readily marketable secured loan arrangements, or other prudent investments that would be reasonable for use by trustees generally. If the personal representative is authorized to invest funds in United States obligations, the personal representative may invest in these obligations either directly or in the form of securities of or other interests in an open-end or closed-end management type investment company or investment trust registered under the Investment Company Act of 1940 (15 U.S.C. 80a-1 through 80a-64), as amended, if:

(a) the portfolio of the investment company or investment trust is limited to United States government obligations and repurchase agreements fully collateralized by United States government obligations; and

(b) the investment company or investment trust takes delivery of the collateral for any repurchase agreement, either directly or through an authorized custodian.

(6) acquire or dispose of an asset, including land in this or another state, for cash or on credit, at public or private sale and manage, develop, improve, exchange, partition, change the character of, or abandon an estate asset;

(7) make ordinary or extraordinary repairs or alterations in buildings or other structures, demolish any improvements, raze existing or erect new party walls or buildings;

(8) subdivide, develop, or dedicate land to public use; make or obtain the vacation of plats and adjust boundaries; adjust differences in valuation on exchange or partition by giving or receiving considerations; or dedicate easements to public use without consideration;

(9) enter for any purpose into a lease as lessor or lessee, with or without option to purchase or renew, for a term within or extending beyond the period of administration;

(10) enter into a lease or arrangement for exploration and removal of minerals or other natural resources or enter into a pooling or unitization agreement;

(11) with the consent of the heirs or devisees or the court, abandon property when in the opinion of the personal representative it is valueless or is so encumbered or is in condition that it is of no benefit to the estate;

(12) vote stocks or other securities in person or by general or limited proxy;

(13) pay calls, assessments, and other sums chargeable or accruing against or on account of securities, unless barred by the provisions relating to claims;

(14) hold a security in the name of a nominee or in other form without disclosure of the interest of the estate, but the personal representative is liable for any act of the nominee in connection with the security so held;

(15) insure the assets of the estate against damage, loss, and liability and the personal representative against liability as to third persons;

(16) borrow money with or without security to be repaid from the estate assets or otherwise and advance money for the protection of the estate;

(17) with the consent of the heirs or devisees or the court, effect a fair and reasonable compromise with any debtor or obligor or extend, renew, or in any manner modify the terms of

any obligation owing to the estate. If the personal representative holds a mortgage, pledge, or other lien upon property of another person, the personal representative may, in lieu of foreclosure, accept a conveyance or transfer of encumbered assets from the owner thereof in satisfaction of the indebtedness secured by lien.

(18) pay taxes, assessments, compensation of the personal representative, and other expenses incident to the administration of the estate;

(19) sell or exercise stock subscription or conversion rights; consent, directly or through a committee or other agent, to the reorganization, consolidation, merger, dissolution, or liquidation of a corporation or other business enterprise;

(20) allocate items of income or expense to either estate income or principal, as permitted or provided by law;

(21) employ persons, including attorneys, auditors, investment advisors, or agents, even if they are associated with the personal representative, to advise or assist the personal representative in the performance of the personal representative's administrative duties; act without independent investigation upon their recommendations; and, instead of acting personally, employ one or more agents to perform any act of administration, whether or not discretionary;

(22) prosecute or defend claims or proceedings in any jurisdiction for the protection of the estate and of the personal representative in the performance of the personal representative's duties;

(23) sell, mortgage, or lease any real or personal property of the estate or any interest therein for cash, credit, or for part cash and part credit and with or without security for unpaid balances; provided, however, a personal representative may not, without prior court approval in a supervised proceeding, either directly or indirectly purchase any property of the estate that the personal representative represents, nor be interested in the sale. All sales must be fairly conducted and made for the best price obtainable.

(24) continue any unincorporated business or venture in which the decedent was engaged at the time of death in the same business form, including a sole proprietorship, partnership, or limited liability company, unless otherwise ordered by the court in a formal proceeding initiated by an interested person on the basis that continuation of the business is not in the best interests of the estate or its beneficiaries;

(25) incorporate any business or venture in which the decedent was engaged at the time of death;

(26) satisfy and settle claims and distribute the estate as provided in this code.

72-3-614. Power to recover property which is subject of void or voidable transfer. The property liable for the payment of unsecured debts of a decedent includes all property transferred by him by any means which is in law void or voidable as against his creditors, and subject to prior liens, the right to recover this property, so far as necessary for the payment of unsecured debts of the decedent, is exclusively in the personal representative.

72-3-615. Transaction involving conflict of interest — voidable — exceptions. Any sale or encumbrance to the personal representative, his spouse, agent, or attorney or any corporation or trust in which he has a substantial beneficial interest or any transaction which is affected by a substantial conflict of interest on the part of the personal representative is voidable by any person interested in the estate except one who has consented after fair disclosure, unless:

(1) the will or a contract entered into by the decedent expressly authorized the transaction; or

(2) the transaction is approved by the court after notice to interested persons.

History: En. 91A-3-711 by Sec. 1, Ch. 365, L. 1974; R.C.M. 1947, 91A-3-711.

72-3-616. Improper exercise of power — breach of fiduciary duty. (1) If any exercise of power concerning the estate is improper, the personal representative is liable to interested persons for damage or loss resulting from breach of his fiduciary duty to the same extent as a trustee of an express trust.

(2) The rights of purchasers and others dealing with a personal representative shall be determined as provided in 72-3-615 and 72-3-618.

72-3-617. Order restraining personal representative. (1) On petition of any person who appears to have an interest in the estate, the court by temporary order may restrain a personal representative from performing specified acts of administration, disbursement, or distribution or exercise of any powers or discharge of any duties of his office or make any other order to secure proper performance of his duty if it appears to the court that the personal representative otherwise may take some action which would jeopardize unreasonably the interest of the applicant or of some other interested person. Persons with whom the personal representative may transact business may be made parties.

(2) The matter shall be set for hearing within 10 days unless the parties otherwise agree. Notice as the court directs shall be given to the personal representative and his attorney of record, if any, and to any other parties named defendant in the petition.

72-3-618. Persons dealing with personal representative — protection. (1) A person who in good faith and without notice either assists a personal representative or deals with a personal representative for value is protected as if the personal representative properly exercised the personal representative's power. The fact that a person knowingly deals with a personal representative does not alone require the person to inquire into the existence of a power or the propriety of its exercise. Except for restrictions on powers of supervised personal representatives that are endorsed on letters as provided in 72-3-404(3), a provision in any will or order of court purporting to limit the power of a personal representative is not effective except as to persons with actual knowledge of the provision.

(2) A person is not bound to see to the proper application of estate assets paid or delivered to a personal representative.

(3) The protection expressed in this section extends to instances in which some procedural irregularity or jurisdictional defect occurred in proceedings leading to the issuance of letters, including a case in which the alleged decedent is found to be alive. The protection expressed in this section is not a substitution for that provided by comparable provisions of the laws relating to commercial transactions and laws simplifying transfers of securities by fiduciaries.

72-3-621. Powers and duties of successor personal representative. History: En. 91A-3-716 by Sec. 1, Ch. 365, L. 1974; R.C.M. 1947, 91A-3-716.

72-3-622. Corepresentatives — when joint action required. If two or more persons are appointed corepresentatives and unless the will provides otherwise, the concurrence of all is required on all acts connected with the administration and distribution of the estate. This restriction does not apply:

(1) when any corepresentative receives and receipts for property due the estate;

(2) when the concurrence of all cannot readily be obtained in the time reasonably available for emergency action necessary to preserve the estate; or

(3) when a corepresentative has been delegated to act for the others.

History: En. 91A-3-717 by Sec. 1, Ch. 365, L. 1974; R.C.M. 1947, 91A-3-717(part).

72-3-623. Persons dealing with single corepresentative — protection. Persons dealing with a corepresentative, if actually unaware that another has been appointed to serve with him or if advised by the personal representative with whom they deal that he has authority to act alone for any of the reasons mentioned herein, are as fully protected as if the person with whom they dealt had been the sole personal representative.

History: En. 91A-3-717 by Sec. 1, Ch. 365, L. 1974; R.C.M. 1947, 91A-3-717(part).

72-3-624. Powers of remaining corepresentative. Unless the terms of the will otherwise provide, every power exercisable by personal corepresentatives may be exercised by the one or more remaining after the appointment of one or more is terminated, and if one of two or more nominated as coexecutors is not appointed, those appointed may exercise all the powers incident to the office.

History: En. 91A-3-718 by Sec. 1, Ch. 365, L. 1974; R.C.M. 1947, 91A-3-718.

72-3-631. Compensation of personal representative. (1) A personal representative is entitled to reasonable compensation for services. The compensation may not exceed 3% of the first $40,000 of the value of the estate as reported for federal estate tax purposes and 2% of the value of the estate in excess of $40,000 as reported for federal estate tax purposes. However, a personal representative is entitled to a minimum compensation of the lesser of $100 or the value of the gross estate.

(2) In proceedings conducted for the termination of joint tenancies, the compensation of the personal representative may not exceed 2% of the interest passing.

(3) In proceedings conducted for the termination of a life estate, the compensation allowed the personal representative may not exceed 2% of the value of the life estate if it is terminated in connection with a probate or joint tenancy termination. If a life estate is terminated separately, the personal representative's compensation may not exceed 2% of the value of the estate, except that it may not be less than $100.

(4) If there is more than one personal representative, only one compensation is allowed.

(5) The court may allow additional compensation for extraordinary services. The additional compensation may not be greater than the amount that is allowed for the original compensation.

(6) If the will provides for the compensation of the personal representative and there is no contract with the decedent regarding compensation, the personal representative may renounce the provision before qualifying and be entitled to compensation under the terms of this section. A personal representative also may renounce the right to all or any part of the compensation. A written renunciation of fee may be filed with the court.

Mortgages, Pledges, and Liens, Title 71.

Inheritance and estate taxes, Title 72, ch. 16.

72-3-804. Manner of presentation of claims. Claims against a decedent's estate may be presented as follows:

(1) The claimant shall mail to the personal representative return receipt requested a written statement of the claim indicating its basis, the name and address of the claimant, and the amount claimed or may file a written statement of the claim, in the form prescribed by rule, with the clerk of the court. The claim is deemed presented on the first to occur of receipt of the written statement of claim by the personal representative or the filing of the claim with the court. If a claim is not yet due, the date when it will become due shall be stated. If the claim is contingent or unliquidated, the nature of the uncertainty shall be stated. If the claim is secured, the security shall be described. Failure to describe correctly the security, the nature of any uncertainty, and the due date of a claim not yet due does not invalidate the presentation made.

(2) The claimant may commence a proceeding against the personal representative, in any court where the personal representative may be subjected to jurisdiction, to obtain payment of his claim against the estate, but the commencement of the proceeding must occur within the time limited for presenting the claim. No presentation of claim is required in regard to matters claimed in proceedings against the decedent which were pending at the time of his death.

(3) If a claim is presented under subsection (1), no proceeding thereon may be commenced more than 60 days after the personal representative has mailed a notice of disallowance, but in the case of a claim which is not presently due or which is contingent or unliquidated, the personal representative may consent to an extension of the 60-day period or to avoid injustice the court, on petition, may order an extension of the 60-day period, but in no event shall the extension run beyond the applicable statute of limitations.

History: En. 91A-3-804 by Sec. 1, Ch. 365, L. 1974; R.C.M. 1947, 91A-3-804.

72-3-805. Allowance and disallowance of claims — interest on allowed claims. (1) As to claims presented in the manner described in 72-3-804 within the time limit prescribed in 72-3-803, the personal representative may mail a notice to any claimant stating that the claim has been disallowed. If, after allowing or disallowing a claim, the personal representative changes his decision concerning the claim, he shall notify the claimant. The personal representative may not change a disallowance of a claim after the time for the claimant to file a petition for allowance or to commence a proceeding on the claim has run and the claim has been barred. Every claim which is disallowed in whole or in part by the personal representative is barred so far as not allowed unless the claimant files a petition for allowance in the court or commences a proceeding against the personal representative not later than 60 days after the mailing of the notice of disallowance or partial allowance if the notice warns the claimant of the impending bar. Failure of the personal representative to mail notice to a claimant of action on his claim for 60 days after the time for original presentation of the claim has expired has the effect of a notice of allowance.

(2) After allowing or disallowing a claim, the personal representative may change the allowance or disallowance as provided in this section. The personal representative may change the allowance to a disallowance, in whole or in part, prior to payment, but not after allowance by a court order or judgment or an order directing payment of the claim. The personal representative shall notify the claimant of the change to disallowance, and the disallowed claim is then subject to bar as provided in subsection (1). The personal representative may change a disallowance to an allowance, in whole or in part, until it is barred under subsection (1). After it is barred, it may be allowed and paid only if the estate is solvent and all successors whose interests would be affected consent.

(3) Upon the petition of the personal representative or of a claimant in a proceeding for the purpose, the court may allow, in whole or in part, any claim or claims presented to the personal representative or filed with the clerk of the court in due time and not barred by subsection (1). Notice in this proceeding shall be given to the claimant, the personal representative, and those other persons interested in the estate as the court may direct by order entered at the time the proceeding is commenced.

(4) A judgment in a proceeding in another court against a personal representative to enforce a claim against a decedent's estate is an allowance of the claim.

(5) Unless otherwise provided in any judgment in another court entered against the personal representative, an allowed claim bears interest at the legal rate for the period commencing 60 days after the time for original presentation of the claim has expired unless based on a contract making a provision for interest, in which case the claim bears interest in accordance with that provision.

72-3-806. Counterclaims — deduction. (1) In allowing a claim, the personal representative may deduct any counterclaim which the estate has against the claimant. In determining a claim against an estate, a court shall reduce the amount allowed by the amount of any counterclaims and, if the counterclaims exceed the claim, render a judgment against the claimant in the amount of the excess.

(2) A counterclaim, liquidated or unliquidated, may arise from a transaction other than that upon which the claim is based. A counterclaim may give rise to relief exceeding in amount or different in kind from that sought in the claim.

72-3-807. Classification of claims as to priority of payment. (1) If the applicable assets of the estate are insufficient to pay all claims in full, the personal representative shall make payment in the following order:

(a) costs and expenses of administration;

(b) reasonable funeral expenses and reasonable and necessary medical and hospital expenses of the last illness of the decedent, including compensation of persons attending the decedent;

(c) federal estate and Montana state estate taxes;

(d) debt for a current support obligation and past-due support for the decedent's children pursuant to a support order as defined in 40-5-201;

(e) debts with preference under federal and Montana law;

(f) other federal and Montana state taxes;

(g) all other claims.

(2) A preference may not be given in the payment of any claim over any other claim of the same class, and a claim due and payable may not be entitled to a preference over claims not due.

72-3-808. Payment of claims. (1) Upon the expiration of the earlier of the time limitations provided in 72-3-803 for the presentation of claims, the personal representative shall proceed to pay the claims allowed against the estate in the order of priority prescribed, after making provision for homestead, family and support allowances, for claims already presented which have not yet been allowed or whose allowance has been appealed, and for unbarred claims which may yet be presented, including costs and expenses of administration.

(2) By petition to the court in a proceeding for the purpose, or by appropriate motion if the administration is supervised, a claimant whose claim has been allowed but not paid as provided herein may secure an order directing the personal representative to pay the claim to the extent that funds of the estate are available for the payment.

(3) The personal representative at any time may pay any just claim which has not been barred, with or without formal presentation, but he is personally liable to any other claimant whose claim is allowed and who is injured by such payment if:

(a) the payment was made before the expiration of the time limit stated in subsection (1) and the personal representative failed to require the payee to give adequate security for the refund of any of the payment necessary to pay other claimants; or

(b) the payment was made, due to the negligence or willful fault of the personal representative, in such manner as to deprive the injured claimant of his priority.

72-3-811. Secured claims. Payment of a secured claim is upon the basis of the amount allowed if the creditor surrenders his security; otherwise payment is upon the basis of one of the following:

(1) if the creditor exhausts his security before receiving payment, unless precluded by other law, upon the amount of the claim allowed less the fair value of the security; or

(2) if the creditor does not have the right to exhaust his security or has not done so, upon the amount of the claim allowed less the value of the security determined by converting it into money according to the terms of the agreement pursuant to which the security was delivered to the creditor or by the creditor and personal representative by agreement, arbitration, compromise, or litigation.

72-3-812. Encumbered assets. (1) If any assets of the estate are encumbered by mortgage, pledge, lien, or other security interest, the personal representative may pay the encumbrance or any part thereof, renew or extend any obligation secured by the encumbrance, or convey or transfer the assets to the creditor in satisfaction of his lien, in whole or in part, whether or not the holder of the encumbrance has filed a claim, if it appears to be for the best interest of the estate.

(2) Payment of an encumbrance does not increase the share of the distributee entitled to the encumbered assets unless the distributee is entitled to exoneration.

(2) In other cases the personal representative or, on petition of the personal representative or the claimant in a special proceeding for the purpose, the court may provide for payment as follows:

(a) If the claimant consents, he may be paid the present or agreed value of the claim, taking any uncertainty into account.

72-3-821. Administration in more than one state — payment of claims. (1) All assets of estates being administered in this state are subject to all claims, allowances, and charges existing or established against the personal representative wherever appointed.

(2) If the estate either in this state or as a whole is insufficient to cover all family exemptions and allowances determined by the law of the decedent's domicile, prior charges and claims, after satisfaction of the exemptions, allowances, and charges, each claimant whose claim has been allowed either in this state or elsewhere in administrations of which the personal representative is aware is entitled to receive payment of an equal proportion of his claim. If a preference or security in regard to a claim is allowed in another jurisdiction but not in this state, the creditor so benefited is to receive dividends from local assets only upon the balance of his claim after deducting the amount of the benefit.

(3) In case the family exemptions and allowances, prior charges and claims of the entire estate exceed the total value of the portions of the estate being administered separately and this state is not the state of the decedent's last domicile, the claims allowed in this state shall be paid their proportion if local assets are adequate for the purpose, and the balance of local assets shall be transferred to the domiciliary personal representative. If local assets are not sufficient to pay

all claims allowed in this state the amount to which they are entitled, local assets shall be marshalled so that each claim allowed in this state is paid its proportion as far as possible, after taking into account all dividends on claims allowed in this state from assets in other jurisdictions.

(1) The estate of a nonresident decedent being administered by a personal representative appointed in this state shall, if there is a personal representative of the decedent's domicile willing to receive it, be distributed to the domiciliary personal representative for the benefit of the successors of the decedent unless:

(a) by virtue of the decedent's will, if any, and applicable choice of law rules, the successors are identified pursuant to the local law of this state without reference to the local law of the decedent's domicile;

(b) the personal representative of this state, after reasonable inquiry, is unaware of the existence or identity of a domiciliary personal representative; or

(c) the court orders otherwise in a proceeding for a closing order under 72-3-1001 or incident to the closing of a supervised administration.

(2) In other cases, distribution of the estate of a decedent shall be made in accordance with the other parts of this chapter.

Part 9
Special Provisions Relating to Distribution

72-3-901. Abatement. (1) Except as provided in subsection (3) and except as provided in connection with the share of the surviving spouse who elects to take an elective share, shares of distributees abate, without any preference or priority as between real and personal property, in the following order:

(a) property not disposed of by the will;

(b) residuary devises;

(c) general devises;

(d) specific devises.

(2) For purposes of abatement, a general devise charged on any specific property or fund is a specific devise to the extent of the value of the property on which it is charged and, upon the failure or insufficiency of the property on which it is charged, a general devise to the extent of the failure or insufficiency. Abatement within each classification is in proportion to the amounts of property each of the beneficiaries would have received if full distribution of the property had been made in accordance with the terms of the will.

(3) If the will expresses an order of abatement or if the testamentary plan or the express or implied purpose of the devise would be defeated by the order of abatement stated in subsection (1), the shares of the distributees abate as may be found necessary to give effect to the intention of the testator.

(4) If the subject of a preferred devise is sold or used incident to administration, abatement shall be achieved by appropriate adjustments in or contribution from other interests in the remaining assets.

History: En. 91A-3-902 by Sec. 1, Ch. 365, L. 1974; R.C.M. 1947, 91A-3-902.

72-3-902. Distribution in kind preferred — method — valuation. Unless a contrary intention is indicated by the will, the distributable assets of a decedent's estate shall be distributed in kind to the extent possible through application of the following provisions:

(1) A specific devisee is entitled to distribution of the thing devised to him, and a spouse or child who has selected particular assets of an estate as provided in 72-2-413 shall receive the items selected.

(2) Any homestead or family allowance or devise of a stated sum of money may be satisfied in kind, provided:

(a) the person entitled to the payment has not demanded payment in cash;

(b) the property distributed in kind is valued at fair market value as of the date of its distribution; and

(c) no residuary devisee has requested that the asset in question remain a part of the residue of the estate.

(3) For the purpose of valuation under subsection (2), any security regularly traded on a recognized exchange, if distributed in kind, is valued at the price for the last sale of like securities traded on the business day prior to distribution or, if there was no sale on that day, at the median between amounts bid and asked at the close of that day. An asset consisting of a sum owed the decedent or the estate by a solvent debtor as to which there is no known dispute or defense is valued at the sum due with accrued interest or discounted to the date of distribution. For an asset which has no readily ascertainable value, a valuation as of a date not more than 30 days prior to the date of distribution, if otherwise reasonable, controls. For purposes of facilitating distribution, the personal representative may ascertain the value of any asset as of the time of the proposed distribution in any reasonable way, including the employment of qualified appraisers, even if the asset may have been previously appraised.

(4) The residuary estate shall be distributed in any equitable manner.

72-3-903. Proposal for distribution — delivery — objection. (1) After the probable charges against the estate are known, the personal representative may mail or deliver a proposal for distribution to all persons who have a right to object to the proposed distribution.

(2) The right of any distributee to object to the proposed distribution on the basis of the kind or value of asset he is to receive, if not waived earlier in writing, terminates if he fails to object in writing received by the personal representative within 30 days after mailing or delivery of the proposal.

72-3-905. Distribution by personal representative conclusive evidence of succession to interest by distributee. Proof that a distributee has received an instrument or deed of distribution of assets in kind or payment in distribution from a personal representative is conclusive evidence that the distributee has succeeded to the interest of the estate in the distributed assets, as against all persons interested in the estate, except that the personal representative may recover the assets or their value if the distribution was improper.

72-3-906. Improper distribution or payment — liability of distributee or payee. Unless the distribution or payment no longer can be questioned because of adjudication, estoppel, or limitation, a distributee of property improperly distributed or paid or a claimant who was improperly paid is liable to return the property improperly received and its income since distribution if he has the property. If he does not have the property, then he is liable to return the value as of the date of disposition of the property improperly received and its income and gain received by him.

History: En. 91A-3-909 by Sec. 1, Ch. 365, L. 1974; R.C.M. 1947, 91A-3-909.

72-3-907. Purchases from distributees protected. (1) If property distributed in kind or a security interest therein is acquired for value by a purchaser from or lender to a distributee who has received an instrument or deed of distribution from the personal representative, or is so acquired by a purchaser from or lender to a transferee from such distributee, the purchaser or lender takes title free of rights of any interested person in the estate and incurs no personal liability to the estate or to any interested person, whether or not the distribution was proper or supported by court order or the authority of the personal representative was terminated before execution of the instrument or deed.

(2) This section protects a purchaser from or lender to a distributee who, as personal representative, has executed a deed of distribution to himself, as well as a purchaser from or lender to any other distributee or his transferee. To be protected under this provision, a purchaser or lender need not inquire whether a personal representative acted properly in making the distribution in kind, even if the personal representative and the distributee are the same person, or whether the authority of the personal representative had terminated before the distribution. Any recorded instrument described in this section shall be prima facie evidence that such transfer was made for value.

(3) For purposes of this section, the term purchaser includes any lessee or other person acquiring any interest in the property for value.

(2) Devisees may establish title by the probated will to devised property. Persons entitled to property by homestead allowance, exemption, or intestacy may establish title thereto by proof of the decedent's ownership, his death, and their relationship to the decedent.

(3) Successors take subject to all charges incident to administration, including the claims of creditors and allowances of surviving spouse and dependent children and subject to the rights of others resulting from abatement, retainer, advancement, and ademption.

72-3-915. Private agreements among successors as to distribution — testamentary trustee as successor. (1) Subject to the rights of creditors and taxing authorities, competent successors may agree among themselves to alter the interests, shares, or amounts to which they are entitled under the will of the decedent or under the laws of intestacy in any way that they provide in a written contract executed by all who are affected by its provisions. The personal representative shall abide by the terms of the agreement subject to his obligation to administer the estate for the benefit of creditors, to pay all taxes and costs of administration, and to carry out the responsibilities of his office for the benefit of any successors of the decedent who are not parties.

(2) Personal representatives of decedents' estates are not required to see to the performance of trusts if the trustee thereof is another person who is willing to accept the trust. Accordingly, trustees of a testamentary trust are successors for the purposes of this section. Nothing herein relieves trustees of any duties owed to beneficiaries of trusts.

72-3-916. Distribution to trustee — registration — bond. (2) If the trust instrument does not excuse the trustee from giving bond, the personal representative may petition the appropriate court to require that the trustee post bond if he apprehends that distribution might jeopardize the interests of persons who are not able to protect themselves, and he may withhold distribution until the court has acted.

(3) No inference of negligence on the part of the personal representative shall be drawn from his failure to exercise the authority conferred by subsections (1) and (2).

(2) Unless contrary to an express provision in the will, the personal representative may discharge the personal representative's obligation to distribute to a minor or person under other disability as authorized by 72-5-104, 72-5-501, or any other statute. If the personal representative knows that a conservator has been appointed or that a proceeding for appointment of a conservator is pending, the personal representative is authorized to distribute only to the conservator.

(3) (a) If the heir or devisee is under disability other than minority, the personal representative is authorized to distribute to:

(i) an attorney-in-fact who has authority under a power of attorney to receive property for that person; or

(ii) the spouse, parent, or other close relative with whom the person under disability resides if the distribution is of amounts not exceeding $10,000 a year or property not exceeding $10,000 in value, unless the court authorizes a larger amount or greater value.

(b) Any person receiving money or property for the disabled person is obligated to apply the money or property to the support of the disabled person, but the receiving person may not accept any pay except by way of reimbursement for out-of-pocket expenses for goods and services necessary for the support of the disabled person. Closing Estates

72-3-1001. Formal proceedings terminating administration — testate or intestate — order of complete settlement. (1) A personal representative or any interested person may petition for an order of complete settlement of the estate. The personal representative may petition at any time, and any other interested person may petition after 1 year from the appointment of the original personal representative, except that no petition under this section may be entertained until the time for presenting claims which arose prior to the death of the decedent has expired.

(2) The petition may request the court to determine testacy, if not previously determined, to consider the final account or compel or approve an accounting and distribution, to construe any will or determine heirs, and to adjudicate the final settlement and distribution of the estate.

(3) After notice to all interested persons and hearing, the court may enter an order or orders, on appropriate conditions, determining the persons entitled to distribution of the estate and, as circumstances require, approving settlement and directing or approving distribution of the estate and discharging the personal representative from further claim or demand of any interested person.

History: En. 91A-3-1001 by Sec. 1, Ch. 365, L. 1974; R.C.M. 1947, 91A-3-1001(1).

72-3-1002. Order of complete settlement as to persons previously omitted or unnotified in previous formal testacy proceeding. If one or more heirs or devisees were omitted as parties in or were not given notice of a previous formal testacy proceeding, the court, on proper petition for an order of complete settlement of the estate under 72-3-1001 and after notice to the omitted or unnotified persons and other interested parties determined to be interested on the assumption that the previous order concerning testacy is conclusive as to those given notice of the earlier proceeding, may determine testacy as it affects the omitted persons and confirm or alter the previous order of testacy as it affects all interested persons as appropriate in the light of the new proofs. In the absence of objection by an omitted or unnotified person, evidence received in the original testacy proceeding shall constitute prima facie proof of due execution of any will previously admitted to probate or of the fact that the decedent left no valid will if the prior proceedings determined this fact.

History: En. 91A-3-1001 by Sec. 1, Ch. 365, L. 1974; R.C.M. 1947, 91A-3-1001(2).

72-3-1003. Formal proceedings terminating administration under informally probated will — settlement order construing will without adjudicating testacy. (1) A personal representative administering an estate under an informally probated will or any devisee under an informally probated will may petition for an order of settlement of the estate which will not adjudicate the testacy status of the decedent. The personal representative may petition at any time and a devisee may petition after 1 year from the appointment of the original personal representative, except that no petition under this section may be entertained until the time for presenting claims which arose prior to the death of the decedent has expired.

(2) The petition may request the court to consider the final account or compel or approve an accounting and distribution, to construe the will, and adjudicate final settlement and distribution of the estate. After notice to all devisees and the personal representative and hearing, the court may enter an order or orders, on appropriate conditions, determining the persons entitled to distribution of the estate under the will and, as circumstances require, approving settlement and directing or approving distribution of the estate and discharging the

personal representative from further claim or demand of any devisee who is a party to the proceeding and those he represents. If it appears that a part of the estate is intestate, the proceedings shall be dismissed or amendments made to meet the provisions of 72-3-1001 and 72-3-1002.

72-3-1004. Closing estate by sworn statement of personal representative. (1) Unless prohibited by order of the court and except for estates being administered in supervised administration proceedings, a personal representative may close an estate by filing with the court no earlier than 6 months after the date of original appointment of a general personal representative for the estate a verified statement stating that the personal representative, or a prior personal representative, has:

(a) determined that the time limitation for presentation of creditors' claims has expired;

(b) fully administered the estate of the decedent by making payment, settlement, or other disposition of all claims that were presented, expenses of administration, and estate and other death taxes, except as specified in the statement, and that the assets of the estate have been distributed to the persons entitled; if any claims remain undischarged, the statement must state whether the personal representative has distributed the estate subject to possible liability with the agreement of the distributees or it must state in detail other arrangements that have been made to accommodate outstanding liabilities; and

(c) sent a copy of the statement to all distributees of the estate and to all creditors or other claimants of whom the personal representative is aware whose claims are neither paid nor barred and has furnished a full account in writing of the administration to the distributees whose interests are affected by the accounting.

(2) If proceedings involving the personal representative are not pending in the court 1 year after the closing statement is filed, the appointment of the personal representative terminates.

(2) No person who, before receiving actual notice of a pending local administration, has changed his position in reliance upon the powers of a foreign personal representative shall be prejudiced by reason of the application or petition for or grant of local administration. General Provisions

72-5-101. Definitions. Unless otherwise apparent from the context, in this code, the following definitions apply:

(1) "Incapacitated person" means any person who is impaired by reason of mental illness, mental deficiency, physical illness or disability, chronic use of drugs, chronic intoxication, or other cause (except minority) to the extent that he lacks sufficient understanding or capacity to make or communicate responsible decisions concerning his person or which cause has so impaired the person's judgment that he is incapable of realizing and making a rational decision with respect to his need for treatment.

(2) "Protected person" means a minor or other person for whom a conservator has been appointed or other protective order has been made.

(3) "Protective proceeding" means a proceeding under the provisions of 72-5-409 to determine that a person cannot effectively manage or apply his estate to necessary ends, either because he lacks the ability or is otherwise inconvenienced or because he is a minor, and to secure administration of his estate by a conservator or other appropriate relief.

(4) "Ward" means a person for whom a guardian has been appointed. A "minor ward" is a minor for whom a guardian has been appointed solely because of minority.

History: En. 91A-5-101 by Sec. 1, Ch. 365, L. 1974; amd. Sec. 1, Ch. 514, L. 1977; R.C.M. 1947, 91A-5-101; amd. Sec. 1, Ch. 382, L. 1991.

72-5-102. Jurisdiction of subject matter — consolidation of proceedings. (1) The court has jurisdiction over protective proceedings and guardianship proceedings.

(2) When both guardianship and protective proceedings as to the same person are commenced or pending in the same court, the proceedings may be consolidated.

History: En. 91A-5-102 by Sec. 1, Ch. 365, L. 1974; R.C.M. 1947, 91A-5-102.

72-5-103. Delegation of powers by parent or guardian. (1) A parent or a guardian of a minor or incapacitated person, by a properly executed power of attorney, may delegate to another person, for a period not exceeding 6 months, any powers regarding care, custody, or property of the minor child or ward, except the power to consent to marriage or adoption of a minor ward.

(2) The 6-month limitation provided in subsection (1) does not apply to:

(a) a member of the Montana national guard who serves for more than 180 continuous days on duty pursuant to Title 10 or 32 of the United States Code or on state active duty pursuant to Article VI, section 13, of the Montana constitution;

(b) a member of the active duty military forces of the United States; or

(c) a member of the federal reserves who serves for more than 180 continuous days on duty pursuant to Title 10 of the United States Code.

(3) The persons, other than the minor or any financial institution under (1)(d) above, receiving money or property for a minor are obligated to apply the money to the support and education of the minor but may not pay themselves except by way of reimbursement for out-of-pocket expenses for goods and services necessary for the minor's support. Any excess sums shall be preserved for future support of the minor, and any balance not so used and any property received for the minor must be turned over to the minor when he attains majority. Persons who pay or deliver in accordance with provisions of this section are not responsible for the proper application thereof.

An objection may be withdrawn. An objection does not preclude appointment by the court in a proper proceeding of the testamentary nominee or any other suitable person.

(a) the minor, if he is 14 or more years of age;

(b) the person who has had the principal care and custody of the minor during the 60 days preceding the date of the petition; and

(c) any living parent of the minor.

(2) Upon hearing, if the court finds that a qualified person seeks appointment, venue is proper, the required notices have been given, the requirements of 72-5-222 have been met, and the welfare and best interests of the minor will be served by the requested appointment, it shall make the appointment. In other cases the court may dismiss the proceedings or make any other disposition of the matter that will best serve the interest of the minor.

(3) If, at any time in the proceeding, the court determines that the interests of the minor are or may be inadequately represented, it may appoint an attorney to represent the minor,

giving consideration to the preference of the minor if the minor is 14 years of age or older. The county attorney and the deputy county attorneys, if any, may not be appointed for this purpose.

History: En. 91A-5-207 by Sec. 1, Ch. 365, L. 1974; R.C.M. 1947, 91A-5-207(1), (2), (4); amd. Sec. 2, Ch. 93, L. 1979.

72-5-231. Powers and duties of guardian of minor. Unless otherwise limited by the court, a guardian of a minor has the powers and responsibilities of a parent who has not been deprived of custody of the parent's minor and unemancipated child, except that a guardian is not legally obligated to provide from the guardian's own funds for the ward and is not liable to third persons by reason of the parental relationship for acts of the ward. In particular and without qualifying the foregoing, a guardian has the following powers and duties:

(1) The guardian shall take reasonable care of the ward's personal effects and commence protective proceedings if necessary to protect other property of the ward.

(2) The guardian may receive money payable for the support of the ward to the ward's parent, guardian, or custodian under the terms of any statutory benefit or insurance system or any private contract, devise, trust, conservatorship, or custodianship. The guardian also may receive money or property of the ward paid or delivered by virtue of 72-5-104. Any sums received must be applied to the ward's current needs for support, care, and education. The guardian shall exercise due care to conserve any excess for the ward's future needs unless a conservator has been appointed for the estate of the ward, in which case the excess must be paid at least annually to the conservator. Sums received by the guardian may not be used for compensation for the guardian's services except as approved by an order of the court or as determined by a duly appointed conservator other than the guardian. A guardian may institute proceedings to compel the performance by any person of a duty to support the ward or to pay sums for the welfare of the ward.

(3) The guardian is empowered to facilitate the ward's education, social, or other activities and to authorize medical or other professional care, treatment, or advice. A guardian is not liable by reason of this consent for injury to the ward resulting from the negligence or acts of third persons unless it would have been illegal for a parent to have consented. A guardian may consent to the marriage or adoption of the ward.

(4) A guardian shall report the condition of the ward and of the ward's estate that has been subject to the guardian's possession or control, as ordered by the court on petition of any person interested in the minor's welfare or as required by court rule.

History: En. 91A-5-209 by Sec. 1, Ch. 365, L. 1974; R.C.M. 1947, 91A-5-209; amd. Sec. 2, Ch. 279, L. 1997.

72-5-232. Proceedings subsequent to appointment — concurrent jurisdiction of court where ward resides — venue. (1) The court where the ward resides has concurrent jurisdiction with the court which appointed the guardian or in which acceptance of a testamentary appointment was filed over resignation, removal, accounting, and other proceedings relating to the guardianship.

(2) If the court located where the ward resides is not the court in which acceptance of appointment is filed, the court in which proceedings subsequent to appointment are commenced shall in all appropriate cases notify the other court in this or another state and after consultation with that court determine whether to retain jurisdiction or transfer the proceedings to the other court, whichever is in the best interest of the ward. A copy of any order accepting a resignation or removing a guardian shall be sent to the court in which acceptance of appointment is filed.

History: En. 91A-5-211 by Sec. 1, Ch. 365, L. 1974; R.C.M. 1947, 91A-5-211.

72-5-233. Termination of appointment — how effected — certain liabilities and obligations not affected. A guardian's authority and responsibility terminates upon the death, resignation, or removal of the guardian or upon the minor's death, adoption, marriage, or attainment of majority, but termination does not affect his liability for prior acts or his obligation to account for funds and assets of his ward. Resignation of a guardian does not terminate the guardianship until it has been approved by the court. A testamentary appointment under an informally probated will terminates if the will is later denied probate in a formal proceeding.

History: **En. 91A-5-210 by Sec. 1, Ch. 365, L. 1974; R.C.M. 1947, 91A-5-210.**

72-5-234. Procedure for resignation or removal — petition, notice, and hearing — representation by attorney. (1) Any person interested in the welfare of a ward or the ward, if 14 or more years of age, may petition for removal of a guardian on the ground that removal would be in the best interest of the ward. A guardian may petition for permission to resign. A petition for removal or for permission to resign may but need not include a request for appointment of a successor guardian.

(2) After notice and hearing on a petition for removal or for permission to resign, the court may terminate the guardianship and make any further order that may be appropriate.

(3) If at any time in the proceeding the court determines that the interests of the ward are or may be inadequately represented, it may appoint an attorney to represent the minor, giving consideration to the preference of the minor if the minor is 14 or more years of age.

72-5-302. Testamentary appointment of guardian for incapacitated person — when effective — priorities. (1) The parent of an unmarried incapacitated person may appoint by will or other writing signed by the parent and attested by at least two witnesses a guardian of the incapacitated person. If both parents are dead or the surviving parent is adjudged incapacitated, a parental appointment becomes effective when, after having given 7 days' prior written notice of intention to do so to the incapacitated person and to the person having care of the person or to the nearest adult relative, the guardian files acceptance of appointment in the court in which the will is informally or formally probated or, in the case of a nontestamentary nominating instrument, in the court at the place where the incapacitated person resides or is present. The notice must state that the appointment may be terminated by filing a written objection in the court, as provided by 72-5-304. If both parents are dead, an effective appointment by the parent who died later has priority.

(2) The spouse of a married incapacitated person may appoint by will or other writing signed by the spouse and attested by at least two witnesses a guardian of the incapacitated person. The appointment becomes effective when, after having given 7 days' prior written notice of intention to do so to the incapacitated person and to the person having care of the incapacitated person or to the nearest adult relative, the guardian files acceptance of appointment in the court in which the will is informally or formally probated or, in the case of nontestamentary nominating instrument, in the court at the place where the incapacitated person resides or is present. The notice must state that the appointment may be terminated by filing a written objection in the court, as provided by 72-5-304. An effective appointment by a spouse has priority over an appointment by a parent.

72-5-304. Objection by alleged incapacitated person to testamentary appointment. Upon the filing in the court in which the will was probated or, in the case of a nontestamentary nominating instrument, in the court at the place where the incapacitated person resides or is present, of written objection to the appointment by the incapacitated person for whom a parental or spousal appointment of guardian has been made, the appointment is terminated. An objection does not prevent appointment by the court in a proper proceeding of the parental or spousal nominee or any other suitable person upon an adjudication of incapacity in proceedings under 72-5-305 through 72-5-325.

72-5-305. Definitions. In this part, unless the context requires otherwise, the following definitions apply:

(1) "Full guardian" means a guardian who possesses all the legal duties and powers enumerated in 72-5-321.

(2) "Guardian" includes a full guardian and a limited guardian.

(3) "Limited guardian" means a guardian who possesses fewer than all of the legal duties and powers of a full guardian and whose rights, powers, and duties have been specifically enumerated by the court.

History: En. Sec. 1, Ch. 344, L. 1981.

72-5-306. Purpose and basis for guardianship. Guardianship for an incapacitated person may be used only as is necessary to promote and protect the well-being of the person. The guardianship must be designed to encourage the development of maximum self-reliance and independence in the person and may be ordered only to the extent that the person's actual mental and physical limitations require it. An incapacitated person for whom a guardian has been appointed is not presumed to be incompetent and retains all legal and civil rights except those that have been expressly limited by court order or have been specifically granted to the guardian by the court.

History: En. Sec. 2, Ch. 344, L. 1981.

72-5-311. Venue for proceedings for court appointment of guardian. The venue for guardianship proceedings for an incapacitated person is in the place where the incapacitated person resides or is present. If the incapacitated person is admitted to an institution pursuant to order of a court of competent jurisdiction, venue is also in the county in which that court sits.

72-5-312. Who may be guardian — priorities. (1) Any competent person or a suitable institution, association, or nonprofit corporation or any of its members may be appointed guardian of an incapacitated person.

(2) Persons who are not disqualified have priority for appointment as guardian in the following order:

(a) a person, association, or private, nonprofit corporation nominated by the incapacitated person, if the court specifically finds that at the time of the nomination the incapacitated person had the capacity to make a reasonably intelligent choice;

(b) the spouse of the incapacitated person;

(c) an adult child of the incapacitated person;

(d) a parent of the incapacitated person, including a person nominated by will or other writing signed by a deceased parent;

(e) any relative of the incapacitated person with whom he has resided for more than 6 months prior to the filing of the petition;

(f) a relative or friend who has demonstrated a sincere, longstanding interest in the welfare of the incapacitated person;

(g) a private association or nonprofit corporation with a guardianship program for incapacitated persons, a member of such private association or nonprofit corporation approved by the association or corporation to act as a guardian for the incapacitated person, or a person included on an official list of such association or organization as willing and suitable to act as guardian of incapacitated persons;

(h) a person nominated by the person who is caring for him or paying benefits to him.

(3) The priorities established in subsection (2) are not binding, and the court shall select the person, association, or nonprofit corporation that is best qualified and willing to serve.

(4) Except as provided in subsection (5), the court may not appoint a person, institution, association, or nonprofit corporation to be the guardian of an incapacitated person if the person, institution, association, or nonprofit corporation:

(a) provides or is likely to provide during the guardianship substantial services to the incapacitated person in the professional or business capacity other than in the capacity of guardian;

(b) is or is likely to become during the guardianship period a creditor of the incapacitated person, other than in the capacity of guardian;

(c) has or is likely to have during the guardianship period interests that may conflict with those of the incapacitated person; or

(d) is employed by a person, institution, association, or nonprofit corporation who or which would be disqualified under subsections (4)(a) through (4)(c).

(5) If the court determines that there is no qualified person willing and able to serve as guardian, the court may appoint an agency of the state or federal government that is authorized or required by statute to provide services to the person or to persons suffering from the kind of disability from which the incapacitated person is suffering or a designee of the agency, notwithstanding the provisions of subsection (4). Whenever an agency is appointed guardian, the court may also appoint a limited guardian to represent a specified interest of the incapacitated person. Whenever a limited guardian is appointed pursuant to this subsection, the specified interest of the incapacitated person is the sole responsibility of the limited guardian and is removed from the responsibility of the agency.

72-5-313. Visitor in guardianship proceedings defined. A visitor is, with respect to guardianship proceedings, a person who is trained in law, nursing, social work, medical care, mental health care, pastoral care, education, or rehabilitation and is an officer, employee, or special appointee of the court with no personal interest in the proceedings.

72-5-314. Notices in guardianship proceedings. (1) In a proceeding for the appointment or removal of a guardian of an incapacitated person other than the appointment of a temporary guardian or temporary suspension of a guardian, notice of hearing shall be given to each of the following:

(a) the ward or the person alleged to be incapacitated and his spouse, parents, and adult children;

(b) any person who is serving as his guardian, conservator, or who has his care and custody; and

(c) in case no other person is notified under (a), at least one of his closest adult relatives, if any can be found.

(2) Notice shall be served personally on the alleged incapacitated person and his spouse and parents if they can be found within the state. Notice to the spouse and parents, if they

cannot be found within the state, and to all other persons except the alleged incapacitated person shall be given as provided in 72-1-301. Waiver of notice by the person alleged to be incapacitated is not effective unless he attends the hearing or his waiver of notice is confirmed in an interview with the visitor. Representation of the alleged incapacitated person by a guardian ad litem is not necessary.

72-5-315. Procedure for court appointment of guardian — hearing — examination — interview — procedural rights. (1) The incapacitated person or any person interested in his welfare, including the county attorney, may petition for a finding of incapacity and appointment of a guardian.

(2) Upon the filing of a petition, the court shall set a date for hearing on the issues of incapacity. The allegedly incapacitated person may have counsel of his own choice or the court may, in the interest of justice, appoint an appropriate official or attorney to represent him in the proceeding, who shall have the powers and duties of a guardian ad litem.

(3) The person alleged to be incapacitated shall be examined by a physician appointed by the court who shall submit his report in writing to the court and be interviewed by a visitor sent by the court. Whenever possible, the court shall appoint as visitor a person who has particular experience or expertise in treating, evaluating, or caring for persons with the kind of disabling condition that is alleged to be the cause of the incapacity. The visitor shall also interview the person who appears to have caused the petition to be filed and the person who is nominated to serve as guardian and visit the present place of abode of the person alleged to be incapacitated and the place it is proposed that he will be detained or reside if the requested appointment is made and submit his report in writing to the court. Whenever possible without undue delay or expense beyond the ability to pay of the alleged incapacitated person, the court, in formulating the judgment, shall utilize the services of any public or charitable agency that offers or is willing to evaluate the condition of the allegedly incapacitated person and make recommendations to the court regarding the most appropriate form of state intervention in his affairs.

(4) The person alleged to be incapacitated is entitled to be present at the hearing in person and to see or hear all evidence bearing upon his condition. He is entitled to be present by counsel, to present evidence, to cross-examine witnesses, including the court-appointed physician and the visitor, and to trial by jury. The issue may be determined at a closed hearing without a jury if the person alleged to be incapacitated or his counsel so requests.

72-5-316. Findings — order of appointment. (1) If the court is satisfied that the person for whom a guardianship is sought is incapacitated and that judicial intervention in his personal freedom of action and decision is necessary to meet essential requirements for his physical health or safety, it may appoint a full guardian having the powers described in 72-5-321 or a limited guardian having the powers described in the order. If the court is satisfied that the allegedly incapacitated person could handle the essential requirements for physical health or safety if his financial resources were managed by another, it shall order that the petition be treated as a petition for a protective order under part 4 of this chapter and proceed accordingly. Alternatively, the court may dismiss the proceeding or enter any other appropriate order that is not inconsistent with the specific provisions of this part. In issuing its order the court shall make specific findings of fact.

(2) The court may not invest a guardian with powers or duties beyond those sought in the petition and may, upon petition for a full guardianship, create a limited guardianship or conservatorship when the court determines that a limited guardianship or conservatorship is all that is required for the care and protection of the incapacitated person. The order shall specify whether a full or limited guardianship is being created. In the case of a limited guardianship, the order shall specify the particular powers and duties vested in the limited guardian and the period for which the limited guardianship is created.

(3) No incapacitated person may be limited in the exercise of any civil or political rights except those that are clearly inconsistent with the exercise of the powers granted to the guardian unless the court's order specifically provides for such limitations. The order shall state that all rights not specifically limited are retained by the incapacitated person.

History: En. 91A-5-304 by Sec. 1, Ch. 365, L. 1974; R.C.M. 1947, 91A-5-304; amd. Sec. 9, Ch. 344, L. 1981.

72-5-317. Temporary guardians. (1) If an incapacitated person has no guardian and an emergency exists, the court may exercise the power of a guardian pending notice and hearing.

(2) If an appointed guardian is not effectively performing his duties or if there is no appointed guardian and the court further finds that the welfare of the incapacitated person requires immediate action, it may, with or without notice, appoint a temporary guardian for the incapacitated person for a specified period not to exceed 6 months. The court may appoint either a full or a limited temporary guardian, depending on the needs and circumstances of the incapacitated person. The court may not invest a temporary guardian with more powers than are required by the circumstances necessitating the appointment. The order of appointment of a temporary guardian shall state whether a full or limited temporary guardianship is being created and, in the case of a limited temporary guardian, the specific powers and duties of the limited temporary guardian.

(3) In case there is no person available and willing to act as temporary guardian for an incapacitated person who is in need of a temporary guardian except a person or entity who is ineligible to act as guardian pursuant to the provisions of 72-5-312(4), the court may appoint as temporary guardian a person or entity who would otherwise be ineligible under that provision to act as guardian. This subsection does not permit the appointment of a person or entity who has an actual conflict of interest in regard to the purpose for which the temporary guardianship is sought. A temporary guardian who is otherwise ineligible shall serve until a person or entity who is not ineligible to serve as guardian and who is otherwise qualified to be guardian is appointed by the court to act as temporary guardian, but in no case may he serve for longer than 6 months.

(4) A temporary full guardian is entitled to the care and custody of the ward, and the authority of any permanent guardian previously appointed by the court is suspended so long as a temporary guardian has authority. A temporary limited guardian is entitled to exercise such powers as are specifically granted to him in the order of appointment, and the power of any permanent guardian previously appointed by the court to exercise those powers is suspended so long as the temporary limited guardian has authority. The court by specific order may suspend all authority of the permanent guardian upon appointment of a temporary limited guardian. A temporary guardian may be removed at any time. A temporary guardian shall make any report the court requires. In other respects the provisions of this code concerning guardians apply to temporary guardians.

72-5-318. Request for notice — interested person. (1) Any interested person who desires to be notified before any order is made in a guardianship proceeding may file with the clerk a request for notice upon payment of any fee required by statute or court rule. The clerk shall mail a copy of the demand to the guardian, if one has been appointed.

(2) A request is not effective unless it contains a statement showing the interest of the person making it and his address or that of his attorney and is effective only as to matters occurring after the filing. Any governmental agency paying or planning to pay benefits to the alleged incapacitated person is an interested person in guardianship proceedings.

History: En. Sec. 5, Ch. 344, L. 1981.

72-5-319. Contents of petition for appointment of guardian. (1) The petition for appointment of a guardian shall contain:

(a) the name, residence, and mailing address of the petitioner, his relationship to the alleged incapacitated person, and his interest in the matter;

(b) the name, residence, and mailing address of the alleged incapacitated person;

(c) the nature and degree of the alleged incapacity;

(d) if the petition in any way affects the management of the property of the alleged incapacitated person, the approximate value and description of his property, including any compensation, pension, insurance, or allowance to which he may be entitled;

(e) whether there is, in any state, a full guardian or limited guardian for the person or estate of the incapacitated person or a conservator of his property;

(f) the name, residence, and mailing address of the person whom the petitioner seeks to have appointed guardian;

(g) the names, residences, and nature of relationship, so far as is known or can reasonably be ascertained, of the persons most closely related by blood or marriage to the alleged incapacitated person;

(h) the name and residence of the person or institution having the care and custody of the alleged incapacitated person;

(i) the reasons why the appointment of a guardian is sought and whether a limited guardianship or full guardianship is requested;

(j) the facts supporting the allegations of incapacity and the need for a guardian;

(k) the specific areas of protection and assistance requested and the limitation of rights requested to be included in the order of appointment;

(l) in the case of a petition for limited guardianship, the particular powers and areas of authority that the petition seeks to have vested in the limited guardian as provided in 72-5-320 and the term for which the limited guardianship is requested;

(m) in the case of a petition for full guardianship, the length of time the guardianship is expected to last.

(2) The petition may also include a request for temporary guardianship as provided in 72-5-317 if the petitioner believes that the requisites of that section are met and that the appointment of a temporary guardian, pending the completion of guardianship proceedings, is necessary to protect the welfare of the alleged incapacitated person. The facts requiring appointment of a temporary guardian shall be stated with specificity.

History: En. Sec. 6, Ch. 344, L. 1981.

72-5-320. Purposes for establishment of limited guardianship. A petition seeking the establishment of a limited guardianship shall specify the particular powers that the limited guardian is proposed to exercise and the particular areas of protection and assistance required. The purposes for which a limited guardian may be appointed include:

(1) to care for and maintain the alleged incapacitated person;

(2) to assert and protect the rights and best interests of the alleged incapacitated person;

(3) to provide timely and informed consent to necessary medical procedures and procedures implemented in connection with habilitation and training programs;

(4) to assist in the acquisition of necessary training, habilitation, and education for the incapacitated person;

(5) to exercise any other powers, duties, or limitations in regard to the care of the incapacitated person or the management of his property that the petition shall explicitly specify and which may be no greater than the powers a full guardian can exercise.

History: En. Sec. 7, Ch. 344, L. 1981.

72-5-321. Powers and duties of guardian of incapacitated person. (1) The powers and duties of a limited guardian are those specified in the order appointing the guardian. The limited guardian is required to report the condition of the incapacitated person and of the estate that has been subject to his possession and control, as required by the court or by court rule.

(2) A full guardian of an incapacitated person has the same powers, rights, and duties respecting his ward that a parent has respecting his unemancipated minor child, except that a guardian is not liable to third persons for acts of the ward solely by reason of the parental relationship. In particular and without qualifying the foregoing, a full guardian has the following powers and duties, except as limited by order of the court:

(a) To the extent that it is consistent with the terms of any order by a court of competent jurisdiction relating to detention or commitment of the ward, he is entitled to custody of the person of his ward and may establish the ward's place of abode within or without this state.

(b) If entitled to custody of his ward, he shall make provision for the care, comfort, and maintenance of his ward and whenever appropriate arrange for his training and education. Without regard to custodial rights of the ward's person, he shall take reasonable care of his ward's clothing, furniture, vehicles, and other personal effects and commence protective proceedings if other property of his ward is in need of protection.

(c) A full guardian may give any consents or approvals that may be necessary to enable the ward to receive medical or other professional care, counsel, treatment, or service.

(d) If no conservator for the estate of the ward has been appointed, a full guardian may:

(i) institute proceedings to compel any person under a duty to support the ward or to pay sums for the welfare of the ward to perform his duty;

(ii) receive money and tangible property deliverable to the ward and apply the money and property for support, care, and education of the ward; but he may not use funds from his ward's estate for room and board which he, his spouse, parent, or child has furnished the ward unless a charge for the service is approved by order of the court made upon notice to at least one of the next of kin of the incompetent ward, if notice is possible. He must exercise care to conserve any excess for the ward's needs.

(e) Unless waived by the court, a full guardian is required to report the condition of his ward and of the estate which has been subject to his possession or control annually for the preceding year. A copy of the report must be served upon the ward's parent, child, or sibling if that person has made an effective request under 72-5-318.

(f) If a conservator has been appointed, all of the ward's estate received by the full guardian in excess of those funds expended to meet current expenses for support, care, and education of the ward must be paid to the conservator for management as provided in this code, and the full guardian must account to the conservator for funds expended.

(3) Upon failure, as determined by the clerk of court, of the guardian to file an annual report, the court shall order the guardian to file the report and give good cause for his failure to file a timely report.

(4) Any full guardian of one for whom a conservator also has been appointed shall control the custody and care of the ward. A limited guardian of a person for whom a conservator has been appointed shall control those aspects of the custody and care of the ward over which he is given authority by the order establishing the limited guardianship. The full guardian or limited guardian is entitled to receive reasonable sums for his services and for room and board furnished to the ward as agreed upon between him and the conservator, provided the amounts agreed upon are reasonable under the circumstances. The full guardian or limited guardian authorized to oversee such aspects of the incapacitated person's care may request the conservator to expend the ward's estate by payment to third persons or institutions for the ward's care and maintenance.

(5) No full guardian or limited guardian may involuntarily commit for mental health treatment or for treatment of a developmental disability or for observation or evaluation a ward who is himself unwilling or unable to give informed consent to such commitment, except as provided in 72-5-322, unless the procedures for involuntary commitment set forth in Title 53, chapters 20 and 21, are followed. This chapter does not abrogate any of the rights of mentally disabled persons provided for in Title 53, chapters 20 and 21.

History: En. 91A-5-312 by Sec. 1, Ch. 365, L. 1974; R.C.M. 1947, 91A-5-312; amd. Sec. 11, Ch. 344, L. 1981; amd. Sec. 1, Ch. 401, L. 1983.

72-5-322. Petition of guardian for treatment of ward. (1) If a guardian believes that the guardian's ward should receive medical treatment for a mental disorder and the ward refuses, the court may, upon petition by the guardian, grant an order for evaluation or treatment. However, the order may not forcibly detain the ward against the ward's will for more than 72 hours.

(2) The ward is entitled to an appointment of counsel and a hearing along with all the other rights guaranteed to a person with a mental disorder and who requires commitment under 53-21-114, 53-21-115, 53-21-119, and 53-21-120.

72-5-323. Proceedings subsequent to appointment — concurrent jurisdiction of court where ward resides — venue. (1) The court where the ward resides has concurrent jurisdiction with the court which appointed the guardian or in which acceptance of a testamentary appointment was filed over resignation, removal, accounting, and other proceedings relating to the guardianship.

(2) If the court located where the ward resides is not the court in which acceptance of appointment is filed, the court in which proceedings subsequent to appointment are commenced shall in all appropriate cases notify the other court, in this or another state, and after consultation with that court determine whether to retain jurisdiction or transfer the proceedings to the other court, whichever may be in the best interest of the ward. A copy of any order accepting a resignation or removing a guardian shall be sent to the court in which acceptance of appointment is filed.

72-5-324. Termination of appointment — how effected — certain liabilities and obligations not affected. (1) The authority and responsibility of a guardian for an incapacitated person terminates upon the death of the guardian or ward, the determination of incapacity of the guardian, or upon removal or resignation as provided in 72-5-325. Testamentary appointment under an informally probated will terminates if the will is later denied probate in a formal proceeding.

(2) Termination does not affect his liability for prior acts nor his obligation to account for funds and assets of his ward.

History: En. 91A-5-306 by Sec. 1, Ch. 365, L. 1974; R.C.M. 1947, 91A-5-306.

72-5-325. Petition for removal or resignation of guardian — termination of incapacity — appointment of successor guardian. (1) On petition of the ward or any person interested in the ward's welfare, the court, after hearing, may remove a guardian if in the best interests of the ward. On petition of the guardian, the court, after hearing, may accept a resignation.

(2) An order adjudicating incapacity may specify a minimum period, not exceeding 6 months, during which a petition for an adjudication that the ward is no longer incapacitated may not be filed without special leave. Subject to that restriction, the ward or any person interested in the welfare of the ward may petition for an order that the ward is no longer incapacitated and for termination of the guardianship. A request for an order may also be made informally to the court, and any person who knowingly interferes with transmission of the request may be adjudged guilty of contempt of court.

(3) Upon removal, resignation, or death of the guardian or if the guardian is determined to be incapacitated, the court may appoint a successor guardian and make any other appropriate order. Before appointing a successor guardian or ordering that a ward's incapacity has terminated, the court shall follow the same procedures to safeguard the rights of the ward that apply to a petition for appointment of a guardian.

(1) Any interested person who desires to be notified before any order is made in a protective proceeding may file with the clerk a request for notice subsequent to payment of any fee required by statute or court rule. The clerk shall mail a copy of the demand to the conservator if one has been appointed.

(2) A request is not effective unless it contains a statement showing the interest of the person making it and his address or that of his attorney and is effective only as to matters occurring after the filing. Any governmental agency paying or planning to pay benefits to the person to be protected is an interested person in protective proceedings.

(1) exclusive jurisdiction to determine the need for a conservator or other protective order until the proceedings are terminated;

(2) exclusive jurisdiction to determine how the estate of the protected person which is subject to the laws of this state shall be managed, expended, or distributed to or for the use of the protected person or any of his dependents;

(3) concurrent jurisdiction to determine the validity of claims against the person or estate of the protected person and his title to any property or claim.

72-5-408. Procedure concerning hearing and order on original petition. (1) Upon receipt of a petition for appointment of a conservator or other protective order because of minority, the court shall set a date for hearing on the matters alleged in the petition. If, at any time in the proceeding, the court determines that the interests of the minor are or may be inadequately represented, it may appoint an attorney to represent the minor, giving consideration to the choice of the minor if 14 years of age or older. A lawyer appointed by the court to represent a minor has the powers and duties of a guardian ad litem.

(2) Upon receipt of a petition for appointment of a conservator or other protective order for reasons other than minority, the court shall set a date for hearing. Unless the person to be protected has counsel of his own choice, the court must appoint a lawyer to represent him who then has the powers and duties of a guardian ad litem. If the alleged disability is mental illness or mental deficiency, the court may direct that the person to be protected be examined by a physician or professional person as defined in 53-21-102 designated by the court. If the alleged disability is physical illness or disability, advanced age, chronic use of drugs, or chronic intoxication, the court may direct that the person to be protected be examined by a physician designated by the court. It is preferable that a physician designated by the court not be connected with any institution in which the person is a patient or is detained. The court may send a visitor to interview the person to be protected. The visitor may be a guardian ad litem or an officer or employee of the court.

(3) In the case of an appointment pursuant to 72-5-410(1)(h), the court shall direct that the person to be protected be examined by a physician as set forth in subsection (2).

(4) After hearing, upon finding that a basis for the appointment of a conservator or other protective order has been established, the court shall make an appointment or other appropriate protective order.

72-5-409. Cause for appointment of conservator or issuance of protective order. Upon petition and after notice and hearing in accordance with the provisions of this part, the court may appoint a conservator or make other protective order for cause as follows:

(1) Appointment of a conservator or other protective order may be made in relation to the estate and affairs of a minor if the court determines that a minor owns money or property that requires management or protection which cannot otherwise be provided, has or may have business affairs which may be jeopardized or prevented by his minority, or that funds are needed for his support and education and that protection is necessary or desirable to obtain or provide funds.

(2) Appointment of a conservator or other protective order may be made in relation to the estate and affairs of a person if the court determines that:

(a) the person is unable to manage his property and affairs effectively for reasons such as mental illness, mental deficiency, physical illness or disability, advanced age, chronic use of drugs, chronic intoxication, confinement, detention by a foreign power, or disappearance; and

(b) the person has property which will be wasted or dissipated unless proper management is provided or that funds are needed for the support, care, and welfare of the person or those entitled to be supported by him and that protection is necessary or desirable to obtain or provide funds.

72-5-411. Bond — court may require — amount. (1) The court may require a conservator to furnish a bond conditioned upon faithful discharge of all duties of the trust according to law with sureties as it shall specify.

(2) Unless otherwise directed, the bond shall be in the amount of the aggregate capital value of the property of the estate in his control plus 1 year's estimated income minus the value of securities deposited under arrangements requiring an order of the court for their removal and the value of any land which the fiduciary, by express limitation of power, lacks power to sell or convey without court authorization.

(3) The court, in lieu of sureties on a bond, may accept other security for the performance of the bond, including a pledge of securities or a mortgage of land.

(a) Unless otherwise provided by the terms of the approved bond, sureties are jointly and severally liable with the conservator and with each other.

(b) By executing an approved bond of a conservator, the surety consents to the jurisdiction of the court which issued letters to the primary obligor in any proceeding pertaining to the fiduciary duties of the conservator and naming the surety as a party defendant. Notice of any proceeding shall be delivered to the surety or mailed to him by registered or certified mail at his address as listed with the court where the bond is filed and to his address as then known to the petitioner.

(c) On petition of a successor conservator or any interested person, a proceeding may be initiated against a surety for breach of the obligation of the bond of the conservator.

(d) The bond of the conservator is not void after the first recovery but may be proceeded against from time to time until the whole penalty is exhausted.

(2) No proceeding may be commenced against the surety on any matter as to which an action or proceeding against the primary obligor is barred by adjudication or limitation.

(a) requiring bond or security or additional bond or security or reducing bond;
(b) requiring an accounting for the administration of the trust;
(c) directing distribution;
(d) removing the conservator and appointing a temporary or successor conservator; or

(3) Upon notice and hearing, the court may give appropriate instructions or make any appropriate order.

72-5-414. Resignation or removal of conservator for cause — successor conservator. The court may remove a conservator for good cause, upon notice and hearing, or accept the resignation of a conservator. After his death, resignation, or removal, the court may appoint another conservator. A conservator so appointed succeeds to the title and powers of his predecessor.

(2) Whenever the public administrator is notified under subsection (1) of the need for the appointment of a conservator and reasonable cause exists, he must file a petition for appointment of the public administrator as conservator of the person.

72-5-421. Powers of court as to property and affairs of protected persons generally. The court has the following powers which may be exercised directly or through a conservator in respect to the estate and affairs of protected persons:

(1) While a petition for appointment of a conservator or other protective order is pending and after preliminary hearing and without notice to others, the court has power to preserve and apply the property of the person to be protected as may be required for his benefit or the benefit of his dependents.

(2) After hearing and upon determining that a basis for an appointment or other protective order exists with respect to a minor without other disability, the court has all those powers over the estate and affairs of the minor which are or might be necessary for the best interests of the minor, his family, and members of his household.

(3) After hearing and upon determining that a basis for an appointment or other protective order exists with respect to a person for reasons other than minority, the court has, for the benefit of the person and members of his household, all the powers over his estate and

affairs which he could exercise if present and not under disability, except the power to make a will. These powers include but are not limited to power to:

(a) make gifts;

(b) convey or release his contingent and expectant interests in property, including marital property rights and any right of survivorship incident to joint tenancy or tenancy by the entirety;

(c) exercise or release his powers as trustee, personal representative, custodian for minors, conservator, or donee of a power of appointment;

(d) enter into contracts;

(e) create revocable or irrevocable trusts of property of the estate which may extend beyond his disability or life;

(f) exercise options of the disabled person to purchase securities or other property;

(g) exercise his rights to elect options and change beneficiaries under insurance and annuity policies and surrender the policies for their cash value;

(h) exercise his right to an elective share in the estate of his deceased spouse and renounce any interest by testate or intestate succession or by inter vivos transfer.

(4) The court may exercise or direct the exercise of its authority to exercise or release powers of appointment of which the protected person is donee, to renounce interests, to make gifts in trust or otherwise exceeding 20% of any year's income of the estate, or to change beneficiaries under insurance and annuity policies, only if satisfied, after notice and hearing, that it is in the best interests of the protected person and that he either is incapable of consenting or has consented to the proposed exercise of power.

(5) An order made pursuant to this section, determining that a basis for appointment of a conservator or other protective order exists, has no effect on the capacity of the protected person.

History: En. 91A-5-408 by Sec. 1, Ch. 365, L. 1974; R.C.M. 1947, 91A-5-408.

72-5-422. Power of court to authorize particular protective arrangements or transactions without appointing conservator. (1) If it is established in a proper proceeding that a basis exists as described in 72-5-409 for affecting the property and affairs of a person, the court without appointing a conservator may authorize, direct, or ratify any transaction necessary or desirable to achieve any security, service, or care arrangement meeting the foreseeable needs of the protected person. Protective arrangements include but are not limited to:

(a) payment, delivery, deposit, or retention of funds or property;

(b) sale, mortgage, lease, or other transfer of property;

(c) entry into an annuity contract, a contract for life care, a deposit contract, or a contract for training and education; or

(d) addition to or establishment of a suitable trust.

(2) When it has been established in a proper proceeding that a basis exists as described in 72-5-409 for affecting the property and affairs of a person, the court without appointing a conservator may authorize, direct, or ratify any contract, trust, or other transaction relating to the protected person's financial affairs or involving his estate if the court determines that the transaction is in the best interests of the protected person.

(3) Before approving a protective arrangement or other transaction under this section, the court shall consider the interests of creditors and dependents of the protected person and, in view of his disability, whether the protected person needs the continuing protection of a conservator. The court may appoint a special conservator to assist in the accomplishment of any protective arrangement or other transaction authorized under this section who, upon appointment, has the authority conferred by the order and serves until discharged by order after report to the court of all matters done pursuant to the order of appointment.

The conservator shall provide a copy thereof to the protected person if he can be located, has attained the age of 14 years, and has sufficient mental capacity to understand these matters and to any parent or guardian with whom the protected person resides.

72-5-425. Title by appointment as conservator — appointment not transfer for certain purposes. (1) The appointment of a conservator vests in him title as trustee to all property of the protected person presently held or thereafter acquired, including title to any property theretofore held for the protected person by custodians or attorneys-in-fact.

(2) The appointment of a conservator is not a transfer or alienation within the meaning of general provisions of any federal or state statute or regulation, insurance policy, pension plan, contract, will, or trust instrument imposing restrictions upon or penalties for transfer or alienation by the protected person of his rights or interest, but this section does not restrict the ability of persons to make specific provision by contract or dispositive instrument relating to a conservator.

An order terminating a conservatorship is evidence of transfer of all assets of the estate from the conservator to the protected person or his successors.

(2) Subject to the requirements of general statutes governing the filing or recordation of documents of title to land or other property, letters of conservatorship and orders terminating conservatorships may be filed or recorded to give record notice of title as between the conservator and the protected person.

72-5-427. Powers of conservator in administration. (1) A conservator has all of the powers conferred herein and any additional powers conferred by law on trustees in this state. In addition, a conservator of the estate of an unmarried minor under the age of 18 years, as to whom no one has parental rights, has the duties and powers of a guardian of a minor described in 72-5-231 until the minor attains the age of 18 or marries, but the parental rights so conferred on a conservator do not preclude appointment of a guardian as provided by part 2.

(2) A conservator has power, without court authorization or confirmation, to invest and reinvest funds of the estate as would a trustee.

(3) A conservator, acting reasonably in efforts to accomplish the purpose for which he was appointed, may act without court authorization or confirmation to:

(a) collect, hold, and retain assets of the estate, including land in another state, until in his judgment disposition of the assets should be made, and the assets may be retained even though they include an asset in which he is personally interested;

(b) receive additions to the estate;

(c) continue or participate in the operation of any business or other enterprise;

(d) acquire an undivided interest in an estate asset in which the conservator in any fiduciary capacity holds an undivided interest;

(i) subdivide, develop, or dedicate land to public use; make or obtain the vacation of plats and adjust boundaries; adjust differences in valuation on exchange or partition by giving or receiving considerations; and dedicate easements to public use without consideration;

(j) enter for any purpose into a lease as lessor or lessee, with or without option to purchase or renew, for a term within or extending beyond the term of the conservatorship;

(k) enter into a lease or arrangement for exploration and removal of minerals or other natural resources or enter into a pooling or unitization agreement;

(l) grant an option involving disposition of an estate asset; take an option for the acquisition of any asset;

(m) vote a security in person or by general or limited proxy;

(n) pay calls, assessments, and any other sums chargeable or accruing against or on account of securities;

(o) sell or exercise stock subscription or conversion rights; consent, directly or through a committee or other agent, to the reorganization, consolidation, merger, dissolution, or liquidation of a corporation or other business enterprise;

(p) hold a security in the name of a nominee or in other form without disclosure of the conservatorship so that title to the security may pass by delivery, but the conservator is liable for any act of the nominee in connection with the stock so held;

(q) insure the assets of the estate against damage or loss and the conservator against liability with respect to third persons;

(r) borrow money to be repaid from estate assets or otherwise; advance money for the protection of the estate or the protected person and for all expenses, losses, and liability sustained in the administration of the estate or because of the holding or ownership of any estate assets, and the conservator has a lien on the estate as against the protected person for advances so made;

(s) pay or contest any claim; settle a claim by or against the estate or the protected person by compromise, arbitration, or otherwise; and release, in whole or in part, any claim belonging to the estate to the extent that the claim is uncollectible;

(t) pay taxes, assessments, compensation of the conservator, and other expenses incurred in the collection, care, administration, and protection of the estate;

(u) allocate items of income or expense to either estate income or principal, as provided by law, including creation of reserves out of income for depreciation, obsolescence, or amortization or for depletion in mineral or timber properties;

(v) pay any sum distributable to a protected person or a dependent of the person who is a minor or incompetent, without liability to the conservator, by paying the sum to the distributee or by paying the sum for the use of the distributee either to his guardian or, if none, to a relative or other person with custody of his person;

(w) employ persons, including attorneys, auditors, investment advisors, or agents, even though they are associated with the conservator, to advise or assist him in the performance of his administrative duties; act upon their recommendation without independent investigation; and instead of acting personally, employ one or more agents to perform any act of administration, whether or not discretionary;

(x) prosecute or defend actions, claims, or proceedings in any jurisdiction for the protection of estate assets and of the conservator in the performance of his duties; and

(y) execute and deliver all instruments which will accomplish or facilitate the exercise of the powers vested in the conservator.

72-5-428. Distributive powers and duties of conservator generally. (1) A conservator may expend or distribute income or principal of the estate without court authorization or confirmation for the support, education, care, or benefit of the protected person and his dependents in accordance with the following principles:

(a) The conservator is to consider recommendations relating to the appropriate standard of support, education, and benefit for the protected person made by a parent or guardian, if any. He may not be surcharged for sums paid to persons or organizations actually furnishing support, education, or care to the protected person pursuant to the recommendations of a parent or guardian of the protected person unless he knows that the parent or guardian is deriving personal financial benefit therefrom, including relief from any personal duty of support, or unless the recommendations are clearly not in the best interests of the protected person.

(b) The conservator is to expend or distribute sums reasonably necessary for the support, education, care, or benefit of the protected person with due regard to:

(i) the size of the estate, the probable duration of the conservatorship, and the likelihood that the protected person, at some future time, may be fully able to manage his affairs and the estate which has been conserved for him;

(ii) the accustomed standard of living of the protected person and members of his household;

(iii) other funds or sources used for the support of the protected person.

(c) The conservator may expend funds of the estate for the support of persons legally dependent on the protected person and others who are members of the protected person's household who are unable to support themselves and who are in need of support.

(d) Funds expended under this subsection may be paid by the conservator to any person, including the protected person, to reimburse for expenditures which the conservator might have made or in advance for services to be rendered to the protected person when it is reasonable to expect that they will be performed and where advance payments are customary or reasonably necessary under the circumstances.

(2) If the estate is ample to provide for the purposes implicit in the distributions authorized by the preceding subsections, a conservator for a protected person other than a minor has power to make gifts to charity and other objects as the protected person might have been expected to make in amounts which do not exceed in total for any year 20% of the income from the estate.

History: En. 91A-5-425 by Sec. 1, Ch. 365, L. 1974; R.C.M. 1947, 91A-5-425(1), (2).

72-5-429. Distribution upon attainment of majority, termination of disability, or death of protected person. (1) When a minor who has not been adjudged disabled under 72-5-409(2) attains his majority, his conservator, after meeting all prior claims and expenses of administration, shall pay over and distribute all funds and properties to the former protected person as soon as possible.

(2) When the conservator is satisfied that a protected person's disability (other than minority) has ceased, the conservator, after meeting all prior claims and expenses of administration, shall pay over and distribute all funds and properties to the former protected person as soon as possible.

(3) If a protected person dies, the conservator shall deliver to the court for safekeeping any will of the deceased protected person which may have come into his possession, inform the executor or a beneficiary named therein that he has done so, and retain the estate for delivery to a duly appointed personal representative of the decedent or other persons entitled thereto. If after 40 days from the death of the protected person no other person has been appointed personal representative and no application or petition for appointment is before the court, the conservator may apply to exercise the powers and duties of a personal representative so that he may proceed to administer and distribute the decedent's estate without additional or further appointment. Upon application for an order granting the powers of a personal representative to a conservator, after notice to any person demanding notice under 72-3-106 and to any person nominated executor in any will of which the applicant is aware, the court may order the conferral of the power upon determining that there is no objection and endorse the letters of the conservator to note that the formerly protected person is deceased and that the conservator has acquired all of the powers and duties of a personal representative. The making and entry of an

order under this section shall have the effect of an order of appointment of a personal representative as provided in 72-3-222, 72-3-223(1), and parts 5 through 10 of chapter 3, except that estate in the name of the conservator, after administration, may be distributed to the decedent's successors without prior retransfer to the conservator as personal representative.

72-5-430. Enlargement or limitation of powers of conservator by court. (1) Subject to the restrictions in 72-5-421(4), the court may confer on a conservator at the time of appointment or later, in addition to the powers conferred on him by 72-5-427, 72-5-428, and 72-5-429, any power which the court itself could exercise under subsections (2) and (3) of 72-5-421.

(2) The court may, at the time of appointment or later, limit the powers of a conservator conferred by the court and may at any time relieve him of any limitation. If the court limits any power conferred on the conservator by 72-5-427, 72-5-428, or 72-5-429, the limitation shall be endorsed upon his letters of appointment.

72-5-431. Preservation of estate plan — right to inspect will. In investing the estate and in selecting assets of the estate for distribution under 72-5-428, in utilizing powers of revocation or withdrawal available for the support of the protected person and exercisable by the conservator or the court, the conservator and the court should take into account any known estate plan of the protected person, including his will, any revocable trust of which he is settlor, and any contract, transfer, or joint ownership arrangement with provisions for payment or transfer of benefits or interests at his death to another or others which he may have originated. The conservator may examine the will of the protected person.

History: **En. 91A-5-427 by Sec. 1, Ch. 365, L. 1974; R.C.M. 1947, 91A-5-427.**

72-5-432. Compensation and expenses. If not otherwise compensated for services rendered, any visitor, lawyer, physician, conservator, or special conservator appointed in a protective proceeding is entitled to reasonable compensation from the estate.

History: **En. 91A-5-414 by Sec. 1, Ch. 365, L. 1974; R.C.M. 1947, 91A-5-414.**

72-5-433. Claims against protected person — presentment, allowance, and payment — priorities. (1) A conservator must pay from the estate all just claims against the estate and against the protected person arising before or after the conservatorship upon their presentation and allowance. A claim may be presented by either of the following methods:

(a) The claimant may deliver or mail to the conservator a written statement of the claim indicating its basis, the name and address of the claimant, and the amount claimed.

(b) The claimant may file a written statement of the claim, in the form prescribed by rule, with the clerk of the court and deliver or mail a copy of the statement to the conservator.

(2) A presented claim is allowed if it is not disallowed by written statement mailed by the conservator to the claimant within 60 days after its presentation. A claim is deemed presented on the first to occur of receipt of the written statement of claim by the conservator or the filing of the claim with the court. The presentation of a claim tolls any statute of limitation relating to the claim until 30 days after its disallowance.

(3) A claimant whose claim has not been paid may petition the court for determination of his claim at any time before it is barred by the applicable statute of limitation and, upon due proof, procure an order for its allowance and payment from the estate. If a proceeding is pending against a protected person at the time of appointment of a conservator or is initiated against the protected person thereafter, the moving party must give notice of the proceeding to the conservator if the outcome is to constitute a claim against the estate.

(4) If it appears that the estate in conservatorship is likely to be exhausted before all existing claims are paid, preference is to be given to prior claims for the care, maintenance, and education of the protected person or his dependents and existing claims for expenses of administration.

History: **En. 91A-5-428 by Sec. 1, Ch. 365, L. 1974; R.C.M. 1947, 91A-5-428.**

72-5-434. Transaction involving conflict of interest — voidable — exceptions. Any sale or encumbrance to a conservator, his spouse, agent or attorney, or any corporation or trust in which he has a substantial beneficial interest or any transaction which is affected by a substantial conflict of interest is voidable unless the transaction is approved by the court after notice to interested persons and others as directed by the court.

History: En. 91A-5-422 by Sec. 1, Ch. 365, L. 1974; R.C.M. 1947, 91A-5-422.

72-5-435. Persons dealing with conservator — protection. (1) A person who in good faith either assists a conservator or deals with him for value in any transaction other than those requiring a court order as provided in 72-5-421 is protected as if the conservator properly exercised the power. The fact that a person knowingly deals with a conservator does not alone require the person to inquire into the existence of a power or the propriety of its exercise, except that restrictions on powers of conservators which are endorsed on letters as provided in 72-5-430 are effective as to third persons. A person is not bound to see to the proper application of estate assets paid or delivered to a conservator.

(2) The protection expressed in this section extends to any procedural irregularity or jurisdictional defect occurring in proceedings leading to the issuance of letters and is not a substitution for protection provided by comparable provisions of the law relating to commercial transactions or laws simplifying transfers of securities by fiduciaries.

(3) The protection here expressed is not by substitution for that provided by comparable provisions of the laws relating to commercial transactions and laws simplifying transfers of securities by fiduciaries.

History: En. 91A-5-423 by Sec. 1, Ch. 365, L. 1974; R.C.M. 1947, 91A-5-423; amd. Sec. 23, Ch. 582, L. 1989.

72-5-436. Claims arising during conservatorship — individual liability of conservator. (1) Unless otherwise provided in the contract, a conservator is not individually liable on a contract properly entered into in his fiduciary capacity in the course of administration of the estate unless he fails to reveal his representative capacity and identify the estate in the contract.

(2) The conservator is individually liable for obligations arising from ownership or control of property of the estate or for torts committed in the course of administration of the estate only if he is personally at fault.

(3) Claims based on contracts entered into by a conservator in his fiduciary capacity on obligations arising from ownership or control of the estate or on torts committed in the course of administration of the estate may be asserted against the estate by proceeding against the conservator in his fiduciary capacity, whether or not the conservator is individually liable therefor.

(4) Any question of liability between the estate and the conservator individually may be determined in a proceeding for accounting, surcharge, or indemnification or other appropriate proceeding or action.

History: En. 91A-5-429 by Sec. 1, Ch. 365, L. 1974; R.C.M. 1947, 91A-5-429.

72-5-437. Termination of conservatorship. The protected person, his personal representative, the conservator, or any other interested person may petition the court to terminate the conservatorship. A protected person seeking termination is entitled to the same rights and procedures as in an original proceeding for a protective order. The court, upon determining after notice and hearing that the minority or disability of the protected person has ceased, may terminate the conservatorship. Upon termination, title to assets of the estate passes to the former protected person or to his successors, subject to provision in the order for expenses of administration or to conveyances from the conservator to the former protected persons or his successors to evidence the transfer.

History: En. 91A-5-430 by Sec. 1, Ch. 365, L. 1974; R.C.M. 1947, 91A-5-430.

72-5-438. Accounts — final and intermediate. (1) Each conservator shall account to the court for administration of the trust not less than annually, unless the court directs otherwise, upon resignation or removal, and at other times as the court may direct. On termination of the protected person's minority or disability, a conservator shall account to the court or to the formerly protected person or the successors of that person.

(2) Subject to appeal or vacation within the time permitted, an order, after notice and hearing, allowing an intermediate account of a conservator adjudicates as to liabilities concerning the matters considered in connection with the hearing; and an order, following notice and hearing, allowing a final account adjudicates as to all previously unsettled liabilities of the conservator to the protected person or the protected person's successors relating to the conservatorship.

(3) In connection with any account, the court may require a conservator to submit to a physical check of the estate, to be made in any manner the court specifies.

History: En. 91A-5-419 by Sec. 1, Ch. 365, L. 1974; R.C.M. 1947, 91A-5-419; amd. Sec. 2, Ch. 401, L. 1983; amd. Sec. 22, Ch. 582, L. 1989.

72-5-439. Payment of debt and delivery of property to foreign conservator without local proceedings. (1) Any person indebted to a protected person or having possession of property or of an instrument evidencing a debt, stock, or chose in action belonging to a protected person may pay or deliver to a conservator, guardian of the estate, or other like fiduciary appointed by a court of the state or residence of the protected person upon being presented with proof of his appointment and an affidavit made by him or on his behalf stating:

(a) that no protective proceeding relating to the protected person is pending in this state; and

(b) that the foreign conservator is entitled to payment or to receive delivery.

(2) If the person to whom the affidavit is presented is not aware of any protective proceeding pending in this state, payment or delivery in response to the demand and affidavit discharges the debtor or possessor.

History: En. 91A-5-431 by Sec. 1, Ch. 365, L. 1974; R.C.M. 1947, 91A-5-431.

Part 5
Powers of Attorney

Part Cross-References

Agency, Title 28, ch. 10.

Statutory Form Power of Attorney Act, Title 72, ch. 31, part 2.

72-5-501. When power of attorney not affected by disability. (1) A durable power of attorney is a power of attorney by which a principal designates another his attorney-in-fact or agent in writing and the writing contains the words, "This power of attorney shall not be affected by subsequent disability or incapacity of the principal or lapse of time" or "This power of attorney shall become effective upon the disability or incapacity of the principal" or similar words showing the intent of the principal that the authority conferred shall be exercisable notwithstanding the principal's subsequent disability or incapacity, and, unless it states a time of termination, notwithstanding the lapse of time since the execution of the instrument. All acts done by the attorney-in-fact pursuant to a durable power of attorney during any period of disability or incapacity of the principal have the same effect and inure to the benefit of and bind the principal and his successors in interest as if the principal were alive, competent, and not disabled. Unless the instrument states a time of termination, the power is exercisable notwithstanding the lapse of time since the execution of the instrument.

(2) If a conservator thereafter is appointed for the principal, the attorney-in-fact or agent, during the continuance of the appointment, is accountable to the conservator as well as the principal. The conservator has the same power to revoke or amend the power of attorney that the principal would have had if he were not disabled or incapacitated. A principal may nominate, by a durable power of attorney, the conservator of his estate or guardian of his person for consideration by the court if protective proceedings for the principal's person or estate are later commenced. The court shall make its appointment in accordance with the principal's most recent nomination in a durable power of attorney except for good cause or disqualification.

History: En. 91A-5-501 by Sec. 1, Ch. 365, L. 1974; R.C.M. 1947, 91A-5-501; amd. Sec. 1, Ch. 283, L. 1985; amd. Sec. 24, Ch. 582, L. 1989.

72-5-502. Power of attorney not revoked until notice. (1) The death of a principal who has executed a written power of attorney, durable or otherwise, does not revoke or terminate the agency as to the attorney-in-fact, agent, or other person who, without actual knowledge of the death of the principal, acts in good faith under the power of attorney or agency. Any action so taken, unless otherwise invalid or unenforceable, binds the successors in interest of the principal.

(2) The disability or incapacity of a principal who has previously executed a power of attorney that is not a durable power does not revoke or terminate the agency as to the attorney-in-fact or other person who, without actual knowledge of the disability or incapacity of the principal, acts in good faith under the power. Any action so taken, unless otherwise invalid or unenforceable, binds the principal and his successors in interest.

(3) As to acts undertaken in good faith reliance thereon, an affidavit executed by the attorney-in-fact or agent stating that he did not have, at the time of exercise of the power, actual knowledge of the termination of the power by revocation or of the principal's death, disability, or incapacity is conclusive proof of the nonrevocation or nontermination of the power at that time. If the exercise of the power requires execution and delivery of any instrument which is recordable, the affidavit when authenticated for record is likewise recordable.

(4) This section does not affect any provision in a power of attorney for its termination by expiration of time or occurrence of an event other than express revocation or a change in the principal's capacity.

History: En. 91A-5-502 by Sec. 1, Ch. 365, L. 1974; R.C.M. 1947, 91A-5-502; amd. Sec. 2, Ch. 283, L. 1985.

(2) "Agent" means a person authorized to make account transactions for a party.

(3) "Beneficiary" means a person named as one to whom sums on deposit in an account are payable on request after death of all parties or for whom a party is named as trustee.

(4) "Financial institution" means an organization authorized to do business under state or federal laws relating to financial institutions and includes a bank, trust company, savings bank, building and loan association, savings and loan company or association, and credit union.

(8) "POD designation" means the designation of:

(a) a beneficiary in an account payable on request to one party during the party's lifetime and on the party's death to one or more beneficiaries or to one or more parties during their lifetimes and on death of all of them to one or more beneficiaries; or

(b) a beneficiary in an account in the name of one or more parties as trustee for one or more beneficiaries if the relationship is established by the terms of the account and there is no subject of the trust other than the sums on deposit in the account, whether or not payment to the beneficiary is mentioned.

(9) "Receive", as it relates to notice to a financial institution, means receipt in the office or branch office of the financial institution in which the account is established or, if the terms of the account require notice at a particular place, in the place required.

(10) "Request" means a request for payment that complies with all terms of the account, including special requirements concerning necessary signatures and regulations of the financial institution; however, for purposes of this part, if terms of the account condition payment on advance notice, a request for payment is treated as immediately effective and a notice of intent to withdraw is treated as a request for payment.

(11) "Sums on deposit" means the balance payable on an account, including interest and dividends earned, whether or not included in the current balance, and any deposit life insurance proceeds added to the account by reason of death of a party.

(12) "Terms of the account" includes the deposit agreement and other terms and conditions of the contract of deposit, including the type of account, the parties to the account, and the form of the contract.

History: En. Sec. 84, Ch. 494, L. 1993; amd. Sec. 29, Ch. 592, L. 1995.

72-6-202. Limitation on scope of part. This part does not apply to:

(2) an account controlled by one or more persons as an agent or trustee for a corporation, unincorporated association, or charitable or civic organization; or

(3) a fiduciary or trust account in which the relationship is established other than by the terms of the account.

History: En. Sec. 85, Ch. 494, L. 1993.

72-6-203. Types of account — existing accounts. (1) An account may be for a single party or multiple parties. A multiple-party account may be with or without a right of survivorship between the parties. Subject to 72-6-212(3), either a single-party account or a multiple-party account may have a POD designation, an agency designation, or both.

(2) An account established before, on, or after October 1, 1993, whether in the form prescribed in 72-6-204 or in any other form, is either a single-party account or a multiple-party account, with or without right of survivorship and with or without a POD designation or an agency designation, within the meaning of this part, and is governed by this part.

History: **En. Sec. 86, Ch. 494, L. 1993.**

72-6-204. Forms. (1) A contract of deposit that contains provisions in substantially the following form establishes the type of account provided, and the account is governed by the provisions of this part applicable to an account of that type:

(2) A contract of deposit that does not contain provisions in substantially the form provided in subsection (1) is governed by the provisions of this part applicable to the type of account that most nearly conforms to the depositor's intent.

72-6-205. Designation of agent. (1) By a writing signed by all parties, the parties may designate as agent of all parties on an account a person other than a party.

(2) Unless the terms of an agency designation provide that the authority of the agent terminates on disability or incapacity of a party, the agent's authority survives disability and incapacity. The agent may act for a disabled or incapacitated party until the authority of the agent is terminated.

(3) Death of the sole party or last-surviving party terminates the authority of an agent.

History: En. Sec. 88, Ch. 494, L. 1993.

Cross-References

Agency, Title 28, ch. 10.

72-6-206. Applicability of beneficial ownership provisions. The provisions of 72-6-211 through 72-6-216 concerning beneficial ownership as between parties or as between parties and beneficiaries apply only to controversies between those persons and their creditors and other successors and do not apply to the right of those persons to payment as determined by the terms of the account. Sections 72-6-221 through 72-6-227 govern the liability and setoff rights of financial institutions that make payments pursuant to it.

History: En. Sec. 89, Ch. 494, L. 1993.

72-6-207 through 72-6-210 reserved.

72-6-211. Ownership during lifetime. (1) In this section, "net contribution" of a party means the sum of all deposits to an account made by or for the party, less all payments from the account made to or for the party that have not been paid to or applied to the use of another party and a proportionate share of any charges deducted from the account, plus a proportionate share of any interest or dividends earned, whether or not included in the current balance. The term includes deposit life insurance proceeds added to the account by reason of death of the party whose net contribution is in question.

(2) During the lifetime of all parties, an account belongs to the parties in proportion to the net contribution of each to the sums on deposit unless there is clear and convincing evidence of a different intent. As between parties married to each other, in the absence of proof otherwise, the net contribution of each is presumed to be an equal amount.

(3) A beneficiary in an account having a POD designation has no right to sums on deposit during the lifetime of any party.

(4) An agent in an account with an agency designation has no beneficial right to sums on deposit.

History: En. Sec. 90, Ch. 494, L. 1993.

72-6-212. Rights at death. (1) Except as otherwise provided in this part, on the death of a party, sums on deposit in a multiple-party account belong to the surviving party or parties. If two or more parties survive and one is the surviving spouse of the decedent, the amount to which the decedent, immediately before death, was beneficially entitled under 72-6-211 belongs to the surviving spouse. If two or more parties survive and none is the surviving spouse of the decedent, the amount to which the decedent, immediately before death, was beneficially entitled under 72-6-211 belongs to the surviving parties in equal shares and augments the proportion to which each survivor, immediately before the decedent's death, was beneficially entitled under 72-6-211 and the right of survivorship continues between the surviving parties.

(2) In an account with a POD designation:

(a) on the death of one of two or more parties, the rights in sums on deposit are governed by subsection (1);

(b) on the death of the sole party or the last survivor of two or more parties, sums on deposit belong to the surviving beneficiary or beneficiaries. If two or more beneficiaries survive, sums on deposit belong to them in equal and undivided shares and there is no right of survivorship in the event of the death of a beneficiary thereafter. If no beneficiary survives, sums on deposit belong to the estate of the last-surviving party.

(3) Sums on deposit in a single-party account without a POD designation, or in a multiple-party account that, by the terms of the account, is without right of survivorship, are not affected by the death of a party, but the amount to which the decedent, immediately before death, was beneficially entitled under 72-6-211 is transferred as part of the decedent's estate. A POD designation in a multiple-party account without right of survivorship is ineffective. For purposes of this section, designation of an account as a tenancy in common establishes that the account is without right of survivorship.

(4) The ownership right of a surviving party or beneficiary, or of the decedent's estate, in sums on deposit is subject to requests for payment made by a party before the party's death, whether paid by the financial institution before or after death or unpaid. The surviving party or beneficiary, or the decedent's estate, is liable to the payee of an unpaid request for payment. The liability is limited to a proportionate share of the amount transferred under this section, to the extent necessary to discharge the request for payment.

History: En. Sec. 91, Ch. 494, L. 1993.

72-6-213. Alteration of rights. (1) Rights at death under 72-6-212 are determined by the terms of the account at the death of a party.

(2) Except as provided in subsection (3) and unless otherwise agreed in writing between the parties to the account, the terms of an account may be altered by written notice given by a party to the financial institution to change the terms of account or to stop or vary payment under the terms of the account. The notice must be signed by a party and received by the financial institution during the party's lifetime.

(3) A financial institution may, in its discretion, refuse to honor a request for alteration of rights that would change:

(a) the financial institution's obligations or rights under the contract of deposit; or

(b) the parties to a multiple-party account if the request is not signed by all of the parties to the account.

(4) A right of survivorship arising from the express terms of the account, from 72-6-212, or from a POD designation may not be altered by will.

History: En. Sec. 92, Ch. 494, L. 1993; amd. Sec. 30, Ch. 592, L. 1995; amd. Sec. 4, Ch. 279, L. 1997.

72-6-214. Accounts and transfers nontestamentary. Except as provided in Title 72, chapter 2, part 2, or as a consequence of and to the extent directed by 72-6-215, a transfer resulting from the application of 72-6-212 is effective by reason of the terms of the account involved and this part and is not testamentary or subject to Title 72, chapters 1 through 5.

History: En. Sec. 93, Ch. 494, L. 1993.

72-6-215. Rights of creditors and others. (1) If other assets of the estate are insufficient, a transfer resulting from a right of survivorship or POD designation under this part is not effective against the estate of a deceased party to the extent needed to pay claims against the estate and statutory allowances to the surviving spouse and children.

(2) A surviving party or beneficiary who receives payment from an account after the death of a party is liable to account to the personal representative of the decedent for a proportionate share of the amount received to which the decedent, immediately before death, was beneficially

entitled under 72-6-211, to the extent necessary to discharge the claims and allowances described in subsection (1) remaining unpaid after application of the decedent's estate. A proceeding to assert the liability may not be commenced unless the personal representative has received a written demand by the surviving spouse, a creditor, a child, or a person acting for a child of the decedent. The proceeding must be commenced within 1 year after death of the decedent.

(3) A surviving party or beneficiary against whom a proceeding to account is brought may join as a party to the proceeding a surviving party or beneficiary of any other account of the decedent.

(4) Sums recovered by the personal representative must be administered as part of the decedent's estate. This section does not affect the protection from claims of the personal representative or estate of a deceased party provided in 72-6-226 for a financial institution that makes payment in accordance with the terms of the account.

History: En. Sec. 94, Ch. 494, L. 1993.

72-6-216. Community property and tenancy by entireties. (1) A deposit of community property in an account does not alter the community character of the property or community rights in the property, but a right of survivorship between parties married to each other that arises from the express terms of the account or 72-6-212 may not be altered by will.

(2) This part does not affect the law governing tenancy by the entireties.

History: En. Sec. 95, Ch. 494, L. 1993.

72-6-217 through 72-6-220 reserved.

72-6-221. Authority of financial institution. A financial institution may enter into a contract of deposit for a multiple-party account to the same extent it may enter into a contract of deposit for a single-party account and may provide for a POD designation and an agency designation in either a single-party account or a multiple-party account. A financial institution need not inquire as to the source of a deposit to an account or as to the proposed application of a payment from an account.

History: En. Sec. 96, Ch. 494, L. 1993.

72-6-222. Payment on multiple-party account. A financial institution, on request, may pay sums on deposit in a multiple-party account to:

(1) one or more of the parties, whether or not another party is disabled, incapacitated, or deceased when payment is requested and whether or not the party making the request survives another party; or

(2) the personal representative or a successor claiming under 72-3-1101 if proof of death is presented to the financial institution, showing that the deceased party was the survivor of all other persons named on the account as either a party or beneficiary, unless the account is without right of survivorship under 72-6-212.

History: En. Sec. 97, Ch. 494, L. 1993.

72-6-223. Payment on POD designation. A financial institution, on request, may pay sums on deposit in an account with a POD designation to:

(1) one or more of the parties, whether or not another party is disabled, incapacitated, or deceased when the payment is requested and whether or not a party survives another party;

(2) the beneficiary or beneficiaries, if proof of death is presented to the financial institution, showing that the beneficiary or beneficiaries survived all persons named as parties; or

(3) the personal representative, if any, or, if there is none, the heirs or devisees of a deceased party, if proof of death is presented to the financial institution, showing that the deceased party was the survivor of all other persons named on the account as either a party or beneficiary.

History: En. Sec. 98, Ch. 494, L. 1993.

72-6-224. Payment to designated agent. A financial institution, on request of an agent under an agency designation for an account, may pay to the agent sums on deposit in the account, whether or not a party is disabled, incapacitated, or deceased when the request is made or received and whether or not the authority of the agent terminates on the disability or incapacity of a party.

History: En. Sec. 99, Ch. 494, L. 1993.

72-6-225. Payment to minor. If a financial institution is required or permitted to make payment pursuant to this part to a minor designated as a beneficiary, payment may be made pursuant to the Montana Uniform Transfers to Minors Act, Title 72, chapter 26.

History: En. Sec. 100, Ch. 494, L. 1993.

72-6-226. Discharge. (1) Payment made pursuant to this part in accordance with the terms of an account, or honoring a request for alteration of rights made in accordance with 72-6-213, discharges the financial institution from all claims for amounts so paid or alterations so made, whether or not the payment or alteration is consistent with the beneficial ownership of the account as between parties, beneficiaries, or their successors. Payment or alteration may be made whether or not a party, beneficiary, or agent is disabled, incapacitated, or deceased when payment or alteration is requested, received, or made.

(2) Protection under this section does not extend to payments or alterations made after a financial institution has received written notice from a party, or from the personal representative, surviving spouse, or heir or devisee of a deceased party, to the effect that payments in accordance with the terms of the account or alteration of rights, including payments or alterations relating to an account having an agency designation, should not be permitted and after the financial institution has had a reasonable opportunity to act on the notice when the payment is made or the alteration is requested. Unless the notice is withdrawn by the person giving it, the successor of any deceased party shall concur in a request for payment or alteration if the financial institution is to be protected under this section. Unless a financial institution has been served with process in an action or proceeding, no other notice or other information shown to have been available to the financial institution affects its right to protection under this section.

(3) A financial institution that receives written notice pursuant to this section or otherwise has reason to believe that a dispute exists as to the rights of the parties may refuse, without liability, to make payments in accordance with the terms of the account or to honor a request for alterations.

(4) Protection of a financial institution under this section does not affect the rights of parties in disputes between themselves or their successors concerning the beneficial ownership of sums on deposit in accounts or payments made from accounts or regarding whether a request for an alteration of rights to an account was improper between the parties.

History: En. Sec. 101, Ch. 494, L. 1993; amd. Sec. 31, Ch. 592, L. 1995; amd. Sec. 5, Ch. 279, L. 1997.

72-6-227. Setoff. Without qualifying any other statutory right to setoff or lien and subject to any contractual provision, if a party is indebted to a financial institution, the financial institution has a right to setoff against the account. The amount of the account subject to setoff is either the proportion to which the party is, or immediately before death was, beneficially entitled under 72-6-211 or, in the absence of proof of that proportion, an equal share with all parties.

Part 3
Uniform TOD Security Registration Act

Part Cross-References

Securities, Title 30, ch. 10.

72-6-301. Definitions. As used in this part, the following definitions apply:

(1) "Beneficiary form" means a registration of a security that indicates the present owner of the security and the intention of the owner regarding the person who will become the owner of the security upon the death of the owner.

(2) "Register", including its derivatives, means to issue a certificate showing the ownership of a certificated security or, in the case of an uncertificated security, to initiate or transfer an account showing ownership of securities.

(3) "Registering entity" means a person who originates or transfers a security title by registration and includes a broker maintaining security accounts for customers and a transfer agent or other person acting for or as an issuer of securities.

(4) "Security" means a share, participation, or other interest in property, in a business, or in an obligation of an enterprise or other issuer and includes a certificated security, an uncertificated security, and a security account.

(5) "Security account" means:

(a) a reinvestment account associated with a security, a securities account with a broker, a cash balance in a brokerage account, cash, interest, earnings, or dividends earned or declared on a security in an account, a reinvestment account, or a brokerage account, whether or not credited to the account before the owner's death; or

(b) a cash balance or other property held for or due to the owner of a security as a replacement for or product of an account security, whether or not credited to the account before the owner's death.

History: En. Sec. 103, Ch. 494, L. 1993.

72-6-302. Registration in beneficiary form — sole or joint tenancy ownership. Only individuals whose registration of a security shows sole ownership by one individual or multiple ownership by two or more with right of survivorship, rather than as tenants in common, may obtain registration in beneficiary form. Multiple owners of a security registered in beneficiary form hold as joint tenants with right of survivorship, as tenants by the entireties, or as owners of community property held in survivorship form and not as tenants in common.

History: En. Sec. 104, Ch. 494, L. 1993.

Cross-References

Joint interest defined, 70-1-307.

72-6-303. Registration in beneficiary form — applicable law. (1) A security may be registered in beneficiary form if the form is authorized by this or a similar statute of the state:

(a) of organization of the issuer or registering entity;

(b) of the location of the registering entity's principal office;

(c) of the office of its transfer agent or its office making the registration; or

(d) listed as the owner's address at the time of registration.

(2) A registration governed by the law of a jurisdiction in which this or similar legislation is not in force or was not in force when a registration in beneficiary form was made is nevertheless presumed to be valid and authorized as a matter of contract law.

History: En. Sec. 105, Ch. 494, L. 1993.

72-6-304. Origination of registration in beneficiary form. A security, whether evidenced by certificate or account, is registered in beneficiary form when the registration includes a designation of a beneficiary to take the ownership at the death of the owner or the deaths of all multiple owners.

History: En. Sec. 106, Ch. 494, L. 1993.

72-6-305. Form of registration in beneficiary form. Registration in beneficiary form may be shown by the words "transfer on death" or the abbreviation "TOD", or by the words "pay on death" or the abbreviation "POD", after the name of the registered owner and before the name of a beneficiary.

History: En. Sec. 107, Ch. 494, L. 1993.

72-6-306. Effect of registration in beneficiary form. The designation of a TOD beneficiary on a registration in beneficiary form has no effect on ownership until the owner's death. A registration of a security in beneficiary form may be canceled or changed at any time by the sole owner or all then-surviving owners without the consent of the beneficiary.

History: En. Sec. 108, Ch. 494, L. 1993.

72-6-307. Ownership on death of owner. On the death of a sole owner or the last to die of all multiple owners, ownership of securities registered in beneficiary form passes to the beneficiary or beneficiaries who survive all owners. On proof of the death of all owners and compliance with any applicable requirements of the registering entity, a security registered in beneficiary form may be reregistered in the name of the beneficiary or beneficiaries who survived the death of all owners. Until division of the security after the death of all owners, multiple beneficiaries surviving the death of all owners hold their interests as tenants in common. If no beneficiary survives the death of all owners, the security belongs to the estate of the deceased sole owner or the estate of the last to die of all multiple owners.

History: En. Sec. 109, Ch. 494, L. 1993.

72-6-308. Protection of registering entity. (1) A registering entity is not required to offer or to accept a request for security registration in beneficiary form. If a registration in beneficiary form is offered by a registering entity, the owner requesting registration in beneficiary form assents to the protections given to the registering entity by this part.

(2) By accepting a request for registration of a security in beneficiary form, the registering entity agrees that the registration will be implemented on the death of the deceased owner as provided in this part.

(3) (a) A registering entity is discharged from all claims to a security by the estate, creditors, heirs, or devisees of a deceased owner if it registers a transfer of the security in accordance with 72-6-307 and does so in good faith reliance on:

(i) the registration;

(ii) this part; and

(iii) information provided to it by affidavit of the personal representative of the deceased owner, or by the surviving beneficiary or by the surviving beneficiary's representatives, or other information available to the registering entity.

(b) The protections of this part do not extend to a reregistration or payment made after a registering entity has received written notice from any claimant to any interest in the security objecting to implementation of a registration in beneficiary form. No other notice or other information available to the registering entity affects its right to protection under this part.

(4) The protection provided by this part to the registering entity of a security does not affect the rights of beneficiaries in disputes between themselves and other claimants to ownership of the security transferred or its value or proceeds.

History: En. Sec. 110, Ch. 494, L. 1993.

72-6-309. Nontestamentary transfer on death. (1) A transfer on death, resulting from a registration in beneficiary form, is effective by reason of the contract regarding the registration between the owner and the registering entity and this part and is not testamentary.

(2) This part does not limit the rights of creditors of security owners against beneficiaries and other transferees under other laws of this state.

History: En. Sec. 111, Ch. 494, L. 1993.

72-6-310. Terms, conditions, and forms for registration. (1) (a) A registering entity offering to accept registrations in beneficiary form may establish the terms and conditions under which it will receive requests for:

(i) registrations in beneficiary form; and

(ii) implementation of registrations in beneficiary form, including requests for cancellation of previously registered TOD beneficiary designations and requests for reregistration to effect a change of beneficiary.

(b) The terms and conditions so established may provide for proving death, avoiding or resolving any problems concerning fractional shares, designating primary and contingent beneficiaries, and substituting a named beneficiary's descendants to take in the place of the named beneficiary in the event of the beneficiary's death. Substitution may be indicated by appending to the name of the primary beneficiary the letters LDPS, standing for "lineal descendants per stirpes". This designation substitutes a deceased beneficiary's descendants who survive the owner for a beneficiary who fails to so survive, the descendants to be identified and to share in accordance with the law of the beneficiary's domicile at the owner's death that governs inheritance by descendants of an intestate. Other forms of identifying beneficiaries who are to take on one or more contingencies, and rules for providing proofs and assurances needed to satisfy reasonable concerns by registering entities regarding conditions and identities relevant to accurate implementation of registrations in beneficiary form, may be contained in a registering entity's terms and conditions.

(2) The following are illustrations of registrations in beneficiary form that a registering entity may authorize:

(a) sole owner-sole beneficiary: John S. Brown TOD (or POD) John S. Brown Jr.;

(b) multiple owners-sole beneficiary: John S. Brown Mary B. Brown JT TEN TOD John S. Brown Jr.;

(c) multiple owners-primary and secondary (substituted) beneficiaries: John S. Brown Mary B. Brown JT TEN TOD John S. Brown Jr. SUB BENE Peter Q. Brown or John S. Brown Mary B. Brown JT TEN TOD John S. Brown Jr. LDPS.

History: En. Sec. 112, Ch. 494, L. 1993.

72-6-311. Application of part. This part applies to registrations of securities in beneficiary form made before or after October 1, 1993, by decedents dying on or after October 1, 1993.

History: En. Sec. 131, Ch. 494, L. 1993.

Intestate Succession

72-11-101. Degrees of kinship — how computed. The degree of kinship is established by the number of generations, and each generation is called a degree.

Cross-References

Relationship by affinity, 1-1-219.

72-11-102. Types of kinship — lineal and collateral. There are two types of kinship, lineal and collateral. Lineal kinship, or the direct line of consanguinity, is the relationship between persons, one of whom is a descendant of the other. Collateral kinship is the relationship between people who descend from a common ancestor but are not in a direct line.

Kindred of half blood, 72-2-117.
Share of individual related to decedent through two lines, 72-2-123.

72-11-103. Computation of degrees in lineal kinship. The degree of lineal kinship of two persons is computed by counting one degree for each person in the line of ascent or descent, exclusive of the person from whom the computing begins. The child is, with regard to the parent, in the first degree; the grandchild is, with regard to the grandparent, in the second degree; and vice versa as to the parent and grandparent with regard to their respective children and grandchildren.

72-11-104. Computation of degrees in collateral kinship. The degree of collateral kinship of two persons is computed by commencing with one of the persons, ascending from that person to a common ancestor, descending from that ancestor to the other person, and counting one degree for each person in the line of ascent and in the line of descent, exclusive of the person from whom the computation begins. Siblings are related to each other in the second degree, uncle and niece are related to each other in the third degree, and first cousins are related to each other in the fourth degree.

(1) "Estate" means the gross estate of a decedent as determined for the purpose of federal estate tax and the estate tax payable to this state.

(2) "Fiduciary" means personal representative or trustee.

(3) "Person" means any individual, partnership, association, joint-stock company, corporation, government, political subdivision, governmental agency, or local governmental agency.

(4) "Person interested in the estate" means any person entitled to receive or who has received from a decedent or by reason of the death of a decedent any property or interest therein included in the decedent's estate. It includes a personal representative, conservator, and trustee.

(5) "State" means any state, territory, or possession of the United States, the District of Columbia, and the Commonwealth of Puerto Rico.

(6) "Tax" means the federal estate tax and any additional inheritance, estate, or death taxes imposed by the laws of any state and interest and penalties imposed in addition to the tax.

History: En. 91A-3-916 by Sec. 1, Ch. 365, L. 1974; R.C.M. 1947, 91A-3-916(1).

72-16-602. Authority of court of administration to determine apportionment. The court in which venue lies for the administration of the estate of a decedent, on petition for the purpose, may determine the apportionment of the tax.

72-16-603. Tax — how apportioned. (1) Except as provided in subsection (3) and unless the will or governing instrument otherwise provides, the tax must be apportioned among all persons interested in the estate. The apportionment is to be made in the proportion that the value of the interest of each person interested in the estate bears to the total value of the interests of all persons interested in the estate. The values used in determining the tax are to be used for that purpose.

(2) If the decedent's will or governing instrument directs a method of apportionment of tax different from the method described in this part, the method described in the will or governing instrument controls.

(3) If the liabilities of persons interested in the estate as described in this part differ from those that result under the federal estate tax law, the liabilities imposed by the federal law control and the balance of this part applies as if the resulting liabilities had been prescribed in this part.

History: En. 91A-3-916 by Sec. 1, Ch. 365, L. 1974; R.C.M. 1947, 91A-3-916(2); amd. Sec. 16, Ch. 511, L. 1983; amd. Sec. 6, Ch. 279, L. 1997.

History: En. 91A-3-916 by Sec. 1, Ch. 365, L. 1974; R.C.M. 1947, 91A-3-916(3)(b).

72-16-605. Distribution prior to apportionment — bond required. If property held by the personal representative is distributed prior to final apportionment of the tax, the distributee shall provide a bond or other security for the apportionment liability in the form and amount prescribed by the personal representative.

History: En. 91A-3-916 by Sec. 1, Ch. 365, L. 1974; R.C.M. 1947, 91A-3-916(4)(b).

72-16-606. No apportionment as between temporary interest and remainder. No interest in income and no estate for years or for life or other temporary interest in any property or fund is subject to apportionment as between the temporary interest and the remainder. The tax on the temporary interest and the tax, if any, on the remainder is chargeable against the corpus of the property or funds subject to the temporary interest and remainder.

History: En. 91A-3-916 by Sec. 1, Ch. 365, L. 1974; R.C.M. 1947, 91A-3-916(6).

72-16-607. Allowance for exemptions, deductions, and credits. (1) In making an apportionment, allowances shall be made for any exemptions granted, any classification made of persons interested in the estate, and for any deductions and credits allowed by the law imposing the tax.

(2) Any exemption or deduction allowed by reason of the relationship of any person to the decedent or by reason of the purposes of the gift inures to the benefit of the person bearing such relationship or receiving the gift, but if an interest is subject to a prior present interest which is not allowable as a deduction, the tax apportionable against the present interest shall be paid from principal.

(3) Any deduction for property previously taxed and any credit for gift taxes or death taxes of a foreign country paid by the decedent or his estate inures to the proportionate benefit of all persons liable to apportionment.

(4) Any credit for inheritance, succession, or estate taxes or taxes in the nature thereof applicable to property or interests includable in the estate inures to the benefit of the persons or interests chargeable with the payment thereof to the extent proportionately that the credit reduces the tax.

(5) To the extent that property passing to or in trust for a surviving spouse or any charitable, public, or similar gift or devise is not an allowable deduction for purposes of the tax solely by reason of an inheritance tax or other death tax imposed upon and deductible from the property, the property is not included in the computation provided for in 72-16-603 and to that extent no apportionment is made against the property. The sentence immediately preceding does not apply to any case if the result would be to deprive the estate of a deduction otherwise allowable under section 2053(d) of the Internal Revenue Code of 1954, as amended, of the United States, relating to deduction for state death taxes on transfers for public, charitable, or religious uses.

72-16-608. Powers of personal representative in relation to satisfaction of tax liability. (1) The personal representative or other person in possession of the property of the decedent required to pay the tax may withhold from any property distributable to any person interested in the estate, upon its distribution to him, the amount of tax attributable to his interest.

(2) If the property in possession of the personal representative or other person required to pay the tax and distributable to any person interested in the estate is insufficient to satisfy the proportionate amount of the tax determined to be due from the person, the personal representative or other person required to pay the tax may recover the deficiency from the person interested in the estate.

(3) If the property is not in the possession of the personal representative or the other person required to pay the tax, the personal representative or the other person required to pay the tax may recover from any person interested in the estate the amount of the tax apportioned to the person in accordance with this part.

History: En. 91A-3-916 by Sec. 1, Ch. 365, L. 1974; R.C.M. 1947, 91A-3-916(4)(a).

72-16-609. Penalties and interest charged to fiduciary when caused by his negligence. If the court finds that the assessment of penalties and interest assessed in relation to the tax is due to delay caused by the negligence of the fiduciary, the court may charge him with the amount of the assessed penalties and interest.

History: En. 91A-3-916 by Sec. 1, Ch. 365, L. 1974; R.C.M. 1947, 91A-3-916(3)(c).

72-16-610. Action to recover apportioned tax — limitations on duty to initiate — uncollectibility. Neither the personal representative nor other person required to pay the tax is under any duty to institute any action to recover from any person interested in the estate the amount of the tax apportioned to the person until the expiration of the 3 months next following final determination of the tax. A personal representative or other person required to pay the tax who institutes the action within a reasonable time after the 3-month period is not subject to any liability or surcharge because any portion of the tax apportioned to any person interested in the estate was collectible at a time following the death of the decedent but thereafter became uncollectible. If the personal representative or other person required to pay the tax cannot collect from any person interested in the estate the amount of the tax apportioned to the person, the amount not recoverable shall be equitably apportioned among the other persons interested in the estate who are subject to apportionment.

In any action to recover from any person interested in the estate the amount of the tax apportioned to the person in accordance with this part, the determination of the court in respect thereto made pursuant to 72-16-602 shall be prima facie correct.

History: En. 91A-3-916 by Sec. 1, Ch. 365, L. 1974; R.C.M. 1947, 91A-3-916(3)(d).

72-16-612. Action by foreign representative to recover apportioned tax. A personal representative acting in another state or a person required to pay the tax domiciled in another state may institute an action in the courts of this state and may recover a proportionate amount of the federal estate tax, of an estate tax payable to another state, or of a death duty due by a decedent's estate to another state from a person interested in the estate who is either domiciled in this state or who owns property in this state subject to attachment or execution. For the purposes of the action, the determination of apportionment by the court having jurisdiction of the administration of the decedent's estate in the other state is prima facie correct.

2000 Amendment by Referendum: Chapter 9 substituted current text concerning taxable situs for estate tax for former text that read: "For the purpose of this tax, the taxable situs of property shall be the same as the taxable situs for inheritance tax purposes." Amendment effective November 7, 2000.

Applicability: Section 38, Ch. 9, Sp. L. May 2000, provided: "This act applies to deaths occurring after December 31, 2000."

72-16-904. Estate tax imposed. An estate tax is imposed upon the transfer of the estate of every decedent leaving an estate that is subject to the federal estate tax imposed by the

United States of America under the applicable provisions of the Internal Revenue Code and that has, in whole or in part, a taxable situs in this state.

Applicability: Section 38, Ch. 9, Sp. L. May 2000, provided: "This act applies to deaths occurring after December 31, 2000."

72-16-905. Estate tax — how computed. The tax imposed upon the transfer of each estate is equal to the maximum tax credit allowable for state death taxes against the federal estate tax imposed with respect to the portion of the decedent's estate having a taxable situs in this state. It is the purpose and intent of this part to impose only those additional taxes that may be necessary to give this state the full benefit of the maximum tax credit allowable against the federal estate tax imposed with respect to a decedent's estate that has a taxable situs in this state. If only a portion of a decedent's estate has a taxable situs in this state, the maximum tax credit must be determined by multiplying the entire amount of the credit allowable against the federal estate tax for state death taxes by the percentage that the value of the portion of the decedent's estate that has a taxable situs in this state bears to the value of the entire estate.

Interest at the rate of 6% must be charged upon the amount of tax due from the time of accrual until the cause of the delay is removed, and after that time, interest at the rate of 10% must be charged.

(3) Litigation to defeat the payment of the tax is not necessary litigation.

Part 10
Generation-Skipping Transfer Tax

72-16-1001. Definitions. As used in this part, unless the context requires otherwise, the following definitions apply:

(1) "Department" means the department of revenue provided for in 2-15-1301.

(2) "Direct skip" has the meaning given in section 2612(c), Internal Revenue Code.

(3) "Federal generation-skipping transfer tax" means the tax imposed by section 2601, Internal Revenue Code.

(4) "Generation-skipping transfer" means the generation-skipping transfer defined in section 2611, Internal Revenue Code, when the original transferor is a resident of Montana on the date of the original transfer or when the property is real or personal property located in Montana.

(5) "Internal Revenue Code" means the Internal Revenue Code of 1986, as amended.

(6) "Original transferor" means any grantor, donor, trustor, or testator who by grant, gift, trust, or will makes a transfer of real or personal property that results in a federal generation-skipping transfer tax.

History: En. Sec. 1, Ch. 273, L. 1991.

72-16-1002. Imposition of tax. (1) A tax is imposed on each generation-skipping transfer, other than a direct skip, occurring at the same time and as a result of the death of an individual, in an amount equal to the maximum federal credit allowable under section 2604, Internal Revenue Code.

(2) If any of the property transferred is real property in another state or personal property located in another state that requires the payment of a tax for which credit is received against the federal generation-skipping transfer tax, the tax due under subsection (1) must be reduced by an amount that bears the same ratio to the total state tax credit allowable for federal generation-skipping transfer tax purposes as the value of the property taxable in the other state bears to the value of the gross generation-skipping transfer for federal generation-skipping transfer tax purposes.

History: En. Sec. 2, Ch. 273, L. 1991.

72-16-1003. Returns — payment. (1) A person required to file a return reporting a generation-skipping transfer under federal law shall file a duplicate of the federal return with the department and shall file any other information as the department may require. The return must be filed on or before the last day allowed for filing the federal return. A copy of amended or supplemental federal returns must be submitted to the department at the time it is filed with the internal revenue service.

(2) The tax imposed by 72-16-1002 must be paid on or before the deadline for filing the return. The tax must be paid to the department and deposited in the general fund.

History: En. Sec. 3, Ch. 273, L. 1991.

72-16-1004. Liability for tax — interest on delinquent tax. The person liable for payment of the federal generation-skipping transfer tax is liable for the tax imposed under 72-16-1002. If the tax imposed by 72-16-1002 is not paid within the time established in 72-16-1003, the tax is delinquent and draws interest at the rate of 10% a year.

History: En. Sec. 4, Ch. 273, L. 1991.

72-16-1005. Tax lien. The tax imposed by 72-16-1002 is a lien on the property subject to the tax for a period of 10 years from the time of the generation-skipping transfer. The payment of the tax and any interest due releases the lien and discharges the liability for payment of the tax. If the lien is not perfected by recording, a transfer for value to a bona fide purchaser divests the property of the lien. If the lien is perfected by recording, the rights of the state under the lien have priority over all subsequent mortgages, purchasers, or judgment creditors. The department may release the lien prior to the payment of the tax if adequate security for payment of the tax is given to the department.

History: En. Sec. 5, Ch. 273, L. 1991.

A person claiming less than the maximum federal credit allowable is liable for the full amount of the tax imposed under 72-16-1002.

History: En. Sec. 6, Ch. 273, L. 1991.

72-16-1007. Rulemaking. The department shall adopt rules necessary for the administration and enforcement of this part.

Part 2
Execution and Operation of Anatomical Gift

72-17-201. Making, amending, revoking, and refusing to make anatomical gifts by an individual. (1) An individual who is at least 18 years of age may:

(a) make an anatomical gift for any of the purposes stated in 72-17-202;

(b) limit an anatomical gift to one or more of those purposes; or

(c) refuse to make an anatomical gift.

(2) An anatomical gift may be made only by a document of gift signed by the donor. If the donor cannot sign, the document of gift must be signed by another individual and by two witnesses, all of whom have signed at the direction and in the presence of the donor and of each other, and must state that it has been so signed.

(3) If a document of gift is attached to or imprinted on a donor's motor vehicle operator's license, the document of gift must comply with subsection (2). Revocation, suspension, expiration, or cancellation of the license does not invalidate the anatomical gift.

(4) A document of gift may designate a particular physician or surgeon to carry out the appropriate procedures. In the absence of a designation or if the designee is not available, the donee or other person authorized to accept the anatomical gift may employ or authorize any physician, surgeon, technician, or enucleator to carry out the appropriate procedures.

(5) An anatomical gift by will takes effect upon the death of the testator, whether or not the will is probated. If, after the testator's death, the will is declared invalid for testamentary purposes, the validity of the anatomical gift is unaffected.

(6) A donor may amend or revoke an anatomical gift not made by will only by:

(a) a signed statement;

(b) an oral statement made in the presence of two individuals;

(c) any form of communication during a terminal illness or injury addressed to a physician or surgeon; or

(d) the delivery of a signed statement to a specified donee to whom a document of gift had been delivered.

(7) The donor of an anatomical gift made by will may amend or revoke the gift in the manner provided for amendment or revocation of wills, or as provided in subsection (6).

(8) An anatomical gift that is not revoked by the donor before death is irrevocable and does not require the consent or concurrence of any person after the donor's death.

(9) (a) An individual may refuse to make an anatomical gift of the individual's body or part by:

(i) a writing signed in the same manner as a document of gift;

(ii) a statement attached to or imprinted on a donor's motor vehicle operator's license; or

(iii) any other writing used to identify the individual as refusing to make an anatomical gift.

(b) During a terminal illness or injury, the refusal may be an oral statement or other form of communication.

(10) In the absence of contrary indications by the donor, an anatomical gift of a part is neither a refusal to give other parts nor a limitation on an anatomical gift under 72-17-214 or on a removal or release of other parts under 72-17-215.

(11) In the absence of contrary indications by the donor, a revocation or amendment of an anatomical gift is not a refusal to make another anatomical gift. If the donor intends a revocation to be a refusal to make an anatomical gift, the donor shall make the refusal pursuant to subsection (9).

History: En. Sec. 2, Ch. 340, L. 1969; R.C.M. 1947, 69-2316(a) thru (c); amd. Sec. 4, Ch. 540, L. 1989.

(b) an accredited medical or dental school, college, or university for education, research, advancement of medical or dental science; or

(c) a designated individual for therapy or transplantation needed by that individual.

(2) An anatomical gift may be made to a designated donee or without designating a donee. If a donee is not designated or if the donee is not available or rejects the anatomical gift, the anatomical gift may be accepted by a hospital.

(3) If the donee knows of the decedent's refusal or contrary indications to make an anatomical gift or that an anatomical gift by a member of a class having priority to act is opposed by a member of the same class or a prior class under 72-17-214, the donee may not accept the anatomical gift.

(2) The provisions of this chapter are subject to the laws of this state governing autopsies.

(3) A hospital, physician, surgeon, coroner, enucleator, technician, nurse, or other person who acts in accordance with this chapter or with the applicable anatomical gift act of another state or attempts in good faith to do so is not liable for that act in a civil action or criminal proceeding.

(2) If an anatomical gift is made to a designated donee, the document of gift, or a copy, may be delivered to the donee to expedite the appropriate procedures after death. The document of gift, or a copy, may be deposited in any hospital, procurement organization, or registry office that accepts it for safekeeping or for facilitation of procedures after death. On request of an interested person, upon or after the donor's death, the person in possession shall allow the interested person to examine or copy the document of gift.

72-17-213. Routine inquiry and required request — search and notification. (1) If, at or near the time of death of a patient, there is no medical record that the patient has made or refused to make an anatomical gift, the hospital administrator or a representative designated by the administrator shall discuss the option to make or refuse to make an anatomical gift and request the making of an anatomical gift pursuant to 72-17-214(1). The request must be made with reasonable discretion and sensitivity to the circumstances of the family. A request is not required if the gift is not suitable, based upon accepted medical standards, for a purpose specified in 72-17-202 or if there are medical or emotional conditions under which the request would contribute to severe emotional distress. An entry must be made in the medical record of the patient, stating the name and affiliation of the individual making the request and the name, response, and relationship to the patient of the person to whom the request was made. The department shall adopt rules to implement this subsection.

(2) The following persons shall make a reasonable search for a document of gift or other information identifying the bearer as a donor or as an individual who has refused to make an anatomical gift:

(a) a law enforcement officer, fireman, paramedic, or other emergency rescuer finding an individual whom the searcher believes is dead or near death; and

(b) a hospital, upon the admission of an individual at or near the time of death, if there is not immediately available any other source of that information.

(3) If a document of gift or evidence of refusal to make an anatomical gift is located by the search required by subsection (2)(a) and the individual or body to whom it relates is taken to a hospital, the hospital must be notified of the contents and the document or other evidence must be sent to the hospital.

(4) If, at or near the time of death of a patient, a hospital knows that an anatomical gift has been made pursuant to 72-17-214(1) or a release and removal of a part has been permitted pursuant to 72-17-215 or that a patient or an individual identified as in transit to the hospital is a donor, the hospital shall notify the donee if one is named and known to the hospital; if not, it shall notify an appropriate procurement organization. The hospital shall cooperate in the implementation of the anatomical gift or release and removal of a part.

(5) A person who fails to discharge the duties imposed by this section is not subject to criminal or civil liability but is subject to appropriate administrative sanctions.

(a) the spouse of the decedent;

(b) an adult son or daughter of the decedent;

(c) either parent of the decedent;

(d) an adult brother or sister of the decedent;

(e) a grandparent of the decedent; and

(f) a guardian of the person of the decedent at the time of death.

(2) An anatomical gift may not be made by a person listed in subsection (1) if:

(a) a person in a prior class is available at the time of death to make an anatomical gift;

(b) the person proposing to make an anatomical gift knows of a refusal or contrary indications by the decedent; or

(c) the person proposing to make an anatomical gift knows of an objection to making an anatomical gift by a member of the person's class or a prior class.

(3) An anatomical gift by a person authorized under subsection (1) must be made by:

(a) a document of gift signed by the person; or

(b) the person's telegraphic, recorded telephonic, or other recorded message, or other form of communication from the person that is contemporaneously reduced to writing and signed by the recipient.

(4) An anatomical gift by a person authorized under subsection (1) may be revoked by any member of the same or a prior class if, before procedures have begun for the removal of a part from the body of the decedent, the physician, surgeon, technician, or enucleator removing the part knows of the revocation.

(5) A failure to make an anatomical gift under subsection (1) is not an objection to the making of an anatomical gift.

History: En. Sec. 11, Ch. 540, L. 1989.

72-17-215. Authorization by coroner or local public health official. (1) The coroner may release and permit the removal of a part from a body within that official's custody, for transplantation or therapy, if:

(a) the official has received a request for the part from a hospital, physician, surgeon, or procurement organization;

(b) the official has made a reasonable effort, taking into account the useful life of the part, to locate and examine the decedent's medical records and inform persons listed in 72-17-214(1) of their option to make, or object to making, an anatomical gift;

(c) the official does not know of a refusal or contrary indication by the decedent or objection by a person having priority to act as listed in 72-17-214(1);

(d) the removal will be by a physician, surgeon, or technician; but in the case of eyes, by one of them or by an enucleator;

(e) the removal will not interfere with any autopsy or investigation;

(f) the removal will be in accordance with accepted standards; and

(g) cosmetic restoration will be done, if appropriate.

(2) If the body is not within the custody of the coroner, the local public health officer may release and permit the removal of any part from a body in the local public health officer's custody for transplantation or therapy if the requirements of subsection (1) are met.

(3) An official releasing and permitting the removal of a part shall maintain a permanent record of the name of the decedent, the person making the request, the date and purpose of the request, the part requested, and the person to whom it was released.

Regulation — Qualifications

72-17-301. Rights and duties at death. (1) Rights of a donee created by an anatomical gift are superior to rights of others under 72-17-214(1), except with respect to autopsies. A donee may accept or reject an anatomical gift. If the donee accepts an anatomical gift of the entire body, the donee, subject to the terms of the gift, may allow embalming and the use of the body in funeral services. If the gift is of a part of the body, the donee, upon the death of the donor and before embalming, shall cause the part to be removed without unnecessary mutilation. After removal of the part, custody of the remainder of the body vests in the person under obligation to dispose of the body.

(2) The time of death must be determined by a physician or surgeon who attends the donor at death or, if none, the physician or surgeon who certifies the death. Neither the physician or surgeon who attends the donor at death nor the physician or surgeon who determines the time of death may participate in the procedures for removing or transplanting a part unless the document of gift designates a particular physician or surgeon pursuant to 72-17-201(4).

(3) If there has been an anatomical gift, a technician may remove any donated parts and an enucleator may remove any donated eyes or parts of eyes after determination of death by a physician or surgeon.

72-26-503. Scope and jurisdiction. (1) This chapter applies to a transfer that refers to this chapter in the designation under 72-26-603(1) by which the transfer is made if at the time of the transfer, the transferor, the minor, or the custodian is a resident of this state or the custodial property is located in this state. The custodianship so created remains subject to this chapter despite a subsequent change in residence of a transferor, the minor, or the custodian or the removal of custodial property from this state.

(2) A person designated as custodian under this chapter is subject to personal jurisdiction in this state with respect to any matter relating to the custodianship.

(3) A transfer that purports to be made and which is valid under the Uniform Transfers to Minors Act, the Uniform Gifts to Minors Act, or a substantially similar act of another state is governed by the law of the designated state and may be executed and is enforceable in this state if at the time of the transfer, the transferor, the minor, or the custodian is a resident of the designated state or the custodial property is located in the designated state.

History: En. Sec. 4, Ch. 102, L. 1985.

72-26-504. Applicability. This chapter applies to a transfer within the scope of 72-26-503 made after October 1, 1985, if:

(1) the transfer purports to have been made under the provisions of Title 72, chapter 26, parts 1 through 4 (repealed by section 25, Chapter 102, Laws of 1985);

(2) the instrument by which the transfer purports to have been made uses in substance the designation "as custodian under the Uniform Gifts to Minors Act" or "as custodian under the Uniform Transfers to Minors Act" of any other state, and the application of this chapter is necessary to validate the transfer.

History: En. Sec. 23, Ch. 102, L. 1985.

72-26-505. Effect on existing custodianships. (1) Any transfer of custodial property as now defined in this chapter made before October 1, 1985, is validated notwithstanding that there was no specific authority in Title 72, chapter 26, parts 1 through 4 (repealed by section 25, Chapter 102, Laws of 1985), for the coverage of custodial property of that kind or for a transfer from that source at the time the transfer was made.

(2) This chapter applies to all transfers made before October 1, 1985, in a manner and form prescribed in Title 72, chapter 26, parts 1 through 4 (repealed by section 25, Chapter 102, Laws of 1985), except insofar as the application impairs constitutionally vested rights or extends the duration of custodianships in existence on October 1, 1985.

(3) Sections 72-26-502 and 72-26-803, with respect to the age of a minor for whom custodial property is held under this chapter, do not apply to custodial property held in a custodianship that terminated because of the minor's attainment of the age of 18 before October 1, 1985.

History: En. Sec. 24, Ch. 102, L. 1985.

72-26-506. Uniformity of application and construction. This chapter must be applied and construed to effectuate its general purpose to make uniform the law with respect to the subject of this chapter among states enacting it.

History: En. Sec. 2, Ch. 102, L. 1985.

Part 6

Manner of Creating Custodial Property and Effecting Transfer

72-26-601. Nomination of custodian. (1) A person having the right to designate the recipient of property transferable upon the occurrence of a future event may revocably nominate a custodian to receive the property for a minor beneficiary upon the occurrence of the event by naming the custodian, followed in substance by the words: "as custodian for .... (name of minor) under the Montana Uniform Transfers to Minors Act". The nomination may name one or more persons as substitute custodians to whom the property must be transferred, in the order named, if the first nominated custodian dies before the transfer or is unable, declines, or is ineligible to serve. The nomination may be made in a will, a trust, a deed, an instrument exercising a power of appointment, or in a writing designating a beneficiary of contractual rights that is registered with or delivered to the payor, issuer, or other obligor of the contractual rights.

(2) A custodian nominated under this section must be a person to whom a transfer of property of that kind may be made under 72-26-603(1).

(3) The nomination of a custodian under this section does not create custodial property until the nominating instrument becomes irrevocable or a transfer to the nominated custodian is completed under 72-26-603. Unless the nomination of a custodian has been revoked, upon the occurrence of the future event the custodianship becomes effective and the custodian shall enforce a transfer of the custodial property pursuant to 72-26-603.

History: En. Sec. 5, Ch. 102, L. 1985.

72-26-602. Single custodianship. A transfer may be made only for one minor, and only one person may be the custodian. All custodial property held under this chapter by the same custodian for the benefit of the same minor constitutes a single custodianship.

History: En. Sec. 12, Ch. 102, L. 1985.

72-26-603. Manner of creating custodial property and effecting transfer — designation of initial custodian — control. (1) Custodial property is created and a transfer is made whenever:

(a) an uncertificated security or a certificated security in registered form is either:

(i) registered in the name of the transferor, an adult other than the transferor, or a trust company, followed in substance by the words: "as custodian for .... (name of minor) under the Montana Uniform Transfers to Minors Act"; or

(ii) delivered if in certificated form, or any document necessary for the transfer of an uncertificated security is delivered, together with any necessary endorsement to an adult other than the transferor or to a trust company as custodian, accompanied by an instrument in substantially the form set forth in subsection (2);

(b) money is paid or delivered or a security held in the name of a broker, financial institution, or its nominee is transferred to a broker or financial institution for credit to an account in the name of the transferor, an adult other than the transferor, or a trust company, followed in substance by the words: "as custodian for .... (name of minor) under the Montana Uniform Transfers to Minors Act";

(c) the ownership of a life or endowment insurance policy or annuity contract is either:

(i) registered with the issuer in the name of the transferor, an adult other than the transferor, or a trust company, followed in substance by the words: "as custodian for .... (name of minor) under the Montana Uniform Transfers to Minors Act"; or

(ii) assigned in a writing delivered to an adult other than the transferor or to a trust company whose name in the assignment is followed in substance by the words: "as custodian for .... (name of minor) under the Montana Uniform Transfers to Minors Act";

(d) an irrevocable exercise of a power of appointment or an irrevocable present right to future payment under a contract is the subject of a written notification delivered to the payor, issuer, or other obligor that the right is transferred to the transferor, an adult other than the transferor, or a trust company, whose name in the notification is followed in substance by the words: "as custodian for .... (name of minor) under the Montana Uniform Transfers to Minors Act";

(e) an interest in real property is recorded in the name of the transferor, an adult other than the transferor, or a trust company, followed in substance by the words: "as custodian for .... (name of minor) under the Montana Uniform Transfers to Minors Act";

(f) a certificate of title issued by a department or agency of a state or of the United States which evidences title to tangible personal property is either:

(i) issued in the name of the transferor, an adult other than the transferor, or a trust company, followed in substance by the words: "as custodian for .... (name of minor) under the Montana Uniform Transfers to Minors Act"; or

(ii) delivered to an adult other than the transferor or to a trust company, endorsed to that person, followed in substance by the words: "as custodian for .... (name of minor) under the Montana Uniform Transfers to Minors Act"; or

(g) an interest in any property not described in subsections (1)(a) through (1)(f) is transferred to an adult other than the transferor or to a trust company by a written instrument in substantially the form set forth in subsection (2).

(2) An instrument in the following form satisfies the requirements of subsections (1)(a)(ii) and (1)(g):

"TRANSFER UNDER THE MONTANA
UNIFORM TRANSFERS TO MINORS ACT

I, ... (name of transferor or name and representative capacity if a fiduciary), hereby transfer to .... (name of custodian), as custodian for .... (name of minor) under the Montana Uniform Transfers to Minors Act, the following: (insert a description of the custodial property sufficient to identify it).

Dated: ....

....
(Signature)

.... (name of custodian) acknowledges receipt of the property described above as custodian for the minor named above under the Montana Uniform Transfers to Minors Act.

Dated: ....

....
(Signature of Custodian)"

(3) A transferor shall place the custodian in control of the custodial property as soon as practicable.

History: En. Sec. 11, Ch. 102, L. 1985; amd. Sec. 1, Ch. 86, L. 1987.

72-26-604. Transfer by gift or exercise of power of appointment. A person may make a transfer by irrevocable gift to or the irrevocable exercise of a power of appointment in favor of a custodian for the benefit of a minor pursuant to 72-26-603.

History: En. Sec. 6, Ch. 102, L. 1985.

72-26-605. Transfer authorized by will or trust. (1) A personal representative or trustee may make an irrevocable transfer pursuant to 72-26-603 to a custodian for the benefit of a minor as authorized in the governing will or trust.

(2) If the testator or settlor has nominated a custodian under 72-26-601 to receive the custodial property, the transfer must be made to that person.

(3) If the testator or settlor has not nominated a custodian under 72-26-601 or all persons so nominated as custodian die before the transfer or are unable, decline, or are ineligible to serve, the personal representative or the trustee, as the case may be, shall designate the custodian from among those eligible to serve as custodian for property of that kind under 72-26-603(1).

History: En. Sec. 7, Ch. 102, L. 1985.

72-26-606. Other transfer by fiduciary. (1) Subject to subsection (3), a personal representative or trustee may make an irrevocable transfer to another adult or trust company as custodian for the benefit of a minor pursuant to 72-26-603, in the absence of a will or under a will or trust that does not contain an authorization to do so.

(2) Subject to subsection (3), a conservator may make an irrevocable transfer to another adult or trust company as custodian for the benefit of the minor pursuant to 72-26-603.

(3) A transfer under subsection (1) or (2) may be made only if:

(a) the personal representative, trustee, or conservator considers the transfer to be in the best interest of the minor;

(b) the transfer is not prohibited by or inconsistent with provisions of the applicable will, trust agreement, or other governing instrument; and

(c) the transfer is authorized by the court if it exceeds $10,000 in value.

History: En. Sec. 8, Ch. 102, L. 1985.

Cross-References

Subsidiary trust companies, Title 32, ch. 1, part 8.

72-26-607. Transfer by obligor. (1) Subject to subsections (2) and (3), a person not subject to 72-26-605 or 72-26-606 who holds property of or owes a liquidated debt to a minor not having a conservator may make an irrevocable transfer to a custodian for the benefit of the minor pursuant to 72-26-603.

(2) If a person having the right to do so under 72-26-601 has nominated a custodian under that section to receive the custodial property, the transfer must be made to that person.

(3) If no custodian has been nominated under 72-26-601 or all persons so nominated as custodian die before the transfer or are unable, decline, or are ineligible to serve, a transfer under this section may be made to an adult member of the minor's family or to a trust company unless the property exceeds $10,000 in value.

History: En. Sec. 9, Ch. 102, L. 1985.

72-26-608. Receipt for custodial property. A written acknowledgment of delivery by a custodian constitutes a sufficient receipt and discharge for custodial property transferred to the custodian pursuant to this chapter.

History: En. Sec. 10, Ch. 102, L. 1985.

72-26-609. Validity and effect of transfer. (1) The validity of a transfer made in a manner prescribed in this chapter is not affected by:

(a) failure of the transferor to comply with 72-26-603(3) concerning possession and control;

(b) designation of an ineligible custodian, except designation of the transferor in the case of property for which the transferor is ineligible to serve as custodian under 72-26-603(1); or

(c) death or incapacity of a person nominated under 72-26-601 or designated under 72-26-603 as custodian or the disclaimer of the office by that person.

(2) A transfer made pursuant to 72-26-603 is irrevocable, and the custodial property is indefeasibly vested in the minor, but the custodian has all the rights, powers, duties, and authority provided in this chapter, and neither the minor nor the minor's legal representative has any right, power, duty, or authority with respect to the custodial property except as provided in this chapter.

(3) By making a transfer, the transferor incorporates in the disposition all the provisions of this chapter and grants to the custodian, and to any third person dealing with a person designated as custodian, the respective powers, rights, and immunities provided in this chapter.

History: En. Sec. 13, Ch. 102, L. 1985.

Part 7
Administration by Custodian — Liability

72-26-701. Powers of custodian. (1) A custodian, acting in a custodial capacity, has all the rights, powers, and authority over custodial property that unmarried adult owners have over their own property, but a custodian may exercise those rights, powers, and authority in that capacity only.

(2) This section does not relieve a custodian from liability for breach of 72-26-702.

History: En. Sec. 15, Ch. 102, L. 1985.

72-26-702. Care of custodial property. (1) A custodian shall:

(a) take control of custodial property;

(b) register or record title to custodial property if appropriate; and

(c) collect, hold, manage, invest, and reinvest custodial property.

(2) In dealing with custodial property, a custodian shall observe the standard of care that would be observed by a prudent person dealing with property of another and is not limited by any other statute restricting investments by fiduciaries. If a custodian has a special skill or expertise or is named custodian on the basis of representations of a special skill or expertise, the custodian shall use that skill or expertise. However, a custodian, in the custodian's discretion and without liability to the minor or the minor's estate, may retain any custodial property received from a transferor.

(3) A custodian may invest in or pay premiums on life insurance or endowment policies on:

(a) the life of the minor only if the minor or the minor's estate is the sole beneficiary; or

(b) the life of another person in whom the minor has an insurable interest only to the extent that the minor, the minor's estate, or the custodian, in the capacity of custodian, is the irrevocable beneficiary.

(4) A custodian at all times shall keep custodial property separate and distinct from all other property in a manner sufficient to identify it clearly as custodial property of the minor. Custodial property consisting of an undivided interest is so identified if the minor's interest is held as a tenant in common and is fixed. Custodial property subject to recordation is so identified if it is recorded, and custodial property subject to registration is so identified if it is either registered or held in an account designated in the name of the custodian, followed in substance by the words: "as a custodian for .... (name of minor) under the Montana Uniform Transfers to Minors Act".

(5) A custodian shall keep records of all transactions with respect to custodial property, including information necessary for the preparation of the minor's tax returns, and shall make them available for inspection at reasonable intervals by a parent or legal representative of the minor or by the minor if the minor has attained the age of 14 years.

History: En. Sec. 14, Ch. 102, L. 1985.

72-26-703. Use of custodial property. (1) A custodian may deliver or pay to the minor or expend for the minor's benefit so much of the custodial property as the custodian considers advisable for the use and benefit of the minor, without court order and without regard to:

(a) the duty or ability of the custodian personally or of any other person to support the minor; or

(b) any other income or property of the minor which may be applicable or available for that purpose.

(2) On petition of an interested person or the minor if the minor has attained the age of 14 years, the court may order the custodian to deliver or pay to the minor or expend for the minor's benefit so much of the custodial property as the court considers advisable for the use and benefit of the minor.

(3) A delivery, payment, or expenditure under this section is in addition to, not in substitution for, and does not affect any obligation of a person to support the minor.

History: En. Sec. 16, Ch. 102, L. 1985.

72-26-704. Custodian's expenses, compensation, and bond. (1) A custodian is entitled to reimbursement from custodial property for reasonable expenses incurred in the performance of the custodian's duties.

(2) Except for one who is a transferor under 72-26-604, a custodian has a noncumulative election during each calendar year to charge reasonable compensation for services performed during that year.

(3) Except as provided in 72-26-801(6), a custodian need not give a bond.

History: En. Sec. 17, Ch. 102, L. 1985.

72-26-705. Exemption of third person from liability. A third person in good faith and without court order may act on the instructions of or otherwise deal with any person purporting to make a transfer or purporting to act in the capacity of a custodian and, in the absence of knowledge, is not responsible for determining:

(1) the validity of the purported custodian's designation;

(2) the propriety of or the authority under this chapter for any act of the purported custodian;

(3) the validity or propriety under this chapter of any instrument or instructions executed or given either by the person purporting to make a transfer or by the purported custodian; or

(4) the propriety of the application of any property of the minor delivered to the purported custodian.

History: En. Sec. 18, Ch. 102, L. 1985.

72-26-706. Liability to third persons. (1) A claim may be asserted against the custodial property by proceeding against the custodian in the custodial capacity, whether or not the custodian or the minor is personally liable therefor when it is based on:

(a) a contract entered into by a custodian acting in a custodial capacity;

(b) an obligation arising from the ownership or control of custodial property; or

(c) a tort committed during the custodianship.

(2) A custodian is not personally liable:

(a) on a contract properly entered into in the custodial capacity unless the custodian fails to reveal that capacity and to identify the custodianship in the contract; or

(b) for an obligation arising from control of custodial property or for a tort committed during the custodianship unless the custodian is personally at fault.

(3) A minor is not personally liable for an obligation arising from ownership of custodial property or for a tort committed during the custodianship unless the minor is personally at fault.

History: **En. Sec. 19, Ch. 102, L. 1985.**

Part 8

Renunciation, Resignation, Death, or Removal of Custodian — Accounting — Termination — Successor

72-26-801. Renunciation, resignation, death, or removal of custodian — designation of successor custodian. (1) A person nominated under 72-26-601 or designated under 72-26-603 as custodian may decline to serve by delivering a valid disclaimer to the person who made the nomination or to the transferor or the transferor's legal representative. If the event giving rise to a transfer has not occurred and no substitute custodian able, willing, and eligible to serve was nominated under 72-26-601, the person who made the nomination may nominate a substitute custodian under 72-26-601; otherwise the transferor or the transferor's legal representative shall designate a substitute custodian at the time of the transfer, in either case from among the persons eligible to serve as custodian for that kind of property under 72-26-603(1). The custodian so designated has the rights of a successor custodian.

(2) A custodian at any time may designate a trust company or an adult other than a transferor under 72-26-604 as successor custodian by executing and dating an instrument of designation before a subscribing witness other than the successor. If the instrument of designation does not contain or is not accompanied by the resignation of the custodian, the designation of the successor does not take effect until the custodian resigns, dies, becomes incapacitated, or is removed.

(3) A custodian may resign at any time by delivering written notice to the minor if the minor has attained the age of 14 years and to the successor custodian and by delivering the custodial property to the successor custodian.

(4) If a custodian is ineligible, dies, or becomes incapacitated without having effectively designated a successor and the minor has attained the age of 14 years, the minor may designate as successor custodian, in the manner prescribed in subsection (2), an adult member of the minor's family, a conservator of the minor, or a trust company. If the minor has not attained the age of 14 years or fails to act within 60 days after the ineligibility, death, or incapacity, the conservator of the minor becomes successor custodian. If the minor has no conservator or the conservator declines to act, the transferor, the legal representative of the transferor or of the custodian, an adult member of the minor's family, or any other interested person may petition the court to designate a successor custodian.

(5) A custodian who declines to serve under subsection (1) or resigns under subsection (3) or the legal representative of a deceased or incapacitated custodian, as soon as practicable, shall put the custodial property and records in the possession and control of the successor custodian. The successor custodian by action may enforce the obligation to deliver custodial property and records and becomes responsible for each item as received.

(6) A transferor, the legal representative of a transferor, an adult member of the minor's family, a guardian of the person of the minor, the conservator of the minor, or the minor if the minor has attained the age of 14 years may petition the court to remove the custodian for cause

and to designate a successor custodian other than a transferor under 72-26-604 or to require the custodian to give appropriate bond.

History: En. Sec. 20, Ch. 102, L. 1985.

72-26-802. Accounting by and determination of liability of custodian. (1) A minor who has attained the age of 14 years, the minor's guardian of the person or legal representative, an adult member of the minor's family, a transferor, or a transferor's legal representative may petition the court:

(a) for an accounting by the custodian or the custodian's legal representative; or

(b) for a determination of responsibility, as between the custodial property and the custodian personally, for claims against the custodial property unless the responsibility has been adjudicated in an action under 72-26-706 to which the minor or the minor's legal representative was a party.

(2) A successor custodian may petition the court for an accounting by the predecessor custodian.

(3) The court, in a proceeding under this chapter or in any other proceeding, may require or permit the custodian or the custodian's legal representative to account.

(4) If a custodian is removed under 72-26-801(6), the court shall require an accounting and order delivery of the custodial property and records to the successor custodian and the execution of all instruments required for transfer of the custodial property.

History: En. Sec. 21, Ch. 102, L. 1985.

72-26-803. Termination of custodianship. The custodian shall transfer in an appropriate manner the custodial property to the minor or to the minor's estate upon the earlier of:

(1) the minor's attainment of 21 years of age with respect to custodial property transferred under 72-26-604 or 72-26-605;

(2) the minor's attainment of 18 years of age with respect to custodial property transferred under 72-26-606 or 72-26-607; or

(3) the minor's death.

Part 1
General Provisions

72-30-101. Short title. This chapter may be cited as the "Uniform Management of Institutional Funds Act".

History: En. Sec. 10, Ch. 389, L. 1973; R.C.M. 1947, 86-809.

72-30-102. Definitions. In this chapter, the following definitions apply:

(1) "Endowment fund" means an institutional fund or any part thereof not wholly expendable by the institution on a current basis under the terms of the applicable gift instrument.

(2) "Gift instrument" means a will, deed, grant, conveyance, agreement, memorandum, writing, or other governing document (including the terms of any institutional solicitations from which an institutional fund resulted) under which property is transferred to or held by an institution as an institutional fund.

(3) "Governing board" means the body responsible for the management of an institution or of an institutional fund.

(4) "Historic dollar value" means the aggregate fair value in dollars of:

(a) an endowment fund at the time it became an endowment fund;

(b) each subsequent donation to the fund at the time it is made; and

(c) each accumulation made pursuant to a direction in the applicable gift instrument at the time the accumulation is added to the fund.

(5) "Institution" means an incorporated or unincorporated organization organized and operated exclusively for educational, religious, charitable, or other eleemosynary purposes or a governmental organization to the extent that it holds funds exclusively for any of these purposes.

(6) "Institutional fund" means a fund held by an institution for its exclusive use, benefit, or purposes but does not include:

(a) a fund held for an institution by a trustee that is not an institution; or

(b) a fund in which a beneficiary that is not an institution has an interest, other than possible rights that could arise upon violation or failure of the purposes of the fund.

History: En. Sec. 1, Ch. 389, L. 1973; R.C.M. 1947, 86-801(part).

72-30-103. Uniformity of construction. This chapter shall be so applied and construed as to effectuate its general purpose to make uniform the law with respect to the subject of this chapter among those states which enact it.

History: En. Sec. 9, Ch. 389, L. 1973; R.C.M. 1947, 86-808.

Part 2
Management of Funds

72-30-201. Endowment funds subject to appropriation and expenditure — net appreciation. (1) The governing board may appropriate for expenditure for the uses and purposes for which an endowment fund is established so much of the net appreciation, realized and unrealized, in the fair value of the assets of an endowment fund over the historic dollar value of the fund as is prudent under the standard established by 72-30-206.

(2) This section does not limit the authority of the governing board to expend funds as permitted under other law, the terms of the applicable gift instrument, or the charter of the institution.

History: En. Sec. 2, Ch. 389, L. 1973; R.C.M. 1947, 86-802.

72-30-202. Determination of historic dollar value by institution conclusive. The determination of historic dollar value made in good faith by the institution is conclusive.

History: En. Sec. 1, Ch. 389, L. 1973; R.C.M. 1947, 86-801(part).

72-30-203. Donor's intention restricting expenditure of net appreciation. (1) Section 72-30-201 does not apply if the applicable gift instrument indicates the donor's intention that net appreciation shall not be expended.

(2) A restriction upon the expenditure of net appreciation may not be implied from a designation of a gift as an endowment or from a direction or authorization in the applicable gift instrument to use only "income", "interest", "dividends", or "rents, issues, or profits" or "to preserve the principal intact" or a direction which contains other words of similar import. This rule of construction applies to gift instruments executed or in effect before or after July 1, 1973.

History: En. Sec. 3, Ch. 389, L. 1973; R.C.M. 1947, 86-803.

72-30-204. Allowable investments — retention of property. In addition to an investment otherwise authorized by law or by the applicable gift instrument and without restriction to investments a fiduciary may make, the governing board, subject to any specific limitations set forth in the applicable gift instrument or in the applicable law other than law relating to investment by a fiduciary, may:

(1) invest and reinvest an institutional fund in any real or personal property deemed advisable by the governing board, whether or not it produces a current return, including mortgages, stocks, bonds, debentures, and other securities of profit or nonprofit corporations; shares in or obligations of associations, partnerships, or individuals; and obligations of any government or subdivision or instrumentality thereof;

(2) retain property contributed by a donor to an institutional fund for as long as the governing board deems advisable;

(3) include all or part of any institutional fund in any pooled or common fund maintained by the institution; and

(4) invest all or any part of an institutional fund in any other pooled or common fund available for investment, including shares or interests in regulated investment companies, mutual funds, common trust funds, investment partnerships, real estate investment trusts, or similar organizations in which funds are commingled and investment determinations are made by persons other than the governing board.

History: En. Sec. 4, Ch. 389, L. 1973; R.C.M. 1947, 86-804; amd. Sec. 34, Ch. 6, L. 1979.

72-30-205. Delegation of investment authority — advisory service. Except as otherwise provided by the applicable gift instrument or by applicable law relating to governmental institutions or funds, the governing board may:

(1) delegate to its committees, officers, or employees of the institution or the fund or agents, including investment counsel, the authority to act in place of the board in investment and reinvestment of institutional funds;

(2) contract with independent investment advisors, investment counsel or managers, banks, or trust companies so to act; and

(3) authorize the payment of compensation for investment advisory or management services.

History: En. Sec. 5, Ch. 389, L. 1973; R.C.M. 1947, 86-805.

72-30-206. Standard of care in management. In the administration of the powers to appropriate appreciation, to make and retain investments, and to delegate investment management of institutional funds, members of a governing board shall exercise ordinary business care and prudence under the facts and circumstances prevailing at the time of the action or decision. In so doing they shall consider long- and short-term needs of the institution in carrying out its educational, religious, charitable, or other eleemosynary purposes, its present and anticipated financial requirements, expected total return on its investments, price level trends, and general economic conditions.

History: En. Sec. 6, Ch. 389, L. 1973; R.C.M. 1947, 86-806.

72-30-207. Release of restrictions in gift instrument. (1) With the written consent of the donor, the governing board may release, in whole or in part, a restriction imposed by the applicable gift instrument on the use or investment of an institutional fund.

(2) If written consent of the donor cannot be obtained by reason of his death, disability, unavailability, or impossibility of identification, the governing board may apply in the name of the institution to the appropriate court for release of a restriction imposed by the applicable gift instrument on the use or investment of an institutional fund. The attorney general shall be notified of the application and shall be given an opportunity to be heard. If the court finds that the restriction is obsolete, inappropriate, or impracticable, it may by order release the restriction in whole or in part. A release under this subsection may not change an endowment fund to a fund that is not an endowment fund.

(3) A release under this section may not allow a fund to be used for purposes other than the educational, religious, charitable, or other eleemosynary purposes of the institution affected.

(4) This section does not limit the application of the doctrine of cy-pres.

History: En. Sec. 7, Ch. 389, L. 1973; R.C.M. 1947, 86-807.

(1) where there is one trustor who is the sole trustee and the sole beneficiary during the trustor's lifetime; or

(2) where there are two or more trustors, one or more of whom are trustees, and the beneficial interest in the trust is in one or more of the trustors during the lifetime of the trustors.

(3) The writing may be:

(a) referred to as one to be in existence at the time of the trustor's death;

72-33-216. Resulting trust upon failure of trust. Where the owner of property gratuitously transfers it and manifests in the trust instrument an intention that the transferee should hold the property in trust but the trust fails, the transferee holds the trust estate as a resulting trust for the transferor or his estate, unless:

(1) the transferor manifested in the trust instrument an intention that no resulting trust should arise; or

(2) the intended trust fails for illegality and the policy against unjust enrichment of the transferee is outweighed by the policy against giving relief to a person who has entered into an illegal transaction.

72-33-217. Resulting trust upon full performance of trust. Where the owner of property gratuitously transfers it subject to a trust which is properly declared and which is fully performed without exhausting the trust estate, the trustee holds the surplus as a resulting trust for the transferor or his estate, unless the transferor manifested in the trust instrument an intention that no resulting trust of the surplus should arise.

(a) whenever the party paying the purchase price manifests an intention that no resulting trust should arise;

(b) whenever the transferee is a spouse, child, or other natural object of the bounty of the person who paid the purchase price; or

(c) whenever the transfer is made in order to accomplish an illegal purpose and the policy against unjust enrichment of the transferee is outweighed by the policy against giving relief to a person who has entered into an illegal transaction.

(3) Subsection (2)(b) does not apply if the party paying the purchase price manifested an intention that the transferee should not have the beneficial interest in the property.

History: En. Sec. 21, Ch. 685, L. 1989.

72-33-219. Constructive trust. A constructive trust arises when a person holding title to property is subject to an equitable duty to convey it to another on the ground that the person holding title would be unjustly enriched if he were permitted to retain it.

Part 3
Restrictions on Voluntary and Involuntary Transfers

72-33-301. Restraint on transfer of income. Except as provided in 72-33-305, if the trust instrument provides that a beneficiary's interest is not subject to voluntary or involuntary transfer, the beneficiary's interest in income under the trust may not be transferred and is not subject to enforcement of a money judgment until paid to the beneficiary.

History: En. Sec. 24, Ch. 685, L. 1989.

72-33-302. Restraint on transfer of principal. (1) Except as provided in 72-33-305 and subsection (2) of this section, if the trust instrument provides that a beneficiary's interest in principal is not subject to voluntary or involuntary transfer, the beneficiary's interest in principal may not be transferred and is not subject to enforcement of a money judgment until paid to the beneficiary.

(2) After an amount of principal has become due and payable to the beneficiary under the trust instrument, upon petition to the court by a judgment creditor, the court may make an order directing the trustee to satisfy the money judgment out of that principal amount. The court in its discretion may issue an order directing the trustee to satisfy all or part of the judgment out of that principal amount.

History: En. Sec. 25, Ch. 685, L. 1989.

72-33-303. Trust for support. Except as provided in 72-33-305, if the trust instrument provides that the trustee shall pay income or principal or both for the education or support of a beneficiary, the beneficiary's interest in income or principal or both under the trust may not be transferred and is not subject to the enforcement of a money judgment until paid to the beneficiary.

History: En. Sec. 26, Ch. 685, L. 1989.

72-33-304. Transferee or creditor cannot compel trustee to exercise discretion — liability of trustee for payment to or for beneficiary. (1) If the trust instrument provides that the trustee shall pay to or for the benefit of a beneficiary so much of the income or principal or both as the trustee in the trustee's discretion sees fit to pay, a transferee or creditor of the beneficiary may not compel the trustee to pay any amount that may be paid only in the exercise of the trustee's discretion.

(2) If the trustee has knowledge of the transfer of the beneficiary's interest or has been served with process by a judgment creditor seeking to reach the beneficiary's interest, and the trustee pays to or for the benefit of the beneficiary any part of the income or principal that may be paid only in the exercise of the trustee's discretion, the trustee is liable to the transferee or creditor to the extent that the payment to or for the benefit of the beneficiary impairs the right of the transferee or creditor. This subsection does not apply if the beneficiary's interest in the trust is subject to a restraint on transfer that is valid under 72-33-301 or 72-33-302.

(3) This section applies regardless of whether the trust instrument provides a standard for the exercise of the trustee's discretion.

(4) Nothing in this section limits any right the beneficiary may have to compel the trustee to pay to or for the benefit of the beneficiary all or part of the income or principal.

History: En. Sec. 27, Ch. 685, L. 1989.

72-33-305. Where trustor is beneficiary. (1) If the trustor is a beneficiary of a trust created by the trustor and the trustor's interest is subject to a provision restraining the voluntary or involuntary transfer of the trustor's interest, the restraint is invalid against transferees or creditors of the trustor. The invalidity of the restraint on transfer does not affect the validity of the trust.

(2) If the trustor is the beneficiary of a trust created by the trustor and the trust instrument provides that the trustee shall pay income or principal or both for the education or support of the beneficiary or gives the trustee the discretion to determine the amount of income or principal or both to be paid to or for the benefit of the trustor, a transferee or creditor of the trustor may reach the maximum amount that the trustee could pay to or for the benefit of the

trustor under the trust instrument, not exceeding the amount of the trustor's proportionate contribution to the trust.

History: En. Sec. 28, Ch. 685, L. 1989.

72-33-306. Disclaimer not a transfer. A disclaimer or renunciation by a beneficiary of all or part of his interest under a trust shall not be considered a transfer under 72-33-301 or 72-33-302.

History: En. Sec. 29, Ch. 685, L. 1989.

Part 4
Modification and Termination of Trusts

72-33-401. Presumption of revocability. Unless a trust is expressly made irrevocable by the trust instrument, the trust is revocable by the trustor. This section applies only where the trustor is domiciled in this state when the trust is created, where the trust instrument is executed in this state, or where the trust instrument provides that the law of this state governs the trust.

History: En. Sec. 30, Ch. 685, L. 1989.

72-33-402. Method of revocation by trustor. (1) A trust that is revocable by the trustor may be revoked in whole or in part by any of the following methods:

(a) by compliance with any method of revocation provided in the trust instrument; or

(b) by a writing (other than a will) signed by the trustor and delivered to the trustee during the lifetime of the trustor. If the trust instrument explicitly makes the method of revocation provided in the trust instrument the exclusive method of revocation, the trust may not be revoked pursuant to this subsection.

(2) A trust may not be revoked by an attorney-in-fact under a power of attorney unless it is expressly permitted by the trust instrument.

(3) Nothing in this section limits the authority to modify or terminate a trust pursuant to 72-33-406 or 72-33-407 in an appropriate case.

(4) The manner of revocation of a trust revocable by the trustor that was created by an instrument executed before October 1, 1989, is governed by prior law and not by this section.

History: En. Sec. 31, Ch. 685, L. 1989.

72-33-403. Power to revoke includes power to modify. Unless the trust instrument provides otherwise, if a trust is revocable by the trustor, the trustor may modify the trust by the procedure for revocation.

History: En. Sec. 32, Ch. 685, L. 1989.

72-33-404 and 72-33-405 reserved.

72-33-406. Modification or termination of irrevocable trust by all beneficiaries. (1) Except as provided in subsection (2), if all beneficiaries of an irrevocable trust consent, they may compel modification or termination of the trust upon petition to the court.

(2) If the continuance of the trust is necessary to carry out a material purpose of the trust, the trust cannot be modified or terminated unless the court, in its discretion, determines that the reason for doing so under the circumstances outweighs the interest in accomplishing a material purpose of the trust. Under this section the court does not have discretion to permit termination of a trust that is subject to a valid restraint on transfer of the beneficiary's interest as provided in part 3.

History: En. Sec. 33, Ch. 685, L. 1989.

72-33-407. Modification or termination by trustor and all beneficiaries. (1) If the trustor and all beneficiaries of a trust consent, they may compel the modification or termination of the trust.

(2) If any beneficiary does not consent to the modification or termination of the trust, upon petition to the court, the other beneficiaries, with the consent of the trustor, may compel a modification or a partial termination of the trust if the interests of the beneficiaries who do not consent are not substantially impaired.

(3) If the trust provides for the disposition of principal to a class of persons described only as "heirs" or "next of kin" of the trustor, or using other words that describe the class of all persons who would take under the rules of intestacy, the court may limit the class of beneficiaries whose consent is needed to compel the modification or termination of the trust to the beneficiaries who are reasonably likely to take under the circumstances.

History: **En. Sec. 34, Ch. 685, L. 1989.**

72-33-408. Guardian ad litem. For the purposes of 72-33-406 and 72-33-407, the consent of a beneficiary who is legally incapacitated, unascertained, or unborn may be given in proceedings before the court by a guardian ad litem, if it would be appropriate to do so. In this case the guardian ad litem may rely on general family benefit accruing to living members of the beneficiary's family as a basis for approving a modification or termination of the trust.

History: **En. Sec. 35, Ch. 685, L. 1989.**

72-33-409. No conclusive presumption of fertility. In determining the class of beneficiaries whose consent is necessary to modify or terminate a trust pursuant to 72-33-406 or 72-33-407, the presumption of fertility is rebuttable.

History: **En. Sec. 36, Ch. 685, L. 1989.**

72-33-410 reserved.

72-33-411. Termination of trusts — trustee's powers on termination. (1) A trust terminates when any of the following occurs:

(a) the term of the trust expires;
(b) the trust purpose is fulfilled;
(c) the trust purpose becomes unlawful;
(d) the trust purpose becomes impossible to fulfill; or
(e) the trust is revoked.

(2) On termination of the trust, the trustee continues to have the powers reasonably necessary under the circumstances to wind up the affairs of the trust.

History: **En. Sec. 37, Ch. 685, L. 1989.**

72-33-412. Trust with uneconomically low principal. (1) On petition by a trustee or beneficiary, if the court determines that the fair market value of the principal of a trust has become so low in relation to the cost of administration that continuation of the trust under its existing terms will defeat or substantially impair the accomplishment of its purposes, the court may, in its discretion and in a manner that conforms as nearly as possible to the intention of the trustor, order any of the following:

(a) termination of the trust;
(b) modification of the trust; or
(c) appointment of a new trustee.

(2) Notwithstanding subsection (1), if the trust principal does not exceed $20,000 in value, the trustee has the power to terminate the trust.

(3) The existence of a trust provision restraining transfer of the beneficiary's interest does not prevent application of this section.

History: **En. Sec. 38, Ch. 685, L. 1989.**

72-33-413. Modification or termination. (1) On petition by a trustee or beneficiary, the court may modify the administrative or dispositive provisions of the trust or terminate the trust if the continuation of the trust under its terms would defeat or substantially impair the accomplishment of the purposes of the trust, whether by the imposition of tax, the allocation of beneficial interest inconsistent with such purposes, or by other reason. In this case, if necessary to carry out the purposes of the trust, the court may order the trustee to do acts that are not authorized or are forbidden by the trust instrument.

(2) The court shall consider a trust provision restraining transfer of the beneficiary's interest as a factor in making its decision whether to modify or terminate the trust, but the

court is not precluded from exercising its discretion to modify or terminate the trust solely because of a restraint on transfer.

History: **En. Sec. 39, Ch. 685, L. 1989.**

72-33-414. Disposition of property upon termination. At the termination of a trust, the trust property shall be disposed of as follows:

(1) In the case of a trust that is revoked by the trustor, as directed by the trustor.

(2) In the case of a trust that is terminated by the consent of the trustor and all beneficiaries, as agreed by the trustor and all beneficiaries.

(3) In any other case, as provided in the trust instrument or in a manner directed by the court that conforms as nearly as possible to the intention of the trustor as expressed in the trust instrument. If a trust is terminated by the trustee pursuant to 72-33-412(2), the trust property shall be distributed as determined by the trustee pursuant to this subsection.

History: **En. Sec. 40, Ch. 685, L. 1989.**

72-33-415. Combination of similar trusts. If the terms of two or more trusts are substantially similar, on petition by a trustee or beneficiary, the court, for good cause shown, may combine the trusts if the court determines that administration as a single trust will not defeat or substantially impair the accomplishment of the trust purposes or the interests of the beneficiaries.

History: **En. Sec. 41, Ch. 685, L. 1989.**

72-33-416. Division of trusts. On petition by a trustee or beneficiary, the court, for good cause shown, may divide a trust into two or more separate trusts, if the court determines that dividing the trust will not defeat or substantially impair the accomplishment of the trust purposes or the interests of the beneficiaries.

History: **En. Sec. 42, Ch. 685, L. 1989.**

Part 5
Charitable Trusts

72-33-501. Charitable trust. A charitable trust, or the charitable portion of a trust, subjects the trustee to equitable duties to deal with the trust property for a charitable purpose.

(6) other purposes the accomplishment of which are beneficial to the community.

History: **En. Sec. 44, Ch. 685, L. 1989.**

72-33-503. Enforcement of a charitable trust. The attorney general, a cotrustee, or a person who has a special interest in the enforcement of the charitable trust can maintain a suit for the enforcement of a charitable trust, but not persons who have no special interest or the trustor or his heirs or personal representative.

History: **En. Sec. 45, Ch. 685, L. 1989.**

72-33-504. Cy pres doctrine. If property is given in trust to be applied to a particular charitable purpose, and it is or becomes impossible, impracticable, or illegal to carry out the particular purpose, and if the trustor manifested a general intention to devote the property to charitable purposes, the trust need not fail. The court may direct the application of the property to some charitable purpose which falls within the general charitable intention of the trustor.

History: **En. Sec. 46, Ch. 685, L. 1989.**

Part 6

(a) A bond is required by the trust instrument.

(b) Notwithstanding a waiver of bond in the trust instrument, a bond is found by the court to be necessary to protect the interests of beneficiaries.

(2) Notwithstanding subsection (1)(a), the court may excuse a requirement of a bond, reduce or increase the amount of a bond, release a surety, permit the substitution of another bond with the same or different sureties, or accept another form of security.

72-34-405. When right to income arises — apportionment of income. (1) An income beneficiary is entitled to income from the date specified in the trust instrument or, if none is specified, from the date an item of property becomes subject to the trust. In the case of an item of property becoming subject to a trust by reason of a person's death, it becomes subject to the trust as of the date of the death of the person even though there is an intervening period of administration of the person's estate.

(2) Upon property becoming subject to a trust by reason of a person's death:

(a) Receipts due but not paid at the date of death of the person are principal.

(b) Receipts in the form of periodic payments (other than corporate distributions to stockholders), including rent, interest, or annuities, not due at the date of the death of the person shall be treated as accruing from day to day. That portion of the receipt accruing before the date of death is principal and the balance is income.

(3) In all other cases, any receipt from income-producing property is income even though the receipt was earned or accrued in whole or in part before the date when the property became subject to the trust.

(4) On termination of an income interest, the income beneficiary whose interest is terminated, or his or her estate, is entitled to income:

(a) undistributed on the date of termination;

(b) due but not paid to the trustee on the date of termination; and

(c) in the form of periodic payments (other than corporate distributions to stockholders), including rent, interest, or annuities, not due on the date of termination, accrued from day to day.

(5) Corporate distributions to stockholders shall be treated as due on the day fixed by the corporation for determination of stockholders of record entitled to distribution or, if no date is fixed, on the date of declaration of the distribution by the corporation.

History: En. Sec. 142, Ch. 685, L. 1989.

72-34-406. Income earned during administration of decedent's estate. (1) Unless the will otherwise provides and subject to subsection (2), all expenses incurred in connection with the settlement of a decedent's estate, including debts, funeral expenses, estate taxes, interest and penalties concerning taxes, family allowances, fees of attorneys and personal representatives, and court costs, shall be charged against the principal of the estate.

(2) Unless the will otherwise provides, income from the property of a decedent's estate after the death of the testator and before distribution, including income from property used to discharge liabilities, shall be determined in accordance with the rules applicable to a trustee under chapters 33 and 34 and distributed as follows:

(a) to specific legatees and devisees, the income from the property bequeathed or devised to them respectively, less taxes, ordinary repairs, and other expenses of management and operation of the property, and an appropriate portion of interest accrued since the death of the testator and of taxes imposed on income (excluding taxes on capital gains) that accrue during the period of administration;

(b) to all other legatees and devisees, except legatees of pecuniary bequests not in trust, the balance of the income, less the balance of taxes, ordinary repairs, and other expenses of management and operation of all property from which the estate is entitled to income, interest accrued since the death of the testator, and taxes imposed on income (excluding taxes on capital gains) that accrue during the period of administration, in proportion to their respective interests in the undistributed property of the estate computed at times of distribution on the basis of inventory value.

(3) Income received by a trustee under subsection (2) shall be treated as income of the trust.

A right to subscribe to shares or other securities issued by the distributing corporation accruing to stockholders on account of their stock ownership and the proceeds of any sale of the right, are principal.

(2) Except to the extent that the corporation indicates that some part of a corporate distribution is a settlement of preferred or guaranteed dividends accrued since the trustee

became a stockholder or is in lieu of an ordinary cash dividend, a corporate distribution is principal if the distribution is pursuant to any of the following:

(a) a call of shares;

(b) a merger, consolidation, reorganization, or other plan by which assets of the corporation are acquired by another corporation; or

(c) a total or partial liquidation of the corporation, including any distribution which the corporation indicates is a distribution in total or partial liquidation or any distribution of assets, other than cash, pursuant to a court decree or final administrative order by a government agency ordering distribution of the particular assets.

(3) Distributions made from ordinary income by a regulated investment company or by a trust qualifying and electing to be taxed under federal law as a real estate investment trust are income. All other distributions made by the company or trust, including distributions from capital gains, depreciation, or depletion, whether in the form of cash or an option to take new stock or cash or an option to purchase additional shares, are principal.

(4) Except as provided in subsections (1) through (3), all corporate distributions are income, including cash dividends, distributions of or rights to subscribe to shares or securities or obligations of corporations other than the distributing corporation, and the proceeds of the rights or property distributions. Except as provided in subsections (2) and (3), if the distributing corporation gives a stockholder an option to receive a distribution either in cash or in its own shares, the distribution chosen is income.

(5) The trustee may rely upon any statement of the distributing corporation as to any fact relevant under any provision of this part concerning the source or character of dividends or distributions of corporate assets.

No provision shall be made for amortization of bond premiums or for accumulation for discount. The proceeds of sale, redemption, or other disposition of the bonds or obligations are principal.

(2) The increment in value of a bond or other obligation for the payment of money payable at a future time in accordance with a fixed schedule of appreciation in excess of the price at which it was issued is distributable as income. The increment in value is distributable to the beneficiary who was the income beneficiary at the time of increment from the first principal cash available or, if none is available, when realized by sale, redemption, or other disposition. Whenever unrealized increment is distributed as income but out of principal, the principal shall be reimbursed for the increment when realized.

History: En. Sec. 145, Ch. 685, L. 1989.

72-34-409. Business and farming operations. (1) If a trustee uses any part of the principal in the continuance of a business of which the trustor was a sole proprietor or a partner, the net profits of the business, computed in accordance with recognized methods of accounting for a comparable business, are income. If a loss results in any fiscal or calendar year, the loss falls on principal and may not be carried into any other fiscal or calendar year for purposes of calculating net income.

(2) Recognized methods of accounting for a comparable business shall be used to determine income from an agricultural or farming operation, including the raising of animals or the operation of a nursery.

History: En. Sec. 146, Ch. 685, L. 1989.

72-34-410. Disposition of natural resources. (1) If any part of the principal consists of a right to receive royalties, overriding or limited royalties, working interests, production payments, net profit interests, or other interests in minerals or other natural resources in, on, or under land, the receipts from taking the natural resources from the land shall be allocated as follows:

(a) If received as rent on a lease or extension payments on a lease, the receipts are income.

(b) If received from a production payment, the receipts are income to the extent of any factor for interest or its equivalent provided in the governing instrument. There shall be allocated to principal the fraction of the balance of the receipts which the unrecovered cost of the production payment bears to the balance owed on the production payment, exclusive of any factor for interest or its equivalent. The receipts not allocated to principal are income.

(c) If received as a royalty, overriding or limited royalty or bonus, or from a working, net profit, or any other interest in minerals or other natural resources, receipts not provided for in subsections (1)(a) and (1)(b) shall be apportioned on a yearly basis in accordance with this paragraph whether or not any natural resource was being taken from the land at the time the trust was established. The receipts shall be allocated entirely to income or apportioned between income and principal as the trustee in its discretion may determine, but the amount added to principal as an allowance for depletion may not exceed the lesser of:

(i) the percentage of gross receipts allowed as a deduction for depletion in computing taxable income for federal income tax purposes; or

(ii) 50% of the net receipts remaining after payment of expenses, direct and indirect, computed without allowance for depletion.

72-34-412. Other property subject to depletion. Except as provided in 72-34-410 and 72-34-411, if the principal consists of property subject to depletion, including leaseholds, patents, copyrights, royalty rights, and rights to receive payments on a contract for deferred compensation, receipts from the property, not in excess of 5% per year of its inventory value, are income, and the balance is principal.

History: En. Sec. 149, Ch. 685, L. 1989.

72-34-413 through 72-34-415 reserved.

72-34-416. Charges against income and principal. (1) The following charges shall be made against income:

(c) not less than one-half of court costs, attorney fees, and other fees on periodic judicial accounting, unless the court directs otherwise;

(f) any tax levied upon receipts defined as income under part 4 or the trust instrument and payable by the trustee.

(2) If charges against income are of unusual amount, the trustee may, by means of reserves or other reasonable means, charge them over a reasonable period of time and withhold from distribution sufficient sums to regularize distributions.

(3) The following charges shall be made against principal:

(a) (i) trustee's compensation not chargeable to income under subsections (1)(d) and (1)(e);

(ii) special compensation of trustees;

(iii) expenses reasonably incurred in connection with principal, court costs, and attorney fees primarily concerning matters of principal; and

(iv) trustee's compensation computed on principal as an acceptance, distribution, or termination fee;

(b) charges not provided for in subsection (1), including:

(i) the costs of investing and reinvesting principal;

(ii) the payments on principal of an indebtedness, including a mortgage amortized by periodic payments of principal;

(iii) expenses for preparation of property for rental or sale; and

(iv) unless the court directs otherwise, expenses incurred in maintaining or defending any action to construe the trust or protect it or the property or assure the title of any trust property;

(c) extraordinary repairs or expenses incurred in making a capital improvement to principal, including special assessments, but a trustee may establish an allowance for depreciation out of income to the extent permitted by 72-34-409 and by subsection (1)(b) of this section;

(d) any tax levied upon profit, gain, or other receipts allocated to principal, notwithstanding denomination of the tax as an income tax by the taxing authority; and

(e) if an estate or inheritance tax is levied in respect to a trust in which both an income beneficiary and a remainder beneficiary have an interest, any amount apportioned to the trust, including interest and penalties, even though the income beneficiary also has rights in the principal.

(4) Regularly recurring charges payable from income shall be apportioned to the same extent and in the same manner that income is apportioned under 72-34-405.

(b) whenever the successor trustee neglects to take reasonable steps to compel the predecessor trustee to deliver the trust property to the successor trustee; or

(c) whenever the successor trustee neglects to take reasonable steps to redress a breach of trust committed by the predecessor trustee in a case where the successor trustee knows or has information from which the successor trustee should have known of the predecessor trustee's breach.

(i) subject to 72-36-201, to trace trust property that has been wrongfully disposed of and recover the property or its proceeds.

(2) The provision of remedies for breach of trust in subsection (1) does not prevent resort to any other appropriate remedy provided by statute or the common law.

History: En. Sec. 157, Ch. 685, L. 1989.

72-34-511. Limitations on proceedings against trustee. (1) Unless a claim is previously barred by adjudication, consent, limitation, or otherwise:

(a) If a beneficiary has received an interim or final account in writing, or other written report, that adequately discloses the existence of a claim against the trustee for breach of trust, the claim is barred as to that beneficiary unless a proceeding to assert the claim is commenced within 3 years after receipt of the account or report. An account or report adequately discloses existence of a claim if it provides sufficient information so that the beneficiary knows of the claim or reasonably should have inquired into the existence of the claim.

(b) If an interim or final account or other report does not adequately disclose the existence of a claim against the trustee for breach of trust, the claim is barred as to that beneficiary unless a proceeding to assert the claim is commenced within 3 years after the beneficiary discovered, or reasonably should have discovered, the existence of the claim.

(2) For the purpose of subsection (1), a beneficiary is considered to have received an account or report, as follows:

(a) in the case of an adult who is reasonably capable of understanding the account or report, if it is received by the adult personally;

(b) in the case of an adult who is not reasonably capable of understanding the account or report, if it is received by the person's legal representative, including a guardian ad litem or other person appointed for this purpose; or

(c) in the case of a minor, if it is received by the minor's guardian or, if the minor does not have a guardian, if it is received by the minor's parent so long as the parent does not have a conflict of interest.

(3) The limitations period applicable to actions by a beneficiary against a trustee on a claim that arose before October 1, 1989, is governed by this section, except that a claim arising before October 1, 1989, is not barred by this section until October 1, 1990.

History: En. Sec. 159, Ch. 685, L. 1989.

72-34-512. Exculpation of trustee. (1) Except as provided in subsection (2), the trustee can be relieved of liability for breach of trust by provisions in the trust instrument.

(2) A provision in the trust instrument is not effective to relieve the trustee of liability:

(a) for breach of trust committed intentionally, with gross negligence, or with reckless indifference to the interest of the beneficiary; or

(b) for any profit that the trustee derives from a breach of trust.

History: **En. Sec. 160, Ch. 685, L. 1989.**

72-34-513. Nonliability for following instructions under revocable trust. (1) Notwithstanding 72-34-512, a trustee of a revocable trust is not liable to a beneficiary for any act performed or omitted pursuant to written directions from the person holding the power to revoke made when the person is competent, including a person to whom the power to direct the trustee is delegated.

(2) Subsection (1) applies to a trust that is revocable in part with respect to the interest of the beneficiary in that part of the trust property.

(1) Except as provided in subsections (2) and (3), a beneficiary may not hold the trustee liable for an act or omission of the trustee as a breach of trust if the beneficiary consented to the act or omission before or at the time of the act or omission.

(2) The consent of the beneficiary does not preclude the beneficiary from holding the trustee liable for a breach of trust in any of the following circumstances:

(a) whenever the beneficiary was under an incapacity at the time of the consent or of the act or omission;

(b) whenever the beneficiary at the time consent was given did not know of his rights and of the material facts that the trustee knew or should have known and that the trustee did not reasonably believe that the beneficiary knew; or

(c) whenever the consent of the beneficiary was induced by improper conduct of the trustee.

(3) Whenever the trustee has an interest in the transaction adverse to the interest of the beneficiary, the consent of the beneficiary does not preclude the beneficiary from holding the trustee liable for a breach of trust under any of the circumstances described in subsection (2) or whenever the transaction to which the beneficiary consented was not fair and reasonable to the beneficiary.

History: **En. Sec. 162, Ch. 685, L. 1989.**

72-34-515. Discharge of trustee's liability by release or contract. (1) Except as provided in subsection (2), a beneficiary may be precluded from holding the trustee liable for a breach of trust by the beneficiary's release or contract effective to discharge the trustee's liability to the beneficiary for that breach.

(a) whenever the beneficiary was under an incapacity at the time of making the release or contract;

(b) whenever the beneficiary did not know of his rights and of the material facts:

(i) that the trustee knew or reasonably should have known; and

72-34-516. Discharge of trustee's liability by subsequent affirmance. (1) Except as provided in subsection (2), if the trustee, in breach of trust, enters into a transaction that the beneficiary may at his option reject or affirm, and the beneficiary affirms the transaction, the beneficiary may not thereafter reject it and hold the trustee liable for any loss occurring after the trustee entered into the transaction.

(2) The affirmance of a transaction by the beneficiary does not preclude the beneficiary from holding a trustee liable for a breach of trust if, at the time of the affirmance, any of the following circumstances existed:
(a) the beneficiary was under an incapacity;
(b) the beneficiary did not know of his rights and of the material facts:
(i) that the trustee knew or reasonably should have known; and
(ii) that the trustee did not reasonably believe that the beneficiary knew;
(c) the affirmance was induced by improper conduct of the trustee; or
(d) the transaction involved a bargain with the trustee that was not fair and reasonable.

History: En. Sec. 164, Ch. 685, L. 1989.

72-34-517. Nonliability for refusing to follow directions under revocable trust. A trustee of a revocable trust is not liable for refusing to follow directions from a person holding the power to revoke, including a person to whom the power to direct the trustee is delegated, if in accordance with the trust instrument, the person holding the power is determined to be incompetent, as that or any similar term or phrase is defined in the trust instrument, or, in the absence of a provision in the trust instrument, if the trustee reasonably believes that the person holding the power is incompetent.

Proof of service of the request on the trustee shall be filed with the court clerk when the request is filed.

(2) Except as provided in subsection (3), after serving and filing a request and proof of service pursuant to subsection (1), the beneficiary is entitled to notice pursuant to 72-35-306.

If a trustee or beneficiary has served and filed either a notice of appearance, in person or by counsel, directed to the petitioner or the petitioner's counsel in connection with a particular petition and proceeding or a written request for a copy of the petition, and has given an address to which notice or a copy of the petition may be mailed or delivered, the petitioner shall cause a copy of the petition to be mailed to that person within 5 days after service of the notice of appearance or receipt of the request.

(a) a minor;
(b) an incapacitated person;
(c) an unborn person;
(d) an unascertained person;
(e) a person whose identity or address is unknown; or
(f) a designated class of persons who are not ascertained or are not in being.

(3) The reasonable expenses of the guardian ad litem, including compensation and attorney's fees, shall be determined by the court and paid as the court orders, either out of trust property or by the petitioner.

Part 1

Liability of Trustee to Third Persons

72-36-101. Personal liability of trustee to third persons on contracts. (1) Unless otherwise provided in the contract or in chapter 35, a trustee is not personally liable on a contract properly entered into in the trustee's fiduciary capacity in the course of administration of the trust unless the trustee fails to reveal the trustee's representative capacity or identify the trust in the contract.

(2) The personal liability of a trustee on a contract entered into before October 1, 1989, is governed by prior law and not by this section.

A claim based on a contract entered into by a trustee in the trustee's representative capacity, on an obligation arising from ownership or control of trust property, or on a tort committed in the course of administration of the trust may be asserted against the trust by proceeding against the trustee in the trustee's representative capacity, whether or not the trustee is personally liable on the claim.

History: En. Sec. 208, Ch. 685, L. 1989.

Part 2
Protection of Third Persons

72-36-201. Protection of third person dealing with trustee. With respect to a third person dealing with a trustee or assisting a trustee in the conduct of a transaction, if the third person acts for a valuable consideration and without actual knowledge that the trustee is exceeding the trustee's powers or improperly exercising them:

(1) the third person is not bound to inquire whether the trustee has power to act or is properly exercising a power and may assume without inquiry the existence of a trust power and its proper exercise; and

(2) the third person is fully protected in dealing with or assisting the trustee just as if the trustee has and is properly exercising the power the trustee purports to exercise.

History: En. Sec. 210, Ch. 685, L. 1989.

72-36-202. Application of property delivered to trustee by third person. A third person is not bound to ensure the proper application of trust property paid or delivered to the trustee.

If a third person acting for a valuable consideration enters into a transaction with a former trustee without knowledge that the person is no longer a trustee, the third person is fully protected just as if the former trustee were still a trustee.

History: **En. Sec. 212, Ch. 685, L. 1989.**

72-36-204 and 72-36-205 reserved.

72-36-206. Effects on real property transactions. (1) This section relates only to conveyances of real property to or from a trust, and supplements, but does not modify other substantive provisions of chapters 33 through 36 relating to the creation or validity of trusts.

(2) Except as otherwise provided in chapters 33 through 36, a conveyance of real property to a trustee designated as such in the conveyance vests the whole estate conveyed in the trustee, subject only to the trustee's duties. The beneficiaries of the trust take no estate or interest in the real property, but may determine or enforce the terms of the trust as provided in chapters 33 through 36.

(3) An instrument creating or amending a trust need not be recorded, but may be if properly acknowledged.

(4) If there is no clear reference to or designation of a grantee as trustee in a conveyance (nor in a separately recorded instrument recorded in the same county as the conveyance and describing the same property as described in the conveyance), the conveyance must be considered to be absolute to the grantee, in favor of purchasers or encumbrancers from the grantee, who were without actual knowledge and who acted for a valuable consideration, despite any valid trust which may exist.

(5) Unless limitations upon a trustee's power or authority are set forth in the recorded conveyance of real property to the trustee or in a separate trust instrument (or portion thereof, or abstract thereof) recorded in the same county, there are no limitations upon the trustee's power or authority to convey or encumber the real property in favor of third persons who were without actual knowledge and who acted for a valuable consideration. A separate trust instrument incorporated by reference in a conveyance to a trustee cannot limit the trustee's power or authority to convey or encumber unless the limitations are set forth in the trust instrument (or portion thereof or abstract thereof) which is also recorded in the county where the real property is located. An amendment to a recorded trust instrument may not affect the power or authority of a trustee to convey or encumber unless it is also recorded in the same place.

(6) A subsequent conveyance from a person designated in the original conveyance as trustee (or from his successor trustee) conveys the whole estate vested in the trustee, except as limited by the terms of the conveyance. The identity of any successor trustee may be established by a recorded affidavit of the successor trustee specifying the successor trustee's name and address and the date and circumstances of succession, and confirming that the successor trustee is currently lawfully serving in that capacity.

(7) In an action or proceeding by a third person involving the real property granted to a trustee, the person designated as trustee in the original conveyance, or the successor trustee as established in subsection (6), or, if none, the person then actually serving as trustee, or, if none, any beneficiary designated by the court to represent the interests of the beneficiaries, shall be considered the only necessary representative of the trust and of all persons with an interest in the trust. A judgment is binding upon and conclusive against the trust and all persons interested in the trust as to all matters finally adjudicated in the judgment.

(8) The designation of the name of a trust in a recorded conveyance vests the estate in the trustee of the trust. A subsequent conveyance may be made by the trustee. The identity of a party serving as trustee may be established by a recorded affidavit of the party or by other recorded instrument, specifying the trustee's name and address and confirming that the party is currently serving as the trustee.

History: **En. Sec. 213, Ch. 685, L. 1989; amd. Sec. 2, Ch. 688, L. 1991; amd. Sec. 82, Ch. 494, L. 1993.**

Part 3
Rights of Creditors of Trustor

72-36-301. Creditor's rights against revocable trust during trustor's lifetime. If the trustor retains the power to revoke the trust in whole or in part, the trust property is subject to the claims of creditors of the trustor to the extent of the power of revocation during the lifetime of the trustor.

History: En. Sec. 214, Ch. 685, L. 1989.

72-36-302. Creditor's rights against revocable trust after trustor's death. Upon the death of a trustor who had retained the power to revoke the trust in whole or in part, the property that was subject to the power of revocation at the time of the trustor's death is subject to the claims of creditors of the decedent trustor's estate and to the expenses of administration of the estate to the extent that the decedent trustor's estate is inadequate to satisfy those claims and expenses.

75-1-103. Policy. (1) The legislature, recognizing the profound impact of human activity on the interrelations of all components of the natural environment, particularly the profound influences of population growth, high-density urbanization, industrial expansion, resource exploitation, and new and expanding technological advances, recognizing the critical importance of restoring and maintaining environmental quality to the overall welfare and human development, and further recognizing that governmental regulation may unnecessarily restrict the use and enjoyment of private property, declares that it is the continuing policy of the state of Montana, in cooperation with the federal government, local governments, and other concerned public and private organizations, to use all practicable means and measures, including financial and technical assistance, in a manner calculated to foster and promote the general welfare, to create and maintain conditions under which humans and nature can coexist in productive harmony, to recognize the right to use and enjoy private property free of undue government regulation, and to fulfill the social, economic, and other requirements of present and future generations of Montanans.

(2) In order to carry out the policy set forth in parts 1 through 3, it is the continuing responsibility of the state of Montana to use all practicable means consistent with other essential considerations of state policy to improve and coordinate state plans, functions, programs, and resources so that the state may:

(a) fulfill the responsibilities of each generation as trustee of the environment for succeeding generations;

(b) ensure for all Montanans safe, healthful, productive, and aesthetically and culturally pleasing surroundings;

(c) attain the widest range of beneficial uses of the environment without degradation, risk to health or safety, or other undesirable and unintended consequences;

(d) protect the right to use and enjoy private property free of undue government regulation;

(e) preserve important historic, cultural, and natural aspects of our unique heritage and maintain, wherever possible, an environment that supports diversity and variety of individual choice;

(f) achieve a balance between population and resource use that will permit high standards of living and a wide sharing of life's amenities; and

(g) enhance the quality of renewable resources and approach the maximum attainable recycling of depletable resources.

(3) The legislature recognizes that each person is entitled to a healthful environment, that each person is entitled to use and enjoy that person's private property free of undue government regulation, and that each person has a responsibility to contribute to the preservation and enhancement of the environment.

Part 2

Environmental Impact Statements

75-1-201. General directions — environmental impact statements. (1) The legislature authorizes and directs that, to the fullest extent possible:

(a) the policies, regulations, and laws of the state must be interpreted and administered in accordance with the policies set forth in parts 1 through 3;

(b) under this part, all agencies of the state, except the legislature and except as provided in subsection (2), shall:

(i) use a systematic, interdisciplinary approach that will ensure:

(A) the integrated use of the natural and social sciences and the environmental design arts in planning and in decisionmaking that may have an impact on the human environment; and

(B) that in any environmental review that is not subject to subsection (1)(b)(iv), when an agency considers alternatives, the alternative analysis will be in compliance with the provisions of subsections (1)(b)(iv)(C)(I) through (1)(b)(iv)(C)(III) and, if requested by the project sponsor or if determined by the agency to be necessary, subsection (1)(b)(iv)(C)(IV);

(ii) identify and develop methods and procedures that will ensure that presently unquantified environmental amenities and values may be given appropriate consideration in decisionmaking, along with economic and technical considerations;

(iii) identify and develop methods and procedures that will ensure that state government actions that may impact the human environment are evaluated for regulatory restrictions on private property, as provided in subsection (1)(b)(iv)(D);

(iv) include in each recommendation or report on proposals for projects, programs, and other major actions of state government significantly affecting the quality of the human environment a detailed statement on:

(A) the environmental impact of the proposed action;

(B) any adverse environmental effects that cannot be avoided if the proposal is implemented;

(C) alternatives to the proposed action. An analysis of any alternative included in the environmental review must comply with the following criteria:

(I) any alternative proposed must be reasonable, in that the alternative must be achievable under current technology and the alternative must be economically feasible as determined solely by the economic viability for similar projects having similar conditions and physical locations and determined without regard to the economic strength of the specific project sponsor;

(II) the agency proposing the alternative shall consult with the project sponsor regarding any proposed alternative, and the agency shall give due weight and consideration to the project sponsor's comments regarding the proposed alternative;

(III) if the project sponsor believes that an alternative is not reasonable as provided in subsection (1)(b)(iv)(C)(I), the project sponsor may request a review by the appropriate board, if any, of the agency's determination regarding the reasonableness of the alternative. The appropriate board may, at its discretion, submit an advisory recommendation to the agency regarding the issue. The agency may not charge the project sponsor for any of its activities associated with any review under this section. The period of time between the request for a review and completion of a review under this subsection may not be included for the purposes of determining compliance with the time limits established for environmental review in 75-1-208.

(IV) the agency shall complete a meaningful no-action alternative analysis. The no-action alternative analysis must include the projected beneficial and adverse environmental, social, and economic impact of the project's noncompletion.

(D) any regulatory impacts on private property rights, including whether alternatives that reduce, minimize, or eliminate the regulation of private property rights have been analyzed. The analysis in this subsection (1)(b)(iv)(D) need not be prepared if the proposed action does not involve the regulation of private property.

(E) the relationship between local short-term uses of the human environment and the maintenance and enhancement of long-term productivity;

(F) any irreversible and irretrievable commitments of resources that would be involved in the proposed action if it is implemented; and

(G) the details of the beneficial aspects of the proposed project, both short-term and long-term, and the economic advantages and disadvantages of the proposal;

(v) in accordance with the criteria set forth in subsection (1)(b)(iv)(C), study, develop, and describe appropriate alternatives to recommend courses of action in any proposal that involves unresolved conflicts concerning alternative uses of available resources;

(vi) recognize the national and long-range character of environmental problems and, when consistent with the policies of the state, lend appropriate support to initiatives, resolutions, and programs designed to maximize national cooperation in anticipating and preventing a decline in the quality of the world environment;

(vii) make available to counties, municipalities, institutions, and individuals advice and information useful in restoring, maintaining, and enhancing the quality of the environment;

(viii) initiate and use ecological information in the planning and development of resource-oriented projects; and

(ix) assist the environmental quality council established by 5-16-101;

(c) prior to making any detailed statement as provided in subsection (1)(b)(iv), the responsible state official shall consult with and obtain the comments of any state agency that has jurisdiction by law or special expertise with respect to any environmental impact involved. The responsible state official shall also consult with and obtain comments from any state agency with respect to any regulation of private property involved. Copies of the statement and the comments and views of the appropriate state, federal, and local agencies that are authorized to develop and enforce environmental standards must be made available to the governor, the environmental quality council, and the public and must accompany the proposal through the existing agency review processes.

(d) a transfer of an ownership interest in a lease, permit, license, certificate, or other entitlement for use or permission to act by an agency, either singly or in combination with other state agencies, does not trigger review under subsection (1)(b)(iv) if there is not a material change in terms or conditions of the entitlement or unless otherwise provided by law.

(2) The department of public service regulation, in the exercise of its regulatory authority over rates and charges of railroads, motor carriers, and public utilities, is exempt from the provisions of parts 1 through 3.

(3) (a) In any action challenging or seeking review of an agency's decision that a statement pursuant to subsection (1)(b)(iv) is not required or that the statement is inadequate, the burden of proof is on the person challenging the decision. Except as provided in subsection (3)(b), in a challenge to the adequacy of a statement, a court may not consider any issue relating to the adequacy or content of the agency's environmental review document or evidence that was not first presented to the agency for the agency's consideration prior to the agency's decision. A court may not set aside the agency's decision unless it finds that there is clear and convincing evidence that the decision was arbitrary or capricious or not in compliance with law.

(b) When new, material, and significant evidence or issues relating to the adequacy or content of the agency's environmental review document are presented to the district court that had not previously been presented to the agency for its consideration, the district court shall remand the new evidence or issue relating to the adequacy or content of the agency's environmental review document back to the agency for the agency's consideration and an opportunity to modify its findings of fact and administrative decision before the district court considers the evidence or issue relating to the adequacy or content of the agency's environmental review document within the administrative record under review. Immaterial or insignificant evidence or issues relating to the adequacy or content of the agency's environmental review document may not be remanded to the agency. The district court shall review the agency's findings and decision to determine whether they are supported by substantial, credible evidence within the administrative record under review.

(4) To the extent that the requirements of subsections (1)(b)(iv)(C)(I) and (1)(b)(iv)(C)(III) are inconsistent with federal requirements, the requirements of subsections (1)(b)(iv)(C)(I) and (1)(b)(iv)(C)(III) do not apply to an environmental review that is being prepared by a state agency pursuant to this part and a federal agency pursuant to the National Environmental Policy Act or to an environmental review that is being prepared by a state agency to comply with the requirements of the National Environmental Policy Act.

(5) (a) The agency may not withhold, deny, or impose conditions on any permit or other authority to act based on parts 1 through 3 of this chapter.

(b) Nothing in this subsection (5) prevents a project sponsor and an agency from mutually developing measures that may, at the request of a project sponsor, be incorporated into a permit or other authority to act.

(c) Parts 1 through 3 of this chapter do not confer authority to an agency that is a project sponsor to modify a proposed project or action.

(6) (a) A challenge to an agency action under this part may only be brought against a final agency action and may only be brought in district court or in federal court, whichever is appropriate. Any action or proceeding challenging a final agency action alleging failure to comply with or inadequate compliance with a requirement under this part must be brought within 60 days of the action that is the subject of the challenge.

(b) Any action or proceeding under subsection (6)(a) must take precedence over other cases or matters in the district court unless otherwise provided by law.

(7) The director of the agency responsible for the determination or recommendation shall endorse in writing any determination of significance made under subsection (1)(b)(iv) or any recommendation that a determination of significance be made.

(8) A project sponsor may request a review of the significance determination or recommendation made under subsection (7) by the appropriate board, if any. The appropriate board may, at its discretion, submit an advisory recommendation to the agency regarding the issue. The period of time between the request for a review and completion of a review under this subsection may not be included for the purposes of determining compliance with the time limits established for environmental review in 75-1-208.

2001 Amendments — Composite Section: Chapter 186 in (3)(a) in second sentence near middle after "may not consider any issue" inserted "relating to the adequacy or content of the agency's environment review document"; in (3)(b) in four places inserted references to issues relating to the adequacy or content of the agency's environmental review document; and made minor changes in style. Amendment effective October 1, 2001.

Chapter 267 inserted (1)(b)(i)(B) providing that all state agencies, with exceptions, must to the fullest extent possible use a systematic, interdisciplinary approach that ensures that an environmental review that is not subject to subsection (1)(b)(iv) for which an agency considers alternatives has an alternative analysis in compliance with subsections (1)(b)(iv)(C)(I) through (1)(b)(iv)(C)(III) and, if requested by the project sponsor or if determined by the agency to be necessary, subsection (1)(b)(iv)(C)(IV); in (1)(b)(iv)(C) inserted "An analysis of any alternative included in the environmental review must comply with the following criteria:

Amendment effective October 1, 2001.

Chapter 268 inserted (5) providing that the agency may not withhold, deny, or impose conditions on a permit or other authority to act based on parts 1 through 3 of this chapter, that subsection (5) does not prevent a project sponsor and an agency from mutually developing measures that may, at the request of the project sponsor, be incorporated into a permit or other authority to act, and that parts 1 through 3 of this chapter do not confer authority to an agency that is a project sponsor to modify a proposed project or action. Amendment effective October 1, 2001.

Chapter 300 inserted (7) requiring responsible agency directors to endorse determination or recommendation for determination of significance; and inserted (8) authorizing a project sponsor to request a review of a significance determination, allowing a board to submit an advisory recommendation, and establishing that time for the review may not be included in determining compliance with time limits for environmental reviews. Each agency of state government charged with the responsibility of issuing a lease, permit, contract, license, or certificate under any provision of state law may adopt rules prescribing fees which shall be paid by a person, corporation, partnership, firm, association, or other private entity when an application for a lease, permit, contract, license, or certificate will require an agency to compile an environmental impact statement as prescribed by 75-1-201. An agency must determine within 30 days after a completed application is filed whether it will be necessary to compile an environmental impact statement and assess a fee as prescribed by this part. The fee assessed under this part shall be used only to gather data and information necessary to compile an environmental impact statement as defined in parts 1 through 3. (1) In prescribing fees to be assessed against applicants for a lease, permit, contract, license, or certificate as specified in 75-1-202, an agency may adopt a fee schedule that may be adjusted depending upon the size and complexity of the proposed project. A fee may not be assessed unless the application for a lease, permit, contract, license, or certificate will result in the agency incurring expenses in excess of $2,500 to compile an environmental impact statement.

(2) The maximum fee that may be imposed by an agency may not exceed 2% of any estimated cost up to $1 million, plus 1% of any estimated cost over $1 million and up to $20 million, plus 1/2 of 1% of any estimated cost over $20 million and up to $100 million, plus 1/4 of 1% of any estimated cost over $100 million and up to $300 million, plus 1/8 of 1% of any estimated cost in excess of $300 million.

75-1-206. Multiple applications or combined facility. In cases where a combined facility proposed by an applicant requires action by more than one agency or multiple applications for the same facility, the governor shall designate a lead agency to collect one fee pursuant to this part, to coordinate the preparation of information required for all environmental impact statements which may be required, and to allocate and disburse the necessary funds to the other agencies which require funds for the completion of the necessary work.

History: En. 69-6518 by Sec. 1, Ch. 329, L. 1975; R.C.M. 1947, 69-6518(6).

75-1-207. Major facility siting applications excepted. No fee as prescribed by this part may be assessed against any person, corporation, partnership, firm, association, or other private entity filing an application for a certificate under the provisions of the Montana Major Facility Siting Act, chapter 20 of this title.

History: En. 69-6518 by Sec. 1, Ch. 329, L. 1975; R.C.M. 1947, 69-6518(3).

75-1-208. Environmental review procedure. (1) (a) Except as provided in subsection (1)(b), an agency shall comply with this section when completing any environmental review required under this part.

(b) To the extent that the requirements of this section are inconsistent with federal requirements, the requirements of this section do not apply to an environmental review that is being prepared jointly by a state agency pursuant to this part and a federal agency pursuant to the National Environmental Policy Act or to an environmental review that must comply with the requirements of the National Environmental Policy Act.

(2) A project sponsor may, after providing a 30-day notice, appear before the environmental quality council at any regularly scheduled meeting to discuss issues regarding the agency's environmental review of the project. The environmental quality council shall ensure that the appropriate agency personnel are available to answer questions.

(3) If a project sponsor experiences problems in dealing with the agency or any consultant hired by the agency regarding an environmental review, the project sponsor may submit a written request to the agency director requesting a meeting to discuss the issues. The written request must sufficiently state the issues to allow the agency to prepare for the meeting. If the issues remain unresolved after the meeting with the agency director, the project sponsor may submit a written request to appear before the appropriate board, if any, to discuss the remaining issues. A written request to the appropriate board must sufficiently state the issues to allow the agency and the board to prepare for the meeting.

(4) (a) Subject to the requirements of subsection (5), to ensure a timely completion of the environmental review process, an agency is subject to the time limits listed in this subsection (4) unless other time limits are provided by law. All time limits are measured from the date the agency receives a complete application. An agency has:

(i) 60 days to complete a public scoping process, if any;

(ii) 90 days to complete an environmental review unless a detailed statement pursuant to 75-1-201(1)(b)(iv) is required; and

(iii) 180 days to complete a detailed statement pursuant to 75-1-201(1)(b)(iv).

(b) The period of time between the request for a review by a board and the completion of a review by a board under 75-1-201(1)(b)(iv)(C)(III) or (8) or subsection (10) of this section may not be included for the purposes of determining compliance with the time limits established for conducting an environmental review under this subsection or the time limits established for permitting in 75-2-211, 75-2-218, 75-10-922, 75-20-216, 75-20-231, 76-4-125, 82-4-122, 82-4-231, 82-4-337, and 82-4-432.

(5) An agency may extend the time limits in subsection (4) by notifying the project sponsor in writing that an extension is necessary and stating the basis for the extension. The agency may extend the time limit one time, and the extension may not exceed 50% of the original time period as listed in subsection (4). After one extension, the agency may not extend the time limit unless the agency and the project sponsor mutually agree to the extension.

(6) If the project sponsor disagrees with the need for the extension, the project sponsor may request that the appropriate board, if any, conduct a review of the agency's decision to extend the time period. The appropriate board may, at its discretion, submit an advisory recommendation to the agency regarding the issue.

(7) (a) Except as provided in subsection (7)(b), if an agency has not completed the environmental review by the expiration of the original or extended time period, the agency may not withhold a permit or other authority to act unless the agency makes a written finding that there is a likelihood that permit issuance or other approval to act would result in the violation of a statutory or regulatory requirement.

(b) Subsection (7)(a) does not apply to a permit granted under Title 75, chapter 2, or under Title 82, chapter 4, parts 1 and 2.

(8) Under this part, an agency may only request that information from the project sponsor that is relevant to the environmental review required under this part.

(9) An agency shall ensure that the notification for any public scoping process associated with an environmental review conducted by the agency is presented in an objective and neutral manner and that the notification does not speculate on the potential impacts of the project.

(10) An agency may not require the project sponsor to provide engineering designs in greater detail than that necessary to fairly evaluate the proposed project. The project sponsor may request that the appropriate board, if any, review an agency's request regarding the level of design detail information that the agency believes is necessary to conduct the environmental review. The appropriate board may, at its discretion, submit an advisory recommendation to the agency regarding the issue.

(11) An agency shall, when appropriate, consider the cumulative impacts of a proposed project. However, related future actions may only be considered when these actions are under concurrent consideration by any agency through preimpact statement studies, separate impact statement evaluations, or permit processing procedures.

(1) To the extent that funds are available, the board shall conduct an ongoing study in areas of Montana where there are major industrial sources of sulfur dioxide. The study shall concentrate on the effects on human health and the environment of ambient sulfur dioxide concentrations separately and in conjunction with particulates.

(2) Notwithstanding other funding sources to pay for the study, the board may accept funds and grants from private and public sources.

75-2-207. State regulations no more stringent than federal regulations or guidelines — exceptions — procedure. (1) After April 14, 1995, except as provided in subsections (2) and (3) or unless required by state law, the board or department may not adopt a rule to implement this chapter that is more stringent than the comparable federal regulations or guidelines that address the same circumstances. The board or department may incorporate by reference comparable federal regulations or guidelines.

(2) (a) The board or department may adopt a rule to implement this chapter that is more stringent than comparable federal regulations or guidelines only if:

(i) a public hearing is held;

(ii) public comment is allowed; and

(iii) the board or the department makes a written finding after the public hearing and comment period that is based on evidence in the record that the proposed standard or requirement:

(A) protects public health or the environment;

(B) can mitigate harm to the public health or the environment; and

(C) is achievable with current technology.

(b) The written finding required under subsection (2)(a)(iii) must reference information and peer-reviewed scientific studies contained in the record that form the basis for the board's or the department's conclusion. The written finding must also include information from the hearing record regarding costs to the regulated community that are directly attributable to the proposed standard or requirement.

(c) (i) A person or entity affected by a rule of the board or department adopted after January 1, 1990, and before April 14, 1995, that the person or entity believes is more stringent than comparable federal regulations or guidelines may petition the board or department to review the rule.

(ii) If the board or department determines that the rule is more stringent than comparable federal regulations or guidelines, the board or department shall either revise the rule to conform to the federal regulations or guidelines or follow the process provided in subsections (2)(a) and (2)(b) within a reasonable period of time, not to exceed 6 months after receiving the petition.

(iii) A petition under this section does not relieve the petitioner of the duty to comply with the challenged rule. The board or department may charge a petition filing fee in an amount not to exceed $250.

(iv) A person may also petition the board or department for a rule review under subsection (2)(a) if the board or department adopts a rule after January 1, 1990, in an area in which no federal regulations or guidelines existed and the federal government subsequently establishes comparable regulations or guidelines that are less stringent than the previously adopted board or department rule.

(3) This section does not apply to a rule adopted under the emergency rulemaking provisions of 2-4-303(1).

Compiler's Comments

2001 Amendment: Chapter 536 in (2)(a) near beginning after "only if" substituted remainder of (2)(a) through (2)(c) prohibiting the board of environmental review from approving or adopting rules that are more stringent than those imposed by the federal government unless certain requirements are met and providing for review of rules that may be more stringent than federal requirements for remainder of former (2) through (4) that read: "the board or department makes a written finding after a public hearing and public comment and based on evidence in the record that:

(a) the proposed state standard or requirement protects public health or the environment of the state; and

(b) the state standard or requirement to be imposed can mitigate harm to the public health or environment and is achievable under current technology.

(3) The written finding must reference information and peer-reviewed scientific studies contained in the record that forms the basis for the board's or department's conclusion. The written finding must also include information from the hearing record regarding the costs to the regulated community that are directly attributable to the proposed state standard or requirement.

(4) (a) A person affected by a rule of the board or department adopted after January 1, 1990, and before April 14, 1995, that that person believes to be more stringent than comparable federal regulations or guidelines may petition the board or department to review the rule. If the board or department determines that the rule is more stringent than comparable federal regulations or guidelines, the board or department shall comply with this section by either revising the rule to conform to the federal regulations or guidelines or by making the written finding, as provided under subsection (2), within a reasonable period of time, not to exceed 12 months after receiving the petition. A petition under this section does not relieve the petitioner of the duty to comply with the challenged rule. The board or department may charge a petition filing fee in an amount not to exceed $250.

(b) A person may also petition the board or department for a rule review under subsection (4)(a) if the board or department adopts a rule after January 1, 1990, in an area in which no federal regulations or guidelines existed and the federal government subsequently establishes comparable regulations or guidelines that are less stringent than the previously adopted board or department rule"; and made minor changes in style. Amendment effective May 1, 2001.

75-2-208 through 75-2-210 reserved.

75-2-211. *(Temporary)* **Permits for construction, installation, alteration, or use.** (1) The board shall by rule provide for the issuance, modification, suspension, revocation, and renewal of a permit issued under this part.

(2) Except as provided in 75-1-208(4)(b), not later than 180 days before construction, installation, or alteration begins or as a condition of use of any machine, equipment, device, or facility that the board finds may directly or indirectly cause or contribute to air pollution or that is intended primarily to prevent or control the emission of air pollutants, the owner or operator shall file with the department the appropriate permit application on forms available from the department except as provided in subsection (12).

(3) The permit program administered by the department pursuant to this section must include the following:

(a) requirements and procedures for permit applications, including standard application forms;

(b) requirements and procedures for submittal of information necessary to determine the location, quantity, and type of emissions;

(c) procedures for public notice and opportunity for comment or public hearing, as appropriate;

(d) procedures for providing notice and an opportunity for comment to contiguous states and federal agencies, as appropriate;

(e) requirements for inspection, monitoring, recordkeeping, and reporting;

(f) procedures for the transfer of permits;

(g) requirements and procedures for suspension, modification, and revocation of permits by the department;

(h) requirements and procedures for appropriate emission limitations and other requirements, including enforceable measures necessary to ensure compliance with those limitations and requirements;

(i) requirements and procedures for permit modification and amendment; and

(j) requirements and procedures for issuing a single permit authorizing emissions from similar operations at multiple temporary locations, which permit may include conditions necessary to ensure compliance with the requirements of this chapter at all authorized locations and a requirement that the owner or operator notify the department in advance of each change in location.

(4) This section does not restrict the board's authority to adopt regulations providing for a single air quality permit system.

(5) Department approval of an application to transfer a portable emission source from one location to another is exempt from the provisions of 75-1-201(1).

(6) The department may, for good cause shown, waive or shorten the time required for filing the appropriate applications.

(7) The department shall require that applications for permits be accompanied by any plans, specifications, and other information that it considers necessary.

(8) An application is not considered filed until the applicant has submitted all fees required under 75-2-220 and all information and completed application forms required pursuant to subsections (2), (3), and (7) of this section. If the department fails to notify the applicant in writing within 30 days after the purported filing of an application that the application is incomplete and fails to list the reasons why the application is considered incomplete, the application is considered filed as of the date of the purported filing.

(9) (a) Except as provided in 75-1-208(4)(b), if an application for a permit requires the preparation of an environmental impact statement under the Montana Environmental Policy Act, Title 75, chapter 1, parts 1 through 3, the department shall notify the applicant in writing of the approval or denial of the application within:

(i) 180 days after the department's receipt of a filed application, as provided in subsection (8), if the department prepares the environmental impact statement;

(ii) 30 days after issuance of the final environmental impact statement by the lead agency if a state agency other than the department has been designated by the governor as lead agency for preparation of the environmental impact statement; or

(iii) if the application is for a machine, equipment, a device, or a facility at an operation that requires a permit under Title 82, chapter 4, part 1, 2, or 3, 30 days of issuance of the final environmental impact statement in accordance with time requirements of Title 82, chapter 4, part 1, 2, or 3.

(b) If an application does not require the preparation of an environmental impact statement, the department shall notify the applicant in writing within 60 days after its receipt of a filed application, as provided in subsection (8), of its approval or denial of the application. The time for notification may be extended for 30 days by written agreement of the department and the applicant. Additional 30-day extensions may be granted by the department on request of the applicant. Notification of approval or denial may be served personally or by certified mail on the applicant or the applicant's agent.

(c) If an application for a permit is for the construction, installation, alteration, or use of a source that is also required to obtain a license pursuant to 75-10-221 or a permit pursuant to 75-10-406, the department shall act on the permit application within the time period provided for in 75-2-215(3)(e).

(d) Failure by the department to act in a timely manner does not constitute approval or denial of the application. This does not limit or abridge the right of any person to seek available judicial remedies to require the department to act in a timely manner.

(10) When the department approves or denies the application for a permit under this section, a person who is jointly or severally adversely affected by the department's decision may request a hearing before the board. The request for hearing must be filed within 15 days after the department renders its decision and must include an affidavit setting forth the grounds for the request. The contested case provisions of the Montana Administrative Procedure Act, Title 2, chapter 4, part 6, apply to a hearing before the board under this subsection.

(11) The department's decision on the application is not final unless 15 days have elapsed from the date of the decision and there is no request for a hearing under this section. The filing of a request for a hearing postpones the effective date of the department's decision until the conclusion of the hearing and issuance of a final decision by the board.

(12) (a) Except as provided in subsections (12)(b) and (12)(c), an applicant who has received a written notice that its application is considered filed pursuant to subsection (8) may:

(i) for a temporary power generation unit or units with a total electrical generation capacity of not more than 125 megawatts, construct the unit or units. Operation of the unit or units may commence upon the department's issuance of a permit under this section.

(ii) for a temporary power generation unit or units with a total electrical generating capacity of 10 megawatts or less, construct and operate the unit or units.

(b) The construction or operation of a temporary power generation unit or units described in subsection (12)(a) is not in violation of this part unless the operation of the temporary power generation unit or units continues after a department decision to deny the permit application becomes final as provided in this section.

(c) (i) A permit applicant shall discontinue construction or operation of a temporary power generation unit or units if the applicant is notified by the department in writing that the applicant has failed to submit by the department's deadline any additional information that is necessary to process the permit application.

(ii) The operation of a permit applicant's temporary power generation unit or units described in subsection (12)(a) may not violate ambient air quality standards.

(d) A permit issued under this part and pursuant to the provisions of this subsection (12) must expire no later than 2 years from the date that the department received the permit application and must require removal of the temporary power generation unit or units upon expiration of the permit unless an air quality permit for permanent operation has been issued. *(Terminates July 1, 2005—sec. 4, Ch. 588, L. 2001.)*

75-2-211. *(Effective July 1, 2005)* **Permits for construction, installation, alteration, or use.** (1) The board shall by rule provide for the issuance, modification, suspension, revocation, and renewal of a permit issued under this part.

(2) Except as provided in 75-1-208(4)(b), not later than 180 days before construction, installation, or alteration begins or as a condition of use of any machine, equipment, device, or facility that the board finds may directly or indirectly cause or contribute to air pollution or that is intended primarily to prevent or control the emission of air pollutants, the owner or operator shall file with the department the appropriate permit application on forms available from the department.

(3) The permit program administered by the department pursuant to this section must include the following:

(a) requirements and procedures for permit applications, including standard application forms;

(b) requirements and procedures for submittal of information necessary to determine the location, quantity, and type of emissions;

(c) procedures for public notice and opportunity for comment or public hearing, as appropriate;

(d) procedures for providing notice and an opportunity for comment to contiguous states and federal agencies, as appropriate;

(e) requirements for inspection, monitoring, recordkeeping, and reporting;

(f) procedures for the transfer of permits;

(g) requirements and procedures for suspension, modification, and revocation of permits by the department;

(h) requirements and procedures for appropriate emission limitations and other requirements, including enforceable measures necessary to ensure compliance with those limitations and requirements;

(i) requirements and procedures for permit modification and amendment; and

(j) requirements and procedures for issuing a single permit authorizing emissions from similar operations at multiple temporary locations, which permit may include conditions necessary to ensure compliance with the requirements of this chapter at all authorized locations and a requirement that the owner or operator notify the department in advance of each change in location.

(4) This section does not restrict the board's authority to adopt regulations providing for a single air quality permit system.

(5) Department approval of an application to transfer a portable emission source from one location to another is exempt from the provisions of 75-1-201(1).

(6) The department may, for good cause shown, waive or shorten the time required for filing the appropriate applications.

(7) The department shall require that applications for permits be accompanied by any plans, specifications, and other information that it considers necessary.

(8) An application is not considered filed until the applicant has submitted all fees required under 75-2-220 and all information and completed application forms required pursuant to subsections (2), (3), and (7) of this section. If the department fails to notify the applicant in writing within 30 days after the purported filing of an application that the application is incomplete and fails to list the reasons why the application is considered incomplete, the application is considered filed as of the date of the purported filing.

(9) (a) Except as provided in 75-1-208(4)(b), if an application for a permit requires the preparation of an environmental impact statement under the Montana Environmental Policy Act, Title 75, chapter 1, parts 1 through 3, the department shall notify the applicant in writing of the approval or denial of the application within:

(i) 180 days after the department's receipt of a filed application, as provided in subsection (8), if the department prepares the environmental impact statement;

(ii) 30 days after issuance of the final environmental impact statement by the lead agency if a state agency other than the department has been designated by the governor as lead agency for preparation of the environmental impact statement; or

(iii) if the application is for a machine, equipment, a device, or a facility at an operation that requires a permit under Title 82, chapter 4, part 1, 2, or 3, 30 days of issuance of the final environmental impact statement in accordance with time requirements of Title 82, chapter 4, part 1, 2, or 3.

(b) If an application does not require the preparation of an environmental impact statement, the department shall notify the applicant in writing within 60 days after its receipt of a filed application, as provided in subsection (8), of its approval or denial of the application. The time for notification may be extended for 30 days by written agreement of the department and the applicant. Additional 30-day extensions may be granted by the department on request of the applicant. Notification of approval or denial may be served personally or by certified mail on the applicant or the applicant's agent.

(c) If an application for a permit is for the construction, installation, alteration, or use of a source that is also required to obtain a license pursuant to 75-10-221 or a permit pursuant to 75-10-406, the department shall act on the permit application within the time period provided for in 75-2-215(3)(e).

(d) Failure by the department to act in a timely manner does not constitute approval or denial of the application. This does not limit or abridge the right of any person to seek available judicial remedies to require the department to act in a timely manner.

(10) When the department approves or denies the application for a permit under this section, a person who is jointly or severally adversely affected by the department's decision may request a hearing before the board. The request for hearing must be filed within 15 days after the department renders its decision and must include an affidavit setting forth the grounds for the request. The contested case provisions of the Montana Administrative Procedure Act, Title 2, chapter 4, part 6, apply to a hearing before the board under this subsection.

(11) The department's decision on the application is not final unless 15 days have elapsed from the date of the decision and there is no request for a hearing under this section. The filing of a request for a hearing postpones the effective date of the department's decision until the conclusion of the hearing and issuance of a final decision by the board.

75-2-212. Variances — renewals — filing fees. (1) A person who owns or is in control of a plant, building, structure, process, or equipment may apply to the board for an exemption or partial exemption from rules governing the quality, nature, duration, or extent of emissions of air pollutants. The application shall be accompanied by such information and data as the board may require. The board may grant an exemption or partial exemption if it finds that:

(a) the emissions occurring or proposed to occur do not constitute a danger to public health or safety; and

(b) compliance with the rules from which exemption is sought would produce hardship without equal or greater benefits to the public.

(2) No exemption or partial exemption may be granted pursuant to this section except after public hearing on due notice and until the board has considered the relative interests of the applicant, other owners or property likely to be affected by the emissions, and the general public.

(3) The exemption or partial exemption may be renewed if no complaint is made to the board because of it or if, after the complaint has been made and duly considered at a public hearing held by the board on due notice, the board finds that renewal is justified. No renewal may be granted except on application therefor. An application shall be made at least 60 days before the expiration of the exemption or partial exemption. Immediately before application for renewal the applicant shall give public notice of his application in accordance with rules of the board. A renewal pursuant to this subsection shall be on the same grounds and subject to the same limitations and requirements as provided in subsection (1).

(4) An exemption, partial exemption, or renewal thereof is not a right of the applicant or holder thereof but shall be granted at the discretion of the board. However, a person adversely affected by an exemption, partial exemption, or renewal granted by the board may obtain judicial review thereof as provided by 75-2-411.

(5) Nothing in this section and no exemption, partial exemption, or renewal granted pursuant to this section may be construed to prevent or limit the application of the emergency provisions and procedures of 75-2-402 to a person or his property.

(6) A person who owns or is in control of a plant, building, structure, process, or equipment (hereinafter called a facility) who applies to the board for an exemption or partial exemption or a renewal of an exemption or partial exemption from a rule governing the quality, nature, duration, or extent of emissions of air pollutants shall submit with the application for variance a sum of not less than $500 or 2% of the cost of the equipment to bring the facility into compliance with the rule for which a variance is sought, whichever is greater, but not to exceed $80,000. The department shall prepare a statement of actual costs, and funds in excess of this shall be returned to the applicant. The person requesting the variance shall describe the facility in sufficient detail, with accompanying estimates of cost and verifying materials, to permit the department to determine with reasonable accuracy the sum of the fee. For a renewal of an exemption or partial exemption, if no public hearing, environmental impact statement, or appreciable investigation by the department is necessary, the minimum filing fee shall apply or the fee may be waived by the department. The filing fee shall be deposited in the state special

revenue fund provided for in 17-2-102. It is the intent of the legislature that the revenues derived from the filing fees shall be used by the department to:

(a) compile the information required for rendering a decision on the request;

(b) compile the information necessary for any environmental impact statements;

(c) offset the costs of a public hearing, printing, or mailing; and

(d) carry out its other responsibilities under this chapter.

75-2-213 and 75-2-214 reserved.

75-2-215. Solid or hazardous waste incineration — additional permit requirements. (1) Until the department has issued an air quality permit pursuant to 75-2-211 that includes the conditions required by this section, a person may not construct, install, alter, or use a solid or hazardous waste incinerator or a boiler or industrial furnace subject to the provisions of 75-10-406, except as provided in subsection (2).

(2) An existing or permitted solid or hazardous waste incinerator or a boiler or industrial furnace subject to the provisions of 75-10-406 is subject to the provisions of subsection (1) only if it incinerates or uses as fuel or would incinerate or use as fuel solid or hazardous waste in an amount, form, kind, or content that changes the nature, character, or composition of its emissions from its design or permitted operation.

(3) The department may not issue a permit to a facility described in subsection (1) until:

(a) the owner or operator has provided to the department's satisfaction:

(i) a characterization of emissions and ambient concentrations of air pollutants, including hazardous air pollutants, from any existing emission source at the facility; and

(ii) an estimate of emissions and ambient concentrations of air pollutants, including hazardous air pollutants, from the incineration of solid or hazardous waste or the use of hazardous waste as fuel for a boiler or industrial furnace, as proposed in the permit application or modification;

(b) if a license is required pursuant to 75-10-221 or a permit is required pursuant to 75-10-406, the applicant has published, in the county where the project is proposed, at least three notices, in accordance with the procedures identified in 7-1-4127, describing the proposed project;

(c) if a license is required pursuant to 75-10-221 or a permit is required pursuant to 75-10-406, the department has conducted a public hearing on an environmental review prepared pursuant to Title 75, chapter 1, and, as appropriate, provided additional opportunities for the public to review and comment on the permit application or modification;

(d) the department has reached a determination that the projected emissions and ambient concentrations will constitute a negligible risk to the public health, safety, and welfare and to the environment; and

(e) the department has issued a license pursuant to 75-10-221 or a permit pursuant to 75-10-406, if a license or permit is required. The decision to issue, deny, or alter a permit pursuant to 75-2-211 and this section must be made within 30 days from when the department issues a license pursuant to 75-10-221 or a permit pursuant to 75-10-406 or within 90 days after the receipt of a complete application for a permit or a permit alteration under 75-2-211 and this section, whichever is later.

(4) The department shall require the application of air pollution control equipment, engineering, or other operating procedures as necessary to provide reductions of air pollutants, including hazardous air pollutants, equivalent to or more stringent than those achieved through the best available control technology.

(5) The board may by rule provide for general air quality permits under the provisions of 75-2-211 and this section. The rules must cover numerous similar classes or categories of incinerators and boilers or industrial furnaces.

(6) This section does not relieve an owner or operator of a solid or hazardous waste incinerator or a boiler or industrial furnace that is not included under subsection (1) from the

obligation to obtain any permit otherwise required under this chapter or rules implementing this chapter.

75-2-218. Permits for operation — application completeness — action by department — application shield — review by board. (1) An application for an operating permit or renewal is not considered filed until the department has determined that it is complete. An application is complete if all fees required under 75-2-220 and all information and completed application forms required under 75-2-217 have been submitted. A complete application must contain all of the information required for the department to begin processing the application. If the department fails to notify the applicant in writing within 60 days after submittal of an application that the application is incomplete and fails to list the reasons why the application is considered incomplete, the application is considered filed on the date of the department's receipt of the application. The department may request additional information after a completeness determination has been made. The department shall adopt rules that contain criteria for use in determining both when an application is complete and when additional information is required after a completeness determination has been made.

(2) Except as provided in 75-1-208(4)(b) and subsection (3) of this section, the department shall, consistent with the procedures established under 75-2-217, approve or disapprove a complete application for an operating permit or renewal and shall issue or deny the permit or renewal within 18 months after the date of filing. Failure of the department to act in a timely manner does not constitute approval or denial of the application. This does not limit or abridge the right of any person to seek available judicial remedies to require the department to act in a timely manner.

(3) The board may by rule provide for a transition schedule for both the submittal to the department of initial applications for operating permits by existing sources and action by the department on these initial permit applications. The board may require that one-third of all operating permit applications required for existing sources be submitted within the first calendar year after the adoption of rules implementing an operating permit program under 75-2-217.

(4) If an applicant submits a timely and complete application for an operating permit, the applicant's failure to hold a valid operating permit is not a violation of 75-2-217. If an applicant submits a timely and complete application for an operating permit renewal, the expiration of the applicant's existing operating permit is not a violation of 75-2-217. The applicant shall continue to be subject to the terms and conditions of the expired operating permit until the operating permit is renewed and is subject to the application of 75-2-217. The applicant is not entitled to the protection of this subsection if the delay in final action by the department on the application results from the applicant's failure to submit in a timely manner information requested by the department to process the application.

(5) Except as provided in subsection (8), if the department approves or denies an application for an operating permit or the renewal, modification, or amendment of a permit under 75-2-217 and this section, any person that participated in the public comment process required under 75-2-217(7) may request a hearing before the board. The request for a hearing must be filed within 30 days after the department renders its decision and must include an affidavit setting forth the grounds for the request. The contested case provisions of the Montana Administrative Procedure Act, Title 2, chapter 4, part 6, apply to a hearing before the board under this subsection.

(6) Except as provided in subsection (8), the department's decision on any application is not final until 30 days have elapsed from the date of the decision and there is no request for a hearing under this section. The filing of a request for a hearing postpones the effective date of the department's decision until the conclusion of the hearing and issuance of a final decision by the board.

(7) The requirements of subsections (5) and (6) apply to any action initiated by the department to suspend, revoke, modify, or amend an operating permit issued under this section.

(8) The denial by the department of an application under 75-2-217 and this section is not subject to review by the board or judicial review if the basis for denial is the written objection of the appropriate federal agency acting pursuant to the federal Clean Air Act, 42 U.S.C. 7401, et seq.

(9) Compliance with an operating permit granted or renewed under 75-2-217 and this section is considered to be compliance with the requirements of this chapter only if the permit expressly includes those requirements or an express determination that those requirements are not applicable. This subsection does not apply to general permits provided for under 75-2-217.

75-2-220. *(Temporary)* **Fees — special assessments — late payment assessments — credit.** (1) Concurrent with the submittal of a permit application required under this chapter and annually for the duration of the permit, the applicant shall submit to the department a fee sufficient to cover the reasonable costs, direct and indirect, of developing and administering the permitting requirements in this chapter, including:

(a) reviewing and acting upon the application;

(b) implementing and enforcing the terms and conditions of the permit. This amount does not include any court costs or other costs associated with an enforcement action. If the permit is not issued, the department shall return this portion of the fee to the applicant.

(c) emissions and ambient monitoring;

(d) preparing generally applicable regulations or guidance;

(e) modeling, analysis, and demonstrations;

(f) preparing inventories and tracking emissions;

(g) providing support to sources under the small business stationary source technical and environmental compliance assistance program; and

(h) all other costs required to be recovered pursuant to Subchapter V of the federal Clean Air Act, 42 U.S.C. 7661, et seq.

(2) In recovering the costs described in subsection (1), the department may assess an application fee based on estimated actual emissions or an annual fee based on actual emissions of air pollutants regulated under this chapter, including but not limited to volatile organic compounds, each air pollutant regulated under section 7411 or 7412 of the federal Clean Air Act, 42 U.S.C. 7401, et seq., and each air pollutant subject to a national primary ambient air quality standard.

(3) The board shall by rule provide for the annual adjustment of all fees assessed for operating permit applications under 75-2-217 and 75-2-218 to account for changes to the consumer price index, as required by Subchapter V of the federal Clean Air Act.

(4) In addition to the fee required under subsection (1), the board may order the assessment of additional fees required to fund specific activities of the department that are directed at a particular geographic area if the legislature authorizes the activities and appropriates funds for the activities, including emissions or ambient monitoring, modeling analysis or demonstrations, or emissions inventories or tracking. Additional assessments may be levied only on those sources that are within or are believed by the department to be impacting the geographic area. Before the board may require the fees, it shall first determine, after opportunity for hearing, that the activities to be funded are necessary for the administration or implementation of this chapter, that the amount of the requested fees is appropriate, that the assessments apportion the required funding in an equitable manner, and that the department has obtained the necessary appropriation. The contested case provisions of the Montana Administrative Procedure Act, Title 2, chapter 4, part 6, apply to a hearing before the board under this subsection.

(5) (a) If the applicant or permitholder fails to pay in a timely manner a fee required under subsection (1), in addition to the fee, the department may:

(i) impose a penalty not to exceed 50% of the fee, plus interest on the required fee computed as provided in 15-1-216; or

(ii) revoke the permit consistent with those procedures established under this chapter for permit revocation.

(b) Within 1 year of revocation, the department may reissue the revoked permit after the applicant or permitholder has paid all outstanding fees required under subsections (1) and (4), including all penalties and interest provided for under this subsection (5). In reissuing the revoked permit, the department may modify the terms and conditions of the permit as necessary to account for changes in air quality occurring since revocation.

(c) The board shall by rule provide for the implementation of this subsection (5), including criteria for imposition of the sanctions described in this subsection (5).

(6) The board may by rule allow the reduction of a fee required under this section for an operating permit or permit renewal to account for the financial resources of a category of small business stationary sources.

(7) As a condition of the continuing validity of a permit issued by the department under this chapter prior to October 1, 1993, the board may by rule require the permitholder to pay the fees under subsections (1) and (4).

(8) For an existing source of air pollutants that is subject to Subchapter V of the federal Clean Air Act and that is not required to hold an air quality permit from the department as of October 1, 1993, the board may, as a condition of continued operation, require by rule that the owner or operator of the source pay the fees under subsections (1) and (4).

(9) (a) The department shall give written notice of the fee to be assessed and the basis for the department's fee assessment under this section to the owner or operator of the air pollutant source. The owner or operator may appeal the department's fee assessment to the board within 20 days after receipt of the written notice.

(b) An appeal must be based upon the allegation that the fee assessment is erroneous or excessive. An appeal may not be based on the amount of the fee contained in the schedule adopted by the board.

(c) If any part of the fee assessment is not appealed, it must be paid to the department upon receipt of the notice required in subsection (9)(a).

(d) The contested case provisions of the Montana Administrative Procedure Act, Title 2, chapter 4, part 6, apply to a hearing before the board under this subsection (9).

(10) The department may not charge more than one fee annually to a source of air pollutants for the costs identified in subsection (1).

(11) The total of the fees charged to an applicant under subsections (1) and (4) of this section must be reduced by the amount of any credit accruing to the applicant under 75-2-225. The department may not increase fee assessments beyond legislative appropriation levels to adjust for any credit claimed under 75-2-225. The credit applied under 75-2-225 may not limit the department's ability to collect fees sufficient to cover the reasonable costs, both direct and indirect, of developing and administering the permitting requirements of this chapter. *(Terminates December 31, 2005—sec. 8, Ch. 516, L. 2001.)*

(8) For an existing source of air pollutants that is subject to Subchapter V of the federal Clean Air Act and that is not required to hold an air quality permit from the department as of October 1, 1993, the board may, as a condition of continued operation, require by rule that the owner or operator of the source pay the fees under subsections (1) and (4).

(9) (a) The department shall give written notice of the fee to be assessed and the basis for the department's fee assessment under this section to the owner or operator of the air pollutant source. The owner or operator may appeal the department's fee assessment to the board within 20 days after receipt of the written notice.

(b) An appeal must be based upon the allegation that the fee assessment is erroneous or excessive. An appeal may not be based on the amount of the fee contained in the schedule adopted by the board.

(c) If any part of the fee assessment is not appealed, it must be paid to the department upon receipt of the notice required in subsection (9)(a).

(1) "Applicant" means a person submitting a permit application for which the person is required to pay a fee under 75-2-220 and includes a permitholder who pays an annual fee.

(2) "Postconsumer glass" means glass or glass-like material that has:

(a) served its final intended use;

(b) been discarded by an individual, commercial enterprise, or other entity after having fulfilled its intended application or use in Montana;

(c) useful physical or chemical properties remaining after having served a specific purpose and that would normally be disposed of as solid waste, as defined in 75-10-203, by a consumer, processor, or manufacturer.

(3) (a) "Recycled material" means a substance, compound, conglomeration, mixture, or the like that is composed, in whole or in part, of postconsumer glass.

(b) Material that contains postconsumer glass is recycled material for the purposes of this section if the postconsumer glass is used as or is a component of:

(i) fill, aggregate, or surface material used in construction or road construction;

(ii) sandblasting material;

(iii) landscaping material; or

(iv) a sandstone replacement in the manufacture of cement.

(c) The uses included in subsection (3)(b) are not exclusive, and other uses of postconsumer glass as a substitute for the use or consumption of new material may also be considered by the department as recycled material. *(Terminates December 31, 2005—sec. 8, Ch. 516, L. 2001.)*

75-2-225. *(Temporary)* **Amount and duration of credit — how claimed.** (1) An applicant may receive a credit against the fees imposed in 75-2-220 for using postconsumer glass in recycled material if the applicant qualifies under 75-2-226.

(2) Subject to 75-2-226(2), an applicant qualifying for a credit under 75-2-226 is entitled to claim a credit, as provided in subsection (3) of this section, for using postconsumer glass in recycled material in the calendar year subsequent to the calendar year in which the postconsumer glass was used in recycled material. If postconsumer glass was used in recycled material prior to January 1, 2002, but on or after January 1, 2001, an applicant is entitled to a credit for calendar year 2002.

(3) (a) The amount of the credit that may be claimed under this section is $7 for each ton of postconsumer glass that was used as a substitute for nonrecycled material in the calendar year prior to the calendar year for which the applicant is paying fees for permits under 75-2-220.

(b) The maximum credit allowable in any calendar year for fees payable under 75-2-220 is $1,500 or the total amount of fees due, whichever is less. *(Terminates December 31, 2005—sec. 8, Ch. 516, L. 2001.)*

75-2-226. *(Temporary)* **Credit for use of postconsumer glass.** (1) The following requirements must be met for an applicant to be entitled to a credit for the use of postconsumer glass:

(a) The postconsumer glass must have been used in recycled material in the calendar year prior to the calendar year in which the applicant is applying for and paying for permits under 75-2-220.

(b) (i) The applicant claiming a credit must be a person who, as an owner, including a contract purchaser or lessee, or who pursuant to an agreement owns, leases, or has a beneficial interest in a business that uses postconsumer glass in recycled materials. The use of postconsumer glass as recycled material may be a minor or nonprofit part of a business otherwise engaged in a business activity.

(ii) The applicant may but need not operate or conduct a business that uses postconsumer glass as recycled material. If more than one person has an interest in a business with qualifying uses of postconsumer glass, they may allocate all or any part of the allowable credit among themselves and their successors or assigns.

(c) The business must have been owned or leased by the applicant claiming the credit during the calendar year prior to the calendar year for which the permit fees are due under 75-2-220, except as otherwise provided in subsection (1)(b), and must have used postconsumer glass in recycled material during the calendar year prior to the calendar year for which the credit is claimed.

(d) The postconsumer glass used in recycled material may not be an industrial waste generated by the person claiming the credit unless:

(i) the person generating the waste historically has disposed of the waste onsite or in a licensed landfill; and

(ii) standard industrial practice has not generally included the reuse of the waste in the manufacturing process.

(2) A credit under this section may be claimed by an applicant for a business only if the qualifying postconsumer glass was used in recycled material before January 1, 2006.

(3) The credit provided by this section is not in lieu of any other incentive to which the applicant otherwise may be entitled under Title 15 or this chapter.

(4) A credit otherwise allowable under this section that is not used by the applicant in the calendar year for which the permits are applied may not be:

(a) carried forward to offset an applicant's permit fees for any succeeding calendar year; or

(b) carried back to offset an applicant's permit fees for any preceding calendar year. *(Terminates December 31, 2005—sec. 8, Ch. 516, L. 2001.)*

75-2-230. Commercial hazardous waste incinerators — additional permit requirements. (1) In addition to the requirements under 75-2-231, the department shall require the owner or operator of an existing commercial hazardous waste incinerator or an applicant for an air quality permit for a commercial hazardous waste incinerator to submit a plan that requires the cessation of the burning of hazardous waste if site-specific monitoring determines that inversion conditions, as defined by department rule, exist. The department shall consider the proximity of the commercial hazardous waste incinerator to populated areas when determining the appropriate plan content. The plan must include a site-specific ambient air quality and meteorological monitoring program in order to establish the conditions under which the burning of commercial hazardous waste must be halted and conditions under which the burning of commercial hazardous waste may be resumed. Conditions of the plan must be incorporated as a condition of the facility's permit.

(2) When, because of the proximity of a commercial hazardous waste incinerator to populated areas, the department determines that continuing monitoring is appropriate, the department shall require the owner or operator of an existing commercial hazardous waste incinerator or an applicant for an air quality permit for a commercial hazardous waste incinerator to provide telemetering service to the department with an immediate notification system activated when emissions approach or exceed permitted limits.

History: En. Sec. 1, Ch. 498, L. 1995.

75-2-231. Medical waste and hazardous waste incineration — additional permit requirements. (1) Because of the potential emission of chlorinated dioxins, furans, heavy metals, and carcinogens as a result of the incineration of medical waste and hazardous waste and the potential health risk these chemicals pose, the board shall adopt rules establishing additional permit requirements for commercial medical waste and commercial hazardous waste incinerators. For the purposes of this section, the term "commercial medical waste incinerator" does not include hospital or medical facility incinerators that primarily incinerate medical waste generated onsite. The board shall adopt rules that:

(a) regulate the type and amount of plastic and other materials in the medical waste stream and hazardous waste stream that may be a source of chlorine, in order to minimize the potential emission of chlorinated dioxins, furans, and carcinogens;

(b) require commercial medical waste and commercial hazardous waste incinerators to achieve the lowest achievable emission rate to prevent the public health risk from air emissions or ambient concentrations from exceeding the negligible risk standard required by 75-2-215 and any applicable federal allowable intake standards, as determined pursuant to subsection (3), for dioxins, furans, heavy metals, and other hazardous air pollutants;

(c) implement the requirements of subsection (2), including establishing procedures and standards for the collection of high-quality scientific information and for the submission of the information by the applicant;

(d) establish procedures for the monitoring, testing, and inspection of:

(i) the medical waste stream and hazardous waste stream, including heavy metals and possible precursors to the formation of chlorinated dioxins, furans, and carcinogens;

(ii) combustion, including destruction and removal efficiencies; and

(iii) emissions, including continuous emission monitoring and air pollution control devices; and

(e) are necessary to implement the provisions of this section and to coordinate the requirements under this section with the requirements contained in 75-2-211 and 75-2-215.

(2) A person who applies for an air quality permit or alteration pursuant to 75-2-211 and 75-2-215 for a commercial medical waste incinerator or commercial hazardous waste incinerator shall provide, to the satisfaction of the department, the following information:

(a) a dispersion model of emissions, using approved methods, and those studies that are necessary to identify the potential community exposure;

(b) an analysis of the potential pathways for human exposure to air contaminants, particularly chlorinated dioxins, furans, heavy metals, and other carcinogens, including the potential for inhalation, ingestion, and physical contact by the affected communities; and

(c) a quantitative analysis of the estimated total possible human exposure to chlorinated dioxins, furans, heavy metals, and carcinogens for the affected communities.

(3) The department may not issue or alter an air quality permit pursuant to this chapter until the department has determined, based upon an analysis of the information provided by the applicant pursuant to subsection (2) and other necessary and relevant data, that the public health risk from air emissions or ambient concentrations of chlorinated dioxins, furans, heavy metals, and other hazardous air pollutants will not exceed the negligible risk standard required by 75-2-215 and any applicable federal standards for allowable intake, as determined by the department after a review of established and relevant federal standards and guidelines.

(4) This section may not be construed in any way to:

(a) require the board to promulgate standards for the allowable intake of any substances for which the federal government has not established standards;

(b) allow the board to promulgate standards for the allowable intake of any substances for which the federal government has established standards that are more stringent than the federal standards; or

(c) limit or otherwise impair the duty of the department under 75-2-215 to determine that emissions and ambient concentrations will constitute a negligible risk as required by 75-2-215(3)(d), including emissions and ambient concentrations of dioxins, furans, heavy metals, and carcinogens, before issuing an air quality permit pursuant to 75-2-211 and 75-2-215.

75-2-232. Disclosure statement required. (1) An air quality permit for a commercial medical waste or commercial hazardous waste incinerator may not be issued, transferred, or altered pursuant to 75-2-211 and 75-2-215 without an application under this section. Before an application for the issuance, transfer, or alteration of a permit under 75-2-211 and 75-2-215 for a commercial medical waste or commercial hazardous waste incinerator may be approved, the applicant and each principal with respect to the applicant shall submit to the department a disclosure statement containing the following information:

(a) the name, business address, and social security number of the applicant and each principal;

(b) a description of any civil and administrative complaint filed within 5 years before the date of the application against the applicant or a principal for the violation of an environmental protection law and whether the complaint resulted in a civil or administrative penalty;

(c) a description of all judgments of criminal conviction entered against the applicant or a principal for the violation of an environmental protection law within 5 years before the date of the application; and

(d) a description of all judgments of criminal conviction entered against the applicant or a principal for the violation of an environmental protection law within 5 years before the date of the application in another state that resulted from the operation of a medical waste incinerator or a commercial hazardous waste incinerator. For the purposes of this subsection (d), an environmental protection law of another state means a law or administrative rule adopted pursuant to a law regulating solid or hazardous waste or underground storage tanks or protecting the air or water resource.

(2) A disclosure statement, as required in subsection (1), must be executed under oath or affirmation and is subject to the penalty for perjury. The department may verify and investigate the information contained in a statement required under this section.

(3) A person required to file a disclosure statement under this section shall provide assistance or information requested by the department that is related to the statement and

shall cooperate in an inquiry or investigation conducted by the department under subsection (2).

75-2-233. Denial or modification of permit — mitigating factors. (1) The department may deny an application for the issuance, transfer, or alteration of a permit under 75-2-211 and 75-2-215 for a commercial medical waste or commercial hazardous waste incinerator or impose additional conditions on a permit pursuant to subsection (2) if within 5 years before the date of the application:

(a) a judgment of criminal conviction of an environmental protection law has been entered against the applicant or a principal;

(b) a civil or administrative complaint for a violation of an environmental protection law has resulted in the assessment of a penalty against the applicant or a principal;

(c) the applicant or a principal has a history of repeated violations of environmental protection laws; or

(d) a judgment or criminal conviction for a violation described in 75-2-232(1)(d) has been entered against the applicant or a principal.

(2) As provided under subsection (1), the department may impose additional conditions on a permit related to permit length, inspections, monitoring, recordkeeping, and reporting.

(3) In making the decision to deny an application or to impose conditions on a permit pursuant to subsection (1), the department shall consider the following mitigating factors:

(a) the nature and gravity of the violation of environmental protection laws or violations described in 75-2-232(1)(d);

(b) the degree of culpability of the applicant or a principal;

(c) the applicant's or principal's cooperation with the state or federal agencies involved in the complaints and convictions referred to in 75-2-232; and

(d) the applicant's or principal's dissociation from other persons or entities convicted of acts referred to in 75-2-232.

Part 3
Local Air Pollution Control

75-2-301. Local air pollution control programs — consistency with state and federal regulations — procedure for public notice and comment required. (1) After public hearing, a municipality or county may establish and administer a local air pollution control program if the program is consistent with this chapter and is approved by the board.

(2) If a local air pollution control program established by a county encompasses all or part of a municipality, the county and each municipality shall approve the program in accordance with subsection (1).

(3) (a) Except as provided in subsection (5), the board by order may approve a local air pollution control program that:

(i) subject to subsection (4), provides by rule, ordinance, or local law for requirements compatible with, more stringent than, or more extensive than those imposed by 75-2-203, 75-2-204, 75-2-211, 75-2-212, 75-2-215, 75-2-217 through 75-2-219, and 75-2-402 and rules adopted under these sections;

(ii) provides for the enforcement of requirements established under subsection (3)(a)(i) by appropriate administrative and judicial processes; and

(iii) provides for administrative organization, staff, financial resources, and other resources necessary to effectively and efficiently carry out the program. As part of meeting these requirements, a local air pollution control program may administer the permit fee provisions of 75-2-220. The permit fees collected by a local air pollution control program must be deposited in a county special revenue fund to be used by the local air pollution control program for administration of permitting activities.

(b) Board approval of a rule, ordinance, or local law that is more stringent than the comparable state law is subject to the provisions of subsection (4).

(4) (a) A local air pollution control program may, subject to approval by the board, adopt a rule, ordinance, or local law to implement this chapter that is more stringent than comparable state or federal regulations or guidelines only if:

(i) a public hearing is held;

(ii) public comment is allowed; and

(iii) the board or the local air pollution control program makes a written finding after the public hearing and comment period that is based on evidence in the record that the proposed local standard or requirement:

(A) protects public health or the environment of the area;

(B) can mitigate harm to the public health or the environment; and

(C) is achievable with current technology.

(b) The written finding required under subsection (4)(a)(iii) must reference information and peer-reviewed scientific studies contained in the record that form the basis for the board's or the local air pollution control program's conclusion. The written finding must also include information from the hearing record regarding costs to the regulated community that are directly attributable to the proposed local standard or requirement.

(c) (i) A person or entity affected by a rule, ordinance, or local law approved or adopted after January 1, 1996, and before May 1, 2001, that the person or entity believes is more stringent than comparable state or federal regulations or guidelines may petition the board or the local air pollution control program to review the rule, ordinance, or local law.

(ii) If the board or local air pollution control program determines that the rule, ordinance, or local law is more stringent than state or federal regulations or guidelines, the board or local air pollution control program shall either revise the rule, ordinance, or local law to conform to the state or federal regulations or guidelines or follow the process provided in subsections (4)(a) and (4)(b) within a reasonable period of time, not to exceed 6 months after receiving the petition.

(5) Except for those emergency powers provided for in 75-2-402, the board may not delegate to a local air pollution control program the authority to control any air pollutant source that:

(a) requires the preparation of an environmental impact statement in accordance with Title 75, chapter 1, part 2;

(b) is subject to regulation under the Montana Major Facility Siting Act, as provided in Title 75, chapter 20; or

(c) has the potential to emit 250 tons a year or more of any pollutant subject to regulation under this chapter, including fugitive emissions, unless the authority to control the source was delegated to a local air pollution control program prior to January 1, 1991.

(6) If the board finds that the location, character, or extent of particular concentrations of population, air pollutant sources, or geographic, topographic, or meteorological considerations or any combination of these make impracticable the maintenance of appropriate levels of air quality without an areawide air pollution control program, the board may determine the boundaries within which the program is necessary and require it as the only acceptable alternative to direct state administration.

(7) If the board has reason to believe that any part of an air pollution control program in force under this section is either inadequate to prevent and control air pollution in the jurisdiction to which the program relates or is being administered in a manner inconsistent with this chapter, the board shall, on notice, conduct a hearing on the matter.

(8) If, after the hearing, the board determines that any part of the program is inadequate to prevent and control air pollution in the jurisdiction to which it relates or that it is not accomplishing the purposes of this chapter, it shall require that necessary corrective measures be taken within a reasonable time, not to exceed 60 days.

(9) If the jurisdiction fails to take these measures within the time required, the department shall administer within that jurisdiction all of the provisions of this chapter, including the terms contained in any applicable board order, that are necessary to correct the deficiencies found by the board. The department's control program supersedes all municipal or

county air pollution laws, rules, ordinances, and requirements in the affected jurisdiction. The cost of the department's action is a charge on the jurisdiction.

(10) If the board finds that the control of a particular air pollutant source because of its complexity or magnitude is beyond the reasonable capability of the local jurisdiction or may be more efficiently and economically performed at the state level, it may direct the department to assume and retain control over that air pollutant source. A charge may not be assessed against the jurisdiction. Findings made under this subsection may be either on the basis of the nature of the sources involved or on the basis of their relationship to the size of the communities in which they are located.

(11) A jurisdiction in which the department administers all or part of its air pollution control program under subsection (9) may, with the approval of the board, establish or resume an air pollution control program that meets the requirements of subsection (3).

(12) A municipality or county may administer all or part of its air pollution control program in cooperation with one or more municipalities or counties of this state or of other states.

(13) Local air pollution control programs established under this section shall provide procedures for public notice, public hearing, public comment, and appeal for any proposed new or revised rules, ordinances, or local laws adopted pursuant to this section. The procedures must comply with the following requirements:

(a) The local air pollution control program shall create and maintain a list of interested persons who wish to be informed of actions related to rules, ordinances, or local laws adopted by the local air pollution control program.

(b) At least 30 days prior to the adoption, revision, or repeal of a rule, ordinance, or law, the local air pollution control program shall give written notice of its intended action.

(c) The notice required under subsection (13)(b) must include:

(i) a statement of the terms or substance of the intended action or a description of the subjects and issues affected by the intended action;

(ii) an explanation of the procedure for a person to be included on the list of interested persons established pursuant to subsection (13)(a);

(iii) an explanation of the procedures and deadlines for presentation of oral or written comments related to the intended action;

(iv) an explanation of the process for requesting a public hearing as provided in subsection (13)(f); and

(v) the rationale for the intended action. The rationale must:

(A) include an explanation of why the intended action is reasonably necessary to implement the goals and purposes of the local air pollution control program;

(B) specifically address those intended actions for which there are no similar state or federal regulations or guidelines; and

(C) be written in plain, easily understood language.

(d) For the purposes of subsection (13)(c)(v), a statement of authority to adopt a rule, ordinance, or local law does not, standing alone, constitute a showing of reasonable necessity for the intended action.

(e) The local air pollution control program shall mail a copy of the proposed rule, ordinance, or local law to all interested persons on the list established pursuant to subsection (13)(a) who have made timely requests to be included on the list.

(f) If at least 10 of the persons who will be directly affected by the proposed rule, ordinance, or local law request a public hearing, the local air pollution control program shall hold a hearing to hear comments from the public on the intended action.

(g) The local air pollution control program shall prepare a written response to all comments submitted in writing or presented at the public hearing for consideration prior to adoption, revision, or repeal of the proposed rule, ordinance, or local law.

(h) A person who submits a written comment on a proposed action or who attends a public hearing in regard to a proposed action must be informed of the final action.

(2) Federal aid granted to the state for developing or maintaining a local air pollution control program that is subsequently granted to a local program is not considered state aid.

(3) Subdivisions of the state may make application for, receive, administer, and expend any federal aid for the control of air pollution or the development and administration of programs related to air pollution control, provided the program is currently approved by the board under 75-2-301.

Part 4
Enforcement, Appeal, and Penalties

75-2-401. Enforcement — notice — order for corrective action — administrative penalty. (1) When the department believes that a violation of this chapter, a rule adopted under this chapter, or a condition or limitation imposed by a permit issued pursuant to this chapter has occurred, it may cause written notice to be served personally or by certified mail on the alleged violator or the violator's agent. The notice must specify the provision of this chapter, the rule, or the permit condition or limitation alleged to be violated and the facts alleged to constitute a violation. The notice may include an order to take necessary corrective action within a reasonable period of time stated in the order or an order to pay an administrative penalty, or both. The order becomes final unless, within 30 days after the notice is received, the person named requests in writing a hearing before the board. On receipt of the request, the board shall schedule a hearing.

(2) If, after a hearing held under subsection (1), the board finds that violations have occurred, it shall issue an appropriate order for the prevention, abatement, or control of the emissions involved or for the taking of other corrective action or assess an administrative penalty, or both. As appropriate, an order issued as part of a notice or after a hearing may prescribe the date by which the violation must cease; time limits for particular action in preventing, abating, or controlling the emissions; or the date by which the administrative penalty must be paid. If, after a hearing on an order contained in a notice, the board finds that a violation has not occurred or is not occurring, it shall rescind the order.

(3) (a) An action initiated under this section may include an administrative civil penalty of not more than $10,000 for each day of each violation, not to exceed a total of $80,000. If an order issued by the board under this section requires the payment of an administrative civil penalty, the board shall state findings and conclusions describing the basis for its penalty assessment.

(b) Administrative penalties collected under this section must be deposited in the alternative energy revolving loan account established in 75-25-101.

(c) Penalties imposed by an administrative order under this section may not be assessed for any day of violation that occurred more than 12 months prior to the issuance of the initial notice and order by the department under subsection (1).

(d) In determining the amount of penalty to be assessed for an alleged violation under this section, the department or board, as appropriate, shall consider:

(i) the alleged violator's ability to pay and the economic impact of the penalty on the alleged violator;

(ii) the alleged violator's full compliance history and good faith efforts to comply;

(iii) the duration of the violation as established by any credible evidence, including evidence other than the applicable test method;

(iv) payment by the violator of penalties previously assessed for the same violation;

(v) the economic benefit of noncompliance;

(vi) the seriousness of the violation; and

(vii) other matters as justice may require.

(4) The contested case provisions of the Montana Administrative Procedure Act, Title 2, chapter 4, part 6, apply to a hearing conducted under this section.

(5) Instead of issuing the order provided for in subsection (1), the department may either:

(a) require that the alleged violators appear before the board for a hearing at a time and place specified in the notice and answer the charges complained of; or

(b) initiate action under 75-2-412 or 75-2-413.

(6) This chapter does not prevent the board or department from making efforts to obtain voluntary compliance through warning, conference, or any other appropriate means.

(7) In connection with a hearing held under this section, the board may and on application by a party shall compel the attendance of witnesses and the production of evidence on behalf of the parties.

75-2-402. Emergency procedure. (1) Any other law to the contrary notwithstanding, if the department finds that a generalized condition of air pollution exists and that it creates an emergency requiring immediate action to protect human health or safety, the department shall order persons causing or contributing to the air pollution to immediately reduce or discontinue the emission of air contaminants. Upon issuance of this order, the department shall fix a place and time within 24 hours for a hearing to be held before the board. Within 24 hours after the commencement of the hearing and without adjournment, the board shall affirm, modify, or set aside the order of the department.

(2) In the absence of a generalized condition such as that referred to in subsection (1), if the department finds that emissions from the operation of one or more air contaminant sources are causing imminent danger to human health or safety, it may order the person responsible for the operation in question to reduce or discontinue emissions immediately, without regard for 75-2-401. In this event, the requirements for hearing and affirmance, modification, or setting aside of orders as provided in subsection (1) apply.

(3) This section does not limit any power which the governor or any other officer may have to declare an emergency and act on the basis of this declaration, whether the power is conferred by statute or constitutional provisions or inheres in the office.

(4) Nothing in 75-2-205 may be construed to require a hearing before the issuance of an emergency order pursuant to this section.

(a) an air contaminant source is located or is being constructed or installed;

(b) an emissions-related activity is conducted, such as air contaminant emissions or ambient concentration sampling, testing, or monitoring, or an activity in which samples are gathered, processed, or stored; or

(c) records are kept as required under this chapter or a rule, order, or permit made or issued under this chapter, for the purpose of inspecting those records. The authority granted under this subsection (c) does not limit the department's right to inspect any property, premises, or place, except a private residence, under subsections (1)(a) and (1)(b) if records are also kept at those sites.

(2) A person may not refuse entry or access to an authorized representative of the department who presents appropriate credentials when the department requests entry for purposes of inspection. A person may not obstruct, hamper, or interfere with an inspection.

(3) The department or an authorized representative must be provided access and must be allowed to copy, at reasonable times, any record that is required to be kept under this chapter or a rule, order, or permit made or issued under this chapter.

(6) At the owner's or operator's request, the owner or operator of the premises shall receive a report stating all facts found that relate to compliance status.

(7) Inspections under this section must be conducted in compliance with all applicable federal or state rules or requirements for workplace safety and with all source-specific facility workplace safety rules or requirements. (b) The appeal shall be taken by serving a written notice of appeal upon the chairman of the board, which service shall be made by the delivery of a copy of the notice to the chairman and by filing the original with the clerk of the court to which the appeal is taken. Immediately upon receiving the certified record, the district court shall fix a day for filing of briefs and hearing arguments on the cause and shall cause a notice of the same to be served upon the board and the appellant.

(c) The court shall hear and decide the cause upon the record of the board. (b) An action under subsection (1) or to enforce this chapter or a rule, order, or permit made or issued under this chapter may be brought in the district court of any county where a violation occurs or is threatened if the defendant cannot be located in Montana.

(3) If the department has notified a person operating a commercial hazardous waste incinerator of a violation and if the department makes a prima facie showing that the conduct or events giving rise to the violations are likely to have continued or recurred past the date of notice, the days of violation are presumed to include the date of the notice and every day after the notice until the person establishes that continuous compliance has been achieved. This presumption may be overcome to the extent that the person operating a commercial hazardous waste incinerator can prove by a preponderance of evidence that there were intervening days when a violation did not occur, that the violation was not continuing in nature, or that the telemetering device was compromised or otherwise tampered with.

(4) Money collected under this section must be deposited in the alternative energy revolving loan account established in 75-25-101. This subsection does not apply to money collected by an approved local air pollution control program.

(a) a stationary source (other than a primary nonferrous smelter that has received a nonferrous smelter order under 42 U.S.C. 7419) that is not in compliance with any emission limitation specified in an order of the board, emission standard, or compliance schedule under the state implementation plan approved by the federal environmental protection agency;

(b) a stationary source that is not in compliance with an emission limitation, emission standard, standard of performance, or other requirement under this chapter or 42 U.S.C. 7411, 7412, 7477, or 7603;

(c) a stationary source that is not in compliance with any other requirement under this chapter or any requirement of Subchapter V of the federal Clean Air Act, 42 U.S.C. 7661, et seq.; or

(d) any source referred to in subsections (1)(a), (1)(b), or (1)(c) that has been granted an exemption, extension, or suspension under subsection (2) or that is covered by a compliance order, or a primary nonferrous smelter that has received a primary nonferrous smelter order under 42 U.S.C. 7419, if that source is not in compliance with any interim emission control requirement or schedule of compliance under the extension, order, or suspension.

(2) Notwithstanding the requirements of subsection (1), the department may, after notice and opportunity for a public hearing, exempt any source from the requirements of 75-2-421 through 75-2-429 with respect to a particular instance of noncompliance that:

(a) the department finds is de minimis in nature and in duration;

(b) is caused by conditions beyond the reasonable control of the source and is of no demonstrable advantage to the source; or

(c) is exempt under 42 U.S.C. 7420(a)(2)(B) of the federal Clean Air Act.

(3) Any person who is jointly or severally adversely affected by the department's decision may request, within 15 days after the department renders its decision, upon affidavit setting forth the grounds for it, a hearing before the board. A hearing must be held under the provisions of the Montana Administrative Procedure Act, Title 2, chapter 4, part 6.

75-2-422. Amount of noncompliance penalty — late charge. (1) The amount of the penalty which shall be assessed and collected with respect to any source under 75-2-421 through 75-2-429 shall be equal to:

(a) the amount determined in accordance with the rules adopted by the board, which shall be no less than the economic value which a delay in compliance after July 1, 1979, may have for the owner of such source, including the quarterly equivalent of the capital costs of compliance and debt service over a normal amortization period not to exceed 10 years, operation and maintenance costs foregone as a result of noncompliance, and any additional economic value which such a delay may have for the owner or operator of such source; minus

(b) the amount of any expenditure made by the owner or operator of that source during any such quarter for the purpose of bringing that source into and maintaining compliance with such requirement, to the extent that such expenditures have not been taken into account in the calculation of the penalty under subsection (1)(a).

(2) To the extent that any expenditure under subsection (1)(b) made during any quarter is not subtracted for such quarter from the costs under subsection (1)(a), such expenditure may be subtracted for any subsequent quarter from such costs. In no event may the amount paid be less than the quarterly payment minus the amount attributed to actual cost of construction.

(3) If the owner or operator of any stationary source to whom notice is issued under 75-2-425 does not submit a timely petition under 75-2-425(2)(b) or submits a petition which is denied and if the owner or operator fails to submit a calculation of the penalty assessment, a schedule for payment, and the information necessary for independent verification thereof, the department may enter into a contract with any person who has no financial interest in the matter to assist in determining the amount of the penalty assessment or payment schedule with respect to such source. The cost of carrying out such contract may be added to the penalty to be assessed against the owner or operator of such source.

(4) Any person who fails to pay the amount of any penalty with respect to any source under 75-2-421 through 75-2-429 on a timely basis shall be required to pay in addition a quarterly nonpayment penalty for each quarter during which such failure to pay persists. Such nonpayment penalty shall be equal to 20% of the aggregate amount of such person's penalties and nonpayment penalties with respect to such source which are unpaid as of the beginning of such quarter.

75-2-423. Manner of making payment. (1) The assessed penalty required under 75-2-421 through 75-2-429 shall be paid in quarterly installments for the period of covered noncompliance. All quarterly payments, determined without regard to any adjustment or any subtraction under 75-2-422(1)(b), after the first payment shall be equal.

(2) The first payment shall be due on the date 6 months after the date of issuance of the notice of noncompliance under 75-2-425 with respect to any source. Such first payment shall be in the amount of the quarterly installment for the upcoming quarter, plus the amount owed for any preceding period within the period of covered noncompliance for such source.

(3) For the purpose of this section, the term "period of covered noncompliance" means the period which begins on the date of issuance of the notice of noncompliance under 75-2-425 and ends on the date on which such source comes into or, for the purpose of establishing the schedule of payments, is estimated to come into compliance with such requirement.

History: En. Sec. 9, Ch. 560, L. 1979.

75-2-424. Adjustment of fee. (1) The department shall adjust from time to time the amount of the penalty assessment calculated or the payment schedule proposed by such owner or operator under 75-2-425(2)(a) if the department finds after notice and opportunity for a hearing on the record that the penalty or schedule does not meet the requirements of 75-2-421 through 75-2-429.

(2) Upon making a determination that a source with respect to which a penalty has been paid under 75-2-421 through 75-2-429 is in compliance and is maintaining compliance with the applicable requirement, the department shall review the actual expenditures made by the

owner or operator of such source for the purpose of attaining and maintaining compliance and shall make a final adjustment within 180 days after such source comes into compliance and:

(a) provide reimbursement with interest to be paid by the state at appropriate prevailing rates for overpayment by such person; or

(b) assess and collect an additional payment with interest at appropriate prevailing rates for any underpayment by such person.

(2) Each person to whom notice has been given pursuant to subsection (1) shall:

(a) calculate the amount of penalty owed (determined in accordance with 75-2-422(1)) and the schedule of payments (determined in accordance with 75-2-423) for each source and, within 45 days after issuance of the notice of noncompliance, submit that calculation and proposed schedule, together with the information necessary for an independent verification thereof, to the department; or

(b) submit to the board a petition within 45 days after the issuance of such notice, challenging such notice of noncompliance or alleging entitlement to an exemption under 75-2-421(2) with respect to a particular source.

(3) Each person to whom notice of noncompliance is given shall pay the department the amount determined under 75-2-422 as the appropriate penalty unless there has been a final determination granting a petition filed pursuant to subsection (2)(b).

75-2-504. Facility permits — fee. (1) The department shall provide by rule a procedure for the issuance of an annual asbestos project permit to any facility that has an asbestos health and safety program meeting department criteria and that continuously employs accredited asbestos workers. This permit allows a facility to conduct asbestos projects within the confines of the facility's controlled area during the period for which the permit is in force. The provisions of this permit may not preclude state and federal requirements for asbestos project notification.

(2) The fee for a facility permit must reflect the actual cost of the department's application review, permit issuance, and facility inspections.

In the case of a continuing violation, each day the violation continues constitutes a separate violation.

(2) An action under this section is not a bar to enforcement by injunction or other appropriate civil or administrative remedies.

History: En. Sec. 9, Ch. 581, L. 1989; amd. Sec. 2, Ch. 596, L. 1991; amd. Sec. 2, Ch. 293, L. 1999.

75-2-515. Administrative enforcement. (1) The department may deny, suspend, or revoke the accreditation of a person that:

(a) fraudulently or deceptively obtains or attempts to obtain accreditation;

(b) fails to meet the qualifications for accreditation or fails to comply with the requirements of this part, a rule adopted under this part, or a permit or order issued under this part; or

(c) fails to meet an applicable federal or state standard for asbestos projects.

(2) When the department believes that a violation of this part, a rule adopted under this part, or a permit or order issued under this part has occurred, it may serve written notice of the violation personally or by certified mail on the alleged violator or the violator's agent. The notice must specify the provision of this part or the rule, permit, or order alleged to be violated and the facts alleged to constitute a violation. The notice may include an order to take necessary corrective action within a reasonable period of time stated in the order, or an order to pay an administrative civil penalty, or both. An order becomes final unless, within 30 days after the order is received, the person that has been named requests, in writing, a hearing before the board.

(3) On receipt of a hearing request, the board shall schedule a hearing. The contested case provisions of the Montana Administrative Procedure Act, Title 2, chapter 4, part 6, apply to any hearing conducted under this section. If, after a hearing, the board finds that a violation has not occurred or is not occurring, it shall rescind the order.

(4) (a) An action initiated under this section may include an administrative civil penalty of not more than $10,000 for each day of each violation, not to exceed a total of $80,000. Any order issued by the department under this section requiring payment of an administrative civil penalty must specify the basis for the penalty assessment.

(b) A penalty may not be assessed under this section for any day of violation that occurred more than 3 years prior to the department issuing the order requiring payment of the penalty.

(c) In determining the amount of a penalty assessed to a person under this section, the department shall consider:

(i) the seriousness of the violation;

(ii) the duration of the violation;

(iii) any economic benefit derived from the violation;

(iv) the person's good faith efforts to comply with the requirements in question;

(v) the person's compliance history;

(vi) the person's ability to pay a penalty; and

(vii) other matters as justice may require.

(5) In addition to or instead of issuing an order under subsection (2), the department may:

(a) require the alleged violator to appear before the board for a hearing at a time and place specified in the notice of hearing to answer the charges complained of; or

(b) initiate action under 75-2-514.

History: En. Sec. 3, Ch. 293, L. 1999.

If the employee or agent of the department takes a sample of any suspected asbestos-containing material, prior to leaving the premises, the employee or agent shall give to the person in charge of the asbestos project a receipt describing the sample taken and, if requested, a portion of each sample equal in volume or weight to the portion retained. If an analysis is made of the samples, a copy of the results of the analysis must be furnished to the person in charge of the asbestos project.

75-3-605. Public information and education. The department shall initiate and administer a program designed to educate and inform the public concerning radon gas and radon progeny. The program must include but is not limited to:

(1) public presentations to interested parties;

(2) developing, reproducing, and distributing printed materials to homeowners and other interested groups;

(3) responding to telephone inquiries on a maintained toll-free telephone number;

"RADON GAS: RADON IS A NATURALLY OCCURRING RADIOACTIVE GAS THAT, WHEN IT HAS ACCUMULATED IN A BUILDING IN SUFFICIENT QUANTITIES, MAY PRESENT HEALTH RISKS TO PERSONS WHO ARE EXPOSED TO IT OVER TIME. LEVELS OF RADON THAT EXCEED FEDERAL GUIDELINES HAVE BEEN FOUND IN BUILDINGS IN MONTANA. ADDITIONAL INFORMATION REGARDING RADON AND RADON TESTING MAY BE OBTAINED FROM YOUR COUNTY OR STATE PUBLIC HEALTH UNIT."

(2) Whenever a seller knows that a building has been tested for radon gas and radon progeny, the seller shall provide to the buyer, prior to or upon entry into a contract for the purchase of that building, a copy of the results of that test and evidence of any subsequent mitigation or treatment. A prospective buyer who contracts for the testing may receive the results of that testing. The furnishing of test results and evidence of mitigation or treatment is not to be construed as a promise, warranty, or representation of any sort by the seller or the seller's agent that the test results are accurate or that the mitigation or treatment is effective.

This section does not create a contingency on the purchase of the property or any right to rescind a contract for purchase unless the contingency or right to rescind is an express term of the applicable contract.

(3) A seller or seller's agent who complies with subsections (1) and (2) is not liable in any action based on the presence of radon gas or radon progeny in the building.

History: En. Sec. 6, Ch. 527, L. 1993; amd. Sec. 2, Ch. 185, L. 1995.

(24) "Point source" means a discernible, confined, and discrete conveyance, including but not limited to any pipe, ditch, channel, tunnel, conduit, well, discrete fissure, container, rolling stock, or vessel or other floating craft, from which pollutants are or may be discharged.

(25) (a) "Pollution" means:

(i) contamination or other alteration of the physical, chemical, or biological properties of state waters that exceeds that permitted by Montana water quality standards, including but not limited to standards relating to change in temperature, taste, color, turbidity, or odor; or

(ii) the discharge, seepage, drainage, infiltration, or flow of liquid, gaseous, solid, radioactive, or other substance into state water that will or is likely to create a nuisance or render the waters harmful, detrimental, or injurious to public health, recreation, safety, or welfare, to livestock, or to wild animals, birds, fish, or other wildlife.

(b) A discharge, seepage, drainage, infiltration, or flow that is authorized under the pollution discharge permit rules of the board is not pollution under this chapter. The department shall be served in any such action and may intervene as a party therein. Any information not intended to be public when submitted to the board or department shall be submitted in writing and clearly marked as confidential. The data describing physical and chemical characteristics of a waste discharged to state waters shall not be considered confidential. The board may use any information in compiling or publishing analyses or summaries relating to water pollution if such analyses or summaries do not identify any owner or operator of a source of pollution or reveal any information which is otherwise made confidential by this section.

75-5-106. Interagency cooperation — enforcement authorization. (1) The council, board, and department may require the use of records of all state agencies and may seek the assistance of the agencies. When the department's review of a permit application submitted under another chapter or title is required or requested, the department shall coordinate the review under this chapter with the review conducted by the agency or unit under the other chapter, following the time schedule for that review. State, county, and municipal officers and employees, including sanitarians and other employees of local departments of health, shall cooperate with the council, board, and department in furthering the purposes of this chapter, so far as is practicable and consistent with their other duties.

(2) The department may authorize a local water quality district established according to the provisions of Title 7, chapter 13, part 45, to enforce the provisions of this chapter and rules adopted under this chapter on a case-by-case basis. If a local water quality district requests the authorization, the local water quality district shall present appropriate documentation to the department that a person is violating permit requirements established by the department or may be causing pollution, as defined in 75-5-103, of state waters or placing or causing to be placed wastes in a location where they are likely to cause pollution of state waters. The board may adopt rules regarding the granting of enforcement authority to local water quality districts.

Administrative Agencies

75-5-201. Board rules authorized. (1) The board shall, subject to the provisions of 75-5-203, adopt rules for the administration of this chapter.

(2) The board's rules may include a fee schedule or system for assessment of administrative penalties as provided under 75-5-611.

75-5-203. State regulations no more stringent than federal regulations or guidelines. (1) After April 14, 1995, except as provided in subsections (2) through (5) or unless required by state law, the board may not adopt a rule to implement this chapter that is more stringent than the comparable federal regulations or guidelines that address the same circumstances. The board may incorporate by reference comparable federal regulations or guidelines.

(2) The board may adopt a rule to implement this chapter that is more stringent than comparable federal regulations or guidelines only if the board makes a written finding after a public hearing and public comment and based on evidence in the record that:

(a) the proposed state standard or requirement protects public health or the environment of the state; and

(b) the state standard or requirement to be imposed can mitigate harm to the public health or environment and is achievable under current technology.

(3) The written finding must reference information and peer-reviewed scientific studies contained in the record that forms the basis for the board's conclusion. The written finding must also include information from the hearing record regarding the costs to the regulated community that are directly attributable to the proposed state standard or requirement.

(4) (a) A person affected by a rule of the board adopted after January 1, 1990, and before April 14, 1995, that that person believes to be more stringent than comparable federal

regulations or guidelines may petition the board to review the rule. If the board determines that the rule is more stringent than comparable federal regulations or guidelines, the board shall comply with this section by either revising the rule to conform to the federal regulations or guidelines or by making the written finding, as provided under subsection (2), within a reasonable period of time, not to exceed 12 months after receiving the petition. A petition under this section does not relieve the petitioner of the duty to comply with the challenged rule. The board may charge a petition filing fee in an amount not to exceed $250.

(b) A person may also petition the board for a rule review under subsection (4)(a) if the board adopts a rule after January 1, 1990, in an area in which no federal regulations or guidelines existed and the federal government subsequently establishes comparable regulations or guidelines that are less stringent than the previously adopted board rule.

(5) This section does not apply to a rule adopted under the emergency rulemaking provisions of 2-4-303(1).

(2) (a) In the implementation of subsection (1)(a), the department shall, at intervals not to exceed 5 years, compile and when necessary, update department organizational information, statutes, rules, permitting information, standards, and bulletins related to water quality. The first compilation must be complete and made available in hard copy and for electronic access by January 31, 2000.

The secretary shall keep records of all actions taken by the council.

(2) Meetings must be held at the call of the presiding officer or on written request of two or more members.

(3) Each member may, by filing with the secretary, designate a deputy or alternate to perform the member's duties.

(4) The council shall act only in an advisory capacity to the department on matters relating to water pollution.

(5) The director of the department may designate other persons to participate with council members in evaluating particular issues arising under this chapter that are brought before the council.

Classification and Standards

75-5-301. Classification and standards for state waters. Consistent with the provisions of 80-15-201 and this chapter, the board shall:

(1) establish the classification of all state waters in accordance with their present and future most beneficial uses, creating an appropriate classification for streams that, due to sporadic flow, do not support an aquatic ecosystem that includes salmonid or nonsalmonid fish;

(2) (a) formulate and adopt standards of water quality, giving consideration to the economics of waste treatment and prevention. When rules are adopted regarding temporary standards, they must conform with the requirements of 75-5-312.

(b) Standards adopted by the board must meet the following requirements:

(i) for carcinogens, the water quality standard for protection of human health must be the value associated with an excess lifetime cancer risk level, assuming continuous lifetime exposure, not to exceed 1 x 10-3 in the case of arsenic and 1 x 10-5 for other carcinogens. However, if a standard established at a risk level of 1 x 10-3 for arsenic or 1 x 10-5 for other carcinogens violates the maximum contaminant level obtained from 40 CFR, part 141, then the maximum contaminant level must be adopted as the standard for that carcinogen.

(ii) standards for the protection of aquatic life do not apply to ground water.

(3) review, from time to time at intervals of not more than 3 years and, to the extent permitted by this chapter, revise established classifications of waters and adopted standards of water quality;

(4) adopt rules governing the granting of mixing zones, requiring that mixing zones granted by the department be specifically identified and requiring that mixing zones have:

(a) the smallest practicable size;

(b) a minimum practicable effect on water uses; and

(c) definable boundaries;

(5) adopt rules implementing the nondegradation policy established in 75-5-303, including but not limited to rules that:

(a) provide a procedure for department review and authorization of degradation;

(b) establish criteria for the following:

(i) determining important economic or social development; and

(ii) weighing the social and economic importance to the public of allowing the proposed project against the cost to society associated with a loss of water quality;

(c) establish criteria for determining whether a proposed activity or class of activities, in addition to those activities identified in 75-5-317, will result in nonsignificant changes in water quality for any parameter in order that those activities are not required to undergo review under 75-5-303(3). These criteria must be established in a manner that generally:

(i) equates significance with the potential for harm to human health, a beneficial use, or the environment;

(ii) considers both the quantity and the strength of the pollutant;

(iii) considers the length of time the degradation will occur;

(iv) considers the character of the pollutant so that greater significance is associated with carcinogens and toxins that bioaccumulate or biomagnify and lesser significance is associated with substances that are less harmful or less persistent.

(d) provide that changes of nitrate as nitrogen in ground water are nonsignificant if the discharge will not cause degradation of surface water and the predicted concentration of nitrate as nitrogen at the boundary of the ground water mixing zone does not exceed:

(i) 7.5 milligrams per liter from sources other than sewage;

(ii) 5.0 milligrams per liter from sewage discharged from a system that does not use level two treatment in an area where the ground water nitrate as nitrogen is 5.0 milligrams per liter or less;

(iii) 7.5 milligrams per liter from sewage discharged from a system using level two treatment, which must be defined in the rules; or

(iv) 7.5 milligrams per liter from sewage discharged from a system in areas where the ground water nitrate as nitrogen level exceeds 5.0 milligrams per liter primarily from sources other than human waste.

(6) to the extent practicable, ensure that the rules adopted under subsection (5) establish objective and quantifiable criteria for various parameters. These criteria must, to the extent practicable, constitute guidelines for granting or denying applications for authorization to degrade high-quality waters under the policy established in 75-5-303(2) and (3).

(7) adopt rules to implement this section.

75-5-302. Revised classifications not to lower water quality standards — exception. (1) Except as provided in subsection (2), in revising classifications or standards or in adopting new classifications or standards, the board may not formulate standards of water quality or classify state water in a manner that lowers the water quality standard applicable to state water below the level applicable under the classifications and standards adopted unless the board finds that a particular state water has been classified under a standard or classification of water quality that is higher than the actual water quality that existed at the time of classification and only if the action is taken pursuant to 75-5-307. When the board or department is presented with facts indicating that a body of water is misclassified, the board shall, within 90 days, initiate rulemaking to correct the misclassification.

(2) Establishment of a temporary water quality standard or classification does not require a finding that the affected state water was classified under a standard or classification that was higher than the actual water quality that existed at the time of the prior classification.

History: En. Sec. 6, Ch. 21, L. 1971; amd. Sec. 2, Ch. 506, L. 1973; amd. Sec. 62, Ch. 349, L. 1974; amd. Sec. 5, Ch. 455, L. 1975; amd. Sec. 3, Ch. 444, L. 1977; R.C.M. 1947, 69-4808.2(1)(c)(i); amd. Sec. 6, Ch. 497, L. 1995; amd. Sec. 2, Ch. 539, L. 1995.

75-5-303. Nondegradation policy. (1) Existing uses of state waters and the level of water quality necessary to protect those uses must be maintained and protected.

(2) Unless authorized by the department under subsection (3) or exempted from review under 75-5-317, the quality of high-quality waters must be maintained.

(3) The department may not authorize degradation of high-quality waters unless it has been affirmatively demonstrated by a preponderance of evidence to the department that:

(a) degradation is necessary because there are no economically, environmentally, and technologically feasible modifications to the proposed project that would result in no degradation;

(b) the proposed project will result in important economic or social development and that the benefit of the development exceeds the costs to society of allowing degradation of high-quality waters;

(c) existing and anticipated use of state waters will be fully protected; and

(d) the least degrading water quality protection practices determined by the department to be economically, environmentally, and technologically feasible will be fully implemented by the applicant prior to and during the proposed activity.

(4) The department shall issue a preliminary decision either denying or authorizing degradation and shall provide public notice and a 30-day comment period prior to issuing a final decision. The department's preliminary and final decisions must include:

(a) a statement of the basis for the decision; and

(b) a detailed description of all conditions applied to any authorization to degrade state waters, including, when applicable, monitoring requirements, required water protection practices, reporting requirements, effluent limits, designation of the mixing zones, the limits of degradation authorized, and methods of determining compliance with the authorization for degradation.

(5) An interested person wishing to challenge a final department decision may request a hearing before the board within 30 days of the final department decision. The contested case procedures of Title 2, chapter 4, part 6, apply to a hearing under this section.

(6) Periodically, but not more often than every 5 years, the department may review authorizations to degrade state waters. Following the review, the department may, after timely notice and opportunity for hearing, modify the authorization if the department determines that an economically, environmentally, and technologically feasible modification to the development exists. The decision by the department to modify an authorization may be appealed to the board.

(7) The board may not issue an authorization to degrade state waters that are classified as outstanding resource waters.

(8) The board shall adopt rules to implement this section.

(a) adopt pretreatment standards for wastewater discharged into a municipal disposal system;

(b) adopt effluent standards as defined in 75-5-103;

(c) adopt toxic effluent standards and prohibitions; and

(d) establish standards of performance for new point source discharges.

(2) In taking action under subsection (1), the board shall ensure that the standards are cost-effective and economically, environmentally, and technologically feasible.

75-5-305. Adoption of requirements for treatment of wastes — variance procedure — appeals. (1) The board may establish minimum requirements for the treatment of wastes. For cases in which the federal government has adopted technology-based treatment requirements for a particular industry or activity in 40 CFR, chapter I, subchapter N, the board shall adopt those requirements by reference. To the extent that the federal government has not adopted minimum treatment requirements for a particular industry or activity, the board may do so, through rulemaking, for parameters likely to affect beneficial uses, ensuring that the requirements are cost-effective and economically, environmentally, and technologically feasible. Except for the technology-based treatment requirements set forth in 40 CFR, chapter I, subchapter N, minimum treatment may not be required to address the discharge of a parameter when the discharge is considered nonsignificant under rules adopted pursuant to 75-5-301.

(2) The board shall establish minimum requirements for the control and disposal of sewage from private and public buildings, including standards and procedures for variances from the requirements.

(3) An applicant for a variance from minimum requirements adopted by a local board of health pursuant to 50-2-116(1)(i) may appeal the local board of health's final decision to the department by submitting a written request for a hearing within 30 days after the decision. The written request must describe the activity for which the variance is requested, include copies of all documents submitted to the local board of health in support of the variance, and specify the reasons for the appeal of the local board of health's final decision.

(4) The department shall conduct a hearing on the request pursuant to Title 2, chapter 4, part 6. Within 30 days after the hearing, the department shall grant, conditionally grant, or deny the variance. The department shall base its decision on the board's standards for a variance.

(5) A decision of the department pursuant to subsection (4) is appealable to district court under the provisions of Title 2, chapter 4, part 7.

75-5-306. Purer than natural unnecessary — dams. (1) It is not necessary that wastes be treated to a purer condition than the natural condition of the receiving stream as long as the minimum treatment requirements established under this chapter are met.

(2) "Natural" refers to conditions or material present from runoff or percolation over which man has no control or from developed land where all reasonable land, soil, and water conservation practices have been applied. Conditions resulting from the reasonable operation of dams at July 1, 1971, are natural.

History: En. Sec. 121, Ch. 197, L. 1967; amd. Sec. 1, Ch. 21, L. 1971; amd. Sec. 1, Ch. 455, L. 1975; R.C.M. 1947, 69-4801(2).

75-5-307. Hearings required for classification, formulation of standards, and rulemaking. (1) Before streams are classified or standards established or modified or rules made, revoked, or modified, the board shall hold a public hearing. Notice of the hearing specifying the waters concerned and the classification, standards, or modification of them and any rules proposed to be made, revoked, or modified shall be published at least once a week for 3 consecutive weeks in a daily newspaper of general circulation in the area affected. Notice shall also be mailed directly to persons the board believes may be affected by the proposed action. The council shall be given not less than 30 days prior to first publication to comment on the proposed action.

(2) At a hearing held under this section, the board shall give all interested persons reasonable opportunity to submit data, views, or arguments, orally or in writing. The board may make rules for the orderly conduct of the hearing but need not require compliance with the rules of evidence or procedure applicable to hearings held under 75-5-611.

75-5-308. Short-term water authorizations — water quality standards. (1) Because these activities promote the public interest, the department may, if necessary, authorize short-term exemptions from the water quality standards for the following activities:

(a) emergency remediation activities that have been approved, authorized, or required by the department; and

(b) application of a pesticide that is registered by the United States environmental protection agency pursuant to 7 U.S.C. 136(a) when it is used to control nuisance aquatic organisms or to eliminate undesirable and nonnative aquatic species.

(2) An authorization must include conditions that minimize, to the extent practicable, the magnitude of any change in the concentration of the parameters affected by the activity and the length of time during which any change may occur. The authorization must also include conditions that prevent significant risk to public health and that ensure that existing and

designated uses of state water are protected and maintained upon completion of the activity. Authorizations issued under this section may include conditions that require water quality or quantity monitoring and reporting. In the performance of its responsibilities under this section, the department may negotiate operating agreements with other departments of state government that are intended to minimize duplication in review of activities eligible for authorizations under this section.

(3) An authorization to use a pesticide does not relieve a person from the duty to comply with Title 80, chapters 8 and 15. The department may not authorize an exemption from water quality standards for an activity that requires a discharge permit under rules adopted by the board pursuant to 75-5-401.

75-5-309. Standards more stringent than federal standards. (1) In adopting rules to implement this chapter, the board may adopt rules that are more stringent than corresponding draft or final federal regulations, guidelines, or criteria if the board makes written findings, based on sound scientific or technical evidence in the record, which state that rules that are more stringent than corresponding federal regulations, guidelines, or criteria are necessary to protect the public health, beneficial use of water, or the environment of the state.

(2) The board's written findings must be accompanied by a board opinion referring to and evaluating the public health and environmental information and studies contained in the record that forms the basis for the board's conclusion.

History: En. Sec. 1, Ch. 497, L. 1995.

75-5-310. Site-specific standards of water quality for aquatic life. (1) Notwithstanding any other provisions of this chapter and except as provided in subsection (2), the board, upon application by a permit applicant, permittee, or person potentially liable under any state or federal environmental remediation statute, shall adopt site-specific standards of water quality for aquatic life, both acute and chronic, as the standards of water quality required under 75-5-301(2) and (3). The site-specific standards of water quality must be developed in accordance with the procedures set forth in draft or final federal regulations, guidelines, or criteria.

(2) If the department, based upon its review of an application submitted under subsection (1) and sound scientific, technical, and available site-specific evidence, determines that the development of site-specific criteria in accordance with draft or final federal regulations, guidelines, or criteria would not be protective of beneficial uses, the department, within 90 days of the submission of an application under subsection (1), shall notify the applicant in writing of its determination and of all additional procedures that the applicant is required to comply with in the development of site-specific standards of water quality under this section. If there is a dispute between the department and the applicant as to the additional procedures, the board shall, on the request of the department or the applicant, hear and determine the dispute. The board's decision must be based on sound scientific, technical, and available site-specific evidence.

History: En. Sec. 2, Ch. 497, L. 1995.

75-5-311. Local water quality districts — board approval — local water quality programs. (1) A county that establishes a local water quality district according to the procedures specified in Title 7, chapter 13, part 45, shall, in consultation with the department, undertake planning and information-gathering activities necessary to develop a proposed local water quality program.

(2) A county may implement a local water quality program in a local water quality district if the program is approved by the board after a hearing conducted under 75-5-202.

(3) In approving a local water quality program, the board shall determine that the program is consistent with the purposes and requirements of Title 75, chapter 5, and that the program will be effective in protecting, preserving, and improving the quality of surface water and ground water, considering the administrative organization, staff, and financial and other resources available to implement the program.

(4) Subject to the board's approval, the commissioners and the governing bodies of cities and towns that participate in a local water quality district may adopt local ordinances to regulate the following specific facilities and sources of pollution:

(a) onsite waste water disposal facilities;

(b) storm water runoff from paved surfaces;

(c) service connections between buildings and publicly owned sewer mains;

(d) facilities that use or store halogenated and nonhalogenated solvents, including hazardous substances that are referenced in 40 CFR 261.31, United States environmental protection agency hazardous waste numbers F001 through F005, as amended; and

(e) internal combustion engine lubricants.

(5) (a) For the facilities and sources of pollution included in subsection (4) and consistent with the provisions of subsection (6), the local ordinances may:

(i) be compatible with or more stringent or more extensive than the requirements imposed by 75-5-304, 75-5-305, and 75-5-401 through 75-5-404 and rules adopted under those sections to protect water quality, establish waste discharge permit requirements, and establish best management practices for substances that have the potential to pollute state waters;

(ii) provide for administrative procedures, administrative orders and actions, and civil enforcement actions that are consistent with 75-5-601 through 75-5-604, 75-5-611 through 75-5-616, 75-5-621, and 75-5-622 and rules adopted under those sections; and

(iii) provide for civil penalties not to exceed $1,000 per violation, provided that each day of violation of a local ordinance constitutes a separate violation, and criminal penalties not to exceed $500 per day of violation or imprisonment for not more than 30 days, or both.

(b) Board approval of an ordinance or local law that is more stringent than the comparable state law is subject to the provisions of 75-5-203.

(6) The local ordinances authorized by this section may not:

(a) duplicate the department's requirements and procedures relating to permitting of waste discharge sources and enforcement of water quality standards;

(b) regulate any facility or source of pollution to the extent that the facility or source is:

(i) required to obtain a permit or other approval from the department or federal government or is the subject of an administrative order, a consent decree, or an enforcement action pursuant to Title 75, chapter 5, part 4; Title 75, chapter 6; Title 75, chapter 10; the federal Comprehensive Environmental Response, Compensation, and Liability Act of 1980, 42 U.S.C. 9601 through 9675, as amended; or federal environmental, safety, or health statutes and regulations;

(ii) exempted from obtaining a permit or other approval from the department because the facility or source is required to obtain a permit or other approval from another state agency or is the subject of an enforcement action by another state agency; or

(iii) subject to the provisions of Title 80, chapter 8 or chapter 15.

(7) If the boundaries of a district are changed after the board has approved the local water quality program for the district, the board of directors of the local water quality district shall submit a program amendment to the board and obtain the board's approval of the program amendment before implementing the local water quality program in areas that have been added to the district.

(8) The department shall monitor the implementation of local water quality programs to ensure that the programs are adequate to protect, preserve, and improve the quality of the surface water and ground water and are being administered in a manner consistent with the purposes and requirements of Title 75, chapter 5. If the department finds that a local water quality program is not adequate to protect, preserve, and improve the quality of the surface water and ground water or is not being administered in a manner consistent with the purposes and requirements of Title 75, chapter 5, the department shall report to the board.

(9) If the board determines that a local water quality program is inadequate to protect, preserve, and improve the quality of the surface water and ground water in the local water quality district or that the program is being administered in a manner inconsistent with Title 75, chapter 5, the board shall give notice and conduct a hearing on the matter.

(10) If after the hearing the board determines that the program is inadequate to protect, preserve, and improve the quality of the surface water and ground water in the local water quality district or that it is not being administered in a manner consistent with the purposes of Title 75, chapter 5, the board shall require that necessary corrective measures be taken within a reasonable time, not to exceed 60 days.

(11) If an ordinance adopted under this section conflicts with a requirement imposed by the department's water quality program, the department's requirement supersedes the local ordinance.

(12) If the board finds that, because of the complexity or magnitude of a particular water pollution source, the control of the source is beyond the reasonable capability of a local water quality district or may be more efficiently and economically performed at the state level, the board may direct the department to assume and retain control over the source. A charge may not be assessed against the local water quality district for that source. Findings made under this subsection may be based on the nature of the source involved or on the source's relationship to the size of the community in which it is located.

75-5-312. Temporary water quality standards. (1) The board may, upon recommendation of the department or upon a petition for rulemaking, as provided in 2-4-315, by a person, including a permit applicant or permittee, temporarily modify a water quality standard for a specific water body or segment on a parameter-by-parameter basis in those instances in which substantive information indicates that the water body or segment is not supporting its designated uses. When the board adopts temporary standards, the goal is to improve water quality to the point at which all the beneficial uses designated for that water body or segment are supported.

(2) As a condition for establishing temporary water quality standards for a particular water body or segment, the department or the petitioner, as applicable, shall prepare a support document and a preliminary implementation plan for use by the board in determining whether to adopt the proposed temporary water quality standards. A person shall submit a support document and a preliminary implementation plan to the department for its review at least 60 days prior to filing a petition with the board requesting the adoption of temporary water quality standards.

(3) The support document prepared by the department or the petitioner, as applicable, must describe:

(a) the chemical, biological, and physical condition of the water body or segment;

(b) the specific water quality limiting factors affecting the water body or segment;

(c) the existing water quality standards that are not being achieved;

(d) the temporary modifications to the existing water quality standards being requested;

(e) existing beneficial uses; and

(f) the designated uses considered attainable in the absence of the water quality limiting factors.

(4) The preliminary implementation plan prepared by the department or the petitioner, as applicable, must contain:

(a) a description of the proposed actions that will eliminate the water quality limiting factors identified in subsection (3)(b) to the extent considered achievable; and

(b) a schedule for implementing the proposed actions that ensures that the existing water quality standards for the parameter or parameters at issue are met as soon as reasonably practicable.

(5) Within 30 days after the board's adoption of temporary water quality standards, the department or the petitioner, as applicable, shall:

(a) modify the preliminary implementation plan and schedule to reflect the requirements and timeframe adopted by the board for the temporary standards; and

(b) develop a detailed work plan describing the implementation activities that will be conducted during the first field season of the temporary standards. The work plan must be approved by the director of the department.

(6) By March 1 of each year that the temporary water quality standards are in effect, the department or the petitioner, as applicable, shall submit a detailed work plan describing the implementation activities that will be conducted during that season. The annual work plans must be approved by the director of the department. The department shall maintain copies of the implementation plan, schedule, and annual work plans and any modifications to those plans and schedule.

(7) Upon the board's adoption of a temporary water quality standard, the department shall ensure that reasonable conditions and limitations designed to achieve compliance with the implementation plan are established in appropriate discharge permits.

(8) (a) A temporary modification of a water quality standard may not result in adverse impacts to existing beneficial uses or be established for a total period longer than 20 years.

(b) During the period of the temporary modification, the board may not allow a discharge that will cause overall water quality to become worse than the overall quality of the water body or segment prior to the discharge.

(9) If a state water is designated as having temporary standards, the department shall report to the board at least every 3 years or upon request of the board regarding whether adequate efforts have been made to implement the plans submitted as the basis for the temporary standards.

(10) The board shall review the temporary standards and implementation plan at least every 3 years at a public hearing for which notice and an opportunity for comment have been provided. During this review, the board shall consider the progress made in restoring water quality to a level that achieves the goal of the temporary water quality standards. The board may terminate or modify the temporary standards based on information submitted at the time of review.

(11) The board shall terminate a temporary standard for a parameter if:

(a) values for the modified parameter or parameters improve to conditions that support all designated uses for that classification;

(b) the state water for which the temporary standard is adopted is reclassified as provided for in 75-5-302; or

(c) the plan submitted in support of the temporary water quality standard is not being implemented according to the plan's schedule or modifications to that plan or schedule made by the board or department.

(12) The board or the department may modify the implementation plan if there is convincing evidence that the plan needs modification.

(13) If a temporary standard for a parameter in a particular state water is terminated because the plan submitted in support of the temporary water quality standard is not being implemented according to the plan's schedule or modifications to that schedule made by the board or department, a person may request a new temporary standard by submitting both a petition for rulemaking and an implementation plan that meet the requirements of subsection (4). However, the board may not adopt another temporary standard for the parameter in the state water that would cumulatively be in effect for a total period longer than 20 years for the parameter in the state water.

75-5-313 and 75-5-314 reserved.

75-5-315. Outstanding resource waters — statement of purpose. (1) The legislature, understanding the requirements of applicable federal law and the uniqueness of Montana's water resource, recognizes that certain state waters are of such environmental, ecological, or economic value that the state should prohibit, to the greatest extent practicable, changes to the existing water quality of those waters. Outstanding resource waters must be afforded the greatest protection feasible under state law, after thorough examination.

(2) The purpose of 75-5-316 and this section is to provide this protection and to provide guidance to the board in establishing rules to accomplish that level of protection.

History: En. Sec. 2, Ch. 501, L. 1995.

75-5-316. Outstanding resource water classification — rules — criteria — limitations — procedure. (1) As provided under the provisions of 75-5-301 and this section, the board may adopt rules regarding the classification of waters as outstanding resource waters.

(2) The department may not:

(a) grant an authorization to degrade under 75-5-303 in outstanding resource waters; or

(b) allow a new or increased point source discharge that would result in a permanent change in the water quality of an outstanding resource water.

(3) (a) A person may petition the board for rulemaking to classify waters as outstanding resource waters. The board shall initially review a petition against the criteria identified in subsection (3)(c) to determine whether the petition contains sufficient credible information for the board to accept the petition.

(b) The board may reject a petition without further review if it determines that the petition does not contain the sufficient credible information required by subsection (3)(a). If the board rejects a petition under this subsection (3)(b), it shall specify in writing the reasons for the rejection and the petition's deficiencies.

(c) The board may not adopt a rule classifying state waters as outstanding resource waters until it accepts a petition and finds that, based on a preponderance of the evidence:

(i) the waters identified in the petition constitute an outstanding resource based on the criteria provided in subsection (4);

(ii) the classification is necessary to protect the outstanding resource identified under subsection (3)(a); and

(iii) there is no other effective process available that will achieve the necessary protection.

(4) The board shall consider the following criteria in determining whether certain state waters are outstanding resource waters. However, the board may determine that compliance

with one or more of these criteria is insufficient to warrant classification of the water as an outstanding resource water. The board shall consider:

(a) whether the waters have been designated as wild and scenic;

(b) the presence of endangered or threatened species in the waters;

(c) the presence of an outstanding recreational fishery in the waters;

(d) whether the waters provide the only source of suitable water for a municipality or industry;

(e) whether the waters provide the only source of suitable water for domestic water supply; and

(f) other factors that indicate outstanding environmental or economic values not specifically mentioned in this subsection (4).

(5) After acceptance of a petition, the board shall require the preparation of an environmental impact statement, as provided under Title 75, chapter 1, part 2, when classification as an outstanding resource water may cause significant adverse impacts to the environment, including significant adverse impacts to social or economic values.

(6) The board shall consult with other relevant state agencies when reviewing outstanding resource water classification petitions.

(7) (a) In accordance with 2-4-315, the board may deny an accepted outstanding resource water classification petition if it finds that:

(i) the requirements of subsection (3) have not been met; or

(ii) based on information available to the board from the environmental impact statement or otherwise, approving the outstanding resource waters classification petition would cause significant adverse environmental, social, or economic impacts.

(b) If the board denies the petition, it shall identify its reasons for petition denial.

(8) A rule classifying state waters as outstanding resource waters under this section may be adopted but is not effective until approved by the legislature.

(9) The board may not postpone or deny an application for an authorization to degrade state waters under 75-5-303 based on pending:

(a) board action on an outstanding resource water classification petition regarding those waters; or

(b) legislative approval of board action designating those waters as outstanding resource waters.

(i) incidental leakage of water from a public water supply system, as defined in 75-6-102, or from a public sewage system, as defined in 75-6-102, utilizing best practicable control technology designed and constructed in accordance with Title 75, chapter 6;

(j) discharges of water to ground water from water well or monitoring well tests, hydrostatic pressure and leakage tests, or wastewater from the disinfection or flushing of water mains and storage reservoirs, conducted in accordance with department-approved water quality protection practices;

(k) oil and gas drilling, production, abandonment, plugging, and restoration activities that do not result in discharges to surface water and that are performed in accordance with Title 82, chapter 10, or Title 82, chapter 11;

(l) short-term changes in existing water quality resulting from ordinary and everyday activities of humans or domesticated animals, including but not limited to:

(i) such recreational activities as boating, hiking, hunting, fishing, wading, swimming, and camping;

(p) metallic and nonmetallic mineral exploration that does not result in a discharge to surface water and that is permitted under and performed in accordance with Title 82, chapter 4, parts 3 and 4;

(q) stream-related construction projects or stream enhancement projects that result in temporary changes to water quality but do not result in long-term detrimental effects and that have been authorized pursuant to 75-5-318;

(r) diversions or withdrawals of water established and recognized under Title 85, chapter 2;

(s) the maintenance, repair, or replacement of dams, diversions, weirs, or other constructed works that are related to existing water rights and that are within wilderness areas so long as existing and anticipated beneficial uses are protected and as long as the changes in existing water quality relative to the project are short term; and

(t) any other activity that is nonsignificant because of its low potential for harm to human health or to the environment and its conformance with the guidance found in 75-5-301(5)(c).

75-5-318. Short-term water quality standards for turbidity. (1) Upon authorization by the department or the department of fish, wildlife, and parks pursuant to subsection (4), the short-term water quality standards for total suspended sediment and turbidity resulting from stream-related construction activities or stream enhancement projects are the narrative standards for total suspended sediment adopted by the board under 75-5-301. If a short-term narrative standard is authorized under this section, the numeric standard for turbidity adopted by the board under 75-5-301 does not apply to the affected water body during the term of the narrative standard.

(2) The department shall review each application for short-term standards on a case-by-case basis to determine whether there are reasonable alternatives that preclude the need for a narrative standard. If the department determines that the numeric standard for turbidity adopted by the board under 75-5-301 cannot be achieved during the term of the activity and that there are no reasonable alternatives to achieve the numeric standard, the department may authorize the use of a narrative standard for a specified term.

(3) Each authorization issued by the department must include conditions that minimize, to the extent practicable, the magnitude of any change in water quality and the length of time during which any change may occur. The authorization must also include site-specific conditions that ensure that the activity is not harmful, detrimental, or injurious to public health and the uses of state waters and that ensure that existing and designated beneficial uses of state water are protected and maintained upon completion of the activity. The department may not authorize short-term narrative standards for activities requiring a discharge permit under rules adopted by the board pursuant to 75-5-401. Authorizations issued under this section may include conditions that require water quality or quantity monitoring and reporting.

(4) In the performance of its responsibilities under this section, the department may negotiate operating agreements with other departments of state government that are intended to minimize duplication in review of activities eligible for authorizations under this section. The department of fish, wildlife, and parks may, in accordance with subsections (1), (2), and (3), authorize short-term water quality standards for total suspended sediment and turbidity for any stream construction project that it reviews under Title 75, chapter 7, part 1, or Title 87, chapter 5, part 5.

History: En. Sec. 5, Ch. 588, L. 1999.

Part 4
Permits

75-5-401. Board rules for permits — ground water exclusions. (1) Except as provided in subsection (5), the board shall adopt rules:

(a) governing application for permits to discharge sewage, industrial wastes, or other wastes into state waters, including rules requiring the filing of plans and specifications relating to the construction, modification, or operation of disposal systems;

(b) governing the issuance, denial, modification, or revocation of permits. The board may not require a permit for a water conveyance structure or for a natural spring if the water discharged to state waters does not contain industrial waste, sewage, or other wastes. Discharge to surface water of ground water that is not altered from its ambient quality does not constitute a discharge requiring a permit under this part if:

(i) the discharge does not contain industrial waste, sewage, or other wastes;

(ii) the water discharged does not cause the receiving waters to exceed applicable standards for any parameters; and

(iii) to the extent that the receiving waters in their ambient state exceed standards for any parameters, the discharge does not increase the concentration of the parameters.

(c) governing authorization to discharge under a general permit for storm water associated with construction activity. These rules must allow an owner or operator to notify the department of the intent to be covered under the general permit. This notice of intent must include a signed pollution prevention plan that requires the applicant to implement best management practices in accordance with the general permit. The rules must authorize the owner or operator to discharge under the general permit on receipt of the notice and plan by the department.

(2) The rules must allow the issuance or continuance of a permit only if the department finds that operation consistent with the limitations of the permit will not result in pollution of any state waters, except that the rules may allow the issuance of a temporary permit under which pollution may result if the department ensures that the permit contains a compliance schedule designed to meet all applicable effluent standards and water quality standards in the shortest reasonable period of time.

(3) The rules must provide that the department may revoke a permit if the department finds that the holder of the permit has violated its terms, unless the department also finds that the violation was accidental and unforeseeable and that the holder of the permit corrected the condition resulting in the violation as soon as was reasonably possible.

(4) The board may adopt rules governing reclamation of sites disturbed by construction, modification, or operation of permitted activities for which a bond is voluntarily filed by a permittee pursuant to 75-5-405, including rules for the establishment of criteria and procedures governing release of the bond or other surety and release of portions of a bond or other surety.

(5) Discharges of sewage, industrial wastes, or other wastes into state ground waters from the following activities or operations are not subject to the ground water permit requirements adopted under subsections (1) through (4):

(a) discharges or activities at wells injecting fluids associated with oil and gas exploration and production regulated under the federal underground injection control program;

(b) disposal by solid waste management systems licensed pursuant to 75-10-221;

(c) individuals disposing of their own normal household wastes on their own property;

(d) hazardous waste management facilities permitted pursuant to 75-10-406;

(e) water injection wells, reserve pits, and produced water pits used in oil and gas field operations and approved pursuant to Title 82, chapter 11;

(f) agricultural irrigation facilities;

(g) storm water disposal or storm water detention facilities;

(h) subsurface disposal systems for sanitary wastes serving individual residences;

(i) in situ mining of uranium facilities controlled under Title 82, chapter 4, part 2;

(j) mining operations subject to operating permits or exploration licenses in compliance with The Strip and Underground Mine Reclamation Act, Title 82, chapter 4, part 2, or the metal mine reclamation laws, Title 82, chapter 4, part 3; or

(k) projects reviewed under the provisions of the Montana Major Facility Siting Act, Title 75, chapter 20.

(6) Notwithstanding the provisions of 75-5-301(4), mixing zones for activities excluded from permit requirements under subsection (5) of this section must be established by the permitting agency for those activities in accordance with 75-5-301(4)(a) through (4)(c).

(7) Notwithstanding the exclusions set forth in subsection (5), any excluded source that the department determines may be causing or is likely to cause violations of ground water quality standards may be required to submit monitoring information pursuant to 75-5-602.

(8) The board may adopt rules identifying other activities or operations from which a discharge of sewage, industrial wastes, or other wastes into state ground waters is not subject to the ground water permit requirements adopted under subsections (1) through (4).

(3) clearly specify in any permit any limitations imposed as to the volume, strength, and other significant characteristics of the waste to be discharged; and

(4) establish as conditions to the issuance of permits for which a performance bond or other surety is filed under 75-5-405 certain reclamation requirements sufficient to prevent pollution of state waters during and after operation of the project or activity for which a permit is issued.

History: En. Sec. 7, Ch. 21, L. 1971; amd. Sec. 3, Ch. 506, L. 1973; amd. Sec. 63, Ch. 349, L. 1974; amd. Sec. 6, Ch. 455, L. 1975; amd. Sec. 4, Ch. 444, L. 1977; R.C.M. 1947, 69-4809.1(1)(a) thru (1)(c); amd. Sec. 2, Ch. 412, L. 1991.

75-5-403. Denial or modification of permit — time for review of permit application. (1) The department shall review for completeness all applications for new permits within 60 days of the receipt of the initial application and within 30 days of receipt of responses to notices of deficiencies. The initial completeness notice must note all major deficiency issues, based on the information submitted. The department and the applicant may extend these timeframes, by mutual agreement, by not more than 75 days. An application is considered complete unless the applicant is notified of a deficiency within the appropriate review period.

(2) If the department denies an application for a permit or modifies a permit, the department shall give written notice of its action to the applicant or holder and the applicant or holder may request a hearing before the board, in the manner stated in 75-5-611, for the purpose of petitioning the board to reverse or modify the action of the department. The hearing must be held within 30 days after receipt of written request. After the hearing, the board shall affirm, modify, or reverse the action of the department. If the holder does not request a hearing before the board, modification of a permit is effective 30 days after receipt of notice by the holder unless the department specifies a later date. If the holder does request a hearing before the board, an order modifying the permit is not effective until 20 days after receipt of notice of the action of the board.

History: En. Sec. 14, Ch. 21, L. 1971; amd. Sec. 4, Ch. 455, L. 1975; R.C.M. 1947, 69-4807.1(1); amd. Sec. 10, Ch. 497, L. 1995.

75-5-404. Suspension or revocation of permit — procedure. If the department suspends or revokes a permit because it has reason to believe that the holder has violated this chapter, the department may specify that the suspension or revocation is effective immediately if the department finds that the violation is likely to continue and will cause pollution, the harmful effects of which will not be remedied immediately on the cessation of the violation. Upon petition by the holder of the permit, the board shall grant the holder a hearing, to be conducted in the manner specified in 75-5-611, and shall issue an order affirming, modifying, or reversing the action of the department. The order of the board shall be effective immediately unless the board directs otherwise.

History: En. Sec. 14, Ch. 21, L. 1971; amd. Sec. 4, Ch. 455, L. 1975; R.C.M. 1947, 69-4807.1(2).

75-5-405. Voluntary filing of performance bond — terms — hearing. (1) A person who holds or has applied for a permit pursuant to 75-5-401 may voluntarily file a performance bond or other surety with the department for an amount sufficient to enable the state to reclaim the land disturbed by the project or activity authorized by the permit in accordance with all permit requirements and as needed to prevent pollution of state waters.

(2) If the department determines that the bonding level does not represent the present cost of reclaiming the disturbed land according to the reclamation requirements specified in the

permit and the present cost of preventing pollution of state waters, the department shall notify the permittee and the permittee may modify the amount of the bond to accurately reflect the present cost.

(3) The department may not release all or any portion of a performance bond or other surety filed pursuant to this section until reclamation of the disturbed land has been completed to the satisfaction of the department and the department has determined that pollution of state waters has not occurred. The department may initiate bond forfeiture proceedings if the permittee fails to satisfactorily reclaim the disturbed land or prevent pollution of state waters.

(4) The department may not release a bond or other surety filed pursuant to this section until the public has been provided an opportunity for a hearing.

75-5-511. Sewage system operators authorized to adopt charges and rates for users. (1) A municipality or other entity operating a sewage system may adopt a system of charges and rates to assure that each recipient of treatment works services within the municipality's jurisdiction or service area will pay its proportionate share of the costs of operation, maintenance, and replacement of any treatment works facilities or services provided by the municipality or other entity.

(2) A municipality or other entity operating a sewage system may require industrial users of its treatment works to pay to the municipality or other entity that portion of the cost of construction of the treatment works which is allocable to the treatment of such industrial user's wastes. The department may determine whether the payment required of the industrial user for the portion of the cost of the construction of the treatment works is properly allocable to the treatment of the industrial user's wastes.

History: En. Sec. 14, Ch. 455, L. 1975; R.C.M. 1947, 69-4808.4(1), (2).

(2) future expansion and reconstruction of the treatment works; and

(3) other municipal purposes.

The department may inspect such records, financial statements, and books, audit them or cause them to be audited at such intervals as deemed necessary.

History: En. Sec. 14, Ch. 455, L. 1975; R.C.M. 1947, 69-4808.4(4).

75-5-514. When board to establish rates and collect charges. (1) In the event a municipality or other entity operating sewage systems fails, neglects, or refuses when required by the department to adopt the system of charges and rates authorized by 75-5-511, the board may adopt a system of charges and rates as provided for in 75-5-511(1) and collect, administer, and apply such revenues for the purposes of 75-5-512.

(2) In lieu of proceeding in the manner set forth in subsection (1) of this section, the department may institute proceedings at law or in equity to enforce compliance with or restrain violations of 75-5-511 through 75-5-513.

History: En. Sec. 14, Ch. 455, L. 1975; R.C.M. 1947, 69-4808.4(5), (6).

In determining the amount of treatment works costs to be paid by recipients of treatment works services, the municipality or other entity operating sewage systems or, if applicable, the board shall consider the strength, volume, types, and delivery flow rate characteristics of the waste; the nature, location, and type of treatment works; the receiving waters; and such other factors as deemed necessary.

History: En. 69-4808.5 by Sec. 15, Ch. 455, L. 1975; R.C.M. 1947, 69-4808.5.

75-5-516. Fees authorized for recovery — process — rulemaking. (1) The board shall by rule prescribe fees to be assessed by the department that are sufficient to cover the board's and department's documented costs, both direct and indirect, of:

(a) reviewing and acting upon an application for a permit, permit modification, permit renewal, certificate, license, or other authorization required by rule under 75-5-201 or 75-5-401;

(b) reviewing and acting upon a petition for a degradation allowance under 75-5-303;

(c) reviewing and acting upon an application for a permit, certificate, license, or other authorization for which an exclusion is provided by rule from the permitting requirements established under 75-5-401;

(d) enforcing the terms and conditions of a permit or authorization identified in subsections (1)(a) through (1)(c). If the permit or authorization is not issued, the department shall return this portion of any application fee to the applicant.

(e) conducting compliance inspections and monitoring effluent and ambient water quality; and

(f) preparing water quality rules or guidance documents.

(2) The rules promulgated by the board under this section must include:

(a) a fee on all applications for permits or authorizations, as identified in subsections (1)(a) through (1)(c), that recovers to the extent permitted by this subsection (2) the department's cost of reviewing and acting upon the applications. This fee may not be more than $5,000 per discharge point for an application addressed under subsection (1), except that an application with multiple discharge points may be assessed a lower fee for those points according to board rule.

(b) an annual fee to be assessed according to the volume and concentration of waste discharged into state waters. The annual fee may not be more than $3,000 per million gallons discharged per day on an annual average for any activity under permit or authorization, as described in subsection (1), except that:

(i) a permit or authorization with multiple discharge points may be assessed a lower fee for those points according to board rule; and

(ii) a facility that consistently discharges effluent at less than or equal to one-half of its effluent limitations and that is in compliance with other permit requirements, using the previous calendar year's discharge data, is entitled to a 25% reduction in its annual permit fee.

Proportionate reductions of up to 25% of the permit fee may be given to facilities that consistently discharge effluent at levels between 50% and 100% of their effluent limitations. However, a new permittee is not eligible for a fee reduction in its first year of operation, and a permittee with a violation of any effluent limit during the previous calendar year is not eligible for a fee reduction for the following year.

(3) To the extent permitted under subsection (2)(b), the annual fee must be sufficient to pay the department's estimated cost of conducting all tasks described under subsection (1) after subtracting:

(a) the fees collected under subsection (2)(a);

(b) state general fund appropriations for functions administered under this chapter; and

(c) federal grants for functions administered under this chapter.

(4) For purposes of subsection (3), the department's estimated cost of conducting the tasks described under subsection (1) is the amount authorized by the legislature for the department's water quality discharge permit programs.

(5) If the applicant or holder fails to pay a fee assessed under this section or rules adopted under this section within 90 days after the date established by rule for fee payment, the department may:

(a) impose an additional assessment consisting of not more than 20% of the fee plus interest on the required fee computed as provided in 15-1-216; or

(b) suspend the permit or exclusion. The department may lift the suspension at any time up to 1 year after the suspension occurs if the holder has paid all outstanding fees, including all penalties, assessments, and interest imposed under subsection (5)(a).

(6) Fees collected pursuant to this section must be deposited in an account in the special revenue fund type pursuant to 75-5-517.

(7) The department shall give written notice to each person assessed a fee under this section of the amount of fee that is assessed and the basis for the department's calculation of the fee. This notice must be issued at least 30 days prior to the due date for payment of the assessment.

(8) A holder of or an applicant for a permit, certificate, or license may appeal the department's fee assessment to the board within 20 days after receiving written notice of the department's fee determination under subsection (7). The appeal to the board must include a written statement detailing the reasons that the permitholder or applicant considers the department's fee assessment to be erroneous or excessive.

(9) If part of the department's fee assessment is not in dispute in an appeal filed under subsection (8), the undisputed portion of the fee must be paid to the department upon written request of the department.

(10) The contested case provisions of the Montana Administrative Procedure Act, provided for in Title 2, chapter 4, part 6, apply to a hearing before the board under this section.

(11) A municipality may raise rates to cover costs associated with the fees prescribed in this section for a public sewer system without the hearing required in 69-7-111.

(2) If a unit of state or local government, including but not limited to a local board of health, county commission, governing body of a municipality, or state agency, has granted a permit or license to a person to discharge waste or has otherwise authorized an activity that involves the placement of waste and the department has reason to believe that the waste is causing or is likely to cause pollution of state waters, the department may issue an order to the unit of state or local government to take measures to ensure that the wastes causing or likely to cause the pollution are cleaned up.

(3) The department may include in an order issued to a county commission pursuant to subsection (2) a request that the commission create a sewer district in the geographic area affected by the order for the purpose of establishing a public sewer system in accordance with the petition and election procedures provided by 7-13-2204 and 7-13-2208 through 7-13-2214.

75-5-602. Power to require monitoring. In order to carry out the objectives of this chapter and to effectively monitor the discharge of sewage, industrial wastes, and other wastes into state waters, the department may require the owner or operator of any point source, or the owner or operator of any facility that discharges into a municipal sewage system and to which pretreatment standards promulgated under this chapter apply, to:

(1) establish and maintain records;

(2) make reports;

(3) install, use, and maintain monitoring equipment or methods, including biological monitoring techniques;

(4) sample effluents using specified monitoring methods at designated locations and intervals;

75-5-605. Prohibited activity. (1) It is unlawful to:

(a) cause pollution as defined in 75-5-103 of any state waters or to place or cause to be placed any wastes where they will cause pollution of any state waters. Any placement of materials that is authorized by a permit issued by any state or federal agency is not a placement of wastes within the prohibition of this subsection if the agency's permitting authority includes provisions for review of the placement of materials to ensure that it will not cause pollution of state waters.

(b) violate any provision set forth in a permit or stipulation, including but not limited to limitations and conditions contained in the permit;

75-5-611. Violation of chapter — administrative actions and penalties — notice and hearing. (1) When the department has reason to believe that a violation of this chapter, a rule adopted under this chapter, or a condition of a permit or authorization required by a rule adopted under this chapter has occurred, it may have a written notice letter served personally or by certified mail on the alleged violator or the violator's agent. The notice letter must state:

(a) the provision of statute, rule, permit, or approval alleged to be violated;

(b) the facts alleged to constitute the violation;

(c) the specific nature of corrective action that the department requires;

(d) as applicable, the amount of the administrative penalty that will be assessed by order under subsection (2) if the corrective action is not taken within the time provided under subsection (1)(e); and

(e) as applicable, the time within which the corrective action is to be taken or the administrative penalty will be assessed. For the purposes of this chapter, service by certified mail is complete on the date of receipt. Except as provided in subsection (2)(a)(ii), an administrative penalty may not be assessed until the provisions of subsection (1) have been complied with.

(2) (a) The department may issue an administrative notice and order in lieu of the notice letter provided under subsection (1) if the department's action:

(i) does not involve assessment of an administrative penalty; or

(ii) seeks an administrative penalty only for an activity that it believes and alleges has violated or is violating 75-5-605.

(b) A notice and order issued under this section must meet all of the requirements specified in subsection (1).

(3) In a notice and order given under subsection (1), the department may require the alleged violator to appear before the board for a public hearing and to answer the charges. The hearing must be held no sooner than 15 days after service of the notice and order, except that the board may set an earlier date for hearing if it is requested to do so by the alleged violator. The board may set a later date for hearing at the request of the alleged violator if the alleged violator shows good cause for delay.

(4) If the department does not require an alleged violator to appear before the board for a public hearing, the alleged violator may request the board to conduct the hearing. The request must be in writing and must be filed with the department no later than 30 days after service of a

notice and order under subsection (2). If a request is filed, a hearing must be held within a reasonable time. If a hearing is not requested within 30 days after service upon the alleged violator, the opportunity for a contested case appeal to the board under Title 2, chapter 4, part 6, is waived.

(5) If a contested case hearing is held under this section, it must be public and must be held in the county in which the violation is alleged to have occurred or in Lewis and Clark County.

(6) (a) After a hearing, the board shall make findings and conclusions that explain its decision.

(b) If the board determines that a violation has occurred, it shall also issue an appropriate order for the prevention, abatement, or control of pollution, the assessment of administrative penalties, or both.

(c) If the order requires abatement or control of pollution, the board shall state the date or dates by which a violation must cease and may prescribe timetables for necessary action in preventing, abating, or controlling the pollution.

(d) If the order requires payment of an administrative penalty, the board shall explain how it determined the amount of the administrative penalty.

(e) If the board determines that a violation has not occurred, it shall declare the department's notice void.

(7) The alleged violator may petition the board for a rehearing on the basis of new evidence, which petition the board may grant for good cause shown.

(8) Instead of issuing an order, the board may direct the department to initiate appropriate action for recovery of a penalty under 75-5-631, 75-5-632, 75-5-633, or 75-5-635.

(9) (a) An action initiated under this section may include an administrative penalty of not more than $10,000 for each day of each violation; however, the maximum penalty may not exceed $100,000 for any related series of violations.

(b) Administrative penalties collected under this section must be deposited in the general fund.

(c) In determining the amount of penalty to be assessed to a person, the department and board shall consider the criteria stated in 75-5-631(4) and rules promulgated under 75-5-201.

(d) The contested case provisions of the Montana Administrative Procedure Act, provided for in Title 2, chapter 4, part 6, apply to a hearing conducted under this section.

(2) any violation of a condition or limitation imposed by a permit issued under 75-5-402(1); or

(3) any violation of rules relating to pretreatment standards.

In furtherance of 75-5-612, a person violating a condition, limitation, standard, or other requirement established pursuant to this chapter may be served with a compliance order issued by the department. The order must specify the condition, limitation, standard, or other requirement violated and must set a time for compliance. However, in establishing a time for compliance, the department shall take into account the seriousness of the violation and any good faith efforts that have been made to comply with the condition, limitation, standard, or other requirement that has been violated. The compliance order issued under this section shall be served either personally by a person qualified to perform service under the Montana Rules of Civil Procedure or by certified mail.

75-5-614. Injunctions authorized. (1) The department is authorized to commence a civil action seeking appropriate relief, including a permanent or temporary injunction, for a violation that would be subject to a compliance order under 75-5-613. An action under this subsection may be commenced in the district court of the county where a violation occurs or is threatened, and the court has jurisdiction to restrain the violation and to require compliance.

(2) The department may bring an action for an injunction against the continuation of an alleged violation of the terms or conditions of a permit issued by the department or any rule or effluent standard promulgated under this chapter or against a person who fails to comply with an emergency order issued by the department under 75-5-621 or a final order of the board. The court to which the department applies for an injunction may issue a temporary injunction if it finds that there is reasonable cause to believe that the allegations of the department are true, and it may issue a temporary restraining order pending action on the temporary injunction.

75-5-617. Enforcement response. (1) Whenever, on the basis of information available to the department, the department finds that a person is in violation of this chapter, a rule adopted under this chapter, or a condition or limitation in a permit, authorization, or order issued under this chapter, the department shall initiate an enforcement response, which may include any of the following actions:

(a) issuance of a letter notifying the person of the violation and requiring compliance;

(b) issuance of an order requiring the person to correct the violation pursuant to 75-5-601, 75-5-611, 75-5-613, and 75-5-621;

(c) bringing a judicial action as authorized by 75-5-614 and 75-5-622; or

(d) seeking administrative or judicial penalties as provided under 75-5-611, 75-5-615, and 75-5-631 through 75-5-633.

(2) Unless an alleged violation represents an imminent threat to human health, safety, or welfare or to the environment, the department shall first issue a letter notifying the person of the violation and requiring compliance. If the person fails to respond to the conditions in the department's letter, then the department shall take further action as provided in subsection (1).

(3) The provisions of this chapter do not limit the authority of the department to bring a judicial action, which may include the assessment of penalties, prior to initiating any administrative action authorized by this chapter.

75-5-621. Emergencies. (1) Notwithstanding other provisions of this chapter, if the department finds that a person is committing or is about to commit an act in violation of this chapter or an order or rule issued under this chapter that, if it occurs or continues, will cause substantial pollution the harmful effects of which will not be remedied immediately after the commission or cessation of the act, the department may order the person to stop, avoid, or moderate the act so that the substantial injury will not occur. The order is effective immediately upon receipt by the person to whom it is directed, unless the department provides otherwise.

(2) Notice of the order must conform to the requirements of 75-5-611(1) so far as practicable. The notice must indicate that the order is an emergency order.

(3) Upon issuing an order, the department shall fix a place and time for a hearing before the board, not later than 5 days after issuing the order unless the person to whom the order is directed requests a later time. The department may deny a request for a later time if it finds that the person to whom the order is directed is not complying with the order. The hearing must be conducted in the manner specified in 75-5-611. As soon as practicable after the hearing, the board shall affirm, modify, or set aside the order of the department. The order of the board must be accompanied by the information required in 75-5-611(6). An action for review of the order of the board may be initiated in the manner specified in 75-5-641. The initiation of an action or taking of an appeal may not stay the effectiveness of the order unless the court finds that the board did not have reasonable cause to issue an order under this section.

Each day of violation constitutes a separate violation.

(2) Action under this section does not bar enforcement of this chapter or of rules or orders issued under it by injunction or other appropriate remedy.

(3) The department shall institute and maintain enforcement proceedings in the name of the state.

(4) In an action seeking penalties under this section, the department shall take into account the following factors in determining an appropriate settlement or judgment, as appropriate:

(b) with respect to the violator, the violator's ability to pay and prior history of violations, the economic benefit or savings, if any, to the violator resulting from the violator's action, the amounts voluntarily expended by the violator to address or mitigate the violation or impacts of the violation to waters of the state, and other matters that justice may require.

Part 7

Water Quality Assessment

75-5-701. Purpose. Consistent with the policy established in 75-5-101(2) to provide a comprehensive program for the prevention, abatement, and control of water pollution, the purpose of this part is to further direct the department to monitor state waters to accurately assess their quality and, when required, to develop total maximum daily loads for those water bodies identified as threatened or impaired.

History: En. Sec. 2, Ch. 541, L. 1997.

75-5-702. Monitoring — water quality assessment listing — statewide advisory group. (1) The department shall monitor state waters to assess the quality of those waters and to identify surface water bodies or segments of surface water bodies that are threatened or impaired. The department shall use the monitoring results to revise the list of water bodies that are identified as threatened or impaired and to establish a priority ranking for TMDL development for those waters in accordance with subsections (4) and (7).

(2) In revising the list prepared pursuant to this section, the department shall use all currently available data, including information or data obtained from federal, state, and local agencies, private entities, or individuals with an interest in water quality protection. Except as provided in subsection (6), the department may modify the list only if there is sufficient credible data to support the modification. Prior to publishing a final list, the department shall provide public notice and allow 60 days for public comment on the draft list. The department shall make available for public review, upon request, documentation used in the determination to list or delist a particular water body, including, at a minimum, a description of the information, data, and methodology used. The department may charge a reasonable fee for the documentation, commensurate with the cost of providing the documentation to the requestor.

(3) A person may request that the department add or remove a water body or reprioritize a water body on a draft or published list by providing the data or information necessary to support the request. The department shall review the data within 60 days from its submittal. If the department determines that there is sufficient credible data to grant the request, the department shall provide public notice of its intended action and allow 60 days for public comment prior to taking action on the request. A person aggrieved by the department's decision to grant or deny the request may appeal the department's decision to the board.

(4) The department shall, in consultation with local conservation districts and watershed advisory groups pursuant to 75-5-704, review and revise the list and priority rankings of water bodies identified as threatened or impaired. The department shall review and revise the list at intervals not to exceed 5 years. The department shall make available for public review the data and information used in making any changes in its list of threatened or impaired water bodies that is developed and maintained pursuant to this section.

(5) By October 1, 1999, and in consultation with the statewide TMDL advisory group established pursuant to subsection (9), the department shall develop and maintain a data management system that can be used to assess the validity and reliability of the data used in the

listing and priority ranking process. The department shall make available to the public, upon request, data from its data management system. The department may charge a reasonable fee for the data, commensurate with its cost of providing the data to the requestor.

(6) By October 1, 1999, and in consultation with the statewide TMDL advisory group, the department shall use the data management system developed and maintained pursuant to subsection (5) to revise the list and to remove any water body that lacks sufficient credible data to support its listing. If the department removes a water body because there is a lack of sufficient credible data to support its listing, the department shall monitor and assess that water body during the next field season or as soon as possible thereafter to determine whether it is a threatened water body or an impaired water body.

(7) In prioritizing water bodies for TMDL development, the department shall, in consultation with the statewide TMDL advisory group, take into consideration the following:

(a) the beneficial uses established for a water body;

(b) the extent that natural factors over which humans have no control are contributing to any impairment;

(c) the impacts to human health and aquatic life;

(d) the degree of public interest and support;

(e) the character of the pollutant and the severity and magnitude of water quality standard noncompliance;

(f) whether the water body is an important high-quality resource in an early stage of degradation;

(g) the size of the water body not achieving standards;

(h) immediate programmatic needs, such as waste load allocations for new permits or permit renewals and load allocations for new nonpoint sources;

(i) court orders and decisions relating to water quality;

(j) state policies and priorities, including the protection and restoration of native fish when appropriate;

(k) the availability of technology and resources to correct the problems;

(l) whether actions or voluntary programs that are likely to correct the impairment of a particular water body are currently in place; and

(m) the recreational, economic, and aesthetic importance of a particular water body.

(8) The department shall, in consultation with the statewide TMDL advisory group, develop a method of rating water bodies according to the criteria and considerations described in subsection (7) in order to rank the listed water bodies as high priority, moderate priority, or low priority for TMDL development. The department may not rank a water body as a high priority under this section without first validating the data necessary to support the ranking.

(9) (a) The department shall establish a statewide TMDL advisory group to serve in the consultation capacity set forth in 75-5-703, 75-5-704, and this section. Fourteen members, and any replacement members that may be necessary, must be appointed by the director, based upon one nomination from each of the following interests:

(i) livestock-oriented agriculture;

(ii) farming-oriented agriculture;

(iii) conservation or environmental interests;

(iv) water-based recreationists;

(v) the forestry industry;

(vi) municipalities;

(vii) point source dischargers;

(viii) mining;

(ix) federal land management agencies;

(x) state trust land management agencies;

(xi) supervisors of soil and water conservation districts for counties east of the continental divide;

(xii) supervisors of soil and water conservation districts for counties west of the continental divide;

(xiii) the hydroelectric industry; and

(xiv) fishing-related businesses.

(b) If the director receives more than one nomination from a particular interest, the director shall notify the respective nominators and request that they agree on one nominee.

(10) The department shall provide public notice of meetings of the statewide TMDL advisory group and shall solicit, document, and consider public comments provided during the deliberations of the advisory group.

History: En. Sec. 3, Ch. 541, L. 1997; amd. Sec. 1, Ch. 93, L. 1999.

75-5-703. Development and implementation of total maximum daily loads. (1) The department shall, in consultation with local conservation districts and watershed advisory groups, develop total maximum daily loads or TMDLs for threatened or impaired water bodies or segments of water bodies in order of the priority ranking established by the department under 75-5-702. Each TMDL must be established at a level that will achieve compliance with applicable water quality standards and must include a reasonable margin of safety that takes into account any lack of knowledge concerning the relationship between the TMDL and water quality standards. The department shall consider applicable guidance from the federal environmental protection agency, as well as the environmental, economic, and social costs and benefits of developing and implementing a TMDL.

(2) In establishing TMDLs under subsection (1), the department may establish waste load allocations for point sources and may establish load allocations for nonpoint sources, as set forth in subsection (8), and may allow for effluent trading. The department shall, in consultation with local conservation districts and watershed advisory groups, develop reasonable land, soil, and water conservation practices specifically recognizing established practices and programs for nonpoint sources.

(3) Within 10 years from May 5, 1997, the department shall develop TMDLs for all water bodies on the list of waters that are threatened or impaired, as that list read on May 5, 1997. This provision does not apply to water bodies that are subsequently added or removed from the list according to the provisions of 75-5-702. The department shall establish a schedule for completing the TMDLs within the 10-year period established by this subsection. The schedule must also provide a reasonable timeframe for TMDL development for impaired and threatened water bodies that are listed subsequent to May 5, 1997, and are prioritized as set forth in 75-5-702.

(4) The department shall provide guidance for TMDL development on any threatened or impaired water body, regardless of its priority ranking, if the necessary funding and resources from sources outside the department are available to develop the TMDL and to monitor the effectiveness of implementation efforts. The department shall review the TMDL and either approve or disapprove the TMDL. If the TMDL is approved by the department, the department shall ensure implementation of the TMDL according to the provisions of subsections (6) through (8).

(5) For water bodies listed under 75-5-702, the department shall provide assistance and support to landowners, local conservation districts, and watershed advisory groups for interim measures that may restore water quality and remove the need to establish a TMDL, such as informational programs regarding control of nonpoint source pollution and voluntary measures designed to correct impairments. When a source implements voluntary measures to reduce pollutants prior to development of a TMDL, those measures, whether or not reflected in subsequently issued waste discharge permits, must be recognized in development of the TMDL in a way that gives credit for the pollution reduction efforts.

(6) After development of a TMDL and upon approval of the TMDL, the department shall:

(a) incorporate the TMDL into its current continuing planning process;

(b) incorporate the waste load allocation developed for point sources during the TMDL process into appropriate water discharge permits; and

(c) assist and inform landowners regarding the application of a voluntary program of reasonable land, soil, and water conservation practices developed pursuant to subsection (2).

(7) Once the control measures identified in subsection (6) have been implemented, the department shall, in consultation with the statewide TMDL advisory group, develop a monitoring program to assess the waters that are subject to the TMDL to determine whether

compliance with water quality standards has been attained for a particular water body or whether the water body is no longer threatened. The monitoring program must be designed based on the specific impairments or pollution sources. The department's monitoring program must include long-term monitoring efforts for the analysis of the effectiveness of the control measures developed.

(8) The department shall support a voluntary program of reasonable land, soil, and water conservation practices to achieve compliance with water quality standards for nonpoint source activities for water bodies that are subject to a TMDL developed and implemented pursuant to this section.

(9) If the monitoring program provided under subsection (7) demonstrates that the TMDL is not achieving compliance with applicable water quality standards within 5 years after approval of a TMDL, the department shall conduct a formal evaluation of progress in restoring water quality and the status of reasonable land, soil, and water conservation practice implementation to determine if:

(a) the implementation of a new or improved phase of voluntary reasonable land, soil, and water conservation practice is necessary;

(b) water quality is improving but a specified time is needed for compliance with water quality standards; or

(c) revisions to the TMDL are necessary to achieve applicable water quality standards.

(10) Pending completion of a TMDL on a water body listed pursuant to 75-5-702:

(a) point source discharges to a listed water body may commence or continue, provided that:

(i) the discharge is in conformance with a discharge permit that reflects, in the manner and to the extent applicable for the particular discharge, the provisions of 75-5-303;

(ii) the discharge will not cause a decline in water quality for parameters by which the water body is impaired; and

(iii) minimum treatment requirements adopted pursuant to 75-5-305 are met;

(b) the issuance of a discharge permit may not be precluded because a TMDL is pending;

(c) new or expanded nonpoint source activities affecting a listed water body may commence and continue provided those activities are conducted in accordance with reasonable land, soil, and water conservation practices;

(d) for existing nonpoint source activities, the department shall continue to use educational nonpoint source control programs and voluntary measures as provided in subsections (5) and (6).

(11) This section may not be construed to prevent a person from filing an application or petition under 75-5-302, 75-5-310, or 75-5-312.

History: En. Sec. 4, Ch. 541, L. 1997; amd. Sec. 2, Ch. 93, L. 1999.

75-5-704. Watershed advisory groups. (1) In implementing the consultation requirements under 75-5-702(4) and 75-5-703(1) and (2), the department shall request the participation of representatives of the following interest groups to work in an advisory capacity with the local conservation districts and the department:

(a) livestock-oriented agriculture;
(b) farming-oriented agriculture;
(c) conservation or environmental interests;
(d) water-based recreationists;
(e) the forestry industry;
(f) municipalities;
(g) affected or potentially affected point source dischargers;
(h) mining;
(i) existing local watershed groups;
(j) federal land management agencies;
(k) state trust land management agencies;
(l) the tourism industry;
(m) the hydroelectric industry, if applicable; and
(n) fishing-related businesses.

(2) In implementing the consultation requirements of 75-5-702 and 75-5-703, the department shall:

(a) prior to consultation with the statewide TMDL advisory group pursuant to 75-5-702(7) and (8), schedule meetings with appropriate local conservation districts and the watershed advisory groups at a location within their affected geographic area to review and revise the list of water bodies provided for in 75-5-702; and

(b) at a meeting held pursuant to subsection (2)(a), request whether there is new information that may affect the listing or priority ranking on water bodies within the affected area and solicit comments on revising the list.

(3) Based upon the information provided pursuant to subsection (2)(b), the department shall revise the list according to 75-5-702.

(4) Prior to and during the development of a TMDL within a particular watershed or basin, the department shall schedule a meeting or meetings with appropriate local conservation districts and watershed advisory groups at a location within the affected geographic area in order to solicit comments on developing the TMDL and information on sources that may be contributing to water quality impairment.

History: En. Sec. 7, Ch. 678, L. 1989; amd. Sec. 9, Ch. 538, L. 1997.

75-5-1112. Evaluation of projects and loan applications. The department of natural resources and conservation and the department shall evaluate projects and loan applications. In evaluating projects and loan applications, the following factors must be considered:

(1) the technical design of the project to ensure compliance with all applicable statutes, rules, and design standards;

(2) the financial capacity of the municipality or private person to repay the loan;

(3) the financial, managerial, and technical ability of the municipality or private person to properly operate and maintain the project;

(4) the feasibility of project completion given the total financing available;

(5) the ability of the municipality or private person to pay the costs of the project without the requested financial assistance;

(6) the total amount of loan funds available for financial assistance in the revolving fund;

(7) the total amount requested in other applications that have been received or that are likely to be received;

(8) the ranking of the project on the priority list or intended use plan; and

(9) any other criteria that the department determines appropriate, considering the purposes of the federal act and the program.

History: En. Sec. 8, Ch. 678, L. 1989; amd. Sec. 18, Ch. 553, L. 1995; amd. Sec. 10, Ch. 538, L. 1997.

75-5-1113. Conditions on loans. (1) Upon approval of a project by the department, the department of natural resources and conservation may lend amounts on deposit in the revolving fund to a municipality or private person to pay part or all of the cost of a project or to buy or refinance an outstanding obligation of a municipality that was issued to finance a project. The loan is subject to the municipality or private person complying with the following conditions:

(a) meeting requirements of financial capability set by the department of natural resources and conservation to ensure sufficient revenue to operate and maintain the project for its useful life and to repay the loan, including the establishment and maintenance by the municipality of a reserve or revolving fund to secure the payment of principal of and interest on the loan to the extent permitted by the applicable law governing the municipality's obligation;

(b) agreeing to operate and maintain the project properly over its structural and material design life, which may not be less than the term of the loan;

(c) agreeing to maintain proper financial records in accordance with generally accepted accounting standards and agreeing that all records are subject to audit;

(d) meeting the requirements listed in the federal act for projects constructed with funds directly made available by federal capitalization grants;

(e) providing legal assurance that all necessary property titles, easements, and rights-of-way have been obtained to construct, operate, and maintain the project;

(f) submitting an engineering report evaluating the proposed project, including information demonstrating its cost-effectiveness and environmental information necessary for the department and the department of natural resources and conservation to fulfill their responsibilities under the Montana Environmental Policy Act and rules adopted to implement that act;

(g) complying with plan and specification requirements and other requirements established by the department; and

(h) providing for proper construction inspection and project management.

(2) Each loan, unless prepaid, is payable subject to the limitations of the federal act, with interest paid in annual or more frequent installments, the first of which must be received not more than 1 year after the completion date of the project and the last of which must be received not more than 20 years after the completion date.

(3) Subject to the limitations of the federal act, the interest rate on a loan must ensure that the interest payments on the loan and on other outstanding loans will be sufficient, if paid timely and in full, with other available funds in the revolving fund, including investment income, to enable the state to pay the principal of and interest on the bonds issued pursuant to 75-5-1121.

(a) The interest rate must be determined as of the date the loan is authorized by the department of natural resources and conservation.

(b) The rate may include any additional rate that the department of natural resources and conservation considers reasonable or necessary to provide a reserve for the repayment of the loans. The additional rate may be fixed or variable or may be calculated according to a formula, and it may differ from the rate established for any other loan. Once the reserve has been established at a level considered by the department to be reasonable and prudent for the loans outstanding, the department may use excess reserve payments to make grants to aid in the feasibility of projects.

(4) Each loan must be evidenced by a bond, note, or other evidence of indebtedness of the municipality or private person, in a form prescribed or approved by the department of natural resources and conservation, except that the bond, note, or other evidence must include provisions required by the federal act and must be consistent with the provisions of this part. The bond, note, or other evidence is not required to be identical for all loans. The department of natural resources and conservation may require that loans to private persons be further secured by a mortgage and other security interests in the project that is being financed or other forms of additional security as considered necessary, including personal guarantees and letters of credit.

(5) As a condition to making a loan, the department of natural resources and conservation, with the concurrence of the department, may impose a reasonable administrative fee that may be paid from the proceeds of the loan or other available funds of the municipality or private person. Administrative fees may be deposited:

(a) in a special administrative costs account that the department of natural resources and conservation may create for that purpose outside the revolving fund provided for in 75-5-1106; or

(b) in the administration account. Money deposited in the administration account established in 75-5-1106 must be used for the payment of administrative costs of the program. Money deposited in the special administration costs account must be used for the payment of administrative costs of the program unless not required for that purpose, in which case the money may be transferred to other funds and accounts in the program.

75-5-1121. Authorization of bonds — allocation of proceeds. (1) Upon request of the department of natural resources and conservation and upon certification by the department that the state has entered into a capitalization grant agreement or other agreement with the United States government pursuant to 75-6-204 and that federal capitalization grants have been made to the state for the program, the board of examiners is authorized to issue and sell bonds of the state as authorized by the legislature to provide money for the program. The bonds are general obligations on which the full faith, credit, and taxing powers of the state are pledged for payment of the principal and interest. The bonds must be issued as provided by Title 17, chapter 5, part 8.

(2) The proceeds of the bonds, other than any premium and accrued interest received or amounts to be used to pay interest on the bonds or the costs of issuing the bonds, are allocated to the state allocation account or the administration account of the revolving fund, as provided in 75-5-1106. Any premium and accrued interest and bond proceeds to be used to pay interest must be deposited in the debt service account. Proceeds of bonds to be used to pay the costs of issuing the bonds must be deposited in a cost of issuance account established outside of the revolving fund by the board of examiners in the resolution or trust indenture authorizing the issuance of the bonds. For purposes of 17-5-803 and 17-5-804, the state allocation account and the cost of issuance account constitute a capital projects account. The proceeds must be available to the department and the department of natural resources and conservation and may be used for the purposes authorized in this part without further budgetary authorization.

(3) In the resolution authorizing the sale and issuance of the bonds, the board of examiners, upon the request of the department of natural resources and conservation, may create separate accounts or subaccounts to provide for the payment security of the bonds and may pledge the interest component of the loan repayments credited to the revolving fund and the revolving fund as security for the bonds.

(4) The board of examiners may allow bonds issued under this section to be secured by a trust indenture between the board of examiners and a trustee. The trustee may be a trust company or bank having the powers of a trustee inside or outside the state.

(a) If the board of examiners elects to issue bonds pursuant to a trust indenture, the trustee may, as determined by the board of examiners, hold one or more of the funds and accounts created pursuant to this chapter.

(b) In addition to provisions that the board of examiners determines to be necessary and appropriate to secure the bonds, provide for the rights of the bondholders, and ensure compliance with all applicable law, the trust indenture must contain provisions that:

(i) govern the custody, safeguarding, and disbursement of all money held by the trustee under the trust indenture; and

(ii) permit representatives of the state treasurer, department, or department of natural resources and conservation, upon reasonable notice and at reasonable times, to inspect the trustee's books and records concerning the trust indenture.

(c) A trust indenture or an executed counterpart of a trust indenture developed pursuant to this chapter must be filed with the secretary of state.

75-5-1122. Creation of debt. The legislature, through the enactment of this law by a two-thirds vote of the members of each house, authorizes the creation of state debt in an amount not to exceed $30 million and the issuance and sale of general obligation bonds in this amount for the purpose of providing the state's share of the program.

For projects that are funded in part by appropriations from the federal government over a term of years, that have been approved by the department and the department of natural resources and conservation under 75-5-1112, and that are considered to be in compliance with 75-5-1113, the department of natural resources and conservation may advance money to a municipality in anticipation of the receipt of federal funds by the municipality on the following conditions:

(1) congress has authorized the project and has committed to fund the project at a specified dollar amount over a period of years;

(2) other funding agencies will not authorize construction of the project to begin until there is evidence that construction money will be available to the municipality to pay all of the construction costs;

(3) the department and the department of natural resources and conservation determine that it is in the best interest of the state and the state's objectives under the program that the project begin construction prior to the receipt of all federal appropriations; and

(4) the advance of the money will be in the form of a note that is issued pursuant to 7-7-109 in anticipation of a federal grant for which the municipality promises to pay and pledges to the department of natural resources and conservation the proceeds of the grant when received.

75-6-102. Definitions. As used in this part, unless the context clearly indicates otherwise, the following definitions apply:

(1) "Board" means the board of environmental review provided for in 2-15-3502.

(2) "Certified wellhead protection area" means an area certified by the department that protects the surface and subsurface area surrounding a source of ground water for a public water supply system through which contaminants may move toward and reach the source of supply.

(4) "Contamination" means impairment of the quality of state waters by sewage, industrial wastes, or other wastes creating a hazard to human health.

(5) "Cross-connection" means a connection between a public water supply system and another water supply system, either public or private, or a wastewater or sewerline or other

potential source of contamination so that a flow of water into or contamination of the public water supply system from the other source of water or contamination is possible.

(6) "Department" means the department of environmental quality provided for in 2-15-3501.

(7) "Drainage" means rainfall, surface, and subsoil water.

(8) "Industrial waste" means any waste substance from the processes of business or industry or from the development of a natural resource, together with any sewage that may be present.

(9) "Industrial waste discharge system" means a system that discharges industrial waste into state waters.

(10) "Maximum contaminant level" means the maximum permissible level of a contaminant in water that is delivered to a user of a public water supply system.

(14) "Pollution" means contamination or other alteration of the physical, chemical, or biological properties of state waters that exceeds that which is permitted by Montana water quality standards, including but not limited to standards relating to change in temperature, taste, color, turbidity, or odor or the discharge or introduction of a liquid, gaseous, solid, radioactive, or other substance into state water that will or is likely to create a nuisance or render the waters harmful, detrimental, or injurious to public health, recreation, safety, or welfare, to livestock, or to wild animals, birds, fish, or other wildlife. A discharge that is authorized under the pollution discharge permit rules of the board is not pollution under this chapter.

(15) "Public sewage system" means a system of collection, transportation, treatment, or disposal of sewage that serves 15 or more families or 25 or more persons daily for any 60 or more days in a calendar year.

(16) "Public water supply system" means a system for the provision of water for human consumption from a community well, water hauler for cisterns, water bottling plant, water dispenser, or other water supply that has at least 15 service connections or that regularly serves at least 25 persons daily for any 60 or more days in a calendar year.

(17) "Safe Drinking Water Act" means 42 U.S.C. 300f and regulations set forth in 40 CFR, parts 141 and 142.

The annual fee for a public water supply system is no more than $2.25 for each service connection to the public water supply system for the biennium beginning July 1, 1991, and ending June 30, 1993, and thereafter is no more than $2 for each service connection to the public water supply system, although the minimum fee for any system is $100, except that the fee for a transient noncommunity water system is $50.

(2) Public water supply systems in a municipality may raise the rates to recover costs associated with the fees prescribed in this section without the public hearing required in 69-7-111.

(3) The board shall by rule prescribe fees to be assessed by the department on persons who submit plans and specifications for construction, alteration, or extension of a public water supply system or public sewage system. The fees must be commensurate with the cost to the department of reviewing the plans and specifications.

The notice must specify the provision of this part, the rule, or the condition of approval alleged to have been violated and the facts alleged to constitute a violation. The notice must include an order to take necessary corrective action within a reasonable period of time. The time period must be stated in the order. Service by mail is complete on the date of filing.

(2) If the alleged violator does not request a hearing before the board within 30 days of the date of service, the order becomes final. Failure to comply with a final order may subject the violator to an action commenced pursuant to 75-6-104, 75-6-113, or 75-6-114.

(3) If the alleged violator requests a hearing before the board within 30 days of the date of service, the board shall schedule a hearing. After the hearing is held, the board may:

(a) affirm or modify the department's order issued under subsection (1) if the board finds that a violation has occurred; or

(b) rescind the department's order if the board finds that a violation has not occurred.

(4) An order issued by the department or the board may set a date by which the violation must cease and set a time limit for action to correct a violation.

(5) As an alternative to issuing an order pursuant to subsection (1), the department may:

(a) require the alleged violator to appear before the board for a hearing, at a time and place specified in the notice, to answer the charges complained of; or

(b) initiate an action under 75-6-111(2), 75-6-113, or 75-6-114.

(6) (a) An action initiated under this part may include an administrative penalty not to exceed:

(i) $1,000 for each day of a violation pertaining to a public water system, other than a water hauler or a water bottling plant, that serves a population of more than 10,000; and

(ii) $500 for each day of violation for other violations.

(b) Administrative penalties collected under this section must be deposited in the state general fund.

(7) In determining the amount of penalty to be assessed to a person, the department or the board, as appropriate, shall consider the criteria stated in 75-6-114 and the rules promulgated under 75-6-103(2)(i).

If the person fails to respond to the conditions in the department's letter, then the department shall take further action as provided in subsection (1).

(3) The provisions of this part do not limit the authority of the department to bring a judicial action, which may include the assessment of penalties, prior to initiating an administrative action authorized by this part.

History: En. Sec. 1, Ch. 302, L. 1995.

75-6-111. Appeal from rule or standard — injunction to require compliance. While the appeal is pending, the rule, standard, or order is in force.

(2) The department may seek an injunction from the appropriate district court to require compliance with this part or a rule or order issued as authorized by this part. (3) Action under this section does not bar enforcement of this part or a rule, order, or condition of approval issued under this part by injunction or other appropriate remedy.

(4) When seeking penalties under this section, the department shall take into account the following factors in determining an appropriate settlement or judgment, as appropriate:

(a) the nature, circumstances, extent, and gravity of the violation; and

(b) with respect to the violator, the violator's ability to pay, prior history of violations, the economic benefit or savings, if any, to the violator resulting from the violator's action, the amounts voluntarily expended by the violator to address or mitigate the violation or impacts of the violation to waters of the state, and other matters that justice may require.

(1) After April 14, 1995, except as provided in subsections (2) through (5) or unless required by state law, the board may not adopt a rule to implement this chapter that is more stringent than the comparable federal regulations or guidelines that address the same circumstances. The board may incorporate by reference comparable federal regulations or guidelines.

(2) The board may adopt a rule to implement this chapter that is more stringent than comparable federal regulations or guidelines only if the board makes a written finding after a public hearing and public comment and based on evidence in the record that:

(a) the proposed state standard or requirement protects public health or the environment of the state; and

(b) the state standard or requirement to be imposed can mitigate harm to the public health or environment and is achievable under current technology.

(3) The written finding must reference information and peer-reviewed scientific studies contained in the record that forms the basis for the board's conclusion. The written finding must also include information from the hearing record regarding the costs to the regulated community that are directly attributable to the proposed state standard or requirement.

(4) (a) A person affected by a rule of the board adopted after January 1, 1990, and before April 14, 1995, that that person believes to be more stringent than comparable federal regulations or guidelines may petition the board to review the rule. If the board determines that the rule is more stringent than comparable federal regulations or guidelines, the board shall comply with this section by either revising the rule to conform to the federal regulations or guidelines or by making the written finding, as provided under subsection (2), within a reasonable period of time, not to exceed 12 months after receiving the petition. A petition under this section does not relieve the petitioner of the duty to comply with the challenged rule. The board may charge a petition filing fee in an amount not to exceed $250.

(b) A person may also petition the board for a rule review under subsection (4)(a) if the board adopts a rule after January 1, 1990, in an area in which no federal regulations or guidelines existed and the federal government subsequently establishes comparable regulations or guidelines that are less stringent than the previously adopted board rule.

(5) This section does not apply to a rule adopted under the emergency rulemaking provisions of 2-4-303(1).

(1) The federal Safe Drinking Water Act, including 42 U.S.C. 300h-7, enables the department to administer a wellhead protection program that involves certification of local wellhead protection areas and review of wellhead protection area ordinances. In administering this program, the department may perform only those functions provided for by the federal Safe Drinking Water Act and this section.

(2) A supplier of a public water supply system may voluntarily submit for department review and approval a petition to establish a wellhead protection program for the system.

(3) The department may certify a wellhead protection area upon:

(a) receipt of a petition by a supplier for a public water supply system; and

(b) making a determination that the wellhead protection area meets criteria and thresholds for certification established by the Montana wellhead protection program.

(4) (a) The governing body of the county in which a wellhead protection area or areas exist may adopt an ordinance to regulate, control, and prohibit conditions that threaten the quality of water used within the wellhead protection area or areas.

History: En. Sec. 13, Ch. 553, L. 1995; amd. Sec. 25, Ch. 538, L. 1997.

75-6-224. Loan conditions. (1) Upon approval of an application by the department, the department of natural resources and conservation may lend amounts on deposit in the revolving fund to a public water system to pay part or all of the cost of a project. The loan is subject to the applicant complying with the following conditions:

(a) meeting requirements of financial capability set by the department of natural resources and conservation to ensure sufficient revenue to operate and maintain the project for its useful life and to repay the loan, including the establishment of a dedicated source of revenue and the establishment and maintenance by the applicant of a reserve or revolving fund to secure the payment of principal of and interest on the loan to the extent permitted by the applicable law governing the public water system or the applicant's financial authority;

(b) in the case of a system owned by a private person, in addition to establishing a dedicated source of revenue, which may include the pledge of accounts receivable, providing, as required by the department of natural resources and conservation, credit enhancements, a pledge of collateral, or other types of security, such as a corporate or personal guarantee;

(c) agreeing to operate and maintain the project properly over its structural and material design life, which may not be less than the term of the loan;

(d) agreeing to maintain proper financial records in accordance with generally accepted accounting standards and agreeing that all records are subject to audit;

(e) meeting the requirements listed in the federal act for projects constructed with funds directly made available by federal capitalization grants;

(f) providing legal assurance that all necessary property titles, easements, and rights-of-way have been obtained to construct, operate, and maintain the project;

(g) submitting an engineering report evaluating the proposed project, including information demonstrating its cost-effectiveness and environmental information necessary for the department and the department of natural resources and conservation to fulfill their responsibilities under the Montana Environmental Policy Act and rules adopted to implement that act;

(h) complying with plan, specification, and other requirements for public water systems established by the department;

(i) providing for proper construction inspection and project management; and

(j) meeting requirements of financial, managerial, and technical capability to maintain compliance with the federal act.

(2) Each loan, unless prepaid, is payable subject to the limitations of the federal act, with interest paid in annual or more frequent installments, the first of which must be received not more than 1 year after the completion date of the project and the last of which must be received not more than 20 years after the completion date. If the applicant is a disadvantaged community that has qualified and applied for a loan subsidy, the department may determine that the last installment must be received not more than 30 years after the completion date, provided that the period of the loan does not exceed the expected design life of the project.

(3) (a) Subject to the limitations of the federal act, the interest rate on a loan must ensure that the interest payments on the loan and on other outstanding loans will be sufficient, if timely paid in full, with other available funds in the revolving fund, including investment income, to enable the state to pay the principal of and interest on the bonds issued pursuant to 75-6-225.

(b) The interest rate may include any additional rate that the department of natural resources and conservation considers reasonable or necessary to provide a reserve for the repayment of the loans. The additional rate may be fixed or variable, may be calculated according to a formula, and may differ from the rate established for any other loan. Once the reserve has been established at a level considered by the department to be reasonable and prudent for the amount of the loans outstanding, the department may use excess reserve payments to make grants to aid in the feasibility of projects.

(4) Each loan must be evidenced by a bond, note, or other evidence of indebtedness of the borrower, in a form prescribed or approved by the department of natural resources and conservation, except that the bond, note, or other evidence must include provisions required by the federal act and must be consistent with the provisions of this part. The bond, note, or other evidence is not required to be identical for all loans.

(5) As a condition to making a loan, the department of natural resources and conservation, with the concurrence of the department, may impose a reasonable administrative fee that may be paid from the proceeds of the loan or other available funds of the municipality or private person. Administrative fees may be deposited:

(a) in a special administrative costs account that the department of natural resources and conservation may create for that purpose outside the revolving fund provided for in 75-6-211; or

(b) in the administrative account provided for in 75-6-211. In determining into which account the administrative fees are deposited, the department shall take into consideration the needs and requirements of the programs. Money deposited in the special administrative costs account or the administration account must be used for the payment of administrative costs of the program.

History: En. Sec. 14, Ch. 553, L. 1995; amd. Sec. 26, Ch. 538, L. 1997; amd. Sec. 6, Ch. 421, L. 1999.

75-6-225. Authorization of bonds — allocation of proceeds. (1) The board of examiners is authorized, upon request of the department of natural resources and conservation, to issue and sell bonds of the state as authorized by the legislature to provide money for the program. The bonds are general obligations on which the full faith, credit, and taxing powers of the state are pledged for payment of the principal and interest. The bonds must be issued as provided by Title 17, chapter 5, part 8.

(2) The proceeds of the bonds, other than any premium and accrued interest received, the amounts to be used to pay interest on the bonds, or the costs of issuing the bonds, are allocated to the state allocation account or the administration account of the revolving fund, as provided in 75-6-211. Any premium and accrued interest and bond proceeds to be used to pay interest must be deposited in the debt service account of the revolving fund. Proceeds of bonds to be used to pay the costs of issuing the bonds must be deposited in a cost of issuance account established outside of the revolving fund by the board of examiners in the resolution or trust indenture authorizing the issuance of the bonds. For purposes of 17-5-803 and 17-5-804, the state allocation account and the cost of issuance account constitute a capital projects account. The proceeds must be available to the department and the department of natural resources and conservation and may be used for the purposes authorized in this part without further budgetary authorization.

(3) In the resolution authorizing the sale and issuance of the bonds, the board of examiners, upon the request of the department of natural resources and conservation, may create separate accounts or subaccounts to provide for the payment security of the bonds and may pledge the revolving fund and the interest component of the loan repayments credited to the revolving fund as security for the bonds.

(4) (a) The board of examiners may allow bonds issued under this section to be secured by a trust indenture between the board of examiners and a trustee. The trustee may be a trust company or bank having the power of a trustee inside or outside the state.

(b) If the board of examiners elects to issue bonds pursuant to a trust indenture, the trustee may, as determined by the board of examiners, hold one or more of the funds and accounts created pursuant to this chapter.

(c) In addition to provisions that the board of examiners determines to be necessary and appropriate to secure the bonds, to provide for the rights of the bondholders, and to ensure compliance with all applicable law, the trust indenture must contain provisions that:

(i) govern the custody, safeguarding, and disbursement of all money held by the trustee under the trust indenture; and

(ii) permit representatives of the state treasurer, department, or department of natural resources and conservation, upon reasonable notice and at reasonable times, to inspect the trustee's books and records concerning the trust indenture.

(d) A trust indenture or an executed counterpart of a trust indenture developed pursuant to this chapter must be filed with the secretary of state.

Regional Water and Wastewater Authority Act

Interlocal agreements, Title 7, ch. 11, part 1.

75-6-301. Short title. This part may be cited as the "Regional Water and Wastewater Authority Act".

History: En. Sec. 1, Ch. 498, L. 1999.

75-6-302. Purpose. (1) It is the purpose of this part to permit certain public agencies to make the most efficient use of their powers relating to public water supplies and the transportation and treatment of wastewater by enabling them to cooperate with other public agencies on a basis of mutual advantage and to provide services and facilities to participating public agencies. It is also the purpose of this part to provide for the establishment of a public body, corporate and politic, that is known as a regional water authority or, when appropriate, a regional wastewater authority or regional water and wastewater authority. The function of the regional water authority is to secure a source of water on a scale larger than is feasible for individual public agencies acting alone and to sell the water to public service districts, municipalities, publicly and privately owned water utilities, and others. The function of the regional wastewater authority is to enable public agencies to join together to provide the most economical method of transportation and treatment of wastewater and to provide the transportation and treatment services to public service districts, municipalities, publicly and privately owned wastewater utilities, and others. The function of the regional water and wastewater authority is to enable public agencies to join together to carry out the joint functions of both a regional water authority and a regional wastewater authority.

(2) In addition to the purposes for which it may have originally been created, any authority created pursuant to this part may enter into agreements with public agencies, privately owned utilities, and other authorities for the provision of related services, including but not limited to the following:

(a) administration;

(b) operation and maintenance; and

(c) billing and collection.

History: En. Sec. 2, Ch. 498, L. 1999.

75-6-303. Liberal construction. The provisions of this part are necessary for the public health, safety, and welfare and must be liberally construed to effectuate the purposes of this part.

History: En. Sec. 20, Ch. 498, L. 1999.

75-6-304. Definitions. For the purposes of this part, the following definitions apply:

(1) "Authority" means any regional water authority, regional wastewater authority, or regional water and wastewater authority organized pursuant to the provisions of this part.

(2) "Public agency" means any municipality, county, water and sewer district, or other political subdivision of this state.

History: En. Sec. 3, Ch. 498, L. 1999.

75-6-305. Joint exercise of powers by certain public agencies — agreements among agencies — filing of agreement — prohibition against competition — retirement of bonds. (1) Any powers, privileges, or authority of a public agency of this state relating to public water supplies or the transportation or treatment of wastewater may be exercised jointly with any other public agency of this state or with any agency of the United States to the extent that the laws of the United States permit. An agency of the state government when acting jointly with any public or private agency may exercise all of the powers, privileges, and authority conferred by this part upon a public agency.

(2) A public agency may enter into agreements with one or more other public agencies for the purpose of organizing an authority. Appropriate action by ordinance, resolution, or otherwise pursuant to law of the governing bodies of the participating public agencies is necessary before any agreement may take effect.

(3) An agreement must specify the following:

(a) its duration;

(b) the precise organization, composition, and nature of the authority created, together with the powers delegated to the authority;

(c) its purpose or purposes;

(d) the manner of financing for the authority and of establishing and maintaining a budget for the authority;

(e) the permissible methods for partial or complete termination of the agreement and for disposing of property upon partial or complete termination;

(f) the manner of acquiring, holding, and disposing of real and personal property of the authority; and

(g) any other necessary and proper matters.

(4) An agreement may be amended to include additional public agencies by consent of two-thirds of the signatories to the agreement, if the terms of the agreement are not changed. Otherwise, a new agreement with the new public agency must be made. When only two public agencies form an authority, both parties shall consent to the amendment of the agreement to include additional public agencies.

(5) Prior to taking effect, an agreement made under this part must be filed with the clerk of the county commission of each county in which a member of the authority is located and the agreement then must also be filed with the secretary of state, accompanied by a certificate from the clerk of the county commission of the county or counties where filed, stating that the agreement has been filed in that county.

(6) A public agency that enters into an agreement made under this part may not offer or provide water or wastewater services in competition with another public agency entering into the agreement.

(7) A public agency that enters into an agreement made under this part may not withdraw from the agreement until the outstanding bonded indebtedness of the authority is retired or the bondholders are otherwise protected.

History: En. Sec. 4, Ch. 498, L. 1999.

75-6-306. Furnishing of funds, personnel, or services by certain public agencies — agreements for purchase, sale, distribution, transmission, transportation, and treatment of water or wastewater — terms and conditions. A public agency entering into an agreement pursuant to this part may appropriate funds and may sell, lease, give, or otherwise supply to the authority personnel or services for the operation of the authority as may be within its legal power to furnish. A public agency, whether or not a party to an agreement pursuant to this part, and a publicly or privately owned water distribution company may enter into contracts with an authority, created pursuant to this part, for the purchase of water from the authority or the sale of water to the authority, for the treatment of water by either party, and for the distribution or transmission of water by either party. The authority may enter into the contracts. A public agency, whether or not a party to an agreement pursuant to this part, and a publicly or privately owned wastewater transportation or treatment system may enter into contracts with an authority, created pursuant to this part, for the transportation and treatment of wastewater by either party. The authority may enter into the contracts, subject to the prior approval of the public service commission, if the privately owned wastewater transportation or treatment system is subject to the jurisdiction of the public service commission. However, if the public service commission has not acted on a proposed contract within 90 days of its filing, approval is considered to have been granted. A contract may include an agreement for the purchase of water not actually received or the treatment of wastewater not actually treated. A contract may not be for a period in excess of 40 years, but renewal options may be included in the contract. The obligations of a public agency under a contract must be payable solely from the revenue produced from the public agency's water or wastewater system, and the public service commission, in the case of a water system whose rates are subject to its jurisdiction, shall permit the water system to recover through its rates revenue sufficient to meet its obligations under the agreement.

History: En. Sec. 6, Ch. 498, L. 1999.

75-6-311. Governing body — appointments — terms of members — voting rights. (1) The governing body of the authority shall consist of not less than three persons selected by the participating public agencies. Each participating public agency shall appoint at least one member. Each member's full term may not be less than 1 year or more than 4 years, and initial terms must be staggered in accordance with procedures set forth in the agreement provided for in 75-6-305 and amendments to the agreement. In the case of an authority that is made up by the agreement of two public agencies, each public agency shall appoint two representatives to the governing body.

(2) The manner of selection of the governing body and terms of office must be set forth in the agreement provided for in 75-6-305 and amendments to the agreement. The governing body of the authority shall elect one of its members as president, one as treasurer, and one as secretary.

(3) Each member has one vote in any matter that comes before the authority for decision. However, the member agencies shall, in the original agreement establishing the authority, set forth any special weighing of votes based upon population served, volumes of water purchased, volumes of wastewater treated, numbers of customers, or some other criterion that the authority considers appropriate for maintaining fairness in the decisions and operations of the authority.

History: En. Sec. 7, Ch. 498, L. 1999.

75-6-312. Meetings of governing body — annual audit. The governing body of the authority shall meet as often as the needs of the authority require, but not less frequently than on a quarterly basis. The authority is subject to the provisions of Title 2, chapter 3, regarding open meeting laws and public participation. The governing body shall cause an annual audit of the financial records of the authority to be made. The cost of the audit must be paid by the authority. The authority is considered a local government entity for purposes of Title 2, chapter 7, part 5, and audits must comply with the provisions of that part.

(2) The governing body may accept by gift or grant from any person, firm, corporation, trust, or foundation, from this state or any other state or any political subdivision or municipality of this or any other state, or from the United States any funds or property or any interest in funds or property for the uses and purposes of the authority. The governing body may hold title to the funds or property in trust or otherwise and may bind the authority to apply the funds or property according to the terms of the gift or grant.

(3) The governing body may sue and be sued.

(4) The governing body may enter into franchises, contracts, and agreements with this or any other state, the United States, any municipality, political subdivision, or authority of a political subdivision, or any of their agencies or instrumentalities; any Indian tribe; or any public or private person, partnership, association, or corporation of this state or of any other state or the United States. This state and any municipality, political subdivision, or authority of a political subdivision or any of their agencies or instrumentalities and any public or private person, partnership, association, or corporation may enter into contracts and agreements with the authority for any term not exceeding 40 years for the planning, development, construction, acquisition, maintenance, or operation of a facility or for any service rendered to, for, or by the authority. However, the authority is subject to the same statutory requirements for competitive bidding and procurement contracts as would be applicable to any member public agency.

(5) The governing body may borrow money and evidence the borrowing by warrants, notes, or bonds provided for in this part and may refund the indebtedness by the issuance of refunding obligations.

(6) The governing body may acquire land and interests in land by gift, purchase, exchange, or eminent domain. The power of eminent domain may be exercised within or outside of the boundaries of the authority in accordance with the provisions of Title 70, chapter 30.

(7) The governing body may acquire by purchase or lease, construct, install, and operate reservoirs, pipelines, wells, check dams, pumping stations, water purification plants, and other facilities for the production, distribution, and use of water and transportation facilities, pump stations, lift stations, treatment facilities, and other facilities necessary for the transportation and treatment of wastewater and may own and hold real and personal property that may be necessary to carry out the purposes of its organization.

(8) The governing body has the general management, control, and supervision of all the business, affairs, property, and facilities of the authority and of the construction, installation, operation, and maintenance of authority improvements. The governing body may establish regulations relating to authority improvements.

(9) The governing body may hire and retain agents, employees, engineers, and attorneys and determine their compensation. The governing body shall select and appoint a general manager of the authority who shall serve at the pleasure of the governing body. The general manager must have training and experience in the supervision and administration of the system or systems operated by the authority and shall manage and control the system under the general supervision of the governing body. All employees, servants, and agents of the authority must be under the immediate control and management of the general manager. The general manager shall perform all other duties that may be prescribed by the governing body and shall give the governing body a good and sufficient surety company bond in a sum to be set and approved by the governing body, conditioned upon the satisfactory performance of the general manager's duties. The governing body may also require that any other employees be bonded in an amount that it shall determine. The cost of a bond must be paid out of the funds of the authority.

(10) The governing body may adopt and amend rules and regulations not in conflict with the constitution and laws of this state, necessary for carrying on the business, objects, and affairs of the governing body and of the authority.

75-6-320. Revenue bonds. For constructing or acquiring any water supply, wastewater transportation, or treatment system for the authorized purposes of the authority or as necessary or incidental to the authorized purposes, for constructing improvements and extensions to improvements, and for reimbursing or paying the costs and expenses of creating the authority, the governing body of an authority may borrow money from time to time and in evidence of the borrowing issue revenue bonds of the authority. The revenue bonds are a lien on the revenue produced from the operation of the authority's system, but may not be general obligations of the public agencies participating in the agreement. All revenue bonds issued under this part must be signed by the president of the governing body of the authority and attested by the secretary of the governing body of the authority. The bonds must contain recitals stating the authority under which the bonds are issued, that they are to be paid by the authority from the net revenue derived from the operation of the authority's system and not from any other fund or source, and that the bonds are negotiable and payable solely from the revenue derived from the operation of the system under control of the authority. However, in the case of a regional water and wastewater authority, the statutory lien created by this section is a lien only on the revenue of that service funded by the proceeds of the sale of the bonds, it being understood that the combined authority shall maintain separate books and records for its water and wastewater operations. The bonds may be issued in one or more series, may bear a date or dates, may mature at a time or times not exceeding 40 years from their respective dates, may bear interest at a rate not exceeding 2% above the interest rate on treasury notes, bills, or bonds of the same term as the term of the bond or bonds the week of closing on the bond or bonds as reported by the treasury of the United States, may be payable at the times, may be in the form, may carry registration privileges, may be executed in the manner, may be payable at a place or places, may be subject to terms of redemption with or without premium, may be declared or become due before the maturity date, may be authenticated in any manner and upon compliance with the conditions, and may contain terms and covenants that may be provided by resolution or resolutions of the governing body of the authority. Notwithstanding the form or tenor of the bonds, and in the absence of any express recital on the face of the bonds, that the bonds are nonnegotiable, all bonds must be, and must be treated as, negotiable instruments for all purposes. Bonds bearing the signatures of officers in office on the date of the signing of the bonds must be valid and binding for all purposes, notwithstanding that before the delivery of the bonds, any of the persons whose signatures appear on the bonds ceased to be officers. Notwithstanding the requirements or provisions of any other law, bonds may be negotiated or sold in the manner and at the time or times that are found by the governing body to be most advantageous, and all bonds may be sold at the price that the interest cost of the proceeds from the bonds does not exceed 3% above the interest rate on treasury notes, bills, or bonds of the same term as the term of the bond or bonds the week of closing on the bond or bonds as reported by the treasury of the United States, based on the average maturity of the bonds and computed according to standard tables of bond values. Any resolution or resolutions providing for the issuance of the bonds may contain covenants and restrictions upon the issuance of additional bonds that are considered necessary or advisable for the assurance of the payment of the bonds authorized by the resolutions.

History: En. Sec. 10, Ch. 498, L. 1999.

75-6-321. Items included in cost of properties. The cost of any water supply, wastewater transportation, or treatment system acquired or constructed under the provisions of this part must be considered to include the cost of the acquisition or construction of the supply or system and the cost of all property rights, easements, and franchises considered necessary or convenient for the supply or system and for the improvements and extensions to the supply or system. Costs also include interest on bonds prior to and during construction or acquisition and for 6 months after completion of construction or of acquisition of the improvements and extensions; engineering expenses; fiscal agent and legal expenses; expenses for estimates of cost and of revenue; expenses for plans, specifications, and surveys; other expenses necessary or incidental to determining the feasibility or practicability of the enterprise; administrative expense; and other expenses that may be necessary or incidental to the financing authorized in this part, the construction or acquisition of the properties, the placing of the properties in operation, and the performance of the things required or permitted, in connection with any property.

History: En. Sec. 11, Ch. 498, L. 1999.

75-6-322. Trust indenture. In the discretion and at the option of the governing body of the authority, bonds may be secured by a trust indenture by and between the authority and a corporate trustee, which may be a trust company or bank that has the powers of a trust company within or outside of the state. However, a trust indenture may not convey, mortgage, or create a lien upon the water supply, wastewater transportation, or treatment system, any part of the system, or the authority or its member public agencies. The resolution authorizing the bonds and fixing the details of the bonds may provide that the trust indenture may contain provisions for protecting and enforcing the rights and remedies of bondholders as may be reasonable and proper and not in violation of law, including covenants setting forth the duties of the authority and the members of its governing body and officers in relation to the construction or acquisition of the water supply, wastewater transportation, or treatment system and the improvement, extension, operation, repair, maintenance, and insurance of the bonds and the custody, safeguarding, and application of all money. The resolution may also provide that all or any part of the construction work must be contracted for, constructed, and paid for under the supervision and approval of consulting engineers employed or designated by the governing body and satisfactory to the original bond purchasers, their successors, assignees, or nominees, who may be given the right to require that the security given by contractors and by any depository of the proceeds of bonds or revenue of the water supply, wastewater transportation, or treatment system or other money pertaining to the supply or system be satisfactory to the purchasers, their successors, assignees, or nominees. The indenture may set forth the rights and remedies of the bondholders and the trustee.

History: En. Sec. 12, Ch. 498, L. 1999.

75-6-323. Sinking fund for revenue bonds. At or before the time of the issuance of any bonds under this part, the governing body of the authority shall by resolution or in the trust indenture provide for the creation of a sinking fund and for monthly payments into the sinking fund from the revenue of the water supply, wastewater transportation, or treatment system operated by the authority sums in excess of the cost of maintenance and operation of the properties that will be sufficient to pay the accruing interest and retire the bonds at or before the time that each will respectively become due and to establish and maintain reserves for the bonds. All sums that are or should be, in accordance with the provisions, paid into the sinking fund must be used solely for payment of interest and for the retirement of the bonds at or prior to maturity, as may be provided or required by the resolutions.

History: En. Sec. 13, Ch. 498, L. 1999.

75-6-324. Collection of revenue and enforcement of covenants — default — suit to compel performance — appointment and powers of receiver. The governing body of an authority may insert enforceable provisions in a resolution authorizing the issuance of bonds relating to the collection, custody, and application of revenue of the authority from the operation of the water supply, wastewater transportation, or treatment system under its control and relating to the enforcement of the covenants and undertakings of the authority. If there is a default in the sinking fund provisions provided for in 75-6-323 or in the payment of the principal or interest on any of the bonds or if the authority or its governing body or any of its officers, agents, or employees fail or refuse to comply with the provisions of this part or default in any covenant or agreement made with respect to the issuance of the bonds or offered as security for the bonds, then any holder or holders of the bonds and any trustee under the trust indenture, if there is one, has the right by suit, action, mandamus, or other proceeding instituted in the district court in any of the counties in which the authority operates or in any other court of competent jurisdiction to enforce and compel performance of all duties required by this part or undertaken by the authority in connection with the issuance of the bonds. Upon application by any holder or holders of the bonds or the trustee of the trust indenture, the court shall, upon proof of the defaults, appoint a receiver for the affairs of the authority and its property. The receiver shall directly, or through its agents and attorneys, enter and take possession of the affairs of the authority. The receiver may hold, use, operate, manage, and control the authority and, in the name of the authority, exercise all of the rights and powers of the authority as considered expedient. The receiver may collect and receive all revenue and apply the revenue in the manner that the court shall direct. Whenever the default causing the appointment of the receiver has been cleared and fully discharged and all other defaults have been cured, the court, after notice and hearing as it considers reasonable and proper, may direct the receiver to surrender possession of the affairs of the authority to its governing body. The receiver may not sell, assign, mortgage, or otherwise dispose of any assets of the authority except as provided in this section.

75-6-325. Statutory mortgage lien. There is a statutory mortgage lien upon the water supply, wastewater transportation, or treatment system of the authority. The lien exists in favor of the holders of bonds authorized to be issued pursuant to this part, and each holder and the system remain subject to the statutory mortgage lien until payment in full of all principal of and interest on the bonds.

History: En. Sec. 15, Ch. 498, L. 1999.

75-6-326. Rates and charges. The governing body shall by appropriate resolution make provisions for the payment of bonds issued pursuant to this part by taxing rates, fees, and charges, for the use of all services rendered by the authority. The rates, fees, and charges must be sufficient to pay the costs of operation, improvement, and maintenance of the authority's water supply or wastewater transportation or treatment system, provide an adequate depreciation fund, provide an adequate sinking fund to retire any bonds and pay interest on the bonds when due, and create reasonable reserves for the enumerated purposes. The rates, fees, or charges must be sufficient to allow for miscellaneous and emergency or unforeseen expenses. The resolution of the governing body authorizing the issuance of revenue bonds may include agreements, covenants, or restrictions considered necessary or advisable by the governing body to effect the efficient operation of the system, to safeguard the interests of the holders of the revenue bonds, and to secure the payment of the bonds and the interest on the bonds.

75-6-327. Refunding revenue bonds. If the authority has issued bonds under the provisions of this part, it may by resolution issue refunding bonds for the purpose of retiring or refinancing outstanding bonds, together with any unpaid interest on the bonds and any redemption premium. All of the provisions of this part relating to the issuance, security, and payment of bonds apply to the refunding bonds. However, the bonds are subject to the provisions of the proceedings that authorized the issuance of the bonds to be refunded.

75-7-202. Definitions. As used in this part, the following definitions apply:

(1) "Lake" means a body of standing water and the area within its lakeshore occurring naturally rather than by virtue of constructed impoundments (although a natural lake whose level is raised and whose area is increased by the construction of impoundments includes the additional level and area), having a water surface area of at least 160 acres for at least 6 months in a year of average precipitation as such averages are determined by the United States geological survey, not used exclusively for agricultural purposes, and navigable by canoes and small boats.

(2) "Lakeshore" is the perimeter of a lake when the lake is at mean annual high-water elevation, including the land within 20 horizontal feet from that high-water elevation.

(3) "Local governing body" or "governing body" is that unit of local government authorized to administer the Montana Subdivision and Platting Act on the land adjoining a lake or part of a lake subject to this part.

(4) "Mean annual high-water elevation" is the mean average of the highest elevation of a lake in each of at least 5 consecutive years, excluding any high levels caused by erratic or unusual weather or hydrological conditions. A highest elevation caused by operation of a dam or other impoundment counts toward the establishment of the mean annual high-water elevation.

In the event the revenues of a solid waste management system are insufficient to pay the costs, a local government may levy a pro rata fee against the users of the solid waste management district. The pro rata fee shall be based on a per ton, per pound, or volume assessment.

(1) The department may prepare rules for adoption by the board, pursuant to 75-10-104 and 75-10-106, that set fees for the management and regulation of solid waste at facilities subject to regulation pursuant to part 2 of this chapter. Upon adoption by the board, the department may collect the fees. These fees may include:

(a) a license application fee that reflects the cost of reviewing a new solid waste management system or a substantial change to an existing facility;

(b) a flat annual license renewal fee that reflects a minimal base fee related to the fixed costs of an annual inspection and license renewal and that is based upon the categorization of solid waste management systems into separate classes identified by the following criteria:

(i) the quantity of solid waste received by the solid waste management system;

(ii) the nature of the solid waste received; and

(iii) the nature of the waste management occurring within the solid waste management system;

and

(c) a tonnage or volume-based fee on solid waste disposal.

(2) All fees collected must be deposited in the solid waste management account provided for in 75-10-117.

2001 Amendment: Chapter 170 in (1) in first sentence after "may" substituted "prepare rules for adoption by the board, pursuant to 75-10-104 and 75-10-106, that set" for "establish and collect" and after "waste" substituted "at facilities subject to regulation pursuant to part 2 of this chapter" for "disposal" and inserted second sentence authorizing department to collect fees upon board's adoption of rules; at beginning of (1)(b) substituted "a flat annual license renewal fee" for "an annual license renewal fee" and at end substituted language basing fee on categorization of solid waste management systems into separate classes by three outlined criteria for former language that read: "based upon the following formula:

(i) for a major facility with a planned capacity of more than 25,000 tons of solid waste a year, $3,500;

(ii) for an intermediate facility with a planned capacity of more than 5,000 tons a year but not more than 25,000 tons a year, $3,000;

(iii) for a minor facility with a planned capacity of not more than 5,000 tons a year, $2,500"; and in (1)(c) inserted "tonnage or". Amendment effective March 30, 2001.

75-10-116. Penalties for failure to pay fee. A person who owns a solid waste disposal facility that is subject to the fees under 75-10-115 and who fails to pay the fee in the manner provided by department rule is subject to a fine of not more than $2,000 or imprisonment not to exceed 6 months, or both, and shall reimburse the department for the amount of the fee owed and interest calculated at a rate equal to the previous fiscal year's average rate of return on the board of investments' short-term investment pool.

(2) The department shall establish a schedule of payments to be made by a local government under a loan agreement. Payment shall be made in an amount sufficient to pay the principal and interest cost of the loan obtained from the department.

(3) If a local government fails to comply with the payment schedule established by the department, the state may, after giving 30 days' written notice, withhold an equal share of any state taxes which are otherwise apportioned to the local government.

History: En. 69-4018 by Sec. 8, Ch. 575, L. 1977; R.C.M. 1947, 69-4018(4), (5), (7).

75-10-125. Solid waste management implementation grants. (1) The department, in the name of the state of Montana, may enter into an agreement with a local government for a grant of front-end implementation funds to a local government.

(2) The terms of the agreement, in addition to those prescribed by rules of the board, must include the following:

(a) the amount of the grant, not to exceed 50% of the reasonable purchase price of the capital equipment to be used by the local government in its solid waste management system;

(b) an agreement by the local government:

(i) to operate and maintain a solid waste management system in accordance with plans approved by the department, with applicable provisions of part 2 of this chapter and with rules of the department; and

(ii) not to discontinue operations or terminate a solid waste management system without the approval of the department;

(c) an agreement by the local government that if it trades or sells the capital equipment purchased with grant funds within 5 years of the date of execution of the grant agreement, the local government shall pay to the department an amount equal to the fair market value of the capital equipment on the date of the trade or sale;

(d) certification by the local government that any front-end implementation funds received pursuant to this section will be used solely for the purpose stated in the grant agreement; and

(e) an agreement by the local government to establish and maintain adequate financial records for the solid waste management system, including, within 60 days of the date of termination of the grant agreement, an audit by a certified public accountant of the financial records and transactions. A copy of this audit must be submitted to the department of administration and the department within 30 days of its completion.

(3) In granting front-end implementation funds to local governments, the department may consider only local government applications that include a solid waste management system plan that conforms to the state solid waste management plan and that specify the method by which the solid waste management system will be financed.

(4) No local government may receive a grant of front-end implementation funds under this section unless its solid waste management system plan has been approved by the department and the method of financing the approved solid waste management system has been implemented.

75-10-207. Ground water monitoring. (1) Owners and operators of municipal solid waste landfills and other disposal sites that at any time accepted household waste, that are in operation as of October 1, 1989, and that serve a geographic area with a population of 5,000 or more persons as determined by the most recent census are required to monitor ground water as specified by the department.

(2) If the owner or operator of a municipal solid waste landfill or other disposal site specified in subsection (1) can demonstrate to the department that there is no potential for migration of constituents from the site that could cause pollution of ground water during the active life of the site, including the closure period, and during postclosure care, the requirement for ground water monitoring specified in subsection (1) does not apply. The information provided to the department to make this demonstration must be certified by a qualified geologist, hydrogeologist, or geotechnical engineer and must include reliable site-specific data.

(3) Based on site-specific information that owners and operators of municipal solid waste landfills and other disposal sites specified in subsection (1) provide to the department, the department shall establish a priority compliance list that identifies those sites where there is the greatest risk that constituents from the sites may cause pollution of ground water, considering:

(a) proximity to current and potential drinking water supplies;

(b) site hydrologic and geologic characteristics; and

(c) age and design of the site.

(4) Owners and operators of municipal solid waste landfills and other disposal sites specified in subsection (1) shall submit proposed plans to the department for accomplishing ground water monitoring, consistent with requirements specified by department rules. The plans may be based on the information owners and operators provide to the department as specified in subsection (3). The department may approve the plans as submitted or require modifications to the plans as necessary to accomplish the purposes of this section.

(5) All sites included on the priority compliance list authorized by subsection (3) must comply with this section by January 1, 1991. All other sites subject to this section must comply by January 1, 1992.

An application must contain, at a minimum, the name and business address of the applicant, the location of the proposed facility, a plan of operation and maintenance, and a description of pertinent site characteristics.

(3) A permit may be issued for a period specified by the department and is subject to renewal by the department upon a showing that the facility has been operated in accordance with the terms of the permit and the rules applicable to the facility and in compliance with the provisions of this part and any applicable order of the board or department.

(4) Any permit issued is subject to revocation by the department for failure of the permittee to comply with the terms and conditions of the permit, the department rules, an order of the board or the department, or the provisions of this part. Any person who is denied a permit by the department or who has a permit revoked or modified shall be afforded an opportunity for a hearing before the board upon written application made within 30 days after service of notice of denial, revocation, or modification by mail. Service by mail is complete upon mailing.

(5) Notwithstanding any other provisions of this part, the department may, in the event of an imminent and substantial danger to public health or the environment, issue a temporary emergency permit to any person for treatment, storage, or disposal of hazardous waste or to any facility to handle hazardous waste not covered by the existing facility permit. Emergency permits may be oral or written, may not exceed 90 days in duration, and may be terminated by the department at any time prior to 90 days.

(6) The department may, as it considers appropriate, grant permits by rule to classes or categories of hazardous waste management facilities where the facility owner or operator is already licensed or permitted by the department pursuant to other state environmental statutes or where an interim period exists until final administrative disposition of a permit application is made.

(7) In permits issued under this section, the department shall require corrective action for all releases of hazardous waste or constituents at a treatment, storage, or disposal facility, including corrective action for releases that extend beyond the facility boundaries if necessary to protect public health or the environment. A permit must contain a schedule of compliance for corrective action and requirements for assurance of financial responsibility for completion of the corrective action.

(8) Each permit issued by the department to a person owning or operating a facility must contain the terms and conditions the department considers necessary to protect human health and the environment.

If it is determined that an application for a certificate under the Montana Major Facility Siting Act, Title 75, chapter 20, will result in the generation, transportation, storage, or disposal of hazardous wastes as defined in 75-10-403, the department shall conduct its review under the provisions of this part concurrently with the studies of air and water quality conducted under the provisions of the Montana Major Facility Siting Act. A decision to grant or deny a permit for the treatment, storage, or disposal of hazardous wastes under the provisions of 75-10-406 is appealable concurrently with and subject to the same procedures established for the appeal of the department's air and water quality certification decision under the Montana Major Facility Siting Act. If the initial permit has been granted as specified in this section, all renewals or modifications of a permit or enforcement actions concerning alleged violations of the permit and the provisions of this part shall be conducted pursuant to the procedures and enforcement provisions established in this part.

History: En. Sec. 14, Ch. 358, L. 1981.

75-10-408. Variances — renewals. (1) A person who is a generator or transporter of hazardous wastes or who owns or operates a hazardous waste management facility may apply to the board for a variance or partial variance from the application of or compliance with any requirement of this part or any rule adopted under this part. The board may grant a variance or partial variance if it finds that:

(a) the applicant's actions or proposed actions regarding generation, transportation, treatment, storage, or disposal of hazardous wastes do not constitute a danger to public health or safety or cause substantially adverse environmental effects; and

(b) the application of or compliance with the requirement or rule would produce unreasonable hardship without equal or greater benefits to the public.

(2) No variance or partial variance may be granted except after public hearing on due notice and until the board has considered the relative interests of the applicant, other persons specifically affected, and the general public.

(3) No variance or partial variance may be granted for a period to exceed 1 year, but the variance or partial variance may be renewed for like periods if no complaint is made to the board because of it or if, after the complaint has been made and duly considered at a public hearing held by the board on due notice, the board finds that renewal is justified. No renewal may be

granted except on application therefor. An application for renewal shall be made in the manner and upon such notice as specified in rules promulgated under this part. A renewal pursuant to this subsection shall be on the same grounds and subject to the same limitations and requirements as provided in subsection (1).

(4) A variance, partial variance, or renewal thereof is not a right of the applicant or holder thereof but shall be granted at the discretion of the board. However, a person adversely affected by a variance, partial variance, or renewal granted by the board may obtain judicial review thereof as provided by the judicial review of contested case provisions of the Montana Administrative Procedure Act.

(5) Nothing in this section and no variance, partial variance, or renewal granted pursuant to this section may be construed to prevent or limit the application of the emergency provisions and procedures of 75-10-415.

(6) Under no conditions may a variance be granted by the board that would result in a less stringent requirement or degree of control than would be imposed by the applicable federal regulations adopted under the federal Resource Conservation and Recovery Act.

(ii) used oil is or has been generated, stored, treated, disposed of, or loaded for transportation; or

(iii) records pertinent to the used oil or hazardous waste activities are maintained.

(b) The employee or agent of the department may have access to and may copy any records relating to the used oil or hazardous wastes for the purposes of developing rules under this part or enforcing the provisions of this part, rules adopted under this part, or a permit or an order issued under this part.

(2) In the course of an inspection under this section, the employee or agent of the department may take samples of any substances, used oil, or wastes, including samples from any soil or ground water or from any vehicle in which used oil or wastes are transported, or samples of any containers or labeling for the substances, used oil, or wastes. If the employee or agent of the department takes a sample of any used oil, hazardous waste, or suspected hazardous waste, the employee or agent shall, prior to leaving the premises, give to the owner, operator, or agent in charge a receipt describing the sample taken and, if requested, a portion of each sample equal in volume or weight to the portion retained. If any analysis is made of the samples, a copy of the results of the analysis must be furnished to the owner, operator, or agent in charge.

75-10-411. Hazardous waste site inventory. (1) The department is authorized to conduct an inventory of sites and locations in the state where hazardous wastes have been stored or disposed of at any time.

(2) If the department determines that the presence of a hazardous waste or the release of the waste or any waste constituent may present a substantial hazard to the public health or the environment, it may issue an order requiring the owner or operator of the facility or site to conduct reasonable monitoring, testing, analysis, and reporting with respect to the site in order to ascertain the nature and extent of the hazard.

(3) In the case of any facility or site not in operation at the time that a determination is made under subsection (2) with respect to the facility or site, if the department finds that the owner of the facility or site could not reasonably be expected to have actual knowledge of the presence of hazardous waste at the facility or site and of its potential for release, it may issue an order requiring the most recent previous owner or operator of the facility or site who could reasonably be expected to have actual knowledge to carry out the actions referred to in subsection (2).

(4) An order issued under subsection (2) or (3) must require that the person to whom the order is issued submit to the department within 30 days a proposal for carrying out the required monitoring, testing, analysis, and reporting.

(5) If the department determines that the owner or operator referred to in subsection (2) or (3) is not able to conduct monitoring, testing, and analysis in a satisfactory manner, the department may conduct the activities.

(b) acquire interests in real property by gift, purchase, lease, or other means in order to develop any such facility;

(c) operate and maintain such a facility directly or through agreement with public or private persons; and

(d) collect reasonable fees to defray a portion of the costs of establishing, maintaining, and operating the facility.

75-10-413. Administrative enforcement. (1) When the department believes that a violation of this part, a rule adopted under this part, or a permit provision has occurred, it may serve written notice of the violation personally or by certified mail on the alleged violator or the violator's agent. The notice must specify the provision of this part, the rule, or the permit provision alleged to be violated and the facts alleged to constitute a violation and may include an order to take necessary corrective action within a reasonable period of time stated in the order. The order becomes final unless, within 30 days after the notice is served, the person named requests, in writing, a hearing before the board. On receipt of the request, the board shall schedule a hearing. Service by mail is complete on the date of mailing.

(2) If, after a hearing held under subsection (1), the board finds that a violation has occurred, it shall either affirm or modify the department's order. An order issued by the department or by the board may prescribe the date by which the violation must cease and may prescribe time limits for particular action. If, after hearing, the board finds that a violation has not occurred, it shall rescind the department's order.

(3) In addition to or instead of issuing an order pursuant to subsection (1), the department may:

(a) require the alleged violator to appear before the board or department, by subpoena or subpoena duces tecum, for a hearing at a time and place specified in the notice to answer the charges complained of or to provide information regarding the alleged violation or its actual or potential impact on public health and welfare or the environment; or

(b) initiate action under 75-10-414, 75-10-417, or 75-10-418.

(4) In the case of disobedience of any subpoena issued and served under this section or of the refusal of any witness to testify as to any material matter with regard to which the witness may be interrogated in a hearing or investigation before the board or the department, the board or department may apply to any district court in the state for an order to compel compliance with the subpoena or the giving of testimony. The court shall hear the matter as expeditiously as possible. If the disobedience or refusal is found to be unjustified, the court shall enter an order requiring compliance. Disobedience of the order is punishable by contempt of court in the same manner and by the same procedures as is provided for like conduct committed in the course of civil actions in district court.

(5) This section does not prevent the board or department from making efforts to obtain voluntary compliance through warning, conference, or any other appropriate means.

Before an application for the issuance, reissuance, renewal, or modification of a permit under 75-10-406 for a hazardous waste management facility may be approved, the applicant shall submit to the department a disclosure statement containing the following information:

(a) the name, business address, and social security number of the applicant;

(1) The department may deny an application for the issuance, reissuance, renewal, or modification of a permit for a hazardous waste management facility or impose additional conditions on a permit pursuant to subsection (2) if within 5 years before the date of the application:

(a) a civil complaint or administrative enforcement action for a violation of an environmental protection law has resulted in the assessment of a penalty against the applicant;

(b) a judgment of criminal conviction of an environmental protection law has been entered against the applicant;

(c) the applicant has a history of repeated violations of environmental protection laws; or

(d) a judgment or criminal conviction for a violation described in 75-10-426(1)(d) has been entered against the applicant.

(3) In making the decision to deny an application or to impose conditions on a permit pursuant to subsection (1), the department shall consider the following mitigating factors:

(a) the number, nature, and gravity of the violations of environmental protection laws or violations described in 75-10-426(1)(d);

(b) the degree of culpability of the applicant;

(c) the applicant's cooperation with the state or federal agencies involved in the complaints, enforcement actions, and convictions referred to in 75-10-426; and

2001 Amendment: Chapter 574 near middle after "part" deleted "and 61-3-508"; and made minor changes in style. Amendment effective July 1, 2001.

75-10-534. Department to pay approved county budget. The department shall pay to a county the amount of the approved junk vehicle collection and graveyard budget of the county. The yearly payment may not exceed $1 for each motor vehicle under 8,001 pounds gross vehicle weight that is licensed in that county. However, for those counties that have fewer than 5,000 such motor vehicles, the department may pay up to $5,000, providing the county can justify this payment. Counties realizing revenue from the sale of junk vehicles shall return to the state junk vehicle program revenue account money equal to the salvage value of each vehicle sold. The salvage value of a vehicle must be the average contract value of a crushed ton of junk vehicles as determined by the statewide salvage bids received by the department during the current fiscal year. Any additional revenue realized from the sale of junk vehicles may be retained by the county for use in the county's junk vehicle program in addition to the approved junk vehicle collection and graveyard budget of the county.

75-10-540. Administrative enforcement. (1) When the department determines that a violation of this part, a violation of a rule adopted under this part, or a violation of a license provision has occurred, it may serve written notice of the violation on the alleged violator or the violator's agent. The notice must specify the law, rule, or license provision alleged to be violated and the facts alleged to constitute a violation and may include an order to take necessary corrective action within a reasonable period of time. The order becomes final 30 days after the notice is served unless the person named requests, in writing, a hearing before the board. On receipt of the request for a hearing, the board shall schedule a hearing. Service by mail is complete on the date of mailing.

(2) If, after a hearing held under subsection (1), the board finds that a violation has occurred, it shall either affirm or change the department's order. An order may prescribe the date by which the violation must cease and may prescribe time limits for particular action. If, after a hearing, the board finds that a violation has not occurred, it shall rescind the department's order.

(3) The department shall make efforts to obtain voluntary compliance through warning, conference, or any other appropriate means before issuing an order pursuant to subsection (1).

75-10-601. Purpose. The legislature finds that the existence of hazardous substances and contaminants in the environment and hazardous waste disposal sites poses a significant health hazard through potential and actual contamination of the environment. This part is therefore enacted to protect the public health, safety, and welfare through cooperation with the federal government under the federal Comprehensive Environmental Response, Compensation, and Liability Act of 1980 to provide for the disposal and control of such hazardous substances and contaminants in a safe and environmentally sound manner.

History: En. Sec. 1, Ch. 241, L. 1983.

75-10-602. Definitions. As used in this part, the following definitions apply:

(1) "CERCLA" means the federal Comprehensive Environmental Response, Compensation, and Liability Act of 1980, Public Law 96-510.

(2) (a) "Contaminant" includes but is not limited to any element, substance, compound, or mixture, including disease-causing agents, that after release into the environment and upon exposure, ingestion, inhalation, or assimilation into any organism, either directly from the environment or indirectly by ingestion through food chains, will or may reasonably be anticipated to cause death, disease, behavioral abnormalities, cancer, genetic mutation, physiological malfunctions (including malfunctions in reproduction), or physical deformations in the organisms or their offspring.

(b) The term does not include petroleum (including crude oil or any fraction of crude oil that is not specifically listed or designated as a hazardous substance as provided in subsection (4)(a)) or natural gas, liquefied natural gas, synthetic gas of pipeline quality, or mixtures of natural gas and synthetic gas.

(3) "Department" means the department of environmental quality provided for in 2-15-3501.

(4) (a) "Hazardous substance" means:

(i) any substance designated pursuant to section 311(b)(2)(A) of the federal Water Pollution Control Act;

(ii) any element, compound, mixture, solution, or substance designated a hazardous substance by regulations promulgated by the administrator of the federal environmental protection agency pursuant to section 102 of CERCLA;

(iii) any hazardous waste having the characteristics identified under or listed pursuant to section 3001 of the federal Solid Waste Disposal Act (but not including any waste the regulation of which under the Solid Waste Disposal Act has been suspended by act of congress);

(iv) any toxic pollutant listed under section 307(a) of the Federal Water Pollution Control Act;

(v) any hazardous air pollutant listed under section 112 of the federal Clean Air Act; and

(vi) any imminently hazardous chemical substance or mixture with respect to which the administrator of the environmental protection agency has taken action pursuant to section 7 of the federal Toxic Substances Control Act.

(b) The term does not include petroleum (including crude oil or any fraction of crude oil that is not specifically listed or designated as a hazardous substance as provided in subsection (4)(a)) or natural gas, natural gas liquids, liquefied natural gas, synthetic gas usable for fuel, or mixtures of natural gas and synthetic gas.

(5) "Hazardous waste" means a solid waste or combination of solid wastes that because of its quantity, concentration, or physical, chemical, or infectious characteristics may:

(a) cause or significantly contribute to an increase in mortality or an increase in serious irreversible or incapacitating reversible illness; or

(b) pose a substantial present or potential hazard to human health or the environment when improperly treated, stored, transported, or disposed of or otherwise managed.

(6) "President" means the president of the United States.

(7) "Release" means any spilling, leaking, pumping, pouring, emitting, emptying, discharging, injecting, escaping, leaching, dumping, or disposing into the environment but excludes:

(a) any release that results in exposure to persons solely within a workplace, with respect to a claim that persons may assert against their employer;

(b) emissions from the engine exhaust of a motor vehicle, rolling stock, aircraft, vessel, or pipeline pumping station engine;

(c) (i) the release of source, byproduct, or special nuclear material from a nuclear incident, as those terms are defined in the federal Atomic Energy Act of 1954, if the release is subject to requirements with respect to financial protection established by the nuclear regulatory commission under section 170 of that act; or

(ii) for the purposes of section 104 of CERCLA or any other response action, any release of source byproduct or special nuclear material from any processing site designated under section 102(a)(1) or 302(a) of the federal Uranium Mill Tailings Radiation Control Act of 1978; and

(d) the normal application of fertilizer.

(8) (a) "Remedial action" means those actions consistent with a permanent remedy taken instead of or in addition to removal actions in the event of a release or threatened release of a hazardous substance into the environment that prevent or minimize the release of hazardous substances so that they do not migrate to cause substantial danger to the present or future public health or welfare or the environment. The term includes but is not limited to those actions at the location of the release as storage; confinement; perimeter protection using dikes, trenches, or ditches; clay cover; neutralization; cleanup of released hazardous substances or contaminated materials; recycling or reuse; diversion; destruction; segregation of reactive wastes; dredging or excavations; repair or replacement of leaking containers; collection of leachate and runoff; onsite treatment or incineration; provision of alternative water supplies; and any monitoring reasonably required to ensure that the actions protect the public health and welfare and the environment. The term includes the costs of permanent relocation of residents and businesses and community facilities if the president determines that, alone or in combination with other measures, the relocation is more cost-effective than and environmentally preferable to the transportation, storage, treatment, destruction, or secure disposition offsite of hazardous substances or is otherwise necessary to protect the public health or welfare.

(b) The term does not include offsite transport of hazardous substances or the storage, treatment, destruction, or secure disposition offsite of the hazardous substances or contaminated materials unless the president determines that the actions:

(i) are more cost-effective than other remedial actions;

(ii) will create a new capacity to manage, in compliance with subtitle C of the federal Solid Waste Disposal Act, hazardous substances in addition to those located at the affected facility; or

(iii) are necessary to protect public health or welfare or the environment from a present or potential risk that may be created by further exposure to the continued presence of the substances or materials.

History: En. Sec. 2, Ch. 241, L. 1983; amd. Sec. 199, Ch. 418, L. 1995.

75-10-603. Cooperative agreement — authority of department. (1) In order to assist in implementation of CERCLA, the department may, subject to the provisions of 75-10-107:

(a) participate in the determination of appropriate remedial action to deal with the release or threatened release within Montana of:

(i) any contaminant presenting an imminent and substantial danger to public health or welfare; or

(ii) any hazardous substance;

(b) in the event of the release or threatened release of any of the substances described in subsection (1)(a), negotiate the terms of a cooperative agreement with the federal government containing mutual commitments of each party to remedial action, including the elements required by subsection (2).

(2) A cooperative agreement may contain the following assurances:

(a) the state of Montana will ensure the future maintenance of the removal and remedial actions agreed upon for the expected life of the actions;

(b) a hazardous waste disposal facility is available to the state of Montana that meets the specifications of the president and complies with the requirements of subtitle C of the federal Solid Waste Disposal Act for necessary offsite storage, destruction, treatment, or secure disposition of the hazardous substances; and

(c) the state of Montana will pay or ensure payment of a share of the costs of the remedial action, including all future maintenance.

History: En. Sec. 3, Ch. 241, L. 1983; amd. Sec. 77, Ch. 10, L. 1993; amd. Sec. 16, Ch. 471, L. 1995.

75-10-604. Cooperative agreement — when effective. (1) If a cooperative agreement requires expenditure of state and federal funds which, together with the monetary obligation contained in any prior cooperative agreement made during the same biennium, exceeds the amount appropriated for that biennium for implementation of this part, the agreement is not effective until it is approved by the legislature and an appropriation is made providing the level of funding necessitated by the agreement.

(2) A cooperative agreement that does not require expenditure of funds exceeding the appropriation for the biennium for implementation of this part is effective when signed by the governor and the president or their respective representatives.

History: En. Sec. 4, Ch. 241, L. 1983.

75-10-605 through 75-10-620 reserved.

75-10-621. Hazardous waste/CERCLA special revenue account. (1) There is a hazardous waste/CERCLA special revenue account within the state special revenue fund established in 17-2-102.

(2) There must be paid into the hazardous waste/CERCLA account:

(a) revenue obtained from the interest income of the resource indemnity trust fund under the provisions of 15-38-202, together with interest accruing on that revenue;

(b) all proceeds of bonds or notes issued under 75-10-623 and all interest earned on proceeds of the bonds or notes; and

(c) revenue from penalties or damages collected under the federal Comprehensive Environmental Response, Compensation, and Liability Act of 1980, as amended in 1986 (CERCLA).

(3) Appropriations may be made from the hazardous waste/CERCLA account only for the following purposes and subject to the following conditions:

(a) funds are statutorily appropriated, as provided in 17-7-502(4), to the CERCLA match debt service account necessary to make principal, interest, and premium payments due on CERCLA bonds;

(b) not more than one-half of the interest income received for any biennium from the resource indemnity trust fund may be appropriated on a biennial basis for:

(i) implementation of the Montana Hazardous Waste Act, including regulation of underground storage tanks and the state share to obtain matching federal funds;

(ii) implementation of Title 75, chapter 10, part 6, pertaining to state assistance to and cooperation with the federal government for remedial action under CERCLA;

(iii) expenses of the department in administering and overseeing the implementation of Title 75, chapter 10, parts 4 and 6; and

(iv) state expenses relating to investigation and remedial action for any hazardous substance defined in 75-10-602; and

(c) to the extent funds are available after the appropriations in subsections (3)(a) and (3)(b), the department may, as appropriate, seek authorization from the legislature or, when the legislature is not in session, through the budget amendment process provided for in Title 17, chapter 7, part 4, to spend funds for:

(i) state participation in remedial action under section 104 of CERCLA;

(ii) state costs for maintenance of sites at which remedial action under CERCLA has been completed; and

(iii) the state share to obtain matching federal funds for underground storage tank corrective action.

(4) For the purposes of subsection (3)(c), the legislature finds that a need for state special revenue to obtain matching federal funds for underground storage tank corrective action or for remedial action under section 104 of CERCLA constitutes a serious unforeseen and unanticipated circumstance for the purpose of meeting the definition of "emergency" in 17-7-102. The legislature further finds that the inability of the department to match the federal funds as the funds become available would seriously impair the functions of the department in carrying out its responsibilities under Title 75, chapter 10, parts 4 and 6.

(5) There is no dollar limit to the hazardous waste/CERCLA account. Unused balances remain in the account until appropriated by the legislature for the purposes specified in this section.

History: En. Sec. 2, Ch. 408, L. 1987; amd. Sec. 15, Ch. 787, L. 1991; amd. Sec. 2, Ch. 16, Sp. L. November 1993.

75-10-622. CERCLA match debt service fund. (1) There is a CERCLA match debt service fund within the debt service fund type established in 17-2-102.

(2) The state pledges, allocates, and directs to be credited to the CERCLA match debt service fund as received an amount necessary to satisfy principal and interest payments due on outstanding CERCLA bonds.

History: En. Sec. 3, Ch. 408, L. 1987.

75-10-623. CERCLA bonds. (1) When authorized by the legislature and within limits of the authorization and the further limitations established in this section, the board of examiners may issue and sell CERCLA bonds of the state in the amount and manner it considers necessary and proper to finance the match requirements under section 104 of CERCLA and to finance the match requirements for federal money for underground storage tank corrective action. The full faith and credit and taxing powers of the state are pledged for the prompt and full payment of all bonds issued and interest and redemption premiums payable on the bonds according to their terms.

(2) Each series of CERCLA bonds may be issued by the board of examiners upon request of the department of environmental quality, at public or private sale, in the denominations and forms, whether payable to bearer with attached interest coupons or registered as to principal or as to both principal and interest, with provisions for conversion or exchange and for the issuance of notes in anticipation of the issuance of definitive bonds, bearing interest at a rate or rates, maturing at a rate or rates, maturing at the time or times not exceeding 30 years from date of issue, subject to optional or mandatory redemption at earlier times and prices and upon notice, with provisions for payment and discharge by the deposit of funds or securities in escrow for that purpose, and payable at the office of the banking institution or institutions within or outside the state, as the board of examiners determines, subject to the limitations contained in 17-5-731 and this section.

(3) In the issuance of each series of CERCLA bonds, the interest rates, maturities, and any mandatory redemption provisions of the bonds must be established in a manner that the funds then specifically pledged and appropriated by law to the CERCLA match debt service fund will, in the judgment of the board of examiners, be received in an amount sufficient in each year to pay all principal, redemption premiums, and interest due and payable in that year with respect to that and all prior series of the bonds, except outstanding bonds as to which the obligation of the state has been discharged by the deposit of funds or securities sufficient for their payment in accordance with the terms of the resolutions by which they are authorized to be issued.

(4) In all other respects, the board of examiners is authorized to prescribe the form and terms of the bonds and notes and shall do whatever is lawful and necessary for their issuance and payment. The bonds, notes, and any interest coupons appurtenant to the bonds and notes must be signed by the members of the board of examiners, and the bonds and notes must be issued under the great seal of the state of Montana. The bonds, notes, and coupons may be executed with facsimile signatures and seal in the manner and subject to the limitations prescribed by law. The state treasurer shall keep a record of all the bonds and notes issued and sold.

(5) All proceeds of bonds or notes issued under this section must be deposited in the hazardous waste/CERCLA special revenue account established in 75-10-621.

(6) All actions taken by the board of examiners under this section must be authorized by a vote of a majority of the members.

History: En. Sec. 4, Ch. 408, L. 1987; amd. Sec. 200, Ch. 418, L. 1995.

75-10-626. Agreement with department of environmental quality. For the proceeds of bonds or notes authorized and appropriated by this part, the board of examiners and the department of environmental quality may enter into an agreement under the terms of which the department shall pay the state treasurer, for deposit in accordance with 17-2-101 through 17-2-107, as determined by the state treasurer, an amount sufficient to pay the principal and interest as due on the bonds or notes from which the appropriation was made and to accumulate and maintain reserves as may be required under the bonds. The agreement must further provide that income from the investment of bond proceeds and the reserves not required for the purposes presented in 75-10-625 must be credited against the department's payment obligation. The agreement must also allow for the accumulation of reserves during the first year that the bonds are outstanding, if required. Payments by the department must be made from available funds.

75-10-702. Rulemaking authority. (1) The department is authorized to adopt rules for the implementation of this part, including but not limited to:

(a) rules for listing and delisting facilities on a priority list, required by 75-10-704, based on the following criteria:

(i) a facility eligible for listing must have a confirmed release or substantial threat of a release of a hazardous or deleterious substance that may pose an imminent and substantial threat to public health, safety, or welfare or the environment and the department shall provide a written description of the nature and severity of the threat;

(ii) if remedial actions to address the hazardous or deleterious substances are required at the facility by another state program, the department shall explain, in writing, its rationale for listing the facility;

(iii) listing and delisting must be done through a formal process that provides for public participation, including participation of the affected or potentially liable persons in the decisionmaking process, by giving public notice and providing opportunity for at least one public meeting in the community most likely to be threatened by the facility that is proposed for listing or delisting; and

(iv) a facility must be delisted when another state program assumes jurisdiction or when further remedial actions are not necessary;

(b) rules for establishing and implementing a system for prioritizing facilities, including categories for maximum and high-priority facilities, as required by 75-10-704, for remedial action based on potential effects on human health and the environment.

(2) The rulemaking authority granted in subsection (1) may not invalidate the existing priorities list. Rules promulgated pursuant to subsection (1) must provide for the reevaluation of facilities on the existing priorities list. A decision by the department to list, delist, or establish a priority for a facility must be made in writing.

(3) The department shall adopt, amend, or repeal rules that allow for the joint selection of remedial action contractors acceptable to the department and any person liable for remedial action under 75-10-715.

75-10-703. Actions — general provisions. (1) No action taken by any person to contain or remove a release, whether the action is taken voluntarily or at the request of the department or its designee, may be construed as an admission of liability for the discharge.

(2) Actions taken by the department pursuant to 75-10-711 and 75-10-712 are not subject to the public bidding requirements of Title 18.

History: En. Sec. 5, Ch. 711, L. 1985.

75-10-704. Environmental quality protection fund. (1) There is in the state special revenue fund an environmental quality protection fund to be administered as a revolving fund by the department. The department is authorized to expend amounts from the fund necessary to carry out the purposes of this part.

(2) The fund may be used by the department only to carry out the provisions of this part and for remedial actions taken by the department pursuant to this part in response to a release of hazardous or deleterious substances.

(3) The department shall:

(a) except as provided in subsection (7), establish and implement a system, including the preparation of a priority list, for prioritizing sites for remedial action based on potential effects on human health and the environment; and

(b) investigate, negotiate, and take legal action, as appropriate, to identify liable persons, to obtain the participation and financial contribution of liable persons for the remedial action, to achieve remedial action, and to recover costs and damages incurred by the state.

(4) There must be deposited in the fund:

(a) all penalties, forfeited financial assurance, natural resource damages, and remedial action costs recovered pursuant to 75-10-715;

(b) all administrative penalties assessed pursuant to 75-10-714 and all civil penalties assessed pursuant to 75-10-711(5);

(c) funds appropriated to the fund by the legislature;

(d) funds received from the interest income of the resource indemnity trust fund pursuant to 15-38-202;

(e) funds received from the interest income of the fund;

(f) funds received from settlements pursuant to 75-10-719(7); and

(g) funds received from the interest paid pursuant to 75-10-722.

(5) Whenever a legislative appropriation is insufficient to carry out the provisions of this part and additional money remains in the fund, the department shall seek additional authority to spend money from the fund through the budget amendment process provided for in Title 17, chapter 7, part 4.

(6) Whenever the amount of money in the fund is insufficient to carry out remedial action, the department may apply to the governor for a grant from the environmental contingency account established pursuant to 75-1-1101.

(7) (a) There is established a state special revenue account for all funds donated or granted from private parties to remediate a specific release at a specific facility. There must be deposited into the account the interest income earned on the account. A person is not liable under 75-10-715 solely as a result of contributing to this account.

(b) Funds donated or granted for a specific project pursuant to this subsection (7) must be accumulated in the fund until the balance of the donated or granted funds is sufficient, as determined by the department, to remediate the facility pursuant to the requirements of 75-10-721 for which the funds are donated.

(c) If the balance of the fund created in this subsection (7), as determined by the department pursuant to the requirements of 75-10-721, is not sufficient to remediate the facility within 1 year from the date of the initial contribution, all donated or granted funds, including any interest on those donated or granted funds, must be returned to the grantor.

(d) If the balance for a specific project is determined by the department to be sufficient to remediate the facility pursuant to the requirements of 75-10-721, the department shall give that site high priority for remedial action, using the funds donated under this subsection (7).

(e) This subsection (7) is not intended to delay, to interfere with, or to diminish the authority or actions of the department to investigate, negotiate, and take legal action, as appropriate, to identify liable persons, to obtain the participation and financial contribution of liable persons for the remedial action, to achieve remedial action, and to recover costs and damages incurred by the state.

(f) The department shall expend the funds in a manner that maximizes the application of the funds to physically remediating the specific release.

(8) (a) A person may donate in-kind services to remediate a specific release at a specific facility pursuant to subsection (7). A person who donates in-kind services is not liable under 75-10-715 solely as a result of the contribution of in-kind services.

(b) A person who donates in-kind services with respect to remediating a specific release at a specific facility is not liable under this part to any person for injuries, costs, damages, expenses, or other liability that results from the release or threatened release, including but not limited to claims for indemnification or contribution and claims by third parties for death, personal injury, illness, loss of or damage to property, or economic loss.

(c) Immunity from liability, pursuant to subsection (8)(b), does not apply in the case of a release that is caused by conduct of the entity providing in-kind services that is negligent or grossly negligent or that constitutes intentional misconduct.

(d) When a person is liable under 75-10-715 for costs or damages incurred as a result of a release or threatened release of a hazardous or deleterious substance, the person may not avoid that liability or responsibility under 75-10-711 by subsequent donations of money or in-kind services under the provisions of subsection (7) and this subsection (8).

(e) Any donated in-kind services that are employed as part of a remedial action pursuant to this subsection (8) must be approved by the department as appropriate remedial action.

75-10-706. Purpose. The purposes of this part are to:

(1) protect the public health and welfare of all Montana citizens against the dangers arising from releases of hazardous or deleterious substances;

(2) encourage private parties to clean up sites within the state at which releases of hazardous or deleterious substances have occurred, resulting in adverse impacts on the health and welfare of the citizens of the state and on the state's natural, environmental, and biological systems; and

(3) provide for funding to study, plan, and undertake the rehabilitation, removal, and cleanup of sites within the state at which no voluntary action has been taken.

History: En. Sec. 2, Ch. 709, L. 1989.

75-10-707. Information gathering and access. (1) The department may undertake any investigative or other information-gathering action that it considers necessary or appropriate for determining the need for remedial action, choosing or taking a remedial action, or otherwise enforcing the provisions of this part.

(2) Any authorized officer, employee, or representative of the department may require a person who has or may have information relevant to a release or threatened release of a hazardous or deleterious substance to furnish, upon request, any information or documents relating to but not limited to the following matters:

(a) the identification, nature, and quantity of a hazardous or deleterious substance that has been or is being generated, treated, stored, or disposed of at or transported from a facility;

(b) the nature or extent of a release or threatened release of a hazardous or deleterious substance at or from a facility;

(c) information relating to the ability of a person to pay for or to perform a cleanup; and

(d) any other information relevant to the department's determination of the appropriate remedial action to be taken or to the enforcement of this part.

(3) For purposes of assisting the department in acquiring information relevant to the need for, the determination of, or the taking of remedial action or otherwise enforcing the provisions

of this part, any authorized officer, employee, or representative of the department is authorized to:

(a) enter or have access at reasonable times to any facility or other place or property where:

(i) a hazardous or deleterious substance may be or has been generated, stored, treated, disposed of, or transported from;

(ii) there has been or may be a release of a hazardous or deleterious substance;

(iii) records or other relevant information regarding a release or threatened release is located;

(iv) entry is necessary to determine the need for any appropriate remedial action; or

(v) entry is necessary to effectuate a remedial action under this part; and

(b) inspect and obtain samples from the facility or other place or property referred to in subsection (3)(a) or from any location where a suspected hazardous or deleterious substance may be located. Any authorized officer, employee, or representative of the department is authorized to inspect and obtain samples of containers or labeling for suspected hazardous or deleterious substances. Each inspection must be completed with reasonable promptness. If the authorized officer, employee, or representative obtains samples, before leaving the premises that person shall give to the owner, operator, tenant, or other person in charge of the place from which the samples were obtained a receipt describing the sample obtained and, if requested, a portion of each sample. A copy of the results of any analysis made of the samples must be furnished promptly to the owner, operator, tenant, or other person in charge if that person can be located.

(4) The department may issue subpoenas for the attendance and testimony of witnesses and the production of relevant papers, books, or documents relating to the matters in subsections (2)(a) through (2)(d). The method for service of subpoenas and payment of witness fees and mileage is the same as that required in civil actions in the district courts of the state. In case of a refusal to obey a subpoena issued and served upon a person pursuant to this subsection, the district court for a district in which the person is found, resides, or transacts business, upon application of the department and after notice to the person, has jurisdiction to issue an order requiring the person to appear and either give testimony or produce documents, or both, before a hearings officer. A failure to obey the order of the court may be punished by the court as a contempt.

(5) If consent is not granted regarding a request made by an authorized officer, employee, or representative under this section, the director of the department may issue an order directing compliance with the request.

(6) The department may commence a civil action to compel compliance with an order issued pursuant to this section.

(7) In any action commenced pursuant to subsection (6) when the court determines that there may be an imminent and substantial threat to public health, safety, or welfare or the environment, the court shall enjoin any activity that constitutes a failure to comply with the order and shall direct compliance with the order unless, under the circumstances of the case, the order is arbitrary and capricious or otherwise not in accordance with law.

(8) Persons subject to the requirements of this section may make a written claim of confidentiality for information unique to the owner or operator of a facility that would, if disclosed, reveal methods or processes entitled to protection as trade secrets. The claim of confidentiality must be clearly designated on the materials at the time they are obtained by the department. If the department accepts the characterization, it shall maintain that information as confidential. Information describing physical or chemical characteristics of hazardous or deleterious substances that have been or may be released into the environment are not considered confidential. The department has access to and may use any trade secret information in carrying out the activities of this part as may be necessary to protect the public health, safety, or welfare or the environment while maintaining the information as confidential.

(3) Except as provided in 75-10-712, the department is authorized to draw upon the fund to take action under subsection (1) if it has made diligent good faith efforts to determine the identity of the person or persons liable for the release or threatened release and:

(7) In considering objections raised in a judicial action regarding orders issued under this part, the court shall uphold and enforce an order issued by the department unless the objecting party can demonstrate, on the administrative record, that the department's decision to issue the order was arbitrary and capricious or otherwise not in accordance with law.

(8) Instead of issuing a notification or an order under this section, the department may bring an action for legal or equitable relief in the district court of the county where the release or threatened release occurred or in the first judicial district as may be necessary to abate any imminent and substantial endangerment to the public health, safety, or welfare or the environment resulting from the release or threatened release.

Proceedings to recover costs and penalties must be conducted in accordance with 75-10-722. Venue for any action to recover costs, damages, or penalties lies in the county where the release occurred or where the person liable under subsection (1) resides or has its principal place of business or in the district court of the first judicial district.

(5) A person has a defense and is not liable under subsections (1), (2), and (3) if the person can establish by a preponderance of the evidence that:

(a) the department failed to provide notice to the person claiming the defense when required by 75-10-711. Establishment of this defense only prohibits the department from collecting those costs incurred or encumbered by the department prior to providing notice to the person and does not provide the person a defense to any other liability.

(b) the release did not emanate from any vessel, vehicle, or facility to which the person contributed any hazardous or deleterious substance or over which the person had any ownership, authority, or control and was not caused by any action or omission of the person;

(c) the release or threatened release occurred solely as a result of:

(i) an act or omission of a third party other than either an employee or agent of the person; or

(ii) an act or omission of a third party other than one whose act or omission occurs in connection with a contractual relationship, existing directly or indirectly, with the person, if the person establishes by a preponderance of the evidence that the person:

(A) exercised due care with respect to the hazardous or deleterious substance concerned, taking into consideration the characteristics of the hazardous or deleterious substance in light of all relevant facts and circumstances; and

(B) took precautions against foreseeable acts or omissions of a third party and the consequences that could foreseeably result from those acts or omissions;

(d) the release or threatened release occurred solely as the result of an act of God or an act of war;

(e) the release or threatened release was from a facility for which a permit had been issued by the department, the hazardous or deleterious substance was specifically identified in the permit, and the release was within the limits allowed in the permit;

(f) in the case of assessment of penalties under subsection (3), factors beyond the control of the person prevented the person from taking timely remedial action; or

(g) the person transported only household refuse, unless that person knew or reasonably should have known that the hazardous or deleterious substance was present in the refuse.

(6) (a) For the purpose of subsection (5)(c)(ii), the term "contractual relationship" includes but is not limited to land contracts, deeds, or other instruments transferring title or possession, unless the real property on which the facility is located was acquired by the person after the disposal or placement of the hazardous or deleterious substance on, in, or at the facility and one or more of the following circumstances is also established by the person by a preponderance of the evidence:

(i) At the time the person acquired the facility, the person did not know and had no reason to know that a hazardous or deleterious substance that is the subject of the release or threatened release was disposed of on, in, or at the facility.

(ii) The person is a governmental entity that acquired the facility by escheat, lien foreclosure, or through any other involuntary transfer or acquisition or through the exercise of eminent domain authority by purchase or condemnation pursuant to Title 70, chapter 30.

(iii) The person acquired the facility by inheritance or bequest.

(b) In addition to establishing one or more of the circumstances in subsection (6)(a)(i) through (6)(a)(iii), the person shall establish that the person has satisfied the requirements of subsection (5)(c)(i) or (5)(c)(ii).

(c) To establish that the person had no reason to know, as provided in subsection (6)(a)(i), the person must have undertaken, at the time of acquisition, all appropriate inquiry into the previous ownership and uses of the property consistent with good commercial or customary practice in an effort to minimize liability. For purposes of assessing this inquiry, the following must be taken into account:

(i) any specialized knowledge or experience on the part of the person;

(ii) the relationship of the purchase price to the value of the property if uncontaminated;

(iii) commonly known or reasonably ascertainable information about the property;

(iv) the obviousness of the presence or the likely presence of contamination on the property; and

(v) the ability to detect the contamination by appropriate inspection.

(d) (i) Subsections (5)(b) and (5)(c) or this subsection (6) may not diminish the liability of a previous owner or operator of the facility who would otherwise be liable under this part.

(ii) Notwithstanding this subsection (6), if the previous owner or operator obtained actual knowledge of the release or threatened release of a hazardous or deleterious substance at the facility when the person owned the real property and then subsequently transferred ownership of the property to another person without disclosing the knowledge, the previous owner is liable under subsections (1), (2), and (3) and a defense under subsection (5)(b) or (5)(c) is not available to that person.

(e) This subsection (6) does not affect the liability under this part of a person who, by any act or omission, caused or contributed to the release or threatened release of a hazardous or deleterious substance that is the subject of the action relating to the facility.

(7) A person has an exclusion and is not liable under this section if:

(a) the person generated or disposed of only household refuse, unless the person knew or reasonably should have known that the hazardous or deleterious substance was present in the refuse;

(b) the person owns or operates real property where hazardous or deleterious substances have come to be located solely as a result of subsurface migration in an aquifer from a source or sources outside the person's property, provided that the following conditions are met:

(i) the owner or operator did not cause, contribute to, or exacerbate the release or threatened release of any hazardous or deleterious substances through any act or omission. The failure to take affirmative steps to mitigate or address contamination that has migrated from a source outside the owner's or operator's property does not, in the absence of exceptional circumstances, constitute an omission by the owner or operator.

(ii) the person who caused, contributed to, or exacerbated the release or threatened release of any hazardous or deleterious substance is not and was not an agent or employee of the owner or operator and is not or was not in a direct or indirect contractual relationship with the owner or operator, unless the department provides a written determination that an existing or proposed contractual relationship is an insufficient basis to establish liability under this section;

(iii) there is no other basis of liability under subsection (1) for the owner or operator for the release or threatened release of a hazardous or deleterious substance; and

(iv) the owner or operator cooperates with the department and all persons conducting department-approved remedial actions on the property, including granting access and complying with and implementing all required institutional controls;

(c) the person owns or occupies real property of 20 acres or less for residential purposes, provided that the following conditions are met:

(i) the person did not cause, contribute to, or exacerbate the release or threatened release of any hazardous or deleterious substance through any act or omission;

(ii) the person uses or allows the use of the real property for residential purposes. This exclusion does not apply to any person who acquires or develops real property for commercial use or any use other than residential use.

(iii) at the time the person purchased or occupied the real property, there were no visible indications of contamination on the surface of the real property;

(iv) the person cooperates with the department and all persons conducting department-approved remedial actions on the property, including granting access and complying with and implementing all required institutional controls; and

(v) there is no other basis of liability under subsection (1) for the owner or occupier for the release or threatened release of a hazardous or deleterious substance.

(8) A person is liable under this section if the department provides substantial credible evidence that the person fails to satisfy any element of each exclusion in subsections (7)(a) through (7)(c).

(9) The liability of a fiduciary under the provisions of this part for a release or a threatened release of a hazardous or deleterious substance from a facility held in a fiduciary capacity may not exceed the assets held in the fiduciary capacity that are available to indemnify the fiduciary unless the fiduciary is liable under this part independent of the person's ownership or actions taken in a fiduciary capacity.

(10) A person who holds indicia of ownership in a facility primarily to protect a security interest is not liable under subsections (1)(a) and (1)(b) for having participated in the management of a facility within the meaning of 75-10-701(15)(b) because of any one or any combination of the following:

(a) holding an interest in real or personal property when the interest is being held as security for payment or performance of an obligation, including but not limited to a mortgage, deed of trust, lien, security interest, assignment, pledge, or other right or encumbrance against real or personal property that is furnished by the owner to ensure repayment of a financial obligation;

(b) requiring or conducting financial or environmental assessments of a facility or a portion of a facility, making financing conditional upon environmental compliance, or providing environmental information or reports;

(c) monitoring the operations conducted at a facility or providing access to a facility to the department or its agents or to remedial action contractors;

(d) having the mere capacity or unexercised right to influence a facility's management of hazardous or deleterious substances;

(e) giving advice, information, guidance, or direction concerning the administrative and financial aspects, as opposed to day-to-day operational aspects, of a borrower's operations;

(f) providing general information concerning federal, state, or local laws governing the transportation, storage, treatment, and disposal of hazardous or deleterious substances and concerning the hiring of remedial action contractors;

(g) engaging in financial workouts, restructuring, or refinancing of a borrower's obligations;

(h) collecting rent, maintaining utility services, securing a facility from unauthorized entry, or undertaking other activities to protect or preserve the value of the security interest in a facility;

(i) extending or denying credit to a person owning or in lawful possession of a facility;

(j) in an emergency, requiring or undertaking activities to prevent exposure of persons to hazardous or deleterious substances or to contain a release;

(k) requiring or conducting remedial action in response to a release or threatened release if prior notice is given to the department and the department approves of the remedial action; or

(l) taking title to a facility by foreclosure, provided that the holder of indicia of ownership, from the time the holder acquires title, undertakes to sell, re-lease property held pursuant to a lease financing transaction (whether by a new lease financing transaction or substitution of the lessee), or otherwise divest itself of the property in a reasonably expeditious manner, using whatever commercially reasonable means are relevant or appropriate with respect to the facility and taking all facts and circumstances into consideration and provided that the holder does not:

(i) outbid or refuse a bid for fair consideration for the property or outbid or refuse a bid that would effectively compensate the holder for the amount secured by the facility;

(ii) worsen the contamination at the facility;

(iii) incur liability under subsection (1)(c) or (1)(d) by arranging for disposal of or transporting hazardous or deleterious substances; or

(iv) engage in conduct described in subsection (11).

(11) The protection from liability provided in subsections (9) and (10) is not available to a fiduciary or to a person holding indicia of ownership primarily to protect a security interest if the fiduciary or person through affirmative conduct:

(a) causes or contributes to a release of hazardous or deleterious substances from the facility;

(b) allows others to cause or contribute to a release of hazardous or deleterious substances; or

(c) in the case of a person holding indicia of ownership primarily to protect a security interest, actually participates in the management of a facility by:

(i) exercising decisionmaking control over environmental compliance; or

(ii) exercising control at a level comparable to that of a manager of the enterprise with responsibility for day-to-day decisionmaking either with respect to environmental compliance or substantially all of the operational, as opposed to financial or administrative, aspects of the facility.

History: **En. Sec. 2, Ch. 464, L. 1991.**

75-10-718. Liability of remedial action contractor. (1) A person who is a remedial action contractor with respect to a release or threatened release of a hazardous or deleterious substance is not liable under this part to any person for injuries, costs, damages, expenses, or other liability that results from the release or threatened release, including but not limited to claims for indemnification or contribution and claims by third parties for death, personal injury, illness, loss or damage to property, or economic loss.

(2) Immunity from liability, pursuant to subsection (1), does not apply in the case of a release that is caused by conduct of the remedial action contractor that is negligent or grossly negligent or that constitutes intentional misconduct.

(3) This section does not affect the liability of a person under a warranty under federal, state, or common law or the liability to an employee of an employer who is a remedial action contractor under any provision of law, including any provision of a law relating to workers' compensation.

(4) A state agency or state employee or an employee of a political subdivision who provides services relating to remedial action while acting within the scope of the entity's or individual's authority as a governmental agency or employee has the same exemption from liability as is provided to the remedial action contractor under this section.

(5) The defense provided by 75-10-715(5)(c) is not available to a person liable under 75-10-715(1) with respect to remedial action costs or damages caused by an act or omission of a remedial action contractor.

(6) Except as provided in subsections (4) and (5), this section does not affect the liability under this part of a person other than a remedial action contractor.

75-10-719. Settlement — bar to contribution liability. (1) A person who has resolved that person's liability to the state arising under 75-10-715 or section 107(a)(1) through (a)(4) of CERCLA, 42 U.S.C. 9607(a)(1) through (a)(4), in an administrative or judicially approved settlement is not liable for claims for contribution regarding matters addressed in the settlement. The settlement does not discharge any of the other potentially liable persons unless its terms provide a discharge. The terms of the settlement may reduce the potential liability of the other potentially liable persons by the amount of the settlement.

(2) If the state has obtained less than complete relief from a person who has resolved that person's liability to the state in an administrative or judicially approved settlement, the state may bring an action against any other person who has not resolved that person's liability.

(3) A person who has resolved, in whole or in part, that person's liability to the state for the release or for remedial action costs in an administrative or judicially approved settlement may seek contribution from a person who is not party to a settlement referred to in subsection (1).

(4) Whenever practicable and in the public interest, as determined by the director of the department, the department may, as promptly as possible, reach a final settlement with a potentially liable or liable person under 75-10-715 in an administrative or civil action under 75-10-711 if the settlement involves only a minor portion of the remedial action costs at the facility concerned and, in the judgment of the department, taking into account the toxicity of

the hazardous or deleterious substances involved and the person's contribution of hazardous or deleterious substances in relation to the total volume of hazardous or deleterious substances at the facility, the conditions in any of the following subsections (4)(a) through (4)(d) are met:

(a) the person is one whose liability is based solely on 75-10-715(1)(c) or (1)(d) and who presents substantial credible evidence that the person contributed less than 0.002% of the total volume or less than 100 gallons or 200 pounds of materials containing hazardous or deleterious substances at a facility that received hazardous or deleterious substances from multiple contributors. The department may not require the payment of remedial action costs from this person.

(b) (i) the person is one whose liability is based solely on 75-10-715(1)(c) or (1)(d) and who presents substantial credible evidence that the person arranged for disposal or treatment of less than 5% of the total quantity of solid waste or hazardous or deleterious substances disposed of at a facility that received solid waste or hazardous or deleterious substances from multiple contributors.

(ii) For the purposes of subsection (5)(a) and this subsection (4)(b) only, the term "solid waste" means:

(A) all putrescible and nonputrescible wastes, including garbage, rubbish, refuse, or ashes;

(B) sludge from sewage treatment plants, water supply plants, or air pollution control facilities;

(C) construction and demolition wastes;

(D) dead animals, including offal;

(E) discarded home and industrial appliances; and

(F) wood products or wood byproducts and inert materials.

(c) (i) the person:

(A) is the owner of the real property on or in which the facility is located;

(B) did not conduct or permit the generation, transportation, storage, treatment, or disposal of any hazardous or deleterious substance at the facility; and

(C) did not contribute to the release or threat of release of a hazardous or deleterious substance at the facility through any action or omission.

(ii) This subsection (4)(c) does not apply if the person purchased the real property with actual or constructive knowledge that the property was used for the generation, transportation, storage, treatment, or disposal of any hazardous or deleterious substance.

(d) the person presents substantial credible evidence that the person has a defense under 75-10-715(5).

(5) When reaching a settlement under subsection (4)(b), (4)(c), or (4)(d), the department may require the payment of remedial action costs not to exceed two times the person's reasonably projected liability for remedial action costs as determined by the department. Except as provided in subsection (6), the settlement must contain a reservation of rights clause in the event that the department obtains new information showing that the settling person no longer qualifies for a settlement because:

(a) the solid waste or hazardous or deleterious substances contributed by the person was of a greater volume or toxicity than originally estimated; or

(b) the settlement was reached under subsection (4)(c) and, after settlement, the department finds that the person had actual or constructive knowledge that the property was used for the generation, transportation, storage, treatment, or disposal of any hazardous or deleterious substance.

(6) A person who agrees to a liability settlement may avoid the reservation of rights clause under subsection (5) by paying remedial action costs in the amount of four times the person's reasonably projected liability for remedial action costs as determined by the department.

(7) All funds received as a result of settlements under this section must be paid in the following order of priority:

(a) to the department as reimbursement for its remedial action costs at the facility;

(b) to liable persons as reimbursement for remedial action costs at the facility. In the event of an allocation under 75-10-742 through 75-10-752, the reimbursement must be in proportion to each liable person's share of liability as determined under the provisions of 75-10-750 or 75-10-751;

(c) the remainder, if any:

(i) to the orphan share fund provided in 75-10-743 if the facility went through the allocation process provided in 75-10-742 through 75-10-752; or

(ii) to the fund provided in 75-10-704 if the facility did not undergo the allocation process provided in 75-10-742 through 75-10-752.

(8) Any person who enters into a settlement under this section may not be subject to or assigned a share in the allocation process provided in 75-10-742 through 75-10-752.

(9) As part of an administrative or judicially approved settlement agreement, the department may require the liable person to provide financial assurance, in an amount determined by the department, to ensure the long-term operation and maintenance of the remedial action site. The liable person shall provide the financial assurance by any one method or combination of methods satisfactory to the department, including but not limited to insurance, guarantee, performance or other surety bond, letter of credit, qualification as a self-insurer, or other demonstration of financial capability.

History: En. Sec. 11, Ch. 709, L. 1989; amd. Sec. 4, Ch. 752, L. 1991; amd. Sec. 8, Ch. 415, L. 1997.

75-10-720. Condemnation — creation of state lien. (1) Whenever the department determines that property upon which a release or threatened release of a hazardous or deleterious substance has occurred may present an imminent and substantial endangerment to the public health, safety, or welfare or the environment, the department may condemn the property for public use to mitigate the threat. The taking of the property must be conducted in accordance with the procedure set forth in Title 70, chapter 30.

(2) All costs, penalties, and natural resource damages for which a person has been judicially determined to be liable to the state pursuant to 75-10-715 constitute a lien in favor of the state upon all property and rights to the property that belong to the person.

(3) The lien imposed by this section arises at the time notice incorporating a description of the property subject to the remedial action and an identification of the amount of costs, penalties, and natural resource damages is filed with the clerk and recorder of the county in which the real property is located. A copy of the notice must be served by certified mail upon the liable person.

(4) The costs, penalties, and natural resource damages constituting the lien may be recovered in an action in the district court for the district in which the property is located or in which the remedial action is occurring or has occurred. This section does not affect the right of the state to bring an action against a person to recover all costs, penalties, and natural resource damages for which that person is liable under this part or any other provision of state or federal law.

(5) The lien must continue until the liability for the costs and damages incurred as a result of the release of a hazardous or deleterious substance is satisfied.

(6) If the department expends money from the fund for orphan share remedial action costs at a facility or for a facility at which a reimbursed orphan share exists, the state has a lien upon the facility for the unrecovered costs. The lien:

(a) may not exceed the increase in fair market value of the property attributable to the unfunded portion of the remedial action at the time of a subsequent sale or other disposition of the property;

(b) arises at the time costs are first incurred by the department with respect to a remedial action at the facility;

(c) must be filed according to subsection (3); and

(d) continues until the earlier of satisfaction of the lien or recovery of all remedial action costs incurred at the facility.

(7) Payment of any liens under this section must be deposited in one of the two accounts from which the remedial action costs originated, including the fund established in 75-10-704 or the orphan share fund established in 75-10-743.

History: En. Sec. 12, Ch. 709, L. 1989; amd. Sec. 9, Ch. 415, L. 1997; amd. Sec. 89, Ch. 125, L. 2001.

2001 Amendment: Chapter 125 in (1) at end of last sentence deleted "parts 1 through 3". Amendment effective October 1, 2001.

75-10-721. Degree of cleanup required — permit exemption — financial assurance. (1) A remedial action performed under this part or a voluntary cleanup under 75-10-730 through 75-10-738 must attain a degree of cleanup of the hazardous or deleterious substance and control of a threatened release or further release of that substance that assures protection of public health, safety, and welfare and of the environment.

(2) In approving or carrying out remedial actions performed under this part, the department:

(a) except as provided in subsection (4), shall require cleanup consistent with applicable state or federal environmental requirements, criteria, or limitations;

(b) may consider substantive state or federal environmental requirements, criteria, or limitations that are relevant to the site conditions; and

(c) shall select remedial actions, considering present and reasonably anticipated future uses, giving due consideration to institutional controls, that:

(i) demonstrate acceptable mitigation of exposure to risks to the public health, safety, and welfare and the environment;

(ii) are effective and reliable in the short term and the long term;

(iii) are technically practicable and implementable;

(iv) use treatment technologies or resource recovery technologies if practicable, giving due consideration to engineering controls; and

(v) are cost-effective.

(3) In selecting remedial actions, the department shall consider the acceptability of the actions to the affected community, as indicated by community members and the local government.

(4) The department may select a remedial action that does not meet an applicable state environmental requirement, criteria, or limitation under any one of the following circumstances:

(a) The remedial action is an interim measure and will become part of a total remedial action that will attain the applicable requirement, criteria, or limitation.

(b) Compliance with the applicable requirement, criteria, or limitation will result in greater risk to human health and the environment than other remedial action alternatives.

(c) Compliance with the applicable requirement, criteria, or limitation is technically impracticable from an engineering perspective.

(d) The remedial action will attain a standard of performance that is equivalent to that required under the otherwise applicable requirement, criteria, or limitation through use of another method or approach.

(e) Compliance with the requirement would not be cost-effective.

(5) For purposes of this section, cost-effectiveness must be determined through an analysis of incremental costs and incremental risk reduction and other benefits of alternatives considered, taking into account the total anticipated short-term and long-term costs of remedial action alternatives considered, including the total anticipated cost of operation and maintenance activities.

(6) The department may exempt any portion of a remedial action that is conducted entirely on site from a state or local permit that would, in the absence of the remedial action, be required if the remedial action is carried out in accordance with the standards established under this section and this part.

(7) The department may require financial assurance from a liable person in an amount that the department determines will ensure the long-term operation and maintenance of the remedial action site. The liable person shall provide the financial assurance by any one method or combination of methods satisfactory to the department, including but not limited to insurance, guarantee, performance or other surety bond, letter of credit, qualification as a self-insurer, or other demonstration of financial capability.

History: En. Sec. 13, Ch. 709, L. 1989; amd. Sec. 5, Ch. 752, L. 1991; amd. Sec. 2, Ch. 584, L. 1995; amd. Sec. 3, Ch. 437, L. 1999.

75-10-722. Payment of state costs and penalties. (1) The department shall keep a record of the state's remedial action costs.

(2) Based on this record, the department may require a person liable under 75-10-715 to pay the amount of the state's remedial action costs, including interest and, if applicable, penalties under 75-10-715(3).

(3) If the state's remedial action costs and penalties are not paid by the liable person to the department within 60 days after receipt of notice that the costs and penalties are due, the department shall bring an action in the name of the state to recover the amount owed plus reasonable legal expenses.

(4) If the department provides a notice that the state's remedial action costs are due, the department shall assess and collect interest on the unpaid amount at the rate provided for in 25-9-205:

(a) after 60 days of receipt of the notice if the notice covers costs incurred during a time period that is one-quarter of a year or less;

(b) after 90 days of receipt of the notice if the notice covers costs incurred during a time period that is more than one-quarter of a year and less than or equal to one-half of a year; and

(c) after 120 days of receipt of the notice if the notice covers costs incurred during a time period that is more than one-half of a year.

(5) An action to recover remedial action costs and interest may be brought under this section at any time after any remedial action costs and interest have been incurred, and the court may enter a declaratory judgment on liability for remedial action costs and interest that is binding on any subsequent action or actions to recover further remedial action costs and interest. The court may disallow costs or damages only if the person liable under 75-10-715 can show on the record that the costs are not reasonable and are not consistent with this part. The court may disallow the associated interest if it determines, based on the record, that the liable person can show that the costs are not reasonable.

(6) An initial action brought under 75-10-715(4) or a contribution action for costs incurred under this part must be commenced within 6 years after initiation of physical onsite construction of the final permanent remedy.

(7) Remedial action costs, interest, and any penalties recovered by the state under 75-10-715 must be deposited into the environmental quality protection fund established in 75-10-704.

75-10-723. Agreements and administrative orders on consent to perform remedial action. (1) To expedite effective remedial actions and minimize litigation, the department, in its discretion and whenever practicable and in the public interest, may negotiate and enter into an agreement or an administrative order on consent with any person, including the owner or operator of the facility from which a release emanates, to perform a remedial action if the department determines that the action will be properly done by the person. The agreement must contain terms and conditions that the department in its discretion determines to be appropriate.

(2) Whenever the department enters into an administrative order on consent under this section for remedial action or for assessment or payment of natural resource damages, that administrative order on consent must be available for public comment for at least 30 days.

(3) A decision of the department to enter into or not enter into agreements or administrative orders on consent under this section is not subject to judicial review.

In resolving contribution claims, the court shall allocate remedial action costs among the liable persons based on the factors set out in 75-10-750.

75-10-725. Immunity of volunteer fire company or department and employees for hazardous or deleterious substance cleanup. A volunteer fire company or department that is organized by a municipality, county, rural fire district, fire service area, or other entity and the employees of the company or department are not liable for civil damages, except damages for gross negligence or willful or wanton misconduct, for their acts or omissions that are directly related to the hazardous material incident.

(1) Any person may commence a civil action to compel compliance by any liable or potentially liable person under 75-10-715 alleged to be in violation of a rule, notice letter, order, or department-approved remedial action required pursuant to a notice letter or order under this chapter.

(2) At least 60 days before commencing the action, the person shall give notice of intent to sue to all liable or potentially liable persons under 75-10-715 who are contemplated to be defendants in the proposed action.

(3) An action may not be commenced under subsection (1) if the liable or potentially liable person is diligently coming into compliance with the rule, notice letter, order, or department-approved remedial action plan or if the department has commenced and is diligently prosecuting an action to require compliance with the rule, notice letter, order, or department-approved remedial action plan.

History: **En. Sec. 11, Ch. 415, L. 1997.**

75-10-727. Institutional controls. (1) An owner of real property may, with department approval, restrict the use of the owner's real property to mitigate the risk posed to the public health, safety, and welfare and the environment by imposing on the real property, without conveying the property or creating a dominant and servient estate, an appropriate institutional control.

(2) An institutional control restricting present and future real property rights is placed on a property by filing a written instrument evidencing the restrictions to be placed on the use of the property with the county clerk in the county in which the property is located.

(3) An institutional control that restricts real property runs with the land and is binding on all successors in interest to real property until the institutional control is removed.

(4) An institutional control must be removed if there is not an unacceptable risk posed to public health, safety, and welfare and the environment. An owner may request department approval to remove all or a portion of the institutional controls from the real property. The department shall review the request and provide the owner with its decision to approve or deny the request within 120 days from the department's receipt of the request. If the department denies the request, it shall provide the owner with a written explanation of the denial. A department decision to deny the request may be appealed to the board of environmental review and conducted as a contested case proceeding pursuant to Title 2, chapter 4.

(5) If the department or the board approves an owner's request to remove all or a portion of the institutional controls, the owner shall file the approval with the county clerk in the county in which the real property is located.

75-10-728. Remedial action costs. (1) If a potentially liable person or assignee recovers remedial action costs at a particular site from a financially responsible party, reimbursement from the orphan share is proportionally reduced by the amount of remedial action costs recovered, less any litigation expenses, including attorney fees and costs.

(2) The department may, in defending the orphan share, initiate a court action against a potentially liable party, an affiliate, or another financially responsible party to recover the orphan's share.

75-10-730. Short title. Sections 75-10-730 through 75-10-738 may be cited as the "Voluntary Cleanup and Redevelopment Act".

History: En. Sec. 4, Ch. 584, L. 1995.

75-10-731. Purpose — legislative declaration. (1) (a) The purposes of 75-10-730 through 75-10-738 are to provide for the protection of the public health, welfare, and safety and of the environment and to foster the cleanup, transfer, reuse, or redevelopment of facilities where releases or threatened releases of hazardous or deleterious substances exist.

(b) The legislature further declares that this program is intended to permit and encourage voluntary cleanup of facilities where releases or threatened releases of hazardous or deleterious substances exist by providing interested persons with a method of determining what the cleanup responsibilities will be for reuse or redevelopment of existing facilities.

(2) The legislature further intends that this voluntary program:

(a) encourage and facilitate prompt cleanup activities;

(b) eliminate impediments to the sale or redevelopment of facilities where releases or threatened releases of hazardous or deleterious substances exist; and

(c) minimize administrative processes and costs.

History: En. Sec. 5, Ch. 584, L. 1995.

75-10-732. Eligibility. (1) A facility where there has been a release or threatened release of a hazardous or deleterious substance that may present an imminent and substantial endangerment to the public health, safety, or welfare or the environment may be eligible for voluntary cleanup procedures under this part, except for facilities that meet one of the following criteria at the time of application for a voluntary cleanup plan:

(a) a facility that is listed or proposed for listing on the national priorities list pursuant to 42 U.S.C. 9601, et seq.;

(b) a facility for which an order has been issued or consent decree has been entered into pursuant to this part;

(c) a facility that is the subject of an agency order or an action filed in district court by any state agency that addresses the release or threatened release of a hazardous or deleterious substance; or

(d) a facility where the release or threatened release of a hazardous or deleterious substance is regulated by the Montana Hazardous Waste Act and regulations under that act; or

(e) a facility that is the subject of pending action under this part because the facility has been issued a notice commencing a specified period of negotiations on an administrative order on consent.

(2) Notwithstanding the provisions of subsections (1)(b) through (1)(e), the department may agree to accept and may approve an application for a voluntary cleanup plan for a facility.

(3) The department may determine that a facility that is potentially eligible for voluntary cleanup exhibits complexities regarding protection of public health, safety, and welfare and the environment and that the complexities should be addressed under an administrative order or consent decree pursuant to this part. This determination may be made only after consultation with any person desiring to conduct a voluntary cleanup at the facility.

(4) If an applicant who submits an application for a voluntary cleanup plan disagrees with the department's decision to reject the filing of the application under subsection (1) or (3) or disagrees with the department's decision to disapprove the voluntary cleanup plan submitted pursuant to 75-10-736, the applicant may, within 30 days of receipt of the department's written decision pursuant to 75-10-736, submit a written request for a hearing before the board of environmental review. In reviewing a department decision to reject an application under subsection (1) or (3) or to disapprove a voluntary cleanup plan submitted pursuant to 75-10-736, the board shall apply the standards of review specified in 2-4-704. The hearing must

be held within 2 months at the regular meeting of the board or at the time mutually agreed to by the board, the department, and the applicant. The hearing and any appeals must be conducted in accordance with the contested case proceedings pursuant to Title 2, chapter 4, parts 6 and 7. A hearing before the board may not be requested regarding a decision of the department made pursuant to subsection (2).

75-10-733. Voluntary cleanup plan and reimbursement of remedial action costs. (1) Any person may submit an application for the approval of a voluntary cleanup plan to the department under the provisions of this section.

(2) A voluntary cleanup plan must include:

(a) an environmental assessment of the facility that includes the information required in 75-10-734;

(b) a remediation proposal that includes the information required in 75-10-734 and that meets the requirements of 75-10-721; and

(3) The applicant shall reimburse the department for any remedial action costs that the state incurs in the review and oversight of a voluntary cleanup plan.

(4) The department may approve a voluntary cleanup plan that provides for phases of remediation or that addresses only a portion of the facility. To the extent that the original environmental assessment required under 75-10-734 addresses subsequent phases of remediation, the applicant may rely on that assessment when submitting voluntary cleanup plans for subsequent phases of remediation.

History: **En. Sec. 7, Ch. 584, L. 1995.**

A qualified environmental professional is a person with education, training, and experience in preparing environmental studies and assessments.

(2) An environmental assessment described in this section must include the following information:

(f) the current and reasonably anticipated future uses of the facility and immediately adjacent properties;

(g) information on the methods and results of investigations concerning the nature and extent of any releases or threatened releases of hazardous or deleterious substances that have occurred at the facility and a map showing general areas and concentrations of hazardous or deleterious substances;

(h) any sampling results or other data that characterizes the soil, air, ground water, or surface water on the site;

(i) a description of the human and environmental exposure to releases or threatened releases of hazardous or deleterious substances at the facility based upon the current use of the facility and adjacent properties and any reasonably anticipated future uses of the facility; and

(j) readily available information on the environmental regulatory and compliance history of the facility, including all environmental permits.

(3) A remediation proposal must include the following information:

(a) a detailed description of the components of the remediation proposal, including, to the extent applicable:

(i) the proposed cleanup levels for the facility;

(ii) the manner in which the remediation plan satisfies the cleanup requirements of 75-10-721;

(iv) a demonstration that exposures to risk affecting the public health, safety, and welfare and the environment at the facility will be substantially mitigated by the plan;

(b) a brief comparison of the remediation proposal to reasonable alternatives based on the remedy selection criteria specified in 75-10-721;

(c) a timetable for implementing the proposal and for any necessary monitoring of the facility after the proposed measures are completed;

(d) a statement that applicable health and safety regulations will be met during implementation of the remediation proposal;

(e) a description of how short-term disturbances during implementation of the remediation proposal will be minimized; and

(f) identification of any permits necessary to conduct the proposed remedies.

75-10-735. Public participation. (1) Upon determination by the department that an application for a voluntary cleanup plan is complete pursuant to 75-10-736(1), the department shall publish a notice and brief analysis of the proposed plan in a daily newspaper of general circulation in the area affected and make the plan available to the public.

(2) The notice must provide 30 days for submission of written comments to the department regarding the plan. Upon written request by 10 or more persons, by a group composed of 10 or more members, or by a local governing body of a city, town, or county within the comment period, the department shall conduct a public meeting at or near the facility regarding the proposed voluntary cleanup plan. The meeting must be held within 45 days of the department's completeness determination under 75-10-736(1).

(3) The department shall consider and respond to relevant written or verbal comments submitted during the comment period or at the public meeting.

(4) The department's decision on the final plan and the reasons for any significant modification of the final plan must be published in accordance with subsection (1).

(5) Compliance with this section is considered to satisfy the public participation requirements of Title 75, chapter 1.

History: En. Sec. 9, Ch. 584, L. 1995.

Right of participation, Art. II, sec. 8, Mont. Const.

75-10-736. Approval of voluntary cleanup plan — time limits — content of notice — expiration of approval. (1) The department shall review for completeness, including adequacy and accuracy, an application for a voluntary cleanup plan and shall provide a written completeness notice to the applicant within 30 days after receipt of an application for a plan that would take 24 months or less to complete and within 60 days for a plan that would take more than 24 months to complete. The completeness notice must note all deficiencies identified in the information submitted.

(2) For a voluntary cleanup plan that is considered complete by the department pursuant to subsection (1), the department shall provide formal written notification that the voluntary cleanup plan has been approved or disapproved no more than 60 days for a plan that would take 24 months or less to complete and within 75 days for a plan that would take more than 24 months to complete after the department's determination that an application is complete, unless the applicant and the department agree to an extension of the review to a date certain. The review must be limited to a review of the materials submitted by the applicant, public comments, and documents or information readily available to the department. The department

shall communicate with the applicant during the review period to ensure that the applicant has the opportunity to address the public comments.

(3) (a) If the department receives five applications for review of a voluntary cleanup plan in a calendar month, including applications deferred from prior months, the department may notify any additional applicants in that month that their plans must be reviewed in the order received. The 30-day period for department completeness review of deferred applications pursuant to subsection (1) must begin on the first day of the subsequent month that each plan is eligible for review.

(b) The department shall discontinue accepting voluntary cleanup applications when 15 applications are pending and are being reviewed by the department. The department shall establish a waiting list for applications and shall consider the applications in order of submittal.

(c) If the department has received multiple cleanup applications for a voluntary cleanup at the same facility, the department shall notify all of the applicants and offer them the opportunity to submit a joint application.

(4) Consistent with the provisions of 75-10-707, the department may access the facility during review of the application and implementation of the voluntary cleanup plan to confirm information provided by the applicant and verify that the cleanup is being conducted consistent with the approved plan.

(5) The department shall approve a voluntary cleanup plan if the department concludes that the plan meets the requirements specified in 75-10-734 and will attain a degree of cleanup and control of hazardous or deleterious substances that complies with the requirements of 75-10-721. Except for the period necessary for the operation and maintenance of the approved remediation proposal, the department may not approve a voluntary remediation proposal that would take longer than 60 months after department approval to complete.

(6) If a voluntary cleanup plan is not approved by the department, the department shall promptly provide the applicant with a written statement of the reasons for denial. The denial may be appealed to the board of environmental review in accordance with the provisions of 75-10-732(4).

(7) The approval of a voluntary cleanup plan by the department applies only to conditions at the facility that are known to the department at the time of department approval. If a voluntary remediation proposal is not initiated within 12 months and, except for the period necessary for the operation and maintenance of the approved remediation proposal, is not completed within 60 months after approval by the department, the department's approval lapses. However, the department may grant an extension of the time limit for completion of the voluntary cleanup plan.

(8) If reasonably unforeseeable conditions are discovered during implementation of a voluntary cleanup plan that substantially affect the risk to public health, safety, or welfare or the environment or substantially change the scope of the approved plan, the applicant shall promptly notify the department. The department may require the applicant to submit an amendment to the approved plan to address the unforeseen conditions or may determine that a voluntary cleanup plan is no longer appropriate pursuant to 75-10-732(3).

(9) Written notification by the department that a voluntary cleanup plan is not approved must state the basis for disapproval of the voluntary cleanup plan.

(10) (a) Failure of the applicant or the applicant's agents to materially comply with the voluntary cleanup plan approved by the department pursuant to this section renders the approval void.

(b) Submission of materially misleading information by the applicant or the applicant's agents in the application or during implementation of the voluntary cleanup plan renders the department approval void.

(11) Within 60 days after completion of the approved remediation proposal described in the voluntary cleanup plan approved by the department, the applicant shall provide to the department a certification from a qualified environmental professional that the plan has been fully implemented, including all documentation necessary to demonstrate the successful implementation of the plan, such as confirmation sampling, if necessary.

(12) Except as provided in 75-10-738(2)(b), the department may not require financial assurance under this part for voluntary cleanup plans approved under this section.

(13) If a person who would otherwise not be a liable person under 75-10-715(1) elects to undertake an approved voluntary cleanup plan, the person may not become a liable person under 75-10-715(1) by undertaking a voluntary cleanup if the person materially complies with the voluntary cleanup plan approved by the department pursuant to this section.

(14) Immunity from liability under this section does not apply to a release that is caused by conduct that is negligent or grossly negligent or that constitutes intentional misconduct.

History: En. Sec. 10, Ch. 584, L. 1995; amd. Sec. 4, Ch. 539, L. 1997.

75-10-737. Voluntary action to preclude remedial action by department. If a party has elected to undertake an approved voluntary cleanup and is diligently proceeding to implement the plan, the department may not, except as provided in 75-10-712, take remedial action under 75-10-711 with regard to those releases or threatened releases of hazardous or deleterious substances that are addressed by the approved voluntary cleanup plan.

History: En. Sec. 11, Ch. 584, L. 1995.

75-10-738. Closure. (1) After completion of the voluntary cleanup plan, an applicant may petition the department for closure of the facility under 75-10-730 through 75-10-738.

(2) Within 60 days of receipt of a petition for closure, weather permitting, the department shall conduct a review to determine that the releases or threatened releases addressed in the voluntary cleanup plan do not pose a significant threat to public health, welfare, or safety or to the environment as determined in accordance with 75-10-721 and that the applicant has:

(a) implemented all appropriate remedial actions;

(b) if necessary, provided for long-term funding for facility maintenance or monitoring; and

(c) reimbursed the department for all remedial action costs of the voluntary cleanup.

(3) In the event that the petition for closure is not approved by the department, the department shall promptly provide the applicant with a written statement of the reasons for denial. Written notification that the petition is approved by the department must include the following language:

"Based upon the information provided by [insert name(s) of applicant(s)] concerning property located at [insert address], it is the opinion of the Montana Department of Environmental Quality that upon completion of the voluntary cleanup plan, no further action is required to ensure that this facility, when used for [insert purposes identified], is protective of existing and proposed uses and does not pose a significant risk to public health, safety, or welfare or the environment at the facility with regard to releases or threatened releases addressed in the voluntary cleanup plan. The department reserves the right to conduct or require further remedial action at this facility if a new release occurs or if the department receives new or different information than presented in the approved voluntary cleanup plan."

(4) After completion of a portion of a facility addressed in the voluntary cleanup plan, the department shall issue a letter of completion notice to the applicant if the department determines that the applicant has satisfied the requirements of subsection (2).

Money in the account is available to the department by appropriation and must be used to reimburse remedial action costs claimed pursuant to 75-10-742 through 75-10-752 and to pay costs incurred by the department in defending the orphan share.

(2) There must be deposited in the orphan share account:

(a) money allocated from the metalliferous mines license tax pursuant to 15-37-117;
(b) all penalties assessed pursuant to 75-10-750(12);
(c) funds received from the interest income of the resource indemnity trust fund pursuant to 15-38-202;
(d) funds allocated from the resource indemnity and ground water assessment tax proceeds provided for in 15-38-106;
(e) unencumbered funds remaining in the abandoned mines state special revenue account;
(f) interest income on the account;
(g) funds received from settlements pursuant to 75-10-719(7); and
(h) funds received from reimbursement of the department's orphan share defense costs pursuant to subsection (6).

(3) If the orphan share fund contains sufficient money, valid claims must be reimbursed subsequently in the order in which they were received by the department. If the orphan share fund does not contain sufficient money to reimburse claims for completed remedial actions, a reimbursement may not be made and the orphan share fund, the department, and the state are not liable for making any reimbursement for the costs. The department and the state are not liable for any penalties if the orphan share fund does not contain sufficient money to reimburse claims, and interest may not accrue on outstanding claims.

(4) Except as provided in subsection (8), claims may not be submitted and remedial action costs may not be reimbursed from the orphan share fund until all remedial actions, except for operation and maintenance, are completed at a facility.

(5) Reimbursement from the orphan share fund must be limited to actual documented remedial action costs incurred after the date of petition provided in 75-10-745. Reimbursement may not be made for attorney fees, legal costs, or operation and maintenance costs.

(6) (a) The department's costs incurred in defending the orphan share must be paid by the persons participating in the allocation under 75-10-742 through 75-10-752 in proportion to their allocated shares. The orphan share fund is responsible for a portion of the department's costs incurred in defending the orphan share in proportion to the orphan share's allocated share, as follows:

(i) If sufficient funds are available in the orphan share fund, the orphan share fund must pay the department's costs incurred in defending the orphan share in proportion to the share of liability allocated to the orphan share.

(ii) If sufficient funds are not available in the orphan share fund, persons participating in the allocation under 75-10-742 through 75-10-752 shall pay all the orphan share's allocated share of the department's costs incurred in defending the orphan share in proportion to each person's allocated share of liability.

(b) A person who pays the orphan share's proportional share of costs has a claim against the orphan share fund and must be reimbursed as provided in subsection (3).

(7) If any money remains in the orphan share fund after June 30, 2005, and after outstanding claims are paid, the money must be deposited in the general fund.

(8) If the lead liable person under 75-10-746 presents evidence to the department that the person cannot complete the remedial actions without partial reimbursement and that a delay in reimbursement will cause undue financial hardship on the person, the department may allow the submission of claims and may reimburse the claims prior to the completion of all remedial actions. A person is not eligible for early reimbursement unless the person is in substantial compliance with all department-approved remedial action plans.

(9) A person participating in the allocation process who received funds under the mixed funding pilot program provided for in sections 14 through 20, Chapter 584, Laws of 1995, may not claim or receive reimbursement from the orphan share fund for the amount of funds received under the mixed funding pilot program that are later attributed to the orphan share under the allocation process.

75-10-743. *(Temporary—effective July 1, 2002)* **Orphan share state special revenue account — reimbursement of claims — payment of department costs.** (1) There is an orphan share account in the state special revenue fund established in 17-2-102 that is to be administered by the department. Money in the account is available to the department by appropriation and must be used to reimburse remedial action costs claimed pursuant to 75-10-742 through 75-10-752 and to pay costs incurred by the department in defending the orphan share.

(2) There must be deposited in the orphan share account:

(a) all penalties assessed pursuant to 75-10-750(12);

(b) funds received from the interest income of the resource indemnity trust fund pursuant to 15-38-202;

(c) funds allocated from the resource indemnity and ground water assessment tax proceeds provided for in 15-38-106;

(d) unencumbered funds remaining in the abandoned mines state special revenue account;

(e) interest income on the account;

(f) funds received from settlements pursuant to 75-10-719(7); and

(g) funds received from reimbursement of the department's orphan share defense costs pursuant to subsection (6).

(3) If the orphan share fund contains sufficient money, valid claims must be reimbursed subsequently in the order in which they were received by the department. If the orphan share fund does not contain sufficient money to reimburse claims for completed remedial actions, a reimbursement may not be made and the orphan share fund, the department, and the state are not liable for making any reimbursement for the costs. The department and the state are not liable for any penalties if the orphan share fund does not contain sufficient money to reimburse claims, and interest may not accrue on outstanding claims.

(4) Except as provided in subsection (8), claims may not be submitted and remedial action costs may not be reimbursed from the orphan share fund until all remedial actions, except for operation and maintenance, are completed at a facility.

(5) Reimbursement from the orphan share fund must be limited to actual documented remedial action costs incurred after the date of petition provided in 75-10-745. Reimbursement may not be made for attorney fees, legal costs, or operation and maintenance costs.

(6) (a) The department's costs incurred in defending the orphan share must be paid by the persons participating in the allocation under 75-10-742 through 75-10-752 in proportion to their allocated shares. The orphan share fund is responsible for a portion of the department's costs incurred in defending the orphan share in proportion to the orphan share's allocated share, as follows:

(i) If sufficient funds are available in the orphan share fund, the orphan share fund must pay the department's costs incurred in defending the orphan share in proportion to the share of liability allocated to the orphan share.

(ii) If sufficient funds are not available in the orphan share fund, persons participating in the allocation under 75-10-742 through 75-10-752 shall pay all the orphan share's allocated share of the department's costs incurred in defending the orphan share in proportion to each person's allocated share of liability.

(b) A person who pays the orphan share's proportional share of costs has a claim against the orphan share fund and must be reimbursed as provided in subsection (3).

(7) If any money remains in the orphan share fund after June 30, 2005, and after outstanding claims are paid, the money must be deposited in the general fund.

(8) If the lead liable person under 75-10-746 presents evidence to the department that the person cannot complete the remedial actions without partial reimbursement and that a delay in reimbursement will cause undue financial hardship on the person, the department may allow the submission of claims and may reimburse the claims prior to the completion of all remedial actions. A person is not eligible for early reimbursement unless the person is in substantial compliance with all department-approved remedial action plans.

(9) A person participating in the allocation process who received funds under the mixed funding pilot program provided for in sections 14 through 20, Chapter 584, Laws of 1995, may not claim or receive reimbursement from the orphan share fund for the amount of funds

received under the mixed funding pilot program that are later attributed to the orphan share under the allocation process. *(Terminates June 30, 2005—sec. 30, Ch. 415, L. 1997.)*

75-10-744. *(Temporary)* **Eligibility — statute of limitations.** (1) Except for a facility that is listed on the national priorities list pursuant to the federal Comprehensive Environmental Response, Compensation, and Liability Act of 1980, 42 U.S.C. 9601, et seq., a facility listed on the priority list established pursuant to 75-10-702 is eligible for the allocation process under 75-10-742 through 75-10-752.

(2) Only liability for remedial action costs is eligible for allocation and reimbursement from the orphan share fund. Allocation of liability and reimbursement of costs for natural resource damages is not permitted under 75-10-742 through 75-10-752.

(3) Remedial action costs incurred prior to the date of the potentially liable person's written petition to the department as provided in 75-10-745 are not eligible for reimbursement from the orphan share fund.

(4) Only one allocation will be allowed for each facility unless:

(a) the department determines that an additional allocation is appropriate due to:

(i) the existence of more than one discrete unit of contamination at the facility;

(ii) the discovery of new releases after remedial actions at the facility are complete; or

(iii) other factors the department determines appropriate.

(b) all the liable or potentially liable persons under 75-10-715 agree in writing that an orphan share does not exist for the proposed allocation and either of the conditions in subsection (4)(a)(i) or (4)(a)(ii) is met.

(5) A liable or potentially liable person under 75-10-715 may not file a cost recovery or contribution action against any person participating in the allocation process provided for in 75-10-742 through 75-10-752 until the allocation process is complete. The statute of limitations on the filing of cost recovery or contribution actions is tolled from the first date of a petition for allocation on a facility until 30 days after the submittal of the allocation report provided for in 75-10-750, or until 30 days following the expiration of the time period for appeal or the final decision on appeal. *(Terminates June 30, 2005—sec. 30, Ch. 415, L. 1997.)*

75-10-745. *(Temporary)* **Allocation of liability — process initiation.** (1) For a facility at which the department has initiated a remedial action under 75-10-711 through the issuance of a notice letter prior to July 1, 1997, any person determined to be potentially liable under 75-10-715 may petition the department in writing to initiate the allocation process. The right to participate in the allocation process is waived if the written petition is not provided to the department prior to the completion of remedial actions, except for operation and maintenance, at the facility.

(2) For a facility at which the department has not initiated a remedial action through the issuance of a notice letter under 75-10-711, any person potentially liable under 75-10-715 who has received approval of a voluntary cleanup plan under 75-10-730 through 75-10-738 may petition the department in writing to initiate the allocation process. The right to participate in the allocation process is waived if the written petition is not provided to the department prior to the completion of remedial actions, except for operation and maintenance, at the facility.

(3) For a facility at which the department initiates a remedial action through the issuance of a notice letter under 75-10-711 after July 1, 1997, any person potentially liable under 75-10-715 may petition the department in writing within 60 days of the date of the notice letter to initiate the allocation process. Any potentially liable person under 75-10-715 who does not provide a written petition to the department within this timeframe waives the right to

participate in the allocation process and remains liable as provided in 75-10-715. The notice letter sent by the department must advise that a failure to petition the department for allocation as provided in this subsection will result in a waiver of the right to participate in the allocation process.

(4) The allocation process may be initiated and may proceed upon written petition of one or more potentially liable persons.

(5) Prior to the initiation of discovery as provided in 75-10-747, all persons who participate in the allocation process shall agree in writing that the allocator's decision is binding, subject only to the provisions of 75-10-750(9) and the appeal provisions of 75-10-751.

(6) All liable or potentially liable persons under 75-10-715 who do not participate in the allocation process under 75-10-742 through 75-10-752 remain liable as provided in 75-10-715.

(7) Upon receipt of a written petition under subsection (1) or (2) or when initiating actions at a facility without a prior notice letter under subsection (3), the department shall:

(a) conduct a good faith investigation and may use its authority in 75-10-707 to identify persons who may be liable under 75-10-715; and

(b) issue notice letters to one or more of the persons it identifies as potentially liable under 75-10-715. If a person petitions the department to initiate the allocation process as provided for in subsection (8), the department shall issue notice letters or nomination letters pursuant to subsection (9) to the persons it identified as potentially liable under 75-10-715 who were not previously given notice.

(8) A person who receives a notice letter may, within 60 days from the date of the notice letter, petition the department in writing to participate in an allocation process and provide the department with the identity of other potentially liable persons under 75-10-715 who were not given notice by the department. When identifying additional potentially liable persons, the person given notice shall provide to the department a statement and credible evidence showing that there is a basis in law and fact to determine that the identified person is potentially liable under 75-10-715.

(9) Within 30 days of receipt of the information provided for in subsection (8), the department may issue a notice letter to an identified person whom the department determines is a potentially liable person under 75-10-715 or to a person whom the department identified in subsection (7) and who was not previously given notice. If the department does not issue a notice letter to an identified person, the department shall issue the person a nomination letter indicating that the person has been identified as potentially liable under 75-10-715. The nomination letter must state that the person has the right to participate in the allocation process and that if the person does not participate and is found liable, the person remains subject to liability as provided in 75-10-715. If the newly noticed or nominated person chooses to participate in the allocation process, the person shall provide a written petition of the person's intent to participate in the allocation process to the department within 30 days of the date of the notice or nomination letter. A failure to petition the department for allocation as provided in this subsection results in a waiver of the right to participate in the allocation process.

(10) If a person nominated under subsection (9) cannot be readily located, the department shall, within 30 days of receipt of the information provided for in subsection (8), publish one notice of the person's nomination, along with the information contained in a nomination letter under subsection (9), in a newspaper of general circulation in the county where all or a portion of the facility is located. The notice must state that the person has 30 days from the date of the notice to petition the department, in writing, to participate in the allocation process. A failure to petition the department for allocation as provided in this subsection results in a waiver of the right to participate in the allocation process.

(11) If one or more potentially liable persons petition in writing for an allocation process under subsection (1), (2), or (3) and the department determines that the facility has a potential orphan share, the department shall:

(a) publish a notice and brief description of the facility in a newspaper of general circulation in the area affected and provide at least 30 days for submission of public comment on the identification of potentially liable persons under 75-10-715; and

(b) notify interested persons and the county commissioners of each county in which all or a portion of the facility is located and provide at least 30 days for submission of comments on the identification of potentially liable persons under 75-10-715.

(12) If a nominated person participates in the allocation and the person is assigned a zero share of liability by the allocator, that person's reasonable costs of participating in the allocation, including attorney fees, must be borne by the person who proposed the addition of the nominated person to the allocation.

(13) If the department anticipates that a facility may have an orphan share, the department shall represent the orphan share in the allocation process. If the state is a potentially liable person under 75-10-715, an agency or entity other than the department shall represent the state in the allocation process.

(14) Except as provided in subsection (15), whenever the department is involved in allocation processes on five facilities, other allocation processes may be stayed before the discovery stage provided in 75-10-747. Upon completion of an allocation provided in 75-10-750 or 75-10-751, execution of a stipulated agreement under 75-10-750, or a default to liability as provided in 75-10-715 for one of the five facilities, the department shall notify the potentially liable persons for the facility on the waiting list that has the earliest date of written petition. Discovery under 75-10-747 must begin within 10 days of department notification.

(15) A stay on the allocation process may not occur under subsection (14) if all persons participating in the allocation process agree in writing that there is no orphan share and that the state is not a potentially liable person under 75-10-715. The agreement is binding upon all noticed or nominated persons.

(16) If, after initiating the process, a potentially liable person elects to discontinue participation in the process, the person remains subject to liability as provided in 75-10-715. *(Terminates June 30, 2005—sec. 30, Ch. 415, L. 1997.)*

2001 Amendment: Chapter 383 in (7)(b) near beginning of first sentence after "letters to" inserted "one or more of" and inserted second sentence requiring the issuance of notice letters or nomination letters to potentially liable persons who were not previously given notice; in (9) at end of first sentence after "75-10-715" inserted "or to a person whom the department identified in subsection (7) and who was not previously given notice"; and made minor changes in style. Amendment effective April 28, 2001.

75-10-746. *(Temporary)* **Emergency actions — remedial action requirements — designation of lead person — enforcement.** (1) If the department determines that immediate response to an imminent threat to public health, safety, or welfare or the environment is necessary to avoid substantial injury or damage to persons, property, or resources, the department may require any potentially liable person to take remedial actions without the prior written notice required by 75-10-711(3). The department has 30 days to comply with the notification requirements provided in 75-10-711(3) and 75-10-745 when requiring emergency remedial actions.

(2) Within 30 days of the issuance of the notice letters, the noticed persons shall designate a lead person who shall conduct remedial actions at the facility. Upon request of the noticed persons and for good cause shown, the department may grant a 30-day extension of time to identify the lead person.

(3) If the department determines that the identified lead person is financially or otherwise incapable of completing remedial actions required by the department, the department shall notify all noticed persons of this determination in writing and request that another lead person be designated within 15 days.

(4) The designated lead person shall undertake all remedial actions required by the department.

(5) If the noticed persons do not designate an approved lead person within the timeframes provided under subsection (2) or (3), the department shall designate a lead person to undertake required remedial actions.

(6) If the department finds that the lead person has not complied with the requirements of a notice letter, order, stipulated agreement, or any department-approved remedial action plan, the department shall notify all potentially liable persons of the noncompliance.

(7) If the noncompliance continues for 30 days after the date of the notice provided in subsection (6), the potentially liable persons have not demonstrated that the noncompliance is due to good cause, and the facility is a maximum or high-priority facility on the department's priority list established pursuant to 75-10-702, the department shall take one or more of the following actions:

(a) issue a unilateral order requiring the potentially liable persons to comply with the requirements of the notice letter, order, stipulated agreement, or department-approved remedial action plan;

(b) file a civil action as provided in 75-10-711;

(c) conduct the required remedial actions and seek cost recovery and penalties as provided in 75-10-711;

(d) file a cost recovery action as provided in 75-10-722; or

(e) void approval of the voluntary cleanup plan as provided in 75-10-736.

(8) If the noncompliance continues for 30 days after the date of the notice provided in subsection (6), the potentially liable persons have not demonstrated that the noncompliance is due to good cause, and the facility is not a maximum or high-priority facility on the department's priority list, the department may take one or more of the actions provided for in subsection (7).

(9) For purposes of subsections (7), (8), and (10), "good cause" means factors beyond a person's control that include severe weather conditions, third-party interference, an act of God, or an act of war. Before a person may claim good cause due to third-party interference, the person shall show that the person used reasonable efforts to obtain cooperation or compliance from the third party.

(10) If the lead person fails to comply with the requirements of a notice letter, order, stipulated agreement, or other department-approved remedial action plan, the facility and all noticed persons remain subject to liability as provided in 75-10-715 unless another person assumes the lead role in implementing the required remedial actions or the lead person can establish that the noncompliance is due to good cause. *(Terminates June 30, 2005—sec. 30, Ch. 415, L. 1997.)*

History: En. Sec. 16, Ch. 415, L. 1997.

75-10-747. *(Temporary)* **Discovery.** (1) Each person participating in the allocation process for a facility may conduct discovery for a period of not more than 90 days from the date of the last notice or nomination letter. Discovery requests by each person participating in the allocation process, including the orphan share representative, are limited to the following unless otherwise agreed to by all persons participating in the allocation, including the orphan share representative:

(a) 5 1-day oral depositions not to exceed 8 hours each;

(b) 25 written interrogatories, including subparts;

(c) 50 requests for admission; and

(d) 50 requests for production of documents.

(2) The persons participating in the allocation process may extend the discovery period for up to 30 days if all persons agree to the extension in writing.

(3) Any participating person who is not responsive to discovery requests or who does not participate in the subsequent allocation proceeding and is allocated a share of liability remains subject to liability as provided in 75-10-715. *(Terminates June 30, 2005—sec. 30, Ch. 415, L. 1997.)*

75-10-748. *(Temporary)* **Preallocation negotiations.** (1) After discovery pursuant to 75-10-747 closes, all persons participating in the allocation process shall conduct good faith settlement negotiations for a period of 30 days.

(2) The participating potentially liable persons may use an impartial mediator when conducting settlement negotiations.

(3) If a settlement is reached under subsection (1), the persons shall execute a stipulated agreement as provided in 75-10-750.

(4) If a stipulated agreement is not executed as provided in 75-10-750, the persons shall select an allocator as provided in 75-10-749. *(Terminates June 30, 2005—sec. 30, Ch. 415, L. 1997.)*

History: En. Sec. 18, Ch. 415, L. 1997.

75-10-749. *(Temporary)* **Allocator selection — payment of fees.** (1) If the preallocation negotiations pursuant to 75-10-748 fail to produce a stipulated agreement within the timeframe provided in 75-10-748, the participating persons shall select an allocator within 30 days after the preallocation negotiations end. All participating persons shall agree on the selected allocator.

(2) Before selection or appointment as an allocator, a person shall disclose all conflicts of interest, including whether the allocator is or has been a relative, attorney, agent, employee, creditor, or contractor of, or in any manner is or has been interested financially or personally with, any person involved in the allocation.

(3) If the participating persons are unable to agree on an allocator within the required 30 days, one or more of the participating persons shall apply for judicial resolution, within 10 days, to the district court in the county where the release occurred or where any potentially liable person under 75-10-715 resides or has a principal place of business or in the district court of the first judicial district. If an application to the district court is not made within 10 days, all persons remain subject to liability as provided in 75-10-715 and the allocation process ends.

(4) Upon selection or appointment of the allocator, the lead person shall advance, if required by the allocator, up to $5,000 toward the allocator's expenses. Any expenses accrued by the allocator for legal or technical expertise must be approved in advance by all the participating persons. The allocator's fees and reasonable expenses must be divided among the participating liable persons, except the orphan share, in proportion to their allocated shares. The orphan share fund established in 75-10-743 is not responsible for any portion of the allocator's fees and expenses. *(Terminates June 30, 2005—sec. 30, Ch. 415, L. 1997.)*

History: En. Sec. 19, Ch. 415, L. 1997.

75-10-750. *(Temporary)* **Allocating liability.** (1) Upon selection or appointment, the allocator shall establish the process and schedule for determining the allocation, including the length and scope of any documents to be presented.

(2) The participating persons shall submit to the allocator and to each other a statement of position and exhibits of a factual nature. Each person's statement must identify the factors listed in subsection (5) that the person believes are relevant to allocation of liability for the facility.

(3) The allocator may convene the participating persons as the allocator believes necessary to clarify the facts and may pose additional questions, interview any person or the person's representative, and impose presumptions concerning missing information. The allocator may seek department assistance with information gathering pursuant to 75-10-707.

(4) The allocator may not engage in ex parte communications with any person or the person's representative.

(5) The allocator shall allocate each participating and nonparticipating person's share of liability based only on information presented or collected during the allocation process and, taking into account facility characteristics, shall apportion liability on a percentage basis according to the following factors:

(a) the extent to which the person caused the release of the hazardous or deleterious substance;

(b) the extent to which the person's contribution to the release of a hazardous or deleterious substance can be distinguished;

(c) the amount or volume of hazardous or deleterious substance and the amount contributed by the person;

(d) the relative hazard of the hazardous or deleterious substance contributed by the person, including volatility, carcinogenicity, mobility, persistence, reactivity, and toxicity;

(e) the degree of past and present cooperation by the person with the government to prevent harm to the public health, safety, or welfare and the environment, including participation in remedial actions occurring concurrently with the allocation process and compliance and cooperation with discovery pursuant to 75-10-747;

(j) any violations of or noncompliance with health and environmental regulations, including permit violations or violations relating to public notification;

(k) the degree to which a person providing publicly owned landfill or sewer and water systems had or has a reasonable ability to control disposed materials and the person's degree of care in maintaining those services;

(l) the person's financial or economic benefit from:

(i) ownership or operation of the facility;

(ii) the generation, transportation, or disposal of the hazardous or deleterious substance; and

(iii) cleanup of the facility;

(m) whether the person exercised due diligence in generating, transporting, or disposing of hazardous or deleterious substances and the person's control over those activities; and

(n) other equitable factors that are appropriate.

(6) Within 60 days of selection or appointment, the allocator shall submit to the department and all noticed and nominated persons a written allocation report that allocates each person's share of liability and that documents the rationale for the percentage of liability allocated to each person.

(7) The allocator or the participating persons may extend the allocation proceeding by up to 30 days if agreed to by the allocator and all the participating persons.

(8) Within 30 days of the date of the allocation report, the persons who participated in the allocation and who were allocated a share of liability, except for the orphan share, shall prepare and sign a stipulated agreement that contains:

(a) the percentage share of liability for each person as determined by the allocator;

(b) procedures for paying for the orphan share prior to reimbursement from the orphan share fund;

(9) If the department determines that the stipulated agreement does not satisfy the requirements of subsection (8), the liable persons who participated in the allocation remain subject to liability as provided in 75-10-715.

(10) A person who did not participate in the allocation but who was assigned a share of liability may sign the stipulated agreement prepared according to subsection (8).

(11) Any liable person allocated a share of liability who does not sign the stipulated agreement remains subject to liability as provided in 75-10-715.

(12) Any liable person who signs the stipulated agreement and fails to comply with the terms of the stipulated agreement shall pay, in addition to the person's share of remedial action costs, a penalty of two times the amount of the person's allocated share of liability. Any funds received must be applied to the facility's orphan share and any funds in excess of the facility's orphan share amount must be deposited in the orphan share fund established under 75-10-743.

(13) If a liable person becomes bankrupt or defunct after the stipulated agreement is signed and before remedial actions are complete at the facility, that person's share of liability becomes an orphan share. *(Terminates June 30, 2005—sec. 30, Ch. 415, L. 1997.)*

History: En. Sec. 20, Ch. 415, L. 1997.

75-10-751. *(Temporary)* **Appeal of allocator's decision.** (1) A person may appeal the allocator's decision to district court within 30 days of the date of the allocation report. Venue lies in the county where the release occurred or where the liable person resides or has a principal place of business or in the first judicial district.

(2) The allocator's decision must be upheld unless the person appealing the decision demonstrates that the decision was:

(a) made upon unlawful procedure;

(b) affected by other error of law;

(c) clearly erroneous in view of the reliable, probative, and substantial evidence on the whole record; or

(d) arbitrary and capricious or characterized by abuse of discretion or clearly unwarranted exercise of discretion or was fraudulent.

(3) If the appeal is successful, the district court shall allocate the liability of the potentially liable persons using the factors outlined in 75-10-750.

(4) After decision on the appeal, all liable persons shall submit a stipulated agreement as provided in 75-10-750 to the department based on the court order. *(Terminates June 30, 2005—sec. 30, Ch. 415, L. 1997.)*

History: En. Sec. 21, Ch. 415, L. 1997.

75-10-752. *(Temporary)* **Effect of termination on allocations.** (1) Persons participating in the allocation process may complete the allocation process for the facility at issue and claim reimbursement from the orphan share fund provided that the discovery process under 75-10-747 had been initiated by June 30, 2005.

(2) If discovery, as provided in 75-10-747, has not commenced by June 30, 2005, the facility and its potentially liable persons under 75-10-715 are not eligible to participate in the allocation process under 75-10-742 through 75-10-752 and remain subject to liability as provided in 75-10-715. *(Terminates June 30, 2005—sec. 30, Ch. 415, L. 1997.)*

(1) "Composting" means the controlled biological decomposition of organic matter into humus.

(2) "Department" means the department of environmental quality provided for in 2-15-3501.

(3) "Integrated waste management" means the coordinated use of a priority of waste management methods, including waste prevention, as specified in 75-10-804.

(4) "Postconsumer material" means only those paper products generated by a consumer that have served their intended end uses and have been separated or diverted from the solid waste stream.

(5) "Recycling" means all activities involving the collection of recyclable material, including but not limited to glass, paper, or plastic; the processing of recyclables to prepare them for resale; the marketing of recovered material for use in the manufacture of similar or different products; and the purchase of products containing recycled material.

(6) "Special waste" means solid waste that has unique handling, transportation, or disposal requirements to ensure protection of the public health, safety, and welfare and the environment.

(7) "Waste reduction" means practices that decrease the weight, volume, or toxicity of material entering the solid waste management stream after consumer or commercial use but prior to incineration or disposal.

History: En. Sec. 2, Ch. 222, L. 1991; amd. Sec. 204, Ch. 418, L. 1995.

75-10-803. Solid waste reduction target. It is the goal of the state, by January 1, 1996, to reduce by at least 25% the volume of solid waste that is either disposed of in a landfill or incinerated.

History: En. Sec. 3, Ch. 222, L. 1991.

75-10-804. Integrated waste management priorities. It is the policy of the state to plan for and implement an integrated approach to solid waste management, which must be based upon the following order of priority:

(1) reduction of waste generated at the source;
(2) reuse of waste;
(3) recycling of waste;
(4) composting of biodegradable waste; and
(5) landfill disposal or incineration.

History: En. Sec. 4, Ch. 222, L. 1991.

75-10-805. State government source reduction and recycling program. (1) In order to progress toward achieving the waste reduction target identified in 75-10-803, each state agency, the legislature, and the university system shall:

(a) prepare a source reduction and recycling plan by January 1, 1992, to reduce the solid waste generated by state government. This plan must be submitted to the department and must include, at a minimum, provisions for the composting of yard wastes and the recycling of office and computer paper, cardboard, used motor oil, and other materials produced by the state for which recycling markets exist or may be developed.

(b) establish and implement a source reduction and recycling program by July 1, 1992; and
(c) apply computer technology to reduce the generation of waste paper through:
(i) the use of electronic access systems;
(ii) the transfer of information in electronic rather than paper form; and
(iii) other applications of computer technology.
(2) The plan must be evaluated every 5 years and updated as necessary.

History: En. Sec. 5, Ch. 222, L. 1991; amd. Sec. 4, Ch. 440, L. 1997.

75-10-806. State government procurement of recycled supplies and materials. (1) The department of administration shall write purchasing specifications that incorporate requirements for the purchase of materials and supplies made from recycled materials if the use is technologically practical and reasonably cost-effective. These requirements must be incorporated into the purchase of:

(a) paper and paper products;
(b) plastic and plastic products;
(c) glass and glass products;
(d) automobile and truck tires;
(e) motor oil and lubricants; and
(f) other materials and supplies as determined by the department of administration.

(2) It is the goal of the state that 95% of the paper and paper products used by state agencies, universities, and the legislature must be made from recycled material that maximizes postconsumer material content.

(3) The state shall, to the maximum extent possible, purchase for use by state agencies paper and paper products that contain postconsumer material rather than new material.

(4) To the extent practical, guidelines for the recycled material content of paper should be consistent with nationwide standards for recycled paper.

(5) The department and the department of administration shall establish a joint recycling market development task force. Task force membership must include but is not limited to representatives of the recycling industry, wholesalers, state agencies, and citizen and environmental organizations, as well as other interested persons. The task force shall:

(a) assist the department of administration in developing purchasing specifications as required in subsection (1);

(b) develop additional mechanisms for state government to develop markets for recycled materials;

(c) identify procurement barriers that discriminate against the purchase of supplies and products that contain recycled material; and

(d) develop recommendations for an informational program designed to educate state employees on how to reduce waste and recycle in the workplace.

(2) The plan must be comprehensive and integrated and must include at least the following elements:

(a) a capacity assurance element that identifies existing disposal capacity, estimates waste generation rates, and determines the disposal capacity needed for the future and that assesses the potential effect of interstate disposal on capacity;

(b) an element that incorporates federal regulations 40 CFR, parts 257 and 258;

(c) an element that identifies the role of each of the components of the integrated waste management priorities contained in 75-10-804 in meeting the solid waste reduction target in 75-10-803;

(d) a technology assessment element that assesses the availability and practicality of alternative technologies for solid waste management;

(e) an education and public information element that identifies existing education and information programs and describes how the state will increase the awareness and cooperation of the public in environmentally safe solid waste management;

(f) a special waste and household hazardous waste element that identifies types and quantities of wastes that create special disposal problems and recommends methods for reducing, handling, collecting, transporting, and disposing of those wastes and that identifies existing and future strategies for managing those wastes;

(g) an element that identifies the needs of rural communities and management strategies to address those needs;

(h) an element that identifies mechanisms to ensure proper training of landfill operators; and

History: En. Sec. 1, Ch. 468, L. 1991.

75-10-902. Purpose. (1) It is the constitutionally declared policy of this state to maintain and improve a clean and healthful environment for present and future generations, to protect the environment from degradation and prevent unreasonable depletion and degradation of natural resources, and to provide for administration and enforcement to attain these objectives.

(2) The construction of solid waste facilities that dispose of over 200,000 tons of waste a year (megalandfills) may be necessary to meet increasing state and national needs for solid waste disposal capacity. However, due to the volume of waste processed, megalandfills may adversely affect the environment, surrounding communities, and the welfare of the citizens of this state. Therefore, it is necessary to ensure that the location, construction, and operation of megalandfills will produce minimal adverse effects on the environment and upon the citizens of this state by providing that a megalandfill may not be constructed or operated within this state without a certificate of site acceptability pursuant to 75-10-916 and a license to operate acquired pursuant to 75-10-221 and 75-10-933.

The department shall evaluate the applicability, validity, and usefulness of the data or services and determine the expenses that may be credited against the filing fee payable under this section. Upon 30 days' notice to the applicant, this credit may at any time be reduced if the department determines that the amount to be credited is necessary to carry out its responsibilities under 75-10-901 through 75-10-945.

(2) (a) The department may contract with an applicant after the filing of a formal application for the development of information or the provision of services required under 75-10-901 through 75-10-945. 75-10-925. Certificate amendments. (1) Within 30 days after notice of an amendment to a certificate is given as provided in 75-10-919, including notice to all active parties to the original proceeding, the department shall determine whether the proposed change in the facility would result in a material increase in any environmental, social, and economic impacts caused by the facility or a substantial change in the location of all or a portion of the facility as set forth in the certificate. If the department determines that the proposed change would result in a material increase in any environmental impact caused by the facility or a substantial change in the location of all or a portion of the facility, the board shall hold a hearing in the same manner as a hearing is held on an application for a certificate. After the hearing, the board shall grant, deny, or modify the amendment with conditions it considers appropriate.

(2) In cases where the department determines that the proposed change in the facility would not result in a material increase in any environmental impact or would not be a substantial change in the location of all or a portion of the facility, the board shall grant the amendment either as applied for or upon terms or conditions as the board considers appropriate unless the department's determination is appealed to the board within 15 days after notice of the department's determination is given.

(3) If the department or the board, under subsection (4), determines that a hearing is required because the proposed change would result in a material increase in any environmental impact of the facility or a substantial change in the location of all or a portion of the facility, the applicant has the burden of showing by clear and convincing evidence that the amendment should be granted.

(4) If the department determines that the proposed change in the facility would not result in a material increase in any environmental impact or would not be a substantial change in the location of all or a portion of the facility and a hearing is required because the department's

determination is appealed to the board as provided in subsection (2), the appellant has the burden of showing by clear and convincing evidence that the proposed change in the facility would result in a material increase in any environmental impact of the facility or a substantial change in the location of all or a portion of the facility as set forth in the certificate.

(2) A prehearing conference must be held, following notice, within 60 days after the department's report has been filed with the board.

(3) The prehearing conference must be organized and supervised by the hearing examiner.

(4) The prehearing conference must be directed toward a determination of the issues presented by the application, the department's report, and an identification of the witnesses and documentary exhibits to be presented by the active parties who intend to participate in the hearing.

(5) The hearing examiner shall require the active parties to submit, in writing, and serve upon the other active parties all direct testimony that they propose and any studies, investigations, reports, or other exhibits that any active party wishes the board to consider. These written exhibits and any documents that the board itself wishes to use or rely on must be submitted and served at least 20 days prior to the date set for the hearing. For good cause shown, the hearing examiner may allow the introduction of new evidence at any time.

(6) The hearing examiner shall allow discovery that must be completed before the commencement of the hearing upon good cause shown and under other conditions as the hearing examiner prescribes.

(7) Public witnesses and other interested public parties may appear and present oral testimony at the hearing or submit written testimony to the hearing examiner at the time of their appearance. These witnesses are subject to cross-examination.

(8) The hearing examiner shall issue a prehearing order specifying the issues of fact and of law, identifying the witnesses of the active parties, naming the public witnesses and other interested parties who have submitted written testimony in lieu of appearance, outlining the order in which the hearing will proceed, setting forth those criteria listed in 75-10-929 as to which no issue of fact or law has been raised and that are conclusively presumed and are not subject to further proof except for good cause shown, and listing any other special rules to expedite the hearing that the hearing examiner adopts with the approval of the board.

(9) At the conclusion of the hearing, the hearing examiner shall declare the hearing closed and shall, within 60 days of that date, prepare and submit to the board proposed findings of fact, conclusions of law, and a recommended decision.

(10) The hearing examiner appointed to conduct a certification proceeding under this section shall ensure that the time of the proceeding, from the date the department's report is filed with the board until the recommended report and order of the examiner is filed with the board, does not exceed 9 calendar months unless extended by the board for good cause.

(11) The board or hearing examiner may waive all or a portion of the procedures set forth in subsections (2) through (8) to expedite the hearing for a facility when the department has recommended approval of a facility and no objections have been filed.

(3) The parties to a certification proceeding may also include, as public parties, any Montana citizen and any party referred to in subsections (1)(b) through (1)(e).

(4) A party waives the right to be a party if the party does not participate in the hearing before the board.

(5) Each unit of local government entitled to receive service of a copy of the application under 75-10-918 shall file with the board a statement showing whether the unit of local government intends to participate in the certification proceeding. If the unit of local government does not intend to participate, it shall list in this statement its reasons for failing to do so. This statement of intent must be published before the proceeding begins in a newspaper of general circulation within the jurisdiction of the applicable unit of local government.

History: En. Sec. 22, Ch. 468, L. 1991.

75-10-928. Record of hearing — procedure — rules of evidence — burden of proof. (1) Any studies, investigations, reports, or other documentary evidence, including those prepared by the department, that any party wishes the board to consider or that the board itself expects to use or rely upon must be made a part of the record.

(2) A record must be made of the hearing and of all testimony taken.

(3) In a certification proceeding held under 75-10-924, the applicant has the burden of showing by clear and convincing evidence that the application should be granted and that the criteria of 75-10-929 are met.

(4) All proceedings under 75-10-924 through 75-10-928 are governed by the procedures set forth in 75-10-924 through 75-10-928, the procedural rules adopted by the board, and the Montana Rules of Evidence unless one or more rules of evidence are waived by the hearing examiner upon a showing of good cause by one or more of the parties to the hearing. No other rules of procedure or evidence apply except that the contested case procedures of the Montana Administrative Procedure Act apply if not in conflict with the procedures set forth in 75-10-924 through 75-10-928 or the procedural rules adopted by the board.

75-10-929. Decision of board — findings necessary for certification. (1) Within 90 days after submission of the recommended decision by the department, the board shall make complete findings, issue an opinion, and render a final decision upon the record, either granting or denying the application for a certificate as filed or granting it upon terms, conditions, or modifications of the siting of the facility as the board considers appropriate.

(2) The board may not grant a certificate either as proposed by the applicant or as modified by the board unless it finds and determines:

(a) the nature of the probable environmental impact;

(b) that the facility minimizes adverse environmental impact, considering the state of available technology and the nature and economics of the various alternatives;

(c) that the location of the facility as proposed conforms to applicable state and local laws and regulations, except that the board may refuse to apply any local law or regulation if it finds that, as applied to the proposed facility, the law or regulation is unreasonably restrictive in view of the existing technology, of factors of cost or economics, or of the needs of consumers, whether located inside or outside of the directly affected government subdivisions;

(d) that the facility will serve the public interest;

(e) any impacts of the facility according to each of the criteria listed in 75-10-920;

(f) the solid waste disposal needs listed in 75-10-920(4); and

(g) that the applicant has fully mitigated the loss of wildlife habitat, through either onsite or offsite habitat improvements.

(3) In determining that the facility will serve the public interest, the board shall consider:

(a) the items listed in subsections (2)(a) and (2)(b);

(b) the benefits to the applicant and the state resulting from the proposed facility;

(c) the effects of the economic activity resulting from the proposed facility;

(d) the effects of the proposed facility on the public health, welfare, and safety; and

(e) any other factors that it considers relevant.

History: En. Sec. 24, Ch. 468, L. 1991.

75-10-930. Conditions imposed. If the board determines that the location of all or a part of the proposed megalandfill should be modified, it may condition its certificate upon the modification, provided that the persons residing in the area affected by the modification have been given reasonable notice of the modification.

(2) The department shall make the decision to grant or deny the license within 30 days of the certification decision, as provided in 75-10-929.

(3) Once a license has been issued, a megalandfill may not be constructed, operated, or maintained except in conformity with the license and any terms, conditions, and modifications contained in the license.

History: En. Sec. 26, Ch. 468, L. 1991.

75-10-934. License transferable. A license may be transferred, subject to the approval of the department, to a person who agrees to comply with the terms, conditions, and modifications contained in 75-10-901 through 75-10-945.

History: En. Sec. 27, Ch. 468, L. 1991.

75-10-935. Opinion issued with decision — contents. (1) In rendering a decision on an application for a license for a megalandfill, the department shall issue an opinion stating its reasons for the action taken.

(2) In addition to the requirements of 75-10-221, any license issued by the department shall include the following:

(a) an environmental evaluation statement related to the megalandfill being certified. The statement must include but not be limited to analysis of the following information:

(i) the environmental impact of the proposed facility;

(ii) any adverse environmental effects that cannot be avoided by issuance of the license;

(iii) problems and objections raised by other federal and state agencies and interested groups; and

(iv) alternatives to the proposed facility.

(b) a plan for monitoring environmental effects of the proposed facility;

(c) a plan for monitoring the certified megalandfill site between the time of certification and completion of construction; and

(d) a statement signed by the applicant showing agreement to comply with the requirements of 75-10-901 through 75-10-945 and the conditions of the certificate.

History: En. Sec. 28, Ch. 468, L. 1991.

75-10-936 and 75-10-937 reserved.

75-10-938. Monitoring. The department shall monitor the operations of all certificated facilities to ensure continuing compliance with 75-10-901 through 75-10-945 and with certificates issued under 75-10-916 and to discover and prevent noncompliance with 75-10-901 through 75-10-945 or certificates issued under 75-10-916.

History: En. Sec. 29, Ch. 468, L. 1991.

75-10-939. Revocation or suspension of license. A license may be revoked or suspended by the department following notice and an opportunity for a hearing before the department for:

(1) any material false statement in the application or in accompanying statements or studies required of the applicant if a true statement would have warranted the department's refusal to grant a license;

(2) failure to comply with the terms or conditions of the certificate; or

(3) violation of any provision of 75-10-901 through 75-10-945, rules adopted under 75-10-901 through 75-10-945, or orders of the department.

History: En. Sec. 30, Ch. 468, L. 1991.

75-10-940. Enforcement by residents. (1) A person with knowledge that a requirement of 75-10-901 through 75-10-945 or a rule adopted under 75-10-901 through 75-10-945 is not being enforced by a public officer or employee whose duty it is to enforce the requirement or rule may bring the failure to enforce to the attention of the public officer or employee by a written statement under oath that states the specific facts of the failure to enforce the requirement or rule. Knowingly making false statements or charges in the statements subjects the person to the penalties prescribed for a violation of 45-7-202.

(2) If the public officer or employee neglects or refuses for an unreasonable time after receipt of the statement to enforce the requirement or rule, the person may bring an action of mandamus in the district court of the first judicial district of Montana. If the court finds that a requirement of 75-10-901 through 75-10-945 or a rule adopted under 75-10-901 through 75-10-945 is not being enforced, the court may order the public officer or employee whose duty it is to enforce the requirement or rule to perform those duties. If he fails to do so, the public officer or employee must be held in contempt of court and is subject to the penalties provided by law.

History: En. Sec. 31, Ch. 468, L. 1991.

75-10-941. Action to recover damages to water supply. An owner of an interest in real property who obtains all or part of his supply of water for domestic, agricultural, industrial, or other legitimate use from a surface or underground source may sue a person to recover damages for contamination, diminution, or interruption of the water supply proximately resulting from the operation of a facility. The remedy provided in this section does not exclude the use of any other remedy that may be available under the laws of the state.

History: En. Sec. 32, Ch. 468, L. 1991.

75-10-942. Judicial review of department and board decisions. (1) An applicant aggrieved by the final decision of the board on an application for a certificate or the final decision of the department on an application for a license may obtain judicial review of that decision by filing a petition in district court.

(2) The judicial review procedure is the same as that for contested cases under Title 2, chapter 4, part 7.

(3) This section does not prohibit the department from holding a hearing on all matters that are not the subject of a pending appeal by the applicant under subsection (1).

History: En. Sec. 33, Ch. 468, L. 1991.

75-10-943. Penalties for violation — civil action by attorney general. (1) (a) A person who commences to construct or operate a megalandfill without obtaining a certificate required under 75-10-916 and a license required under 75-10-933, who constructs, operates, or maintains a facility other than in compliance with the certificate or violates any other provision of 75-10-901 through 75-10-945 or any rule or order adopted under 75-10-901 through 75-10-945, or who knowingly submits false information in any report, long-range plan, or application required by 75-10-901 through 75-10-945 is liable for a civil penalty as provided in subsection (2).

(b) Each day of a continuing violation constitutes a separate offense.

(c) The penalty is recoverable in a civil suit brought by the attorney general on behalf of the state in the district court of the first judicial district of Montana.

(2) A person who knowingly violates the provisions of subsection (1) shall be fined not more than $25,000 for each violation or be imprisoned for not more than 1 year, or both. Each day of a continuing violation constitutes a separate offense.

(3) In addition to any penalty provided in subsection (1) or (2), whenever the department determines that a person is violating or is about to violate any of the provisions of 75-10-901 through 75-10-945, it may refer the matter to the attorney general who may bring a civil action on behalf of the state in the district court of the first judicial district of Montana for injunctive or other appropriate relief against the violation and to enforce 75-10-901 through 75-10-945 or a certificate issued under 75-10-916. Upon a proper showing, a permanent or preliminary injunction or temporary restraining order must be granted without bond.

(4) The department shall also enforce 75-10-901 through 75-10-945 and may bring legal actions to accomplish the enforcement through its own legal counsel.

(5) All fines and penalties collected must be deposited in the solid waste management account for the use of the department in administering 75-10-901 through 75-10-945.

History: En. Sec. 34, Ch. 468, L. 1991.

75-10-944. Order not stayed by appeal — stay or suspension by court — limitations. An appeal from a department order does not automatically stay or suspend the operation of the order. The court may, upon motion by a party, stay or suspend, in whole or in part, the operation of the department's order on terms the court considers just. The court's action must be in accordance with the practice of courts exercising equity jurisdiction, subject to the following limitations:

(1) A stay may not be granted without notice to the parties and an opportunity to be heard by the court.

(2) A department order may not be stayed or suspended without finding that irreparable damage would otherwise result to the party seeking the stay or suspension, and a stay or suspension must specify the nature of the damage.

History: En. Sec. 35, Ch. 468, L. 1991.

75-10-945. Surety bond. If an order of the department is stayed or suspended, the court may require a bond with good and sufficient surety conditioned that the party petitioning for review answer for all damages caused by the delay in enforcing the order of the department. The cost of the bond is not chargeable to the applicant as part of the fee. If the party petitioning for review prevails upon final resolution of an appeal, the party does not forfeit bond and is not responsible for damages caused by delay.

History: En. Sec. 36, Ch. 468, L. 1991.

75-10-946 through 75-10-949 reserved.

75-10-950. Definitions. As used in 75-10-950 through 75-10-954, the following definitions apply:

(1) "Applicant" means an individual, firm, partnership, company, association, corporation, city, town, local governmental entity, or any other governmental or private entity that applies for a license to operate a megalandfill pursuant to 75-10-221.

(2) "Board" means the board of environmental review provided for in 2-15-3502.

(3) "Department" means the department of environmental quality provided for in 2-15-3501.

(4) (a) "Megalandfill" means, except as provided in subsection (4)(b), any new or existing solid waste management system licensed under 75-10-221 that accepts more than 200,000 tons of solid waste a year or an ash monofill that accepts more than 35,000 tons of ash a year.

(b) An existing solid waste landfill facility that accepted 100,000 tons a year of solid waste as of December 31, 1991, is not considered a megalandfill or facility until it accepts more than 300,000 tons a year of solid waste.

(5) "Natural resource" means ground water, surface water, soil, wildlife, and other physical and biological resources as determined by the department by rule.

History: En. Sec. 1, Ch. 541, L. 1991; amd. Sec. 3, Ch. 338, L. 1993; amd. Sec. 208, Ch. 418, L. 1995; amd. Secs. 532, 568, Ch. 546, L. 1995.

75-10-951. Megalandfill financial assurance — release. (1) As a condition of a license to operate a megalandfill under 75-10-221, an applicant shall provide financial assurance sufficient to ensure the restoration or replacement of any natural resource damaged or impaired as a result of the construction, operation, or closure of the megalandfill. The department shall determine the amount of financial assurance that must be provided based on an assessment of the license application and the applicant's estimated cost of reclaiming, restoring, or replacing natural resources that may be damaged or impaired by the applicant's proposed operations.

(2) The department shall adopt rules to specify the terms and conditions of financial assurance.

(3) To satisfy the financial assurance requirement, the applicant shall file with the department a bond that is payable to the state of Montana with a surety satisfactory to the department, conditioned upon the faithful performance of the requirements of this section and the rules of the department.

(4) The bond approved by the department may not be less than the estimated cost to the state to reclaim, restore, or replace damaged or impaired natural resources.

(5) Every 2 years the department shall evaluate the amount of the bond provided for a licensed megalandfill. If the department determines that the amount of the bond does not represent the present cost of reclaiming, restoring, or replacing natural resources that may be damaged or impaired by the operation, the department may modify the terms and conditions of the bond.

(6) The department may not release an operator from the financial assurance requirement and may not release the bond:

(a) for a minimum of 30 years after the megalandfill has closed;

(b) until the department determines that the natural resources associated with the megalandfill have been permanently reclaimed, restored, or replaced to the quantity and quality that prevailed prior to the commencement of the licensed operations and that the megalandfill presents no significant future threat to those natural resources; and

(c) until a public hearing has been held. The department shall make all information that is relevant to the decision on whether to release an operator from the financial assurance requirement readily available to interested persons, and no less than 45 days prior to the public hearing the department shall:

(i) publish notice of the hearing in newspapers of general statewide circulation and circulation in the county where the megalandfill is located; and

(ii) take other appropriate measures to ensure broad distribution of the hearing notice.

(7) A person may submit to the department information relevant to the department's decision to release an operator from all or any part of the financial assurance requirement for a period of 30 days after the date of the public hearing required under subsection (6).

(8) A person may request the department to reconsider its decision to release an operator from all or any part of the financial assurance requirement based upon information the person submits to show that the licensee has not reclaimed, restored, or replaced the quantity or quality of natural resources that prevailed prior to the commencement of the licensed operations. The department's response to a request to reconsider its decision to release an operator from all or any part of the financial assurance requirement is the final agency decision.

History: En. Sec. 2, Ch. 541, L. 1991.

75-10-952. Bond forfeiture. At the board's discretion, the failure of a licensee to reclaim, restore, or replace damaged or impaired natural resources to the department's satisfaction, as required under 75-10-951(6) or any rule adopted under 75-10-951(6), may result in bond forfeiture.

History: En. Sec. 3, Ch. 541, L. 1991.

75-10-953. Reclamation by board. (1) Pursuant to the provisions of 75-10-950 through 75-10-954, the board may reclaim, restore, or replace any affected natural resources for which a bond has been forfeited.

(2) The board may have reclamation work done by department employees or by employees of other governmental agencies or soil conservation districts or through contracts with qualified persons.

(3) Any funds or any public works programs available to the board may be used and expended to reclaim, restore, or replace natural resources that have been damaged or impaired as a result of the construction, operation, or closure of a megalandfill. The board shall cooperate with federal, state, and private agencies to engage in cooperative projects under this section.

(4) Agents, employees, or contractors of the department may enter upon any land for the purpose of conducting studies or exploratory work to determine whether a megalandfill has been reclaimed and rehabilitated in accordance with the requirements of 75-10-951(6). Upon request of the board, the attorney general shall bring an injunctive action to restrain any interference with the exercise of the right to enter and inspect granted in this subsection.

History: En. Sec. 4, Ch. 541, L. 1991.

(2) All forfeited bonds that have been or will be paid to the department under the provisions of 75-10-950 through 75-10-954 must be deposited in the account.

(3) Money in the account is available to the department for the reclamation, restoration, and replacement of natural resources damaged or impaired by the megalandfill. Unencumbered and unexpended money remaining in the account at the end of a fiscal year may not lapse but must be carried forward for the purposes of this subsection until appropriated by subsequent legislative action.

History: En. Sec. 1, Ch. 483, L. 1991.

75-10-1002. Purpose. The purpose of this part is to protect the public health, safety, and welfare of the citizens of Montana by developing and implementing infectious waste management policies that are reasonable, cost-effective, aesthetically pleasing, and environmentally acceptable.

History: En. Sec. 2, Ch. 483, L. 1991.

75-10-1003. Definitions. As used in this part, the following definitions apply:

(1) "Department" means the department of environmental quality established in 2-15-3501.

(2) "Generator" means an individual, firm, facility, or company that produces infectious waste.

(3) "Infectious" means capable of producing disease. To be infectious, the following four factors simultaneously must be present:

(a) virulence, which is the ability of microorganisms to cause disease;

(b) dose, which is microorganisms in a quantity sufficient to cause infection;

(c) portal of entry, which is an opening or route of access into a human body; and

(d) host susceptibility, which means the host's natural resistance is incapable of preventing infection.

(4) "Infectious waste" means waste capable of producing infectious disease. Infectious waste includes but is not limited to:

(a) cultures and stocks of infectious agents and associated biologicals;

(b) human pathological waste, including tissues, organs, and body parts removed during surgery or an autopsy;

(c) free-flowing waste human blood and products of blood, including serum, plasma, and other blood components and items soaked or saturated with blood; and

(d) sharps that have been used in patient care, medical research, or industrial laboratories.

(5) "Sharps" means any discarded health care article that may cause punctures or cuts, including but not limited to needles, scalpel blades, and broken glass that may be contaminated with blood.

(6) "Steam sterilization" means a treatment method for infectious waste using saturated steam within a pressure vessel (known as a steam sterilizer, autoclave, or retort) at a time, for a period of time, and at a temperature sufficient to kill infectious agents within the waste.

(7) "Storage" means the actual or intended containment of wastes on either a temporary basis or a long-term basis.

(8) "Transportation" means the movement of infectious waste from the point of generation to any intermediate points or to the point of ultimate treatment or disposal.

(9) "Treatment" means the application of a method, technique, or process, including incineration, designed to render infectious waste sterile.

History: En. Sec. 3, Ch. 483, L. 1991; amd. Sec. 209, Ch. 418, L. 1995.

75-10-1004. Prohibition. A person may not treat, store, transport, or dispose of infectious waste in a manner not authorized under the provisions of this part or rules adopted under the provisions of this part.

History: En. Sec. 4, Ch. 483, L. 1991.

75-10-1005. Management standards — procedures for storage, transportation, treatment, and disposal. (1) Infectious waste must be separated from ordinary waste at the point of origin and stored until the waste is rendered noninfectious in separate, distinct containers with biohazard warning labels in compliance with the following procedures:

(a) Sharps must be contained for storage, transportation, treatment, and subsequent disposal in leakproof, rigid, puncture-resistant containers that must be taped closed or capped securely to prevent loss of contents.

(b) Infectious waste other than sharps must be contained in moisture-proof disposable containers or bags of a strength sufficient to prevent ripping, tearing, or bursting under normal conditions of use. The bags must be securely tied to prevent leakage or expulsion of solid or liquid wastes during storage, handling, and transportation.

(2) To inhibit the spread of infectious agents, infectious waste must be stored prior to treatment in a secured area that prevents access by unauthorized personnel and must be clearly marked or labeled as infectious.

(3) Handling of infectious waste must be done in a manner to prevent compaction or other mechanical manipulation that might cause the release of infectious agents.

(4) (a) Treatment and disposal of infectious waste must be accomplished through the following methods:

(i) incineration with complete combustion that reduces infectious waste to carbonized or mineralized ash;

(ii) steam sterilization that renders infectious waste noninfectious; or

(iii) sterilization by standard chemical techniques or by any scientifically proven techniques approved by state and federal authorities.

(b) Liquid or semisolid infectious waste may be discharged into a sewer system that provides secondary treatment or into a primary treatment sewage system if waste is first sterilized by chemical treatment. A subsurface disposal system installed and operated in accordance with state or local sanitary regulations is, for the purpose of this subsection (b), a sewer system providing secondary treatment.

(c) Fetal remains or recognizable body parts other than teeth must be disposed of by incineration or interment.

(5) If infectious waste has been rendered noninfectious by one of the methods listed in subsection (4) and is no longer biologically hazardous, it may be mixed with and disposed of with ordinary waste in the following manner:

(a) Steam-sterilized waste must be labeled identifying it as such with heat sensitive tape or bagged in marked autoclavable bags.

(b) Chemically treated waste or waste otherwise treated under subsection (4)(a)(iii) must be appropriately labeled.

(6) Infectious waste may be transported by the generator, a municipal solid waste service, or a regulated commercial hauler to an offsite treatment facility if the waste is confined in a leakproof, noncompacting, fully enclosed vehicle compartment.

(7) (a) Infectious waste that has been treated by one of the methods in subsection (4) may be disposed of in a properly operated landfill licensed under 75-10-221.

(b) Untreated infectious waste may be disposed of at a licensed, properly operated landfill until April 1, 1993, if it is buried in a separate area without compaction and with minimum disturbance.

(8) An employee who handles or manages infectious waste must receive training provided by the employer that is adequate to ensure safe performance of duties.

(9) Generators and transporters of infectious waste shall develop a contingency plan to handle spills and equipment failure.

Montana Underground Storage Tank Installer and Inspector Licensing and Permitting Act

Part Cross-References

Hazardous waste management, Title 75, ch. 10, part 4.

75-11-201. Short title. This part may be cited as the "Montana Underground Storage Tank Installer and Inspector Licensing and Permitting Act".

History: En. Sec. 1, Ch. 594, L. 1989; amd. Sec. 1, Ch. 506, L. 1999.

75-11-202. Findings and purpose. (1) Leaking underground storage tank systems have been identified as a significant source of underground contamination and as a potential hazard for fire and explosion. Government and industry studies show that a major cause of leaking underground storage tanks is improper installation or closure. Proper installation, closure, and inspection require specialized knowledge, training, and experience.

(2) To protect the health of Montana citizens and the quality of state waters and other natural resources, it is the intent of the legislature to require permits for the installation or closure of underground storage tank systems; to limit the conduct of these activities to persons with demonstrated competence, training, and experience; and to provide for permitting, licensing, and inspection activities.

History: En. Sec. 2, Ch. 594, L. 1989; amd. Sec. 1, Ch. 200, L. 1993; amd. Sec. 2, Ch. 506, L. 1999.

(5) "Inspector" means an individual who performs inspections of underground storage tank systems.

(6) (a) "Installation" or "to install" means the placement of an underground storage tank system, including excavation, tank placement, backfilling, and piping of underground portions of the underground storage tank system that store or convey regulated substances. Installation includes repair or modification of an underground storage tank system through such means as tank relining or the repair or replacement of valves, fillpipes, piping, vents, or in-tank liquid-level monitoring systems. Installation also means installation, repair, or modification of a leak detection device that is external to and not attached to the underground storage tank system and the installation, repair, or modification of a cathodic protection system.

(b) The terms do not include the process of conducting a precision (tightness) test to establish the integrity of the underground storage tank system.

(7) "Installer" means an individual who installs or closes underground storage tank systems.

(8) "License" means a license issued by the department under 75-11-204 or 75-11-210 to conduct the inspection, installation, or closure of underground storage tank systems.

(9) "Licensed inspector" means an individual who holds a valid underground storage tank system inspector license.

(10) "Licensed installer" means an individual who holds a valid underground storage tank system installer license.

(11) "Operator" means a person in control of or having responsibility for the operation, maintenance, or management of an underground storage tank system.

(12) "Owner" means a person who owns an underground storage tank system used for the storage, use, or dispensing of regulated substances.

History: En. Sec. 3, Ch. 594, L. 1989; amd. Sec. 2, Ch. 200, L. 1993; amd. Sec. 211, Ch. 418, L. 1995; amd. Secs. 533, 568, Ch. 546, L. 1995; amd. Sec. 32, Ch. 112, L. 1997; amd. Sec. 3, Ch. 506, L. 1999.

The owner or operator shall provide timely notice to the department of the date and location of the underground storage tank system installation or closure and shall establish with the department the time when an inspection may be conducted.

(2) An owner or operator may conduct an installation or closure under this section only if an inspector is present.

(3) An inspection fee must be paid by the owner or operator to the department to cover the costs associated with an inspection. The inspection is not considered complete until the owner or operator pays the fee.

A county or city shall use payments received under this section only for costs incurred in conducting inspections under this section.

(6) A copy of an installation inspection report must be kept on file by the owner or operator for as long as the department may require by rule. A copy of a closure inspection report must be kept by the owner or operator for 3 years after the date of closure.

(7) The department may enter and inspect the premises or any appurtenant property of an owner or operator at any time to ensure compliance with laws or rules pertaining to underground storage tank systems.

75-11-214. Licensing of inspectors — interim licenses — regular licenses. (1) The department shall grant an inspector license if the inspector demonstrates competency and experience in the inspection of underground storage tank systems, passes a written examination conducted by the department or by an agency or person authorized by the department to give the examination, and pays the license fee.

(2) The department or an agency or person authorized by the department to give the examination shall conduct written examinations for the purpose of qualifying individuals to

receive an underground storage tank system inspector license. The department shall provide public notice of the date, time, and location of the examination.

(3) An underground storage tank system inspector license is valid for a period not to exceed 3 years and is subject to periodic renewal as prescribed by department rule.

(4) As a condition of renewal, the department may require that an inspector demonstrate continuing competency in the regulatory requirements applicable to operation and maintenance of underground storage tank systems.

(5) An inspector need not be a Montana resident to qualify for a license.

(1) When the department believes that a person has violated this part, a rule adopted under this part, or a permit provision, it may serve written notice of the violation on the person or the person's agent. The notice must specify the alleged violation and the facts that constitute the alleged violation. The notice may include an order to provide information pertaining to the installation, closure, or inspection, or an order to take necessary corrective action within a reasonable time as stated in the order. Every notice and order must be signed by the director of the department or the director's deputy and must be served personally or by certified mail upon the person or the person's agent. The order becomes final unless, within 30 days after the notice is served, the person requests in writing a hearing before the board. On receipt of the request, the board shall schedule a hearing. Service by mail is complete on the date of mailing.

(2) If, pursuant to a hearing held under subsection (1), the board finds that a violation has occurred, it shall either affirm or modify the department's order. An order issued by the department or the board may prescribe the date by which the violation must cease and may prescribe time limits for particular action. If, after a hearing, the board finds that a violation has not occurred, it shall rescind the department's order.

(3) In addition to or instead of issuing an order pursuant to subsection (1), the department may either:

(a) require the alleged violator to appear before the board for a hearing at a time and place specified in the notice and answer the charges described in the notice of violation; or

(b) initiate action under 75-11-219, 75-11-223, or 75-11-224.

(4) This section does not prevent the board or department from attempting to obtain voluntary compliance through issuance of a warning, a conference, or any other appropriate administrative or judicial means.

Part 3
Petroleum Storage Tank Cleanup

Part Cross-References

Petroleum Tank Release Compensation Board, 2-15-2108.
Hazardous waste management, Title 75, ch. 10, part 4.

75-11-301. Findings and purposes. (1) The legislature finds that the use of petroleum products stored in tanks contributes significantly to the economic well-being and quality of life of Montana citizens.

(2) The legislature finds that leaks, spills, and other releases of petroleum products from storage tanks endanger public health and safety, ground water quality, and other state resources.

(3) The legislature finds that current administrative and financial resources of the public and private sectors are inadequate to address problems caused by releases from petroleum storage tanks and need to be supplemented by a major program of release detection and corrective action.

(4) The legislature finds that proper funding for the program is through a petroleum storage tank cleanup fee paid by persons who use and receive the benefits of petroleum products. The legislature further finds that this general use fee, provided for in 75-11-314, is intended solely to support a program to pay for corrective action and damages caused by releases from petroleum storage tanks. The general use fee is collected from distributors for administrative convenience and is not intended as a method for collecting highway revenue pursuant to the provisions of Article VIII, section 6, of the Montana constitution. The fee is intended to implement the legislature's duty to provide for the administration and enforcement of maintaining and improving a clean and healthful environment for present and future generations, as required by Article IX, section 1, of the Montana constitution.

(5) The purposes of this part are to:

(a) protect public health and safety and the environment by providing prompt detection and cleanup of petroleum tank releases;

(b) provide adequate financial resources and effective procedures through which tank owners and operators may undertake and be reimbursed for corrective action and payment to third parties for damages caused by releases from petroleum storage tanks;

(c) assist certain tank owners and operators in meeting financial assurance requirements under state and federal law governing releases from petroleum storage tanks; and

(d) provide tank owners with incentives to improve petroleum storage tank facilities in order to minimize the likelihood of accidental releases.

History: En. Sec. 1, Ch. 528, L. 1989; amd. Sec. 1, Ch. 763, L. 1991; amd. Sec. 1, Ch. 339, L. 1993.

75-11-302. Definitions. Except as provided in subsections (2), (15), and (25), the following definitions apply to this part:

(1) "Accidental release" means a sudden or nonsudden release, neither expected nor intended by the tank owner or operator, of petroleum or petroleum products from a storage tank that results in a need for corrective action or compensation for third-party bodily injury or property damage.

(9) "Double-walled tank system" means a petroleum storage tank and associated product piping that is designed and constructed with rigid inner and outer walls separated by an interstitial space and that is capable of being monitored for leakage. The design and construction of these tank systems must meet standards of the department and the department of justice fire prevention and investigation bureau. Heating oil is typically used in the operation of heating equipment, boilers, or furnaces.

(17) "Import" means to receive into a person's possession or custody first after its arrival and coming to rest at a destination within the state any gasoline, aviation gasoline, special fuel, or heating oil shipped or transported into this state from a point of origin outside this state, other than in the fuel supply tank of a motor vehicle.

(18) "Operator" means a person in control of or having responsibility for the daily operation of a petroleum storage tank.

(19) (a) "Owner" means:

(i) a person that holds title to, controls, or possesses an interest in a petroleum storage tank; or

(ii) a person that owns the property on which a petroleum storage tank from which a release occurred was located.

(b) The term does not include a person that holds an interest in a tank solely for financial security, unless through foreclosure or other related actions the holder of a security interest has taken possession of the tank.

(a) corrective action costs as required by a department-approved corrective action plan except if the corrective action plan addresses releases of substances other than petroleum products from an eligible petroleum storage tank, the board may reimburse only the costs that would have reasonably been incurred if the only release at the site was the release of the petroleum or petroleum products from the eligible petroleum storage tank; and

(b) compensation paid to third parties for bodily injury or property damage. The board may not reimburse for property damage until the corrective action is completed.

(2) An owner or operator may not be reimbursed from the fund for the following expenses:

(e) costs for the repair or replacement of a tank or piping or costs of other materials, equipment, or labor related to the operation, repair, or replacement of a tank or piping;

(f) expenses incurred before April 13, 1989, for owners or operators seeking reimbursement from the petroleum tank release cleanup fund and expenses incurred before May 15, 1991, for owners or operators seeking reimbursement from the petroleum tank release cleanup fund for a tank storing heating oil for consumptive use on the premises where it is stored or for a farm or residential tank with a capacity of 1,100 gallons or less that is used for storing motor fuel for noncommercial purposes;

(g) expenses exceeding the maximum reimbursements provided for in subsection (4); and

(h) expenses for work completed by or on behalf of the owner or operator more than 2 years prior to the owner's or operator's request for reimbursement. This limitation does not apply to claims for compensation paid to third parties for bodily injury or property damage.

(3) An owner or operator may designate a person as an agent to receive the reimbursement if the owner or operator remains legally responsible for all costs and liabilities incurred as a result of the release.

(4) Subject to the availability of funds under subsection (5):

(a) for releases eligible for reimbursement from the petroleum tank release cleanup fund that are discovered and reported on or after April 13, 1989, from a tank storing heating oil for consumptive use on the premises where it is stored or from a farm or residential tank with a capacity of 1,100 gallons or less that is used for storing motor fuel for noncommercial purposes, the board shall reimburse an owner or operator for:

(i) 50% of the first $10,000 of eligible costs and 100% of subsequent eligible costs, up to a maximum total reimbursement of $495,000:

(A) for single-walled tank system releases; and

(B) for double-walled tank system releases for which the release date was prior to October 1, 1993; or

(b) for all other releases eligible for reimbursement from the petroleum tank release cleanup fund that are discovered and reported on or after April 13, 1989, the board shall reimburse an owner or operator for:

(i) 50% of the first $35,000 of eligible costs and 100% of subsequent eligible costs, up to a maximum total reimbursement of $982,500:

(A) for single-walled tank system releases; and

(B) for double-walled tank system releases for which the release date was prior to October 1, 1993; or

(ii) 100% of the eligible costs, up to a maximum total reimbursement of $1 million, for properly designed and installed double-walled tank system accidental releases that were discovered and reported on or after October 1, 1993.

(5) If the fund does not contain sufficient money to pay approved claims for eligible costs, a reimbursement may not be made and the fund and the board are not liable for making any reimbursement for the costs at that time. When the fund contains sufficient money, eligible costs must be reimbursed subsequently in the order in which they were approved by the board.

(a) the release was discovered on or after April 13, 1989;

(b) the department is notified of the release in the manner and within the time provided by law or rule;

(c) the department has been notified of the existence of the tank in the manner required by department rule or has waived the requirement for notification;

(d) the release was an accidental release;

(e) with the exception of the release, the operation and management of the tank complied with applicable state and federal laws and rules that the board determines pertain to prevention and mitigation of petroleum releases when the release was discovered and remained in compliance following discovery of the release; and

(f) the owner or operator undertakes corrective action to respond to the release and the corrective action is undertaken, in accordance with a corrective action plan approved by the department, from the time of discovery until the release is resolved.

(2) An owner or operator is not eligible for reimbursement from the petroleum tank release cleanup fund for expenses caused by releases from the following petroleum storage tanks:

(a) a tank located at a refinery or a terminal of a refiner;

(b) a tank located at an oil and gas production facility;

(c) a tank that is or was previously under the ownership or control of a railroad, except for a tank that was operated by a lessee of a railroad in the course of nonrailroad operations;

(d) a tank belonging to the federal government;

(e) a tank owned or operated by a person who has been convicted of a substantial violation of state or federal law or rule that relates to the installation, operation, or management of petroleum storage tanks; or

(3) When, subsequent to the discovery of a release, an owner or operator fails to remain in compliance as required by subsection (1)(e) or fails to conduct corrective action as required by subsection (1)(f) and is issued a violation letter by the department, all reimbursement of claims submitted after the date of the violation letter must be suspended. Upon a determination by the department that all violations identified in the violation letter have been corrected, all suspended and future claims may be reimbursed according to criteria established by the board. In determining the amount of reimbursement, if any, the board may consider the effect and duration of the noncompliance.

Compiler's Comments

2001 Amendment: Chapter 112 inserted (3) requiring suspension of all claim reimbursements submitted after date of violation letter when owner or operator fails to maintain compliance or to conduct corrective action subsequent to release discovery, providing for reimbursement of suspended and future claims upon determination of violation corrections, and authorizing board to consider noncompliance effect and duration in determining reimbursements. Amendment effective October 1, 2001.

75-11-309. Procedures for reimbursement of eligible costs. (1) An owner or operator seeking reimbursement for eligible costs and the department shall comply with the following procedures:

(a) If an owner or operator discovers or is provided evidence that a release may have occurred from the owner's or operator's petroleum storage tank, the owner or operator shall immediately notify the department of the release and conduct an initial response to the release in accordance with state and federal laws and rules to protect the public health and safety and the environment.

(b) The owner or operator shall conduct a thorough investigation of the release, report the findings to the department, and, as determined necessary by the department, prepare and submit for approval by the department a corrective action plan that conforms with state, tribal (when applicable), and federal corrective action requirements.

(c) (i) The department shall review the corrective action plan and forward a copy to a local government office and, when applicable, a tribal government office with jurisdiction over a corrective action for the release. The local or tribal government office shall inform the department if it wants any modification of the proposed plan.

(ii) Based on its own review and comments received from a local government, tribal government, or other source, the department may approve the proposed corrective action plan, make or request the owner or operator to modify the proposed plan, or prepare its own plan for compliance by the owner or operator. A plan finally approved by the department through any process provided in this subsection (1)(c) is the approved corrective action plan.

(iii) After the department approves a corrective action plan, a local government or tribal government may not impose different corrective action requirements on the owner or operator.

(d) The department shall notify the owner or operator and the board of its approval of a corrective action plan.

(e) The owner or operator shall implement the approved plan. The department may oversee the implementation of the plan, require reports and monitoring from the owner or operator, undertake inspections, and otherwise exercise its authority concerning corrective action under Title 75, chapter 10, part 7, Title 75, chapter 11, part 5, and other applicable law and rules.

(f) The owner or operator shall document in the manner required by the board all expenses incurred in preparing and implementing the corrective action plan. The owner or operator shall submit claims and substantiating documents to the board in the form and manner required by the board. The board shall forward each claim and appropriate documentation to the department. The department shall notify the board of any costs that the department considers not reimbursable because of any failure to meet the requirements of subsection (2). The department shall inform the owner or operator of any notification given to the board.

(g) The owner or operator shall document, in the manner required by the board, any payments to a third party for bodily injury or property damage caused by a release. The owner or operator shall submit claims and substantiating documents to the board in the form and manner required by the board.

(iii) that the double-walled tank system was properly installed and made of materials and constructed in accordance with applicable department regulations.

(2) The board shall review each claim received under subsections (1)(f) and (1)(g), make the determination required by this subsection, inform the owner or operator of its

determination, and, as appropriate, reimburse the owner or operator from the fund. Before approving a reimbursement, the board shall affirmatively determine that:

(a) the expenses for which reimbursement is claimed:

(i) are eligible costs; and

(ii) were actually, necessarily, and reasonably incurred for the preparation or implementation of a corrective action plan approved by the department or for payments to a third party for bodily injury or property damage; and

(b) the owner or operator:

(i) is eligible for reimbursement under 75-11-308; and

(5) (a) The board may, at the request of an owner or operator, guarantee in writing the reimbursement of eligible costs that have been approved by the board but for which money is not currently available from the fund for reimbursement.

(b) The board may, at the request of an owner or operator, guarantee in writing reimbursement of eligible costs not yet approved by the board, including estimated costs not yet incurred. A guarantee for payment under this subsection (5)(b) does not affect the order in which money in the fund is obligated under subsection (4).

(c) When considering a request for a guarantee of payment, the board may require pertinent information or documentation from the owner or operator. The board may grant or deny, in whole or in part, any request for a guarantee.

The notice must specify the provision of this part or the rule alleged to be violated and the facts alleged to constitute a violation and may include an order to take necessary corrective action within a reasonable period of time stated in the order. The order becomes final unless, within 30 days after the notice is served, the person named requests, in writing, a hearing before the board. On receipt of the request, the board shall schedule a hearing. Service by mail is complete on the date of mailing.

(2) If, after a hearing held under subsection (1), the board finds that a violation has occurred, it shall either affirm or modify the department's order. An order issued by the department or by the board may prescribe the date by which the violation must cease and may prescribe time limits for particular action. If, after hearing, the board finds that a violation has not occurred, it shall rescind the department's order.

(3) In addition to or instead of issuing an order pursuant to subsection (1), the department may:

(a) require the alleged violator to appear before the board or department, by subpoena or subpoena duces tecum, for a hearing at a time and place specified in the notice to answer the charges complained of or to provide information regarding the alleged violation or its actual or potential impact on the public health and welfare or the environment;

(b) initiate action under 75-11-513, 75-11-514, or 75-11-516; or

(c) assess administrative penalties and issue corrective action orders under 75-11-525.

(4) In the case of disobedience of any subpoena issued and served under this section or of the refusal of any witness to testify as to any material matter with regard to which the witness may be interrogated in a hearing or investigation before the board or the department, the board

or department may apply to any district court in the state for an order to compel compliance with the subpoena or the giving of testimony. The court shall hear the matter as expeditiously as possible. If the disobedience or refusal is found to be unjustified, the court shall enter an order requiring compliance. Disobedience of the order is punishable by contempt of court in the same manner and by the same procedures as is provided for like conduct committed in the course of civil actions in district court.

(5) If a person fails to comply with an order issued pursuant to subsection (1) or (3) within the time allowed in the order, the department may enter the property on which the underground storage tank that is in violation is located and temporarily close the tank. If the department finds that permanent closure is necessary to prevent substantial environmental harm or because the owner or operator is unlikely to comply with the order, it may permanently close the tank.

(6) This section does not prevent the board or department from making efforts to obtain voluntary compliance through warning, conference, or any other appropriate means.

75-11-517. Lien. (1) The costs incurred by the department to close an underground storage tank pursuant to 75-11-504 or 75-11-512 constitute a lien in favor of the state upon all property and rights to the property that belong to the owner or operator.

A copy of the notice must be served by certified mail upon the property owner.

(3) The costs constituting the lien may be recovered in an action in the district court for the district in which the property is located. This section does not affect the right of the state to bring an action against a person to recover all costs for which that person is liable under this part or any other provision of state or federal law.

(4) The lien must continue until the liability for the costs incurred as a result of the permanent closure of the underground storage tank by the state is satisfied.

75-11-525. Administrative penalties for violations — appeals — venue for hearings. (1) A person who violates any of the provisions of this part or any rules promulgated under the authority of this part may be assessed and ordered by the department to pay an administrative penalty not to exceed $500 for each violation. This limitation on administrative penalties applies only to penalties assessed under this section. Each occurrence of the violation and each day that it remains uncorrected constitutes a separate violation. The department may suspend a portion of the administrative penalty assessed under this section if the condition that caused the assessment of the penalty is corrected within a specified time. Assessment of an administrative penalty under this section may be made in conjunction with any order or other administrative action authorized by this chapter.

(2) When the department assesses an administrative penalty under this section, it must have written notice served personally or by certified mail on the alleged violator or the violator's agent. For purposes of this chapter, service by mail is complete on the day of receipt. The notice must state:

(a) the provision alleged to be violated;

(b) the facts alleged to constitute the violation;

(c) the amount of the administrative penalty assessed under this section;

(d) the amount, if any, of the penalty to be suspended upon correction of the condition that caused the assessment of the penalty;

(e) the nature of any corrective action that the department requires, whether or not a portion of the penalty is to be suspended;

(f) as applicable, the time within which the corrective action is to be taken and the time within which the administrative penalty is to be paid;

(g) the right to appeal or to a hearing to mitigate the penalty assessed and the time, place, and nature of any hearing; and

(h) that a formal proceeding may be waived.

(3) The department shall provide each person assessed a penalty under this section an opportunity for a hearing to either contest the alleged violation or request mitigation of the penalty. The contested case provisions of the Montana Administrative Procedure Act, provided for in Title 2, chapter 4, part 6, apply to a hearing conducted under this section. If a hearing is held under this section, it must be held in Lewis and Clark County or the county in which the alleged violation occurred. This subsection does not apply until the department gives written notice, served personally or by certified mail, to the alleged violator or the violator's agent. For the purposes of this chapter, service by mail is complete on the day of receipt. The notice must state:

(a) the provision allegedly violated;

(b) the facts that constitute the alleged violation;

(c) the specific nature of any corrective action that the department requires, estimated costs of compliance with the action, and where to receive help to correct the alleged violation; and

(d) a timetable that a reasonable person would consider appropriate for compliance with the alleged violations.

(4) The department shall publish a schedule of maximum and minimum penalties for specific violations. In determining appropriate penalties for violations, the department shall consider the gravity of the violations and the potential for significant harm to the public health or the environment. In determining the appropriate amount of penalty, if any, to be suspended upon correction of the condition that caused the penalty assessment, the department shall consider the cooperation and the degree of care exercised by the person assessed the penalty, how expeditiously the violation was corrected, and whether significant harm resulted to the public health or the environment from the violation.

(5) If the department is unable to collect an administrative penalty assessed under this section or if a person fails to pay all or any portion of an administrative penalty assessed under this section, the department may take action in district court to recover the penalty amount and any additional amounts assessed or sought under this chapter.

(6) Action under this section does not bar action under this chapter or any other remedy available to the department for violations of underground storage tank laws or rules promulgated under those laws.

(7) Administrative penalties collected under this section must be deposited in the state general fund.

75-20-102. Policy and legislative findings. (1) It is the constitutionally declared policy of this state to maintain and improve a clean and healthful environment for present and future generations, to protect the environmental life-support system from degradation and prevent unreasonable depletion and degradation of natural resources, and to provide for administration and enforcement to attain these objectives.

(2) The legislature finds that the construction of additional electric transmission facilities, pipeline facilities, or geothermal facilities may be necessary to meet the increasing need for electricity, energy, and other products and that these facilities have an effect on the environment, an impact on population concentration, and an effect on the welfare of the citizens of this state. Therefore, it is necessary to ensure that the location, construction, and operation of electric transmission facilities, pipeline facilities, or geothermal facilities will not produce unacceptable adverse effects on the environment and upon the citizens of this state by providing that a electric transmission facility, pipeline facility, or geothermal facility may not be constructed or operated within this state without a certificate of environmental compatibility acquired pursuant to this chapter.

(3) The legislature also finds that it is the purpose of this chapter to:

(a) ensure protection of the state's environmental resources, including but not limited to air, water, animals, plants, and soils;

(b) ensure consideration of socioeconomic impacts;

(c) provide citizens with the opportunity to participate in facility siting decisions; and

(d) establish a coordinated and efficient method for the processing of all authorizations required for regulated facilities under this chapter.

75-20-215. Filing fee — accountability — refund — use. (1) (a) A filing fee must be deposited in the state special revenue fund for the use of the department in administering Title 75, chapter 1, and this chapter. The applicant shall pay to the department a filing fee as provided in this section based upon the department's estimated costs of processing the application under this chapter. The fee may not exceed the following scale based upon the estimated cost of the facility:

(i) 4% of any estimated cost up to $1 million; plus
(ii) 1% of any estimated cost over $1 million and up to $20 million; plus
(iii) 0.5% of any estimated cost over $20 million and up to $100 million; plus
(iv) 0.25% of any amount of estimated cost over $100 million and up to $300 million; plus
(v) 0.125% of any amount of estimated cost over $300 million and up to $1 billion; plus
(vi) 0.05% of any amount of estimated cost over $1 billion.

(b) The department may allow in its discretion a credit against the fee payable under this section for the development of information or providing of services required under this chapter or required for preparation of an environmental impact statement or assessment under the Montana or national environmental policy acts. The applicant may submit the information to the department, together with an accounting of the expenses incurred in preparing the information. The department shall evaluate the applicability, validity, and usefulness of the data and determine the amount that may be credited against the filing fee payable under this section. Upon 30 days' notice to the applicant, this credit may at any time be reduced if the department determines that it is necessary to carry out its responsibilities under this chapter.

(2) (a) The department may contract with an applicant for the development of information, provision of services, and payment of fees required under this chapter. The contract may continue an agreement entered into pursuant to 75-20-106. Payments made to the department under a contract must be credited against the fee payable pursuant to this section. Notwithstanding the provisions of this section, the revenue derived from the filing fee must be sufficient to enable the department, the board, and the agencies listed in 75-20-216(6) to carry out their responsibilities under this chapter. The department may amend a contract to require additional payments for necessary expenses up to the limits set forth in subsection (1)(a) upon 30 days' notice to the applicant. The department and applicant may enter into a contract that exceeds the scale provided in subsection (1)(a).

(b) If a contract is not entered into, the applicant shall pay the filing fee in installments in accordance with a schedule of installments developed by the department, provided that an installment may not exceed 20% of the total filing fee provided for in subsection (1).

(3) The estimated cost of upgrading an existing transmission substation may not be included in the estimated cost of a proposed facility for the purpose of calculating a filing fee.

(4) If an application consists of a combination of two or more facilities, the filing fee must be based on the total estimated cost of the combined facilities.

(5) The applicant is entitled to an accounting of money expended and to a refund with interest at the rate of 6% a year of that portion of the filing fee not expended by the department in carrying out its responsibilities under this chapter. A refund must be made after all administrative and judicial remedies have been exhausted by all parties to the certification proceedings.

(6) The revenue derived from filing fees must be used by the department in compiling the information required for rendering a decision on a certificate and for carrying out its and the board's other responsibilities under this chapter.

If the application is for a combination of two or more facilities, the department shall issue its report within the greater of the lengths of time provided for in this subsection for either of the facilities.

(5) For projects subject to joint review by the department and a federal land management agency, the department's certification decision may be timed to correspond to the record of decision issued by the participating federal agency.

(6) The departments of transportation; fish, wildlife, and parks; natural resources and conservation; revenue; and public service regulation shall report to the department information relating to the impact of the proposed site on each department's area of expertise. The report may include opinions as to the advisability of granting, denying, or modifying the certificate. The department shall allocate funds obtained from filing fees to the departments making reports to reimburse them for the costs of compiling information and issuing the required report.

Decisions

75-20-301. Decision of department — findings necessary for certification. (1) Within 30 days after issuance of the report pursuant to 75-20-216 for facilities defined in 75-20-104(8)(a) and (8)(b), the department shall approve a facility as proposed or as modified or an alternative to a proposed facility if the department finds and determines:

(a) the basis of the need for the facility;

(b) the nature of the probable environmental impact;

(c) that the facility minimizes adverse environmental impact, considering the state of available technology and the nature and economics of the various alternatives;

(d) in the case of an electric, gas, or liquid transmission line or aqueduct:

(i) what part, if any, of the line or aqueduct will be located underground;

(ii) that the facility is consistent with regional plans for expansion of the appropriate grid of the utility systems serving the state and interconnected utility systems; and

(iii) that the facility will serve the interests of utility system economy and reliability;

(e) that the location of the facility as proposed conforms to applicable state and local laws and regulations, except that the department may refuse to apply any local law or regulation if it finds that, as applied to the proposed facility, the law or regulation is unreasonably restrictive in view of the existing technology, of factors of cost or economics, or of the needs of consumers, whether located inside or outside the directly affected government subdivisions;

(f) that the facility will serve the public interest, convenience, and necessity;

(g) that the department or board has issued any necessary air or water quality decision, opinion, order, certification, or permit as required by 75-20-216(3); and

(h) that the use of public lands for location of the facility was evaluated and public lands were selected whenever their use is as economically practicable as the use of private lands.

(2) In determining that the facility will serve the public interest, convenience, and necessity under subsection (1)(f), the department shall consider:

(a) the items listed in subsections (1)(a) and (1)(b);

(b) the benefits to the applicant and the state resulting from the proposed facility;

(c) the effects of the economic activity resulting from the proposed facility;

(d) the effects of the proposed facility on the public health, welfare, and safety;

(e) any other factors that it considers relevant.

(3) Within 30 days after issuance of the report pursuant to 75-20-216 for a facility defined in 75-20-104(8)(c), the department shall approve a facility as proposed or as modified or an alternative to a proposed facility if the department finds and determines:

(a) that the facility or alternative incorporates all reasonable, cost-effective mitigation of significant environmental impacts; or

(b) that unmitigated impacts, including those that cannot be reasonably quantified or valued in monetary terms, do not pose any threat of serious injury or damage to:

(i) the environment; or

(ii) the social and economic conditions of inhabitants of the affected area; or

(iii) the health, safety, or welfare of area inhabitants.

(4) For facilities defined in 77-20-104(8), if the department cannot make the findings required in 75-20-301, it shall deny the certificate.

(2) If the department has found that any regional or local law or regulation that would be otherwise applicable is unreasonably restrictive, it shall state in its opinion the reasons that it is unreasonably restrictive.

(3) A certificate issued by the department must include the following:

(a) an environmental evaluation statement related to the facility being certified. The statement must include but is not limited to analysis of the following information:

(i) the environmental impact of the proposed facility; and

(ii) any adverse environmental effects that cannot be avoided by issuance of the certificate;

(b) a plan for monitoring environmental effects of the proposed facility;

(c) a plan for monitoring the certified facility site between the time of certification and completion of construction;

(d) a time limit as provided in subsection (4); and

(e) a statement signed by the applicant showing agreement to comply with the requirements of this chapter and the conditions of the certificate.

(4) (a) The department shall issue as part of the certificate the following time limits:

(i) For a facility as defined in 75-20-104(8)(a) that is more than 30 miles in length and for a facility defined in 75-20-104(8)(b), construction must be completed within 10 years.

(ii) For a facility as defined in 75-20-104(8)(a) that is 30 miles or less in length, construction must be completed within 5 years.

(iii) For a facility as defined in 75-20-104(8)(c), construction must begin within 6 years and continue with due diligence in accordance with preliminary construction plans established in the certificate.

(b) Unless extended, a certificate lapses and is void if the facility is not constructed or if construction of the facility is not commenced within the time limits provided in this section.

(c) The time limit may be extended for a reasonable period upon a showing by the applicant to the department that a good faith effort is being undertaken to complete construction under subsections (4)(a)(i) and (4)(a)(ii). Under this subsection, a good faith effort includes the process of acquiring any necessary state or federal permit or certificate for the facility and the process of judicial review of a permit or certificate.

75-20-304. Waiver of provisions of certification proceedings. (1) The department may waive compliance with any of the provisions of 75-20-216 and this part if the applicant makes a clear and convincing showing to the department at a public hearing that an immediate, urgent need for a facility exists and that the applicant did not have knowledge that the need for the facility existed sufficiently in advance to fully comply with the provisions of 75-20-216 and this part.

(2) The department may waive compliance with any of the provisions of this chapter upon receipt of notice by a person subject to this chapter that a facility or associated facility has been damaged or destroyed as a result of fire, flood, or other natural disaster or as the result of insurrection, war, or other civil disorder and there exists an immediate need for construction of a new facility or associated facility or the relocation of a previously existing facility or associated facility in order to promote the public welfare.

(3) The department shall waive compliance with the requirements of 75-20-301(1)(c), (2)(b), and (2)(c) and the requirements of 75-20-211(1)(a)(iii) and (1)(a)(iv) and 75-20-216(3) relating to consideration of alternative sites if the applicant makes a clear and convincing showing to the department at a public hearing that:

(a) a proposed facility will be constructed in a county where a single employer within the county has permanently curtailed or ceased operations, causing a loss of 250 or more permanent jobs within 2 years at the employer's operations within the preceding 10-year period;

(b) the county and municipal governing bodies in whose jurisdiction the facility is proposed to be located support by resolution the waiver;

(c) the proposed facility will be constructed within a 15-mile radius of the operations that have ceased or been curtailed; and

(d) the proposed facility will have a beneficial effect on the economy of the county in which the facility is proposed to be located.

(4) The waiver provided for in subsection (3) applies only to permanent job losses by a single employer. The waiver provided for in subsection (3) does not apply to jobs of a temporary or seasonal nature, including but not limited to construction jobs or job losses during labor disputes.

(5) The waiver provided for in subsection (3) does not apply to consideration of alternatives or minimum adverse environmental impact for a facility defined in 75-20-104(8)(a) or (8)(b) or for an associated facility defined in 75-20-104(3).

(6) The applicant shall pay all expenses required to process and conduct a hearing on a waiver request under subsection (3). However, any payments made under this subsection must be credited toward the fee paid under 75-20-215 to the extent that the data or evidence presented at the hearing or the decision of the department under subsection (3) can be used in making a certification decision under this chapter.

(7) The department may grant only one waiver under subsections (3) and (4) for each permanent loss of jobs as defined in subsection (3)(a).

Part 4
Postcertification and Legal Responsibilities

75-20-401. Additional requirements by other governmental agencies not permitted after issuance of certificate — exceptions. (1) Notwithstanding any other law, no state or regional agency or municipality or other local government may require any approval, consent, permit, certificate, or other condition for the construction, operation, or maintenance of a facility authorized by a certificate issued pursuant to this chapter, except that the department and board retain the authority that they have or may be granted to determine compliance of the proposed facility with state and federal standards and implementation plans for air and water quality and to enforce those standards.

(2) This chapter does not prevent the application of state laws for the protection of employees engaged in the construction, operation, or maintenance of a facility.

History: En. Sec. 17, Ch. 327, L. 1973; amd. Sec. 17, Ch. 494, L. 1975; R.C.M. 1947, 70-817; amd. Sec. 18, Ch. 676, L. 1979; amd. Sec. 231, Ch. 418, L. 1995.

75-20-402. Monitoring. The department shall monitor the operations of all certificated facilities for ensuring continuing compliance with this chapter and certificates issued under this chapter and for discovering and preventing noncompliance with this chapter and the certificates. The applicant shall pay all expenses related to the monitoring plan established in 75-20-303(3)(b) or (3)(c) to the extent federal funds available for the facility, as determined by the department, have not been provided for those purposes.

History: En. Sec. 20, Ch. 327, L. 1973; amd. Sec. 4, Ch. 268, L. 1974; amd. Sec. 20, Ch. 494, L. 1975; R.C.M. 1947, 70-820(2); amd. Sec. 19, Ch. 676, L. 1979; amd. Sec. 5, Ch. 591, L. 1985; amd. Sec. 232, Ch. 418, L. 1995; amd. Sec. 19, Ch. 329, L. 1997.

75-20-403. Revocation or suspension of certificate. Following notice and an opportunity for a hearing, a certificate may be revoked or suspended by the department:

(1) for any material false statement in the application or in accompanying statements or studies required of the applicant if a true statement would have warranted the department's refusal to grant a certificate;

(2) for failure to maintain safety standards or to comply with the terms or conditions of the certificate; or

(3) for violation of any provision of this chapter, the rules issued under this chapter, or orders of the department.

Knowingly making false statements or charges in the affidavit subjects the affiant to penalties prescribed under the law of perjury.

(2) If the public officer or employee neglects or refuses for an unreasonable time after receipt of the statement to enforce the requirement or rule, the resident may bring an action of mandamus in the district court of the first judicial district of this state, in and for the county of Lewis and Clark. If the court finds that a requirement of this chapter or a rule adopted under it is not being enforced, the court may order the public officer or employee whose duty it is to enforce the requirement or rule to perform his duties. If he fails to do so, the public officer or employee shall be held in contempt of court and is subject to the penalties provided by law.

75-20-1201. Purpose — findings as to nuclear safety — reservation of nuclear facility approval powers to the people. (1) The people of Montana find that substantial public concern exists regarding nuclear reactors and other major nuclear facilities, including the following unresolved issues:

(a) the generation of waste from nuclear facilities, which remains a severe radiological hazard for many thousands of years and to which no means of containment assuring the protection of future generations exists;

(b) the spending of scarce capital to pay the rapidly increasing costs of nuclear facilities, preventing the use of that capital to finance renewable energy sources which hold more promise for supplying useful energy, providing jobs, and holding down energy costs;

(c) the liability of nuclear facilities to sudden catastrophic accidents which can affect large areas of the state, thousands of people, and countless future generations;

(d) the refusal of utilities, industry, and government to assume normal financial responsibility for compensating victims of such nuclear accidents;

(e) the impact of nuclear facilities on the proliferation of nuclear bombs and terrorism;

(f) the increasing pattern of abandonment of used nuclear facilities by their owners, resulting in radiological dangers to present and future societies as well as higher public costs for perpetual management; and

(g) the detrimental effect of the large uranium import program necessary to the expansion of nuclear power on American energy independence, defense policy, and economic well being.

(2) Therefore, the people of Montana reserve to themselves the exclusive right to determine whether major nuclear facilities are built and operated in this state.

History: En. Sec. 1, I.M. 80, app. Nov. 7, 1978.

75-20-1202. Definitions. As used in 75-20-201, 75-20-203, and this part, the following definitions apply:

(1) "Facility", as defined in 75-20-104(8), is further defined to include any nuclear facility as defined in subsection (2)(a).

(2) (a) "Nuclear facility" means each plant, unit, or other facility designed for or capable of:

(i) generating 50 megawatts of electricity or more by means of nuclear fission;

(ii) converting, enriching, fabricating, or reprocessing uranium minerals or nuclear fuels; or

(iii) storing or disposing of radioactive wastes or materials from a nuclear facility.

(b) Nuclear facility does not include any small-scale facility used solely for educational, research, or medical purposes not connected with the commercial generation of energy.

75-20-1203. Additional requirements for issuance of a certificate for the siting of a nuclear facility. (1) The board may not issue a certificate to construct a nuclear facility unless it finds that:

(a) no legal limits exist regarding the rights of a person or group of persons to bring suit for and recover full and just compensation from the designers, manufacturers, distributors, owners, and/or operators of a nuclear facility for damages resulting from the existence or operation of the facility; and further, that no legal limits exist regarding the total compensation which may be required from the designers, manufacturers, distributors, owners, and/or operators of a nuclear facility for damages resulting from the existence or operation of such facility;

(c) the radioactive materials from such nuclear facilities can be contained with no reasonable chance, as determined by the board, of intentional or unintentional escape or diversion of such materials into the natural environment in such manner as to cause substantial or long-term harm or hazard to present or future generations due to imperfect storage technologies, earthquakes or other acts of God, theft, sabotage, acts of war or other social instabilities, or whatever other causes the board may deem to be reasonably possible, at any time during which such materials remain a radiological hazard; and

(1) (a) Within the unincorporated portions of a jurisdictional area that has been established under provisions of 76-1-501 through 76-1-503 or 76-1-504 through 76-1-507, the board of county commissioners may by resolution establish zoning districts and zoning regulations for all or part of the jurisdictional area.

(b) An action challenging the creation of a zoning district must be commenced within 5 years after the date of the order by the board of county commissioners creating the district.

(3) In a proceeding for a permit or variance to place manufactured housing within a residential zoning district, there is a rebuttable presumption that placement of a manufactured home will not adversely affect property values of conventional housing.

(4) Within each district the height and bulk of future buildings and the area of the yards, courts, and other open spaces and the future uses of the land or buildings must be limited and future building setback lines must be established.

(5) All regulations must be uniform for each class or kind of buildings throughout a district, but the regulations in one district may differ from those in other districts.

(6) As used in this section, "manufactured housing" means a single-family dwelling, built offsite in a factory on or after January 1, 1990, that is placed on a permanent foundation, is at least 1,000 square feet in size, has a pitched roof and siding and roofing materials that are customarily, as defined by local regulations, used on site-built homes, and is in compliance with the applicable prevailing standards of the United States department of housing and urban development at the time of its production. A manufactured home does not include a mobile home or housetrailer, as defined in 61-1-501.

(c) to authorize upon appeal in specific cases such variance from the terms of the resolution as will not be contrary to the public interest and where, owing to special conditions, a literal enforcement of the provisions of the resolution will result in unnecessary hardship and so that the spirit of the resolution shall be observed and substantial justice done.

(2) In exercising the above-mentioned powers, the board of adjustment may, in conformity with the provisions of this part, reverse or affirm, wholly or partly, or modify the order, requirement, decision, or determination appealed from and may make such order, requirement, decision, or determination as ought to be made and to that end shall have all the powers of the officer from whom the appeal is taken.

Such appeal shall be taken within a reasonable time, as provided by the rules of the board, by filing with the officer from whom the appeal is taken and with the board of adjustment a notice of appeal specifying the grounds thereof.

(2) The officer from whom the appeal is taken shall forthwith transmit to the board all papers constituting the record upon which the action appealed was taken.

(3) An appeal stays all proceedings in furtherance of the action appealed from unless the officer from whom the appeal is taken certifies to the board of adjustment after the notice of appeal shall have been filed with him that by reason of facts stated in the certificate a stay would, in his opinion, cause imminent peril to life or property. In such case, proceedings shall not be stayed other than by a restraining order, which may be granted by the board of adjustment or by a court of record on application, on notice to the officer from whom the appeal is taken, and on due cause shown.

(4) The board of adjustment shall fix a reasonable time for the hearing of the appeal, give public notice thereof as well as due notice to the parties in interest, and decide the same within a reasonable time.

Such petition shall be presented to the court within 30 days after the filing of the decision in the office of the board.

(2) Upon presentation of such petition, the court may allow a writ of certiorari directed to the board of adjustment to review such decision of the board of adjustment and shall prescribe therein the time within which a return thereto must be made and served upon the relator's attorney, which shall not be less than 10 days and may be extended by the court. The allowance of the writ shall not stay proceedings upon the decision appealed from, but the court may (upon application, on notice to the board, and on due cause shown) grant a restraining order. The board of adjustment shall not be required to return the original papers acted upon by it, but it shall be sufficient to return certified or sworn copies thereof or of such portions thereof as may be called for by such writ. The return shall concisely set forth such other facts as may be pertinent and material to show the grounds of the decision appealed from and shall be verified.

(3) If, upon the hearing, it shall appear to the court that testimony is necessary for the proper disposition of the matter, the court may take evidence or appoint a referee to take such evidence as it may direct and report the same to the court with his findings of fact and conclusions of law, which shall constitute a part of the proceedings upon which the determination of the court shall be made.

(4) The court may reverse or affirm, wholly or partly, or may modify the decision brought up for review.

76-2-301. Municipal zoning authorized. For the purpose of promoting health, safety, morals, or the general welfare of the community, the city or town council or other legislative body of cities and incorporated towns is hereby empowered to regulate and restrict the height, number of stories, and size of buildings and other structures; the percentage of lot that may be occupied; the size of yards, courts, and other open spaces; the density of population; and the location and use of buildings, structures, and land for trade, industry, residence, or other purposes.

Within the districts, it may regulate and restrict the erection, construction, reconstruction, alteration, repair, or use of buildings, structures, or land.

(2) All regulations must be uniform for each class or kind of buildings throughout each district, but the regulations in one district may differ from those in other districts.

(3) In a proceeding for a permit or variance to place manufactured housing within a residential zoning district, there is a rebuttable presumption that placement of a manufactured home will not adversely affect property values of conventional housing.

(4) As used in this section, "manufactured housing" means a single-family dwelling, built offsite in a factory on or after January 1, 1990, that is placed on a permanent foundation, is at least 1,000 square feet in size, has a pitched roof and siding and roofing materials that are customarily, as defined by local regulations, used on site-built homes, and is in compliance with the applicable prevailing standards of the United States department of housing and urban development at the time of its production. A manufactured home does not include a mobile home or housetrailer, as defined in 61-1-501.

(5) This section may not be construed to limit conditions imposed in historic districts, local design review standards, existing covenants, or the ability to enter into covenants pursuant to Title 70, chapter 17, part 2.

(2) A regulation, restriction, or boundary may not become effective until after a public hearing in relation to the regulation, restriction, or boundary at which parties in interest and citizens have an opportunity to be heard has been held. At least 15 days' notice of the time and place of the hearing must be published in an official paper or a paper of general circulation in the municipality.

(3) (a) For municipal annexations, a municipality may conduct a hearing on the annexation in conjunction with a hearing on the zoning of the proposed annexation, provided that the proposed municipal zoning regulations for the annexed property:

(i) authorize land uses comparable to the land uses authorized by county zoning;

(ii) authorize land uses that are consistent with land uses approved by the board of county commissioners or the board of adjustment pursuant to part 1 or 2 of this chapter; or

(iii) are consistent with zoning requirements recommended in the growth policy adopted pursuant to chapter 1 of this title for the annexed property.

(b) A joint hearing authorized under this subsection fulfills a municipality's obligation regarding zoning notice and public hearing for a proposed annexation.

(2) Such interim ordinance shall only be applicable within the city limits and up to 1 mile beyond the corporate boundaries of the city or town and shall take effect upon passage; provided, however, a hearing is first held upon notice reasonably designed to inform all affected parties and in no event shall notice be less than publication in a newspaper of general circulation at least 7 days before the hearing.

(3) Such interim ordinance shall be of no further force and effect 6 months from the date of adoption thereof. However, after notice pursuant to 76-2-303 and pursuant to public hearing, the legislative body may extend such interim ordinance for 1 year. (b) divisions made outside of platted subdivisions for the purpose of a single gift or sale in each county to each member of the landowner's immediate family;

(d) for five or fewer lots within a platted subdivision, relocation of common boundaries and the aggregation of lots; and

(e) divisions made for the purpose of relocating a common boundary line between a single lot within a platted subdivision and adjoining land outside a platted subdivision. A restriction or requirement on the original platted lot or original unplatted parcel continues to apply to those areas.

(2) Notwithstanding the provisions of subsection (1):

(a) within a platted subdivision filed with the county clerk and recorder, a division of lots that results in an increase in the number of lots or which redesigns or rearranges six or more lots must be reviewed and approved by the governing body and an amended plat must be filed with the county clerk and recorder;

(b) a change in use of the land exempted under subsection (1)(c) for anything other than agricultural purposes subjects the division to the provisions of this chapter.

(3) A division of land may not be made under this section unless the county treasurer has certified that all real property taxes and special assessments assessed and levied on the land to be divided have been paid.

(ii) the subdivision will contain fewer than 10 parcels and less than 20 acres.

Local Regulations

76-3-501. Local subdivision regulations. (1) Before July 1, 1974, the governing body of every county, city, and town shall adopt and provide for the enforcement and administration of subdivision regulations reasonably providing for the orderly development of their jurisdictional areas; for the coordination of roads within subdivided land with other roads, both existing and planned; for the dedication of land for roadways and for public utility easements; for the improvement of roads; for the provision of adequate open spaces for travel, light, air, and recreation; for the provision of adequate transportation, water, and drainage; subject to the provisions of 76-3-511, for the regulation of sanitary facilities; for the avoidance or minimization of congestion; and for the avoidance of subdivision which would involve unnecessary environmental degradation and the avoidance of danger of injury to health, safety, or welfare by reason of natural hazard or the lack of water, drainage, access, transportation, or other public services or would necessitate an excessive expenditure of public funds for the supply of such services.

(2) Review and approval or disapproval of a subdivision under this chapter may occur only under those regulations in effect at the time an application for approval of a preliminary plat or for an extension under 76-3-610 is submitted to the governing body.

2001 Amendment: Chapter 348 inserted reference to 76-3-509; and made minor changes in style. Amendment effective October 1, 2001.

76-3-504. Subdivision regulations — contents. (1) The subdivision regulations adopted under this chapter must, at a minimum:

(a) except as provided in 76-3-210, 76-3-509, or 76-3-609(3), require the subdivider to submit to the governing body an environmental assessment as prescribed in 76-3-603;

(b) establish procedures consistent with this chapter for the submission and review of subdivision plats;

(c) prescribe the form and contents of preliminary plats and the documents to accompany final plats;

(d) provide for the identification of areas that, because of natural or human-caused hazards, are unsuitable for subdivision development and prohibit subdivisions in these areas unless the hazards can be eliminated or overcome by approved construction techniques;

(e) prohibit subdivisions for building purposes in areas located within the floodway of a flood of 100-year frequency, as defined by Title 76, chapter 5, or determined to be subject to flooding by the governing body;

(f) prescribe standards for:

(i) the design and arrangement of lots, streets, and roads;

(ii) grading and drainage;

(iii) subject to the provisions of 76-3-511, water supply and sewage and solid waste disposal that, at a minimum, meet the regulations adopted by the department of environmental quality under 76-4-104;

(iv) the location and installation of utilities;

(g) provide procedures for the administration of the park and open-space requirements of this chapter;

(h) provide for the review of preliminary plats by affected public utilities and those agencies of local, state, and federal government having a substantial interest in a proposed subdivision. A utility or agency review may not delay the governing body's action on the plat beyond the time limits specified in this chapter, and the failure of any agency to complete a review of a plat may not be a basis for rejection of the plat by the governing body.

(i) when a subdivision creates parcels with lot sizes averaging less than 5 acres, require the subdivider to:

(i) reserve all or a portion of the appropriation water rights owned by the owner of the land to be subdivided and transfer the water rights to a single entity for use by landowners within the subdivision who have a legal right to the water and reserve and sever any remaining surface water rights from the land;

(ii) if the land to be subdivided is subject to a contract or interest in a public or private entity formed to provide the use of a water right on the subdivision lots, establish a landowner's water use agreement administered through a single entity that specifies administration and the rights and responsibilities of landowners within the subdivision who have a legal right and access to the water; or

(iii) reserve and sever all surface water rights from the land;

(j) except as provided in this subsection, require the subdivider to establish ditch easements in the subdivision that are in locations of appropriate topographic characteristics and sufficient width, to allow the physical placement and unobstructed maintenance of open ditches or belowground pipelines for the delivery of water for irrigation to persons and lands legally entitled to the water under an appropriated water right or permit of an irrigation district or other private or public entity formed to provide for the use of the water right on the subdivision lots; are a sufficient distance from the centerline of the ditch to allow for construction, repair, maintenance, and inspection of the ditch; and prohibit the placement of structures or the planting of vegetation other than grass within the ditch easement without the written permission of the ditch owner. Establishment of easements pursuant to this subsection (1)(j) is not required if:

(i) the average lot size is 1 acre or less and the subdivider provides for disclosure, in a manner acceptable to the governing body, that adequately notifies potential buyers of lots that are classified as irrigated land and may continue to be assessed for irrigation water delivery even though the water may not be deliverable; or

(ii) the water rights are removed or the process has been initiated to remove the water rights from the subdivided land through an appropriate legal or administrative process and if the removal or intended removal is denoted on the preliminary plat. If removal of water rights is not complete upon filing of the final plat, the subdivider shall provide written notification to prospective buyers of the intent to remove the water right and shall document that intent, when applicable, in agreements and legal documents for related sales transactions.

(k) require the subdivider, unless otherwise provided for under separate written agreement or filed easement, to file and record ditch easements for unobstructed use and maintenance of existing water delivery ditches, pipelines, and facilities in the subdivision that are necessary to convey water through the subdivision to lands adjacent to or beyond the subdivision boundaries in quantities and in a manner that are consistent with historic and legal rights;

(l) if the governing body has adopted a growth policy pursuant to chapter 1 of this title, be made in accordance with the goals and objectives established in the growth policy that are within the scope of 76-3-501 within 1 year of adoption of the growth policy;

(m) require the subdivider to describe, dimension, and show utility easements in the subdivision on the final plat in their true and correct location. The utility easements must be of sufficient width to allow the physical placement and unobstructed maintenance of utility facilities for the provision of utility services within the subdivision.

(2) In order to accomplish the purposes described in 76-3-501, the subdivision regulations adopted under 76-3-509 and this section may include provisions that are consistent with this section that promote cluster development.

History: En. Sec. 5, Ch. 500, L. 1973; amd. Sec. 3, Ch. 334, L. 1974; amd. Sec. 20, Ch. 213, L. 1975; R.C.M. 1947, 11-3863(2), (3); amd. Sec. 1, Ch. 236, L. 1981; amd. Sec. 17, Ch. 274, L. 1981; amd. 2001 Amendments — Composite Section: Chapter 348 in (1)(a) inserted reference to 76-3-509; inserted (2) authorizing regulations adopted to include provisions consistent with promotion of cluster development; and made minor changes in style. Amendment effective October 1, 2001.

Chapter 527 inserted (1)(l) requiring subdivision regulations to be made in accordance with the goals and objectives in growth policy within 1 year of adoption of policy by a governing body. Amendment effective October 1, 2001.

Chapter 564 inserted (1)(i) requiring a subdivider, for parcels with lot sizes averaging less than 5 acres, to reserve and sever appropriation water rights and surface water rights and establish a landowner's water use agreement; in (1)(j) at beginning of first sentence inserted exception clause and at end after "subdivision lots" inserted "are a sufficient distance from the centerline of the ditch to allow for construction, repair, maintenance, and inspection of the ditch; and prohibit the placement of structures or the planting of vegetation other than grass within the ditch easement without the written permission of the ditch owner"; inserted (1)(m) requiring the subdivider to describe, dimension, and show utility easements in the subdivision on the final plat; and made minor changes in style. Amendment effective October 1, 2001.

Style changes were slightly different in the chapters. In each case, the codifier chose appropriate text.

Transition — Applicability: Section 5, Ch. 527, L. 2001, provided: "[This act] applies to jurisdictions that adopted a growth policy pursuant to Title 76, chapter 1, before October 1, 2001, beginning October 1, 2002."

76-3-505. Provision for summary review of minor subdivisions. (1) Local subdivision regulations must include procedures for the summary review and approval of subdivision plats containing five or fewer parcels when proper access to all lots is provided, when no land in the subdivision will be dedicated to public use for parks or playgrounds, and when the plats have been approved by the department of environmental quality whenever approval is required by part 1 of chapter 4; however, reasonable local regulations may contain additional requirements for summary approval.

(2) (a) Except when required by local subdivision regulations, proposed subdivisions eligible for summary review under this section that are located entirely within the jurisdictional area covered by a growth policy adopted pursuant to chapter 1 and zoning regulations adopted pursuant to chapter 2, part 2 or 3, are exempt from:

(i) the requirement to hold a hearing on the preliminary plat pursuant to 76-3-605; and

(ii) review by the governing body of the criteria in 76-3-608(3)(a).

(b) The governing body shall approve, conditionally approve, or disapprove a proposed subdivision that is eligible for review under this subsection (2) within 35 days of submission of the subdivision application.

History: En. Sec. 5, Ch. 500, L. 1973; amd. Sec. 3, Ch. 334, L. 1974; amd. Sec. 20, Ch. 213, L. 1975; R.C.M. 1947, 11-3863(5); amd. Sec. 1, Ch. 579, L. 1985; amd. Sec. 1, Ch. 256, L. 1987; amd. Sec. 239, Ch. 418, L. 1995; amd. Sec. 22, Ch. 582, L. 1999.

76-3-506. Provision for granting variances. Subdivision regulations may authorize the governing body to grant variances from the regulations when strict compliance will result in undue hardship and when it is not essential to the public welfare. Any variance granted pursuant to this section must be based on specific variance criteria contained in the subdivision regulations.

History: En. Sec. 5, Ch. 500, L. 1973; amd. Sec. 3, Ch. 334, L. 1974; amd. Sec. 20, Ch. 213, L. 1975; R.C.M. 1947, 11-3863(6).

76-3-507. Provision for bonding requirements to ensure construction of public improvements. (1) Except as provided in subsection (2), the governing body shall require the subdivider to complete required improvements within the subdivision prior to the approval of the final plat.

(2) (a) In lieu of the completion of the construction of any public improvements prior to the approval of a final plat, the governing body shall at the subdivider's option allow the subdivider to provide or cause to be provided a bond or other reasonable security, in an amount and with

surety and conditions satisfactory to the governing body, providing for and securing the construction and installation of the improvements within a period specified by the governing body and expressed in the bonds or other security. The governing body shall reduce bond requirements commensurate with the completion of improvements.

(b) In lieu of requiring a bond or other means of security for the construction or installation of all the required public improvements under subsection (2)(a), the governing body may approve an incremental payment or guarantee plan. The improvements in a prior increment must be completed or the payment or guarantee of payment for the costs of the improvements incurred in a prior increment must be satisfied before development of future increments.

(3) Approval by the governing body of a final plat prior to the completion of required improvements and without the provision of the security required under subsection (2) is not an act of a legislative body for the purposes of 2-9-111.

76-3-509. Local option cluster development regulations and exemptions authorized. (1) If the governing body has adopted a growth policy that meets the requirements of 76-1-601, the governing body may adopt regulations to promote cluster development and preserve open space under this section.

(2) Regulations adopted under this section must:

(a) establish a maximum size for each parcel in a cluster development;

(b) subject to subsection (3)(d), establish a maximum number of parcels in a cluster development; and

(c) establish requirements, including a minimum size for the area to be preserved, for preservation of open space as a condition of approval of a cluster development subdivision under regulations adopted pursuant to this section. The regulations must require that open space be preserved through an irrevocable conservation easement, granted in perpetuity, as provided for in Title 76, chapter 6, prohibiting further division of the parcel.

(3) Regulations adopted under this section may:

(a) establish a shorter timeframe for review of proposed cluster developments;

(b) establish procedures and requirements that provide an incentive for cluster development subdivisions that are consistent with the provisions of this chapter;

(c) authorize the review of a division of land that involves more than one existing parcel as one subdivision proposal for the purposes of creating a cluster development;

(d) authorize the creation of one clustered parcel for each existing parcel that is reviewed as provided in subsection (3)(c); and

(e) establish exemptions from the following:

(i) the requirements of an environmental assessment pursuant to 76-3-603;

(ii) review of the criteria in 76-3-608(3)(a); and

(iii) park dedication requirements pursuant to 76-3-621.

76-3-510. Payment for extension of capital facilities. A local government may require a subdivider to pay or guarantee payment for part or all of the costs of extending capital facilities related to public health and safety, including but not limited to public roads, sewer lines, water supply lines, and storm drains to a subdivision. The costs must reasonably reflect the expected impacts directly attributable to the subdivision. A local government may not require a subdivider to pay or guarantee payment for part or all of the costs of constructing or extending capital facilities related to education.

History: En. Sec. 8, Ch. 468, L. 1995.

76-3-511. Local regulations no more stringent than state regulations or guidelines. (1) Except as provided in subsections (2) through (4) or unless required by state law, a governing body may not adopt a rule under 76-3-501 or 76-3-504(1)(f)(iii) that is more stringent than the comparable state regulations or guidelines that address the same circumstances. The governing body may incorporate by reference comparable state regulations or guidelines.

(2) The governing body may adopt a rule to implement 76-3-501 or 76-3-504(1)(f)(iii) that is more stringent than comparable state regulations or guidelines only if the governing body makes a written finding, after a public hearing and public comment and based on evidence in the record, that:

(a) the proposed local standard or requirement protects public health or the environment; and

(b) the local standard or requirement to be imposed can mitigate harm to the public health or environment and is achievable under current technology.

(3) The written finding must reference information and peer-reviewed scientific studies contained in the record that forms the basis for the governing body's conclusion. The written finding must also include information from the hearing record regarding the costs to the regulated community that are directly attributable to the proposed local standard or requirement.

(4) (a) A person affected by a rule of the governing body adopted after January 1, 1990, and before April 14, 1995, that that person believes to be more stringent than comparable state regulations or guidelines may petition the governing body to review the rule. If the governing body determines that the rule is more stringent than comparable state regulations or guidelines, the governing body shall comply with this section by either revising the rule to conform to the state regulations or guidelines or by making the written finding, as provided under subsection (2), within a reasonable period of time, not to exceed 12 months after receiving the petition. A petition under this section does not relieve the petitioner of the duty to comply with the challenged rule. The governing body may charge a petition filing fee in an amount not to exceed $250.

(b) A person may also petition the governing body for a rule review under subsection (4)(a) if the governing body adopts a rule after January 1, 1990, in an area in which no state regulations or guidelines existed and the state government subsequently establishes comparable regulations or guidelines that are less stringent than the previously adopted governing body rule.

Part 6
Local Review Procedure

76-3-601. Submission of preliminary plat for review. (1) Except when a plat is eligible for summary review pursuant to 76-3-505, the subdivider shall present to the governing body or to the agent or agency designated by the governing body the preliminary plat of the proposed subdivision for local review. The preliminary plat must show all pertinent features of the proposed subdivision and all proposed improvements.

(2) (a) When the proposed subdivision lies within the boundaries of an incorporated city or town, the preliminary plat must be submitted to and approved by the city or town governing body.

(b) When the proposed subdivision is situated entirely in an unincorporated area, the preliminary plat must be submitted to and approved by the governing body of the county. However, if the proposed subdivision lies within 1 mile of a third-class city or town, within 2 miles of a second-class city, or within 3 miles of a first-class city, the county governing body shall submit the preliminary plat to the city or town governing body or its designated agent for review and comment. If the proposed subdivision is situated within a rural school district, as described in 20-9-615, the county governing body shall provide an informational copy of the preliminary plat to school district trustees.

(c) If the proposed subdivision lies partly within an incorporated city or town, the proposed plat must be submitted to and approved by both the city or town and the county governing bodies.

(d) When a proposed subdivision is also proposed to be annexed to a municipality, the governing body of the municipality shall coordinate the subdivision review and annexation procedures to minimize duplication of hearings, reports, and other requirements whenever possible.

(3) The provisions of 76-3-604, 76-3-605, 76-3-608 through 76-3-610, and this section do not limit the authority of certain municipalities to regulate subdivisions beyond their corporate limits pursuant to 7-3-4444.

(b) a summary of the probable impacts of the proposed subdivision based on the criteria described in 76-3-608; and

(c) a community impact report containing a statement of anticipated needs of the proposed subdivision for local services, including education and busing; roads and maintenance; water, sewage, and solid waste facilities; and fire and police protection; and

76-3-608. Criteria for local government review. (1) The basis for the governing body's decision to approve, conditionally approve, or disapprove a subdivision is whether the preliminary plat, applicable environmental assessment, public hearing, planning board recommendations, or additional information demonstrates that development of the subdivision meets the requirements of this chapter. A governing body may not deny approval of a subdivision based solely on the subdivision's impacts on educational services.

(2) The governing body shall issue written findings of fact that weigh the criteria in subsection (3), as applicable.

(3) A subdivision proposal must undergo review for the following primary criteria:

(a) except when the governing body has established an exemption pursuant to subsection (7) of this section or except as provided in 76-3-505 and 76-3-509, the effect on agriculture, agricultural water user facilities, local services, the natural environment, wildlife and wildlife habitat, and public health and safety;

(b) compliance with:

(i) the survey requirements provided for in part 4 of this chapter;

(ii) the local subdivision regulations provided for in part 5 of this chapter; and

(iii) the local subdivision review procedure provided for in this part;

(c) the provision of easements for the location and installation of any planned utilities; and

(d) the provision of legal and physical access to each parcel within the subdivision and the required notation of that access on the applicable plat and any instrument of transfer concerning the parcel.

(4) The governing body may require the subdivider to design the subdivision to reasonably minimize potentially significant adverse impacts identified through the review required under subsection (3). The governing body shall issue written findings to justify the reasonable mitigation required under this subsection (4).

(5) (a) In reviewing a subdivision under subsection (3) and when requiring mitigation under subsection (4), a governing body may not unreasonably restrict a landowner's ability to

develop land, but it is recognized that in some instances the unmitigated impacts of a proposed development may be unacceptable and will preclude approval of the plat.

(b) When requiring mitigation under subsection (4), a governing body shall consult with the subdivider and shall give due weight and consideration to the expressed preference of the subdivider.

(6) (a) When a minor subdivision is proposed in an area where a growth policy has been adopted pursuant to chapter 1 and the proposed subdivision will comply with the growth policy, the subdivision is exempt from the review criteria contained in subsection (3)(a) but is subject to applicable zoning regulations.

(b) In order for a growth policy to serve as the basis for the exemption provided by this subsection (6), the growth policy must meet the requirements of 76-1-601.

(7) The governing body may exempt subdivisions that are entirely within the boundaries of designated geographic areas from the review criteria in subsection (3)(a) if all of the following requirements have been met:

(a) the governing body has adopted a growth policy pursuant to chapter 1 that:

(i) addresses the criteria in subsection (3)(a);

(ii) evaluates the effect of subdivision on the criteria in subsection (3)(a);

(iii) describes zoning regulations that will be implemented to address the criteria in subsection (3)(a); and

(iv) identifies one or more geographic areas where the governing body intends to authorize an exemption from review of the criteria in subsection (3)(a); and

(b) the governing body has adopted zoning regulations pursuant to chapter 2, part 2 or 3, that:

(i) apply to the entire area subject to the exemption; and

(ii) address the criteria in subsection (3)(a), as described in the growth policy.

76-3-609. Review procedure for minor subdivisions. Subdivisions containing five or fewer parcels in which proper access to all lots is provided and in which there is not any land to be dedicated to the public for parks or playgrounds are to be reviewed as follows:

(1) The governing body shall approve, conditionally approve, or disapprove the first minor subdivision from a tract of record within 35 working days of the submission of the application.

(2) The governing body shall state in writing the conditions that must be met if the subdivision is conditionally approved or what local regulations would not be met by the subdivision if it disapproves the subdivision.

(3) The requirements for holding a public hearing and preparing an environmental assessment do not apply to the first minor subdivision created from a tract of record.

(4) Subsequent subdivisions from a tract of record must be reviewed under 76-3-505 and regulations adopted pursuant to that section.

History: En. Sec. 8, Ch. 500, L. 1973; amd. Sec. 6, Ch. 334, L. 1974; amd. Sec. 3, Ch. 498, L. 1975; amd. Sec. 1, Ch. 555, L. 1977; R.C.M. 1947, 11-3866(6); amd. Sec. 2, Ch. 579, L. 1985; amd. Sec. 2, Ch. 256, L. 1987; amd. Sec. 7, Ch. 468, L. 1995; amd. Sec. 2, Ch. 236, L. 1999.

76-3-610. Effect of approval of preliminary plat. (1) Upon approving or conditionally approving a preliminary plat, the governing body shall provide the subdivider with a dated and signed statement of approval. This approval shall be in force for not more than 3 calendar years or less than 1 calendar year. At the end of this period the governing body may, at the request of the subdivider, extend its approval for no more than 1 calendar year, except that the governing body may extend its approval for a period of more than 1 year if that approval period is included as a specific condition of a written agreement between the governing body and the subdivider, according to 76-3-507.

(2) After the preliminary plat is approved, the governing body and its subdivisions may not impose any additional conditions as a prerequisite to final plat approval providing said approval is obtained within the original or extended approval period as provided in subsection (1).

76-3-611. Review of final plat. (1) The governing body shall examine each final subdivision plat and shall approve the plat only if:

(a) it conforms to the conditions of approval set forth on the preliminary plat and to the terms of this chapter and regulations adopted pursuant to this chapter; and

(b) the county treasurer has certified that all real property taxes and special assessments assessed and levied on the land to be subdivided have been paid.

(2) (a) The governing body may require that final subdivision plats and certificates of survey be reviewed for errors and omissions in calculation or drafting by an examining land surveyor before recording with the county clerk and recorder. When the survey data shown on the plat or certificate of survey meets the conditions pursuant to this chapter, the examining land surveyor shall certify the compliance in a printed or stamped certificate on the plat or certificate of survey. The certificate must be signed by the surveyor.

(b) A land surveyor may not act as an examining land surveyor in regard to a plat or certificate of survey in which the surveyor has a financial or personal interest.

History: En. Sec. 9, Ch. 500, L. 1973; amd. Sec. 7, Ch. 334, L. 1974; amd. Sec. 1, Ch. 553, L. 1977; R.C.M. 1947, 11-3867(part); amd. Sec. 1, Ch. 273, L. 1981; amd. Sec. 1, Ch. 293, L. 1995.

76-3-612. Abstract of title required for review process. (1) The subdivider shall submit with the final plat a certificate of a title abstracter showing the names of the owners of record of the land to be subdivided and the names of lienholders or claimants of record against the land and the written consent to the subdivision by the owners of the land, if other than the subdivider, and any lienholders or claimants of record against the land.

(2) The governing body may provide for the review of the abstract or certificate of title of the land in question by the county attorney where the land lies in an unincorporated area or by the city or town attorney when the land lies within the limits of a city or town.

History: En. Sec. 7, Ch. 500, L. 1973; amd. Sec. 5, Ch. 334, L. 1974; R.C.M. 1947, 11-3865; amd. Sec. 186, Ch. 575, L. 1981.

76-3-613. Index of plats to be kept by county clerk and recorder. (1) The county clerk and recorder shall maintain an index of all recorded subdivision plats and certificates of survey.

(2) This index shall list plats and certificates of survey by the quarter section, section, township, and range in which the platted or surveyed land lies and shall list the recording or filing numbers of all plats depicting lands lying within each quarter section. Each quarter section list shall be definitive to the exclusion of all other quarter sections. The index shall also list the names of all subdivision plats in alphabetical order and the place where filed.

History: En. Sec. 15, Ch. 500, L. 1973; R.C.M. 1947, 11-3873.

76-3-614. Correction of recorded plat. When a recorded plat does not definitely show the location or size of lots or blocks or the location or width of any street or alley, the governing body may at its own expense cause a new and correct survey and plat to be made and recorded in the office of the county clerk and recorder. The corrected plat must, to the extent possible, follow the plan of the original survey and plat. The surveyor making the resurvey shall endorse the corrected plat referring to the original plat and noting the defect existing therein and the corrections made.

History: En. Sec. 16, Ch. 500, L. 1973; R.C.M. 1947, 11-3874.

76-3-615 through 76-3-619 reserved.

76-3-620. Review requirements — written statement. In addition to the requirements of 76-3-604 and 76-3-609, a governing body may not deny or condition a subdivision approval under this part unless it provides a written statement to the applicant detailing the circumstances of the subdivision denial or condition imposition. The statement must include:

(1) the reason for the denial or condition imposition;

(2) the evidence that justifies the denial or condition imposition; and

(3) information regarding the appeal process for the denial or condition imposition.

History: En. Sec. 2, Ch. 224, L. 1995.

76-3-621. Park dedication requirement. (1) Except as provided in 76-3-509 or subsections (2), (3), and (6) of this section, a subdivider shall dedicate to the governing body a cash or land donation equal to:

(a) 11% of the area of the land proposed to be subdivided into parcels of one-half acre or smaller;

(b) 7.5% of the area of the land proposed to be subdivided into parcels larger than one-half acre and not larger than 1 acre;

(c) 5% of the area of the land proposed to be subdivided into parcels larger than 1 acre and not larger than 3 acres; and

(d) 2.5% of the area of the land proposed to be subdivided into parcels larger than 3 acres and not larger than 5 acres.

(2) When a subdivision is located totally within an area for which density requirements have been adopted pursuant to a growth policy under chapter 1 or pursuant to zoning regulations under chapter 2, the governing body may establish park dedication requirements based on the community need for parks and the development densities identified in the growth policy or regulations. Park dedication requirements established under this subsection are in lieu of those provided in subsection (1) and may not exceed 0.03 acres per dwelling unit.

(3) A park dedication may not be required for:

(a) a minor subdivision;

(b) land proposed for subdivision into parcels larger than 5 acres;

(c) subdivision into parcels that are all nonresidential;

(d) a subdivision in which parcels are not created, except when that subdivision provides permanent multiple spaces for recreational camping vehicles, mobile homes, or condominiums; or

(e) a subdivision in which only one additional parcel is created.

(4) The governing body, in consultation with the subdivider and the planning board or park board that has jurisdiction, may determine suitable locations for parks and playgrounds and, giving due weight and consideration to the expressed preference of the subdivider, may determine whether the park dedication must be a land donation, cash donation, or a combination of both. When a combination of land donation and cash donation is required, the cash donation may not exceed the proportional amount not covered by the land donation.

(5) (a) In accordance with the provisions of subsections (5)(b) and (5)(c), the governing body shall use the dedicated money or land for development, acquisition, or maintenance of parks to serve the subdivision.

(b) The governing body may use the dedicated money to acquire, develop, or maintain, within its jurisdiction, parks or recreational areas or for the purchase of public open space or conservation easements only if:

(i) the park, recreational area, open space, or conservation easement is within a reasonably close proximity to the proposed subdivision; and

(ii) the governing body has formally adopted a park plan that establishes the needs and procedures for use of the money.

(c) The governing body may not use more than 50% of the dedicated money for park maintenance.

(6) The local governing body shall waive the park dedication requirement if:

(a) (i) the preliminary plat provides for a planned unit development or other development with land permanently set aside for park and recreational uses sufficient to meet the needs of the persons who will ultimately reside in the development; and

(ii) the area of the land and any improvements set aside for park and recreational purposes equals or exceeds the area of the dedication required under subsection (1);

(b) (i) the preliminary plat provides long-term protection of critical wildlife habitat; cultural, historical, or natural resources; agricultural interests; or aesthetic values; and

(ii) the area of the land proposed to be subdivided, by virtue of providing long-term protection provided for in subsection (6)(b)(i), is reduced by an amount equal to or exceeding the area of the dedication required under subsection (1); or

(c) the area of the land proposed to be subdivided, by virtue of a combination of the provisions of subsections (6)(a) and (6)(b), is reduced by an amount equal to or exceeding the area of the dedication required under subsection (1).

(7) For the purposes of this section:

(a) "cash donation" is the fair market value of the unsubdivided, unimproved land; and

(b) "dwelling unit" means a residential structure in which a person or persons reside.

76-4-104. Rules for administration and enforcement. (1) The department shall, subject to the provisions of 76-4-135, adopt reasonable rules, including adoption of sanitary standards, necessary for administration and enforcement of this part.

(2) The rules and standards must provide the basis for approving subdivisions for various types of public and private water supplies, sewage disposal facilities, storm water drainage ways, and solid waste disposal. The rules and standards must be related to:

(a) size of lots;

(b) contour of land;

(c) porosity of soil;

(ii) A local department or board of health may be certified to review subdivisions proposed to connect to existing municipal water and wastewater systems previously approved by the department if no extension of the systems is required.

(4) The department shall also adopt standards and procedures for certification and maintaining certification to ensure that a local department or board of health is competent to review the subdivisions as described in subsection (3).

(5) The department shall review those subdivisions described in subsection (3) if:

(a) a proposed subdivision lies within more than one jurisdictional area and the respective governing bodies are in disagreement concerning approval of or conditions to be imposed on the proposed subdivision; or

76-4-125. Review of subdivision application — land divisions excluded from review. (1) Except as provided in subsection (2), an application for review of a subdivision must be submitted to the reviewing authority. The review by the reviewing authority must be as follows:

(a) At any time after the developer has submitted an application under the Montana Subdivision and Platting Act, the developer shall present a subdivision application to the reviewing authority. The application must include preliminary plans and specifications for the proposed development, whatever information the developer feels necessary for its subsequent review, and information required by the reviewing authority. Subdivision fees assessed by the reviewing authority must accompany the application. If the proposed development includes onsite sewage disposal facilities, the developer shall notify the designated agent of the local board of health prior to presenting the subdivision application to the reviewing authority. The agent may conduct a preliminary site assessment to determine whether the site meets applicable state and local requirements.

(b) Except as provided in 75-1-208(4)(b), the department shall make a final decision on the proposed subdivision within 60 days after the submission of a complete application and payment of fees to the reviewing authority unless an environmental impact statement is required, at which time this deadline may be increased to 120 days. The reviewing authority may not request additional information for the purpose of extending the time allowed for a review and final decision on the proposed subdivision. If the department approves the subdivision, the department shall issue a certificate of subdivision approval indicating that it has approved the plans and specifications and that the subdivision is not subject to a sanitary restriction.

(2) A subdivision excluded from the provisions of chapter 3 must be submitted for review according to the provisions of this part, except that the following divisions or parcels, unless the exclusions are used to evade the provisions of this part, are not subject to review:

(a) the exclusions cited in 76-3-201 and 76-3-204;

(b) divisions made for the purpose of acquiring additional land to become part of an approved parcel, provided that water or sewage disposal facilities may not be constructed on the additional acquired parcel and that the division does not fall within a previously platted or approved subdivision;

(c) divisions made for purposes other than the construction of water supply or sewage and solid waste disposal facilities as the department specifies by rule;

(d) divisions located within jurisdictional areas that have adopted growth policies pursuant to chapter 1 or within first-class or second-class municipalities for which the governing body certifies, pursuant to 76-4-127, that adequate storm water drainage and adequate municipal facilities will be provided; and

(e) subject to the provisions of subsection (3), a remainder of an original tract created by segregating a parcel from the tract for purposes of transfer if:

(i) the remainder is served by a public or multiple-user sewage system approved before January 1, 1997, pursuant to local regulations or this chapter; or

(ii) the remainder is 1 acre or larger and has an individual sewage system that was constructed prior to April 29, 1993, and, if required when installed, was approved pursuant to local regulations or this chapter.

(3) Consistent with the applicable provisions of 50-2-116(1)(i), a local health officer may require that, prior to the filing of a plat or a certificate of survey subject to review under this part for the parcel to be segregated from the remainder referenced in subsection (2)(e)(ii), the remainder include acreage or features sufficient to accommodate a replacement drainfield.

A petition under this section does not relieve the petitioner of the duty to comply with the challenged rule. The department may charge a petition filing fee in an amount not to exceed $250.

(b) A person may also petition the department for a rule review under subsection (4)(a) if the department adopts a rule after January 1, 1990, in an area in which no federal regulations or guidelines existed and the federal government subsequently establishes comparable regulations or guidelines that are less stringent than the previously adopted department rule.

Part 1
General Provisions

76-5-101. Findings. The people of the state of Montana find that:

(1) recurrent flooding of a portion of the state's land resources causes loss of life, damage to property, disruption of commerce and governmental services, and unsanitary conditions; all of which are detrimental to the health, safety, welfare, and property of the occupants of flooded lands and the people of this state; and

(2) the public interest necessitates management and regulation of flood-prone lands and waters in a manner consistent with sound land and water use management practices which will prevent and alleviate flooding threats to life and health and reduce private and public economic losses.

History: En. Sec. 1, Ch. 393, L. 1971; R.C.M. 1947, 89-3501.

76-5-102. Policy and purposes. (1) The policy and purposes of parts 1 through 4 of this chapter are to:

(a) guide development of the floodway areas of this state consistent with the enumerated findings;

(b) recognize the right and need of watercourses to periodically carry more than the normal flow of water;

(c) provide state coordination and technical assistance to local units in management of floodway areas;

(d) coordinate federal, state, and local management activities for floodway areas;

(e) encourage local governmental units to manage flood-prone lands, including the adoption, enforcement, and administration of land use regulations; and

(f) provide the department of natural resources and conservation with authority necessary to carry out a comprehensive floodway management program for the state.

(2) Specifically, it is the purpose of parts 1 through 4 to:

(a) restrict or prohibit uses that are dangerous to health or safety of property in times of flood or that cause increased flood heights or velocities;

(b) require that uses vulnerable to floods, including public facilities that serve the uses, be provided with flood protection at the time of initial construction;

(c) develop and provide information to identify lands that are unsuited for certain development purposes because of flood hazard;

(d) distinguish between the land use regulations applied to the designated floodway and those applied to that portion of the designated flood plain not contained within the designated floodway;

(e) apply more restrictive land use regulations within the designated floodway;

(f) ensure that regulations and minimum standards adopted under parts 1 through 4, insofar as possible, balance the greatest public good with the least private injury.

History: En. Sec. 2, Ch. 393, L. 1971; amd. Sec. 194, Ch. 253, L. 1974; amd. Sec. 1, Ch. 271, L. 1974; R.C.M. 1947, 89-3502; amd. Sec. 241, Ch. 418, L. 1995.

76-5-103. Definitions. As used in parts 1 through 4 of this chapter, unless the context otherwise requires, the following definitions apply:

(1) “Artificial obstruction” means any obstruction that is not a natural obstruction and includes any dam, wall, riprap, embankment, levee, dike, pile, abutment, projection, revetment, excavation, channel rectification, bridge, conduit, culvert, building, refuse, automobile body, fill, or other analogous structure or matter in, along, across, or projecting into any flood plain or floodway that may impede, retard, or change the direction of the flow of water, either in itself or by catching or collecting debris carried by the water, or that is placed where the natural flow of the water would carry the same downstream to the damage or detriment of either life or property.

(2) “Channel” means the geographical area within either the natural or artificial banks of a watercourse or drainway.

(3) “Department” means the department of natural resources and conservation provided for in Title 2, chapter 15, part 33.

(4) “Designated flood plain” means a flood plain whose limits have been designated and established by order of the department.

(5) “Designated floodway” means a floodway whose limits have been designated and established by order of the department.

(6) “Drainway” means any depression 2 feet or more below the surrounding land serving to give direction to a current of water less than 9 months of the year and having a bed and well-defined banks.

(7) “Establish” means construct, place, insert, or excavate.

(8) “Flood” means the water of any watercourse or drainway that is above the bank or outside the channel and banks of the watercourse or drainway.

(9) “Flood of 100-year frequency” means a flood magnitude expected to recur on the average of once every 100 years or a flood magnitude that has a 1% chance of occurring in any given year.

(10) “Flood plain” means the area adjoining the watercourse or drainway that would be covered by the floodwater of a flood of 100-year frequency, except for sheetflood areas that

receive less than 1 foot of water per occurrence and are considered "zone B" by the federal emergency management agency.

(11) "Floodway" means the channel of a watercourse or drainway and those portions of the flood plain adjoining the channel that are reasonably required to carry and discharge the floodwater of any watercourse or drainway.

(12) "Natural obstruction" means any rock, tree, gravel, or analogous natural matter that is an obstruction and has been located within the flood plain or floodway by a nonhuman cause.

(13) "Owner" means any person who has dominion over, control of, or title to an obstruction.

(14) "Political subdivision" means any incorporated city or town or any county organized and having authority to adopt and enforce land use regulations.

(15) "Responsible political subdivision" means a political subdivision that has enacted land use regulations in accordance with parts 1 through 4.

(16) (a) "Watercourse" means any depression 2 feet or more below the surrounding land serving to give direction to a current of water at least 9 months of the year and having a bed and well-defined banks.

(b) Upon order of the department, the term also includes any particular depression that would not otherwise be within the definition of watercourse.

History: En. Sec. 3, Ch. 393, L. 1971; amd. Sec. 1, Ch. 294, L. 1973; amd. Sec. 195, Ch. 253, L. 1974; amd. Sec. 2, Ch. 271, L. 1974; R.C.M. 1947, 89-3503(part); amd. Sec. 1, Ch. 428, L. 1981; amd. Sec. 242, Ch. 418, L. 1995.

76-5-104. Presumption that depression is watercourse. In the event of doubt as to whether a depression is a watercourse or drainway, it shall be presumed to be a watercourse.

History: En. Sec. 3, Ch. 393, L. 1971; amd. Sec. 1, Ch. 294, L. 1973; amd. Sec. 195, Ch. 253, L. 1974; amd. Sec. 2, Ch. 271, L. 1974; R.C.M. 1947, 89-3503(part).

76-5-105. Authority to enter and investigate lands or waters. (1) The department or the responsible political subdivision may make reasonable entry upon any lands and waters in the state for the purpose of making an investigation, survey, removal, or repair contemplated by parts 1 through 4 of this chapter. Unless written consent is obtained, however, the department or the responsible political subdivision shall provide written notice of its entry by personal delivery to the owner, owner's agent, lessee, or lessee's agent whose lands will be entered. If none of these persons can be found, the department or the responsible political subdivision shall affix a copy of the notice to one or more conspicuous places on the property.

(2) An investigation of a natural or artificial obstruction or nonconforming use shall be made by the department or the responsible political subdivision either on its own initiative, on the written request of three titleholders of land abutting the watercourse or drainway involved, or on the written request of a political subdivision. Upon the request of an owner, owner's agent, lessee, or lessee's agent whose lands will be entered to undertake the investigation, the department or the responsible political subdivision shall release the names and addresses of the persons or political subdivision requesting the investigation.

History: En. Sec. 9, Ch. 393, L. 1971; amd. Sec. 201, Ch. 253, L. 1974; amd. Sec. 8, Ch. 271, L. 1974; R.C.M. 1947, 89-3509; amd. Sec. 1, Ch. 382, L. 1985.

76-5-106. Exemption for small drainage area. Parts 1 through 4 of this chapter do not extend to any obstruction in the flood plain or floodway of a watercourse or drainway where the drainage area above the watercourse or drainway, either within or outside the state, is less than 25 square miles in extent unless a particular watercourse or drainway is expressly declared to be within the coverage of parts 1 through 4 by order of the department.

History: En. Sec. 10, Ch. 393, L. 1971; amd. Sec. 9, Ch. 271, L. 1974; R.C.M. 1947, 89-3510; amd. Sec. 243, Ch. 418, L. 1995.

76-5-107. Federal supremacy. Parts 1 through 4 do not interfere with the right of the United States to regulate interstate commerce or the navigable waters of the United States.

History: En. Sec. 14, Ch. 393, L. 1971; amd. Sec. 204, Ch. 253, L. 1974; amd. Sec. 11, Ch. 271, L. 1974; amd. Sec. 4, Ch. 73, L. 1977; R.C.M. 1947, 89-3514(part).

76-5-108. Permit construed as added requirement. The granting of a permit under parts 1 through 4 of this chapter does not affect any other type of approval required by any other statute or ordinance of the state, of any political subdivision, or of the United States but is an added requirement.

History: En. Sec. 14, Ch. 393, L. 1971; amd. Sec. 204, Ch. 253, L. 1974; amd. Sec. 11, Ch. 271, L. 1974; amd. Sec. 4, Ch. 73, L. 1977; R.C.M. 1947, 89-3514(part).

76-5-109. Other legal remedies preserved — immunity. (1) The grant or denial of a permit does not have an effect on a remedy of a person at law or in equity.

(2) When it is shown that there is a wrongful failure to comply with parts 1 through 4 of this chapter, there is a rebuttable presumption that the obstruction was the proximate cause of the flooding of the land of a person bringing suit.

(3) The use of any one of the remedies or powers given to the department in parts 1 through 4 is not a bar to the exercise of any other remedy or power given by parts 1 through 4.

(4) An action for damages sustained because of injury caused by an obstruction for which a permit has been granted under parts 1 through 4 may not be brought against the state or the department.

History: (1), (2), (4)En. Sec. 14, Ch. 393, L. 1971; amd. Sec. 204, Ch. 253, L. 1974; amd. Sec. 11, Ch. 271, L. 1974; amd. Sec. 4, Ch. 73, L. 1977; Sec. 89-3514, R.C.M. 1947; (3)En. 76-5-110. Penalties for violation. Any person who violates 76-5-401 through 76-5-404 shall be guilty of a misdemeanor and shall upon conviction thereof be fined not more than $100 or be imprisoned in the county jail for not more than 10 days or be both so fined and imprisoned. Each day's continuance of a violation shall be deemed a separate and distinct offense.

Part 2
Role of State Agencies

76-5-201. Program for delineation of flood plains and floodways. (1) The department shall initiate a comprehensive program for the delineation of designated flood plains and designated floodways for each watercourse and drainway in the state. It shall make a study relating to the acquiring of flood data and may enter into arrangements with the United States geological survey, the United States army corps of engineers, or any other state or federal agency for the acquisition of data.

(2) Before the department establishes by order a designated flood plain or a designated floodway, the department shall consult with the affected political subdivisions. Consultation must include but is not limited to the following:

(a) specifically requesting that the political subdivisions submit pertinent data concerning flood hazards, including flooding experiences, plans to avoid potential hazards, estimates of economic impacts of flooding on the community, both historical and prospective, and other data that is considered appropriate;

(b) notifying local officials, including members of the county commission, city council, and planning board, of the progress of surveys, studies, and investigations and of proposed findings, along with information concerning data and methods employed in reaching conclusions; and

(c) encouraging local dissemination of information concerning surveys, studies, and investigations so that interested persons will have an opportunity to bring relevant data to the attention of the department.

History: En. Sec. 4, Ch. 393, L. 1971; amd. Sec. 2, Ch. 294, L. 1973; amd. Sec. 196, Ch. 253, L. 1974; amd. Sec. 3, Ch. 271, L. 1974; amd. Sec. 1, Ch. 262, L. 1977; R.C.M. 1947, 89-3504(1); amd. Sec. 245, Ch. 418, L. 1995.

76-5-202. Designation of flood plains and floodways. (1) When sufficient data has been acquired by the department, the department shall establish, by order after a public hearing, the designated flood plain within which a political subdivision may establish land use regulation.

(2) When sufficient data has been acquired, the department shall establish, by order after a public hearing, the designated floodway within which a political subdivision may establish land use regulation.

(3) These designations must be based upon reasonable hydrological certainty. Designations made according to a flood hazard boundary map prepared by the federal emergency management agency have a rebuttable presumption of reasonable hydrological certainty.

(4) The department shall record all designated flood plains or designated floodways in the office of the county clerk and recorder of each county in which those flood plains or floodways are found.

History: En. Sec. 4, Ch. 393, L. 1971; amd. Sec. 2, Ch. 294, L. 1973; amd. Sec. 196, Ch. 253, L. 1974; amd. Sec. 3, Ch. 271, L. 1974; amd. Sec. 1, Ch. 262, L. 1977; R.C.M. 1947, 89-3504(part); amd. Sec. 1, Ch. 160, L. 1987; amd. Sec. 246, Ch. 418, L. 1995.

76-5-203. Alteration of flood plains or floodways. The department may alter the flood plains or floodways at any later time, by order after a public hearing, if a reevaluation of the then available flood data warrants it.

History: En. Sec. 4, Ch. 393, L. 1971; amd. Sec. 2, Ch. 294, L. 1973; amd. Sec. 196, Ch. 253, L. 1974; amd. Sec. 3, Ch. 271, L. 1974; amd. Sec. 1, Ch. 262, L. 1977; R.C.M. 1947, 89-3504(part); amd. Sec. 247, Ch. 418, L. 1995.

76-5-204. What constitutes notice. Notice of a hearing or order of the department establishing or altering the flood plains or floodways must be given by publishing the notice once each week for 3 consecutive weeks in a legal newspaper published or of general circulation in the area involved. The last publication of the notice may not be less than 10 days prior to the date set for the hearing or the effective date of the order.

History: En. Sec. 4, Ch. 393, L. 1971; amd. Sec. 2, Ch. 294, L. 1973; amd. Sec. 196, Ch. 253, L. 1974; amd. Sec. 3, Ch. 271, L. 1974; amd. Sec. 1, Ch. 262, L. 1977; R.C.M. 1947, 89-3504(part); amd. Sec. 248, Ch. 418, L. 1995.

76-5-205. Furnishing of material to local governments. (1) When the designated flood plain or the designated floodway has been established, the department shall furnish this data to officials of the political subdivision having jurisdiction over those areas, together with a map outlining the areas involved, a copy of parts 1 through 4 of this chapter, adopted rules of the department, and suggested minimum standards adopted by the department.

(2) These standards and rules must reflect gradations in flood hazard based on criteria as outlined in 76-5-406. In adopting these standards and rules, the department shall consider local input from the affected political subdivisions.

History: En. Sec. 4, Ch. 393, L. 1971; amd. Sec. 2, Ch. 294, L. 1973; amd. Sec. 196, Ch. 253, L. 1974; amd. Sec. 3, Ch. 271, L. 1974; amd. Sec. 1, Ch. 262, L. 1977; R.C.M. 1947, 89-3504(part); amd. Sec. 249, Ch. 418, L. 1995.

76-5-206. Powers and duties of department relative to obstructions. (1) When an obstruction to a designated floodway established under 76-5-202 through 76-5-205 has been created by fallen trees, silt, debris, wreckage, unanchored automobile bodies, and like matter, the department may, in its discretion, remove the obstruction, in which case the cost of removal must be borne by the department.

(2) When, after investigation, notice, and hearing, an order has been issued by the department to the owner of an obstruction not exempt under 76-5-401 through 76-5-404 for its removal or repair and the order is not complied with within a reasonable time as may be prescribed or if the owner cannot be found or determined, the department may make the removal or repairs or cause the removal or repairs to be made. The cost of the removal or repairs must be borne by the owner and are recoverable in the same manner as debts are recoverable by law.

History: En. Sec. 8, Ch. 393, L. 1971; amd. Sec. 5, Ch. 294, L. 1973; amd. Sec. 200, Ch. 253, L. 974; amd. Sec. 7, Ch. 271, L. 1974; R.C.M. 1947, 89-3508; amd. Sec. 250, Ch. 418, L. 1995.

76-5-207. Floodway obstruction removal fund. The state treasurer shall establish the floodway obstruction removal fund and credit to the fund for the removal of obstructions as provided in 76-5-206(1) such money specifically appropriated by the legislature. The department may allocate money from the floodway obstruction removal fund for purposes provided in 76-5-206(1).

History: En. Sec. 12, Ch. 393, L. 1971; amd. Sec. 203, Ch. 253, L. 1974; R.C.M. 1947, 89-3512.

76-5-208. Orders and rules. (1) The department may adopt orders and rules that are necessary to implement parts 1 through 4 of this chapter. All orders and rules must be on file at the offices of the department and in the office of the county clerk and recorder of each county affected by the order or rule.

(2) If an order is issued to the owner of an artificial obstruction or nonconforming use not exempt under 76-5-401 through 76-5-404 for its removal or repair, the order may not become effective less than 10 days after a hearing is held relating to the order.

(3) In addition to any requirement imposed by 76-5-202 through 76-5-205, when an order is issued that affects with particularity the land adjacent to a watercourse or drainway, notice of the contents of the order and of any required hearing must be mailed to the titleholder of the land not less than 10 days before the effective date of the order or, if there is a required hearing, to the titleholder of the land and to the owner of the artificial obstruction or nonconforming use not less than 10 days before the date of the hearing. However, the notice need not be given to the owner of the artificial obstruction or nonconforming use for an order issued pursuant to 76-5-206(2) if the owner cannot be found or determined.

History: En. Sec. 11, Ch. 393, L. 1971; amd. Sec. 202, Ch. 253, L. 1974; amd. Sec. 10, Ch. 271, L. 1974; R.C.M. 1947, 89-3511(part); amd. Sec. 251, Ch. 418, L. 1995.

Service of notice of the appeal must be made upon the department.

(2) If an appeal is taken, enforcement of the order is stayed pending the outcome of the appeal.

76-5-301. Land use regulations. (1) Upon transmittal of the flood plain information to officials of a political subdivision, the political subdivision has 6 months from the date of transmittal to adopt land use regulations that meet or exceed the minimum standards of the department. The regulations may include, for the purposes of flood plain management only, flood plain management regulations within sheetflood areas as determined by the federal emergency management agency.

(2) If within the 6-month period the political subdivision has failed to adopt the land use regulations, the department shall enforce the minimum standards within the designated flood plain or the designated floodway as established by the department under 76-5-202 through 76-5-205, and an artificial obstruction or nonconforming use may not be established by any person within the designated flood plain or the designated floodway unless specifically authorized by the department.

(3) A political subdivision that has failed to adopt land use regulations that meet or exceed the minimum standards of the department within the 6-month period may subsequently adopt regulations, and if approved by the department, the regulations are effective within the designated flood plain or floodway and must be administered and enforced by the political subdivision.

(4) When necessary for compliance with federal flood insurance requirements, the department may shorten the 6-month period upon notification to the political subdivision and

publication of a notice of the revised period in a newspaper of general circulation in the affected area once a week for 3 consecutive weeks.

76-5-302. Substitution of local control for state permit system. (1) If a political subdivision enacts, in harmony with the purposes of parts 1 through 4 of this chapter, permit issuance ordinances, regulations, or resolutions and land use ordinances, regulations, or resolutions that meet or exceed the minimum standards of the department and if the administrative and enforcement procedures established for those ordinances, regulations, or resolutions are found acceptable by the department, a permit from the department is not required.

(2) However, if the department determines that there is a failure by a political subdivision to comply with the intent, purposes, and provisions of parts 1 through 4 and the minimum standards adopted under parts 1 through 4, the powers of the political subdivision may be suspended after hearing and the minimum standards adopted by the department must be enforced by the department until the department determines that the political subdivision will comply.

(1) any use permitted in the designated floodway;

(2) structures, including but not limited to residential, commercial, and industrial structures, provided that:

(a) the structures meet the minimum standards adopted by the department;

76-5-404. Artificial obstructions and nonconforming uses. (1) An artificial obstruction or nonconforming use in a designated flood plain or designated floodway enforced under 76-5-301(1) and (2) and not exempt under 76-5-401 through 76-5-403 or subsection (2) or (3) of this section is a public nuisance unless a permit has been obtained for the artificial obstruction or nonconforming use from the department or the responsible political subdivision.

(2) It is unlawful for a person to establish an artificial obstruction or nonconforming use within a designated flood plain or a designated floodway without a permit from the department or the responsible political subdivision.

(3) (a) Parts 1 through 4 of this chapter do not affect any existing artificial obstruction or nonconforming use established in the designated flood plain or designated floodway before the land use regulations adopted by the political subdivision are effective or before the department has enforced a designated flood plain or a designated floodway under 76-5-301(1) and (2).

(b) However, a person may not make nor may an owner allow alterations of an artificial obstruction or nonconforming use within a designated flood plain or a designated floodway whether the obstruction proposed for alteration was located in the flood plain or floodway before or after July 1, 1971, except upon express written approval of the department or the responsible political subdivision. Maintenance of an obstruction is not an alteration.

76-5-405. Variance for obstruction or nonconforming use. (1) The department or the responsible political subdivision may issue permits for the establishment or alteration of artificial obstructions and nonconforming uses that would otherwise violate 76-5-401 through 76-5-404. The application for the permit must be submitted to the department or the responsible political subdivision and contain the information that the department requires, including complete maps, plans, profiles, and specifications of the obstruction or use and watercourse or drainway.

(2) Permits for obstructions or uses to be established in the designated flood plain or designated floodway of watercourses must be specifically approved or denied within a reasonable time by the department or the responsible political subdivision. Permits for obstructions or uses in the designated flood plains or designated floodways are conclusively considered to have been granted 60 days after the receipt of the application by the department or the responsible political subdivision or after a time that the department or the responsible political subdivision specifies, unless the department or the responsible political subdivision notifies the applicant that the permit is denied. The responsible political subdivision shall send to the department a copy of each permit granted pursuant to 76-5-406 and this section.

(3) An application for a permit must be accompanied by a nonrefundable application fee of $10, which the state treasurer shall credit to the floodway obstruction removal fund.

(4) The department or the responsible political subdivision may make a part of the permit any reasonable conditions that it may consider advisable. In order for the permit to continue to remain in force, the obstruction or use must be maintained so as to comply with the conditions and specifications of the permit.

76-5-406. Criteria to be considered in connection with variance request. In passing upon the application, the department or the responsible political subdivision shall consider in accordance with the minimum standards established by the department:

(1) the danger to life and property by water that may be backed up or diverted by the obstruction or use;

(2) the danger that the obstruction or use will be swept downstream to the injury of others;

(3) the availability of alternate locations;

(4) the construction or alteration of the obstruction or use in such a manner as to lessen the danger;

(5) the permanence of the obstruction or use;

(6) the anticipated development in the foreseeable future of the area that may be affected by the obstruction or use; and

(7) other factors in harmony with the purpose of parts 1 through 4 of this chapter.

Part 1
General Provisions

76-6-101. Short title. This chapter may be cited as the "Open-Space Land and Voluntary Conservation Easement Act".

History: En. Sec. 1, Ch. 337, L. 1969; amd. Sec. 1, Ch. 489, L. 1975; R.C.M. 1947, 62-601.

76-6-102. Findings and policy. The legislature finds that:

(1) the rapid growth and spread of urban development are creating critical problems of service and finance for the state and local governments;

(2) the present and future rapid population growth in urban areas is creating severe problems of urban and suburban living;

(3) this population spread and its attendant development are disrupting and altering the remaining natural areas, biotic communities, and geological and geographical formations and thereby providing the potential for the destruction of scientific, educational, aesthetic, and ecological values;

(4) the present and future rapid population spread throughout the state of Montana into its open spaces is creating serious problems of lack of open space and overcrowding of the land;

(5) to lessen congestion and to preserve natural, ecological, geographical, and geological elements, the provision and preservation of open-space lands are necessary to secure park,

recreational, historic, and scenic areas and to conserve the land, its biotic communities, its natural resources, and its geological and geographical elements in their natural state;

(6) the acquisition or designation of interests and rights in real property by certain qualifying private organizations and by public bodies to provide or preserve open-space land is essential to the solution of these problems, the accomplishment of these purposes, and the health and welfare of the citizens of the state;

(7) the exercise of authority to acquire or designate interests and rights in real property to provide or preserve open-space land and the expenditure of public funds for these purposes would be for a public purpose; and

(8) the statutory provision enabling certain qualifying private organizations to acquire interests and rights in real property to provide or preserve open-space land is in the public interest.

History: En. Sec. 2, Ch. 337, L. 1969; amd. Sec. 2, Ch. 489, L. 1975; R.C.M. 1947, 62-602(part).

76-6-103. Purposes. In accordance with the findings in 76-6-102, the legislature states that the purposes of this chapter are to:

(1) authorize and enable public bodies and certain qualifying private organizations voluntarily to provide for the preservation of native plants or animals, biotic communities, or geological or geographical formations of scientific, aesthetic, or educational interest;

(2) provide for the preservation of other significant open-space land anywhere in the state either in perpetuity or for a term of years; and

(3) encourage private participation in such a program by establishing the policy to be utilized in determining the property tax to be levied upon the real property which is subject to the provisions of this chapter.

History: En. Sec. 2, Ch. 337, L. 1969; amd. Sec. 2, Ch. 489, L. 1975; R.C.M. 1947, 62-602(part).

76-6-104. Definitions. The following terms whenever used or referred to in this chapter shall have the following meanings unless a different meaning is clearly indicated by the context:

(1) "Comprehensive planning" means planning for development and shall include:

(a) preparation of general physical plans with respect to the pattern and intensity of land use and the provision of public facilities, including transportation facilities, together with long-range fiscal plans for such development as a guide for long-range development;

(b) programming and financing plans for capital improvements;

(c) coordination of all related plans and planned activities at both the intragovernmental and intergovernmental levels; and

(d) preparation of regulatory and administrative measures in support of the foregoing.

(2) "Conservation easement" means an easement or restriction, running with the land and assignable, whereby an owner of land voluntarily relinquishes to the holder of such easement or restriction any or all rights to construct improvements upon the land or to substantially alter the natural character of the land or to permit the construction of improvements upon the land or the substantial alteration of the natural character of the land, except as this right is expressly reserved in the instruments evidencing the easement or restriction.

(3) "Open-space land" means any land which is provided or preserved for:

(a) park or recreational purposes;

(b) conservation of land or other natural resources;

(c) historic or scenic purposes; or

(d) assisting in the shaping of the character, direction, and timing of community development.

(4) "Public body" means the state, counties, cities, towns, and other municipalities.

(5) "Qualified private organization" means a private organization:

(a) competent to own interests in real property;

(b) which qualifies and holds a general tax exemption under the federal Internal Revenue Code, section 501(c); and

(c) whose organizational purposes are designed to further the purposes of this chapter.

(6) "Urban area" means any area which is urban in character, including surrounding areas which form an economic and socially related region, taking into consideration such

factors as present and future population trends and patterns of urban growth, location of transportation facilities and systems, and distribution of industrial, commercial, residential, governmental, institutional, and other activities.

History: En. Sec. 3, Ch. 337, L. 1969; amd. Sec. 3, Ch. 489, L. 1975; R.C.M. 1947, 62-603(part).

76-6-105. Construction of chapter. (1) To the extent that the provisions of this chapter are inconsistent with the provisions of any other law, the provisions of this chapter are controlling. The powers conferred by this chapter are in addition and supplemental to the powers conferred by any other law.

(2) This chapter may not be construed to imply that any easement, covenant, condition, or restriction that does not have the benefit of this chapter is not enforceable based on any provisions of this chapter. This chapter does not diminish the powers granted by any general or special law to acquire by purchase, gift, eminent domain pursuant to Title 70, chapter 30, or otherwise and to use land for public purposes.

History: (1)En. Sec. 9, Ch. 337, L. 1969; Sec. 62-609, R.C.M. 1947; (2)En. 62-618 by Sec. 14, Ch. 489, L. 1975; Sec. 62-618, R.C.M. 1947; R.C.M. 1947, 62-609(part), 62-618; amd. Sec. 279, Ch. 42, L. 1997; amd. Sec. 94, Ch. 125, L. 2001.

Part 1
General Provisions

76-7-101. Short title. This chapter may be cited as the "Environmental Control Easement Act".

History: **En. Sec. 1, Ch. 503, L. 1999.**

76-7-102. Findings and purpose. (1) The legislature finds that:

(a) numerous sites throughout the state contain or may contain hazardous wastes or substances that may threaten the public health, safety, or welfare or the environment if certain uses are permitted on these sites or if certain activities are not performed on these sites;

(b) at some sites, protection of the public health, safety, or welfare or the environment may be enhanced by the application and enforcement of certain restrictions on the future use of the site or requirements for performance of certain activities;

(c) the creation of an enforceable easement mechanism for imposing restrictions on the use of a site and requiring performance of operations and maintenance activities may help protect the public health, safety, and welfare and the environment by:

(i) preventing or minimizing the exposure of the public to hazardous wastes or substances;

(ii) preventing the disturbance of important features of remediation work and remedial technologies employed at the site;

(iii) ensuring that the presence of hazardous wastes or substances and the features of remediation work and remedial technologies are properly considered in the future use or development of a site; or

(iv) requiring the performance of certain activities or the prohibition or limitation of certain activities, with respect to the site; and

(d) the expenditure of public funds for the acquisition or designation of interests and rights in real property to protect the public health, safety, and welfare and the environment is in the public's interest.

(2) It is the purpose of this chapter to authorize and enable federal public entities, other public bodies, and certain qualifying private organizations to provide for:

(a) the monitoring and protection of environmental control sites to ensure that those sites are not used for purposes that may threaten the public health, safety, or welfare or the environment;

(b) a process of reviewing the need for specialized construction, development, use, and safety measures if the owner or user of an environmental control site proposes a new use for which any contamination might present a risk to the public health, safety, or welfare or the environment; and

(c) a mechanism for prohibiting or limiting certain activities or requiring certain activities on an environmental control site to enhance protection of the public health, safety, or welfare or the environment.

History: En. Sec. 2, Ch. 503, L. 1999.

76-7-103. Definitions. As used in this chapter, the following definitions apply:

(1) "Department" means the department of environmental quality provided for in 2-15-3501.

(2) "Environmental control easement" or "easement" means an easement created under this chapter that burdens an environmental control site, that runs with the land, and that is binding on the owner and subsequent owners, lessees, and other users of the land. The easement may require the relinquishment of some or all rights to use the land or its surface or subsurface or the water in, upon, or under the land to the extent provided in the instrument granting the easement.

(3) "Environmental control site" or "site" means any site, including the surface and subsurface of the land and the surface and subsurface resources in, upon, or under the land, including, without limitation, minerals and water that may contain hazardous wastes or substances or that may require remediation, reclamation, or restoration pursuant to federal, state, or local law or regulation.

(4) "Federal public entity" means the United States of America, the United States environmental protection agency, or any other federal government agency or authority and its successors or assigns.

(5) "Governmental order" means a consent decree, judgment, decision, order, agreement, or other requirement authorized or imposed by or under any federal or state law affecting an environmental control site.

(6) "Hazardous wastes or substances" means those hazardous or toxic substances, wastes, materials, pollutants, or contaminants that are subject to regulation by federal, state, or local environmental protection laws or that are defined pursuant to 75-10-403, 75-10-602, and 75-10-702.

(7) "Public body" means the state, counties, cities, towns, and other municipalities.

(8) "Qualified private organization" means a private organization:

(a) competent to own interests in real property;

(b) that qualifies and holds a general tax exemption under the federal Internal Revenue Code, 26 U.S.C. 501(c); and

(c) whose organizational purposes are designed to further the purposes of this chapter.

History: **En. Sec. 3, Ch. 503, L. 1999.**

76-7-104. Acquisition of interests in environmental control sites. A public body may acquire by grant, title to, interests in, or rights in environmental control sites, including environmental control easements.

History: **En. Sec. 4, Ch. 503, L. 1999.**

76-7-105. Conversion or diversion of environmental control sites. An environmental control site in which an environmental control easement has been granted pursuant to this chapter may not be converted or diverted from purposes specified in the easement instrument or released from any restriction, limitation, or requirement specified in the easement instrument unless the conversion, diversion, or release is:

(1) protective of the public health, safety, and welfare and the environment as determined by the department or the United States environmental protection agency that initially approved the easement;

(2) permitted by the criteria for modification or termination imposed at the time of the creation of the easement; and

(3) approved in writing by the easement holder and any other person named in the easement instrument from whom approval is required.

History: **En. Sec. 5, Ch. 503, L. 1999.**

76-7-106. Conveyance or lease of environmental control sites. (1) A grantee of an environmental control easement acquired under this chapter may not convey or assign any of the easement rights that the grantee has acquired except to a federal public entity, a public body, or a qualified private organization authorized to hold environmental control easements under 76-7-204.

(2) A grantee of a conveyance pursuant to subsection (1) shall assume the responsibility for enforcing the environmental control easement as specified in the easement instrument and in 76-7-211.

History: **En. Sec. 6, Ch. 503, L. 1999.**

76-7-107. Public body powers. In connection with environmental control sites acquired or designated as environmental control easements for the purposes of this chapter, a public body may provide, arrange, or contract for the monitoring of the environmental control sites as necessary to ensure that the environmental control sites are being used only for the purposes permitted by the terms of the environmental control easement and are not being used in a manner that is prohibited or restricted by the terms of the environmental control easement.

History: **En. Sec. 7, Ch. 503, L. 1999.**

Part 2
Environmental Control Easements

76-7-201. Creation and approval of environmental control easements. (1) An environmental control easement may be created under this chapter only if the department or the United States environmental protection agency has approved the creation of an environmental control easement at an environmental control site to protect public health, safety, or welfare or the environment.

(2) An owner or an authorized representative of the owner of an environmental control site may apply for approval of a proposed environmental control easement to the department or the United States environmental protection agency.

(3) An owner or an authorized representative of the owner of an environmental control site that applies to the department for approval shall complete an environmental control easement application developed by the department.

(4) Upon receiving a completed application and following public notice, the department shall allow for a 30-day public comment period. Notice of the public comment period shall be

published in a newspaper of general circulation in the area of the proposed environmental control easement.

(5) Following the 30-day public comment period, the department shall promptly review the application and either approve the application or provide the applicant with a written statement of the reasons for the department's disapproval.

(6) If the application is disapproved for reasons that may be addressed by modification of the easement instrument or by changes to the proposed transaction, the applicant, in consultation with the department, may modify the proposed environmental control easement or the proposed transaction in a manner necessary to obtain department approval and resubmit the application for the department's approval.

(7) The department's approval must be evidenced by execution of the instrument creating the environmental control easement, the execution of a written statement evidencing the approval in recordable form, or any other method that reasonably substantiates the required approval.

History: En. Sec. 8, Ch. 503, L. 1999.

76-7-202. Duration of environmental control easements. An environmental control easement may be granted either in perpetuity or for a term of years. An environmental control easement may not be approved for a term of years unless it includes provisions that ensure that public health, safety, and welfare and the environment are protected beyond the expiration of the easement.

History: En. Sec. 9, Ch. 503, L. 1999.

76-7-203. Permissible easements. (1) An environmental control easement under this chapter may prohibit or limit the following activities or uses:

(a) constructing or placing of buildings, camping trailers, housetrailers, mobile homes, roads, or other structures on or above the ground;

(b) dumping or placing of soil, debris, or other wastes or substances as landfill or dumping or placing of trash, waste, or unsightly or offensive materials;

(c) removing or destroying trees, shrubs, or other vegetation or planting or allowing growth of specific types of vegetation, such as crops for human or animal consumption or undesirable vegetation;

(d) excavating, dredging, or removing of gravel, soil, rock, or other materials or substances;

(e) using the surface of the land in a particular manner, such as for agricultural, residential, commercial, or industrial uses;

(f) subdividing the land, as described in 76-3-103, 76-3-104, and 76-3-202;

(g) disturbing soil caps, soil surfaces, berms, drainage structures, or other structures or other activities that may cause erosion or migration of hazardous wastes or substances at or from the environmental control site;

(h) drilling or using water wells for potable or nonpotable purposes;

(i) other activities or uses detrimental to or interfering with the remediation or cleanup of the environmental control site or detrimental to the preservation of remedial structures, measures, or technologies employed at the environmental control site; and

(j) other activities or uses that may result in a risk or threat to the public health, safety, or welfare or the environment.

(2) An environmental control easement under this chapter may include or require the following:

(a) maintenance of environmental control site remedial structures or other remedial measures, such as soil surfaces, soil caps, berms, fences, or drainage improvements;

(b) rights in the holder of the easement or others for continuing access to the site as necessary to implement, operate, maintain, and monitor remedial work and technologies, including operation and maintenance, and to ensure implementation and enforcement of the requirements, restrictions, and limitations specified in the easement instrument;

(c) prompt notification to the holder of the easement or others of transfers of all or any portion of an environmental control site or interest in the site or of any proposed changes in land use at the site;

(d) compliance with all requirements of any applicable governmental order;

(e) arrangements for indemnification or for reimbursement of any costs and expenses of the easement holder or others or other methods of allocating costs and expenses for remedial actions, operations and maintenance, or other activities on the environmental control site or with respect to the site;

(f) other obligations that any federal public entity or other public body having jurisdiction over the property determines are necessary to implement, ensure noninterference with, or ensure the protection of remedial work performed under a governmental order; or

(g) other obligations that are necessary or advisable to reduce or eliminate risks or threats to the public health, safety, or welfare or the environment at environmental control sites.

History: En. Sec. 10, Ch. 503, L. 1999.

76-7-204. Environmental control easement conveyances. (1) The designated grantee of an environmental control easement granted under this chapter is one or more of the following entities:

(a) a federal public entity;

(b) the state of Montana, acting by and through the department or any other state agency;

(c) any other public body having jurisdiction over the environmental control site; or

(d) a qualified private organization.

(2) A grantee's acceptance of the easement interest and related obligations must be evidenced by the grantee's execution of the instrument creating the environmental control easement.

(3) Prior to or contemporaneously with the conveyance of an environmental control easement to a designated grantee, the environmental control site owner shall:

(a) obtain documents demonstrating that every person or entity holding an interest in the environmental control site or any part of the site, including without limitation each mortgagee, lienholder, lessee, and encumbrancer, irrevocably subordinates the entity's interest to the environmental control easement;

(b) record the documents required under subsection (3)(a) in the appropriate county; and

(c) submit those documents required under subsection (3)(a) to the designated grantee.

(4) An environmental control easement may not be separated from the land and survives foreclosure of a mortgage, lien, or other encumbrance, as well as tax sales and the issuance of a tax deed.

History: En. Sec. 11, Ch. 503, L. 1999.

76-7-205. Qualified private organizations. If the grantee or holder of an environmental control easement is a qualified private organization, then the organization has the following additional obligations:

(1) The organization shall provide to the state or federal agency that approved the environmental control easement pursuant to 76-7-201 an annual report on or before April 30 of each year providing a description of actions taken to monitor the environmental control site, the status of compliance with the environmental control easement, and any other information that the state or federal agency may require relating to compliance with the provisions of the environmental control easement.

(2) Within 15 days following the discovery of any material violation of the environmental control easement, the organization shall provide to the state or federal agency that approved the environmental control easement pursuant to 76-7-201 a written report setting forth the nature of the violation, the remedies that the grantee intends to undertake to correct the violation, and any other information that the state or federal agency may request.

(3) The organization shall notify, in writing, the state or federal agency that approved the environmental control easement pursuant to 76-7-201 of the organization's dissolution, the cessation of operations, or the occurrence of any other event that renders the organization incapable of performing its obligations under the terms of the environmental control easement.

History: En. Sec. 12, Ch. 503, L. 1999.

76-7-206. Assignability of easements. For the purpose of this chapter, an environmental control easement is assignable unless the instrument of conveyance or ownership expressly provides otherwise. An assignee must be qualified under the terms of this chapter to hold an environmental control easement. If an assignment is made in violation of the provisions of this section or in violation of the express terms of the instrument creating the easement, the assignment is void and the environmental control easement interests and obligations remain with the assignor.

History: En. Sec. 13, Ch. 503, L. 1999.

76-7-207. Coordination with local planning authority. (1) In order to minimize conflict with local comprehensive planning, the entity acquiring the environmental control easement shall provide a copy of the easement to the appropriate local planning authority for the county within which the land lies prior to or concurrently with recording.

(2) The requirement in subsection (1) to provide a copy of the environmental control easement to the local planning authority is only for the purposes of informing the authority of the easement.

(3) The failure to provide the environmental control easement to the local planning authority, as required in subsection (1), does not invalidate the easement.

History: En. Sec. 14, Ch. 503, L. 1999.

76-7-208. Recording and description of easement. (1) An environmental control easement must be recorded in the county where the property is located so as to effect the title in the manner of other conveyances of interest in the property and must describe the property subject to that easement by an adequate legal description or by reference to a recorded plat showing the property's boundaries.

(2) The county clerk and recorder shall, upon recording, place a copy of the environmental control easement in a separate file within the office of the county clerk and recorder and shall mail a copy of the easement to the department.

History: En. Sec. 15, Ch. 503, L. 1999.

76-7-209. Taxation of property subject to easement. (1) The value of the interest held by a federal public entity, a public body, or a qualifying private organization is exempt from property taxation.

(2) Expiration of an environmental control easement granted for a term of years may not result in a reassessment of the land for property tax purposes if the easement is renewed and the granting instrument reflecting the renewed easement is executed and properly filed not later than 15 days after the date of expiration.

History: En. Sec. 16, Ch. 503, L. 1999.

76-7-210. Easements to run with land. Notwithstanding 70-17-202 and 70-17-203(1) and (2), for the purposes of this chapter, an environmental control easement runs with the land, whether or not this fact is stipulated in the instrument creating the easement, and the easement binds the owner of the land and all successors and assigns.

History: En. Sec. 17, Ch. 503, L. 1999.

76-7-211. Easement enforcement. (1) Environmental control easements may be enforced by injunction, specific performance, other proceedings in equity or at law, or any other means specified in the instrument creating the easement. In addition to any right specified in the easement instrument, representatives of the holder of the environmental control easement are entitled to enter the land in a reasonable manner and at reasonable times to ensure compliance with the terms and conditions of the easement and to implement, operate, maintain, and monitor all remedial work and technologies.

(2) An environmental control easement is not unenforceable because of a lack of privity of estate or contract or a lack of benefit to particular land, because the easement is not an appurtenant easement, or because the easement is an easement in gross.

(3) An environmental control easement is enforceable against the owner of the fee and any persons or entities holding or claiming an interest in the property regardless of whether the interest is equal to or less than the whole fee estate.

(4) A delay or failure to enforce in any specific instance any violation of an environmental control easement does not preclude or waive the right to enforce against that violation or any other breach.

(5) The easement holder may waive, in a writing executed by the easement holder, any single violation of the terms of the environmental control easement without waiving any other prior or subsequent violation whether of the same or different nature. The easement holder may remedy a violation without waiving the violation remedied and is entitled to recover from the environmental control site owner all costs, including but not limited to direct and indirect costs of remedying the violation and costs of any other remedies provided by law or in the easement instrument.

(6) A claim or cause of action arising out of or relating to a violation of a term or provision of an environmental control easement must be filed in a court of appropriate jurisdiction within 10 years from the date upon which the party alleging violation of the easement had actual knowledge of the violation.

History: En. Sec. 18, Ch. 503, L. 1999.

76-7-212. Who may enforce easement. (1) The owner of any real property designated as a benefited property in the instrument creating the environmental control easement or the occupant of the benefited real property may maintain an action for enforcement of the easement.

(2) A public body or a qualified private organization holding an environmental control easement shall enforce the provisions of the easement.

(3) A person or entity specifically named as a beneficiary in the instrument creating the environmental control easement may enforce the provisions of the easement to the extent provided in the instrument.

History: En. Sec. 19, Ch. 503, L. 1999.

76-7-213. Liability. (1) The creation and approval of an environmental control easement do not waive or release any statutory liability or other obligation of a person for hazardous wastes or substances at an environmental control site. A federal public entity or public body may enforce any applicable law or obligation without regard to any allocation of liability in an easement instrument and without regard to exhaustion of remedies against any party to an easement instrument.

(2) An owner of a site to which the environmental control easement applies and any lessee or licensee of the land are liable for any violation of the provisions of the easement and are liable for abating the violation and for all damages, costs, and attorney fees arising from or attributable to the violation.

(3) Notwithstanding any other provision of law, the holder or other named beneficiary of an environmental control easement or other person enforcing the easement is not liable for hazardous wastes or substances at the environmental control site or for the release of a hazardous or deleterious substance from a facility at the site based upon its ownership of the easement or based upon its maintenance, monitoring, enforcement, or other actions with respect to the easement.

History: En. Sec. 20, Ch. 503, L. 1999.

76-9-105. Closure of shooting ranges — limitations — relocation cost.

Part 1
Protection of Shooting Range Location and Investments

76-9-101. Policy. It is the policy of the state of Montana to provide for the health, safety, and welfare of the citizens of the state by promoting the safety and enjoyment of the shooting sports among the citizens of the state and by protecting the locations of and investment in shooting ranges for shotgun, archery, rifle, and pistol shooting.

History: En. Sec. 1, Ch. 415, L. 1991.

76-9-102. Prohibitions. (1) Standards adopted by a state agency or unit of local government to limit levels of noise that may occur in the outdoor atmosphere may not apply to shooting ranges.

(2) Standards adopted by a state agency or unit of local government promulgated pursuant to Title 75 and concerning pollution by lead, copper, or brass may not limit or prohibit the operation of a shooting range because of lead, copper, or brass deposition resulting from shooting activities.

History: En. Sec. 2, Ch. 415, L. 1991.

76-9-103. Planning — effect on shooting ranges. The laws of this state concerning planning, master plans, or comprehensive plans may not be construed to authorize an ordinance, resolution, or rule that would:

(1) prevent the operation of an existing shooting range as a nonconforming use;

(2) prohibit the establishment of new shooting ranges, but it may regulate the construction of shooting ranges to specified zones; or

(3) prevent the erection or construction of safety improvements on existing shooting ranges.

History: En. Sec. 3, Ch. 415, L. 1991.

76-9-104. Zoning — effect on shooting ranges. A planning district growth policy, recommendation, resolution, rule, or zoning designation may not:

(1) prevent the operation of an existing shooting range as a nonconforming use;

(2) prohibit the establishment of new shooting ranges, but it may regulate the construction of shooting ranges to specified zones; or

(3) prevent the erection or construction of safety improvements on existing shooting ranges.

History: En. Sec. 4, Ch. 415, L. 1991; amd. Sec. 33, Ch. 582, L. 1999.

76-9-105. Closure of shooting ranges — limitations — relocation cost. (1) Except as provided in subsection (2), an established shooting range may not be prevented from operation by a state agency, unit of local government, or court unless the range presents a clear and provable safety hazard to the adjacent population.

(2) If a pressing public need exists because of incompatibility with nearby population or land use, an established shooting range may be relocated by an agency of state government, unit of local government, or court, but only if all of the following conditions are met:

(a) pressing public need is documented through hearings, testimony, and a clear and precise statement of need by the agency, unit of local government, or court involved;

(b) the agency or unit of local government obtaining the closure pays the appraised cost of the land together with improvements to the operators of the shooting range. In return the shooting range operators shall relinquish their interest in the property to the agency or unit of local government obtaining the closure.

(3) If a shooting range presents a clear and provable safety hazard to adjacent population, the range may be suspended from operation if:

(a) reasonable notice and opportunity to respond are afforded the range operators; and

(b) reasonable opportunity is afforded the range operators to correct any safety defects.

(a) encourage the growth of a statewide sustainable wildcrafting industry that encourages stewardship of the wild plant natural resources of the state by requiring a person who is wildcrafting for commercial purposes to obtain a permit or permission in a written form before the person can wildcraft and by providing enforcement procedures;

(b) require buyers to be accountable for wildcrafted plant material that they purchase by requiring recordkeeping; and

(c) establishing enforcement procedures.

(2) The state recognizes its limited jurisdiction within the Indian reservations in Montana and acknowledges and respects the government-to-government relationship between Montana and the tribes within its borders. It is the legislature's intent that this part be implemented within current jurisdictional limitations. The tribes are invited to enter into state-tribal cooperative agreements with Montana to provide for broader implementation.

(a) making wise land use decisions;

(b) preparing plans for cities, towns, counties, planning boards, farmers, foresters, industrial developers, and residential developers;

(c) locating and designing buildings, highways, reservoirs, and recreation areas; and

Part 1
Natural Areas

76-12-101. Short title. This part shall be known and may be cited as the "Montana Natural Areas Act of 1974".

History: En. 81-2701 by Sec. 1, Ch. 254, L. 1974; R.C.M. 1947, 81-2701.

76-12-102. Legislative findings. The legislature finds that:

(1) in the expanses of Montana there are natural areas possessing significant scenic, educational, scientific, biological, and/or geological values or areas possessing these characteristics to a degree promising their restoration to a natural state;

(2) since the development of these areas is an irreversible commitment of a finite and diminishing resource of fundamental importance, selected areas should be preserved for the benefit of this and future generations;

(3) currently there are no regulations promulgated by the state or local governments to insure adequate protection for natural areas;

(4) it is necessary to establish a process for developing a system of natural areas and to encourage public and private participation in the establishment of a natural areas system for the benefit of the citizens of the state; and

(5) designations of natural areas should first consider protected natural features in publicly owned and privately dedicated lands, such as nature preserves, natural areas, parks, and wilderness areas, and should avoid duplication of these features.

History: En. 81-2702 by Sec. 2, Ch. 254, L. 1974; R.C.M. 1947, 81-2702(part); amd. Sec. 1, Ch. 460, L. 1987.

76-12-103. Statement of policy. (1) It is the intention of the legislature to establish a system for the protection of natural or potentially natural areas in order to preserve their natural ecosystem integrity in perpetuity.

(2) In this connection, the legislature recognizes the fact that the school trust lands are held in trust for the support of education and for the attainment of other worthy objects helpful to the well-being of the people of the state; that it is the duty of the board of land commissioners to administer this trust so as to secure the largest measure of legitimate and reasonable

advantage to the state; and hereby declares the preservation of natural areas, whether trust or other lands, for the enjoyment and inspiration of future generations to be an object worthy of legislative action helpful to the well-being of the people of the state and also declares that the preservation of natural areas on state trust land has sufficient value to present and future education to meet the state's obligation for the disposition and utilization of trust lands as specified in the Enabling Act.

(b) an important or rare ecological or geological feature or other rare or significant natural feature worthy of preservation for scientific, educational, or ecological purposes.

Protection of Forest Resources

76-13-101. Purpose. (1) It is the purpose of this part and part 2 to provide for the protection and conservation of forest resources, range, and water; the regulation of streamflow; and the prevention of soil erosion. It is further the purpose of this part and part 2 to more adequately promote and facilitate the cooperation, financial and otherwise, between the state and public and private agencies which are associated in such work.

(2) To achieve the conservation of forest and watershed resources, the legislature encourages the use of best management practices in timber sale planning, associated road construction and reconstruction, timber harvesting, site preparation, and related activities and establishes a process to ensure that information on best management practices is provided to owners and operators engaged in forest practices on private land.

(1) Before each forest fire season, all persons, firms, or corporations creating or responsible for mill waste within the forest areas shall treat, dispose of, remove, or reduce the hazards created so that the accumulation of sawmilling waste does not constitute a fire hazard.

(2) A sawmill located within or contiguous to forest lands may not accumulate in one pile sawdust in excess of an amount resulting from the sawing of 500,000 feet log scale of sawlogs. However, a larger sawdust pile may be accumulated when there is no reasonable danger of fire therefrom and a permit for the additional accumulation is granted by the department. If burning is the disposal method elected, each sawdust pile so accumulated shall be prepared for burning by cribbing the base of each pile with slabs and burned in accordance with rules adopted by the department.

The notification may be provided as part of the notification made with respect to an agreement under 76-13-408.

(2) (a) Except as provided in subsection (3), within 5 working days, but not exceeding 7 calendar days, of receiving notification of forest practices, the department shall mail to the operator and, if an address has been provided, to the owner:

(i) a receipt of notification;

(ii) information on best management practices for forestry;

(iii) information on conservation district permit requirements related to stream crossings; and

(iv) any other information the department believes would assist the operator or the owner with conducting forest practices.

(b) The receipt of notification must include a statement that:

(i) forest practices may proceed; or

(ii) an onsite consultation is required prior to conducting forest practices.

(3) (a) An owner may submit to the department a notice providing an annual, semiannual, or quarterly operating plan that indicates the estimated starting date of forest practices for each timber sale planned by the owner during the operating period. The plan must be submitted no less than 15 days before the beginning of the operating period covered.

(b) Upon receipt of an operating plan, the department may:

(i) meet with the owner to review the proposed timber sales, discuss watershed concerns, and schedule onsite consultations at appropriate sites; or

(ii) provide a receipt of notification, as described in subsection (2)(b), for individual timber sales.

(c) If the department requires an onsite consultation for any of the timber sales, it shall notify the owner of this requirement as soon as possible but no less than 10 calendar days prior to the estimated starting date of forest practices associated with the timber sale. The onsite consultation must then be scheduled according to the provisions of 76-13-132(2) through (4).

(c) the department has sufficient resources to conduct the consultation.

(2) The department shall schedule an onsite consultation at a time mutually agreeable to the operator, the owner (if the owner can be contacted and wishes to participate), and the department. Unless otherwise agreeable to the operator and a participating owner, a consultation must be held no later than:

(a) 10 calendar days after the mailing of the notice by the department, if the site is accessible; or

(b) if the site is temporarily inaccessible due to road conditions, weather conditions, or other factors, 10 calendar days after the operator indicates that the site is accessible.

(3) The onsite consultation must include representatives of the department, the operator, and, if the owner desires representation, the owner. Representatives of the department of environmental quality, the department of fish, wildlife, and parks, and the local conservation district may also participate but shall meet the consultation schedule established under 76-13-131(3)(c) or subsection (2) of this section.

(4) If the department and the operator are not able to schedule an onsite consultation within the time limits provided in subsection (2)(a) or (2)(b) or at another mutually agreeable time, the requirement for a consultation is terminated. The operator may then proceed with forest practices immediately upon the expiration of the time limits provided in subsection (2)(a) or (2)(b).

(1) The onsite consultation provided for in 76-13-132 is intended only for the purpose of providing information to owners and operators and does not confer upon the department or any other agency of state or local government authority to compel an owner or operator to undertake or refrain from undertaking specific management practices that are not otherwise regulated by law or rule.

(2) The department does not incur any obligation or liability by virtue of a decision to conduct or not conduct an onsite consultation.

76-13-201. Duty of owner to protect against fire. (1) An owner of land classified as forest land by the department shall protect against the starting or existence and suppress the spread of fire on that land. This protection and suppression must be in conformity with reasonable rules and standards for adequate fire protection adopted by the department.

The owner of the land shall pay the charge approved by the

department in accordance with part 1 and this part to the department of revenue. Payments to the department of revenue are due on or before November 30 of each year.

76-13-408. Fire hazard reduction agreement and bond — bond release and penalty — exemption. (1) Before cutting any forest product, constructing or reconstructing any road in contemplation of cutting any forest product, or conducting timber stand improvement, such as but not limited to precommercial thinning, weeding, or pruning, upon private forest lands within the state, the person conducting the work must be issued an exemption certificate by the department or shall provide for the reduction or management of the fire hazard to be created, except where a minimum slash hazard would exist, by entering into a fire hazard reduction agreement or a master fire hazard reduction agreement with the department, providing for the full and faithful compliance with all requirements under this part and the faithful reduction or management of the fire hazard in the manner prescribed by law and by rules adopted under this part.

(2) Either the person conducting the work or the purchaser, as provided in 76-13-409(2), shall post a bond to the state in a form and for an amount as may be prescribed by the department, but the amount may not exceed $6 for each 1,000 board feet (log scale) or the equivalent if forest products other than logs are cut. Bond amounts for master fire hazard reduction agreements are calculated to cover the potential cost to the department for fire hazard abatement in case of default and are based on the average annual volume of uncompleted abatement. Master fire hazard reduction agreement bonds are to be administered as nonsite-specific umbrella bonds, for which the entire bond or any portion of the bond may be collected to pay for unabated fire hazards on any or all sites covered by the bond. The department shall review master fire hazard reduction agreement bond amounts at least annually. The bonds must be adjusted according to the volume of timber harvested and the level of compliance of the bond provider.

(3) The agreement must provide that:

(a) all fire hazard reduction or management work comprising nonburning methods and preparations for burning must be completed within 18 months of commencement of cutting in the area covered by the agreement; and

(b) all burning work must be completed as specified in the agreement and in compliance with rules adopted under this part.

(4) The bond must be released upon the issuance of the certificate of clearance. At the request of the fire hazard reduction agreement holder, cash bonds for fire hazard reduction agreements exceeding 200,000 board feet, or the equivalent, must be partially released upon satisfactory completion of slash piling if the fire hazard reduction agreement holder has a record of compliance with the provisions of 76-13-407 or this section. The department may inspect the sites for which release or partial release is being requested, or it may rely on the submittal of a signed affidavit and relevant site photographs provided by the person posting the bond. A person that submits a fraudulent affidavit or photographs is subject to the penalty provisions of 45-7-202, may have other fire hazard reduction agreements revoked, or may be denied the issuance of fire hazard reduction agreements in the future.

Compiler's Comments

2001 Amendment: Chapter 234 in (1) near middle after "fire hazard to be created" inserted "except where a minimum slash hazard would exist"; and inserted (5) exempting activity regarding the creation of a minimum slash hazard from the provisions of Title 76, chapter 13, part 4. Amendment effective October 1, 2001.

76-13-409. Duty of purchaser to ensure compliance — statement — bond. (1) The initial purchaser of forest products that have been cut or are about to be cut from any private forest lands within the state shall, before making the purchase or contract to purchase, determine that the person engaged or about to engage in the cutting of these forest products has provided for the reduction or management of the fire hazard by entering into a fire hazard reduction agreement or that the person has been issued an exemption certificate as provided in 76-13-408.

(2) The purchaser shall withhold sufficient money to meet the requirements of the bond provided for in 76-13-408 plus the fees for administration, inspection, and enforcement by the department as provided in the fire hazard reduction agreement. The purchaser shall transmit all money and fees that are withheld and a report of volumes of products purchased to the department on or before the 15th day of the following month, clearly identifying by number the fire hazard reduction agreement to which the withheld money, fees, and product volumes pertain. The purchaser shall keep accurate records of the purchase and the amounts withheld, which may be inspected by the department at any reasonable time.

(3) If forest products are not received or purchased in a given month, a report showing a zero balance and stating that products were not purchased must be submitted to the department.

(4) The department may require the purchaser to post a bond to the state in a form and for an amount as may be prescribed by the department to ensure faithful compliance with this part.

History: En. Sec. 3, Ch. 207, L. 1959; amd. Sec. 29, Ch. 253, L. 1974; amd. Sec. 4, Ch. 522, L. 1975; R.C.M. 1947, 28-406; amd. Sec. 3, Ch. 670, L. 1979; amd. Sec. 8, Ch. 513, L. 1989; amd. Sec. 4, Ch. 279, L. 1999.

76-13-410. Failure to comply. (1) If a person fails, refuses, or neglects to properly reduce or manage the fire hazard in accordance with the requirements of 76-13-407 and 76-13-408, the person may be enjoined from further cutting, clearing, and construction operations until the department has found the person to be in compliance with 76-13-407 and 76-13-408. The department may initiate the proceedings and may obtain a temporary restraining order, injunction, or writ of mandate. The proceedings must be conducted in the district court of the county where the land is located.

(2) If a person claims to have a minimum slash hazard but the department's inspection determines otherwise, the hazard reduction requirements of this part apply.

(3) If a person fails to comply with 76-13-407 or 76-13-408 and fails to comply within 30 days after being notified to do so by the department, the department may complete, direct, or authorize the fire hazard reduction or management at the expense of the contractor or of the owner of the timber or other forest products cut or produced from the land upon which the unabated fire hazard remains.

(4) The cost and expense of the fire hazard reduction or management work, plus 20% of the cost and expense of the work as a penalty, constitute a lien upon the forest products cut or produced from the land and upon the real and personal property of the contractor. If payment of the sum demanded is not made to the department within 15 days of its written demand, the performance bond required by 76-13-408 and 76-13-409, upon notice to the contractor, must be automatically forfeited to the extent needed to cover the cost and expenses of reducing or managing the fire hazard, plus a penalty of 20% of the cost and expenses. If the bond is insufficient to cover the cost, expenses, and penalty, the department may bring legal action on behalf of the state to recover the cost, expenses, and penalty.

(5) In addition to other remedies provided in this part, the department may, after notice, require a person to show cause why the department should not withhold the issuance of any further fire hazard reduction agreement or exemption certificate to a person that:

(a) harvests timber without a valid fire hazard reduction agreement; or

(b) has forfeited the performance bond on a fire hazard reduction agreement within the 2 preceding years and fails, refuses, or neglects to properly reduce or manage the fire hazard in accordance with 76-13-407 or 76-13-408 within 30 days after being notified by the department.

(6) If the person fails to show sufficient cause as required by subsection (5), the department may withhold the issuance of any further fire hazard reduction agreement or exemption certificate for a period not to exceed 3 years.

History: En. Sec. 4, Ch. 207, L. 1959; amd. Sec. 30, Ch. 253, L. 1974; amd. Sec. 5, Ch. 522, L. 1975; R.C.M. 1947, 28-407(1) thru (3); amd. Sec. 4, Ch. 670, L. 1979; amd. Sec. 9, Ch. 513, L. 1989; amd. Sec. 5, Ch. 279, L. 1999; amd. Sec. 3, Ch. 234, L. 2001.

When the department makes a determination of faithful compliance by the contractor with this part, the rules adopted under 76-13-403, and the fire hazard reduction agreement, the contractor must be issued a certificate of clearance by the department and be relieved of any further liability or responsibility for fire hazard reduction or management under the fire hazard reduction agreement.

76-13-413. Failure to submit withholding — remedy. (1) If a purchaser does not submit withheld money and required reports on or before the 15th day of the following month as provided in 76-13-409, he must be notified by certified mail that he is in noncompliance and be given 15 days to submit all money and reports then due. If he fails to submit all money due within the required time, the department may initiate a lien upon the real property of the purchaser and may initiate proceedings to enjoin further processing of all wood products until all money due is paid in full and all required reports are submitted.

(2) If payment and reports are not received by the department within the 15-day period after notification as provided in subsection (1), a penalty of 5% of the payment amount due must be assessed. The department may abate the penalty if the purchaser establishes that the failure to submit the amount due or the reports as required was due to reasonable cause and was not due to neglect on his part. The department, in addition to the penalty, may impose interest at the rate of 10% a year on any balance remaining unpaid.

(3) All money withheld by a purchaser for the contractor's bond and for department fees is considered to be excise taxes withheld for the benefit of the state within the meaning of 11 U.S.C. 507.

Part 1
General Provisions

76-15-101. Legislative determinations. It is hereby declared, as a matter of legislative determination:

(1) that the farm and grazing lands of the state of Montana are among the basic assets of the state and that the preservation of these lands is necessary to protect and promote the health, safety, and general welfare of its people; that improper land use practices have caused and have contributed to and are now causing and contributing to a progressively more serious erosion of the farm and grazing lands of this state by wind and water; that the breaking of natural grass, plant, and forest cover has interfered with the natural factors of soil stabilization, causing loosening of soil and exhaustion of humus and developing a soil condition that favors erosion; that the topsoil is being blown and washed out of fields and pastures; that there has been an accelerated washing of sloping fields; that these processes of erosion by wind and water speed up with removal of absorptive topsoil, causing exposure of less absorptive and less protective but more erosive subsoil; that failure by any land occupier to conserve the soil and control erosion upon his lands causes a washing and blowing of soil and water from his lands onto other lands and makes the conservation of soil and control of erosion on such other lands difficult or impossible;

(2) that the consequences of such soil erosion in the form of soil blowing and soil washing are the silting and sedimentation of stream channels, reservoirs, dams, and ditches; the loss of fertile soil material in dust storms; the piling up of soil on lower slopes and its deposit over alluvial plains; the reduction in productivity or outright ruin of rich bottom lands by overwash of poor subsoil material, sand, and gravel swept out of the hills; deterioration of soil and its fertility, deterioration of crops and range cover grown thereon, and declining acre yields despite development of scientific processes for increasing such yields; loss of soil and water which causes destruction of food and cover for wildlife; a blowing and washing of soil into streams which silts over spawning beds and destroys water plants, diminishing the food supply of fish; a diminishing of the underground water reserve, which causes water shortages, intensifies periods of drought, and causes crop and range vegetation cover failures; and increase in the speed and volume of rainfall runoff, causing severe and increasing floods which bring suffering, disease, and death; impoverishment of families attempting to operate eroding and eroded lands; damage to roads, highways, railways, farm buildings, and other property from floods and from dust storms; and losses in municipal water supply, irrigation developments, farming, and grazing;

(3) that to conserve soil resources and control and prevent soil erosion and prevent floodwater and sediment damages and further the conservation, development, utilization, and disposal of water, it is necessary that land use practices contributing to soil wastage and soil erosion be discouraged and discontinued and appropriate soil-conserving land use practices and works of improvement for flood prevention and the conservation, development, utilization, and disposal of water be adopted and carried out; that among the procedures necessary for widespread adoption are the carrying on of engineering operations such as the construction of

water spreaders, terraces, terrace outlets, check dams, desilting basins, floodwater retarding structures, channel improvements, floodways, land drainage, dikes, ponds, ditches, and the like; the utilization of strip cropping, lister furrowing, contour cultivating, and contour furrowing; land drainage; land irrigation; seeding and planting of waste, sloping, abandoned, or eroded lands to water-conserving and erosion-preventing plants, trees, and grasses; forestation and reforestation; rotation of crops, restriction of number of livestock grazed, deferred grazing, rodent eradication; soil stabilization with trees, grasses, legumes, and other thick-growing, soil-holding crops; retardation of runoff by increasing absorption of rainfall; and retirement from cultivation of steep, highly erosive areas and areas now badly gullied or otherwise eroded.

If it appears to the department after reviewing the record of the hearing that it may be desirable to include within the proposed district territory outside of the area within which due notice of the hearing has been given, the department shall adjourn the hearing and shall cause due notice of a further hearing to be given throughout the entire area considered for inclusion in the district. The further hearing must be held by the department.

(2) If the department determines after the hearing, after due consideration of the relevant facts, that there is no need for a conservation district to function in the territory considered at the hearing, it shall make and record that determination and shall deny the petition. After 6 months have expired from the date of the denial of a petition, subsequent petitions covering the same or substantially the same territory may be filed and a new hearing held and determinations made on the petitions.

76-15-205. Criteria for determining need. In making the determinations and in defining the boundaries, the department shall consider the topography of the area considered and of the state, the composition of soils in the area, the distribution of erosion, the prevailing land use practices, the desirability and necessity of including within the boundaries the particular lands under consideration and the benefits those lands may receive from being included within the boundaries, the relation of the proposed area to existing watersheds and agricultural regions and other conservation districts already organized or proposed for organization under this chapter, and such other physical, geographical, and economic factors as are relevant, having due regard to the legislative determination set forth in 76-15-101 and 76-15-102. The territory to be included within the boundaries need not be contiguous.

76-15-206. Determination of administrative practicability of district. After the department has made and recorded a determination that there is need in the interest of the public health, safety, and welfare for the organization of a district in a particular territory and has defined the boundaries of the district, it shall consider the question whether the operation of a district within the boundaries with the powers conferred upon conservation districts in this chapter is administratively practicable and feasible.

History: **En. Sec. 5, Ch. 72, L. 1939; amd. Sec. 3, Ch. 73, L. 1961; amd. Sec. 4, Ch. 431, L. 1971; amd. Sec. 90, Ch. 253, L. 1974; amd. Sec. 1, Ch. 18, L. 1977; R.C.M. 1947, 76-105(part); amd. Sec. 274, Ch. 418, L. 1995.**

76-15-207. Referendum on question of creating district. (1) To assist the department in the determination of administrative practicability and feasibility, the department shall, within a reasonable time after entry of the finding that there is need for the organization of the proposed district and the determination of the boundaries of the district, hold a referendum within the proposed district upon the proposition of the creation of the district and cause due notice of the referendum to be given.

(2) The question must be submitted by ballots upon which the words "For creation of a conservation district of the lands below described and lying in the county(ies) of ...., ..., and ...." and "Against creation of a conservation district of the lands below described and lying in the county(ies) of .... and ...." must appear, with a square before each proposition and a direction to insert an "X" mark in the square before one or the other of the propositions as the voter may favor or oppose creation of the district. The ballot must set forth the boundaries of the proposed district as determined by the department.

(3) All qualified electors within the boundaries of the territory, as determined by the department, are eligible to vote in the referendum.

(2) If more than twice the number of candidates are nominated than the number to be elected at the general election, the registrar shall give due notice of a nominating election to be held for the selection of candidates for supervisor to appear on the next general election ballot. This nominating election may be held in conjunction with the state primary election.

The ballots must be delivered to the election judges in those precincts that contain registered electors prior to each general election and each primary election, if necessary. The election judges and other election officials

in the precincts shall submit the ballots to qualified electors, conduct the election, and tabulate the results of the election in the manner provided in Title 13.

(5) (a) Except as provided in subsection (5)(b), if the number of candidates nominated is equal to or less than the number of positions to be elected, the election administrator shall give notice that an election will not be held.

(b) The governing body may require that an election be held if, not more than 10 days after the close of filing by candidates, the governing body passes a resolution to hold an election and notifies the election administrator.

(1) setting forth:

(a) the adoption of the ordinance prescribing land use regulations;

(2) In all cases where the person in possession of lands who shall fail to perform such work, operations, or avoidances shall not be the owner, the owner of such lands shall be joined as party defendant.

(3) The court may dismiss the petition, or it may require the defendant to perform the work, operations, or avoidances and may provide that, upon the failure of the defendant to initiate such performance within the time specified in the order of the court and to prosecute the same to completion with reasonable diligence, the supervisors may enter upon the lands involved and perform the work or operations or otherwise bring the condition of such land into conformity with the requirements of the regulations and recover the costs and expenses thereof, with interest at the rate of 10% a year, from the defendant.

(1) Any qualified elector may file a petition with the board of adjustment alleging that there are great practical difficulties or unnecessary hardship in the way of his carrying out upon his lands the strict letter of the land use regulations prescribed by ordinance approved by the supervisors and praying the board to authorize a variance from the terms of the land use regulations in the application of the regulations to the lands occupied by the petitioner.

(2) Copies of the petition shall be served by the petitioner upon the chairman of the supervisors of the district within which his lands are located and upon the department.

(2) The supervisors of the district and the department are entitled to appear and be heard at the hearing. 76-15-725. Board decision. (1) If, upon the facts presented at the hearing, the board of adjustment determines that there are great practical difficulties or unnecessary hardship in the way of applying the strict letter of any of the land use regulations upon the lands of the petitioner, it shall make and record that determination and shall make and record findings of fact as to the specific conditions which establish the great practical difficulties or unnecessary hardship.

(2) Upon the basis of the findings and determination, the board of adjustment may order a variance from the terms of the land use regulations in their application to the lands of the petitioner that:

(a) will relieve the great practical difficulties or unnecessary hardship;

(b) will not be contrary to the public interest; and

(c) will be such that the spirit of the land use regulations is observed, the public health, safety, and welfare is secured, and substantial justice is done.

History: En. Sec. 11, Ch. 72, L. 1939; amd. Sec. 10, Ch. 431, L. 1971; amd. Sec. 93, Ch. 253, L. 1974; amd. Sec. 53, Ch. 439, L. 1975; R.C.M. 1947, 76-111(part); amd. Sec. 22, Ch. 266, L. 1979; amd. Sec. 290, Ch. 418, L. 1995.

76-15-726. Appeal to district court from board decision. (2) A copy of the petition must immediately be served upon the parties to the hearing before the board of adjustment, and after service the party seeking review shall file in the court a transcript of the entire record in the proceedings, certified by the board of adjustment, including the documents and testimony upon which the order complained of was entered and the findings, determination, and order of the board of adjustment.

76-15-727. Court proceedings. (1) Upon the filing, the court shall cause notice of the filing to be served upon the parties, and the court has jurisdiction of the proceedings and of the questions determined or to be determined in the proceedings, may grant temporary relief as it considers just and proper, and make and enter a decree enforcing, modifying and enforcing as modified, or setting aside, in whole or in part, the order of the board of adjustment.

(2) A contention that is not urged before the board of adjustment may not be considered by the court unless the failure or neglect to urge the contention is excused because of extraordinary circumstances. The findings of the board of adjustment as to the facts, if supported by evidence, are conclusive.

(3) If a party applies to the court for leave to produce additional evidence and shows to the satisfaction of the court that the evidence is material and that there are reasonable grounds for the failure to produce the evidence in the hearing before the board of adjustment, the court may order the additional evidence to be taken before the board of adjustment and to be made a part of the transcript. The board of adjustment may modify its findings as to the facts or make new findings, taking into consideration the additional evidence taken and filed, and it shall file the modified or new findings which, if supported by evidence, are conclusive and shall file with the court its recommendations, if any, for the modification or setting aside of its original order.

(4) The jurisdiction of the court is exclusive and its judgment and decree are final, except that they are subject to review in the same manner as are other judgments or decrees of the court.

Part 8

Alteration and Termination of Conservation Districts

76-15-801. Change of district name. Petitions for changing the name of a district organized under this chapter may be filed with the department. The petition shall be signed by a majority of the district supervisors and shall state the present name of the district and the proposed new name. If the department determines that the proposed new name is not identical with or so similar to that of any other district in the state as to lead to confusion or uncertainty, it shall present a statement of that determination to the secretary of state, who shall issue to the district a certificate, under the seal of the state, evidencing the change of name of the district. Upon the issuance of the certificate, the supervisors of the district shall cause due notice to be given of the change of the name of the district.

History: En. 76-117 by Sec. 1, Ch. 46, L. 1951; amd. Sec. 1, Ch. 41, L. 1959; amd. Sec. 13, Ch. 431, L. 1971; amd. Sec. 96, Ch. 253, L. 1974; R.C.M. 1947, 76-117(1).

76-15-802. Procedure to add territory to a district. Petitions for including additional territory within an existing district may be filed with the department, and the proceedings provided for in part 2 in the case of petitions to organize a district shall be followed in the case of petitions for the inclusion. The department shall prescribe the form for the petitions, which shall be as nearly as may be in the form prescribed in part 2 for petitions to organize a district. Where the total number of qualified electors in the area proposed for inclusion is less than 10, the petition may be filed when signed by a majority of the qualified electors of the area, and in that case no referendum need be held. In referenda upon petitions for the inclusion, all qualified electors within the proposed additional area are eligible to vote.

History: En. Sec. 5, Ch. 72, L. 1939; amd. Sec. 3, Ch. 73, L. 1961; amd. Sec. 4, Ch. 431, L. 1971; amd. Sec. 90, Ch. 253, L. 1974; amd. Sec. 1, Ch. 18, L. 1977; R.C.M. 1947, 76-105(10).

76-15-803. Combination or division of districts. (1) A petition may be filed with the department for the division of any district, for the combination of any two or more districts, or for the division of a district and the combination of any divided part of a district with any other district. Any or all of these actions may be initiated by the filing of a single petition with the department. The petition must be signed by a majority of the members of each of the governing bodies of the affected districts. The department shall prescribe the form for the petition. When a petition is filed, the department shall within 30 days give notice of a public hearing on the petition. All qualified electors within the affected districts and all other interested parties are entitled to attend the hearing and be heard. After the hearing, the department shall determine from the hearing record whether the proposed division, the combination, or the division and combination of territory is administratively practicable and feasible. In making the determination, the department shall give due regard to the legislative determinations set forth in 76-15-101 and 76-15-102 and to the considerations enumerated in 76-15-201 through 76-15-216, to the extent applicable, relative to determining the practicability and feasibility of creating a district.

(2) If the department determines that the proposed division, combination, or division and combination is administratively practicable and feasible, the department shall effect the proposed division, combination, or division and combination by filing with the secretary of state a statement certifying the changes made in the boundaries of the affected districts, together with any change in the name of the districts. If the determination is in the negative, the department shall make and record that determination and shall deny the petition. After 6 months from the denial of the petition, a new petition may be filed.

(3) When a district is divided, the supervisors of the district shall allocate the property, rights, and liabilities (including contractual obligations) of the district among the resulting parts of the district, giving due consideration to the proportionate size of each divided part, the number of qualified electors and operating units, the degree and extent of soil erosion in the district, and other relevant factors. A statement of the allocation must be filed with the department within 30 days after the notification of the board's determination in favor of the division of the district. If the supervisors fail to make or to agree upon the allocation, the division must be made by the department after a hearing as the department considers necessary and with due regard for the standards set out in this subsection for making the allocations.

76-15-804. Petition to discontinue all or part of district. (1) At any time after 5 years after the organization of a district under this chapter, 10% or more of the qualified electors within the boundaries of the district may file a petition with the department requesting the termination of the operations of the district or a part of the district and the discontinuance of the existence of the district or that part of the district.

(2) The department may conduct public meetings and public hearings upon the petition that are necessary to assist it in the consideration of the petition.

76-15-805. Referendum on question of discontinuance. (1) Within 60 days after the petition has been received by the department, it shall give due notice of the holding of a referendum and shall supervise the referendum and issue appropriate regulations governing the conduct thereof. The question is to be submitted by ballots upon which the words "For terminating the existence of the .... (name of the conservation district or part of the district to be here inserted)" and "Against terminating the existence of the .... (name of the conservation district or part of the district to be here inserted)" shall appear with the square before each proposition and a direction to insert an "X" mark in the square before one or the other of the propositions as the voter may favor or oppose discontinuance of the district or a part of the district.

(2) All qualified electors within the boundaries of the district are eligible to vote in the referendum. No informalities in the conduct of the referendum or in any matters relative thereto shall invalidate the referendum or the result thereof if notice thereof is given substantially as herein provided and the referendum is fairly conducted.

76-15-806. Decision in case of petition for discontinuance of entire district. (1) In the case of petitions for discontinuance of a district, the department shall publish the result of the referendum and shall consider and determine whether the continued operation of the district within the defined boundaries is administratively practicable and feasible.

(2) If the department determines that the continued operation of the district is administratively practicable and feasible, it shall record that determination and deny the petition.

(3) The supervisors shall file an application, duly verified, with the secretary of state for the discontinuance of the district or part of the district and shall transmit with the application the certificate of the department, setting forth the determination of the department that the continued operation of the district or part of the district is not administratively practicable and feasible. The application must state that the property of the district or part of the district has been disposed of and the proceeds paid to the treasury as provided in 76-15-804 through 76-15-810 and must set forth a full accounting of the properties and proceeds of the sale.

(4) The secretary of state shall issue to the supervisors a certificate of dissolution and shall record the certificate in an appropriate book of record in the secretary of state's office.

(2) All contracts previously entered into, to which the district or supervisors are parties, remain in effect for the period provided in those contracts. The department shall be substituted for the district or supervisors as party to the contracts if the total district is discontinued. In this case the department is entitled to all benefits and subject to all liabilities under the contracts and has the same right and liability to perform, to require performance, to sue and be sued thereon, and to modify or terminate the contracts by mutual consent or otherwise as the supervisors of the district would have had.

(3) The dissolution does not affect the lien of any judgment entered under 76-15-708 through 76-15-710 or the pendency of an action instituted under those sections, and the department succeeds to all rights and obligations of the district or supervisors as to those liens and actions.

Coal Bed Methane Protection Program

Part Compiler's Comments

Contingent Effective Date: Section 9, Ch. 531, L. 2001, provided: "[This act] is effective on July 1 immediately following the date that the governor by executive order certifies to the secretary of state that the resource indemnity trust fund balance has reached $100 million. The secretary of state shall notify the department of revenue, the department of administration, the code commissioner, and the legislative fiscal division of this certification."

76-15-901. *(Effective on occurrence of contingency)* **Short title.** This part may be cited as the "Coal Bed Methane Protection Act".

History: En. Sec. 1, Ch. 531, L. 2001.

76-15-902. *(Effective on occurrence of contingency)* **Legislative findings and declaration of purpose.** (1) The legislature finds that the need for an economical supply of clean-burning energy is a national and state priority.

(2) The legislature further finds that Montana possesses plentiful reserves of clean-burning natural gas contained in coal beds.

(3) The legislature further finds that the extraction of natural gas from coal beds may result in unanticipated adverse impacts to land and to water quality and availability.

(4) The legislature declares that there is a compelling public need to promote efforts that preserve the environment and protect the right to use and enjoy private property. The legislature further declares that the purpose of this part is to establish a long-term coal bed methane protection account and a coal bed methane protection program for the purpose of compensating private landowners and water right holders for damage to land and to water quality and availability that is attributable to the development of coal bed methane wells.

(5) The legislature further declares that the provisions of this part do not relieve coal bed methane developers or operators that own, develop, or operate coal bed methane wells and collection systems of their legal obligation to compensate landowners and water right holders for damages caused by the development of coal bed methane.

(6) The legislature further declares that the provisions of this part do not relieve coal bed methane developers or operators from:

(a) any liability associated with the exploration or development of coal bed methane; or

(b) the responsibility to comply with any applicable provision of Titles 75, 82, and 85 and any other provision of law applicable to the protection of natural resources or the environment.

History: En. Sec. 2, Ch. 531, L. 2001.

76-15-903. *(Effective on occurrence of contingency)* **Definitions.** As used in this part, unless the context requires otherwise, the following definitions apply:

(1) "Agricultural production" means the production of:

(a) any growing grass, crops, or trees attached to the surface of the land; or

(b) farm animals with commercial value.

(2) "Coal bed methane developer or operator" means the person who acquires a lease for the purpose of extracting natural gas from a coal bed.

(3) "Department" means the department of natural resources and conservation as provided for in Title 2, chapter 15, part 33.

(4) "Emergency" means the loss of a water supply that must be replaced immediately to avoid substantial damage to a landowner or a water right holder.

History: **En. Sec. 3, Ch. 531, L. 2001.**

76-15-904. *(Effective on occurrence of contingency)* **Coal bed methane protection account — use.** (1) There is a coal bed methane protection account in the state special revenue fund.

(2) At the beginning of each fiscal year, there must be deposited in the account a total of $400,000 of the proceeds from the distribution of oil and natural gas production taxes, as provided in 15-36-324.

(3) All money paid into the account must be invested by the board of investments. Earnings from investments must be deposited in the account.

(4) Subject to the conditions of subsection (5), money deposited in the account must be used to compensate landowners and water right holders for damages attributable to coal bed methane development as provided in this part.

(5) Money deposited in the fund and earnings of the fund may not be expended until after June 30, 2005. For fiscal years beginning after June 30, 2005, principal and earnings may be expended only in the case of an emergency. For fiscal years beginning after June 30, 2011, principal and earnings in the account may be expended for any purpose authorized pursuant to this part.

(6) Money in the account must be appropriated to the department for use by conservation districts that have private landowners or water right holders who qualify for compensation as provided in 76-15-905. *(Subsection (2) terminates June 30, 2011—sec. 10, Ch. 531, L. 2001.)*

Termination: Section 10, Ch. 531, L. 2001, provided that subsection (2) of this section terminates June 30, 2011.

76-15-905. *(Effective on occurrence of contingency)* **Coal bed methane protection program — restrictions.** (1) There is a coal bed methane protection program administered by conservation districts that have coal beds within the exterior boundary of the district or whose water sources may be adversely affected by the extraction of coal bed methane. The purpose of the coal bed methane protection program is to compensate private landowners or water right holders for damage caused by coal bed methane development.

(2) A conservation district shall establish procedures, approved by the department, for evaluating claims for compensation submitted by a landowner or water right holder. The procedures must include:

(a) a method for submitting an application for compensation for damages caused by coal bed methane development;

(b) a process for determining the cost of the damage to land, surface water, or ground water, if any, caused by coal bed methane development;

(c) the development of eligibility requirements for receiving compensation that include an applicant's access to existing sources of state funding, including state-mandated payments, that compensate for damages; and

(d) criteria for ranking applications related to available resources.

(3) An eligible recipient for compensation includes private landowners and water right holders who can demonstrate as the result of damage caused by coal bed methane development:

(a) a loss of agricultural production or a loss in the value of land;

(b) a reduction in the quantity or quality of water available from a surface water or ground water source that affects the beneficial use of water; or

(c) the contamination of surface water or ground water that prevents its beneficial use.

(4) (a) Subject to the conditions of subsections (5) through (8), an eligible landowner may be compensated for the damages incurred by the landowner for loss of agricultural production and income, lost land value, and lost value of improvements caused by coal bed methane

development. A payment made under this subsection (4)(a) may only cover land directly affected by coal bed methane development.

(b) Subject to the conditions of subsections (5) through (8), an eligible water right holder may be compensated for damages caused by the contamination, diminution, or interruption of surface water or ground water.

(5) In order to qualify for a payment of damages under this section, the landowner or water right holder shall demonstrate that it is unlikely that compensation will be made by the coal bed methane developer or operator who is liable for the damage to land or the reduction in or contamination of surface water or ground water as the result of coal bed methane development.

(6) Compensation made to a landowner or a water right holder under this section may not exceed 75% of the cost of the damages. The maximum amount paid to a landowner or water right holder may not exceed $50,000.

(7) Conservation district administrative expenses for services provided under this section are eligible costs for reimbursement from the coal bed methane protection account.

(8) (a) Except as provided in subsection (8)(b), compensation for damages allowed under this section may be made only after June 30, 2011.

(b) Compensation for an emergency may be made after June 30, 2005.

(2) The owner or person in control of livestock running at large or under herd within a state district without a permit from the state district or in excess of the permit is liable for all damages sustained by any member, permittee, or state district that are a result of the person's unpermitted use of the state district. 76-16-311. Control of trespassing livestock. (1) The state district or its duly authorized agent controlling the land upon which wrongful entry is made by trespassing livestock may take the livestock into its possession and shall reasonably care for the livestock while in its possession and may retain possession of the livestock and have a lien and claim on the livestock as security for payment of damages and reasonable charges for the care of livestock while in its possession.

(2) The state district taking possession of trespassing livestock shall, within 72 hours after taking possession, notify the owner, owners, or person in charge of the livestock by a notice in writing describing the livestock by number of animals and brands on the livestock, if any, the amount of damages claimed to date, and the charge per animal unit per day for caring for and feeding the livestock thereafter. Charges may not exceed $2 per animal unit per day. The notice must generally describe the location where the livestock is held and require the owner or owners, within 10 days after receiving the notice, to take the livestock away after making full payment of all damages and costs.

(3) In case the parties do not agree as to the amount of damages, the state district taking possession of the livestock may at the expense of the owner retain a sufficient number of livestock to cover the amount of damages claimed by the state district. However, the owner may, upon furnishing a sufficient bond, conditioned for the payment to the state district of all sums, including costs that may be recovered by the state district in a civil action to foreclose its lien, have returned to the owner all livestock held. The state district is liable to the owner for any loss or injury to the livestock accruing through the state district's lack of reasonable care.

(4) If the state district taking possession of the livestock fails to recover in a civil action a sum equal to that offered to the state district by the owner of the livestock, the state district shall bear the expense of keeping and feeding the livestock while in its possession. Notice may be given by personal service on the owner, owners, or person in charge of the livestock by sending notice by prepaid registered or certified mail, addressed to that person's last known place of residence. Service by registered or certified mail is considered complete upon the deposit of the notice in the post office.

Grazing Permit System

76-16-401. Distribution of grazing preferences. When a state district is organized, grazing preferences must be distributed in the following manner:

(1) Any member of a state district owning or controlling dependent commensurate property may be given a grazing preference.

(2) If the carrying capacity of the range exceeds the reasonable needs of the members owning or controlling dependent commensurate property, members owning or controlling commensurate property shall have the grazing preference.

(3) If the carrying capacity of the range exceeds the reasonable needs of the members owning or controlling dependent commensurate property or commensurate property, temporary grazing permits may be issued to nonmembers or members, preferring those that have used the range 5 years immediately preceding the organization of the state district.

History: En. Sec. 20, Ch. 208, L. 1939; amd. Sec. 5, Ch. 199, L. 1945; amd. Sec. 3, Ch. 163, L. 1953; amd. Sec. 3, Ch. 257, L. 1955; R.C.M. 1947, 46-2320(part); amd. Sec. 32, Ch. 31, L. 2001.

Amendment effective March 13, 2001.

76-16-402. Conversion of temporary permittee lands to dependent commensurate property. (1) When a temporary permit is utilized by a permittee in connection with forage-producing lands owned or controlled by the permittee within or near the state district for a period of any combination of 4 years out of 5, then the forage-producing lands owned or controlled by the permittee may be considered dependent commensurate property and, upon application, the state district may accordingly grant such permittee membership and grazing preference in the state district providing an application had been made for temporary rights for each of the 5 years.

(2) However, temporary permits are privileges granted from year to year, and their possession does not establish a grazing preference right unless a grazing preference right is expressly granted by the state district and in the manner provided in this part.

76-16-403. Procedure if reduction in grazing privileges necessary. (1) If a reduction in grazing privileges becomes necessary, operators with temporary permits will be reduced on a proportionate basis prior to any reduction to any holder of grazing preference.

(2) Reductions of grazing preference for individual members that result from actions beyond the control of the state district or the board of directors of a state district or as a result of actions or of the failure to take appropriate actions by the holder of the grazing preference in question do not require a general reduction in grazing preference, and the state district may not be compelled to require proportionate reductions in grazing preference, by the membership of the state district.

Grazing preferences run with and are appurtenant to the dependent commensurate and commensurate property upon which they are based except as provided in this chapter. They are not subject to devise, bequest, attachment, execution, lease, sale, exchange, transfer, pledge, mortgage, or other process or transaction, except as provided in this section, 76-16-406 through 76-16-409, 76-16-412, and 76-16-413 or in the bylaws of a state district.

History: Ap. p. Sec. 22, Ch. 208, L. 1939; amd. Sec. 4, Ch. 163, L. 1953; amd. Sec. 1, Ch. 24, L. 1971; amd. Sec. 49, Ch. 253, L. 1974; Sec. 46-2322, R.C.M. 1947; Ap. p. 76-16-406. Transfer of grazing preferences. (1) Upon application by a permittee, the state district with the approval of the commission may allow a grazing preference based on ownership or control of dependent commensurate or commensurate property to be transferred to other property of sufficient commensurability. However, in any transfer of grazing preference from dependent commensurate or commensurate property controlled but not owned by the applicant, the applicant must have had control and use of the dependent commensurate or commensurate property and the grazing preference appurtenant to the property for 5 consecutive years and must have established and maintained the livestock operation upon which the dependency was established by use or priority immediately prior to the application for transfer.

(2) In addition, the transfer may not interfere with the stability of livestock operations or with proper range management and may not affect adversely the established local economy. A transfer may not be allowed without the written consent of the owner or owners of the dependent commensurate or commensurate property from which the transfer is to be made and the owner or owners of any encumbrances on the property. A transfer is not effective until approved by the commission.

(3) All expenses involved under the application must be borne by the applicant.

A copy of the notice must be given or mailed to the applicant and must be published at least once a week for 2 successive weeks prior to the hearing in a newspaper published or generally circulated within the state district. The notice must also be posted for at least 2 full weeks prior to the hearing in three public places within the state district.

(2) The date of the hearing must be at least 15 days from the first publication of the notice. At the hearing the directors shall fully hear and determine the application and any objections to the application.

76-16-408. Effect of transfer of grazing preference. Upon the allowance of a transfer under 76-16-405 through 76-16-407, the property from which the transfer is made loses its grazing preference to the extent of the grazing preference transferred.

76-16-411. Grazing permits to owners of land not controlled by state district. (1) When any land is situated within the boundaries of a state district and is not leased or controlled by the state district and not surrounded by a legal fence, any person owning or controlling these lands has the right to obtain a grazing permit from the state district, the size of which must be determined by the carrying capacity of the land, full consideration being given for location of necessary stock water. The use of the permit is subject to all regulations by the state district.

(2) If the person owning or controlling the land declines to secure a permit or fails to lease the land to the state district at a fair lease rental and fails to fence the land at the person's expense, the person is not entitled to recover damages for trespass by stock grazing under permit, but the state district may not issue a permit to use the carrying capacity of the land.

History: En. Sec. 27, Ch. 208, L. 1939; R.C.M. 1947, 46-2329(part); amd. Sec. 41, Ch. 31, L. 2001.

76-16-412. Revocation of grazing preferences upon failure to obtain permits, pay fees, or obey rules. (1) If a person controls but does not own land and does not secure a nonuse permit and refuses to pay grazing fees, the state district shall notify the owner of the land by certified mail that the grazing preference attached to the land will be revoked unless the owner pays the usual grazing fees to the state district within 60 days from the time of receipt of the notice. The state district may revoke the grazing preference if the owner or mortgagor does not pay the fees or secure a nonuse permit.

(2) If a permittee fails to pay grazing fees or assessments levied by the state district or fails to obtain a nonuse permit or violates any of the rules of the state district, the state district may notify the permittee and owner of the land by certified mail that the grazing preference

attached to the land will be revoked unless the grazing fees or assessments are paid or the permittee ceases to violate the rules laid down by the state district within 60 days from the time of receipt of the notice. The state district may revoke the grazing preference if the permittee or owner fails to pay the charges or comply.

Amendment effective March 13, 2001.

76-16-413. Effect of revocation. (1) When a grazing preference is revoked, it is detached from the dependent commensurate or commensurate property to which it was formerly appurtenant and it immediately shifts to the state district. A revocation includes all rights, privileges, and authorities associated with a grazing preference.

(2) The state district may then allocate it to either dependent commensurate or commensurate property in the manner provided by its bylaws.

76-16-414. Equalization of state district assets. (1) Whenever a state district possesses reserves, the values of which are greater than its liabilities, and the state district determines that a part of the reserves is in excess of its reasonable needs to operate the state district, the state district may refund to the permittee members their proportionate share of the reserves as determined at the last annual accounting.

(2) Whenever a state district possesses reserves and physical assets, the values of which are greater than its liabilities, and a permittee member loses a grazing preference or any portion of a grazing preference, the permittee member is entitled to receive a proportionate share of the value of the excess from the state district, as determined by the annual accounting of the state district. Valuation must be as prescribed by the bylaws of the state district. The state district may set off the amount of any claim it may have against a former member.

(3) Whenever a new member receives a grazing preference, the new member shall, as a condition of receiving the grazing preference, pay to the state district the value of the equitable interest in the physical assets and reserve fund that accrues to the new member by virtue of membership. The value must be determined at the time of receiving a grazing preference, as prescribed by the bylaws of the state district, and upon the basis of the determination of value of physical assets and reserves made at the last annual accounting.

77-1-101. Definitions. Unless the context requires otherwise and except for the definition of state land in 77-1-701, in this title, the following definitions apply:

(1) "Board" means the board of land commissioners provided for in Article X, section 4, of the Montana constitution.

(2) "Commercial or concentrated recreational use" means any recreational use that is organized, developed, or coordinated, whether for profit or otherwise. Commercial or concentrated recreational use includes all outfitting activity and all activities not included within the definition of general recreational use.

(3) "Department" means the department of natural resources and conservation provided for in Title 2, chapter 15, part 33.

(4) (a) "General recreational use" includes noncommercial and nonconcentrated hunting, fishing, and other activities determined by the board to be compatible with the use of state lands.

(b) General recreational use does not include the use of streams and rivers by the public under the stream access laws provided in Title 23, chapter 2, part 3.

(5) "Legally accessible state lands" means state lands that can be accessed by:

(a) dedicated public road, right-of-way, or easement;

(b) public waters;

(c) adjacent federal, state, county, or municipal land if the land is open to public use; or

(d) adjacent contiguous private land if permission to cross the land has been secured from the landowner. The granting of permission by a private landowner to cross private property in a particular instance does not subject the state land that is accessed to general recreational use by members of the public, other than those granted permission.

(6) (a) "State land" or "lands" means:

(i) lands granted to the state by the United States for any purpose, either directly or through exchange for other lands;

(ii) lands deeded or devised to the state from any person; and

(iii) lands that are the property of the state through the operation of law.

(b) The term does not include:

(i) lands that the state conveys through the issuance of patent;

(ii) lands that are used for building sites, campus grounds, or experimental purposes by a state institution and that are the property of that institution;

(iii) lands that the board of regents of higher education has authority to dispose of pursuant to 20-25-307; or

(2) In this connection, the legislature recognizes and declares that:

(a) school trust lands are held in trust for the support of education and for the attainment of other worthy objects helpful to the well-being of the people of the state;

(b) it is the duty of the board of land commissioners to administer this trust so as to secure the largest measure of legitimate and reasonable advantage to the state;

(e) the preservation of wild medicinal plants on state trust land has sufficient value to present and future education to meet the state's obligation for the disposition and utilization of trust lands as specified in the Enabling Act; and

(f) a moratorium on the harvest of wild medicinal plants on state lands provides the time to acquire necessary technical information to recommend policy and benefits all Montanans by raising public awareness of wild medicinal plants and their importance and value, by ensuring the viability of wild medicinal plant populations on state lands, and by preventing erosion and enhancing conservation efforts. *(Terminates April 20, 2002—sec. 7, Ch. 380, L. 1999.)*

When state lands are classified or reclassified in accordance with these duties and responsibilities, special attention shall be paid to the capability of the land to support an actual or proposed land use authorized by each classification.

(2) It is the duty of the department to classify or reclassify state lands so that no state land will be sold, leased, or used under a different classification from that to which it actually belongs.

77-1-405. Island parks established — development limited. (1) In order to retain the integrity of the recreational experience associated with Montana's river and lake islands, development of undisputed state-owned or state-leased island property, which is hereby designated as island parks, including islands designated as state property under 70-18-203, lying within and surrounded by a navigable river, stream, or lake is limited, after April 30, 1997, to:

(a) the installation of minimal signage indicating that the island is a designated island park in which development has been limited and encouraging the public to help in maintaining the island park's primitive character by packing out trash;

(b) necessary latrine facilities if approved by the fish, wildlife, and parks commission;

(c) footings or pilings necessary for the construction of a bridge; and

(d) oil and gas leasing.

(2) Improvements made to and agricultural operations on state-owned or state-leased island property prior to April 30, 1997, may be maintained or continued, but further development is limited as provided in this section.

(3) Notwithstanding the provisions of 77-1-203 regarding multiple-use management, the legislature finds that the highest and best use of island property administered as school trust land, except islands designated as natural areas pursuant to Title 76, chapter 12, is for recreation and grazing and that those islands should be left in as primitive state as possible to protect from the loss of potential future revenue that could result from the failure to leave the islands in an undeveloped condition.

(4) For purposes of this section, state ownership or state lease of island property is disputed if the dispute arises before, on, or after April 30, 1997.

State Land Equalization Payments

77-1-501. List of state lands by county. The department shall, before the first Monday of April of every year, prepare and transmit a statement to the department of revenue that designates each county in which the state has real property in excess of 6% of the total land area of the county and from which the state derives grazing, agricultural, or forest income. The statement must contain the total number of acres owned by the state in that county and list the acres separately as grazing, agricultural, or forest land.

History: En. Sec. 1, Ch. 235, L. 1967; amd. Sec. 54, Ch. 391, L. 1973; amd. Sec. 77, Ch. 428, L. 1973; R.C.M. 1947, 81-1115; amd. Sec. 140, Ch. 27, Sp. L. November 1993.

77-1-502. Computation of state land equalization amount. (1) The department of revenue shall compute the amount of taxes that would be payable on the county assessments of state-owned grazing, agricultural, or forest property as if it were owned by and taxable to a taxpayer of the county.

(2) If the land is not classified, the sum must be determined by the average tax payment made on like property within the county in which the land is situated, not to exceed 12 cents per grazing acre, 35 cents per agricultural acre, and 12 cents per forest acre. The average tax may be derived from the most recent biennial report of the department of revenue. The total figure arrived at by this method must be called the gross assessment figure.

(3) The county exemption factor must be determined by dividing the percentage that the state-owned land bears to the total land area of the county into 6%. This quotient must be multiplied by the gross assessment figure, and the product is called the state exemption figure.

(4) The state exemption figure must be subtracted from the gross assessment to give the state land equalization amount.

Part 6
Development of State Lands

77-1-601. Statement of policy. It is in the best interest and to the great advantage of the state of Montana to seek the highest development of state-owned lands in order that they might be placed to their highest and best use and thereby derive greater revenue for the support of the common schools, the university system, and other institutions benefiting therefrom, and that in so doing the economy of the local community as well as the state is benefited as a result of the impact of such development.

If the board determines that public lands in a trust may be developed and moneys in the account from that trust are insufficient to defray the necessary costs and expenses incurred, the board may transfer sufficient moneys from other trusts in the account. There must be placed in the account an amount from timber sales on state lands each fiscal year equal to the amount appropriated from the account for the corresponding fiscal year.

(2) Timber sale program funds deducted under subsection (1) must be directly applied to timber sale preparation and documentation.

(3) In order to increase the volume of timber sold at the earliest possible time while continuing to meet the requirements of applicable state and federal laws and in order to avoid unnecessary delays and extra costs that would result from increasing its permanent staff, the department may contract for services that will enable achievement of the purposes of this section and that will achieve the highest net return to the trusts.

(4) To maximize overall return to the trusts, the timely salvage of timber must be considered. However, salvage timber sales may not adversely affect the implementation of green timber sales programs.

(2) Money received by the department from the sale of recreational use licenses must be credited as follows:

(a) Except as provided in subsection (2)(b), license fees must be apportioned on a pro rata basis to the land trusts, in proportion to the respective trust's percentage contribution to the total acreage of all state land trusts.

(2) Rules adopted under this section must address the circumstances under which the board may close legally accessible state lands to recreational use. Action by the board may be taken upon its own initiative or upon petition by an individual, organization, corporation, or governmental agency. Closures may be of an emergency, seasonal, temporary, or permanent nature. State lands may be closed by the board only after public notice and opportunity for public hearing in the area of the proposed closure, except when the department is acting under rules adopted by the board for an emergency closure. Closed lands must be posted by the lessee at customary access points, with signs provided or authorized by the department.

(3) Closure rules adopted pursuant to subsection (2) may categorically close state lands whose use or status is incompatible with recreational use. Categorical or blanket closures may be imposed on state lands due to:

(a) cabin site and homesite leases and licenses;

(b) the seasonal presence of growing crops; and

(c) active military, commercial, or mineral leases.

(4) The board shall adopt rules that provide an opportunity for any individual, organization, or governmental agency to petition the board for purposes of excluding a specified portion of state land from a categorical closure that has been imposed under subsection (3).

(5) Under rules adopted by the board, state lands may be closed on a case-by-case basis for certain reasons, including but not limited to:

(a) damage attributable to recreational use that diminishes the income-generating potential of the state lands;

(b) damage to surface improvements of the lessee;

(c) the presence of threatened, endangered, or sensitive species or plant communities;

(d) the presence of unique or special natural or cultural features;

(e) wildlife protection;

(f) noxious weed control; or

(g) the presence of buildings, structures, and facilities.

(6) Rules adopted under this section may impose restrictions upon general recreational activities, including the discharge of weapons, camping, open fires, vehicle use, and any use that will interfere with the presence of livestock. The board may also by rule restrict access on state lands in accordance with a block management program administered by the department of fish, wildlife, and parks. Motorized vehicle use by recreationists on state lands is restricted to federal, state, and dedicated county roads and to those roads designated by the department to be open to motorized vehicle use.

(7) The board shall adopt rules providing for the issuance of a recreational special use license. Commercial or concentrated recreational use, as defined in 77-1-101, is prohibited on state lands unless it occurs under the provisions of a recreational special use license. The board may also adopt rules requiring a recreational special use license for recreational use that is not commercial, concentrated, or within the definition of general recreational use.

(8) For a violation of rules adopted by the board pursuant to this section, the department may assess a civil penalty of up to $1,000 for each day of violation. The board shall adopt rules providing for notice and opportunity for hearing in accordance with Title 2, chapter 4, part 6. Civil penalties collected under this subsection must be deposited as provided in 87-1-601(7).

History: En. Sec. 14, Ch. 609, L. 1991.

77-1-806. Prior notification to lessee of recreational use — trespass — penalty. (1) If a lessee of state lands under this part desires to be notified prior to anyone entering upon his leasehold, the lessee shall post, at customary access points, signs provided or authorized by the department. The signs must set forth the lessee's or his agent's name, address, telephone number, and method of notification. The lessee or his agent shall make himself available to receive notice from recreational users or provide an alternative means for notice as prescribed by rule. When state land is posted, recreational users shall contact and identify themselves to the lessee or his agent for the purposes of minimizing impact upon the leasehold interest and learning the specific boundaries of adjacent unfenced private property.

(2) Each recreational user of state lands shall obtain permission of the lessee or his agent before entering the adjacent private property owned by the lessee. Entry to private property from adjacent state lands without permission of the landowner or his agent is an absolute liability offense. A violator of this subsection is guilty of a misdemeanor and shall be fined not less than $50 or more than $500, imprisoned in the county jail for not more than 6 months, or both.

(3) A person may be found guilty of the offense described in subsection (2) regardless of the absence of fencing or failure to post a notice in accordance with 45-6-201.

(b) money received by the department in the form of legislative appropriations, reimbursements, gifts, federal funds, or appropriations from any source intended to be used for the purposes of this account.

(3) Money deposited in the state lands recreational use account must be used by the department for the following purposes:

(a) compensation pursuant to 77-1-809 for damage to the improvements of leases that has been proved to be caused by recreational users;

(b) assistance in weed control management necessary as a result of recreational use of state lands;

(c) protection of the resource value of the trust assets; and

(d) administration and management for the implementation of recreational use of state lands.

History: En. Sec. 16, Ch. 609, L. 1991; amd. Sec. 68, Ch. 509, L. 1995; amd. Sec. 1, Ch. 117, L. 2001.

77-1-809. Compensation for damage to improvements, growing crops, or livestock. A lessee may apply to the department for reimbursement of documented costs of repair to or replacement of improvements, growing crops, or livestock damaged by recreational users of state lands. The application must include an affidavit by the applicant setting forth the nature of the loss, allegations and reasonable proof supporting the involvement of recreational users, and documentation of repair or replacement costs. Upon review of the application and supporting proof and upon additional investigation as required, the department shall grant, modify, or deny the claim. The department, by reason of payment to the lessee for damage to improvements, is entitled to be subrogated to the rights of the lessee to recover the amount paid from the party causing the damage. Payments under this section must be made from appropriations from the state lands recreational use account established by 77-1-808, and the liability of the department for damage payments is limited to the available appropriation. Claim applications are to be considered in the order they are received.

The department may by rule establish a noxious weed management program that may include direct compensation for noxious weed control activities or participation in district and county weed control projects or department-initiated weed control activities.

(2) Funding for this program must come from appropriations from the state lands recreational use account pursuant to 77-1-808.

77-2-102. Application for easement. (1) Application for an easement on state land must be made to the department. Except as provided in subsections (3) and (4), the application must describe the proposed right-of-way according to survey, show the necessity for the proposed highway or street or other easement, and give any additional information that the department requires.

(2) This application must be accompanied by two exact copies of the official plat of the proposed highway, street, or other easement, verified by the affidavit of the engineer or surveyor who prepared the application. These plats must show the quantity of land taken by the proposed highway or street or other easement for each 40-acre tract or government lot of state land over or through which it passes and also the amount of land remaining in each portion of that 40-acre tract or government lot. When considered necessary by the department, these plats must show all these facts for smaller subdivisions as the circumstances may render desirable for the state.

(3) The application must include the affidavit of a licensed engineer or professional surveyor stating that the methodology used is known to be accurate to within 5 meters. The survey must be tied to an established section corner or 1/4 corner monument. The department may request greater accuracy if the department determines that the information is needed to adequately describe the easement.

(4) If the purpose of the right-of-way applied for is the transmission or distribution of electrical energy or the construction and operation of pipelines or telephone, telegraph, or radio systems, the plats and measurements need not be given. An exact geographical survey is not required, but the application must include the description of the location of the center line of the right-of-way that refers to an established monument within a filed corner recordation form, certificate of survey, or subdivision plat. The accuracy requirements of subsection (3) must be met. The entire right-of-way may be applied for in one application with only one plat of the entire right-of-way required. An archaeological survey is not required if, in the opinion of the department, heritage property would not be impacted.

2001 Amendment: Chapter 7 in (4) in first sentence substituted "electrical energy" for "electric energy". Amendment effective October 1, 2001.

77-2-103. Processing of application. (1) Upon the filing of an application and plats, the department shall, whenever it considers it necessary, examine the proposed right-of-way and report its findings to the board. The board shall consider the application and report and take any action it considers proper, including the fixing of compensation and damages to be paid to the state. The compensation must be the full market value of the estate or interest disposed of through the granting of the right-of-way easement, and the damages must be the actual damages resulting to the remaining land as nearly as they can be ascertained. If the right-of-way is granted according to the plat, the plat is the official plat of the right-of-way and must be retained in the office of the department.

(2) If the state land over or through which a right-of-way is applied for is under certificate of purchase or sales contract, the purchaser or the purchaser's assignee must be made a party to the proceedings and the purchaser's or assignee's consent in writing to the laying out and establishment of the proposed highway, street, or other easement and to the amount of compensation and damages to be paid must be filed with the board before the right-of-way is granted. The board is the judge of how much compensation and damages must be paid to the state and applied on the certificate of purchase or sales contract and of how much, if any, must

be paid to the purchaser, as the circumstances in each individual case warrant. This subsection applies to all grants of rights-of-way on state lands.

77-2-107. Involvement of lessee when land subject to prior lease. (1) Whenever any kind of right-of-way easement has been granted under this part and the state land in which it is granted is under lease, the party receiving the grant shall give timely notice to the lessee and shall make just settlement with the lessee for any damages resulting to the lessee's improvements, crops, or leasehold interests.

(2) After the settlement is made, the lessee shall open or move any fences that may obstruct the right-of-way over the lands under lease and otherwise cooperate in the opening of the right-of-way. Proof must be filed with the board that the settlement has been made before the deed to the easement is issued.

(3) (a) If the lessee and the party receiving the right-of-way easement are unable to agree on the value of the damages resulting from the easement, the value of the damages must be ascertained and fixed by three arbitrators, one of whom must be appointed by the lessee, one by the party receiving the easement, and the third by the two appointed arbitrators.

(b) If a party refuses to appoint an arbitrator within 15 days of being requested to do so by the director of the department, the director may appoint an arbitrator for that party. An arbitrator appointed by the director has the same duties and powers as if appointed by one of the parties.

(c) The arbitrators may fix reasonable compensation for their services. The compensation must be paid in equal shares by the owner of the easement and the lessee.

(d) The value of the damages as ascertained and fixed by the arbitrators is binding on both parties; however, if either party is dissatisfied with the valuation, the party may, within 10 days, appeal from their decision to the department. The department shall examine the easements, and, except as provided in subsection (3)(e), its decision on the appeal is final. The department shall collect the actual cost of the reexamination from the owner of the easement and the lessee in the proportion that, in its judgment, justice may demand.

(e) If either party is dissatisfied with the valuation fixed by the department, the party may within 30 days after receipt of the department's decision petition the district court in the county in which the majority of the state land is located or the district court in Lewis and Clark County for judicial review of the decision.

(1) (a) The board may enter into contracts or agreements with the United States or any department thereof having jurisdiction for the waiving and relinquishment to the United States of any rights of the state in and to sections 16 and 36 of any township and to any other parcel of state lands, provided that the state shall, in lieu of the rights so waived and relinquished, receive from the United States other lands of equal or greater value.

(b) The current user of the land transferred to the United States may continue to enjoy the use of the land under terms and conditions required by the federal government and in accordance with Public Law 88-607, as amended, (43 U.S.C. 1411 through 1418), and the current user of the land received from the United States may continue to utilize the land on the terms and conditions imposed by law or by the board.

(2) The board may enter into a contract or agreement with a tribal government as defined in 18-11-102 or with the United States for the relinquishment to the tribal government or to the United States in trust for the tribal government of any rights of the state to some or all state lands located wholly within the exterior boundaries of the tribal government's reservation as recognized by the federal government; however, the state, in exchange for these relinquished rights, must receive from the tribal government or the United States lands of equal or greater value. No contract or agreement may be entered into under this section without first consulting with the board of county commissioners of the county or counties in which the lands to be exchanged are located.

(a) the state or an agency of the state;

(b) a political subdivision of the state, including a county, city, town, public corporation, or district created pursuant to state law;

(c) any other public body of the state; or

state land and as closely as possible equal in area. The contents of the appraisal must be made available to any person who makes a written request to the board. The board shall place priority on exchanges that result in consolidation of state lands into more compact bodies. This section does not apply to exchanges undertaken under 76-12-107.

(3) If the requirements of 77-2-204 and subsections (1) and (2) of this section are met, state lands bordering on navigable lakes and streams or other bodies of water with significant public use value may be exchanged for nongovernment-owned land if the nongovernment-owned land borders on similar navigable lakes, streams, or other bodies of water.

Any such leaseholder may present written or oral comments on the proposed exchange to the board before or during the hearing required by subsection (2). The notice must contain a statement informing the recipient of this right to comment.

(2) A public hearing on any exchange under this part shall be held in the county containing the state land to be exchanged. When specific objections to the proposed exchange are raised before or during any such hearing pursuant to subsection (1), the board shall make findings of fact responding to such objections and explaining their action.

The provisions of 77-6-301 through 77-6-303 and 77-6-306 relating to the payment and settlement for improvements on state lands between a former lessee and a new lessee apply to the settlement between a lessee and the transferee in an exchange. If settlement is not reached within 6 months of the date of exchange, all improvements become the property of the state unless the department for good cause shown grants both parties additional time in which to exhaust arbitration.

However, an exchange may not be made unless the exchange, in the opinion of the board, will benefit the public interest. For the purpose of an exchange, all state lands, including those referred to in 77-2-303(2), 77-2-311, and 77-5-101, are subject to be offered for exchange, and any restrictions against their sale or disposal are, for the purpose of an exchange, released.

(2) After considering the report and recommendation and making such further investigation as it considers advisable, the board shall consider the entire matter, make findings and conclusions concerning the proposal, and make an order:

(2) Before the lands so surveyed and laid off are offered for sale the same shall be appraised, a separate appraisal to be placed on each lot. Such surveyed and platted land may then be sold in the same manner and upon the same terms and conditions as other state lands are sold.

77-2-331. Manner of making payments. (1) The department is not required to accept fractional payments of the installments on certificate of purchase on account of the complications arising from the division of payments.

(2) The purchaser may make payment of one or more installments before the same becomes due, but unless such payments are made at least 6 months before the installments become due, no reduction may be made in the interest payments. If installments on principal and interest are paid more than 6 months prior to the due date, the interest from the date of such payment shall be figured upon the balance of the principal unpaid after the advance payment has been made up to the date on which it comes due.

(3) If for any reason any installment is not paid when due, the total of that installment, including payment on the principal and payment on interest, shall draw penalty interest at the rate of 6% per annum from the date due until the date actually paid.

(4) Payment may be made in full at any time before maturity by paying the balance on the principal and interest accrued up to the date of such payment.

History: En. Sec. 87, Ch. 60, L. 1927; re-en. Sec. 1805.87, R.C.M. 1935; amd. Sec. 63, Ch. 428, L. 1973; R.C.M. 1947, 81-923.

77-2-332. Procedure in case of default. (1) If any purchaser or assignee of state land defaults for a period of 30 days or more in the payment of any of the installments due on his certificate of purchase, the certificate is subject to cancellation. The department shall mail to him at his last known post-office address a notice of default and pending cancellation. The notice shall give him 60 additional days from the date of mailing the notice in which to make payment of the delinquent installment or installments with penalty interest.

(2) If he fails to make the payment within 60 days, the certificate of purchase shall from that date and without further notice be void, the duplicate of the certificate in the office of the department shall be canceled, and the land under the certificate shall revert to and become the property of the state to the same extent as other state lands and shall be open to lease and sale.

(3) All buildings, fences, and other improvements placed thereon subsequent to the date of execution of the certificate of purchase shall be and remain the property of the purchaser named in the certificate of purchase or of his heirs, assigns, or devisees and may be removed from the land at any time within 90 days after the date of the cancellation. If the buildings, fences, and other improvements are not removed prior to the expiration of the 90-day period, they become the property of the state.

(4) In case of cancellation of certificate of purchase or surrender of certificate of purchase and where the land is again open to lease, the former lessee has the prior right to lease the tract at the existing rate or at the rate set by competitive bidding if such occurs.

(a) proper application made in writing by the original purchaser or his heirs, assigns, or devisees, filed within 1 year and 6 months from such cancellation;

(b) payment of all delinquent installments of principal and interest on the certificate, together with penalty interest at the rate of 6% per annum upon all such delinquent installments from the date due until the date of actual payment; and

(c) the furnishing of proof from the county treasurer showing that there are no tax liens against the land.

Such assignments shall be made on forms prescribed by the department, shall be duly acknowledged as other conveyances of real estate, and shall be executed in duplicate, one copy to be filed and retained in the office of the department and one copy to be retained by the assignee. A person is not qualified to receive an assignment if the lands he has already purchased from the state together with the lands included in the assignment exceed one section. This lien is upon all buildings, structures, fences, and all other improvements upon the lands so sold and upon all crops growing upon any of these lands and also upon such crops after they have been separated from the lands for all due and delinquent installments of principal and interest and penalty interest and taxes under the certificate of purchase and also for all installments becoming due during the calendar year in which the crop is harvested, and this lien is hereby expressly reserved.

(2) Any person purchasing or otherwise acquiring the improvements or crops or any part thereof takes them subject to the lien.

(3) Any representative of the department or the sheriff of the county in which the land is located or his deputy may demand of the purchaser or his agent payment of the amounts due the state, and if they are not paid upon demand, the officer making the demand or any representative of the department may immediately seize the improvements and crops, and upon giving 3 days' notice, sell and dispose of, either at private or public sale, sufficient of the crops or improvements or of both to pay the amounts due the state, together with cost and expenses of seizure and sale.

77-3-112. Examination of lands prior to leasing. (1) Before the board leases any lands for the mining of metalliferous metals or gems, the department shall investigate the character of the lands and the nature and possible extent of the mineral deposits therein for the purpose of determining whether those lands are of such a character as to warrant the issuance of a mining lease thereon and for the purpose of determining the amount of royalty and other rentals or considerations for which the lands should be leased for mining purposes under this part.

(2) Upon the filing of an application for a mining lease the board may, if the lands covered by the application have not been examined by the department, require the applicant for the lease to deposit with the department an amount of money, not exceeding $500 in any one case, which in its judgment will cover the cost of a special examination to enable the board to pass upon the application in accordance with this part. Such deposit shall be used to reimburse the state for the actual cost of the examination, and any portion of the deposit not required for such reimbursement shall, upon the approval or rejection of the application, be repaid to the applicant by the department.

(3) The department shall make and preserve complete records of all such examinations.

77-3-113. Quantity of lands covered by lease. A mining lease shall cover the quantity of ground the board determines to be reasonable and consistent with the character of the ground, the type of deposit or deposits for which the lands are to be mined, and the character and size of the operation contemplated, necessary, or reasonable in good mining practice for the profitable recovery of the metalliferous minerals or gems therefrom.

77-3-114. Restrictions on mining leases on lands already subject to coal, oil, or gas lease. In the case of lands covered by a lease for the mining of coal, oil, or gas, no lease for the mining upon any such land for metalliferous minerals and/or gems shall be issued to any person, association of persons, or corporation, other than the holder of such coal, oil, or gas lease while such coal, oil, or gas lease is in force, except with the written consent of the holder of such coal, oil, or gas lease.

History: En. Sec. 10, Ch. 148, L. 1937; R.C.M. 1947, 81-610.

77-3-115. Lease provisions. (1) A lease may contain reasonable provisions for preliminary prospecting periods and shall contain reasonable requirements for the prosecution of work during the prospecting period (if any) and for the prosecution of mining after the prospecting period.

(2) It may provide for the payment of rentals in conjunction with the work requirements or may prescribe cash rentals as an alternative or otherwise as the board considers best.

(3) It shall specify the term of the lease, the royalty to be paid, reasonable forfeiture provisions, and reasonable terms under which the lessee may, within a time limited in the lease, remove property placed upon the leased lands by him in the event of the termination of the lease by forfeiture or by lapse of time.

(4) It may also contain other provisions the board and the lessee agree upon, not inconsistent with this part.

77-3-116. Royalty provisions. In every mining lease the board shall reserve to the state a royalty which shall, together with other considerations to be paid by the mining lessee, constitute the full market value as ascertained by the board of the leasehold interest conveyed by the lease. This royalty may not be less than 5% of the returns from or of the full market value of the metalliferous minerals or gems recovered by the lessee from the state lands or reserved mineral rights covered by the lease.

77-3-118. Restrictions on removal of minerals and gems during preliminary prospecting period. No mining lessee may, during any preliminary prospecting period contained in any lease, remove any metalliferous minerals or gems from the leased premises, except as are necessary for the proper testing and sampling of the lands or mineral rights, and except as are permitted by the board.

77-3-119. Bonds to state. The board may, at the time of the execution and delivery of a mining lease or at any time during the life of the lease, require a mining lessee to file with the department, for the benefit of the state, a bond or bonds conditioned to protect the rights of the state, particularly in the payment to the proper officer of the state of the royalties reserved in the mining lease. The bond or bonds shall be in a form and amount prescribed by the board. The board may at any time require new or additional bonds if in its discretion the interests of the state are not adequately protected by the bond or bonds previously filed.

(2) The form of the bond shall be prescribed by the board, and the bond shall run to the state for the benefit of the prior purchaser, contractee, or lessee. New or additional bonds may be required by the board at any time.

(3) Suit may be brought upon the bond by any such prior purchaser, contractee, or lessee for alleged violation of the terms of the bond by the mining lessee. Such suit shall be brought by the claimant in the name of the state for the use and benefit of the claimant, and any recovery upon the bond shall be paid to the claimant.

77-3-121. Pooling agreements and unit plans of operation. (1) The board may enter into agreements for the pooling of acreage or yardage with others holding the mineral rights in adjoining lands for unit operation of placer mining and the apportionment of royalties on a cubic yardage or area basis in the case of placer mining deposits lying partly on land in which the state holds the mining rights and partly on land in which others hold the mining rights.

(2) From each cleanup of values under such unit operations in which any yardage or area mined on lands to which the state holds the mineral rights is included, the state is entitled to royalties computed on that proportion of the whole value of recoveries from the cleanup as the yardage or area mined from lands included in the agreement in which the state holds the mining rights bears to the total yardage or area mined and included in the cleanup.

(3) The board may also enter into agreements for the unit operation of such placer mining deposits and the apportionment of royalties upon any other equitable basis the board considers in the best interest of the state. The agreements may not change the percentage of royalties to be paid to the state under the unit operations from the percentage fixed in the lease or to a smaller percentage than the 5% minimum under 77-3-116.

77-3-122. Sales, contracts for sale, and other leases subject to mining leases. Any sale of state lands, any contract for the sale of state lands, and any lease of state lands made or issued by said board during the life of any mining lease issued under the provisions of this part shall be subject to such mining lease during the life thereof, and no bond shall be required of such mining lessee for the protection of any such purchaser, contractee, or other lessee unless provision therefor shall be made in such mining lease.

History: En. Sec. 9, Ch. 148, L. 1937; R.C.M. 1947, 81-609.

77-3-123. Failure of title. In issuing mining leases, the board and the state have leased only such right, title, and interest as the state has in the lands, metalliferous minerals, or gems therein contained. Neither the state, the board, nor any representative, agent, or employee of the state or the board are under any liability for the failure of the title of the state, in whole or in part, to the lands, metalliferous minerals, or gems covered by the lease.

77-3-124 through 77-3-129 reserved.

77-3-130. Limitation on public inspection rights. The department may withhold from public inspection any information obtained from a mining lessee or permittee under this part if the information relates to the geology of the mining lease or permit. The withholding is effective for as long as the department considers it necessary either to protect the mining lessee's or permittee's economic interest in the geologic information against unwarranted injury or to protect the public's best interest.

77-3-132. Leasing privileges of permittee. (1) During the life of any permit the permittee may apply for a lease of the lands or mineral rights covered by the permit, and if a lease is granted it must be in the form and subject to all the terms and conditions specified in this part, as in the case of a mining lease issued under this part.

(2) If some other person makes a better bid for a mining lease upon the land covered by the permit and if the board awards a mining lease to a better bidder, the board shall also require the mining lessee to pay to the permittee, prior to the issuance of the lease, the full value of all the work the permittee has performed upon the land under the permit in connection with prospecting and exploration work. Within 30 days from the date the board gives the permittee notice of the issuance of the mining lease or within a further time as the board upon good cause shown allows, the permittee may remove any machinery, equipment, improvements, and other property placed on the land by the permittee.

77-3-305. Limitations on leasing. The board shall not issue leases:

(1) to any citizen of another country or any person, partnership, corporation, association, or other legal entity controlled by interests foreign to the United States unless such country provides for similar or like privileges to citizens of the United States; or

(2) if, after a determination of the amount, location, and quality of the coal on the lands for lease, the extraction of the coal from such lands by strip-mining methods would adversely affect the methods of recovery of deep minable coal from such operations on such lands in the future.

77-3-306. Conditions on manner of mining. (1) Every coal lease shall be conditioned upon compliance with Title 82, chapter 4, parts 1 and 2.

(2) These coal leases are subject to the condition that the coal must be mined, handled, and marketed in a manner that will prevent as far as possible all waste of coal and are also subject to the condition that the mining operations shall be carried on in a systematic and orderly manner that will not make subsequent mining operations more difficult or expensive. A violation of any of these conditions is grounds for the forfeiture of the lease after a hearing before the board.

77-3-307. Improvements of former lessee. (1) When a coal mining lease is applied for on land where mining operations have been carried on by a former lessee and there are surface or underground improvements on the land used at the former operations, disposition shall be made of the improvements satisfactory to the board before a new lease is issued. If the owner of the improvements desires to sell the same to the new lessee, then the new lessee shall pay him the reasonable value thereof as far as they are suitable for the new mining operations. If they fail to agree on the value of such improvements, then such value shall be ascertained and fixed as provided in 77-6-306.

(2) Before a new lease is issued, the applicant shall show to the satisfaction of the board that he has paid the owner for the improvements as agreed on between them or as fixed by the aforesaid officers or officer or that he has tendered payment as so fixed or that the owner desires to remove his improvements.

77-3-308. Limitation on public inspection rights. The department may withhold from public inspection any information obtained from a coal mining lessee or permittee under this part if the information relates to the geology of the mining lease or permit. The withholding is effective for as long as the department considers it necessary either to protect the lessee's or permittee's economic interest in the geologic information against unwarranted injury or to protect the public's best interest.

77-3-312. Leasing procedures. Leases shall be awarded by a competitive bid system, including a bonus bid for the first year's rental, and no lease shall be awarded at less than fair market value.

(2) A lease not producing coal in commercial quantities at the end of the primary term shall be terminated, unless the leased lands are described in a strip mine permit issued under 82-4-221 or in a mine-site location permit under 82-4-122 prior to the end of the primary term, and the lease shall not be terminated so long as said lands are covered and described under valid permit.

77-3-316. Rental and royalty terms. (1) The compensation of the state under all coal mining leases shall be upon a rental and royalty basis and shall be fixed and determined by the board.

(2) The rental and royalty terms of each lease shall be subject to readjustment to reflect fair market value at the end of its primary term of 10 years and at the end of each 5-year period thereafter if the lease is producing coal in commercial quantities.

(3) The rental shall be on a per acre basis but in no case shall it be less than $2 per acre.

(4) The amount of such royalty shall be based upon the kind, grade, and character of the coal in each particular mine; upon the size, shape, and nature of the coal vein, strata, or body; and upon the shipping and marketing facilities for the product. Consideration shall also be given to every other known factor affecting the value of each particular coal mining lease; but in

no case shall the royalty for the coal mined be less than 10% of the f.o.b. mine price of a ton prepared for shipment.

77-3-422. Lease extension clause. If oil or gas is not being produced from the leased premises at the expiration of the primary term of the lease but the owner of the lease is then engaged in drilling on the premises for oil or gas, then the lease continues in force so long as such drilling operations are being diligently prosecuted. If oil or gas is recovered from any such well drilled or being drilled at or after the expiration of the primary term of the lease, the lease continues in force so long as oil or gas in paying quantities is produced from the leased premises.

77-3-423. Annual rental. (1) The annual money rentals to be paid to the state for oil and gas leases must be set by the board but may not be less than $1.50 for each acre of land leased.

(2) In addition to the sum of $1.50 per acre, the rental for the first year of the lease must also include any sum in excess of $1.50 per acre offered and accepted for the first year's rental.

(3) The annual rental under this section may not be less than $100 a year.

(4) The first year's rental must be paid before the issuance of the lease. The rentals for each subsequent year of the lease are due and payable before the beginning of the subsequent lease year. Upon failure to make the rental payment, the lease terminates unless there is a well currently being drilled, a producing well, or a shut-in well approved by the department on the lease. Rental paid for any year must be credited against any royalty that accrues during that year.

77-3-424. Power to terminate lease in absence of commencement of drilling or payment of delay drilling penalty. (1) In every oil and gas lease granted after March 3, 1955, under this part there must be reserved to the board full power to declare termination of the lease at the end of the fifth year or any subsequent year of the primary term of the lease upon failure of the lessee to either:

(a) commence the drilling of a well for oil and gas upon the leased premises; or

(b) pay a delay drilling penalty as follows:

(i) for the sixth year of the lease $1.25 per acre per year; and

(ii) for the remainder of the primary term of the lease an amount per acre per year as the board may in its discretion determine.

(2) Notice of that determination must be given to the lessee, and if the lessee applies for a hearing thereon within 10 days after receipt of the notice, the determination becomes final only after the hearing has been held.

(3) This annual delay drilling penalty must be paid each year in advance. The board shall refund delay drilling penalties paid on a lease for any year in which the lessee commences drilling on that lease.

(4) If a well for oil and gas is commenced, the drilling of the well must be prosecuted with due diligence and dispatch to such depth as is necessary to make a reasonable test for oil or gas.

77-3-425. Dry hole clause. If the first well drilled is a dry hole and if a second well is not commenced on the land covered by the lease before the next anniversary of the lease following the completion of the well, the lease may be terminated by the board unless the lessee, on or before such anniversary, resumes payment of any delay drilling penalties imposed by the board. Upon the resumption of payment of any required delay drilling penalties and their continued payment, the lease continues in force during the primary term as though there had been no interruption in the delay drilling penalty payments.

77-3-426. Lessee to prevent waste. Oil and gas leases issued under the provisions of this part shall all be subject to the conditions that the lessee in conducting his explorations and mining or drilling operations shall use all reasonable precautions to prevent waste of oil or gas developed in the land or the entrance of water through wells drilled by him to the oil or gas sands or oil or gas bearing strata to the destruction or injury of the oil or gas deposits. Violations of any of these conditions shall constitute grounds for the forfeiture of the lease after hearing had thereon before the board.

77-3-427. Provision for offset wells — compensatory royalties. (1) Oil and gas leases granted by the state shall contain suitable provisions imposing upon all lessees the obligation to drill offset wells wherever and whenever necessary to prevent waste and damage to the property of the state.

(2) The board may allow the lessee the following options in lieu of drilling an offset well:

(a) releasing the lands in question; or

(b) paying a compensatory royalty on a nonproducing lease if the board determines that such compensatory royalty will fully compensate the state for waste and damage to the property of the state. The compensatory royalty shall be based upon the estimated drainage, as determined by the board, and shall be paid on a monthly basis unless circumstances require otherwise.

(3) If the board or the lessee terminates the lease, that termination does not impair any implied covenant against drainage or the right of the board to seek damages from the lessee for the lessee's failure to protect the lease from drainage of oil or gas by a well adjacent to the state lease.

History: En. Sec. 19, Ch. 108, L. 1927; re-en. Sec. 1882.19, R.C.M. 1935; R.C.M. 1947, 81-1719(part); amd. Sec. 1, Ch. 81, L. 1981; amd. Sec. 3, Ch. 163, L. 1989.

77-3-428. Additional development following completion of productive well. (1) The lessee shall be required, upon completing a commercially productive oil or gas well upon the leased premises, to proceed with reasonable diligence to drill such additional wells to the depth of the formation found commercially productive or to such depth as may be necessary to economically test, develop, and operate the deposits discovered.

(2) No lessee shall, however, be required to drill to completion more than one well under any one lease during any one calendar year or a total number of wells under any one lease in

excess of the total number of 40-acre subdivisions of land held under such lease. As to lands found valuable for gas production only, the drilling obligation of the lessee shall be confined to a total number of wells equal to the total number of tracts comprising 160 acres of land included in the lease, except as the drilling of offset oil or gas wells necessary to protect the leased premises and deposits from loss or depletion due to wells drilled on contiguous lands shall require greater diligence in drilling and a greater number of wells to be drilled.

(3) The performance of said well drilling operations may be suspended only by and with the consent of the board during the time oil or gas previously discovered cannot be marketed at a profit or for other good cause shown.

History: En. Sec. 11, Ch. 108, L. 1927; re-en. Sec. 1882.11, R.C.M. 1935; R.C.M. 1947, 81-1711.

77-3-429. Operating agreements. Owners of state oil and gas leases may enter into agreements with other persons, associations, firms, and corporations for drilling and other operations on the state lands under their leases. No such operating agreements are in any way binding upon the state until filed with the board and approved by it. No such drilling or operating agreement in any way affects the obligations of each individual leaseholder to the state.

History: En. Sec. 2, Ch. 108, L. 1927; amd. Sec. 1, Ch. 193, L. 1931; amd. Sec. 1, Ch. 171, L. 1933; re-en. Sec. 1882.2, R.C.M. 1935; amd. Sec. 1, Ch. 109, L. 1941; amd. Sec. 1, Ch. 91, L. 1943; amd. 77-3-430. Pooling agreements and unit operations. Nothing contained in this or in prior related laws prevents the board from entering into agreements for the pooling of acreage with others for unit operations for the production of oil or gas or both and the apportionment of oil or gas royalties or both on an acreage or other equitable basis and from modifying leases with respect to delay rentals, delay drilling penalties, and royalties in accordance with such pooling agreements and such unit plans of operation. However, such agreements may not change the percentage of royalties to be paid to the state from the percentages as fixed in its leases. The board may modify existing pooling and unit agreements so as to commit the state lands included therein for as long as the unitized substance or substances for which the state lands are committed is produced from any lands in the unit.

77-3-431. Report of lessees. (1) On or before the last day of each month every holder of a producing oil or gas lease shall make a report to the department for the preceding calendar month on a form the department prescribes. The report shall show the amount of oil or gas produced and saved during the preceding month, the price obtained, the total amount of all sales, and any additional information as may be required, and it shall be signed by the lessee or some responsible person having knowledge thereof.

(2) Oil and gas leases granted by the state shall contain suitable provisions imposing upon all lessees the obligation to make such report of operation, production, and sales in the manner, at the time, and to such representative of the state as may be required by the board.

In each oil and gas lease granted by the state under this part, there must be reserved to the state as consideration for the lease a royalty in all oil and gas produced and saved from all lands covered by the lease and not used for light, fuel, and operation purposes on the leased premises, which must be equivalent to the full market value, as ascertained by the board at the date of the lease, of the estate or interest of the state in the lands and oil and gas deposits disposed of under the lease. The royalty reservation must be set by the board but may not be less than 12 ½% on gas and not less than 12 ½% on oil or casinghead gasoline for each producing well for the calendar month. The state may share the expense of transporting the oil to the nearest market on a basis proportional to the state's royalty interest in the oil and at a rate per mile acceptable to the department.

77-3-433. Shut-in gas royalty. The royalty on gas, including casinghead gas and all gaseous substances not sold or used off the premises, must be at the rate of $400 per lease each year or the amount of the annual rental provided in the lease, whichever is the greater, payable on or before the annual anniversary date of the lease. As long as the leased lands contain a well capable of production in paying quantities and the requisite payment is made, the lease must be considered as a producing lease under the lease terms.

77-3-434. Manner of making royalty payment. Such lease shall provide for the rendering of payment of such royalty on all oil and gas produced and saved and sold or used off the premises in the following manner and upon the following terms:

(1) the lessee shall pay to the state in cash, for all oil and gas royalty reserved, the posted field price existing on the day such oil or gas is run into any pipeline or storage tank to the credit of the lessee, plus any bonus actually paid or agreed to be paid to the lessee for such oil or gas; or

(2) at the option of the state exercised in writing by the board not oftener than every 30 days, the lessee shall deliver the state's royalty oil or gas free of cost or deductions into the pipeline to which the wells of the lessee may be connected or into any storage designated by the state and connected with such wells.

77-3-435. Payments due to state — audit — notice — action. (1) The report under 77-3-431 must be accompanied by payment of the amount due the state as royalty for the month covered by the report unless the state's royalty is being or has been paid directly by the purchaser. However, when the amount of royalty due from a lease is determined by the board to be so small as to make it uneconomical to collect monthly, the board may authorize royalty payments to be made semiannually.

(2) Oil and gas leases granted by the state must contain suitable provisions imposing upon all lessees the obligation to make payments due the state in the manner, at the time, and to the representative of the state that may be required by the board.

(3) Except as provided in subsection (4), the department may, within 7 years of the filing of a report pursuant to 77-3-431, commence an audit of a lessee's or a former lessee's operation to determine whether the report is complete and accurate and whether all royalties owed have been paid. The department shall notify the lessee in writing of the audit. The notice must describe the period for which the audit is being conducted. Upon conclusion of the audit, the department shall notify the lessee of the department's conclusions and, if the department has determined that additional royalties are owed, the basis for that determination. An action to compel payment of royalties due must be commenced within 2 years of the date of mailing the notice.

(4) If a lessee or former lessee, with intent to evade payment of royalties, purposely or knowingly files a false report or purposely or knowingly fails to pay royalties owed, the

department may conduct an audit and file an action to collect royalties at any time after the royalty is due.

77-3-436. Disposition of royalties and other money. All fees, rentals, penalties, royalties, and bonuses collected for or under state oil and gas leases shall be paid to the department and credited as follows:

(1) All fees and penalties shall be credited to the state general fund.

(2) All rentals shall be credited to the income fund of the grant to which the lands under each lease belong.

(3) All moneys collected as royalties and bonuses shall be credited to the permanent fund arising from the grant to which the land under each particular lease belongs and become and forever remain an inseparable and inviolable part thereof. However, all royalties and bonuses collected from the lands forming part of the capitol building grant shall be available as income, the same as all other receipts from such lands.

(4) All moneys received as rentals, royalties, and bonuses for or under leases on state lands and not held in trust for the public schools of the state or for any state institution shall be credited to the state general fund unless other disposition is provided by law.

77-3-438. Assignments of leases. (1) The assignment of any oil and gas lease issued under this part, either in whole or as to subdivisions of land embracing not less than 40 acres covered thereby, made to an assignee qualified as provided herein is permitted. Such assignment is not, however, binding upon the state until filed with the department and accompanied by the required fees, together with such proof of qualifications required by the board, and approved by the board or its lawful representative. The approval of any assignment so filed and supported may not be withheld in any case where the rights or interest of the state in the property assigned will not in the judgment of the board be prejudiced thereby, and the decision of the board in all cases is subject to appeal upon proper court proceedings.

(2) All other assignments of oil and gas leases issued under this part or interests therein are subject to approval by the board and are binding upon the state in the discretion of the board.

77-3-439. Surrender of leases. The lessee under any oil and gas lease granted by the state may at the termination of any rental year, by giving to the department 30 days' previous notice in writing, surrender and relinquish the lease to the state in whole or as to any legal subdivision of the lands covered thereby and be discharged from any obligation not yet accrued as to lands so surrendered and relinquished without prejudice to the continuance of the lease as to lands not surrendered or relinquished.

In all cases where an oil and gas lease issued after March 3, 1955, is surrendered for cancellation before its expiration, relinquished to the state, or canceled through proceedings on the part of the state, no new lease on the lands under such lease may be issued within 30 days from the date of cancellation or relinquishing. This restriction does not apply, however, in cases of bona fide assignment.

77-3-442. Disposition of property of lessee upon termination of lease. (1) Upon the termination for any cause of a lease issued under this part, the former lessee has 6 months after the date of the termination to remove from the premises all machinery, fixtures, improvements, buildings, and equipment belonging to the lessee, except for casing in the wells and other equipment or apparatus necessary for the preservation of any oil or gas well or wells. As to the casing, equipment, and apparatus, any succeeding lessee or, in the event there is no succeeding lessee, the state wishing to have the property left upon the premises shall pay a reasonable value for the property to the former lessee.

(2) If the succeeding lessee or the board is unable to agree with the former lessee upon the reasonable cash value of the casing, equipment, and apparatus, the succeeding lessee or, if there is no succeeding lessee, the state shall pay in cash to the former lessee a sum fixed as a reasonable price by a board of three appraisers, one of whom must be chosen by the successful bidder, one by the former lessee, and the third by the two appraisers chosen. If a person refuses to appoint an appraiser within 15 days of a request to do so by the department, the department may appoint an appraiser for that person. The appraisal must be reported to the respective parties in writing and is final and conclusive.

(3) Unless the department gives written authorization, the former lessee may not remain in possession or manage the land and property formerly covered by the lease. During the time the former lessee remains in authorized possession, the lessee may retain the same share of the products of the premises as inured to the lessee during the term of the lease. If the state or other bidder does not desire any of the lessee's property as provided in this section, the lessee shall properly plug all wells and remove all of the lessee's property from the premises.

77-3-443. Reservation in lease for disposition of surface. In every oil and gas lease granted pursuant to the terms hereof there shall be reserved unto the state the right to sell, lease, or otherwise dispose of the surface of the lands covered thereby, subject always to the rights and privileges granted unto the lessee under such oil and gas lease.

77-3-444. Limitation on overriding royalties and payments out of production. (1) A person, partnership, or association may not enter into an agreement that in the aggregate creates overriding royalties or payments out of the production of oil and gas in excess of 5%

above the landowner's royalty payable to the state of Montana unless that agreement expressly provides that the obligation to pay overriding royalties or payments out of production may be suspended by the director of the department at any time upon a determination that the excess overriding royalties or payments out of production constitute a burden on lease operations to the extent that:

(a) proper and timely development may be retarded;

(b) continued operation of the lease may be impaired; or

(c) premature abandonment of the wells may occur.

(2) This section applies separately to any zone or portion of a lease segregated for computing a royalty due to the state of Montana.

(3) All agreements of any kind creating overriding royalties or payments out of production of oil and gas must be filed with the department within 30 days of their creation by the lessee.

77-3-451. Limitation on public inspection rights. The department may withhold from public inspection any information obtained from an oil or gas lessee under this part if the information, including drill logs, seismic data, and lithographic descriptions, relates to the geology of the oil or gas lease. The withholding is effective for as long as the department considers it necessary either to protect the lessee's economic interest in the geologic information against unwarranted injury or to protect the public's best interest.

77-4-106. Bonding requirements. The board may, at any time prior to the execution and delivery of a geothermal lease or at any time during the life of the lease, require a lessee to file with the department a bond to protect the rights of the state. The bond shall be in form and amount prescribed by the board. The board may at any time require new or additional bonds if the interests of the state will not adequately be protected by the bond previously filed.

The board may require the geothermal lessee to post a bond in an amount to be set by the board to insure the payment of damages to any surface lessee. If the surface lessee and the geothermal lessee disagree as to the reasonable amount of surface damage, damage shall be ascertained in the same manner as prescribed in 77-4-129.

History: En. 81-2607 by Sec. 7, Ch. 111, L. 1974; R.C.M. 1947, 81-2607.

77-4-108. Water rights in connection with geothermal development. If any geothermal development located on state land requires the utilization of water, the lessee may, at any time prior to 1 year before the expiration of his lease, make application to the board for permission to secure a water right to the land under his lease. Such application shall be in writing, show the permanency of the water supply, and the estimated cost of utilizing such water resources. If the proposed plan meets with the approval of the board, permission shall be granted to the lessee to secure the desired water right for the land. 77-4-121. Provisions of the lease. (1) A lease issued by the board gives the lessee, so long as he complies with the terms and conditions of the lease, the exclusive right of possession of the lands or interests leased, subject to conditions contained in the lease.

(2) In every geothermal resource lease granted there is reserved to this state the right to sell, lease, or otherwise dispose of the surface of the lands covered thereby subject to the rights and privileges granted the lessee under the terms of the lease.

(3) Every lease shall specify the rental and royalty to be paid, reasonable forfeiture provisions, and reasonable terms under which the lessee may, within a specified time, remove property placed on the leased lands upon the termination of the lease by forfeiture or by lapse of time.

(4) Furthermore, the lease may contain other provisions the board and the lessee agree upon, provided that the additional terms are not inconsistent with this part.

History: En. 81-2604 by Sec. 4, Ch. 111, L. 1974; R.C.M. 1947, 81-2604(part).

(1) Nothing contained in this part or other related laws shall prevent the board from entering into agreements for the pooling of acreage for unit operations for the production of geothermal resources and apportionment of geothermal royalties on an acreage or other equitable basis or from modifying the royalty provisions of existing leases and all subsequent leases in accordance with pooling agreements and unit plans of operation. No agreement may be entered into which changes the percentage of royalties to be paid to the state from the percentages fixed in its leases.

(2) Geothermal resources produced from any part of a unit in which state lands are included by virtue of a pooling agreement shall be considered to be produced from the state lands therein.

77-4-128. Permission for and disposition of improvements. (1) A geothermal lessee of state lands has the right to place upon the leased lands a reasonable amount of improvements, provided that such improvements are directly related to the purpose of the lease.

(2) Whenever another person becomes the geothermal lessee, he shall pay the former lessee the reasonable value of such improvements at the time the new lessee takes possession thereof.

(3) In determining the value of these improvements, the original cost, the present condition, and the suitableness of the improvements for the uses ordinarily made of geothermal resources shall be considered.

(4) The former lessee may, however, remove or dispose of the movable improvements from the land within 60 days from the expiration of his lease except for the well casing and other equipment necessary for the preservation of any geothermal well. If not removed within 60 days, improvements shall become the property of the state unless the board shall grant additional time for the removal thereof. Before a lease is issued to the new lessee he shall show that he has paid the former lessee the value of the improvements as agreed upon by them or as fixed and determined under 77-4-129, that he has offered to pay the value of the improvements as so fixed and determined, or that the former lessee elects to remove the improvements.

77-4-129. Procedure to fix value of improvements. (1) If the owner of any improvements on state lands of the type authorized by law at the time they were placed thereon desires to sell these improvements to the new lessee and they are unable to agree on the value thereof, the value shall be ascertained and fixed by three arbitrators, one of whom shall be appointed by the owner of the improvements, one by the new lessee, and the third by the two arbitrators so appointed. The reasonable compensation that the arbitrators may fix shall be paid in equal shares by the owner of the improvements and the new lessee. The value of the improvements so ascertained and fixed is binding on both parties.

(2) If either party is dissatisfied with the valuation so fixed, he may within 10 days appeal from their decision to the department which shall examine the improvements and make the final decision as to the value of the improvements. The department shall apportion the actual cost of the reexamination to the owner and the new lessee as justice may require. The value of the improvements shall be ascertained and fixed as provided in 77-4-128.

77-4-205. Notice of proposed lease or license. If these preliminary investigations and the offer made for lease or license are such that the board deems further proceedings on the application to be justified, it shall cause notice of the proposed lease or license to be published not less than once each week during not less than 6 weeks previous to the meeting at which further consideration will be given to the application in two newspapers of general circulation throughout the state, one of such newspapers to be published in the neighborhood of the location of the power site.

History: En. Sec. 3, Ch. 123, L. 1931; re-en. Sec. 1904.3, R.C.M. 1935; R.C.M. 1947, 81-1803(part).

77-4-206. Meeting of board on proposed lease or license. (1) At this meeting all other applications which may have been received for lease or license to such power sites shall be duly considered together with the application originally filed.

(2) The board shall have the right to reject any or all bids.

(3) If, however, the board finds that any of the bids submitted offers to pay adequate rental for such power site, shows to the satisfaction of the board that it is capable of carrying out the proposed development and of rendering efficient service to the customers that will be served from such power development, and intends in good faith without any unnecessary delay to

proceed with the development, then the board shall accept such bid. If more than one such acceptable bid is received, then the lease or license shall be awarded to the person, corporation, or municipality whose offer, considered in its totality, is the most advantageous to the state.

77-4-210. Joint development with United States. (1) If the state land constituting a power site is part of a larger power site owned or controlled by the government of the United States, then the board may grant a joint lease or license with the United States for the development of the power site and the distribution, use, and disposition of the electrical energy generated at the power site under the laws of the United States and regulations issued pursuant to those laws.

(2) The lease or license may be granted for a term not exceeding 50 years.

(3) The share or percentage of ownership of the state in the joint power site must be in proportion to the total contribution that the lands of the state make to the value of the entire power site. Before the share of the state in the power site is advertised for lease or license, the percentage of the state's share in the entire power site must be calculated and agreed upon between the state and the United States.

(4) The fee or compensation to be paid to the state under the lease or license must be calculated on the basis of the state's share of ownership in the entire power site as calculated and agreed to. However, the fee or compensation may not be less than the full market value of the estate or interest disposed of in the lands through the granting of the lease or license to be carefully ascertained from all available sources.

(5) Before the lease or license is issued, notice of the lease or license must be given in the same manner as required in this chapter for the issuance of a separate lease or license by the state.

77-4-211. Amortization of investment. (1) In all cases where the lease or license issued by the United States requires the amortization of the investment made in dams, machinery, equipment, and appurtenant works, such amortization requirement shall also apply to that portion of the investment representing the state's part or share in the power site so that the state will at all times retain its full share of ownership in the power site and in the dams, machinery, equipment, and appurtenant works.

(2) If the state lands constitute a separate power site wholly owned by the state and independently developed, the lease or license issued by the state may provide for the amortization of the capital invested in the dam, machinery, equipment, and appurtenant works, not including the distribution system, so that ultimately the state will become the owner of the power site including the dam, machinery, equipment, and appurtenant works, not including the distribution system.

Timber Sales and Removal

77-5-201. Sale of timber. (1) Under the direction of the board, the department may sell the timber crop and other crops of the forests after examination, estimate, appraisal, and report and under any rules established by the board.

(2) Timber proposed for sale in excess of 100,000 board feet must be advertised in a paper of the county in which the timber is situated for a period of at least 30 days, during which time the department must receive sealed bids up to the hour of the closing of the bids, as specified in the notice of sale.

(3) (a) In cases of emergency due to fire, insect, fungus, parasite, or blowdown or in cases when the department is required to act immediately to take advantage of access granted by

permission of an adjoining landowner, timber proposed for sale not in excess of 1 million board feet may be advertised by invitation to bid for a period of not less than 10 days. The department may reject any or all bids, upon approval of the board, or it shall award the sale to the highest responsible bidder.

(b) (i) In cases when the department is required to act immediately to take advantage of access granted by permission of an adjoining landowner and there is only one potential buyer with legal access, the department may negotiate a sale of timber not in excess of 1 million board feet without offering the timber for bid if the sale is for fair market value.

(ii) The provisions of subsection (3)(b)(i) do not apply to situations when the only access is totally controlled by a potential purchaser of the timber, in which case the department shall seek to negotiate permanent, reciprocal access.

(c) In the situations described in subsections (3)(a) and (3)(b)(i), the department is not required to comply with the provisions of 75-1-201(1) to the extent that compliance is precluded by limited time available to take advantage of the sales opportunities described by this subsection (3).

(1) Upon award of sale the purchaser shall execute a formal agreement, approved by the board, which describes the area on which the timber is to be cut, the approximate quantity to be cut by species, and the rate for each product of each species. The agreement shall stipulate that all timber shall be paid for in advance of cutting, fix a date for termination of the agreement, and define rules of silviculture, cutting, utilization, scaling, and slash disposal and such other rules as in the discretion of the board are essential to the perpetuation of the state forests.

(2) (a) Except as provided in subsection (2)(b), as a guarantee for the faithful performance of the agreement, the purchaser shall be required to furnish a bond, with sufficient sureties, to the state of Montana, in an amount equal to the potential loss to the state, as determined by the department.

(b) The bond required under this section must be in an amount equal to at least 5% of the estimated value of the timber sold.

77-5-204. Sale of timber — fee for forest improvement. (1) The board may sell timber on state lands, at a price per 1,000 board feet, when appropriate, that, in the board's judgment, is in the best interest of the state, provided that live timber is not sold for less than full market value.

(2) Timber sold or cut from state lands must be cut and removed under rules that may be prescribed by the board for standing timber preservation and fire prevention. In all cases, the board shall require the person cutting the timber to pile and burn or otherwise dispose of the brush and slash in the manner that may be prescribed by the board.

(3) Before the sale of timber is granted, the value of the timber must be appraised under the direction of the department, upon the request and subject to the approval of the board. An appraisal must show as nearly as possible the value per 1,000 board feet, when appropriate, of all merchantable timber.

(4) In addition to the price of the timber established under subsection (1), the board may require a timber purchaser to pay a fee for forest improvement. Revenue from the fee must be deposited in the state special revenue fund to the credit of the department and, as appropriated by the legislature, may be used only for:

(a) disposing of logging slash;

(b) acquiring access and maintaining roads necessary for timber harvesting on state lands;

(c) reforesting, thinning, and otherwise improving the condition and income potential of forested state lands; and

All sales of timber on state lands shall be subject to the approval and confirmation by the board, and no sale shall be deemed completed until after such approval and confirmation. The board shall have the power and it shall be its duty to disapprove any sale which in its opinion would be disadvantageous to the state.

(1) The department shall establish a salvage timber program that provides for the timely salvage logging on state forests of dead or dying timber or timber that is threatened by insects, disease, fire, or windthrow. In managing the harvest of salvage timber, the department shall consider:

(a) the economic value of the timber to be salvaged;

(2) The department shall, to the extent practicable, harvest dead and dying timber before there is substantial wood decay and value loss.

(3) The department may sell salvage timber pursuant to this part.

(4) The department's salvage timber program may not take precedence over the timely sale and harvest of green timber.

History: En. Sec. 2, Ch. 285, L. 1993.

77-5-208. Timber conservation license in lieu of sale. (1) Under the direction of the board, the department may offer and provide a timber conservation license in lieu of the sale and harvesting of the timber to any person under all of the following conditions:

(a) During the environmental review process required by Title 75, chapter 1, for a proposed timber sale, an interested person shall provide to the department a written request that the department defer the sale or a specific portion of the sale and that a timber conservation license for the sale or portion of the sale be authorized.

(b) Upon receipt of a written request, the department shall prepare and recommend the timber sale for consideration by the board, using the alternatives of the sale with and the sale without a timber conservation license provision.

(c) The department shall solicit bids simultaneously for each alternative authorized by this section to ensure that the full, fair market value is secured for the beneficiaries.

(d) The successful purchaser of a timber conservation license is required to furnish a bond, as required by 77-5-202, to ensure the terms of the contract for a timber conservation license.

(e) The successful purchaser of a timber conservation license is required to pay the fees for forest improvement, as required by 77-5-204, that are included in the terms of the sale bid and applicable to the issuance of a timber conservation license.

(2) If a request for the timber sale analysis and authorization of a timber conservation license is not submitted to the department prior to the completion of the environmental review process for the sale, as required by Title 75, chapter 1, a timber conservation license may not be authorized.

77-5-221. Definition. As used in 77-5-222, 77-5-223, and this section, "annual sustainable yield" means the quantity of timber that can be harvested from forested state lands each year in accordance with all applicable state and federal laws, including but not limited to the laws pertaining to wildlife, recreation, and maintenance of watersheds, and in compliance with water quality standards that protect fisheries and aquatic life and that are adopted under the provisions of Title 75, chapter 5, taking into account the ability of state forests to generate replacement tree growth.

History: En. Sec. 1, Ch. 517, L. 1995.

77-5-222. Determination of annual sustainable yield. (1) The department, under the direction of the board, shall commission a study by a qualified independent third party to determine, using scientific principles, the annual sustainable yield on forested state lands.

(2) Until the study required by subsection (1) is completed, the annual sustainable yield is considered to be a range of 45 million board feet to 55 million board feet.

History: En. Sec. 2, Ch. 517, L. 1995.

77-5-223. Annual sustainable yield as timber sale requirement — review. (1) The annual sustainable yield constitutes the annual timber sale requirement for the state timber sale program administered by the department. This annual requirement may be reduced proportionately by the amount of sustained income to the beneficiaries generated by site-specific alternate land uses approved by the board.

(2) After it is determined under 77-5-222, the annual sustainable yield must be reviewed and redetermined by the department, under the direction of the board at least once every 10 years.

Part 3
Streamside Management Zones

Part Cross-References

Water Use, Title 85.

77-5-301. Findings and purpose. (1) The legislature finds that the streamside management zone:

(a) acts as an effective sediment filter to maintain water quality;

(b) provides shade to regulate stream temperature;

(c) supports diverse and productive aquatic and terrestrial riparian habitats;

(d) protects the stream channel and banks;

(e) provides large, woody debris that is eventually recruited into a stream to maintain riffles, pools, and other elements of channel structure; and

(f) promotes flood plain stability.

(2) The legislature further finds that maintaining the integrity of forest streams is crucial to the quality and quantity of water available to Montanans for domestic, agricultural, industrial, and recreational use.

(3) The legislature further finds that forest streams are highly susceptible to impacts from land development and that in many cases forest practices in streamside zones in Montana are causing excessive and unnecessary damage to the banks, beds, and protective vegetation of forest streams.

(4) The legislature further finds that, through careful management in the streamside zone, owners and operators can achieve timber harvest goals without sacrificing water quality or impairing the beneficial uses of the water.

(5) The purposes of this part are:

(a) to protect the legitimate public interest in the quality and quantity of forest waters;

(b) to provide for standards, oversight, rehabilitation, and penalties to ensure that forest practices are conducted in a manner that conserves the integrity of Montana's streamside zones;

(c) to provide guidelines for the management of wildlife habitat in streamside zones; and

(d) to allow operators necessary flexibility to use practices appropriate to site-specific conditions in the streamside management zone.

History: En. Sec. 1, Ch. 608, L. 1991.

77-5-302. Definitions. As used in this part, the following definitions apply:

(1) "Alternative practices" means forest practices that are:

(a) conducted in the streamside management zone and that are different from practices required by rules adopted under this part;

(b) designed for site-specific conditions encountered during a timber sale; and

(c) subject to department approval under 77-5-303.

(2) "Department" means the department of natural resources and conservation provided for in 2-15-3301.

(3) "Forest practices" means, within a timber sale, the harvesting of trees, road construction or reconstruction associated with harvesting and accessing trees, site preparation for regeneration of a timber stand, reforestation, and management of logging slash. The term does not include activities related to the operation of a Christmas tree farm or nursery that do not involve new road construction.

(4) "Operator" means a person responsible for conducting forest practices. An operator may be the owner or a person who, through contractual agreement with the owner, is obligated to or entitled to conduct forest practices or carry out a timber sale.

(5) "Owner" means an individual, firm, partnership, corporation, or association of any nature that holds an ownership interest in forest land or timber.

(6) "Person" means an individual, firm, partnership, company, commercial entity, corporation, or association.

(7) "Stream" means a natural watercourse of perceptible extent that has a generally sandy or rocky bottom or definite banks and that confines and conducts continuously or intermittently flowing water.

(8) "Streamside management zone" or "zone" means a stream, lake, or other body of water and an adjacent area of varying width where management practices that might affect wildlife habitat or water quality, fish, or other aquatic resources need to be modified. The streamside management zone encompasses a strip at least 50 feet wide on each side of a stream, lake, or other body of water, measured from the ordinary high-water mark, and extends beyond the high-water mark to include wetlands and areas that provide additional protection in zones with steep slopes or erosive soils.

(9) "Timber sale" means a series of forest practices designed to access, harvest, or regenerate trees on a defined land area for commercial purposes.

History: En. Sec. 2, Ch. 608, L. 1991; amd. Sec. 1, Ch. 320, L. 1993; amd. Sec. 325, Ch. 418, L. 1995.

77-5-303. Standards for forest practices in streamside management zones. (1) The following practices are prohibited in a streamside management zone:

(a) broadcast burning;

(b) the operation of wheeled or tracked vehicles except on established roads;

(c) the forest practice of clearcutting;

(d) the construction of roads except when necessary to cross a stream or wetland;

(e) the handling, storage, application, or disposal of hazardous or toxic materials in a manner that pollutes streams, lakes, or wetlands or that may cause damage or injury to humans, land, animals, or plants;

(f) the side-casting of road material into a stream, wetland, or watercourse; and

(g) the deposit of slash in streams or other water bodies.

(2) The department shall publish and distribute the rules implementing the streamside management standards.

History: En. Sec. 3, Ch. 608, L. 1991.

77-5-304. Inspection — onsite consultation. (1) The department may inspect forest practices on any federal, state, or private land in this state to assess compliance with the provisions of this part and rules adopted pursuant to this part.

(2) The department may conduct an onsite consultation with an owner or operator to review harvest plans and watershed conditions. During the onsite consultation, the department may review and, if appropriate, approve the proposed use of alternative streamside management practices, as provided in 77-5-303.

History: En. Sec. 4, Ch. 608, L. 1991.

77-5-305. Responsibility for compliance — penalties — administrative orders. (1) (a) Except as provided in subsection (1)(b), it is the responsibility of the owner to ensure compliance with the provisions of this part and rules adopted pursuant to this part.

(b) If a written contract between an owner and an operator specifies that the operator is responsible for compliance with laws relating to forest practices, the operator is considered the responsible party for all enforcement actions taken by the department under this section.

(2) A person who violates a provision of this part, a rule adopted pursuant to this part, or an order issued under this section shall be subject to a civil penalty not to exceed $1,000. Each day of violation constitutes a separate violation.

(3) (a) When the department determines that an owner or operator has violated a provision of this part or a rule adopted pursuant to this part and has caused damage to watershed or wildlife resources, the department may serve an order requiring the person responsible for the conduct of forest practices to undertake necessary site rehabilitation within a reasonable period of time stated in the order. The order must specify the nature of the violation and the damage or unsatisfactory condition resulting from the violation.

(b) The order becomes final unless, within 30 days after the notice is served, the person named requests in writing a hearing before the department. On receipt of the request, the department shall schedule a hearing. Service by mail is complete on the date of mailing.

(c) If, after a hearing, the department finds that a violation has occurred and the watershed or wildlife habitat damage warrants site rehabilitation, it shall affirm or modify the order previously issued. If the department finds that a violation has not occurred or that site rehabilitation is not warranted, it shall rescind the order.

(d) The department may include in an order a provision that the owner or operator immediately cease causing further damage and take immediate action to alleviate the damage or to prevent future damage. The department may institute an action for injunctive relief under Title 27, chapter 19, if the recipient of the order does not comply with it.

(4) Subsection (3) does not prevent the department from seeking voluntary compliance and site rehabilitation through warning, conference, or any other appropriate means.

(5) All fines and penalties levied under this section must be deposited in the state general fund.

History: En. Sec. 6, Ch. 608, L. 1991.

77-5-307. Rulemaking. The department shall adopt rules:

(1) implementing each of the management standards provided in 77-5-303;

(2) providing specific direction necessary for owners and operators to understand and comply with the management standards, including additional definition of the streamside management zone and the forest practices permissible within the zone;

(3) providing alternative practices for the standards provided for in 77-5-303; and

(4) regulating the harvest of timber in streamside management zones.

If there are applications or bids for renting certain land for grazing purposes and also applications or bids for renting the same land for agricultural purposes, an inspection of the land shall be made by the department at the earliest practical opportunity and a determination made, based on its findings, of the highest and best use which can be made of the land or portions thereof. 77-6-112. Liens on crops and improvements. (1) The state has a lien upon all crops growing upon any of its lands and upon the crops after they have been separated from the lands for any rentals and penalties due or delinquent under the lease on the lands or becoming due during the calendar year in which the crops are harvested, for any year or part of a year that the land has been held or used by the lessee. This lien applies to all buildings, structures, fences, and all other improvements and is prior and superior to all other liens, except threshermen's liens and seed liens specified in 71-3-701 and 71-3-801, which have priority, but only for the aggregate amount of the indebtedness then existing, including any advances theretofore made, interest due and other charges as evidenced by the original loan-contract, and indebtedness thereafter accumulating on such basis, exclusive of any other future advances originally contemplated.

(2) Any person acquiring any of these crops or improvements takes them subject to this lien. The department or the sheriff of the county in which the land is located may demand of the lessee payment of the amounts due the state, and if they are not paid upon demand, the officer making the demand or the department may seize and sell, either at a private or public sale, upon giving notice for not less than 3 days of the sale, sufficient of those crops or improvements, or of both, to pay the amounts due the state together with costs and expenses of seizure and sale. These provisions relating to liens on crops and improvements shall be embodied in all leases for agricultural and grazing lands and for town, city, or other lots.

77-6-113. Lease conditions — cancellation. (1) It shall be a condition of all leases of agricultural or grazing state lands that:

(a) in the case of agricultural lands, the lessee shall observe the ordinary rules for good management of agricultural lands and shall handle the leased land with the view of maintaining its productivity and minimizing wind and soil erosion and noxious weeds and planting crops with a view of securing the greatest yields of good quality; and

(b) in the case of grazing lands, the lessee shall observe the ordinary rules for good range management and shall manipulate the numbers, class, distribution, and season of the range use and the handling, feeding, breeding, and marketing of grazing livestock with a view of securing the production of the maximum of livestock and livestock products, consistent with the conservation of the land resources and the perpetuation of its productivity, and to these ends the state land lease may not be abused by overgrazing.

(2) For the gross violation of any of these rules, the lease involved shall be canceled by the department, subject to the appeal procedure provided in 77-6-211.

77-6-115. Acquisition of water right by lessee. (1) The lessee of state lands may at any time prior to 1 year before the expiration of his lease make application to the board for permission to secure a water right to the land under his lease. Such application shall be in writing, shall show how much of the land can be irrigated, the permanency of the water supply, and the probable cost of placing the land under irrigation. If the proposed plan meets with the approval of the board, permission shall be granted the lessee to secure the desired water right for the land and to place the same under irrigation.

(2) If such water right becomes a permanent and valuable improvement, then in case of the sale or lease of the lands to other parties, the former lessee shall be entitled to receive compensation in the amount of the reasonable value thereof, as in the case of other improvements, from the new lessee or the purchaser.

(3) These provisions shall not be so construed as to make the state liable to the lessee for the payment of the cost or value of such irrigation improvements.

77-6-116. Voluntary termination of lease to allow concurrence with federal conservation reserve program — competitive bidding required. (1) A lessee of state land who wishes to enter the state land in the federal conservation reserve program may request voluntary termination of the remainder of the lease prior to scheduled expiration in order to seek a renewal lease that will run concurrently with the federal program. The lessee shall apply for voluntary termination to the department on a form prescribed by the department. The form must specify:

(a) the name of the lessee and a designation of the leased land for which voluntary termination is sought;

(b) the scheduled termination date of the lease; and

(c) the term of eligibility of the land under the federal conservation reserve program.

(2) Upon receipt of a proper application, the department shall terminate the remainder of the lease. When a request for voluntary termination is granted, the department shall fulfill the notification requirements of 77-6-204, and the lease is subject to the same competitive bidding process as renewal leases under 77-6-205. However, the lessee requesting voluntary termination retains the preference right allowed under 77-6-205.

(3) If a lease renewal is granted pursuant to 77-6-205 to a lessee who has requested voluntary termination under this section, the term of the renewal lease must coincide with the term of eligibility under the federal conservation reserve program.

77-6-201. Appraisal of grazing lands. (1) The department shall appraise the grazing lands owned by the state as to their animal-unit-month carrying capacity and make and preserve records thereof in its office and from time to time reexamine these lands as to their animal-unit-month carrying capacity so as to keep the records thereof in its office reasonably accurate.

(2) In appraising these grazing lands the following factors shall be taken into consideration:

(a) inventory of the forage resources—kind, amount, and location of vegetation;

(b) accessibility and usability of this forage resource as influenced by topography, availability of stock water, and season of usability;

(c) condition of soils—the erosion situation;

(d) other and related resources such as timber, game animals, need for watershed protection;

(e) record of needed improvements and facilities—fuel and stock water, revegetation, rodent control, trails, fences, and the like;

(f) pertinent facts and figures submitted by stockmen living in the area and directors of state grazing districts including the land or in its vicinity;

(g) carrying capacity set for similar land in a state grazing district in which the land is situated.

77-6-202. Lease by competitive bidding — full market value required. When the department receives an application to lease an unleased tract, it shall advertise for bids on the tract. The tract must be leased to the highest bidder unless the board determines that the bid is not in the state's best interest for the reasons set forth in 77-6-205(2). The board may not accept a bid that is below full market value. If the high bid is rejected, the board shall set forth the reasons for the rejection in writing. The lease may be issued, at a rental rate to be determined by the board, to the first bidder who is willing to pay the board-determined rate whose name is selected through a random selection process from all bidders on the tract.

(1) A person bidding for the lease of state lands shall deposit with the department, as evidence of good faith, a certified check, cashier's check, or money order in an amount equal to 20% of the annual rental bid in the case of grazing land and an amount equal to $1 per acre for each acre of agricultural land contained in the lease in the case of agricultural land on which the bid is made on a crop share basis.

(2) The department shall retain the deposit of the successful bidder, apply it on the rental for the first year of the lease only, and return any balance of the deposit at the end of the first year to the successful bidder. The department shall return the deposits of the unsuccessful bona fide bidders. If the department finds a bid has been submitted that is frivolous, forged, or a bad faith bid or a bid submitted for purposes of harassment, the deposit is forfeited. The department shall make a reasonable attempt to notify the bidder in writing of the forfeiture and reasons therefor.

(3) If the successful bidder fails to execute the lease for any reason, his deposit shall be forfeited.

(4) The department shall credit all forfeited deposits to the interest and income account of the proper trust.

77-6-204. Notification of termination of lease. When a lease expires, is canceled, or is voluntarily terminated under 77-6-116, the department shall immediately notify the holder of the lease and all persons who have expressed an interest in leasing the land during or immediately preceding the term of the expired, canceled, or terminated lease.

77-6-205. Renewal leases. (1) A lessee of state land classed as agricultural, grazing, town lot, city lot, or land valuable for commercial development who has paid all rentals due the state or who has voluntarily terminated a lease under 77-6-116 is entitled to have the lease renewed for a period not to exceed the maximum lease period provided in 77-6-109 at any time within 30 days prior to its expiration or within 30 days following voluntary termination if no other applications for lease of the land have been received 30 days prior to the expiration of the lease or within 30 days following voluntary termination. The renewal must be at the full market rental rate established by the board for the renewal period and subject to any other conditions at the time of the renewal imposed by law as terms of the lease. Except as provided in 77-6-212, if other applications have been received, the holder of the lease has the preference right to lease the land covered by the former lease by meeting the highest bid made by any other applicant. Applications for lease of lands in this section must be given preference in the order of their receipt at the office of the department.

(2) The board shall accept the highest bid. If the lessee exercises the preference right and believes the bid to be excessive, the lessee may request an administrative hearing. The request must contain a statement of reasons why the lessee believes the bid not to be in the state's best interest. The department shall grant the request for a hearing if it determines that the statement indicates evidence that the bid may not be in the state's best interests. The board may, after the hearing, reduce the rental from the amount bid if the lessee shows that the bid is not in the best interest of the state because it is above community standards for a lease of the land, would cause damage to the tract, or would impair its long-term productivity. If the board reduces the bid, it shall set forth its findings and conclusions in writing and inform the lessee and competitive bidder of the reduction. It is the duty of the board to secure the best lessees

possible, so that the state may receive the maximum return possible with the least injury occurring to the land.

(3) A renewal lease may be canceled pursuant to 77-6-113, 77-6-208, 77-6-209, or 77-6-210 for a violation by the lessee that occurred during the previous lease term but no more than 3 years prior to the date on which the notice of cancellation required by 77-6-211 is issued. Cancellation procedures instituted but not completed before renewal are applicable to the renewal lease.

(4) A renewal lease may be voluntarily terminated pursuant to 77-6-116.

The general form of lease to state lands shall be prescribed by the board, and no changes in the form for these leases may be made without the approval of the board. All leases shall be issued in duplicate, one copy shall be mailed to the lessee, and one copy shall be preserved by the department. Unless the board decides otherwise, these leases shall be issued without bonds, but the board may require a bond and prescribe the form and conditions thereof whenever it considers it necessary.

77-6-208. Assignment of leases — subleasing — loss of preference right. (1) Leases to state lands may be assigned on blanks prescribed by the department, but an assignment is not binding on the state unless the assignment is filed with the department and approved by it and payment made of the assignment fee under 77-1-302.

(2) Preference must always be given to the applicant who wants the land for the applicant's own individual use, so that the full advantage coming from the leasing and use of the lands may reach those who actually till the soil and so that they are not compelled to pay a higher rental than that due the state.

(3) (a) If a lessee, other than a holder of a commercial lease, subleases state lands on terms less advantageous to the sublessee than the terms given by the state, the department shall cancel the lease, subject to the appeal procedure provided in 77-6-211.

(b) If a lessee subleases state lands without filing a copy of the sublease with the department and without receiving the department's approval, the department may cancel the lease, subject to the appeal procedure provided in 77-6-211.

(c) Upon approval by the department, a commercial leaseholder may sublease state land on terms less advantageous to the sublessee than the terms given to the lessee by the state. However, the department may adjust the lease rate to require that the lessee pay the state a portion of what the sublessee pays to the lessee.

(4) The subleasing of state land may result in loss of the preference right to renew the lease as provided in 77-6-212.

(5) An assignment or series of assignments may not be made to avoid the loss of the preference right under 77-6-212.

(1) When land is leased for grazing purposes and the lessee desires to cultivate any part of the land, he shall, before doing any such cultivation, make application to the department stating how much land he desires to cultivate and showing the location in the section of the land and agree that for the remainder of the term of the lease the annual rental shall be at the rate of the original lease until such time as the first crop is harvested from the cultivated portion of the lease. At the time of the first harvest, the lease shall be at the original rate for that portion remaining as grazing land plus the crop share rental for that portion cultivated. If any person cultivates lands leased for grazing purposes without first securing the right to do so under this section, the department shall either cancel the lease, subject to the appeal procedure provided in 77-6-211, or require the lessee to pay twice the regular agricultural rental on the land so cultivated in addition to the grazing rental.

(2) The provisions of this section shall be incorporated in every lease.

77-6-210. Cancellation of leases. (1) The department may cancel a lease for any of the following causes:

(a) fraud, misrepresentation, or concealment of facts relating to its issue, which if known would have prevented its issue in the form or to the party issued;

(b) subleasing state land contrary to the provisions of 77-6-212;

(c) using the land for other purposes than those authorized by the lease;

(d) conviction of the lessee for a felony offense involving a dangerous drug, as defined in Title 50, chapter 32, and involving the planting, propagating, cultivating, growing, harvesting, manufacturing, compounding, converting, producing, processing, preparing, testing, analyzing, packaging, repackaging, storing, or concealing of a dangerous drug on any portion of the unit; however, when a state land lease is held by an association, company, or corporation, conviction of a member of the association, company, or corporation under this subsection does not result in cancellation of the lease unless it appears that the operator, manager, or family in control of the association, company, or corporation is a consenting party or privy to the violation of this subsection;

(e) for any other cause which in the judgment of the department makes the cancellation of the lease necessary in order to do justice to all parties concerned and to protect the interests of the state.

(2) Cancellation of a lease under this section does not entitle the lessee to any refund of rentals paid or exemption from the payment of any rentals, penalties, or other compensation due the state.

77-6-211. Procedure to cancel lease — appeal. (1) When the department cancels a lease pursuant to 77-6-113, 77-6-208, 77-6-209, or 77-6-210, it shall immediately notify the lessee by certified mail of the cancellation and the reasons therefor. The date of cancellation is 15 days from the date the notice is received by the lessee.

(2) The lessee has 15 days after the receipt of the notice to file with the department a notice of appeal for a hearing before the board. If notice of appeal is filed, the lease remains in effect until the decision of the board. Within 10 days after notice of appeal has been filed, the department shall set the time and place of hearing and shall so notify the lessee. The board may, after 10 days' notice to the lessee, change the time and place of hearing.

(3) Under rules it adopts, the board shall conduct an open hearing to determine whether the lease should be reinstated. The burden of proof is on the lessee to show why the lease should

not be canceled. If the lease is reinstated, all of the lessee's rights and privileges thereunder shall be preserved; if not, the land shall be open for re-leasing as provided by law. If the board finds that the terms of the lease have been violated but in its judgment the violation is not serious enough to warrant cancellation, it may reinstate the lease and assess a penalty up to three times the annual rental against the lessee.

77-6-212. Loss of preference right — cancellation of lease — subleasing — pasturing agreements. (1) Except as provided in subsections (3) and (4), a lessee of state land classed as agricultural or grazing land may not exercise the preference right provided in 77-6-205 if he subleases the land for more than 2 years in the term of the lease.

(2) The department shall cancel a lease of state agricultural or grazing land if the lessee subleases the land for more than 3 years during the term of the lease, unless the sublease is made between members of a family as provided in subsection (3).

(3) A lessee under subsection (1) or (2) may sublease the land for a period of not more than 5 years without losing the preference right or the lease to state land if, during the term of the lease, the land is subleased only to a spouse, son, daughter, adopted child, or sibling of the lessee.

(4) The lessee does not lose the preference right or right to lease because of subleasing as provided under this section if:

(a) the sublease is one-third or less acres of the lease; or

(b) the sublease is considered to be a pasturing agreement and is approved in writing by the department prior to the initiation of the agreement.

(5) For purposes of this section, a sublease may not be considered a pasturing agreement unless the lessee personally retains management and physical control of the land and livestock. "Management" means but is not limited to:

(a) providing all costs for improvements, land maintenance, and range renovation, if range renovation is approved by the department;

(b) making all decisions regarding rotation or other placement of livestock on state land;

(c) making all decisions regarding turn-in and turn-out dates of the livestock on state land; and

(d) making all decisions regarding proper range management, including placement of water, fencing, and salt.

(6) A lessee of state land classified as agricultural or grazing land shall lose the preference right provided in 77-6-205 upon conviction of a felony offense involving a dangerous drug, as defined in Title 50, chapter 32, and involving the planting, propagating, cultivating, growing, harvesting, manufacturing, compounding, converting, producing, processing, preparing, testing, analyzing, packaging, repackaging, storing, or concealing of a dangerous drug on any portion of the unit. When a state land lease is held by an association, company, or corporation, conviction of a member of the association, company, or corporation under this subsection does not result in loss of lease preference unless it appears that the operator, manager, or family in control of the association, company, or corporation is a consenting party or privy to the violation of this subsection.

Improvements

77-6-301. Improvements authorized. A lessee of state lands may place upon the lands a reasonable amount of improvements directly related to conservation of the land or necessary for proper utilization of it. These improvements may consist of fences, cultivation, improvement of the land itself, irrigation ditches, sheds, wells, reservoirs, and similar improvements.

77-6-302. Compensation for improvements — actual costs. (1) When another person becomes the lessee of the lands, the person shall pay to the former lessee the reasonable value of the improvements. The reasonable value may not be less than the full market value of the improvements.

(2) If the former lessee is unable to produce records establishing the reasonable value or if the former lessee and the new lessee are unable to agree on the reasonable value of the improvements, the value must be ascertained and fixed as provided in 77-6-306. The former lessee shall initiate this process within 60 days of notification from the department that there is a new lessee. Failure to initiate the process within this time period results in all improvements becoming the property of the state.

(3) Upon the termination of a lease, the department may grant a license to the former lessee to remove the movable improvements from the land. Upon authorization, the movable improvements must be removed within 60 days or they become the property of the state unless the department for good cause grants additional time for the removal. The department shall charge the former lessee for the period of time that the improvements remain on the land after the termination of the lease.

Consideration shall be given to all actual improvements and to all known effects that the use and occupancy of the land have had upon its productive capacity and desirableness for the new lessee.

(2) However, if any of the improvements consists of breaking (meaning the original plowing of the land) and 1 year's crops have been raised on the land after the breaking, the compensation for the breaking may not exceed $2.50 per acre, and if two or more crops have been raised on the land after the breaking, the breaking shall not be considered as an improvement to the land.

77-6-306. Arbitrators to fix value of improvements. (1) If the owner of any improvements on state lands of the type authorized by law at the time they were placed on state lands desires to sell these improvements to the new lessee and they are unable to agree on the value of the improvements pursuant to 77-6-302, the value must be ascertained and fixed by three arbitrators, one of whom is appointed by the owner of the improvements, one by the new lessee, and the third by the two appointed arbitrators. If any party refuses to appoint an arbitrator within 15 days of being requested to do so by the director of the department, the director may appoint an arbitrator for that party. An arbitrator appointed by the director has the same duties and powers as if appointed by one of the parties. The value of the improvements must be ascertained and fixed pursuant to 77-6-302.

(2) The reasonable compensation that the arbitrators may fix for their services must be paid in equal shares by the owner of the improvements and the new lessee.

(3) The value of the improvements ascertained and fixed is binding on both parties. If either party is dissatisfied with the valuation, the party may within 10 days appeal from the decision to the department. The department shall examine the records pertaining to the costs of the improvements, and except as provided in subsection (4), its decision is final. The department shall charge and collect the actual cost of the reexamination to the owner and the new lessee in the proportion as, in its judgment, justice may demand.

(4) If either party is dissatisfied with the valuation fixed by the department, the party may within 30 days after receipt of the department's decision petition the district court in the county in which the majority of the state land is located or the district court of Lewis and Clark County for judicial review of the decision.

To authorize transfer of a lease, a decree of foreclosure must specifically refer to the lease or the leased premises, but neither the board nor the department is required to be named as a party to the action. The plaintiff shall, however, file a copy of the complaint with the department at the time it is filed with the court.

Rental Provisions

77-6-501. Agricultural leases. (1) As to agricultural lands, all leases except lease renewals upon which the lessee has made improvements at the lessee's expense, as provided in subsection (3), must be continued or made upon a crop share rental basis of not less than one-fourth of the annual crops to the state or the usual landlord's share prevailing in the district, whichever is greater. The board may, however, approve special crop share rentals of less than one-fourth for high production cost crops, such as but not limited to potatoes and sugar beets, or for high production cost methods when these methods would result in more income to the state. The board may not delegate the authority to approve special crop share rentals.

(2) Except in the case of cash lease renewals under subsection (3), if it is in the best interests of the state, the department may authorize a lease upon other bases than crop share, but in these cases, the rental must at least equal the value of the usual landlord's share prevailing in the district under similar circumstances, and the department shall set forth in the records the conditions of the case and the rental to be charged.

(3) In a case in which the lessee has made substantial improvements for irrigation purposes to the lease at the lessee's own expense, the department shall authorize a cash lease renewal at not less than $15 an acre on the portion of the lease that has been improved.

(4) For all agricultural leases issued through competitive bidding provided for under 77-6-202 or 77-6-205, the department shall require on any competitive bid greater than a one-third crop share a minimum annual guarantee of not less than $15 an acre.

77-6-506. Date when rental due — penalty — cancellation for nonpayment. (1) For a grazing lease, for the grazing portion of a lease containing both agricultural and grazing land, and for agricultural leases not based on a crop share, the grazing rental for the first year of the lease must be paid at or before the time of the execution of the lease; however, in the case of a lease that takes effect on and after October 1 and before the expiration of the coming February, both the rental for the fractional year and for the next full year beginning March 1 must be paid and collected at the time of issuing the lease. If the United States is the lessee of state lands for grazing purposes, the rental is payable at the end of each year of the lease. The rental for each succeeding year on a lease issued after July 1, 1999, with the exception of a lease that involves the United States as the lessee, is due and payable before March 1. If the rental is not paid before March 1, a $25 penalty must be imposed on the lessee. If the full rental and the $25 penalty are not paid by April 1, the entire lease is canceled.

(2) For an agricultural lease and for the agricultural portion of a lease containing both grazing and agricultural land, when the rental is paid on a crop share basis or on a crop share/cash basis, the rental is due in cash on or before November 15 of the year in which the crop is harvested. If the rental is not paid on or before November 15 of the year of crop harvest, a $25 penalty must be imposed on the lessee. If the full rental and the $25 penalty are not paid on or before December 31 of the year in which the crop is harvested, the entire lease is canceled. The department may extend the deadline in writing. If the lessee does not make the rental payment by the date of extension, the entire lease is canceled. Any rental payment made after November 15 of the year in which the crop is harvested, including payment made after an extension of the deadline, must include the $25 penalty.

(3) For all state land leases and licenses other than those described in subsections (1) and (2), the department shall impose a $25 penalty for failure to make a rental payment by any deadline established by statute, by rule, or in the lease or license.

(4) At least 2 weeks prior to the final deadline for payment under subsection (1) or (2), the department shall send by certified mail to each lessee who has not made payment a letter notifying the lessee that the lease is canceled if payment and the $25 penalty are not received by the final deadline. The notice must be sent to the lessee at the address given in the lease.

(5) When a lease is canceled under subsection (1) or (2), the department shall notify the lessee of the cancellation by letter at the address given in the lease.

(6) The department may, within 30 days of cancellation, reinstate a canceled agricultural, grazing, or other surface lease upon payment of the rental that is owing, plus a penalty not to

exceed three times the annual rental, except that a penalty imposed under this subsection may not be less than $500.

(7) A canceled lease that is not reinstated must be made available for lease as provided in 77-6-202.

(8) The penalties collected pursuant to this section must be deposited into the same trust account as the rentals from the state land to which the penalties apply.
